# WELCOME TO SOL REPUBLIC

## TRACKS SERIES

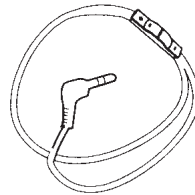

We designed the Tracks series headphones to deliver an incredible on-ear music experience.

**Crank up your favorite song and enjoy.**

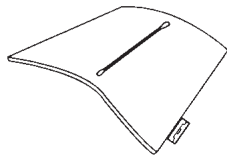

### Included Accessories

1. Headphones with a detachable Sound Track band

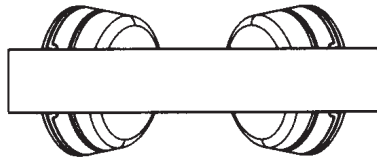

2. Three (3)-button remote cable with microphone

Tracks HD Only

3. Carrying case available with Tracks HD

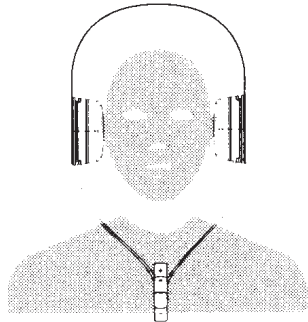

## Using Your Headphones

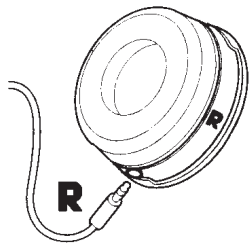

- 1.** Our headphones are designed for comfort and incredible sound. Ensure you get the most from your headphones by creating the perfect fit. Adjust the Sound Engines along the Sound Track band until they fit comfortably on the ears. Check out our how-to video on finding the right fit at [SOLREPUBLIC.com/QSvids](https://www.solrepublic.com/QSvids).

- 2.** Place Sound Engine on top of corresponding ear ("R" over right ear, "L" over left ear).

- 3.** Wear your headphones with the cord hanging in FRONT of your head to ensure they stay put during strenuous activity.

- 4.** Insert cable connectors securely into corresponding Sound Engines ("R" for right "L" for left).

## **Tips for using your remote control on compatible Apple® products**

### During music playback

- Click play button once to pause and again to resume playback
- Click play button twice quickly to track forward
- Click play button three times quickly to track backward
- Increase volume by pressing “+” button.
- Decrease volume by pressing “-“ button.

### During phone calls

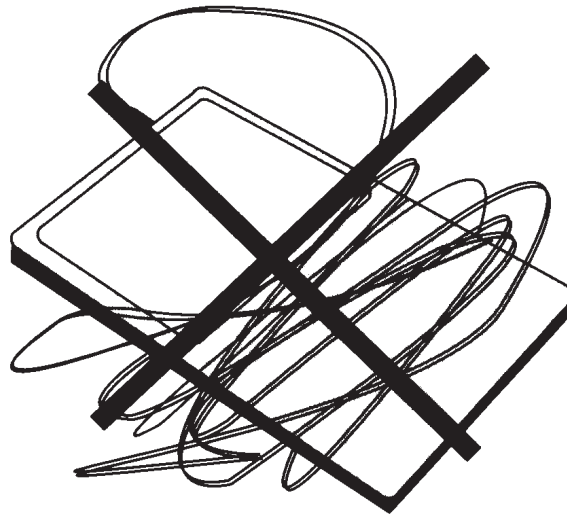

- Click play button once to answer incoming call, click once to end call
- Press and hold down play button for about two seconds to decline an incoming call
- Click play button once to switch over to call waiting, click again to switch back to original call

## Protecting Your Headphones

We worked hard to construct heavy-duty headphones. Follow the guidelines below to protect them.

- SOL Republic headphones are not intended for use while swimming, bathing or showering. You should still take a shower though.
- If you purchased the Tracks HD, use the SOL REPUBLIC carrying case
- Keep your headphones clean and free of debris
- Do not tug on cable to disconnect plug from device
- Do not wrap headphones around device while it is still plugged in as it puts unnecessary pressure on plug-cord connection

## **Troubleshooting**

If you are experiencing issues with your headphones, please refer to the troubleshooting guidelines below. If the problem persists, visit **[SOLREPUBLIC.COM/SUPPORT](https://www.solrepublic.com/support)** or contact us on Twitter (**@SOLREPUBLIC**).

### **TROUBLE SUGGESTIONS**

#### **There's no audio**

Make sure your device's headphone jack is free of debris and that the headphone plug is securely connected.

#### **The treble and bass level is too high or too low**

Check the audio enhancement features on your device.

#### **Sound is coming out of only one Sound Engine**

Make sure the cable is firmly connected to the headphone by ensuring male 3.5mm cable is inserted into female 3.5mm jack all the way.

#### **Distorted sound**

Play a couple different songs first to make sure the problem is not with your device. Then, check the EQ settings on your device.

## **Cleaning Your Headphones**

We love our headphones and look at each one as a work of art. Be sure to take care of them.

To keep your headphones clean, periodically wipe with a dry cloth. You can also remove the ear tip and gently wipe the sound engine.

## **Note on Static Electricity**

In particularly dry air conditions, mild tingling may be felt on your ears. This is a result of static electricity accumulated in the body, and not a malfunction of the headphones. You can stop dragging your feet across carpets or try wearing clothes made from natural materials to minimize the effect.

## **Hearing Safety**

The Occupational Safety Health Administration has developed the following noise exposure chart to help determine what levels and lengths of listening are safe.

| <b>SOUND LEVEL</b><br>dBA Maximum | <b>LISTENING<br/>DURATION</b> | <b>SOUND<br/>EXAMPLE</b>    |
|-----------------------------------|-------------------------------|-----------------------------|
| <b>90</b>                         | <b>8 hrs</b>                  | <b>Lawnmower</b>            |
| <b>92</b>                         | <b>6 hrs</b>                  | <b>Tractor</b>              |
| <b>95</b>                         | <b>3 hrs</b>                  | <b>Electric Drill</b>       |
| <b>100</b>                        | <b>2 hrs</b>                  | <b>Subway Train</b>         |
| <b>102</b>                        | <b>1 1/2 hrs</b>              | <b>Jet Flyover at 100ft</b> |
| <b>105</b>                        | <b>1 hr</b>                   | <b>Snowmobile</b>           |
| <b>110</b>                        | <b>1/2 hr</b>                 | <b>Jackhammer</b>           |
| <b>115</b>                        | <b>1/4 hr</b>                 | <b>Loud Concert</b>         |

At SOL REPUBLIC, we're committed to providing you an incredible music experience for many years to come. According to the American Speech-Language-Hearing Association, "listening to headphones at high volumes for extended periods of time can directly result in lifelong hearing loss." We recommend that you listen to your headphones at comfortable volume levels for reasonable periods of time.

**Enjoy your music responsibly by following these steps**

- Listen to your music at a safe volume level. A good point of reference is half volume.
- Be aware of your surroundings. Some states have laws prohibiting the use of headphones during activities such as driving, bicycling or jogging while on public roads.

For more information about safe listening practices, visit [www.asha.org](http://www.asha.org).
