

The bridge to possible

Cisco Software Compliance

This document is intended for Cisco customers and authorized channel partners to summarize your rights and obligations when using Cisco's software.

Cisco software enables operability of Cisco's hardware, provides innovative solutions and features, and contributes to the safety and security of Cisco customer's networks.

Use of Cisco's software is governed by the End User License Agreement (EULA).

The EULA is available at www.cisco.com/go/eula. Complying with Cisco's EULA and procuring Cisco software through authorized channel partners will ensure entitlement for software updates, upgrades, and service support.

As a Cisco Software User

What you are authorized to do:

- You and your authorized users are granted a non-exclusive and non-transferable license to use the software and documentation for internal use during the applicable term
- Your license must be procured from Cisco or an authorized Cisco channel partner
- You may use upgrades or additional copies if purchased separately or provided under a support contract
- You are provided a 90 day software warranty

Cisco Software Transfer and Relicensing Policy

- Cisco software (whether it is embedded operating system software or standalone application software) is not transferable unless specifically allowed under the Cisco Software License Transfer and Re-Use Policy which is available at:
<https://cisco.com/go/cloud-software-policies>

What you are not authorized to do:

- Sell, resell, transfer, sublicense, or assign your rights under the license
- Modify, adapt or create derivative works reverse engineer, decompile, decrypt, disassemble or otherwise attempt to derive the source code
- Make the functionality available to third parties, whether as an application service provider, or on an outsourcing, membership or subscription, rental, service bureau, cloud service, managed or hosted service, or other similar basis
- Use software that is licensed for a specific device, whether physical or virtual, on another device
- Remove, modify, or conceal any product identification, copyright, proprietary, intellectual property notices or other marks
- Use the software on secondhand or refurbished Cisco equipment not authorized by Cisco unless allowed by local laws

Additional User Obligations:

- Maintain records regarding software usage during the term and 12 months after expiration, which are subject to Cisco's review. Usage in excess of entitlement will result in the payment of additional license fees
- Comply with US and local export control laws regarding use, export, re-export and transfer of software. Specific export information may be found at: <https://cisco.com/go/export-compliance>

Cisco Partner Locator

Cisco recommends you purchase Cisco software from Cisco authorized channel partners and keep your Cisco software up to date with Cisco support plans. You can find your Cisco authorized channel partner at Cisco's partner locator website available at:

<https://www.cisco.com/go/partnerlocator>

Cisco Smart Licensing and Smart Accounts

Cisco enables you to deposit and manage Cisco software licenses through Smart licensing, a software asset management platform. It enables transparent overview of Cisco software license usage. More information on how to obtain a Smart account and start using Smart licensing you can find at: www.cisco.com/go/smartlicensing

Cisco hopes that the above information was helpful. To ensure software license compliance, Cisco recommends you review the full terms and conditions of the EULA and other terms as applicable.

If you have any questions about the EULA or Cisco software, please contact Cisco Brand Protection at brandprotection@cisco.com

or CX Software Compliance team at software_compliance@cisco.com

Thank you for your trust in Cisco.
