

Fisher Scientific

Personal Protective Equipment Catalog

Dear Valued Customer,

Thank you for selecting the Fisher Scientific™ channel as your trusted safety resource to help protect your most valuable assets: your people, your facilities, and the environment.

We offer a broad selection of personal protection, facility safety, and response products from industry-leading manufacturers to help ensure that you can properly prepare your facilities, prevent hazards, protect your employees, and respond to accidents. And you can rely on our experience to assist you in maintaining compliance with current OSHA, NFPA, EPA, NIOSH, CSA, and ANSI standards.

Whether you're in the pharmaceutical, industrial, biotechnology, chemical, academic, or another industry, we have products to help you work safely. And if you're not sure what you need, you can rely on the extensive experience of our Fisher Scientific Safety Specialists — they're eager to help you find the right product for specific hazards and applications.

In addition to helping you stay safe, we also make it as convenient as possible to find and purchase what you need. We continuously enhance **fishersci.com** based on your feedback, improving product information, providing special offers, and delivering the best digital shopping experience available. And it doesn't stop there: with a growing network of 16 shipping facilities, we make sure your order is accurately fulfilled and quickly delivered.

We're dedicated to helping you **protect what matters most**, and as always, we look forward to working with you.

With appreciation,

A handwritten signature in black ink that reads "Angela N. Hokanson". The signature is written in a cursive, flowing style.

Angela N. Hokanson

Safety and Production

Keep Your People Safe with **Our Proven Experience**

Nathalie L.
Quebec

“The well-being of my clients is the most important aspect of my job. My goal is to help them work in an environment with all the proper protection, so they can go home safe and sound to their families every day. Ultimately, the bond of trust that I develop with my customers is the best reward.”

Charlie F.
Ohio

“Working in safety for the last 24 years, I’ve learned that the single largest contributing factor to an institution’s bottom line is the safety, health, and welfare of its employees and their families — in other words, ‘safety first.’ What I enjoy most about my job is working with our customers, suppliers, and colleagues to provide a total safety solution.”

Let Us Help You Protect What Matters Most

Nathalie L.
Quebec

"The well-being of my clients is the most important aspect of my job. My goal is to help them work in an environment with all the proper protection, so they can go home safe and sound to their families every day. Ultimately, the bond of trust that I develop with my customers is the best reward."

PIP™ Bouton™ Recon™ Rimless Safety Glasses

Trendy rimless design offering ultimate comfort with non-slip bridge and end tips

- Lightweight, rimless design provides all day user comfort
- Flexible bayonet temples contain rubber pads for a secure, non-slip fit
- Adjustable rubber nosepiece provides a comfortable fit
- Clear Lens for clear, crisp and distortion free visibility while meeting the requirement standards that help provide protection from projectiles and impact in general use applications
- Treated front and back with a clear, scratch-resistant coating for a much harder surface that is more resistant to scratching
- Anti-Fog Coating eliminates the condensation of moisture on lenses that causes fogging so your lenses and vision stay clear
- Meets ANSI Z87.1-2015 and CSA Z94.3 standards.

⚠️ ALERTS:
The 3M products in this catalog must be used in accordance with OSHA regulations, and the user instructions, warnings, and limitations accompanying each product.

Liquid Splash

PIP™ Bouton™ Optical Dual Lens Goggles

Provide the ultimate anti-fog protection for any work environment

- Low profile design for use with head protection
- Indirect ventilation protects against liquid splash
- 99.99% UVA and UVB light filtration
- Transparent gray frame
- Elastic or Neoprene headband
- PVC/Synthetic foam padding

Specifications:

- Lens type: Dual, Anti-fog
- Outside lens material: Polycarbonate 99.99% UVA and UVB light absorption; Inside lens material: Acetate
- Thickness: 2mm
- Base curve: 5.75
- Frame: PVC

Packaging Details: 10 pair per inner box, 60 pair per case

COMPLIANCE:

Meets ANSI Z87.1-2015 and ANSI D3 standards.

Honeywell™ Uvex™ Strategy™ Safety Goggles

Economical over-the-glass (OTG) goggle that delivers both premium comfort and maximum protection

Provide protection against impact, chemical splash, dust, sand and debris — even in extreme environments. Available in four models for a variety of work applications: direct vent, closed vent, indirect vent and indirect vent with foam lining for fine particle protection.

- Ideal for most indoor work applications
- Rugged design that withstands the harshest environments
- Lens tint: clear
- Lenses offer 99.9% ultra-violet protection
- Headband available in fabric or neoprene for chemical applications

- Uvextra™ anti-fog coating minimizes fogging
- Lightweight, TPE body provides exceptional comfort and a snug fit for maximum protection
- Fits comfortably over most prescription eyewear
- Economically priced

COMPLIANCE:

Meets ANSI Z87.1+ 2015 and CSA Z94.3 standards.

Honeywell™ Uvex™ Stealth™ Safety Goggles with Toric Lens

Combines modern design, technology, materials and high-performance lens coatings to create the highest levels of worker comfort and acceptance

Uvextreme™ anti-fog coating and indirect ventilation system minimize fogging

- Low profile design and indirect venting system for chemical splash and impact protection
- Frame and lens are impact resistant and provide greater than 99.9% protection from harmful UV rays
- Toric lens provides superior optics and unobstructed peripheral vision
- Soft, elastomer body flexes and conforms to the face for a secure, comfortable, gap-free fit
- Pivoting, quick-adjust headband provides easy adjustment for a comfortable fit
- One of the easiest and most cost effective lens replacement systems on the market
- Lens replacement system allows for multiple lens tints and extends the life of the goggle
- Rx insert provides flexibility for workers who require vision correction
- Clear lens; ideal for most indoor work applications
- Orange/gray body
- Headband: fabric

MCR Safety™ Matrix Headgear and Faceshield Windows

Offer superior protection from liquid splashes and flying debris that would otherwise be damaging to the face

Both Matrix Headgear designs are molded from lightweight, polycarbonate and offers excellent impact, heat, and chemical resistance.

- Ratchet suspension allows quick adjustment to correct size
- Leatherette sweatband cushions head and absorbs sweat
- Swivel-locking window attachment simplifies window replacement

Single Matrix Headgear

- With cap attachment for slotted caps
- Suspension and faceshield not included

Double Matrix Headgear

- Features double-crown for complete face and neck coverage
- Available with (19-061-184) or without (17-243B) cap attachment for slotted hard hats; suspension not included

Replacement Windows

- Clear window available to fit either Single- or Double-Matrix Headgear
- Non-scratch resistant
- All windows are 0.040 in. thick
- Acetate windows feature chemical-resistant coating and provide dielectric protection

Honeywell™ Uvex™ Protecto-Shield™ Faceshields

Adjustable ratchet headgear fits a variety of hat sizes

- Sturdy browguard is constructed of heat-resistant thermoplastic polymer
- Brim overhang keeps fluids from splashing or dripping inside window
- Headgear fits hat sizes from 6½ to 8
- Windows sold separately (see below).

Replacement Windows

- Constructed of tough thermoplastic for superior heat protection
- Designed with a chemical splash drip edge to prevent fluids from splashing down inside the visor
- Easy sizing and tension adjustment for individual visor positioning
- Visors easily attach with no snaps, posts or levers
- Universal hole pattern allows the use of Honeywell visors with other popular manufacturers' headgear
- Aluminum bound acetate replacement visors form easily for a contoured, customized fit

⚠ Basic eye protection must be worn under faceshields to protect from flying particles and hazardous splashes.

COMPLIANCE

Meets ANSI Z87.1+ and CSA Z94.3 standards.

Honeywell™ Uvex™ Bionic™ Faceshields

Designed for rugged jobs—tough yet lightweight and comfortable

For workers exposed to falling or flying objects, impact, chemical splash, and airborne debris. Fit with most goggles and respirators.

- Shell offers built-in chin protection and extended top-of-head coverage
- Adjustable headgear tilts visor into 2784 possible positions
- Ratcheting headgear features a locking mechanism for secure fit
- Comfortable cell foam on back of headgear with breathable, removable, washable headband
- 100% dielectric; no metal parts

Replacement Visors

- Clear lens suits most indoor work applications
- Shade 5.0 suits welding, brazing, and cutting

COMPLIANCE:

Meets ANSI Z87.1+ and CSA Z94.3 standards.

Head Protection

Hard Hats and Caps

Bullard™ Standard Series S62 Vented Hardhats

Low-profile shell design with four-point suspension system

Setting "The Standard". Sleek, low-profile design with a patented Flex-Gear ratchet suspension option.

Features

- Absorbent, replaceable cotton brow pad is pillowed for maximum comfort
- Ideal for construction and everyday work environments
- One of the lightest helmets of its class
- Vented, providing increased ventilation and comfort
- Accessory slots allow attachment of accessories such as earmuffs and face protection
- Vertical height adjustment capability (2 front, 2 rear)

Pinlock or Ratchet Suspension

- Choose 4-point pinlock suspension or 4-point Flex-Gear ratchet suspension
- Pinlock suspension provides incremental sizing of 1/16 hat size (5mm), for a secure fit
- Ratchet suspension can be adjusted between hat sizes 6½ to 8

ORDERING INFORMATION:

Snap-on replacement brow pads are available (see below).

COMPLIANCE:

Meets ANSI/ISEA Z89.1, Type I, Class C requirements.

3M™ Peltor™ Lite-Com Pro II Two Way Radio Headset with Hard Hat

Provides hearing protection while making it easy for workers to communicate in high-noise environments with a built-in frequency programmable UHF radio

- A premier hearing protection and communication solution for high noise environments
- Connect to your Bluetooth compatible devices for cell phone audio and streaming music A2DP, HSP, and HFP compatible
- Foam and liquid-filled cushions provide lasting comfort and an effective acoustic seal for long duration wear times
- Connects directly to compatible hard hats
- Noise-cancelling boom microphone enables clear speech transmission in noisy environments
- High quality stereo speakers produce a rich and captivating listening experience

COMPLIANCE:

FM Approved Intrinsically Safe for: Class I, II, III, Division 1, applicable Groups A through G, T4, -20°C ≤ Ta ≤ 50°C; Intrinsically safe, Class I, Zone 0, AEx ia IIC, T4, -20°C ≤ Ta ≤ 50°C, hazardous (classified) locations.

Honeywell™ Fibre-Metal™ Roughneck™ Ratcheting Hard Hat

Built for strength, toughness and durability, on construction sites, in steel plants, foundries, forges, fabrication shops, chemical plants and other extreme jobsite environments

- Proprietary injection-molded fiberglass compound offers exceptional impact and crack resistance and is eight times stronger than common high density polyethylene (HDPE) cap shells.
- Best-in-class heat resistance. Meets ANSI-Z89.1 impact resistance tests at extreme temperatures of up to 370°F (P2A) and up to 500°F (P2HN).
- Solid color resin provides a permanent, no-chip, no-peel finish.
- Smooth, matte finish makes logo imprints crisper and cleaner, so your official company caps look better and last longer.

3M™ Speedglas™ 9100 MP Welding Helmet Assembly

Compatible with all 9100 (V, X, XX) filters

- Flip-up assembly for grinding and prep work
- SideWindows shade 5 side filters that increase peripheral vision
- Ergonomic, adjustable head suspension for increased comfort, helmet stability and weight distribution
- Earmuff protection available as optional accessory
- Hard hat shell is made of heat resistant polycarbonate
- A wide (~8 × 4.25 in.), curved, protective visor with excellent views up, down and peripherally
- Designed from inception to take one of our optional Peltor™ Earmuffs: low-profile hearing protection with liquid/foam ear cushions and orange housings
- Dark state: shade 5, 8, 9-13 (variable)
- Light state: shade 3
- UV/IR protection: shade 13 (permanent)
- Switching time, light-dark: <0.1ms (+23°C)

For use with: Assembly, Blasting, Cleaning, Demolition, Electrical, Facility Maintenance, Grinding, Health and Safety Testing, Machine Operations, Painting, Remediation, Sanding, Welding

INCLUDES:

Face seal, Air duct assembly, Headband, Hard hat, Chrome front panel

COMPLIANCE:

Meets ANSI Z89.1 -2009, Type 1, Class G hardhats; ANSI Z87.1-2010 requirements.

