

DÍA DE LOS MUERTOS NICHOS

Make these **NICHOS** to frame photos of your loved ones during **Día de Muertos**. Set them on a special corner or at your own altar.

SUPPLIES White card-stock • Scissors or craft knife • Glue or tape • A photo of a loved one that passed away (4" x 3" approximately)

1

Print all pages on cardstock. Cut along the lines and fold along the dashed lines.

2

Use glue or tape on the front tab and curve the front of the NICHOS to stick it to the inside of the back.

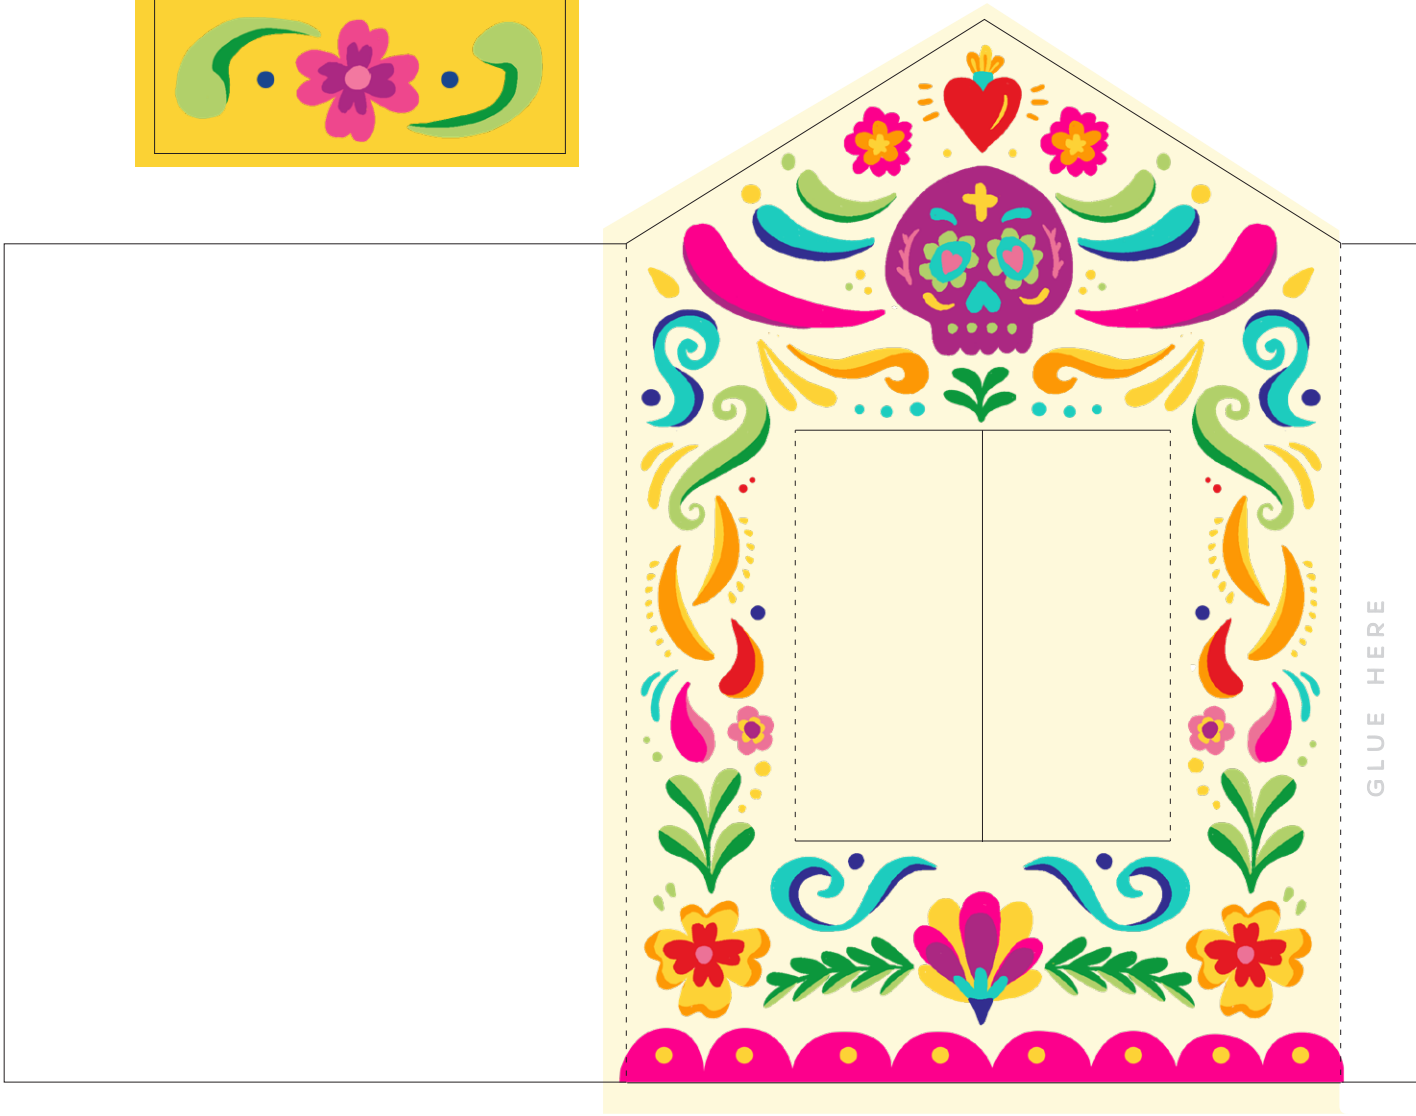

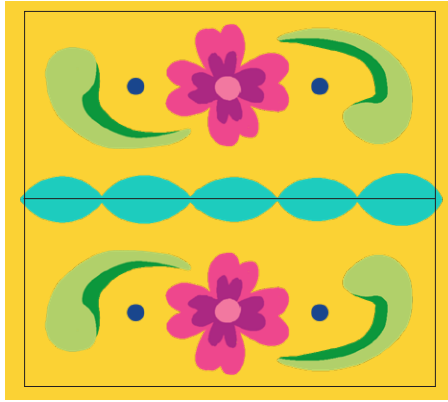

3

Glue your photo to the inside of the NICHOS keeping in mind what will end up showing through the window.

4

**For the NICHOS that has windows:* It will be easier to cut the opening with a craft knife. Cut the window designs separately and glue them to the inside of the opened NICHOS'S windows.
