## Bromcom Cloud MIS

### Secondary

**Bromcom's** solution adapts to fit your needs. Our community of users ensures that our MIS solution can keep up with all of your school's activities. **Bromcom** offers a combination of training solutions for all users. Our teams of expert support staff, developers, trainers and sales personnel are quickly growing as we expand into new areas, making us one of the fastest growing providers in the UK.

Bromcom Secondary MIS is an extremely powerful, intuitive, and friendly secondary school software solution. The package seamlessly brings together teachers, parents, senior leaders and administrators, helping them to maintain the very best in teaching and learning standards.

Bromcom is a cloud hosted MIS provider, and we are keen for secondary schools, primary schools, multi academy trusts and free schools to join our user network.

“ We would like to compliment Bromcom upon the rapid turnaround on support issues and the knowledgeable and helpful attitude of all the staff that we have interacted with

Fergal Moane | Assistant Headteacher  
Sandringham School

”

#### › THE BROMCOM DIFFERENCE

Automate and simplify administrative tasks from start to finish. Be ready for Ofsted with the information at your fingertips and quickly share information with Parents via the MyChildAtSchool parent portal. The Bromcom MIS meets all relevant DfE standards and is approved for the government's G-Cloud services framework.

#### › NO NEED TO SPEND HOURS SIFTING PAPERWORK FOR THE DATA YOU NEED!

Staff no longer need to spend hours searching for and analysing data – the Bromcom MIS provides a wealth of intuitive and powerful facilities to make it so much easier!

#### › PEACE OF MIND

Bromcom's support is renowned as being the best in the industry. We carefully select and train all our helpdesk agents and trainers to guide you on the best use of the system.

#### › SECURE DATA

Data security is very important to us and we make sure that our organisation and products meet the required standards. From the latest General Data Protection Regulations (GDPR) to the flexibility we give you to manage when and what your users can do on the MIS, together we ensure that your data is secure.

## Bromcom Top 10 Features

### ONE > CLOUD WEB BASED

Cloud/web based with built-in anytime, anywhere, any device. Having no hardware to buy and maintain within the school made this the No 1 feature with our users.

### TWO > TEACHER FRIENDLY DASHBOARD

The most Teacher friendly Dashboard. It is a gateway to all the information the Teacher needs on one page, they just need to open the door to each section by clicking on it.

### THREE > SCHEDULED REPORTS

Reports can be set to automatically run at a set time, on a set day, for example every Friday at 15.30PM. It is your report, your schedule and your decision when it should be produced.

### FOUR > BUILT-IN DOCUMENT MANAGEMENT SYSTEM

Scheduled and previewed reports can be saved to My Reports for future online viewing. Parent reports can be saved directly against the student records for review later. Attach and scan external documents to students and staff records. Document Management helps you keep all information at your fingertips.

### FIVE > INTUITIVE AND USER FRIENDLY

It is so easy to move around the Bromcom MIS and find what you are looking for, with minimum clicks.

### SIX > MULTI-TAB

Multi-Tab means Multi-Use. Bromcom's browser based solution enables you to make use of multiple tabs meaning that you are not restricted to one page and having to go in and out of options

### SEVEN > ADVANCED REPORT BUILDER

Advanced Report Builder is a reporting and analysis tool that allows you to combine student lists, charts, data tables and graphs in a single report.

### EIGHT > ONE STOP SHOP

No need to go to different suppliers for bolt-ons for your MIS when you can get them from one place.

### NINE > BEHAVIOUR

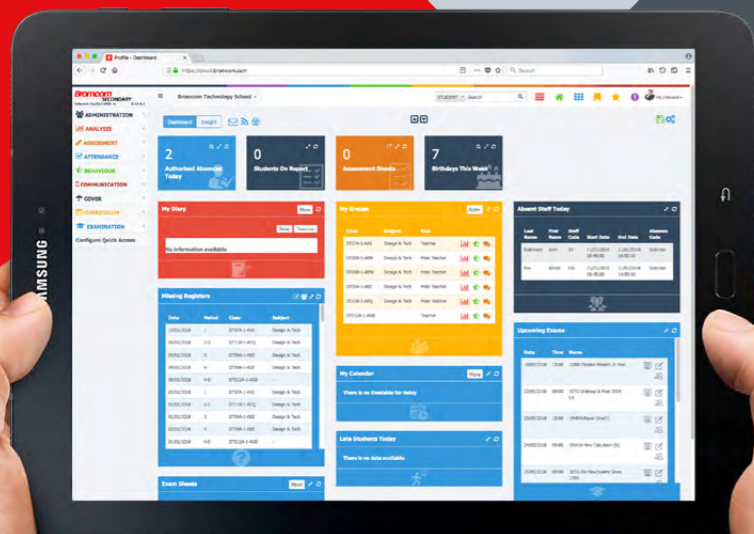

The most flexible and easy to use Behaviour module. The Bromcom Behaviour module was developed to be easy to use and simple to setup.

### TEN > BUILT-IN EXCEL ADD-IN

Built-in Excel Add-in for live access to data. It's so simple to securely access data from within Excel, then to produce the charts and spreadsheets that you want.

## Analyse, track and follow performance

## Performance and Assessment

A user friendly interface that gives you all the tools you need to analyse, track and follow how your pupils are performing. This includes colour highlighting, formulae and a library of pre-built assessment models. MATs can centrally build and share models with schools in their trust.