Casella™ CEL-24X Digital Sound Level Meters

Choice of three meters to meet your workplace noise monitoring needs

All meters in the series have a low and high measurement range that covers a full 70dB on each range. With the A and C frequency scales and the S, F and I time response these meters can be used to assess hearing protectors using the NRR method.

- Simple two-button operation
- Wide range from 30 to 130dB
- Large graphic LCD screen
- Slow, Fast and Impulse time weightings
- Current and highest noise level shown in display
- Large numeric and analog bar graph display
- Output to a PC for simple datalogging
- Auto calibration at either 114 or 94 1 kHz decibel level
- Scrolling sound level display for last 1 or 5 minutes
- Non-decaying maximum hold captures and displays the highest sound pressure level of any noise until reset
- Runs for up to 35 hours on batteries
- Time averaging with Q3 and Q5 exchange rates (Model 244 only)
- Datalogging memory up to 100 runs with over 400,000 results stored (Model 244 only)

The CEL-24X series includes two basic and two integrating digital sound meters:

Basic Digital Sound Models

- CEL-240 is the basic Type 2 sound level meter
- CEL-242 adds datalogging capability to the basic Type 2 sound level meter

Integrating Digital Sound Models

- Feature time average value Leq or Lavg and Q=3 or 5 exchange rate
- CEL-244 is the integrating Type 2 sound level meter
- CEL-246 adds datalogging capability to the integrating Type 2 sound level meter

ORDERING INFORMATION:

Dimensions (W x H x D): 2.8 x 8.3 x 1.2 in. (7.1 x 21.1 x 3.0cm). Weight (with batteries): 8.8 oz. (250g).

INCLUDES:

All meters are supplied with a foam windscreen, three AA batteries and wrist strap. Standard Kits also include calibrator, case. PC Kits include all items in Standard Kit plus a USB cable to PC and dB24 software on a CD.

WARRANTY:

24-month initial warranty against manufacturing defects

COMPLIANCE:

Tested to ANSI™ S1.4 (Model CEL-240 only) and ANSI S1.43 (Model CEL-244 only) and IEC 616672 Type 2 accuracy requirements.

CERTIFICATIONS:

Each meter is supplied with an initial individual calibration and conformance certificate.

Cat. No.	CA Cat. No.	Mfr. No.	Description	Humidity Range	Quantity

3M™ Noise Indicator NI-100

Alerts users to potentially dangerous noise levels

- Small size and lightweight design; just clip to a shirt or jacket
- LED light indicates when noise levels exceed a potentially hazardous threshold
- Rechargeable battery operates for up to 200 hours between charges

Red Flashing LED: Above 85dBA (hearing protection may be required)

Green Flashing LED: Below 85dBA (hearing protection may not be necessary)

Operating/Storage Temperature: 14° to 122°F (-10° to +50°C)

Humidity Range: 0 to 95%; noncondensing

Accuracy: 3dB

Alert Level: Flashes red when >85 dBA; Flashes green when <85dBA

Battery Type: Li-Poly (flat cell); recharge after ~200 hours

Battery Life: Approximately two years of charging cycles

Charging: Mini-USB cable plugs into bottom port of device (sold separately; contact your Fisher Safety Customer Service Representative)

Auto-Power Off: At 10 hours

Dimensions (L x W x D):

2 x 1.4 x 0.5 in.

(5.1 x 3.6 x 1.3cm)

ORDERING INFORMATION:

USB cable charger (Cat. No. 17-979-000) sold separately.

COMPLIANCE:

Helps meet OSHA 1910.95 Hearing Conservation Program requirements.

Moldex™ SparkPlugs™ Foam Ear Plugs

Tapered shape ear plugs that are comfortable and offer a high NRR 33 rating.

Highest independently tested NRR.

- Extra-soft, extra-light foam with nonirritating surface
- Tapered for easy insertion and removal
- Seals ear canal comfortably, without pressure
- Disposable (not intended for reuse)
- Every package reveals random colored SparkPlugs
- Provide a snug fit in even the smallest ear canals
- Hygienically packaged
- 100% PVC free
- Available in multicolor or blue (Cat. No. 19-130-3458 only)
- 33dB Noise Reduction Range (NRR)

ORDERING INFORMATION:

Pairs packaged in individual polybags in dispenser boxes.

COMPLIANCE:

Tested to ANSI S3.19-1974 requirements.

Selecting the Right Size Glove

Use the size chart below to help you select the right gloves. Simply measure the circumference of your hand around the palm area.

Glove Sizes	Hand Circumference
X-Small, 6	6 to 7 in. (15.2 to 17.8cm)
Small, 7	7.5 to 8 in. (19.1 to 20.3cm)
Medium, 8	8.5 to 9 in. (21.6 to 22.9cm)
Large, 9	9.5 to 10 in. (24.1 to 25.4cm)
X-Large, 10	10.5 to 11 in. (26.7 to 27.9cm)
2X-Large, 11	11.5 to 12 in. (29.2 to 30.5cm)
3X-Large, 12	12.5 to 13 in. (31.8 to 33.0cm)

Glove sizing varies by manufacturer, origin, and style.

Selecting the Right Size Glove

Use the size chart below to help you select the right gloves. Simply measure the circumference of your hand around the palm area.

Glove Sizes	Hand Circumference
X-Small, 6	6 to 7 in. (15.2 to 17.8cm)
Small, 7	7.5 to 8 in. (19.1 to 20.3cm)
Medium, 8	8.5 to 9 in. (21.6 to 22.9cm)
Large, 9	9.5 to 10 in. (24.1 to 25.4cm)
X-Large, 10	10.5 to 11 in. (26.7 to 27.9cm)
2X-Large, 11	11.5 to 12 in. (29.2 to 30.5cm)
3X-Large, 12	12.5 to 13 in. (31.8 to 33.0cm)

Glove sizing varies by manufacturer, origin, and style.

Medicom™ SafeTouch™ Everstrong™ Gloves

Affordable vinyl, powder-free glove with lower protein content to leave your hands soft and comfortable

- Latex-free
- Excellent tactile sensitivity and manual dexterity
- Ambidextrous
- Length: 9 in. (23cm)
- Thickness 2.8mil (fingertip); 3.1mil (palm)

Chemical Resistant Gloves

Butyl

Ansell™ AlphaTec™ 38-514 Series Black Butyl Immersion Gloves

Provides the best resistance to the most aggressive chemicals without compromising dexterity or comfort. Offers superior protection against aldehydes, ketones and esters as well as concentrated mineral acids.

- Absence of latex proteins means there's no risk of latex allergies
- Surprisingly flexible with good dexterity
- Designed for comfort with a natural, curved ergonomic shape and soft feel
- Offers easy donning and good grip
- Ideal for the automotive and chemical industries, life sciences, unexpected leakages, spills and other releases
- Black

- Length: 14 in. (35.6cm)
- Thickness: 14mil

COMPLIANCE:

Meets ANSI 3 (abrasion level); EN 388-1000X and EN 374-1/Type A. CE marked.

Cat. No.	Mfr. No.	Size	Quantity
19-161-432B	38514080	8	1 Pair

Ansell

Honeywell™ North™ Butyl Gloves

High permeation resistance to gas or water vapors

For use with ketones and esters, and applications such as aircraft maintenance, automotive, chemical handling and processing and hazmat work.

- Made from butyl synthetic rubber
- All gloves have rolled cuffs
- Rough Grip Saf™ finish for wet applications
- Unlined with sanitized interior

- Black
- Hand specific
- Length: 11 in. (27.9cm)
- Thickness: 13mil

COMPLIANCE:

Meets MIL-DTL-43976D requirements.

Honeywell
NORTH

MAPA™ Butoflex™ Butyl Chemical Gloves

Superior chemical resistance—ideal for hazardous waste cleanup, chemical processing and sampling

- Features unique Z-pattern grip design
- Exceptional for dealing with paints, resins, varnish and inks
- Black
- Length: 14 in. (35.6cm)
- Thickness: 20mil

- Comfortable medium weight glove with secure grip for handling items in a wet environment
- Rolled cuff to catch drips and facilitate attachment to chemical suits

MAPA
PROFESSIONAL

Knit Lined (Butoflex™ 650)

- Provides maximum flexibility in a supported butyl glove
- 100% seamless cotton lined interior
- Separate shell and liner construction prevents leak paths caused by liner fibers penetrating the butyl shell
- Pinked cuffs

Unlined (Butoflex™ 651)

- Superior chemical resistance against very corrosive acids
- Glove design enhances comfort, dexterity and tactility

Latex

MAPA™ Blue-Grip™ Latex Gloves

Provides easy on-off thermal protection

Rated excellent for handling acids, “mild” caustics, alcohols, sanitizing agents and detergents, as well as other chemical, mechanical and thermal hazards. Ideal for handling frozen food, hot containers, sharp edges, abrasives, cutting and tearing hazards, sheet metal and plastic resins.

- Heavy-duty, liquid-proof gloves with a double-dipped nonabrasive, nonslip grip
- Interlock-knit cotton lining absorbs perspiration
- For intermittent exposure from 0° to 212°F (-17° to +100°C)
- Gloves feature a natural rubber latex coating firmly bonded to a reinforcing, 9 oz. (255g) cotton knit lining with pinked cuffs
- Hand contoured with no seams in the work area
- Light blue with a medium blue grip
- Launderable
- Length: 12 in. (30.5cm)
- Thickness 45mil

COMPLIANCE:
 FDA 510(k) approved for medical use.
 Meets FDA 21 CFR 170-199 for food processing.

Nitrile

Ansell™ Microflex™ 93-850 Ultimate Barrier Nitrile Disposable Gloves

Experience higher levels of protection that exceed known standards for barrier integrity

- Significantly reduces the risk of harmful exposure
- 2X more chemical splash protection than leading nitrile brands
- Exceed highest known standard for barrier quality and consistency (Low 0.40 AQL)
- Robust construction prevents rips, tears and breaches
- Made with proprietary TNT™ Technology for soft, durable protection against a wide range of chemicals
- Silicone-free formulation for enhanced product protection
- Green
 - Length: 9.5 in. (24cm)
 - Beaded cuffs
- Powder-free
 - Thickness: 7.5mil (finger) and 4.7mil (palm)
 - Ambidextrous

COMPLIANCE:
 Meets ASTM D6319 and ASTM D3767; FDA 21 CFR 177-2600; EN 374-4 and EN 420; and CE 0493.

Ansell™ Solvex™ Series Green Nitrile Immersion Gloves

Designed to deliver optimal results in wet or dry work environments where chemical resistance is crucial. Fully reusable, with an unequaled abrasion resistance, it provides superb comfort for the wearer.

Will not weaken or swell in many solvents, caustics or animal fats.

- Nitrile construction protects against abrasions, cuts, snags and punctures
- Curved finger design and contoured palm help reduce fatigue
- Full cut for easy donning and doffing
- Contain no protein allergens; will not promote contact dermatitis
- Dark green
- Flock lining
- Unlined unless otherwise noted

COMPLIANCE:

Meets ANSI A4 (cut level) and ANSI 5 (abrasion level); EN 388-4001 and EN 388-3001X; FDA 21 CFR 177-2600 approved for food handling.

Synthetic

Ansell™ Microflex™ 93-260 Synthetic Chemical-Resistant Gloves

Tough exterior stands up longer to demanding physical and chemical conditions

- Three layer design for superior protection against harsh chemicals including acids, solvents and bases
- Thin construction provides enhanced tactility and dexterity
- Length: 11.8 in. (30cm)
- Thickness: 7.8mil
- Ergonomic design for outstanding fit, feel and flexibility for longer wear time
- Lower acceptable pinhole rate (0.65 AQL) and extended cuff for reliable protection against hazardous substances
- Silicone free formulation and processing ensure better product protection

- Ambidextrous
- Powder-free

COMPLIANCE:
Meets ASTM™ D3767 and ASTM D6319 standards; EN 388-2000, EN 374, EN 421 and CE 0493; FDA 5109(k) approved. Tested for use with chemotherapy drugs.

Purus™ Full Finger Glove Liner

Liners feature sturdy, low-linting, and moisture-wicking properties for extended use

Glove liners deliver a comfortable barrier that:

- Reduces perspiration and wicks moisture during extended use
- Prevents skin irritation without diminishing tactile sensitivity
- Limits wear and tear to extend life of gloves and conserve resources

Durability

- Low-lint, 100% nylon composition, 15 denier
- Sturdy, launderable, and reusable
- Withstands approximately 10 to 15 washes
- Surface reactivity: $1 \times 10^9 \pm 10\%$ ohms/square

Cleanliness

- Automated manufacturing in a clean environment
- Pre-laundered; will not shrink
- Cleanroom packaging

Custom Quality

- Compatible with stringent cleanroom requirements
- Can be used effectively as gowning glove
- 100% quality control inspection

Finger Cots

Honeywell™ North™ Static Dissipative Latex Finger Cots

Won't weaken with age, rubbing or washing

Inherently static dissipative. Not dependent on humidity. Static decay of 5000 to 0V in 0.01 second. Surface resistivity, 2×10^6 ohms/sq.

- Natural rubber
- Rolled cuff
- Powder-free
- Very low particle count
- Powder free and multiple washed
- Thickness: 3mil
- Length: 2.75 in. (7cm)
- Color: Black

COMPLIANCE:

Meets ASTM™ D3389-05 and ASTM D3772 ANSI/ISEA 105; EN 420 and EN 374 standards.

⚠️ ALERTS: These products contain natural rubber latex, a component of which may cause allergic reaction in some users. Use only as directed and in accordance with manufacturer instructions and warnings. Please consult your institution's policies regarding use of these products.

Dry Box Gloves

Honeywell™ North™ Dry Box Gloves

Hand specific and ambidextrous styles available for comfortable fit

- Butyl provides highest permeation resistance to vapors and gases, as well as exceptional
- Resistance to a broad range of toxic chemicals, making it only suitable glove choice for many critical applications
- Highly resistant to ketones (MEK, MIBK, acetone) and esters (tricresyl phosphate, amyl acetate, ethyl acetate)
- Butyl has soft and flexible feel, even at low temperatures, which reduces hand fatigue and enhances worker comfort
- Solvent based, multi-dip manufacturing process provides multiple layers of polymer (like glove within glove) which results in glove of superior quality
- Length: 32 in. (81.28cm)

Black Neoprene Box Gloves

- Manufactured from premium quality milled neoprene which provides high permeation resistance to vapors & gases
- Resistant to a broad range of chemicals, including oils, greases, fuels and acetone

Black Butyl Box Gloves

- Butyl provides the highest permeation resistance to vapors and gases, as well as exceptional resistance to a broad range of toxic chemicals, making it the only suitable glove choice for many critical applications
- Highly resistant to ketones (MEK, MIBK, acetone) and esters (tricresyl phosphate, amyl acetate, ethyl acetate)

White CSM Glove Box Gloves

- CSM provides superior resistance to ozone and oxidizing chemicals such as alcohols, alkalis and acids
- Highly resistant to the effects of UV radiation in both artificial light and sunlight

ORDERING INFORMATION:

Also available in ambidextrous style in sizes of 9.75 in. (25cm) and 10.5 in. (27cm). North Viton™ dry box gloves are available on special order. Other sizes available include 8.5 in. (22cm), 10.5 in. (27cm), and 11.5 in. (29cm). Please call your Fisher Safety Customer Service Representative for pricing information and chemical resistance data.

COMPLIANCE:

Meets EN 388, EN 374-3 and EN 420-2003 standards.

ANSI/ISEA Standards for Cut Resistance

Find the right level of cut resistance for your workplace. Refer to the table below to understand how this may impact your product selection. Contact your Fisher Scientific safety specialist to learn more.

ANSI/ISEA 105-2016 Cut Resistance Levels*	Cut Hazard	Common Work Tasks
A1 (200 to 499g)	Light	Assembly, maintenance, material handling, shipping, and receiving
A2 (500 to 999g)	Light to Medium	Assembly, appliance manufacturing, automotive, construction, maintenance, material handling, and metal handling
A3 (1000 to 1499g)		
A4 (1500 to 2199g)	Medium	Appliance manufacturing, automotive, construction, glass and metal handling, machining, metal stamping, and paper production
A5 (2200 to 2999g)	Medium to Heavy	
A6 (3000 to 3999g)	High	Assembly or movement of large, bulky, or heavy objects with sharp edges; also recommended for assembly or movement of items that are difficult to grip.
A7 (4000 to 4999g)		
A8 (5000 to 5999g)		
A9 (>6000g)		

* Weight (in grams) needed to cut through material with 20mm blade travel, measured by a Tomodynamometer Test Machine (TDM)

MAPA™ Temp-Ice 700 Thermal Gloves

Reinforced durability to push the limits of cold staying dry when working in wet conditions

Gloves work in cold environment down to 14°F (-10°C) while maintaining comfort, dexterity and flexibility

- Nitrile coating is five times more durable than standard gloves
- Non-slip exterior finish provides excellent grip when handling wet parts
- Washable performances guaranteed after five cleaning cycles
- Knitted thermal protection interior finish
- Length: 9.5 to 10.5 in. (24 to 27cm)
- Knitted wrist
- Black/blue color

MAPA™ Temp-Dex 710 Gloves

MAPA
PROFESSIONAL

Thermal protection is now available for precision work

Provide significantly better dexterity and grip than comparable gloves. Each layer in the glove captures the maximum amount of air and protects the hand effectively from the hot part.

- Thermal insulation is as effective as thick fabric using terry-cotton
- Nitrile Grip coating means the grasp remains firm in an oily environment
- Fluid-proof, prevents fumes or hot liquids coming into direct contact with the palm
- Can maintain contact safely for more than 30 seconds at 212°F (100°C)
- Abrasion resistant (Level 4 out of 4)

COMPLIANCE:

Meets EN 388-4111 and EN 407 standards.

fisherbrand PVC Dipped Knitwrist Gloves

Provide enhanced cut resistance and excellent wet or slippery grip

Knit Wrist helps prevent dirt and debris from entering the glove

- Available with sandy or rough acid grip finish
- Enhanced cut resistance
- Excellent wet or slippery grip
- Interlock lining provides great dexterity; jersey lining provides comfort and moderate insulation
- Black color hides dirt

COMPLIANCE:

Meets EN 388-4121 standards.

Cat. No.	Exterior Finish	Lining		Quantity
19-047-494	Sandy	Interlock Knit	1 Dozen	6 Dozen per Case
19-068-177	Rough	Jersey	1 Dozen	6 Dozen per Case

Honeywell™ North™ NorthFlex Red™ Foamed PVC Palm Coated Gloves

Light and comfortable general purpose gloves that offer high abrasion resistance and exceptional grip

Ideal for applications where workers handle both wet and dry objects and need moderate protection from mechanical hazards.

- Advanced 15 gauge seamless nylon liners are stretchy and form fitting, with a snug knit-wrist, and provide minimal resistance to hand movement for exceptional wearer comfort
- Foamed PVC coatings, are soft and flexible enough to provide a degree of shock and vibration absorption, but are tough enough to offer abrasion resistance comparable to polyurethane
- Open surface texture that clears liquids from surfaces and enables a very firm wet-grip
- The Red-X™ features an extended knuckle coating, for additional wearer protection
- The back of the glove is uncoated, for ventilation and wearer comfort

- Launderable for longer life
- Cuff over-stitching is color-coded by size to aid sorting after laundering

COMPLIANCE:

Meets ASTM™ F17990-97 and ASTM D3389-05; EN 388-4131 and EN 420 standards.

ANSI/ISEA Standards for Cut Resistance

Find the right level of cut resistance for your workplace. Refer to the table below to understand how this may impact your product selection. Contact your Fisher Scientific safety specialist to learn more.

ANSI/ISEA 105-2016 Cut Resistance Levels*	Cut Hazard
A1 (200 to 499g)	Light
A2 (500 to 999g)	Light to Medium
A3 (1000 to 1499g)	
A4 (1500 to 2199g)	Medium
A5 (2200 to 2999g)	Medium to Heavy
A6 (3000 to 3999g)	High
A7 (4000 to 4999g)	
A8 (5000 to 5999g)	
A9 (>6000g)	

* Weight (in grams) needed to cut through material with 20mm blade travel, measured by a Tomodynamometer Test Machine (TDM)

Ansell™ Tube Knit Sleeves with Kevlar™

Provide workers' palms and arms with the same cut and heat protection as Kevlar string knit gloves

- Made from 100% Kevlar
- Feature thumb slot to hold sleeve down for a more comfortable fit

DuPont™ NexGen™ Protective Coveralls

Affordable high-barrier protection

Lightweight white coveralls (1.8 oz. per sq. yd.) provide excellent barrier protection against nontoxic particle, liquid and spray hazards. True aerosol- and liquid-proof microporous barrier demonstrates >99% holdout of particles down to 0.35µm.

- Breathable, cloth-like material treated to provide antistatic properties for use in controlled environments
- Proprietary bilaminate composite fabric provides superior liquid penetration
- Compared favorably to leading fabric in physical property tests covering resistance to ripping and tearing
- Low linting for use in critical applications
- Disposable coveralls can be easily discarded via landfill burial or proper incineration
- Long torso with polyester front zipper measures 26 in. long (66cm)
- White

COMPLIANCE:

Meets USDA, FDA, OSHA standards; ASTM™ D751, ASTM D1117, ASTM D5034, ASTM D257; AATCC 127 compliant.

⚠️ ALERTS:
Garments made of Tyvek should not be used around heat, flames, sparks, or in potentially flammable or explosive environments.

DuPont™ ProShield™ 10 Coveralls

Provide comfortable, quality coverall to workers for nonhazardous dry particle applications

DuPont ProShield 10 disposable garments are designed for workers in a range of industries for nonhazardous dry particle and light liquid splash applications.

Applications include: general maintenance, janitorial/cleaning and other dirty work.

- Comfortable garment design enables a greater range of movement while stretching and bending, a more tailored fit, reinforcement in high stress areas for fewer blowouts, a longer zipper for easier donning and doffing and an elastic waist to better position the garment
- SMS material

COMPLIANCES

Meets ASTM™ D1117 standards.

Let Us Help You Protect What Matters Most

Santo L.

New Jersey

"The Fisher Scientific team doesn't just sell products, we partner with our customers to make a difference in their operations. When a customer needs a product, I make sure it's there when they need it. And when they're not exactly sure what they need, I listen and ask the right questions to make the best recommendations possible."

Totally encapsulating Level A suit is a multi-layer fabric that passes the ASTM™ F 1001 test battery standards.

- Seams are sewn and triple heat-sealed inside
- Features front entry, expanded back, exhaust valves, gastight zipper and attached socks¹ with boot flap
- Gloves made of Barrier™, neoprene and Kevlar™ knit
- 40mil PVC faceshield has 5mil PTFE overlay

COMPLIANCE:

Meets NFPA 1991 Standard on Vapor-Protective Ensembles for Hazardous Materials Emergencies and CBRN Terrorism Incident.

Cat. No.	Mfr. No.	Size	Quantity
18-999-336C	RF600TSVXL000100	X-Large	1 per Case

¹Attached socks are to be worn inside the user's own chemical protective boots. The boots' splash cover provides additional protection. These attached socks do not have adequate durability or slip resistance to be worn as outer footwear.

