## Specialized Services

Our qualified Patient Service Technicians provide in home delivery and instruction on prescribed equipment

### Service Guarantee

- Sales, Service, Repair and Rental
- Care of Service plans provided to customer for their respective modality or device
- Medicare, Managed Care and Workers Compensation authorization and Insurance Billing
- Clear written and verbal instructions provided to patient and caregiver on equipment provided

### Seating, Mobility & Modular Ramp Program

MedSolutions provides the best in custom In-Home Mobility Assessments. Equipment recommendations and quotations are provided.

### Powered Mobility Consultation and Billing

MedSolutions leads the way in efficient powered mobility reimbursement through Medicare and insurance while ensuring medical necessity criteria is met for potential candidates. We eliminate the need to fax a physician continuously to obtain paperwork by simply being there to consult you or your office on proper documentation. We make "Face to Face Evaluations" simple!

### Continuous Passive Motion (CPM) Program

CPM devices are machines manufactured to aid and optimize the rate of recovery for individuals who have undergone joint surgery. The passive range of motion is provided without weight bearing and muscle contraction. MedSolutions provides the latest technology in CPM and is recognized for service excellence in this program.