## Methods of Training

We are confident that our system is intuitive and easy to use, that said, we know that everyone learns in different ways.

We offer various methods of training, giving you a more in-depth opportunity to appreciate Bromcom's MIS and maximise the system's full potential for you and your School.

## Training Options

- > Go Live Day Onsite Training
- > Onsite Training
- > Webinar Training
- > Group Training clusters / MATs / LAs

Our trainers can visit your school and offer in person training whether to a team or to support an individual. We offer free weekly primary or secondary focused webinars, tailored online webinars and interactive training sessions. Using our own Virtual Learning Environment, we have put together a whole bundle of training aids, including documents, how-to videos and support posts.

## Why choose Bromcom?

- > Platform independent
- > No updates or backups - this is all done for you
- > Everything in one place
- > The most advanced reporting available
- > Safeguarding option
- > Built-in student portal
- > MyChildAtSchool Parent Portal

## Online Parent Portal

### What is

### MyChildAtSchool?

**MyChildAtSchool** is a highly configurable online portal that enables parents to view their child's performance at school in real time via a web browser (e.g. Internet Explorer, Firefox, Google Chrome). The facility allows the child's attendance, grades, behaviour, examinations and timetable to be accessed whenever the parent/carer wishes.

## The UK's First Parent Portal launched in 2000

### Features and Benefits

- > **MyChildAtSchool.com** promotes better communication between both schools and parents, and parents and their children.
- > Ability to check a child's homework and when it has been set and completed.
- > Publish reports directly to parents and save printing costs.
- > Ability to publish programmes of study and a child's progress.
- > Acts as a deterrent to pupils at risk of playing truant.
- > Parents can update their personal contact details online so that the school always has their most up-to-date information.
- > Schools can alter the design style so it fits in with their current school theme.
- > All the information is accessed securely using unique user names and passwords.
- > Helps manage parents euenings.

“

Parents can monitor their child's behaviour and attendance lesson by lesson because the system is updated automatically throughout the day. This enables parents to work even more closely with the school to ensure that students attend all lessons. A successful partnership is essential to ensure that every child reaches their full potential

Geoff Staniforth | Assistant Head  
Ashby School

”

### Advanced Report Builder

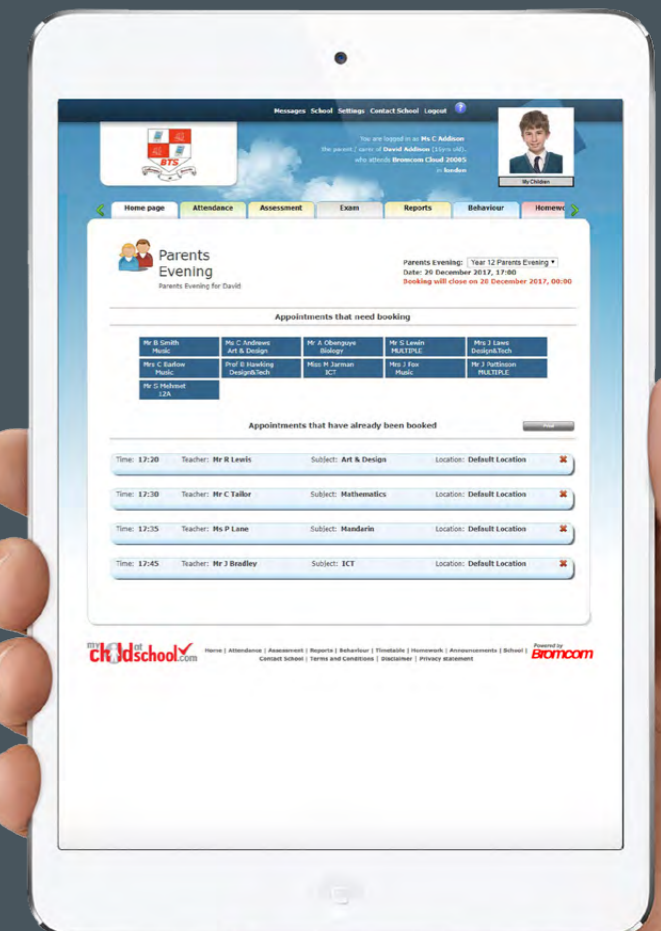

- > Bromcom provides the best of both worlds when it comes to reporting.
- > A huge range of ready to use reports are built-in and are designed to cover all the day to day needs of the school.
- > The report designer facilities provide a quick and simple method to create new custom reports, either from scratch or by adjusting a previous design.
- > Immediate feedback and quick previews make the process easy.
- > For those who want the ultimate, Bromcom's MIS provides an advanced report builder option, which gives data managers the ability to add formulae and have even greater control of report designs.
- > Every level of user is catered for.

### Communications

- > Bromcom's MIS also provide a built in electronic messaging solution.
- > Control over sending email and/or text SMS messages.
- > Ad-hoc and automated messaging (e.g. first day absence, detention, reward received).
- > Communications log built in.

### Working with the Diary module

Diary is a module that will provide integrated diary management and accompanying features for the Bromcom MIS and MyChildAtSchool. Diary provides a powerful feature to help manage the burden of booking parent sessions during parent evenings without the paper trail that is typically involved. Parents use **MyChildAtSchool** to book their meetings from the remaining sessions, which are then automatically conveyed to the teachers, and parents will see the confirmation via **MyChildAtSchool**.