Ansell™ TRELLCHEM™ VPS-Flash Coveralls

Protects against hazardous chemicals in liquid, vapor, gaseous and solid form, including warfare agents

- Made of combination of elastomers and plastics with a No-mex™ fabric
- Chemical, flame and abrasion resistant
- Gastight chloroprene rubber coated zipper
- Trelchem™ regulating valve has three ventilation rates (2, 30 and 100 L/min) plus zero/off position
- AlphaTec overglove for extra cut protection
- NFPA 1991

COMPLIANCE:

Meets NFPA 1991 Standard on Vapor-Protective Ensembles for Hazardous Materials Emergencies and CBRN Terrorism Incident.

DuPont™ Tychem™ 6000F Hooded Coverall with Rubber Face Seal

DuPont™
Tychem™

Features includes a rubber tight seal around the mask and attached gloves for continued chemical protection from sleeve to glove

Provides tighter chemical protection, enables longer wear time, and better comfort. This unique fabric offers protection against both organic and highly concentrated inorganic chemicals.

- Lightweight, <500g per coverall
- Rubber face seal for compatibility with full face masks, no taping needed
- Rear entry with double flaps, press stud buttons and zipper for enhanced user protection
- Attached dissipative socks with boot flap
- High level chemical protection inner glove attached

CERTIFICATIONS:

Cat. III, Type 3-B,4-B,5-B,6-B

COMPLIANCES:

Meets ASTM™ D3776, ASTM D3787, ASTM D5733, ASTM D751, ASTM D2582; and 16 CFR 1610 Standard for the Flammability of Clothing Textiles.

Coveralls

Kappler™ Chem-Tape™

Seals gaps in protective apparel at sleeve, ankle, hood and storm flap

Yellow adhesive tape attaches pieces of protective apparel ensemble, preventing gross liquid intrusion at interface points.

- Provides a durable reinforcement, but tears easily for quick application
- For single use only

ORDERING INFORMATION:

Roll measures 2 in. × 60 yd. (5cm × 55m).

COMPLIANCE:

Meets ASTM™ F739 (using ASTM F1001 test battery) standards; permeation tested in accordance with MIL-STD 282 (using various chemical warfare agents).

DuPont™ Tychem™ 5000 Coveralls with Hood and Overboots/Socks

DuPont™
Tychem™

Protection against chemical splash as well as potential exposure to chemical warfare agents

Provide defense for applications such as acid handling, tank cleaning, chemical handling, petrochemical market, hazardous waste cleanup, industrial hazmat teams and fire department and utilities use.

- Zipper front with attached hood and elastic wrists and overboots
- Multilayer barrier film laminated to a lasting 2 oz. per sq. yd.
- Polypropylene substrate offers greater physical strength and chemical holdout
- Set sleeve pattern for greater arm movement
- Coveralls have front-entry zipper
- Tan

COMPLIANCE:

Meets ANSI™/ISEA 101-1996 standards; complies with CAN/CGSB-155.20-2000 for flame resistance; NFPA 701 Standard Methods of Fire Tests for Flame Propagation of Textiles and Films (1989); NFPA 99 Health Care Facilities requirements.

⚠️ ALERTS: Do not use Tychem CPF garments for fire protection. Avoid exposure to open flame or intense heat. Attached socks are to be worn inside the user's own chemical protective boots. The boot splash cover adds protection. These attached socks do not have adequate durability or slip resistance to be worn as outer footwear covering.

DuPont™ Tychem™ 5000 Coveralls with Respirator Fit Hoods, Berry Amendment Compliant

DuPont™
Tychem™

Designed for use during rigorous activities

- Coveralls protect against chemical splash as well as potential exposure to chemical warfare agents
- Tan-colored polypropylene substrate offers greater physical strength and chemical holdout
- Multilayer barrier film laminated to a lasting 2 oz. per sq. yd.
- Respirator-fit attached hood
- Front zipper closure with double storm flaps
- Elastic wrists
- Outer boot flaps

COMPLIANCE:

Meets ASTM™ D1777 standards.

DuPont™ Tychem™ 9000 Coveralls

For use in chemical handling, PCB cleanup, hazardous materials/waste cleanup, fire departments, industrial hazmat teams and utilities

Provides at least 30 minutes of protection against more than 280 chemical challenges, including chemical warfare agents.

- Multilayer film barrier laminated to Polypropylene substrate
- Taped seams provide strong chemical resistance against heavy liquid splashes
- A sewn seam is covered with a strip of compatible chemical-resistant material through heat sealing
- Storm flap covers zipper which can be sealed by the wearer with adhesive strip to prevent intrusion at zipper
- Strong zipper for tough, flexible closure
- Elastic opening for tighter fit at wrist
- Yellow

Tychem 9000 Style 127TYL

- Three-piece hood design with longer zipper that extends to chin for complete coverage of neck area and good fit around a respirator
- Elastic opening for tighter fit at ankle

Tychem 9000 Style 128TYL

- Attached respirator-fit hood with elastic around face opening, designed to cover neck and chin and fit around respirator face mask
- Attached flaps are designed to cover boot tops to help reduce potential for liquid intrusion
- Longer zipper extends to chin for complete coverage of neck area
- Integrated socks composed of garment material
- Zipper front with storm flap

COMPLIANCE: Meets ASTM™ D1777, ASTM D3776, ASTM D3786, ASTM D5034; 16 CFR 1610 Standard for the Flammability of Clothing Textiles.

DuPont™ Tychem™ 2000 Series Coveralls

Flexible and durable light liquid splash protection

Provides at least 30 minutes of protection against 42 chemical challenges

- Laydown collar
- Elastic opening for tighter fit at wrist/ankle
- Yellow for high visibility
- 10mil thickness

Tychem 2000 Coveralls with Bound Seams

- Tightly sewn seam is covered with garment fabric to reinforce seam and reduce potential for particle penetration
- Storm flap covers zipper which can be sealed by the wearer with adhesive strip to prevent intrusion at zipper

Tychem 2000 Coveralls with Serged Seams

- Multiple interlocking threads are sewn around the raw edges of garment material to create a strong, stress-resistant seam

Tychem 2000 Series 122 Coveralls

COMPLIANCE: Meets ASTM™ D1777, ASTM D3776, ASTM D3786, ASTM D5034 standards.

DuPont™ Temprom™ TM 127S Coveralls

Worn over flame-resistant clothing to provide a barrier to nonhazardous particles and aerosols

- Elastic wrists and ankles
- Attached hood with elastic around face
- Front zipper closure
- Serged seam
- Nonwoven wood-pulp/polyester, flame-retardant, liquid repellent fabric
- Protect and preserve primary flame-resistant clothing
- Disposable
- Can be used in steel mills, coal mines, maintenance, refineries, utilities, laboratories
- Blue

COMPLIANCE: Meets ANSI™/ISEA 101-1996 standards; complies with CAN/CGSB-155.20-2000 for flame resistance; NFPA 701 Standard Methods of Fire Tests for Flame Propagation of Textiles and Films (1989); NFPA 99 Health Care Facilities requirements.

⚠️ ALERTS: Should not be worn in presence of hazardous materials.

DuPont™ Tyvek™ 800J Hooded Coveralls

Providing a suitable protective barrier against many low-concentration, water-based, inorganic chemicals and particles, down to one micron in size

- Chemical protective clothing, Category III, Type 3-B, 4-B, 5-B and 6-B
- Protection against infective agents (EN 14126) including resistance to penetration by blood and body fluids using synthetic blood (ISO 16603) and resistance to penetration by blood-borne pathogens using Phi-X174 bacteriophage (ISO 16604)
- EN 1073-2 (protection against radioactive contamination)
- Fabric and seams offer chemical permeation barrier to low concentration water-based inorganic chemicals

COMPLIANCE: CE certified

⚠️ ALERTS: Does not provide protection from ionizing radiation

Ansell™ Alphatec™ MICROCHEM™ 68-2000 White Coveralls with Hood and Boots

Provide breathable protection and comfort with exceptional liquid and particulate protection. Ideal for a wide range of industrial applications, with the added benefits of attached 3-piece respirator fit hoods and anti-skid boots.

- Excellent liquid penetration resistance and barrier to fine particulates (0.01µm)
- Moisture vapor permeable (“breathable”) to help reduce the risk of heat stress
- Reduces the risk of fiber contamination in some critical areas
- Elastic wrists and ankles, 2-way front zipper with storm flap, bound seams, finger loops, 3 piece respirator fit hood, attached anti-skid boots with SureStep soles
- Pharmaceutical industries, agriculture, cleanrooms, paint spraying, crime scene investigations, veterinary services, food
- Available in Small through 5X-Large
- 5 years shelf life in dry, cool, covered conditions out of direct sunlight

COMPLIANCE:

Meets ANSI™/ISEA 101, AATCC 76, ASTM™ F1671, EN 14126, EN 1073-2, EN 1149-5, EN ISO 13982-1 Type 5B standards.

⚠️ ALERTS:

This product contains natural rubber latex which may cause allergic reactions.

Flame Resistant Clothing

Lab Coats

Workrite™ FR FR/CP™ Lab Coat

Provides dual hazard protection with flame resistance and chemical protection

- Nomex IIIA fabric prevents clothing ignition during short-duration thermal incidents and emergency exposure to flame
- ShieldCXP repels small amounts of liquid chemicals that are either dropped or splashed on the fabric
- Cuffs are fire resistant but do not provide chemical protection
- Black lay-down collar
- Concealed snap front closure
- Splash-resistant side pass-through for easy inner pocket access
- Pockets include one double-stitched chest pocket and two large double-stitched lower front pockets with snap flaps

COMPLIANCE: Lab Coat meets NFPA 2112 Standard on Flame-Resistant Clothing for Protection of Industrial Personnel Against Short-Duration Thermal Exposures from Fire; UL certified.

Respiratory Protection

Air Purifying Respirators (APRs)

Disposable

3M™ Comfort Disposable N95 Filtering Facepiece Unvalved Respirators

An economical choice for a variety of applications where exposure to particles may be a concern

- Two-strap design with dual point attachment helps provide a secure fit
- Adjustable noseclip reduces eyewear fogging and helps ensure a better seal and fit
- Lightweight construction helps enhance worker comfort and wear time
- Proprietary filter media with advanced electrostatically charged microfibers is designed for ease of breathing
- Each respirator must be properly selected based on the contaminant and concentration levels to which the worker is exposed.

Particulate respirator 8200 may be used for exposures upto 10X the PEL or applicable government occupational exposure limits, whichever is lower.

- 95% Filter Efficiency
- White

⚠️ ALERTS:

Do not exceed maximum use concentration established by regulatory standards. If respirator becomes damaged, soiled, or breathing becomes difficult, leave the contaminated area and dispose of the respirator. Before each use of the product, please inspect for any rips, damage, tears, etc. These safety products must be used in accordance with OSHA regulations and the user instructions, warnings and limitations accompanying each product. Misuse may result in sickness or death.

Moldex™ N95 Disposable Particulate Respirators

Shell resists collapsing, even in heat and humidity so the respirator holds its shape longer

- Naturally contoured facepiece seals easily and conforms to face without metal noseband
- Softspun™ lining provides extra comfort and durability
- 100% PVC free

CERTIFICATIONS:

Certified under NIOSH 42 CFR 84 to have a filter efficiency level of at least 95% against particulate aerosols free of oil, up to 10X the OSHA Permissible Exposure Limit (PEL).

COMPLIANCE: Meet heat and flame resistance in accordance with ANSI™/ISEA 110-2003 Section 7.11.1.

Moldex™ N95 Healthcare Particulate Respirators/Surgical Masks

For use in healthcare, hospitals, schools and more

- Dura-Mesh™ shell prevents filter media contact by contaminated gloves or hands; resists collapsing, even in heat and humidity
- Highest ASTM™ level of fluid resistance on the market (160mmHg)
- Bacterial filter efficiency >99.9%

CERTIFICATIONS:

Certified under NIOSH 42 CFR 84 to have a filter efficiency level of at least 95% against non-oil based particulates, up to 10X the OSHA Permissible Exposure Limit (PEL).

