

Instructions for downloading Adobe Photoshop Lightroom from Leica Owner's Area

Check the list of System Requirements before downloading Lightroom 5 is not compatible with Windows XP or Mac previous to 10.6.8

Congratulations on the purchase of your new Leica V Lux typ 114 – you now have a product with a brand name renowned throughout the world.

As a registered Leica customer, you will enjoy special benefits – from our Leica partners too – with access to lots of important information and free downloads for your product. These include firm-ware updates, instructions, FAQs, contact details for Leica Customer Service and much more.

Please print this page for easy reference.

To register go to <https://owners.leica-camera.com/en/login> At the bottom of the page there is **New log-on** and **Click here to register**. There are 6 steps to go through. After the registration is completed, you will be sent an email with instructions to log-on and access the download. Sometimes this email ends up in Spam folders so be sure you can access a spam or junk folder with your email service.

### **Adobe Photoshop Lightroom**

We recommend using Adobe's professional Photoshop Lightroom software to manage your photos efficiently and edit them perfectly. Once you have successfully registered in the Owners Login area of the Leica Camera home page, you will be able to download 2 versions of this software for free.

#### **Note:**

The software versions available on the Leica homepage change from time to time, depending on the version the supplier delivers Leica at the time. Regardless of this and regardless of when you perform the download, you are only entitled to download one version and Leica will not provide you with any other versions or upgrade.

To download the software you will need

- a. your camera's serial number, and
- b. the individual TAN number assigned to your camera.

You will find both numbers on the sticker inside the rear cover of the Warranty Card. If you have any questions about the installation or use of the software, please email [cs-sw-support@leica-camera.com](mailto:cs-sw-support@leica-camera.com)

You will be sent a license number in a separate email from Leica which will be needed when you install the Lightroom program.

Questions about Registering should be emailed to [ownersarea@leica-camera.com](mailto:ownersarea@leica-camera.com)
