

HD Harrisville Designs

friendly loom™ products
Educational Toys • Made in the USA

What makes us different?

Woolen yarn has been spun in the water powered, brick mill town of Harrisville since 1794. This small village is nestled in the Monadnock Highlands of southwestern New Hampshire and is the only industrial community of the early 19th Century that still survives in America in its original form. At Harrisville Designs we are keeping the textile tradition of this region alive, employing hard-working community members and making quality products. All of our products are made in the USA, and most of our products are made in New Hampshire – an idea that is a core value of our company.

Harrisville Designs Award-Winning Friendly Loom™ Products are designed and made by weavers, spinners and woodworkers. We are a small, family owned and operated business, and we believe that quality should not be compromised for even the smallest product. You can encourage lifelong skills with our educational products (suitable for both children and adults) and give your child the best materials to work with so they can be proud of what they create.

There's something special about teaching children to work with their hands!

Dear Friends,

We developed the first of our Friendly Loom™ Products in the 1980's in response to a growing demand from educators and parents concerned with introducing 'hands on' creative activities to children and teenagers. Our products are designed to provide fun, challenging, educational experiences while developing concentration, fine and gross motor control and a better understanding of spatial relationships and patterning.

In this fast-paced world where children are being forced to grow up too quickly, we believe that it is essential to help them slow things down and experience their creative abilities by introducing them to the joys of working with their hands. As educators and parents, one of our most important challenges is to encourage the development of self-esteem and self-confidence.

For a child to be able to say, "I made this myself," the pride in achievement is not only felt in that child's mind and heart, it is represented in a tangible form by something beautiful and practical to own or to give as a gift. We hope that you will find Harrisville Designs' Friendly Loom™ Products useful tools for helping children discover the excitement of the creativity that is within them.

Kind regards,

Patricia & John Colony

Traditional Potholder Kit

Highest Quality Metal Looms and Cotton Loops!

Makes 2 Traditional size (6" x 6") potholders!

Children love to weave!

The Harrisville Potholder Loom allows children to discover the basic techniques of weaving and to produce something useful that they can be proud of.

It's a quiet activity that encourages concentration and gives a sense of accomplishment by creating original designs.

Weaving helps children understand spatial relationships while developing fine motor control and building self-confidence.

Friendly Tapestry Looms

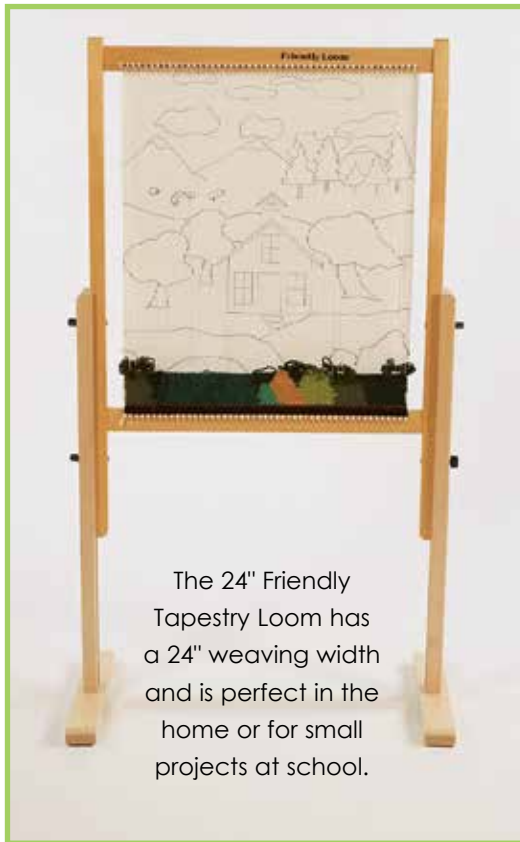

24" - \$250.00

Item F286

48" - \$300.00

Item F285

Make big things like banners, wall hangings, rugs, and table runners or smaller things like purses or pillow covers!

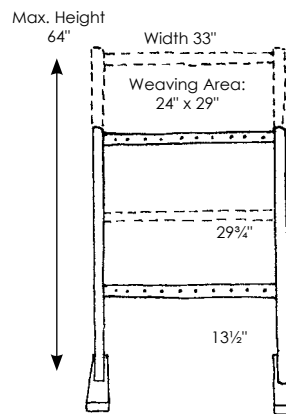

The 24" Friendly Tapestry Loom has a 24" weaving width and is perfect in the home or for small projects at school.

At home or school, weaving can be an exciting alternative to the usual art and craft activities!

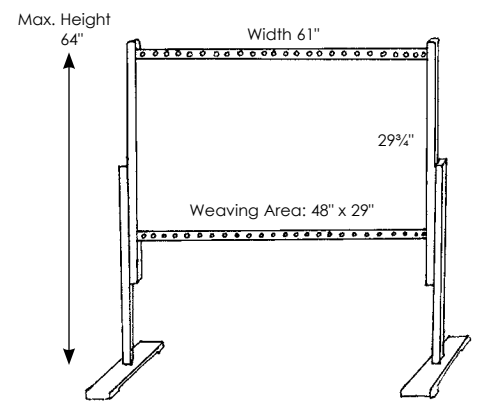

An excellent instruction booklet comes with the loom and includes detailed drawings and many ideas for new projects.

Six children can weave all at once using both sides of the warp strings.

24" Tapestry Loom

48" Tapestry Loom

Large enough to have multiple projects going at one time!

- Constructed of beautifully finished hardwood.
- Equipped with unbreakable nylon pegs that are used to hold the warp in place.
- Adjustable to different heights from 44" to 64" at the top.
- These looms come partially unassembled for shipping.
- Minor assembly can be completed in 10 minutes.
- Cotton warp twine and yarn not included.

Friendly Tapestry Looms adjust from a low of 13½" to a maximum height of 64".

48" Loom

**Perfect for the Classroom —
fun, creative and quiet!**

Learn to weave a tapestry!

Cooperation, concentration, fine and gross motor control, self-esteem and a better understanding of spatial relationships are all encouraged through the weaving process.

You can weave on both sides and on individual projects!