COMPLIANCE: Meet heat and flame resistance in accordance with ANSI™/ISEA 110-2003 Section 7.11.1. Meet CDC guidelines for protection against TB exposure and against smoke plumes generated from laser surgery.

Half- and Full-Facepiece Masks

3M™ 7500 Series Reusable Half Facepiece Respirator

Durable, reusable and heat-resistant mask is made of advanced silicone material that feels softer on the face, while the unique adjustment design helps reduce tension and pressure points on the face.

- Cool Flow™ exhalation valve opens easier, lowering exhalation breathing resistance, reducing heat and moisture buildup in the facepiece
- Easily adjusted, dual-mode head harness gives user the option of wearing the respirator in either the traditional or drop-down mode
- Yoke won't get hot like metal yokes, so the 7500 is an excellent choice for welding applications
- Requires compatible cartridges and/or filters. Accommodates 3M 7093 and Series 2000 filters and Series 6000 cartridges.

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 standard for use against a variety of respiratory hazards when used as designed with appropriate cartridges and filters; in Canada, CSA standard Z94.4 and applicable local government requirements must be met for approval.

Cat. No.	Mfr. No.	Size	Quantity

19-096-900	7503	Large	Each 10 per Case

3M™ 6000 Series Half Facepiece Respirator

Combines features of reusable and disposable respirators to provide effective protection

Economical, low-maintenance, simple-to-handle, and extremely lightweight. Can be used with 3M™ Supplied Air Systems for your increased convenience and flexibility.

- Bayonet Connection System allows connection to a broad range of twin lightweight filters to protect against gases, vapors, and particulates
- Twin filter design provides lower breathing resistance
- Includes reclosable storage bag.
- Requires compatible cartridges and/or filters. (Sold separately.)

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 standard for use against a variety of respiratory hazards when used as designed with appropriate cartridges and filters; in Canada, CSA standard Z94.4 and applicable local government requirements must be met for approval.

⚠ These safety products must be used in accordance with OSHA regulations and the user instructions, warnings and limitations accompanying each product. Misuse may result in sickness or death.

3M™ Ultimate FX FF-400 Series Full Facepiece Respirator

Rugged facepiece designed to provide flexibility in extreme environments

- Large lens with superior peripheral vision delivers maximum comfort with a wide field of view
- Exclusive Scotchgard™ coating on lens causes some liquids to bead up on the surface so they can be wiped off easily
- Durable, permanently attached gaskets for easy maintenance and longer life
- Low-profile bayonet design improves balance and offers better weight distribution
- Ideal for tight work environments
- Durable head harness with six-strap configuration fits securely
- Comfort cradle positions respirator comfortably on head
- Soft, silicone nose cup and face seal fits broad range of face shapes and sizes
- Cool Flow™ exhalation valve allows easier breathing, reduces heat and moisture buildup

3M™ P100 Particulate Filters

For oil- and non-oil applications

Designed for use with 3M 5000 Series Respirators or 6000 Series cartridges with 3M Adapter 502, or 6000, 7000 or FF-400 Series facepieces with bayonet filter holders

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 standards for environments containing certain oil and non-oil based particles (with 99.97% filter efficiency).

REQUIRES:

If used with 3M Respirator 5000 Series or as a prefilter for cartridges on 3M Half- and Full-Facepiece Respirators 6000, 7000 or FF-400 filters require filter adapter, Cat. No. 17-459-4.

⚠ These safety products must be used in accordance with OSHA regulations and the user instructions, warnings and limitations accompanying each product. Misuse may result in sickness or death.

3M™ 6000 Series Cartridges and Cartridge/Filter Combinations

For use with 3M 6000 Series and 7000 Series facepieces with bayonet cartridge holders against a variety of gases, vapors, and particulate hazards according to NIOSH approvals.

- For contaminants up to 10X the Permissible Exposure Limit (PEL) with half-facepiece respirators or 50X the PEL (when quantitatively fit tested) with full-facepiece respirators or according to specific OSHA standards or applicable government regulations, whichever is lower
- Not for use in atmospheres that are unknown or immediately dangerous to life or death (IDLH)

⚠ ALERTS:
Do not exceed maximum use concentrations established by regulatory standards. These safety products must be used in accordance with OSHA regulations and the user instructions, warnings and limitations accompanying each product. Misuse may result in sickness or death.

MSA™ Advantage™ 420 Half-Mask Respirator

One-piece UniBond over-molded silicone facepiece helps eliminate possible leak paths

- Drop-down harness position allows respirator to be removed while retaining head protection
- One-piece ComforTop™ cradle headband eliminates pressure points
- AnthroCurve™ multi-ethnic face seal improves fit-testing among diverse workforce
- Lock-down harness position allows a personal fit without further user adjustments
- No loose or dangling straps to impede operation or vision
- Latex-free; high-quality silicone provides greater durability and product life
- Textured inner facepiece seal minimizes slippage, improves fit
- Bayonet and threaded cartridge options allow use of all MSA cartridges

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 for use against a variety of respiratory hazards when used as designed with appropriate cartridges and filters in conjunction with OSHA fit testing requirement; EN 140.

COMPLIANCE:

OSHA 29 CFR Part 1920.134.

MSA™ Advantage™ 200LS Respirators

AnthroCurve™ Sealing Surface conforms to facial contours

Offer workers more comfort, with a facepiece that subtracts 25% of the weight and adds noticeable softness. MSA started with the proven Advantage 200 Respirator, but made the 200LS facepiece from a formulation of thermoplastic rubber. The result is a good-looking, lighter and softer facepiece that exceeds previous levels of comfort.

- AnthroCurve Sealing Surface instantly conforms to each wearer's unique facial characteristics Multiflex™ System equalizes pressure on the face-seal area while delivering exceptional stability, so the respirator will not collapse during wear Available with single neck strap
- Current Advantage 200 Respirator wearers require no additional fit testing

REQUIRES:

Advantage cartridges and filters (see separate listings). Also compatible with Comfo Series cartridges when used with adapter 18-999-1504.

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 for use against a variety of respiratory hazards when used as designed with appropriate cartridges and filters in conjunction with OSHA fit testing requirement; EN 140.

Honeywell™ North™ 7700 Series Silicone Half-Mask Respirator

Low inhalation and exhalation resistance of the 7700 Series makes breathing easier to reduce worker fatigue.

- Soft, medical grade silicone provides excellent protection, comfort and fit
- Half-mask cradle suspension system allows facepiece to seal evenly on face without creating pressure points
- Low profile provides a wide field of vision and does not interfere with protective eyewear
- Minimal dead air space improves worker comfort by limiting re-breathing of exhaled air
- Direct cartridge-to-facepiece seal minimizes replacement parts and simplifies maintenance

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 for use against a variety of respiratory hazards when used as designed with appropriate cartridges and filters in conjunction with OSHA fit testing requirements.

COMPLIANCE:

OSHA 29 CFR Part 1920.134

REQUIRES:

Compatible North cartridges, filters and accessories.

Cat. No.	Mfr. No.	Size	Quantity
17-620-1	770030S	Small	Each 12 per Case
17-620-2	770030M	Medium	Each 12 per Case
17-620-3	770030L	Large	Each 12 per Case

Honeywell™ North™ 7600 Series Silicone Full-Facepiece Respirator

Wraparound polycarbonate lens design protects wearer's face and eyes

- Dual-flange silicone seal conforms to facial features
- Hard-coated polycarbonate lens provides over 200° field of vision; protects eyes and face against irritating gases, vapors and flying particles
- Oral nasal cup reduces fogging and lessens dead air space
- Speaking diaphragm ensures easy communication
- Five-strap harness for secure fit and seal
- Chin cup helps proper positioning of the facepiece
- Neck strap allows wearer to park respirator when not in use

REQUIRES:

Compatible North cartridges, filters and accessories.

CERTIFICATIONS:

NIOSH approved under 42 CFR 84 for use against a variety of respiratory hazards when used as designed with appropriate cartridges and filters in conjunction with OSHA fit testing requirements.

COMPLIANCE: OSHA 29 CFR Part 1920.134; lens meets ANSI Z87.1 requirements.

Honeywell™ North™ Low-Profile Cartridges and Cartridge/P100 Filter Combinations

Satisfy numerous industrial applications

- All air-purifying cartridges are approved with all air-purifying half masks and full-facepiece respirators
- Air-purifying respirators with cartridges provide respiratory protection against gases and vapors by using sorbents to purify the inhaled air
- Cartridges without filters do not remove dust, fibers, and other particles

CERTIFICATIONS:

NIOSH approved.

Moldex™ 7000 Series Reusable Half Mask Respirator Facepiece

Sleek design for modern, high-tech look and increased worker acceptance

- 100% PVC-free
- Wide field of vision
- Lightweight design plus extra-wide sealing area provides all-day comfort
- Low profile, compact design fits well under welding helmets and with safety glasses
- Mask drops down for convenient storage around the neck or locks down for custom fit
- Adjustable head cradle and curved neck buckles for extra comfort
- Simple maintenance with very few replacement parts

CERTIFICATIONS:

Meets EN 140; CE requirements.

Powered Air Purifying Respirators (PAPRs)

3M™ Versaflo™ TR-300+ PAPR Assembly Kits

Versatile, ready-to-use PAPR systems are ideal for particulate environments

- Save time cleaning with maintenance-free disposable hood
- Wider field of vision and freedom to wear your own safety eyewear
- Innovative Quick Release Swivel (QRS) permits easy connection and helps prevent breathing tube kinks
- Contoured design allows for work in tight spaces
- Blower's two selectable flow rate options (6.5 CFM and 7.2 CFM) provide end-user comfort
- High-efficiency particulate filter
- High-capacity rechargeable Li-ion battery lasts for 10 to 12 hours
- LED lights on the battery indicate its charge status on and off charger
- Audible and visual alarms alert user to either a low battery or low flow
- Belt-mounted
- Available in three complete assembly configurations

Easy Clean Kit (ECK) (17-000-724)

- Complete, ready to use HE PAPR system is designed for use in pharmaceutical, healthcare and food safety industries

Kit includes: 19-805-601 (S-655) Hood Assembly, 19-039-502 (BT-30) Breathing Tube, 17-000-719 (TR-302N) PAPR Unit, 19-039-562 (TR-327) Easy Clean Belt, 19-039-565 (TR-332) High-Capacity Battery, 19-039-567 (TR-341N) Battery Charger Kit, 19-039-580 (TR-3712N) HE Filter, 19-039-569 (TR-3600) Prefilter, and 19-039-577 (TR-970) Airflow Indicator

Heavy Industry Kit (HIK) (17-000-725)

- Designed for harsh demanding environments where head protection is a requirement
- Durable faceshield protects against flying objects and sparks while retaining optical clarity
- Kit's cool powered air allows for easier breathing in hot, humid conditions

Kit includes: 19-039-516 (M-307) Respiratory Hard Hat Assembly, 17-000-719 (TR-302N) PAPR Unit, 19-039-561 (TR-326) High Durability Belt, 19-039-567 (TR-341N) Battery Charger, 19-039-580 (TR-3712N) HE Filter, 19-039-570 (TR-362) Spark Arrestor/Prefilter, 19-039-565 (TR-332) High Capacity Battery, 19-039-503 (BT-40) Heavy Duty Breathing Tube, and 19-039-577 (TR-970) Airflow Indicator.

HKS Small/Medium Kit (17-000-726) includes: 19-805-612 (S-133S) Head Cover, 19-039-502 (BT-30) Breathing Tube with 19-021-574 (BT-922) Breathing Tube Cover, (TR-991) Carrying Bag, 17-000-719 (TR-302N+) PAPR Unit, 19-039-562 (TR-327) Easy Clean Belt, 19-039-565 (TR-332) High Capacity Battery, 19-039-567 (TR-341N) Battery Charger Kit, 19-039-580 (TR-3712N) HE Filter, 19-039-569 (TR-3600) Prefilter, and 19-268-035 (TR-971) Airflow Indicator.

