Multifunction Printer

Xerox® WorkCentre® 5325/5330/5335 Multifunction Printer Evaluator Guide

About this Guide

This Evaluator Guide introduces you to the WorkCentre 5300 series multifunction printer, explains its key features and performance advantages, and provides guidance throughout your evaluation process.

Section 1: Evaluating Multifunction Printers

- 3 Evaluation Overview
- 4 Cost Control
- 5 Productivity
- 6 Installation and Deployment
- 7 Ease of Use and Management
- 8 Versatility
- 11 Security
- 13 Environmental Impact
- 14 Reliability

Section 2: Configuration Summary, Specifications, Supplies and Support Resources

- 15 Configuration Summary
- 16 Specifications and Supplies
- 18 Support Resources

Section 1: Evaluating Multifunction Printers

Overview

Based on continuous study of our customers' productivity requirements, Xerox recommends that the following criteria be used when evaluating which multifunction printer to purchase for your office.

Cost Control

Can you monitor and control your organization's printing costs?

Productivity

Can the multifunction printer keep up with the demands of your business or workgroup?

Installation and Deployment

How does the multifunction printer ease the demands of the deployment process?

Ease of Use and Management

Does the multifunction printer include tools and features to lighten the load for your technology administrators?

Versatility

Can the multifunction printer be customized to meet your specific needs?

Security

Does the device help keep your confidential information private?

Environmental Impact

Does the multifunction printer conserve natural resources with no loss of performance, reliability or output quality?

Reliability

Is the multifunction printer robust enough to meet your needs and backed by quality service?

This section examines each of the above evaluation criteria in greater detail, covering the specific features and performance attributes you should look for in a workgroup multifunction printer. When the same criteria are used to evaluate every device under consideration, you'll see how the WorkCentre 5325/5330/5335 multifunction printer excels against other manufacturers' products.

WorkCentre® 5300 Series Quick Facts

- Print and copy at up to 35 ppm
- Powerful scan and fax solutions
- Print up to 11 x 17 in. / A3
- Up to 1200 x 1200 dpi print resolution
- Max paper capacity: 5,090 sheets
- Best-in-class security — Full System Common Criteria Certified (ISO 15408)
- Xerox® Workflow Solutions built on the Xerox® Extensible Interface Platform® (EIP)

Print / Copy / Scan / Fax / Email

11 x 17 in. / A3

35 ppm

WxDxH:

23.5 x 25.1 x 43.9 in.
597 x 637.5 x 1,115 mm

WorkCentre 5335 with High-Capacity Tandem Tray

Section 1: Evaluating Multifunction Printers

Cost Control

One of the most critical considerations when evaluating a multifunction printer is its cost of operation. Does the vendor provide the tools you need to control access? Are accounting tools available to help track and assign printing costs? Does the vendor offer services to help you right-size your deployment?

How the WorkCentre 5300 series multifunction printer exceeds the cost control requirement

Driver solutions to reduce cost

Driver Defaults allow users to customize print settings for each application for economy and efficiency. Set duplex printing or N-Up as "default" and adjust settings for specific applications.

Accounting capabilities

Xerox provides multiple levels of accounting capabilities to give your organization the control it needs for tracking and assigning costs. These tools include:

- **Auditron** — controls and tracks and enables quota setting for output for copy activity by user or workgroup for analysis and billing purposes.
- **Xerox® Standard Accounting (XSA)** — builds on Auditron by adding web-based remote management for copy, print, scan and fax activity.

- **Network Accounting Enablement Kit (optional)** — enables Xerox MFPs to integrate with third-party accounting and billing solutions from Xerox® Business Partners.

Assessment options

Xerox can help you decrease your overall document costs by optimizing and right-sizing your technology deployment. Three levels of assessment tools and services are available to help you deploy the right mix of equipment to best serve the needs of your environment:

- **LEVEL 1: Xerox® Office Efficiency Calculator** — A five-minute, web-based "instant analysis" offers suggestions on your technology needs by comparing information you enter on your environment against key industry metrics.

- **LEVEL 2: Xerox® Office Productivity Advisor (XOPA)** — More in-depth, web-based tool assesses your specific document environment. XOPA results suggest better ways to manage page volume between printing, copying and faxing — they deliver end user satisfaction and cost efficiency. XOPA is a free service performed by your local Xerox sales representative.
- **LEVEL 3: Xerox® Office Document Assessment (ODA)** — An analytical model that measures and analyzes your current document production infrastructure, the ODA provides in-depth improvement plans for significant cost savings and increased efficiency. The ODA is a six-sigma, fee-based tool and consultative service oriented more at enterprise-level organizations.

