MAKING USE OF SPACE AROUND THE WHEEL WELLS

WEATHER GUARD® has figured out a way to make use of otherwise unutilized truck bed space above and behind the wheel wells with these uniquely shaped boxes. They establish a great location for storing small parts and hand tools to which you often need quick, easy access. They're constructed of either steel—protected with a Brite White ARMOR TUF® Powder Coat finish—or aluminum diamond plate (Clear or Black). Pork Chop Boxes leave plenty of room in the truck bed for hauling around your weekend toys.

ALL PURPOSE CHESTS

A LOW-RIDER WORK HORSE

Maximize your visibility. All-Purpose Chests sit below the bedrail, accommodating tonneau covers and lids. An angled body design allows the chest to fit in fifth-wheel trailer configurations. The cover opens to 90° for maximum access using a unique offset hinge design that still allows installation flush against the truck cab. For durability, they're built of steel and finished with Brite White or Black ARMOR TUF® Powder Coat, or diamond plate aluminum (Clear or Black).

LO-SIDE BOXES

QUICK ACCESS FROM THE BEDRAILS

WEATHER GUARD® Lo-Side Boxes mount over the bedrails of your truck and keep critical tools and parts at your fingertips. Their easy installation utilizes mounting brackets that do not require drilling into the rails. The design and location on the truck bed aren't the only attributes that keep you productive—you can get inside with just one hand using an automotive-style latch. The durable Lo-Side is available in steel, and protected by an ARMOR TUF® Powder Coat finish in either Brite White or Black, or diamond plate aluminum (Clear or Black). The Lo-Side from WEATHER GUARD® can also be used separately or in combination with Cross Boxes or Saddle Boxes.

TRANSFER TANKS

1 Vented Filter Cap

2 Interior Baffle Design

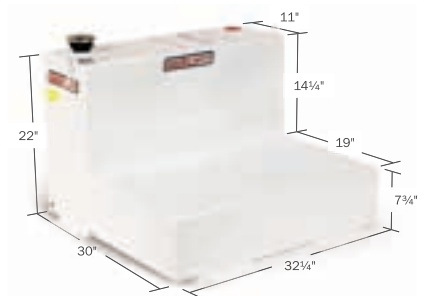

FOR TRANSPORTING DIESEL FUEL

WEATHER GUARD® Transfer tanks offer a safer mode of transporting diesel fuel to your jobsite and beyond. L-shaped tanks are designed to be used with Cross Boxes and Saddle Boxes only; rectangular tanks are designed for full-size pickup trucks. Ranging in capacity from 50-110 gallons, WEATHER GUARD® Transfer Tanks feature full arc-welded, heavy 14 gauge steel construction for long-lasting durability. The interior baffle design reduces fuel movement and provides extra tank reinforcement. The lockable vented filler cap prevents excessive pressure built-up and the threaded filler neck accepts standard 2" threaded pipe. Installation is easy using the heavy-duty lifting loops and secure plate-steel flange bed mounting points. All tanks are protected with Brite White ARMOR TUF® Powder Coat Finish for years of durability, and backed by a Limited Lifetime Warranty.