HKL Medium/Large Kit (17-000-727) includes: All same components as Small/Medium Kit (above), except 19-805-610 (S-133L) Large Head Cover.

CERTIFICATIONS:
NIOSH approved.

Healthcare Kits (17-000-726 and -727)

- Available in two head covers sizes: small/medium and medium/large
- Disposable, maintenance-free hood with large face lens promotes better patient contact

3M Versaflo TR-300+ Components and Replacement Parts

3M™ Versaflo TR-800 PAPR Assembly Kits

Complete kits with intrinsically safe motor blower

- Meets current UL standards for challenging environments
- Easy-to-clean belts and disposable breathing tube covers
- Rechargeable Li-ion battery provides up to 10 hours of operation
- Choose between particulate filters or gas/vapor cartridges
- Available in three assembly kits all featuring these base components: 17-000-738 (TR-802N) Intrinsically-safe PAPR Unit, 17-000730 (TR-830) IS Battery, 19-268-024 (TR-641N) Single Station Battery Charger, 17-000-731 (TR-838) Battery Attachment Tool, 19-268-035 (TR-971) Airflow Indicator, and 19-268-028 (TR-653) Storage and Cleaning Kit

Painters Kit (PSK) (17-000-735)

Designed specifically for the demands of Paint Spraying
Kit includes these additional components: 19-039-000 (M-206) Faceshield Assembly, 19-805-595 (BT-20L) Breathing Tube, 19-021-574 (TB-922) Breathing Tube Cover, 19-268-010 (TR-651N) OV/HE Cartridges, 19-268-018 (TR-627) Easy Clean Belt, and 19-268-026 (TR-6500) Filter Cover

Easy Clean Kit (ESK) (17-000-736)

Disposable hood provides wide field of vision
Kit includes these additional components: 19-805-614 (S-433L) Hood with Integrated Suspension, 19-039-502 (BT-30) Breathing Tube, 19-021-574 (BT-922) Breathing Tube Cover, 19-268-007 (TR6710N) HE Filter, TR-6700 Filter Cover, 19-021-031 (TR-6600) Prefilter (x2), 19-268-018 (TR-627) Easy Clean Belt, and 19-268-032 (TR-662) Spark Arrestor (x2)

Heavy Industry Kit (HIK) (17-000-737)

Faceshield with visor helps protect against sparks and debris while multi-sized, heavy-duty belt is designed with cooling airflow channels

Kit includes these additional components: 19-039-516 (M-307) Hard Hat Assembly with Premium Visor and Faceshield, 19-039-502 (BT-30) Breathing Tube, BT-926 High-Temp Breathing Tube Cover, 19-268-016 (TR-626) High-Durability Belt, 19-268-011 (TR-6530N OV/AG/HE Cartridge, 19-268-026 (TR-6500) Filter Cover, 19-268-031 (TR-6600) Prefilter (x2), and 19-268-032 (TR-662) Spark Arrestor (x2)

CERTIFICATIONS:

UL-certified Intrinsically Safe for Division 1: Class 1, II, III; Division 1 (includes Division 2) Groups C, D, E, F, G; T4, under the most current standard (UL 60079, 6th Edition, 2013).

3M™ TR-300N+ Replacement Blower

Combines performance, protection and functionality with a slim, lightweight balanced design

FEATURES:

- Two selectable flow rate options - 6.5 CFM and 7.2 CFM
- Offers more options and comfort to the user

CERTIFICATIONS:

3M Versaflo TR-800 Components and Replacement Parts

3M™ Versaflo™ TR-830N Battery and Attachment Tool

Lithium-Ion battery pack for Versaflo TR-800 series PAPRs charges quickly--90% charge in approximately 3.5 hours

- Battery is mechanically attached to blower unit via included tool—ensures a secure connection as required by the most current UL standard
- Built-in charge level indicator
- Provides approximately 750 full charges per discharge cycle
- Attachment tool (TR-838) is included with battery; also available separately as a replacement

CERTIFICATIONS:

UL-certified Intrinsicly Safe (UL 60079, 6th Edition, 2013).

3M™ Versaflo™ Belts and Extenders for TR-600 Series PAPRs

Select from two belt styles and corresponding belt extenders

TR-626 High-Durability Belt and TR-626X Belt Extender

Ergonomically designed TR-626 belt is purchasable as a replacement component for TR-600 Series PAPR Assembly Kits (TR-613N, TR-616N and TR-600 HIK); or it can be used with other Versaflo components to build an entire PAPR assembly.

- Suitable for tasks found in healthcare, shutdowns, foundries, remediation, demolition, aggregates, woodworking and casting industries
- Accommodates waist sizes up to 52 in. (132.1cm)
- Belt's leather leads can sustain challenging wear/tear environments such as grinding
- Integrated belt keeper secures fit and can be trimmed to remove excess length
- Extender allows the TR-626 belt to be lengthened for more comfortable fit
- Multiple extenders can be connected in series
- Both belt and extender are gray

TR-627 Easy Clean Belt and TR-627 Belt Extender

Easy-to-clean, smooth surfaced TR-627 belt is purchasable as a replacement component for TR-600 Series PAPR Assembly Kits (TR-614N, TR-617N and TR-600 ECK)

- Ideal for environments found in healthcare, pharmaceutical, laboratories, dry foods, nuclear energy, and cosmetics; as well as tasks such as pesticide application, animal processing, recycling, and pharmaceutical research and production
- Accommodates waist sizes up to 52 in. (132.1cm)
- Ergonomic design makes it comfortable to wear
- Extender allows the TR-627 belt to be lengthened for more comfortable fit
- Multiple extenders can be connected in series
- Both belt and extender are gray

SafetySkills Training Program: Work Smarter

Experience all the benefits of a comprehensive workplace safety training program for a fraction of the cost.

The SafetySkills™ Training Program offers affordable and flexible plans, as well as customization and branding for every budget.

Visit fishersci.com/safetyskills or fishersci.ca/safetyskills to learn more.

3M™ Versaflo™ Breathing Tubes for Headtops and Air Delivery Unit

Compatible with all 3M™ Versaflo™ headtops and air delivery units

Self-Adjusting Breathing Tube

- QRS (Quick Release Swivel) breathing tubes allow fast and easy connection
- Meets higher respiratory performance requirements with 3M™ headtops
- Special flame-resistant sleeve lengthens life of tube and protects it from flying sparks
- Disposable breathing tube cover is available to help cleaning and decontamination operations

Lightweight Breathing Tube

- Lightweight breathing tube that is easy to wipe down
- Quick release swivel enables one-handed connection and release.
- Disposable breathing tube cover is available to help cleaning and decontamination operations
- Available in two sizes: small/medium and medium/large to accommodate different sized users

Heavy-Duty Breathing Tube

- High durability air breathing tube that is easy to wipe down
- Quick Release Swivel (QRS) enables one-handed connection and release.
- Made of Neoprene rubber

Cat. No.	Mfr. No.	Description	Quantity
19-039-502	BT30	Self Adjusting Breathing Tube	1 per Case
19-805-596	BT20S	Lightweight Breathing Tube; Small/Medium	1 per Case
19-805-595	BT20L	Lightweight Breathing Tube; Medium/Large	1 per Case

Did you know?

An estimated 5 million workers in the U.S. are required to wear respirators across 1.3 million workplaces to protect them from insufficient oxygen environments and harmful airborne substances.

Source: Occupational Safety and Health Administration (OSHA)

3M™ Versaflo™ S-Series Hood and Head Cover Assemblies

Manufactured from general purpose cost effective material with knitted inner collar. The reusable suspension hoods can be cost effective for high disposal rate environments: replace soiled hood fabric while the suspension and air ducting can be reused.

- Provides eye and face protection to EN166—liquid splash and low energy impact (Grade F)—the same classification for impact resistance as safety spectacles
- Externally adjustable airflow to suit the wearers needs
- General purpose, cost effective fabric
- Component can be separated for easy disposal
- Replaceable over-hoods
- Polypropylene material
- White

Standard

- Hood with reusable suspension providing head, face, neck and shoulder coverage

Reusable Premium Suspension with Hoods

- Ideal for environments with high disposal rates: replace soiled hoods and reuse suspension and air ducting
- Independent crown and head circumference adjustments allow custom fit

Integrated Suspension Hoods and Head Covers

- Hoods cover head, face, and neck; Head Covers provide head and face coverage
- Integrated models feature wide faceseal with soft elastic for improved comfort and reduced noise

Inner Shroud

- Tucking the inner shroud into a shirt or protective coverall allows excess air to be channeled over the body, providing additional comfort

3M™ S-Series Premium Suspension Hoods and Replacements

Lightweight, loose-fitting hoods offer both comfort and protection

Premium Reusable Suspensions with Hoods

- Ideal for high disposal rate environments
- Soiled hood is replaced; suspension and air ducting are reused
- Rigid ducting for consistent air path
- Externally adjustable airflow control allows wearer to modify airflow distribution
- Suspension features independent adjustments for the crown and head circumference; allows custom fit for wide range of head sizes

Bullard™ EVAHL PAPR System with Loose-Fitting Facepiece

Offers workers protection in hazardous locations

- HazLoc rated†
- For Class I, Division 2, Groups A, B, C, D T6 (gases and vapors)
- Class II, Division 2, Groups F, G (dusts)
- Class III (fibers or flyings)
- Simple, one button operation
- Choice of two air speeds
- Single filter design
- Active Flow Technology responds to air flow conditions
- 25 Assigned Protection Factor (APF)
- Independent, 3rd Party Documentation
- Dual alarms for low flow and low battery
- Visual fuel gauge
- 10X the life of most brush motors
- Genius charger compatible
- Lithium ion polymer battery
- 8.5/7cfm flow rate

Bullard™ EVA™ PAPR System with Double Bib Tychem QC Hoods

Uses a battery-powered fan to draw in ambient air through a filter cartridge then delivers filtered air to the user's hood, helmet, or facepiece via a breathing tube

- Uniquely designed, streamlined form makes PAPR lightweight, eliminates bulky corners that can dig into the wearer's back, and balances the unit's weight for maximum comfort
- Easy-to-read fuel gauge displays remaining battery capacity at a glance
- Battery status can be checked at any time during use
- Bullard Active Flow Technology automatically responds to a worker's need for more or less air flow
- Two distinct audible alarms notify wearers of low battery and low air flow
- Alarms are designed so the sound of the alarm travels through the breathing tube directly to the wearer's ear
- Powered by a long-lasting 10,000-hour brushless motor
- Assigned Protection Factor (APF): 1000
- Single filter design for easy use
- Filter locking tab notifies the user that the filter is in place with both a visual indication and audible click

ORDERING INFORMATION:

A NIOSH approved EVA PAPR system consists of the following properly-assembled components: (1) hood or mask; (2) breathing tube; (3) blower assembly; (4) purifying filter cartridge. Check model system components carefully before ordering.

COMPLIANCE:

NIOSH approved.

3M | Scott Fire & Safety Air-Pak 75i SCBAs

Catalog Number: 19-122-015

Bullard™ Tychem™ Hoods for Respirators

For use with CC20 Airline Respirators and EVA, EVAHL, PA20, PA30, PA30IS PAPRs

Tychem QC is a lightweight, supple material coated with polyethylene to provide excellent splash protection against many acids, bases, and other liquid chemicals. Hoods cover head, neck, and face. White in color.