Section 1: Evaluating Multifunction Printers

Productivity

In addition to actual print engine speed, consider the factors that affect overall throughput. Are the device's scanning and faxing features powerful enough to support the demands of your busiest departments? Is the device appropriately sized for the entire workgroup? Can important features be used simultaneously, or are employees forced to wait for the device to become "free"? Is the system designed to minimize network traffic? Can device functions be monitored from users' desktops and/or at the device?

How the WorkCentre 5300 series multifunction printer exceeds the productivity requirement:

Speed

The WorkCentre 5300 series delivers output speeds up to 25/30/35 ppm. Document handling speed is notable as well, with a 110-sheet duplex automatic document feeder (DADF) that scans color and black-and-white documents at 55 images per minute. With first-copy-out times as fast as 4 seconds, users won't have to wait long for their jobs to get started, either.

Network performance

Performance isn't limited to raw document feeds and speeds. The WorkCentre 5300 series multifunction printer features a high-performance processor plus 1 GB of memory and an 160 GB hard drive, delivering the necessary horsepower to process your large, complex jobs. In addition, 10/100/1000Base-TX Ethernet connectivity comes standard for shared network printing, and ensures you can connect the WorkCentre 5300 series according to your company's specific needs.

Image quality

With up to 600 x 600 dpi copy resolution and up to 1200 x 1200 dpi print resolution, the WorkCentre 5300 series multifunction printer generates high-quality copies and prints with crisp text and images. To ensure that printed output meets users' high expectations, Xerox also delivers multiple page description languages (PDLs) including PDF, XPS®, PCL® 6 emulation and optional Adobe® PostScript® 3™.

Concurrency

The controller's advanced design also helps avoid bottlenecks at the front panel. Concurrent operation means you won't have to wait until a long print job is complete to program a fax, scan or copy job. By keeping the front panel available for programming while the print engine is busy, users stay productive and avoid idle time waiting for the multifunction printer. Scan and fax jobs can be programmed and executed without waiting for the print engine to become available, while newly programmed copy jobs will join the job queue and be executed when earlier jobs are completed.

Print Around

The advanced Print Around feature holds a job in need of resources (such as a special paper size) and prints the next job in the queue, which means no more waiting for a critical print job.

Streamlined processes

Easily share files or introduce electronic archiving with powerful scan capabilities. Create text-searchable files at the device for easy retrieval. Compression technology reduces network load to enable fast transmission. Plus, you can create job flow sheets to automatically route documents to predefined locations, including combinations of email addresses, fax destinations and FTP/SMB sites.

Monitoring system status

The WorkCentre 5300 series multifunction printer delivers up-to-date information on every job — print, copy, scan, email or fax, plus in-depth device information. Whether at the device or from the desktop, users can easily manage documents and jobs through an integrated job queue. And for easy remote management, CentreWare® IS Embedded Web Server automates installation, troubleshooting, feature set-up and upgrading.

Section 1: Evaluating Multifunction Printers

Installation and Deployment

Installing and deploying a fleet of copier/printers and multifunction printers throughout your organization is a potentially time-consuming, complicated process. The process isn't limited to physically placing the units in their new environments, but also includes integrating the devices with the existing network infrastructure. Also consider the process required to deploy printing and scanning services to your users, and how automated that process can be.

How the WorkCentre 5300 series multifunction printer exceeds the installation and deployment requirements:

Installation

The WorkCentre 5300 series multifunction printer offers a small and compact footprint at 23.5 x 25.1 x 43.9 inches (w x d x h), which means the device fits even in offices where space is at a premium. The compact design was achieved with an inner catch tray and by reducing the size of sub-modules such as the scanner unit. You can even add basic finishing capabilities with the space-saving Integrated Office Finisher without increasing the overall footprint.

When you choose Xerox, you can rest assured that your equipment will be delivered and installed to your specifications and expectations. The WorkCentre 5300 series multifunction printer comes standard with 10/100/1000Base-TX Ethernet connection, with features including automatic IP addressing, device naming, and Ethernet speed sensing to provide simple and automatic network installation. Management and system setup can be accomplished through a variety of means, including easy wizard-based processes found within Xerox® CentreWare® Web. Features such as cloning enable multiple-device installation onto networks with identical settings, eliminating the need to set up each system individually.

