

1 PCN Information

Title	Product Change Notification		
PCN Number	PCN-2101-TSSL-0015	Issue Date (yyyy-mm-dd)	2021-02-01
PCN Revision	1.0	Effective Date (yyyy-mm-dd)	2021-03-10
Refers to Change Order	ECO-002703	Expiration Date (yyyy-mm-dd)	N/A
Refers to Change Request	N/A	Authors	CJR/FDA

2 Product Identification

2.1 Product Data

	Pre-Conversion	Post-Conversion
Product Name	conga-TS170, conga-TC170	conga-TS170, conga-TC170
Product Number P/N	See Appendix	See Appendix
Serial Number S/N	N/A	N/A
Lot Number	See Appendix	See Appendix
Hardware Revision	See Appendix	See Appendix
BIOS Revision	BxSLR123	BxSLR123
congatec Board Controller Revision	CGBCP439	CGBCP440

2.2 Means of Distinguishing Changed Products

		Remark
Product Number	<input type="checkbox"/>	
Hardware Revision	<input type="checkbox"/>	
Lot Code	<input type="checkbox"/>	
Label	<input type="checkbox"/>	
Other	<input checked="" type="checkbox"/>	Board Controller firmware revision is displayed in the BIOS setup menu.

3 Description and Reason of Change

AVL	<input type="checkbox"/>	Product Improvement	<input checked="" type="checkbox"/>
Material	<input type="checkbox"/>	BIOS Release	<input type="checkbox"/>
Assembly Process	<input type="checkbox"/>	Firmware Release	<input checked="" type="checkbox"/>
Assembly BOM	<input type="checkbox"/>	Datasheet/Manual	<input type="checkbox"/>
Testing	<input type="checkbox"/>	DFM	<input type="checkbox"/>
Manufacturing Site	<input type="checkbox"/>	Other	<input type="checkbox"/>
Equipment	<input type="checkbox"/>		

3.1 cBC Firmware Update

Refer to PCN-2012-CGBC-0055.

4 Impact of the change (positive or negative) on fit, form, function & reliability

4.1 Quality and Reliability

The changes listed in section 3 improve the product quality and reliability performance.

4.2 Software Compatibility

Fully software compatible with previous revision.

4.3 Hardware Compatibility

When using board controller firmware revisions earlier than CGBCP440, the system gets stuck in a reboot loop when the reset button signal is held low. When using CGBCP440 it is performing a restart. Other than that difference, it is hardware compatible with the previous revision.

The change described within this PCN does not affect the functionality of the modules. congatec is not obligated to perform an update on modules that have already been delivered or on modules that are pending delivery unless explicitly mentioned herein. If you have any questions about this matter, please contact your local congatec GmbH representative.

5 Product/Revision Discontinuation

All previous product revisions are set to EOL status (End-Of-Life).

After the release of this PCN there will be a transition time of 6 months whereby a delivery may consist of products based on previous revisions as well as new revisions. After the completion of the transition time, only products based on the new revision will be delivered. This does not include products that fall under the RMA process.

6 Contact Information

congatec Contact	Technical Solution Center
Fax	+49-991-2700-111
eMail	support@congatec.com

Product Change Notification

7 Customer Acknowledgment of Receipt

congatec GmbH records indicate that you require written notification of this change. Fill in the acknowledgment below and eMail this document to the eMail address above to request additional information. If congatec GmbH does not receive acknowledgment within 30 days of this notice it will be assumed that this change is acceptable. congatec GmbH reserves the right to ship either version manufactured after the process change effective date until the inventory on the earlier version has been depleted.