Single Bib (Basic) Style: Incorporates an outer bib for overspray protection

Double Bib (Inner Bib) Style: Outer bib with a long inner bib; tuck inner bib into shirt or coveralls to funnel excess air from the hood to the body

Double Bib (Inner Bib) Style for Use with Hardhat: Accommodates Bullard™ hardhats

QC Hoods

- Single bib or double bib
- Dupont™ Tychem™ QC, Tychem SL, or Nomex™ fabrics
- With or without headbands
- Acetate, PETG, Vinyl, or Polycarbonate lenses
- Suspension free
- Sport cuff

SL Hoods

- Made of DuPont™ Tychem SL is Saranex-coated, features taped and sealed seams and provides excellent permeation characteristics against more caustic chemicals
- 135 sq. in. lens provides for unobstructed visibility
- Long inner and outer bibs for splash protection
- Independent front and rear inner bibs help eliminate shoulder fit issues

Supplied Air Respirators (SAR)

3M™ Scott Safety™ E-Z Airline™ Type C Respirator

Provides full-facepiece respiratory protection, for extended periods, from a remote source

Ideal for use in non-IDLH atmospheres containing objectionable or irritating airborne contaminants. Typical industrial and construction-related applications include painting, plant maintenance operations, and welding.

AV-2000™

- Offer wide range of vision and a secure face seal
- Fit most facial contours
- Hard-coated, replaceable polycarbonate lens for durability and long service life
- Comfortable, mesh-style head net for quick donning and doffing

E-Z Flo™ Regulator

- Facepiece-mounted, pressure-demand regulator with first-breath activation
- Highly responsive to user's breathing requirements
- Separate channels for inhalation and exhalation ensure ease of breathing
- User can stop airflow immediately after doffing with the E-Z Flo air-saver switch

Comfortable Strap and Belt Assembly

- Securely holds respirator to user's body
- Waist belt with easily adjustable clips and fasteners
- Quick-release buckle for swift doffing
- Strain relief prevents supply hose from tugging on regulator

Coupling: Hansen are brass with zinc finish

COMPLIANCE: NIOSH approved.

MSA™ PremAire™ Cadet Escape Respirators

Streamlined design with a first-stage regulator and cylinder within one assembly

- Low-profile escape cylinder can be worn on either hip for user comfort
- Small size is less likely to snag when working in tight spaces
- Two attachments for keeping cylinder secure on belt
- Shoulder support strap incorporates hose keeper; regulator hose stays in place close to body
- Bracket/holder of second stage pressure regulator
- Nylon strap harness/carrier

For use with:

Welding, chemical/petrochemical, hazardous materials, confined space entry, firefighting operation

CERTIFICATIONS:

NIOSH approved as open-circuit, pressure-demand escape SCBA; open-circuit, pressure-demand escape SCBA; and Type C supplied-air respirator.

Fall Protection

MSA

MSA™ TechnaCurv™ Full-Body Vest-Style Harnesses

Made of soft, flexible webbing

Optional Secure-Fit leg buckles with positive engagement windows allow you to see buckle is properly engaged—no need to listen for a “click” on a noisy site.

- Soft, flexible curvilinear torso webbing moves with the wearer for improved comfort and a secure fit
- Webbing curves to fit around the neck, so it will not chafe
- Lightweight polymer Y-back D-locator pad allows complete adjustment of back D-ring for proper fit

- Durable visco-elastic shoulder and sub-pelvic pads permit air to circulate; keep wearer cool and comfortable
- Single-hand operation for easy donning and doffing
- Feature a standard Qwik-Fit™ chest strap
- Maximum Capacity: 400 lb. (181kg).

CERTIFICATION:

Meets applicable OSHA standards; ANSI Z359.11-2014; CSA Z259.10-12 requirements.

MSA™ FP5K™ Tie-Back Shock Absorbing Lanyards

Unique carabiner offers 5000 lb. (2268kg) gate strength in any direction

- Carabiner can be tied back directly to the lanyard and enables maximum inside clearance with a 1 in. (2.54cm) gate opening
- Carabiner body shape helps avoid confusion with standard connectors not designed for tie-back applications
- Monster-Edge™ Webbing has a 12,000 lb. (5443kg) minimum breaking strength and designed for increased abrasion resistance
- Internal wear indicator alerts user when lanyard should no longer be used due to severe abrasion
- Keeps fall arrest forces below 900 lb./ft
- Adjustable length: 6 ft. (1.8m)

COMPLIANCE:

Meets applicable OSHA standards; ANSI A10.32, ANSI Z359.1, and ANSI Z359.13; CSA Z259.11-2005 requirements.

MSA™ Workman™ FP Stryder™ Beam Grip

Workman FP Stryder Beam Anchors quickly and easily attach to an I-beam flange without the need for any tools

- Compatible for use with MSA fall arrest and confined space entry/retrieval components
- Attaches to I-beam flange - no tools required

COMPLIANCE:

Meets applicable OSHA regulations; ANSI Z359.1-207 requirements.

Cat. No.	Mfr. No.	For Use With	Quantity
19-166-582	10144431	4 - 13.5 in. Beam	Each

MSA™ Latchways Tie-Back Mini Personal Fall Limiters

For working at heights

- 6ft. (1.8m) length
- High-impact polycarbonate housing
- 360° fully rotating attachment point for complete flexibility
- Stainless steel components
- 400 lb. (181kg) worker capacity

COMPLIANCE:

Meets applicable OSHA standards; ANSI Z359.14 (Class B), CSA Z59.2.2, EN360:2002 requirements.

Cat. No.	Mfr. No.	Description	Quantity
19-825-032	6314100A	Latchways Tie-Back Mini Personal Fall Limiter	Each

MSA™ Workman™ CSE Kit

Kit includes everything needed for a complete confined space setup: 8 ft. (2.4m) tripod, Workman Rescuer unit, winch with cable, (2) pulleys and (2) carabiners

- Workman tripod features internal locking leg mechanism, maximum height indicator, cut-resistant chains, and integrated carrying strap
- Stainless-steel winch offers 65 ft. (19.8m) of stainless-steel cable for lifting, lowering and positioning personnel and materials within confined space applications
- Winch has maximum work load: 400 lb. (181.4kg) for personnel and 620 lb. (280kg) for materials
- Workman Rescuer unit with 50 ft. (15.2m) stainless-steel cable lifeline has two modes: use as self-retracting lanyard for fall protection or for retrieval
- Rescuer unit capacity: up to 400 lb. (181.4kg)

COMPLIANCE:

Meets or exceeds all applicable OSHA standards for confined space fall protection; tripod meets ANSI Z359.1-2007; and Workman Rescuer unit meets ANSI Z359.14-2012 standards.

Cat. No.	Mfr. No.	Description	Quantity
19-825-040	10163033	Workman CSE Kit	Each

MSA™ Latchways Mini Personal Fall Limiters

For environments where close anchorage is available

- Compact and versatile
- Lightweight
- New design eliminates need for external energy-absorber outside of housing
- Polycarbonate
- Max. load 130 to 400 lb. (59 to 181kg)

COMPLIANCE:

Meets applicable OSHA standards; ANSI Z359.14 (Class B), CSA Z59.2.2, EN360:2002 requirements.

Cat. No.	Mfr. No.	Harness Connection	Anchorage Connection	Leg Configuration	Quantity

MSA™ Workman™ Tripod

Ideal for multiple confined space

- Simple, quick setup procedure also promotes correct use
- Maximum height indicator provides quick and easy identification of the maximum leg extension length
- Aluminium leg and head design reduces weight, improving portability
- Telescoping legs (up to 8 ft. high) do not tangle when the unit is collapsed for easier transportation and storage
- Skid-resistant feet with built-in leg base support strap
- Cut-resistant pin retention chains
- Internal leg-locking mechanism prevents accidental disengagement
- Leg base support strap also serves as a convenient carrying strap
- Legs feature 4 in. incremental adjustments with easy-to-insert ball detent pins

ORDERING INFORMATION:

Maximum Personnel Capacity: 400 lb. (182kg).
Maximum Material Capacity: 620 lb. (280kg).
Minimum Vertical Static Strength: 5000 lb. (22kN).

COMPLIANCE:

Meets applicable OSHA standards; ANSI A10.32; CSA certified
TRIPOD: ANSI Z359.1-2007; EN 363:2008 - 11
RESCUER: ANSI Z359.14-2012; CSA Z259.2.2-98 and CSA 1064727

3M DBI/Sala

3M™ DBI-Sala™ ExoFit NEX™ Vest-Style Positioning/Climbing Harness

For comfort, security and no-tangle donning

- Hybrid shoulder, back and leg comfort padding
- Stand-up Tech-Lite aluminum back D-ring
- Tech-Lite aluminum front D-ring
- Tech-Lite aluminum side D-rings
- Duo-Lok quick connect chest and leg straps
- Repel webbing
- Protective shoulder caps
- Loops for body belt
- Built-in lanyard keepers
- Revolver vertical torso adjusters
- Impact Indicator
- Integrated trauma straps
- Built-in reflective materials
- Protected labels, equipped with i-Safe

COMPLIANCE:
Meets OSHA 1910.66 and OSHA 1926.502; ANSI A10.32, ANSI Z359.1, ANSI Z359.3 and ANSI Z359.4 requirements.

3M™ DBI-Sala™ Delta™ Vest Style Harnesses

No-Tangle™ triangular design creates frame that allows the harness to fall into place when donned

- Spring-loaded stand-up dorsal D-ring design ensures fast, easy and safe connections
- Rip-stitch indicators allow to inspect the harness at glance, for prior damaging impact loads
- Harness falls into place, allowing quick and easy donning
- Side D-rings for positioning
- Adjustable non-slip chest strap with easy to use pass-thru buckle
- Tongue buckle leg straps for ease of use and will not loose
- Lanyard keepers holds unused snap hooks and help reduce trip hazard
- Revolver vertical torso adjuster provides simple and fast adjustment eliminating loose ends and locks webbing into place preventing slippage
- Velcro cover protects harness labels and holds I-Safe™ ID tag
- Made of Polyester Webbing material
- Universal Size

COMPLIANCE:
Meets ANSI Z359.11 requirements.

3M™ DBI-Sala™ ShockWave2™ Shock-Absorbing Lanyard

Reduces trip/fall, snagging, and dragging hazards

Unique stretchable design allows complete freedom of movement, practically eliminating snagging and dragging.

- Stretches from to 4.5 to 6 ft. (1.3 to 1.8m) to reduce trip and fall hazards
- In the event of a fall, the inner core limits the fall arrest force to 900 lb. (408kg) or less, stopping the fall in a controlled, smooth manner
- After a fall, a stitch rips to reveal a hidden warning label that indicates the lanyard has had a load placed on it and must be replaced
- Durable, abrasion-resistant nylon outer webbing is rated at a minimum 6000 lb. (2722kg) of tensile strength
- Maximum capacity is 310 lb. (140kg)

COMPLIANCE:

Meets ANSI Z359.7-2011 requirements.

Cat. No.	Mfr. No.	Connector Types	Quantity

3M™ DBI-Sala™ Salalift™ II Winch

Salalift II Winches provide a means to raise or lower a worker or to retrieve an incapacitated worker to safety

- Manually operated winch
- Equipped with i-Safe™
- Weight: 38 lb. (17.2kg)
- Quick mount bracket
- Free-wheel mode
- Built-in fall protection
- Overload clutch
- Level wind system
- Durable corrosion resistant construction
- 6:1 gear ratio mechanical advantage
- Reserve lifeline retention system
- Swiveling snap hook with impact indicator
- 60 ft. (18 m) of ¼ in. (6.3 mm) stainless steel or galvanized steel wire rope

INCLUDES:

60 ft. L of 0.25 in. stainless steel or galvanized wire rope and swivel snap hook, mounting bracket and carrying bag

COMPLIANCE:

Meets OSHA 1910.146; ANSI Z117.1 and ANSI Z117.1-1995 requirements.

Honeywell Miller

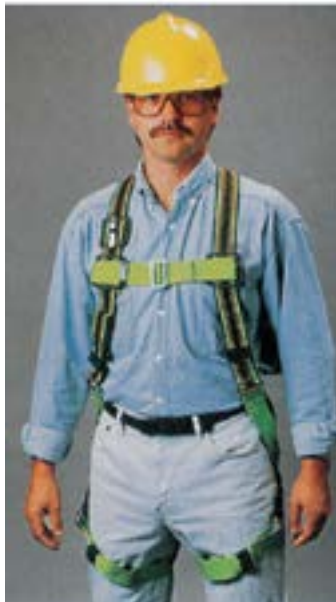

Honeywell™ Miller™ DuraFlex™ Construction Full-Body Harnesses

For use in construction and other industries where protection from a free fall is required and the worker must carry tools.

- Green
- Universal size
- Capacity 400 lb. (181kg)
- Feature pull-up-design shoulder adjustment; belt loops to accommodate tool belts, back pads, and accessories; and lanyard clip
- 1.75 in. (4.4cm) back strap and adjustable chest strap
- Back strap also keeps back D-ring in proper position

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359-2007; CSA Z259.10 requirements.

Honeywell™ Miller™ Revolution™ Harnesses

- PivotLink™ connection with unique rotary design promotes greater comfort in bending/mobility; also serves as an attachment point for belts, tools and accessories
- Cam buckle provides easy, one-handed adjustment/release and allows simultaneous adjustment of shoulder straps
- Semi-flexible ErgoArmor™ back shield minimizes impact from sharp/heavy snap hooks and self-retracting lifelines; knitted mesh membrane minimizes moisture absorption and maintains optimal air circulation
- High-impact-resistant polymer web finials provide positive gripping surface for easy web adjustment
- Webbing tested to 7000 lb. tensile strength. Universal size.

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359-2007; CSA Z259.10 requirements.

19-130-4104: Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359-2007; ASTM F887-05; CSA Z259.10 requirements.

Did you know?

In 2014, as many as 261,930 industry, state, and local government employees missed one or more days of work due to injuries from a fall and nearly 800 workers died as a result of a fall.

Honeywell™ Miller™ Backbiter™ Tie-Back Lanyards with SofStop™ Shock Absorber: Single Leg

Eliminate the need for separate anchorage connector

- Strong and safe; specifically designed for tying back
- 5K™ snap hook features a failproof gate and a 5000 lb. (2268kg) capacity
- Can also be used for direct connection to approved anchor points
- Heavy-duty Cordura™ nylon/polyester webbing with a tensile strength of 12,000 lb. (5443kg)
- Versatile SofStop reduces the force of a fall to no more than 900 lb. (408kg)
- Blue webbing has greater chemical resistance
- Green

Honeywell™ Miller™ StretchStop™ Lanyards with SofStop™ Shock Absorber

Combine the integral SofStop Shock Absorber with a unique stretchable lanyard design.

- Green, 6 ft. (1.9m) single leg with 1 locking snap hook and 1 locking rebar hook (2.5 in.).
- Unique stretchable design minimizes tripping, snagging and dragging
- Includes a heavy-duty back-up safety strap

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502; ANSI A10.32-2004; CSA Z259.11-05 requirements.

†US Only

Honeywell™ Miller™ Manyard™ II Shock- Absorbing Lanyard

Heavy-duty outer jacket serves as a backup to shock-absorbing inner core

- Handle working loads up to 310 lb. (141kg)
- Reduce fall-arresting forces to 900 lb. (408kg) or less
- Stretch from 4 to 6 ft. (1.2 to 1.8m) for maximum maneuverability
- Warning flag shows when lanyard is unfit for service due to previous fall

COMPLIANCE:

17-987-610: Meets OSHA 1926.502; ANSI A10.32; CSA Z259.11 requirements.

19-071-620: Meets OSHA 1926.502 requirements.

17-987-608: Meets OSHA 1926.104 and OSHA 1926.502; ANSI A10.32; ASTM F877-05; CSA Z259.11

17-987-607: Meets OSHA 1910.66 and OSHA 1926.502; ANSI Z359.13 and ANSI A10.32; ASTM F887-05; CSA Z259.11 requirements.

Honeywell™ Miller™ Manyard™ HP™ Shock-Absorbing Lanyards

Reduce the force of a fall by up to 80%

- Hi-vis green
- Length: 6 ft. (1.8m).
- Locking snap-hook harness connections
- Heavy-duty tubular outer jacket serves as a back-up web lanyard
- Shock-absorbing inner core smoothly expands up to 42 in. to reduce fall arrest

COMPLIANCE:

Single Leg: Meets OSHA 1910.66 and OSHA 1926.502; ANSI Z359.13 and ANSI A10.32 requirements.

Double Leg: Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359.1; CSA Z259.11 requirements.

Note: This product has been designed and tested to 5000 lb. (2268kg) minimum tensile strength and all hardware has been subjected to 100% proof loading to 3600 lb. (1633kg)

Honeywell™ Miller™ D-Bolt Anchor

Unique, compact D-shape bolt design prevents rollout

- Easily mounted in any horizontal or vertical position.
- Perfect for use with Manyard™ Shock Absorbing Lanyards or Miller retractable lifelines.
- Complete assembly package (single attached fastener with nut and washer) included for quick installation.
- Forged steel construction with cadmium/zinc plating.
- 0.5 in. diameter (1.2cm) bolt.

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359.1 requirements.

19-003-003	415/	D-ring Anchor	Each

Honeywell™ Miller™ Shadow™ Beam Anchors

Shadow Beam Anchors connect horizontally to a wide range of I and H beam flanges. The integrated positive lock, spring-loaded engagement pin secures the anchor jaws to the crossbar, yet allows the unit to slide along beam flanges.

- Adjustable jaws fit beams from 4-12 in. (10.1-30.5cm) or 12-24 in. wide (30.5-61cm), and up to 1.25 in. thick (3.2cm)
- Quick and easy installation without any tools
- Mounts horizontally on the top flange of a beam (when overhead anchorage does not exist) or overhead on the bottom flange of a compatible I-beam
- Built-in D-ring provides connection point for Manyard™ lanyards
- Stainless- and plated-steel construction ideally suited for use in corrosive environments

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359-2007 requirements.

Did you know?

Injuries from falls are a financial burden, costing the U.S. an estimated \$70 billion in workers compensation and medical costs each year.

Source: National Safety Council

Honeywell™ Miller™ ShadowLite™ Beam Anchor

Unit slides along the beam with the worker

- Bronze
- Made of steel and metal
- 400 lb. (181.4kg) load capacity
- Fits flange sizes 3 in. (7.6cm) to 24 in. (61cm)
- Connects horizontally to a wide range of I and H beam flanges

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359-2007 requirements.

Honeywell™ Miller™ TurboLite™ Personal Fall Limiters

- Reduces fall clearance requirements
- Extremely compact and lightweight, comparable to a shock-absorbing lanyard
- Attaches directly to the back D-ring of a harness for increased mobility
- High-impact nylon housing and abrasion-resistant webbing provide long service life
- Integral swivel prevents lifeline from twisting
- Rated for up to a 400 lb. (181kg) worker

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359.1-2007; CSA 259.2.2 (Type I) and EN360 requirements.

Honeywell™ Miller™ Twin Turbo™ Fall Protection System with Twin Turbo G2 Connector

Easily adapts two lightweight Miller TurboLite™ or Turbo T-BAK™ Personal Fall Limiters (PFLs) for continuous 100% tie-off fall protection. This 6 ft. model features steel rebar hooks and has 3,600 lb. gate strength.

- Reduces fall clearance requirements for use in more applications
- **PFLs swivel independently:** Provides ultimate worker mobility and prevents webbing from twisting and binding in the unit
- **Lightest-weight Twin Connector on the market:** Increases productivity by reducing worker fatigue
- Corrosion resistant aluminum connector teamed with high-impact nylon result in a longer product life
- Webbing Retainer Clip rotates freely to prevent unintentional opening of carabiner gate during a fall increases worker safety
- **D-Pad Clip:** Maintains harness adjustment while working by keeping the harness webbing and D-Pad in place
- Meets all applicable standards including OSHA, ANSI and CSA
- **Connects to harness webbing below the D-ring:** Frees harness D-ring for rescue and connection to an overhead Self-Retracting Lifeline
- **Webbing Retainer Clip offers generous webbing slot:** Accommodates thicker webbing for more versatility and allows for easy insertion of webbing

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 and ANSI Z359.12-2009; CSA Z259.12-11 Class I requirements.

Honeywell™ Miller™ Scorpion™ Personal Fall Limiters

Can be used both as a traditional retractable lifeline and as a fall limiter

Economical but extremely effective alternative to shock-absorbing lanyards. Stainless-steel braking system arrests a free fall within inches—adding a degree of safety for the wearer and making rescue easier.

- Provides 9 ft. (2.7m) of working length for more mobility than shock-absorbing lanyards
- Locking snap hook on lanyard end with 0.75 in. (1.9cm) gate opening
- Visual load indicator shows clearly when unit has been through a fall and must be replaced
- Maximum working load: 310 lb. (141kg).

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.503 (d); ANSI A10.32 and ANSI Z359.1; CSA 259.2.2 requirements.

Cat. No.	Mfr. No.	Includes	Quantity

Let Us Help You Protect What Matters Most

Tim VH., Charlie F., Mitzi J., and other members of our experienced safety team stand ready to offer you expert buying advice and practical tips to help keep your employees, facilities, and products safe.

SafetySkills Training Program: Work Smarter

Experience all the benefits of a comprehensive workplace safety training program for a fraction of the cost.

The SafetySkills™ Training Program offers affordable and flexible plans, as well as customization and branding for every budget.

Visit fishersci.com/safetyskills or fishersci.ca/safetyskills to learn more.

Honeywell™ Miller™ QuickPick™ Rescue Kit

Rescue Kits deliver peace of mind during unexpected, stressful peer-rescue situations

The rescuer can remotely attach the system to the suspended worker while remaining securely anchored on the walking/working surface. All rescue components are contained in one easy-to-store kit with no assembly necessary — only requires an overhead anchorage.

- Out-of-the-bag solution for prompt rescue, with no assembly required
- Quickly raise or lower a fallen worker to safety — avoid suspension trauma
- Professional rescue solution; enhances worker safety and corporate rescue plan

Applications:

Construction, Manufacturing, Municipal Services, Oil and Gas, Transportation, Utilities, Wind Energy

COMPLIANCE:

Standard: Meets OSHA 1926 and OSHA 1910.66 requirements.

Premium: Meets ANSI Z359.4 requirements.

Kit Contents

- Back-up braking system (Premium Kits Only)
- Pulleys
- Kernmantle Rope (7/16")
- Rescue Pole
- Carabiner Clip/ Pigtail
- Pole Carrying case
- Rope control Handle
- Tool Lanyard
- Cross-Arm Anchorage Connector
- Backpack

Honeywell™ Miller™ DuraHoist™ Confined Space System

Designed for manhole and confined space entry/retrieval and fall arrest applications

Complete Four-Piece Hoist/Winch System

- System breaks down into four lightweight aluminum components for easy storage, transport, and setup
- No tools required for assembly
- Modular design allows the use of various fixed and portable bases and an optional mast with extensions
- Multiple winches and/or lifeline systems may be mounted as required
- Overall system height adjusts from 79 to 100 in. (201 to 254cm)

ManHandler™ Hoist

- Secondary fall arrest system
- Maximum working load: 350 lb. (159kg)
- Compact, durable steel construction
- Effortless lifting and lowering with 5:1 gear ratio
- Anti-backlash crank handle braking system

Complete Mounting Bracket Assembly

- Required to mount ManHandler to the DuraHoist

Applications:

- Public Utilities: Vault and manhole entry, pump/lift/valve stations, water treatment, and wastewater industries
- General Industry (food, chemical, pulp and paper): Elevated manholes, storage tanks, platforms/mezzanines, underground vaults, clarifier tanks, pre-heaters

ORDERING INFORMATION:

Replacement adapter bracket available separately (Cat. No. 19-168-284).

COMPLIANCE:

Meets OSHA 1910.66 and OSHA 1926.502 (d); ANSI A10.32 requirements.