Deployment

With the WorkCentre 5300 series multifunction printer, print and scan drivers can be deployed centrally, thereby eliminating the need for desk-to-desk manual installation of the driver software. CentreWare Web wizards are provided to aid in the processes of installing, troubleshooting and upgrading users' print and scan drivers. Driver support is delivered for Windows (Server 2003, 2008 / XP SP3 and higher/ Vista / 7), including most operating systems with 32- and 64-bit drivers; Macintosh OS 10.5 and above; and multiple UNIX and Linux platforms.

Plus, the WorkCentre 5300 series device will support two innovative print drivers that can greatly simplify installing, managing and supporting printers and multifunction printers on the network, and increase end-user productivity:

- Xerox® Mobile Express Driver® (X-MED) makes it easy for mobile users to find, use and manage Xerox and non-Xerox devices in every new location. Plug into a new network, and X-MED automatically discovers available printers and provides status and capability information. Save a list of "favorite" printers for each location, store application print settings for use on any printer in any network, and greatly reduce mobile support calls to IT.

- Xerox® Global Print Driver® (X-GPD) is a truly universal print driver that lets IT administrators install, upgrade and manage Xerox and non-Xerox devices from a single driver. It provides a consistent, easy-to-use interface for end-users, reducing the number of support calls, and simplifying print services management.

In addition, these drivers provide users with a consistent single interface for all printers, with real-time, dynamic reports of printer status. As a result, users can easily identify the best printer for their needs, quickly choose the correct options and see updated consumables status without the need for IT resources.

To learn more, and for free X-GPD and X-MED downloads, visit xerox.com/global and xerox.com/mobile.

Section 1: Evaluating Multifunction Printers

Ease of Use and Management

Look for fully integrated functions that work together to create more value than the sum of their parts. Are the functions easy to learn? Is the user interface consistent from function to function? Do the network features give users full access to the power of your network? Does the device include additional software to take full advantage of digital documents? Is the device easy for your organization to manage as part of its infrastructure?

How the WorkCentre 5300 series multifunction printer exceeds the ease of use requirement

Touch screen user interface

The touch screen user interface (UI) on the WorkCentre 5300 series multifunction printer is easy to learn and offers quick, intuitive job programming, even allowing users to preview scan jobs and documents stored on the device. It features touch-screen functionality with bright, colorful, logically organized icons, with the most commonly accessed features on the default screen. A selection of buttons accompanies the touch-panel UI for manual command and numbers inputs, management features access, and job execution (with the familiar green Start button). Third-party applications can be integrated with the front panel UI as well.

Bidirectional print drivers

The WorkCentre 5300 series multifunction printer utilizes CentreWare® print drivers to provide an easy, intuitive method of programming jobs and receiving updated system status information. Like the front-panel touch-screen UI, the print drivers are logically organized by tabs. The most commonly used features are located on the default tab, with advanced features easily accessible when programming more complex jobs. The print drivers also provide bidirectional information like system status, job status, currently loaded paper sizes, installed options and more.

How the WorkCentre 5300 series multifunction printer exceeds the ease of management requirement

Network management

It couldn't be easier for a network administrator: The WorkCentre 5300 series multifunction printer integrates into virtually any network environment. Network configuration is made simple with CentreWare Web configuration wizards, which eliminate the need for administrators to perform tasks at the front panel of each networked device. The WorkCentre 5300 series device includes support for multiple native network environments, including TCP/IP, IPv6, SNMP, SMB, Novel IPX, AppleTalk and IPP.

Xerox® CentreWare software

Xerox® CentreWare Web (CWW) software is a powerful device management solution. CWW is free software that eases the chore of installing, configuration, managing, monitoring and pulling reports from the networked printers and multifunction printers throughout your enterprise — regardless of vendor. Xerox also addresses enterprise asset management through compatibility with network management tools for Sun, Novell, Microsoft and other environments.

The WorkCentre 5300 series multifunction printer also includes CentreWare Internet Services (CWIS), an embedded web server that allows employees and administrators to perform detailed status checks on the system and consumables, administer system settings, and manage access and accounting controls via any standard web browser.

Automated supplies replenishment

Xerox offers Smart eSolutions, an application for automating and simplifying device management and ownership. The two Smart eSolutions applications, MeterAssistant® and SuppliesAssistant®, automate the process of reporting MFP usage data to Xerox and automatically ordering replacement supplies when toner levels run low.

- **MeterAssistant** — automatically collects and securely submits your device meter reads to Xerox using a built-in audit process to increase billing accuracy.
- **SuppliesAssistant** — proactively manages toner supplies and monitors usage to ensure you have the right supplies at the right time.

Xerox® Office Services

Lastly, Xerox offers a set of services for managing document output and asset infrastructure in offices. These services deliver measurable business results by leveraging a powerful set of office technologies, business processes, methodologies and software tools to reduce costs and improve productivity.

Section 1: Evaluating Multifunction Printers

Versatility

How many functions can the multifunction printer perform? Can it support the media types and capacity users require? Does it offer the kinds of finishing options that can help your staff perform their jobs more efficiently?

How the WorkCentre 5300 series multifunction printer exceeds the versatility requirement

Copy features

The WorkCentre 5300 series multifunction printer supports the daily copying volumes of busy workgroups. It features a powerful combination of output speed (up to 25/30/35 ppm), original-handling and advanced copy features.

The WorkCentre 5300 series features a 110-sheet DADF, which makes quick work of your jobs thanks to a fast processing speed of 55 images per minute.

A rich set of copy features enables users to create ready-to-distribute hard copies. Copy feature highlights include:

- **Automatic tray selection** — selects correct tray for specified media without requiring user intervention.
- **Configurable two-sided copying** — create two-sided copies of single- or double-sided originals.
- **Booklet creation** — create booklets by, for example, printing four letter-size pages onto tabloid-size media for folding as a four-page booklet.
- **ID Card Copy** — scans both sides of an ID card and prints it face-up on a single sheet of paper.
- **Multi-up** — prints multiple original pages onto a single copied page.
- **Sample set** — prints the first copy set for verification before releasing the remaining sets.

Print features

The WorkCentre 5300 series multifunction printer delivers a print output speed of up to 25/30/35 ppm plus a versatile array of print features, highlighted by:

- **Standard duplexing** — the WorkCentre 5300 series comes with standard automatic two-sided printing, helping you save paper and money.
- **Booklet creation** — formats and organizes electronic documents for printing as hard-copy booklets.
- **N-up** — saves paper by printing multiple pages onto a single sheet.
- **Page-level programming** — lets users specify unique driver settings for individual pages in a document.
- **Print Around** — holds a problem job that needs resources (such as a different paper size) and prints the next job in the queue.
- **Sample set** — allows users to proof a sample document before printing the entire job.
- **Secure/delay print** — print jobs are held in memory until a PIN code is entered at the front panel, ensuring prints are not left unattended at the MFP.
- **Watermarks** — adds labels such as “Draft,” “Confidential,” or customized messages to printed documents.

Scan features

With the WorkCentre 5300 series multifunction printer, you can easily share files or introduce electronic archiving with powerful scan capabilities.

Standard scan distribution destinations include:

- **Scan to Email** — send scanned images to email recipients, with authentication and LDAP for network security and integration.
- **Scan to Folder** — store scanned images on the hard drive for retrieval at your desktop.
- **USB Enablement** — scan to or print from any standard USB memory device for portability and convenience.

Optional scanning capabilities include:

- **Network Scanning** — templates enable sending scanned images to multiple predefined locations, such as an FTP server.

Additional Xerox scan software is available to expand the capabilities of your WorkCentre 5300 series multifunction printer:

- **Xerox® Scan to PC Desktop®** — bundles Nuance® PaperPort® software for scanning, organizing and sharing images with Nuance OmniPage® software, which converts hard-copy documents into searchable and editable electronic files.

- **ScanFlowStore®** — ScanFlowStore software by Nuance® greatly reduces document processing time with its powerful Optical Character Recognition technology. Using template-based scanning, a user simply selects specific “zones” on a document from which data specific to industries such as healthcare, legal or financial, is captured and used for file naming, creating network folders, populating PDF properties, searching and retrieving, and routing scanned documents to their correct repositories.

In addition to a flexible set of destinations and additional software, the WorkCentre 5300 series device includes a set of scan features:

- **Thumbnail Preview*** — preview previously scanned documents stored on the hard disk drive.
- **Scan to Text-searchable PDF*** — scan and save hard copies as text-searchable PDF files for easy archiving and faster retrieval.
- **File formats** — support for PDF, PDF/A, Text Searchable PDF, Linearized PDF, Encrypted PDF, High Compression PDF, PDF/A, XPS, JPEG, TIFF, Multi-page TIFF.

* With Network Scan Kit.

Fax Kit

The WorkCentre 5300 series multifunction printer also offers optional fax capabilities that help further consolidate office functions. This fax solution combined with the concurrency of the WorkCentre 5300 series device means an end to supporting a dedicated fax machine. Fax features include:

- **Optional Walk-up PSTN fax with Internet fax and LAN fax:**
 - **Walk-up PSTN fax** — phone line faxing via device user interface with one- and three-line options.
 - **Internet fax** — save money by sending faxes via the Internet, with support for SMTP and POP3.
 - **LAN fax** — transmit digital documents via the print driver.
- **Optional Fax over IP (T.38) Kit** — send and receive faxes using the T.38 protocol.
- **Optional Network Server Fax Enablement Kit** — provides an integrated solution that maximizes your network fax investment and is as easy as walk-up copying. Maintain central management and control of your fax server while providing versatile walk-up fax input and output options at your WorkCentre 5300 series. There is no need for a separate telephone line, and there are fewer devices and supplies to maintain.

Visit the Xerox® Partner web site for a complete listing of Xerox validated network server fax providers.

Fax-performance highlights include:

- Fax forwarding of incoming faxes to an email address, fax number or document repository.
- Two-sided fax sending and receiving.
- Secure fax receive.
- Multiple reporting, confirmation and cover-sheet options.
- MH/G3, MMR/G4, JBig Super G3 compression allows for faster transmission times.
- Print faxes on up to 11 x 17 in./A3 paper.
- Preview incoming faxes on the User Interface.
- Up to 2,000 speed dials.

Xerox® Workflow Solutions

Built on the Xerox® Extensible Interface Platform® (EIP), Xerox® Workflow Solutions connect users to the tools they need to make their information workflows faster, more efficient and more effective. Control access to information. Reduce the costs of information workflow and your organization’s environmental impact. Enable new ways of working that streamline and accelerate business cycles and give you a competitive advantage.

Xerox® Workflow Solutions give you measurably better ways of working with information no matter what industry, no matter how big or small your organization, and no matter where you operate.

Media capacity and support

Paper capacity and media support offered by the WorkCentre 5300 series multifunction printer include:

Standard Trays:

- **Bypass Tray — (50 sheets)** Custom sizes: 3.5 x 3.9 in. (89 x 98 mm) to 11.7 x 17 in. (297 x 432 mm); 16 lb. bond to 80 lb. cover (60 to 215 gsm)

Choose One:

- **Trays 1 and 2 with Stand — (520 sheets each)** Custom sizes 5.5 x 7.2 in. (140 x 182 mm) to 11.7 x 17 in. (297 x 432 mm); Tray 1: 16 lb. to 28 lb. bond (60 to 105 gsm); Tray 2: 16 lb. bond to 80 lb. cover (60 to 215 gsm)
- **High-Capacity Tandem Tray — (Trays 1 and 2: 520 sheets each)** Custom sizes: 5.5 x 7.2 in. (140 x 182 mm) to 11.7 x 17 in. (297 x 432 mm); High-Capacity Tandem Tray: 2,000 sheets; Standard selectable sizes: 8.5 x 11 in. and 7.25 x 10.5 in. (A4 and B5); All trays: 16 lb. bond to 80 lb. cover (60 to 215 gsm)

Optional:

- **High-Capacity Feeder*** — (2,000 sheets) Standard Sizes: 7.25 x 10.5 in., 8.5 x 11 in. LEF (A4, B5); 16 lb. bond to 80 lb. cover (60 to 215 gsm)
- **Envelope Tray (replaces tray 1) — (Up to 60 envelopes)** #10 Commercial (9.25 x 4.125 in.), Monarch, DL, C5, Custom sizes: 3.9 x 5.8 in. (98 x 148 mm) to 6.4 x 9.5 in. (162 x 241 mm); 20 lb bond to 24 lb bond (75 to 90 gsm)

* Requires High-Capacity Tandem Tray

Finishing features

The WorkCentre 5300 series multifunction printer allows multiple choices to ensure you get the right set of finishing features for the documents users produce on a regular basis.

