finishes and
10 veneer finishes

Drawing on 35 years of market-leading expertise in the enclosures that house and protect audiovisual systems, Middle Atlantic Products has developed a suite of stylish furniture solutions that present a striking symmetry of technology and design.

Technology is moving from dedicated equipment rooms to more localized positions in conference rooms, collaboration spaces, lecture halls and more.

This trend inspired our Frame to Furniture™ approach which combines a strong foundational frame to protect and maintain equipment with custom wood exterior finishes.

This unique line of furniture results in a product that helps ensure reliable systems, offers flexibility for future growth and has the attractive features that modern spaces demand.

TechPed™ Series

technology pedestals

Middle Atlantic's TechPed™ is the most discreet, localized solution for meeting spaces. This under-table solution houses equipment and cables while providing stylish support to any conference table top – perfect for concealing table boxes and wiring. Available finishes on page 16 or customize the exterior to match the table surface.

VTC Series

video carts

The VTC Series Video Carts are the most versatile mobile monitor cart system for videoconferencing and presentation applications. This high capacity, yet stylish solution has the ability to hold equipment and mount side-by-side 70" flat panel TVs while still maintaining the ability to be wheeled to multiple locations. Great for corporate environments with multiple collaboration spaces allowing you to turn any space into a meeting space.

L5 Series

lecterns

Middle Atlantic's L5 Series Lecterns take the Frame to Furniture™ approach to the classroom, hospitality meeting space, auditorium or even house of worship. These are often public or high traffic areas, therefore, we engineered the L5 Series with a flexible exterior that grows with you as your needs change. Ask about our custom logo capability to make a truly one of a kind piece.

style selections for credenzas, technology pedestals, and lecterns:
