Protect & Connect S5 Vehicle Tracking and S7 Asset Location systems

You've invested in your pride and joy. Now, you need the peace of mind knowing that it's safe: Vodafone Protect & Connect monitors your vehicle so you don't have to.

With car theft rates up 56% in recent years in England and Wales,* major insurers are often asking if vehicles have tracking systems installed as a condition of providing you with cover. Almost half of all recorded thefts in recent years have involved criminals entering vehicles through an unlocked door, up from just 13% in 2006.** The growing issue of keyless theft – where criminals use relay devices to trick cars into thinking the legitimate key is nearby – now risks becoming standard practice.

Advancements in telematics technology, such as Vodafone Protect & Connect tracking systems, are at the forefront of countering these trends. By providing industry-leading, specialist stolen vehicle tracking protection, you can rest assured that if the worst does happen, there's unparalleled support on hand to retrieve your vehicle as quickly as possible.

These systems use the latest GPS/ GPRS/GSM technology, providing pinpoint accuracy and unrivalled service levels, with recovery of vehicles via police liaison conducted in local language through Vodafone Automotive's network of Secure Operating Centres across 52 countries globally.***

We're a trusted brand

You can be assured, major global brands trust Vodafone Automotive and its products. These include Aston Martin, Audi, Bentley, Ferrari, Infiniti, Lamborghini, Maserati, Mercedes-Benz Truck, Nissan, Porsche, Renault, Seat, Škoda, Tesla, Volkswagen passenger cars and Volkswagen commercial vehicles.

Thatcham accredited and recognised by insurers

Protect & Connect S5 Vehicle Tracking and S7 Asset Location systems are Thatcham accredited and recognised by the majority of leading insurers. You may qualify for a discount on your insurance premium.

Product range

Protect & Connect S5

The S5 incorporates all of the benefits listed below. The system also can be supplied with the additional features that come with the Plus version.

If your car is stolen: If your car is stolen without the ADR card being present, an alert will be sent to Vodafone Automotive's Secure Operating Centre. An advisor will then attempt to contact you on the number you will have supplied at time of registration.

Automatic Driver Recognition (ADR)[†]

Alerts Vodafone Automotive immediately if your vehicle is stolen, even if the thief has your keys

Pinpoint GPS Tracking

Accurate to within 10 metres

European Coverage as Standard

Local language Police liaison and recovery across 52 countries

Insurance Approved

Approved by major insurers

Tow-Away Alert

Triggered when motion is detected with the ignition switched off

Theft History

In the event of a theft, our minute by minute theft tracking helps the Police secure convictions

International GSM Coverage

Roaming SIM card gives coverage across more than 180 countries

Tamper Alert

Activated when the system battery is disconnected or discharged, or when the system wiring is cut

System Health Check

Regular automatic self diagnostic check

Special Modes

Activate Garage Mode or Transport Mode at the click of a button

Protect & Connect S5 Plus

The S5 Plus incorporates all the benefits listed above. The system also benefits from the additional Manual Engine Start Inhibit feature.

Manual Engine Start Inhibit

Activated by the Secure Operating Centre with Police authorisation, to prevent the engine from being restarted

Protect & Connect S7

The S7 offers stolen asset location with pan-European Coverage as standard, pin-point GPS tracking to within 10 metres, tow-away alert, tamper alert and all the features of the My Connected Car App.

If you are installing a Protect & Connect device for insurance compliance, always confirm with your Insurer the correct device required. Protect & Connect devices are also connectable to our 4615P ADR Alarm – offering even greater levels of security and peace of mind.

Important information

Automatic Driver Recognition (ADR)[†]

When the internal battery nears the end of its working life, you will receive an SMS advising you to replace it. The battery should be replaced with a standard battery - type CR2032 - which can be purchased from most high street outlets.

Storing your ADR card

For maximum security, Vodafone Automotive recommend that your car keys and ADR card are kept separately when your vehicle is not in use.

False alerts

To avoid unnecessary alerts, call Vodafone Automotive 24/7 Stolen Vehicle Helpline to inform them of any potential false alarm. With your consent, the Secure Operating Centre will set one of the following modes:

- **Transport Mode:** This mode inhibits the alerts that would be generated by unexpected movement of the car whilst the ignition is switched off. For example, if the car were to be transported.
- **Garage Mode:** This mode inhibits the alerts that would be generated by unexpected tampering with the car. For example, if the car were being serviced; the battery being disconnected; or dealer device maintenance is required.

Alternatively, simply activate Transport or Garage Mode using the My Connected Car app, without the need to contact our Customer Services. Please note that excessive false alerts may result in a charge.

[†] Applicable to the Protect & Connect S5 range only.

My Connected Car app and web

With My Connected Car, you can access and manage a number of your vehicle security and safety functions remotely. My Connected Car provides easy access to vehicle information such as real-time vehicle location, directions to the vehicle and geofence ability.

How to Access the 'My Connected Car' service

- 1 Fill out and sign a registration form and send to our dedicated Vodafone Automotive customer service team
- 2 Install a Vodafone Automotive stolen vehicle tracking device
- 3 Receive a text with login details
- 4 Download the 'My Connected Car' app, available on Android & IOS, and sign in using the login details provided

Download the 'My Connected Car' app from the app store on IOS and Android now for a free demo.

Live vehicle location

Including satellite Google Maps viewing

Trip reports

See your latest and historical journeys including distance travelled as well as average and maximum speed

Car finder route (driving and walking)

Can't remember where you parked? Car finder shows you the quickest way to get back to your vehicle

Geofence

Set a geofence zone and receive an in-app notification if vehicle enters or leaves that area

Special modes

Simply activate Garage Mode or Transport Mode without the need to contact our Customer Services

Speed alert

Set a specific speed limit and receive an in-app notification if you exceed that limit

SOS button

Direct to the Vodafone Automotive Secure Operating Centre

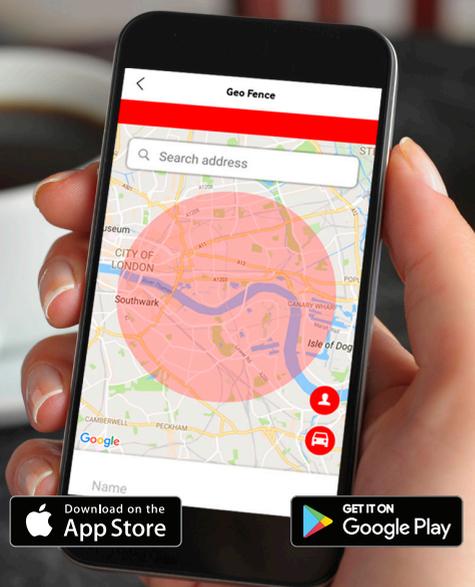

Multiple vehicles

Up to 10 vehicles available in one account