Finishing Options

1

Integrated Office Finisher

- Basic finishing that can be integrated into the internal catch tray of the WorkCentre 5300 series without requiring more space
- 500-sheet stacking
- 50-sheet single-position stapling

2

Office Finisher LX

- 2,000-sheet stacking
- 50-sheet multiposition stapling
- Optional hole punching
- Optional Booklet Maker (score/crease, saddle stitch)

3

Booklet Maker (for Office Finisher LX)

- Up to 40 booklets (1-15 sheets per booklet – 80 gsm or less; 2-10 sheets per booklet – over 80 gsm)
- Saddle-stitch Stapling — 2-15 sheets / 8 – 60 page booklet; 16 lb. bond to 24 lb. bond (55 to 90 gsm)

Section 1: Evaluating Multifunction Printers Security

What types of security requirements are critical to your office? Does the device have the security features to meet these demands? Can device access be password protected? Does the system remove latent images from the device's hard drive? Does the system have features in place to safeguard confidential documents?

How the WorkCentre 5300 series multifunction printer exceeds the security requirement

Integrated security

In today's business environment, security is a critical competency. The technology you deploy into your organization must have a complete set of capabilities to help keep your confidential information safe. The WorkCentre 5300 series delivers security features that protect your confidential information at all points of document vulnerability.

Document —

- **Secure print** — holds print jobs at the MFP until released by job owner at the device.
- **Password protected and encrypted PDF** — requires a password to open and view a sensitive scan.

Device —

- **Audit log** — tracks printing, scanning and network fax activities by user, time and date.
- **User Authentication with LDAP/Kerberos/SMB/CAC** — restricts access to device features and management settings by validating user names and passwords.

- **Xerox® Secure Access Unified ID System® (optional)** — Secure Access integrates with your existing employee ID badge solution, allowing users to simply swipe their badge at the WorkCentre 5300 series multifunction printer to unlock access to features. Usage data can then be made available to other solutions for tracking, accounting and regulatory purposes. Follow-You Print™, a feature of Secure Access, allows you to send a document to a secure print queue, walk up to any printer on the network equipped with Secure Access, swipe your ID card and access the document for printing.

WorkCentre 5300 series multifunction printer security model

Document

- Secure print
- Password protected and encrypted PDF

Device

- Audit log
- User Authentication with LDAP/Kerberos/SMB/CAC
- Secure Access Unified ID System® (optional)
- Smart Card Technology (optional)

Hard Drive

- 256-bit hard disk Encryption
- Image Overwrite

Network

- S/MIME Encrypted email
- IEEE 802.1X protocol
- IPsec
- Secure data protocols
- Email over SSL
- IPv6

- **Smart Card Technology (optional)** — supports the smart identification card technology used by U.S. government facilities for their Common Access Card (CAC) system.

Hard Drive —

- **256-bit hard disk Encryption** — along with FIPS 140-2 compliant encryption, provides an additional layer of security against unauthorized users.
- **Image Overwrite** — electronically “shreds” data stored on the MFP hard drive using an algorithm specified by U.S. Department of Defense Directive 5200.28-M.

Network —

- **S/MIME Encrypted email** — provides an additional layer of security against unauthorized users.
- **IEEE 802.1X protocol** — ensures devices connected to the network are properly authenticated.
- **IPsec** — encrypts print jobs sent to the MFP utilizing IPsec.
- **Secure data protocols** — secures network communications with industry standards including HTTPS (SSL), SNMP v3.0, and IPsec.

Third-party certification

Xerox has a proven track record of participation and compliance with emerging government security standards and third-party testing and certification. The prime example of this commitment is our participation in the Common Criteria Certification process. Xerox submits its products, along with highly structured statements of the product’s information security capabilities, for validation by an independent, government-sponsored laboratory. Certification is a costly, rigorous, time-consuming process and the WorkCentre 5300 series has achieved full system Common Criteria (ISO 15408) Certification. Check the Xerox security pages (www.xerox.com/security) for more information.

Xerox currently has more MFP products Common Criteria-certified than any vendor in the industry.

For more information regarding Xerox security, visit: www.xerox.com/security

Section 1: Evaluating Multifunction Printers

Environmental Impact

Environmental impact can be assessed in a variety of ways. Does the multifunction printer offer advanced technologies that help you save energy and reduce paper consumption? Also, consider the amount of noise generated by the device. Is it quiet enough to allow convenient placement in close proximity to its users without causing a distraction?

