Intex Technologies (India) Ltd.

Message from Marketing Desk

Dear Valued Customer,

Congratulations on becoming a proud owner of INTEX product. You have now joined the fraternity of millions of satisfied INTEX consumers.

Intex Technologies (India) Ltd., incorporated in the year 1996 is one of the major players in India in mobile handsets, consumer durables and IT accessories. The company's flagship brand is INTEX.

The trust built by brand INTEX in the industry is borne out by the increasing demand for its products. The Brand exhibits an exhaustive portfolio of 16 product categories ranging from mobile handsets, mobile accessories, multimedia speakers, LED TVs, washing machines and wearables.

The company has witnessed a fairly high growth in the last few years. With a CAGR of 81% over the past 3 financial years, the company has reached a turnover of almost INR 6400 crore in FY 15-16. Mobile business has been a key driver of growth: Intex became the No-1 Indian mobile handset brand as per IDC market share data of Q3 2015.

Intex has diversified in the sports management sector and has recently acquired the IPL team - Gujarat Lions.

The company's presence has a wide geographical spread through its network comprising 30 stock and sales offices and over 1500+ service touch points. Sales are routed through a distribution network comprising 1800+ distributors and 80,000+ dealers spread across the country. Intex also has retail presence in the country through its standalone brand stores - Intex Smart World. In addition products are available at more than 250 dedicated counters of reputed chains of hyper markets and specialty stores across the country, on TV shopping channels and e-commerce sites.

The company has Design and Development facilities in India and China that are well-equipped with modern equipment and are managed by qualified and experienced professionals looking after product design & development. These facilities ensure products are offered in line with latest global standards. The company has a strength of 11,000 employees across the country.

Intex started domestic manufacturing in 2004 and currently operates four manufacturing facilities that are based in Jammu, Bado (Himachal Pradesh) and Noida manufacturing diverse products. The company has created local employment and training opportunities for youth living in the hinterland of its factories and also developed local vendors.

The company's operations are managed on a world-class collaborative business solution - SAP on a Virtual Private Network. Intex is an ISO 9001:2008 certified company.

Hope you will consider using more Intex products in future.
