

TOWN OF FAIRFAX STAFF REPORT April 7, 2021

TO: Mayor and Town Council

FROM: Garrett Toy, Town Manager

SUBJECT: Authorize the Town Manager to contract with Oberkamper & Associates Civil

Engineer, Inc. in an amount not-to-exceed \$50,000 to design the Sir Francis

Drake/Azalea Ave crosswalk intersection project.

RECOMMENDATION

Authorize the Town Manager to contract with Oberkamper & Associates Civil Engineer, Inc. in an amount not-to-exceed \$50,000 to design the Sir Francis Drake/Azalea Ave crosswalk intersection project.

DISCUSSION

The Town's FY20-21 Capital Improvement Program (CIP) Budget lists the Sir Francis Drake/Azalea Ave crosswalk intersection Project (Fund 53-830). The Project received a grant from Transportation Authority of Main (TAM) under the Safe Pathways to Schools Program. The Project is entitled the "Azalea Ave Safe Route Crosswalks and Expanded Bike Spine Route" and includes the following improvements:

- 1) Install high visibility crosswalks at Azalea Ave/Sir Francis Drake Blvd and Azalea Ave./Broadway Blvd. intersections,
- 2) Add a new rectangular rapid flashing beacon system (RRFB) at the Azalea/Sir Francis Drake (SFD) intersection,
- 3) Construct a new sidewalk along Azalea Ave. to connect the crosswalks from Sir Francis Drake Blvd. to Broadway Blvd.,
- 4) Install ADA compliant curb ramps, and
- 5) Install signage and bike sharrows along Broadway from Azalea to the County Library to expand the existing Bike Spine.

Parisi Transportation Consultants (Parisi) prepared the preliminary project design and grant application for the TAM funding. Typically, we contract with Parisi for the construction design of TAM funded projects because they are the most familiar with the project. In this instance, Parisi has partnered with a civil engineering firm, Oberkamper & Associates, to design the project.

FISCAL IMPACT

The TAM grant is for \$253,000, which is the estimated total cost for design and construction. The CIP schedule anticipates beginning design this current fiscal year (FY20-21) with Project construction to be completed in FY21-22. The engineer estimates design will take 5-6 months and construction 3-4 months.

Town of Fairfax Public Works Department 142 Bolinas Road Fairfax, CA 94930

ATTN: Garrett Toy, Public Works Director

RE: Town of Fairfax Safe Pathways to School – Sir Francis Drake Blvd / Azalea Ave Civil and Traffic Design Proposal

Dear Mr. Toy,

We appreciate the opportunity to provide you with this proposal. Based on our communications with Andrew Lee of Parisi Transportation Consulting and our experience on similar projects, our proposed scope of work and costs are as summarized below. Please see the attached fee estimate spreadsheet and subconsultant proposal from Parisi for additional task/hour/cost detail.

Anticipated tasks

Civil Design:

•	Task 1 – Project Kick-Off and Topographic Survey	\$7,355
•	Task 2 – 50% Construction Documents	\$5,310
•	Task 3 – 70% Construction Documents	\$8,375
•	Task 4 – 95% Construction Documents	\$5,380
•	Task 5 – 100% Construction Documents	\$3,510
•	Task 6 – Issue for Bid	\$1,295
•	Task 7 – Bid Support	\$1,365
•	Design Phase Reimbursable Expenses	\$200
•	Task 8 – Construction Administration	\$1,980

Total Civil Design Fee: \$34,770

Traffic Design:

From attached Parisi proposal Total Traffic Design Fee \$15,125

Combined Fee \$49,895

We propose to perform the work summarized above on an hourly basis per our standard hourly rates, with the combined total cost not to exceed \$49,895.

Scope of Work

Traffic Engineering: as defined in the attached proposal from Parisi.

- Civil Design:
 - O At the Azalea Avenue / Sir Francis Drake intersection the anticipated Civil improvements will be as follows:
 - North curb New curb ramp per current Caltrans Standard Plans
 - SE corner New curb ramp per current Caltrans Standard Plans
 - New sidewalk on the east side of Azalea Avenue between Sir Francis Drake and Broadway Boulevard
 - O At the Azalea Avenue / Broadway Boulevard intersection the anticipated Civil improvements will be as follows:
 - NE corner New curb ramp per current Caltrans Standard Plans
 - SE corner New curb ramp per current Caltrans Standard Plans

Schedule of Deliverables

To be agreed upon with the Town of Fairfax.

Assumptions/Exclusions:

- 1. Any agency fees will be paid by the Client and are not included in the above fee estimate.
- 2. Changes to the scope of work as defined herein and accepted by the owner will require negotiation as an extra.

Deliverable Products:

- PDFs and AutoCAD e-transmit file of completed plans
- Microsoft Word copy of completed specifications
- Paper copies as requested

Schedule:

We can begin project coordination immediately upon receipt of your signed authorization.