How the WorkCentre 5300 series multifunction printer exceeds the environmental impact requirement

Energy conservation

Xerox innovations benefit the environment and reduce your electricity bills. A scanner based on LED lighting instead of traditional Xenon lamps consumes only 1/3 the power. Plus, EA Toner with ultra low-melt technology requires a lower fusing temperature than traditional toner while offering glossy, beautiful office graphics.

Reduced paper consumption

The WorkCentre 5300 series multifunction printer provides duplex printing capabilities standard. Plus, LAN fax functionality* further reduces paper usage by sending faxes directly from applications on your desktop. Incoming faxes can be viewed as thumbnail images on the user interface* — so you only print what's important.

Quiet operation

One of our quietest workgroup multifunction printers, the WorkCentre 5300 series stays productive while emitting low noise levels. All fans are turned off in Standby mode to decrease power consumption and noise emissions — so the WorkCentre 5300 series is quieter than a whisper.

* With optional Network Scan Kit.

www.xerox.com/environment

Section 1: Evaluating Multifunction Printers

Reliability

Office productivity relies on tools that do their jobs day in and day out.

Consider how often you need to intervene to replace paper or other consumables or to clear jams. How easy is that intervention, and how long is the device typically down? If outside assistance is required, how easy is it to schedule and how long do you have to wait?

How the WorkCentre 5300 series multifunction printer exceeds the reliability requirement

Day-to-day reliability

Reliability comes in two forms: system reliability and image reliability. The WorkCentre 5300 series device has been designed to provide maximum system reliability and uptime. Simple paper paths and minimal moving parts help optimize day-to-day reliability and contribute to a duty cycle* of up to 100,000/125,000/150,000 pages per month.

Any paper jams or misfeeds that do occur can be easily cleared through access doors on the side of the machine, enabling users to proactively resolve most issues. With a maximum paper capacity of up to 5,090 sheets, the WorkCentre 5300 series device can also drastically reduce paper reloading downtime. Xerox® Smart Kit® technology also helps minimize downtime by predicting when critical parts will fail and alerting you to order replacement units. Smart Kit replaceable units are as simple to replace as toner cartridges.

Service / support

Building on the reliability engineered into the WorkCentre 5300 series multifunction printer, Xerox has trained and developed a sophisticated service-delivery network capable of maintaining your equipment, addressing issues users may encounter, and training employees on how to get the most out of the equipment.

* Duty cycle is a measure of the maximum number of copies/prints that can be run during peak periods.

Section 2: Configuration Summary, Specifications, Supplies and Support Resources

Configuration Summary

		WorkCentre 5325 / 5330 / 5335 Copier	WorkCentre 5325 / 5330 / 5335 Copier/Printer/Scanner
Speed		Up to 25 / 30 / 35 ppm	
Duty Cycle¹		100,000 / 125,000 / 150,000 pages per month	
Memory		1 GB plus 160 GB hard drive	1 GB plus 160 GB hard drive / 2 GB with optional PostScript Kit
Paper Handling	Paper input	Standard	Duplex Automatic Document Feeder: 110 sheets; Standard sizes: 5.5 x 8.5 in. to 11 x 17 in. / A5 to A3; Custom sizes: 3.3 x 4.9 in. to 11.7 x 17 in. / 85 x 125 mm to 297 x 432 mm
		Choose one	Bypass Tray: 50 sheets; Custom sizes: 3.5 x 3.9 in. to 11.7 x 17 in. / 89 x 98 mm to 297 x 432 mm
		Optional	Trays 1 and 2 with Stand: 520 sheets each; Sizes: Custom sizes: 5.5 x 7.2 in. to 11.7 x 17 in. / 140 x 182 mm to 297 x 432 mm High-Capacity Tandem Tray: 2,000 sheets; Standard Sizes: 8.5 x 11 in. and 7.25 x 10.5 in. / A4 or B5
			High-Capacity Feeder²: 2,000 sheets; Standard Sizes: 8.5 x 11 in. and 7.25 x 10.5 in. / A4 or B5
			Envelope Tray: Up to 60 envelopes; #10 commercial, Monarch, DL, C5, Custom sizes: 3.9 x 5.8 in. to 6.4 x 9.5 in. / 98 x 148 mm to 162 x 241 mm
Paper output	Standard	Dual Catch Tray: 250-sheets each; Lower output offset	
	Optional	Integrated Office Finisher: 500-sheet stacker, 50 sheets stapled, single-position stapling	
		Office Finisher LX: 2,000-sheet stacker, 50 sheets stapled, 3-position stapling, optional hole-punch, optional booklet maker (score, saddle stitch)	
		Convenience Stapler: Staples 50 sheets	
Automatic two-sided printing	Standard		
Copy	First-page-out-time	WorkCentre 5325/5330: As fast as 4.2 seconds; WorkCentre 5335: As fast as 4.0 seconds	
Resolution (max)	600 x 600 dpi		
Copy features	Automatic two-sided, Electronic pre-collation, Automatic tray selection, Build Job, Negative/Mirror image, Automatic booklet creation, Multi-up, Auto RE, Mixed-size originals, Covers insertion, Sample set, Book copying, Annotation, Delete Outside/Delete Inside, Poster mode, Watermarks, ID Card Copy, Page Layout, Form Overlay, Background Suppression		
Print	First-page-out-time		As fast as 11.0 seconds
	Resolution (max)		1200 x 1200 dpi
	Connectivity		10/100/1000Base-TX Ethernet, High-Speed USB 2.0 direct print
	Page description languages	Optional	PCL [®] 5e, PCL 6, HP-GL/HP-GL2, TIFF/PDF, XPS [®] ; Optional Adobe [®] PostScript [®] 3 [™]
	Print features		Automatic two-sided, Secure print, Delay print, Sample set, Booklet creation, Cover selection, Paper selection by attribute, N-up, Watermarks, Banner sheets, Fit to new paper size, Output tray selection, Print from USB
Scan	Standard		PDF, Linearized PDF, PDF/A, TIFF, JFIF, JPEG, XPS, Color Scan, Scan to Email, Scan to Folder

Section 2: Configuration Summary, Specifications, Supplies and Support Resources

Support Resources

Unrivaled service and support

Behind every Xerox product is a large network of customer support that's unrivaled in the industry and available when you need it. Xerox service professionals use leading-edge technologies to keep you up and running. They're even linked to the engineers who designed your product, so you can be confident when you choose Xerox. And genuine Xerox supplies are always readily available.

Total satisfaction guaranteed

The exclusive Xerox® Total Satisfaction Guarantee*, recognized as unique in the industry, covers every WorkCentre device that has been continuously maintained by Xerox or its authorized representatives under a Xerox express warranty or Xerox Maintenance agreement. You decide when you're satisfied.

Xerox® Office Services Support

Asset management services

- **Asset Optimization and Tracking** — Process and tools to optimize an enterprise's office output infrastructure and reduce hard costs.
- **Break-Fix Management** — Single point of ownership and management for break-fix service of all brands of office output devices, regardless of manufacturer.
- **Supplies Management** — Process and tools to procure, monitor and replenish all document-related supplies proactively.

Imaging and output management services

- **Output Management** — Single point of management of office output from all output devices, regardless of manufacturer.
- **Image Capture and Workflow** — Cost-efficient solutions for capturing, managing, retrieving and distributing information into digital repositories.

Support services

- **Technology Procurement and Deployment** — A creative and flexible end-to-end print/computer product acquisition solution that uses a single-point-of-contact model while lowering the total cost of acquisition.
- **Help Desk Services** — A broad range of enterprise services, managed through a centralized single point of contact and delivered through either an on-site or off-site model.
- **End User Services** — Microsoft software implementation, IT project consulting, and customer education.

Access managed services

- **Student and Library Patron Access** — Custom designed and implemented customer-managed solutions.

Section 2: Configuration Summary, Specifications, Supplies and Support Resources

Support Resources

MFPs often look the same from the outside. Based on a quick look at speeds, feeds, and print resolution specifications, it is tempting to conclude that most MFPs are basically equal. We invite you to evaluate the WorkCentre 5325/5330/5335 using these criteria, and compare it against its closest competitors. We believe you'll find that the WorkCentre 5300 series multifunction printer offers a unique set of features, delivers exceptional benefits, and will exceed your expectations.

	WorkCentre 5325/5330/5335	Competitor 1	Competitor 2
	Installation and Deployment		
Small footprint (w x d)	23.5 x 25.1 inches / 597 x 637.5 mm		
Xerox® Global Print Driver®: single print driver for IT to deploy and manage products regardless of manufacturer	✓		
Xerox® Mobile Express Driver®: single print driver for mobile workers to print to network printers, regardless of manufacturer	✓		
Clone network configuration	✓