We appreciate the opportunity to provide you with this proposal. Please feel free to contact me with any questions.

Sincerely,

James D. Clark, P.E.

President

Mr. James D. Clark, PE Oberkamper & Associates 7200 Redwood Blvd., Suite 308 Novato, CA 94945

Subject: Town of Fairfax Safe Pathways to School – Sir Francis Drake Blvd / Azalea Ave; Pavement Delineation, Signage and Construction Documents

Dear Mr. Clark,

Parisi Transportation Consulting (Parisi) is pleased to submit this proposal to Oberkamper & Associates to prepare the pavement delineation, signage and rectangular rapid flashing beacon (RRFB) construction documents for the Town of Fairfax Safe Pathways to School project. The project location is bounded by Sir Francis Drake Boulevard at Azalea Avenue, Broadway at Azalea Avenue and Broadway at Marinda Drive / Sir Francis Drake Boulevard.

The design scope will be consistent with the project scope in the Town's Safe Pathways to School funding request from June 2019.

Our proposed scope of work includes the following tasks:

Task 1. Project Management. Parisi will meet with Town staff and Oberkamper & Associates via online conference on an as-needed basis. We will provide, at minimum, monthly updates on project status via email for the duration of the Project.

Task 1 Deliverables: Monthly status reports by email or phone that include tracking of project deliverable due dates. Monthly invoices

Task 2. Draft Construction Documents (70% & 95% Project Plans, Specifications and Estimates).

Parisi will prepare construction documents for the pavement delineation, signage and RRFB improvements. Construction standards and specifications will be consistent with the latest version of Marin County Uniform Construction Standards (UCS) and State (Caltrans) construction standards. All drawings will be prepared using AutoCAD. Plans will be submitted to the Town in PDF at the 70% and 95% level of completeness.

The pavement delineation plan will reference Caltrans standard striping details. The signage plan will reference California Manual on Uniform Traffic Control Devices sign chart codes. The RRFB electrical plan will assume a solar-powered installation without a service connection.

Cost estimates will follow the recommended practice of the AACE International, or Town approved equivalent format, with the 75% and 95% draft submittals.

Responses to Town comments will be tracked and discussed in-person with Town staff after review of the 70% and 95% submittals and evaluated whether additional submittals will be required or whether comments can be incorporated into the next submittal. Parisi will provide completed QA/QC forms with the 95% draft submittals.

Each submittal will contain the following:

- Pavement marking demolition in coordination with Oberkamper civil demolition work
- Pavement delineation and signage for the full project extents at the improved Azalea
 Avenue crossings at Broadway and Sir Francis Drake Boulevard, and for the Bike Spine
 expansion to the County library
- Pavement delineation and sign details, as needed
- RRFB improvement plan and equipment schedule
- Electrical details

Parisi will prepare technical specifications, a bid schedule, and a cost estimate for items in the scope of work. The cost estimate will include calculation summaries for the basis of quantities. Attendance at a Town Council meeting is not assumed as part of this scope but may be provided at additional cost, if requested by the Town.

Task 2 Deliverables:

- 1. Pavement delineation, signage and RRFB plans submitted in PDF format (all draft submittals).
- 2. Construction bid schedule, with estimated quantities and cost estimate in MS Excel format.
- 3. Technical specifications provided in MS Word format.
- 4. QA/QC certification at 95% submittals.

Task 3. 100% PS&E & Bid Documents. Parisi will integrate one set of non-conflicting comments compiled by the Town relating to the design and will prepare a 100% final bid set. The budget for this task assumes that the Town's comments from the 95% phase will cover all substantive design issues. Parisi will make additional plan edits to the 100% PS&E, as needed, to produce a Project Bid set of construction documents.

Comments received on the 100% Plans concerning design issues not previously identified and discussed at the 95% or prior submittal stage that trigger an additional submittal may be subject to additional cost. Elements related to the project General Provisions and bidder's proposal are assumed as the responsibility of the Town.

Task 3 Deliverables: Plans in PDF and DWG format. Technical specifications and engineer's estimate in PDF and MS Excel format. QA/QC certification.

Task 4. Bid Support. Parisi will provide support to the Town in responding to bidder questions during the pre-bid and bid stage. Parisi will issue plan addendums if necessary, based on information received during the project bid stage.

Task 4. Deliverables. Response to questions received from potential bidders during the prebid process. Preparation of plan addenda. Review of bids for cost data.

Task 5. Construction Support. Parisi will review contractor material submittals and respond to Requests for Information (RFI) that arise during construction.

Agreement. Parisi will invoice monthly in accordance with the Town's requirements. Payments are to be received within 30 days of receipt. To accept the above proposal and terms, please sign below and return an original copy.

Sincerely, Acceptance of Proposal

David Parisi, PE, TE

Principal
