# Welcome to Skyrizi Complete.

Resources designed around you.

## You may have questions about SKYRIZI. That's why Skyrizi Complete is here to help you with:

- Making sense of your insurance coverage
- Identifying ways you may be able to save on SKYRIZI
- Providing support to help you prepare for your appointments
- Providing supplemental self-injection training, if needed

Your Skyrizi Complete Nurse Ambassador\* will be there to help you understand financial resources and provide information on SKYRIZI. They will be there for you every step of the way for as long as you need.

\*Ambassadors do not give medical advice and will direct you to your health care professional for any treatment-related questions, including further referrals.

For more information about AbbVie's privacy practices and your privacy choices, visit www.abbvie.com/privacy.html Please see Important Safety Information on page 2.

Please see accompanying full Prescribing Information or visit <a href="https://www.rxabbvie.com/pdf/skyrizi\_pi.pdf">https://www.rxabbvie.com/pdf/skyrizi\_pi.pdf</a>

### USE AND IMPORTANT SAFETY INFORMATION ABOUT SKYRIZI™ (risankizumab-rzaa)¹

#### SKYRIZI Use<sup>1</sup>

SKYRIZI<sup>TM</sup> (risankizumab-rzaa) is a prescription medicine used to treat adults with moderate to severe plaque psoriasis who may benefit from taking injections or pills (systemic therapy) or treatment using ultraviolet or UV light (phototherapy).

#### Important Safety Information<sup>1</sup>

#### What is the most important information I should know about SKYRIZI™ (risankizumab-rzaa)?

SKYRIZI may cause serious side effects, including infections. SKYRIZI is a prescription medicine that may lower the ability of your immune system to fight infections and may increase your risk of infections. Your healthcare provider should check you for infections and tuberculosis (TB) before starting treatment with SKYRIZI and may treat you for TB before you begin treatment with SKYRIZI if you have a history of TB or have active TB. Your healthcare provider should watch you closely for signs and symptoms of TB during and after treatment with SKYRIZI.

- Tell your healthcare provider right away if you have an infection or have symptoms of an infection, including:
- fever, sweats, or chills
- muscle aches
- weight loss
- cough
- warm, red, or painful skin or sores on your body different from your psoriasis
- diarrhea or stomach pain
- shortness of breath
- blood in your mucus (phlegm)
- burning when you urinate or urinating more often than normal

#### Before using SKYRIZI, tell your healthcare provider about all of your medical conditions, including if you:

- have any of the conditions or symptoms listed in the section "What is the most important information I should know about SKYRIZI?"
- have an infection that does not go away or that keeps coming back.
- have TB or have been in close contact with someone with TB.
- have recently received or are scheduled to receive an immunization (vaccine). You should avoid receiving live vaccines during treatment with SKYRIZI.
- are pregnant or plan to become pregnant. It is not known if SKYRIZI can harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if SKYRIZI passes into your breast milk.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

#### What are the possible side effects of SKYRIZI?

SKYRIZI may cause serious side effects. See "What is the most important information I should know about SKYRIZI?"

The most common side effects of SKYRIZI include upper respiratory infections, fungal skin infections, headache, feeling tired, and injection site reactions.

These are not all the possible side effects of SKYRIZI. Call your doctor for medical advice about side effects.

Use SKYRIZI exactly as your healthcare provider tells you to use it.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.

If you cannot afford your medication, visit www.pparx.org for assistance.

#### INDICATION AND IMPORTANT SAFETY INFORMATION<sup>1</sup>

#### SKYRIZI Indication<sup>1</sup>

SKYRIZI™ (risankizumab-rzaa) is indicated for the treatment of moderate to severe plaque psoriasis in adults who are candidates for systemic therapy or phototherapy.

# Important Safety Information<sup>1</sup> Infection

SKYRIZI<sup>TM</sup> (risankizumab-rzaa) may increase the risk of infection. Do not initiate treatment with SKYRIZI in patients with a clinically important active infection until it resolves or is adequately treated.

In patients with a chronic infection or a history of recurrent infection, consider the risks and benefits prior to prescribing SKYRIZI. Instruct patients to seek medical advice if signs or symptoms of clinically important infection occur. If a patient develops such an infection or is not responding to standard therapy, closely monitor and discontinue SKYRIZI until the infection resolves.

#### Pre-Treatment Evaluation for Tuberculosis (TB)

Prior to initiating treatment with SKYRIZI, evaluate for TB infection and consider treatment in patients with latent or active TB for whom an adequate course of treatment cannot be confirmed. Monitor patients for signs and symptoms of active TB during and after SKYRIZI treatment. Do not administer SKYRIZI to patients with active TB.

#### **Immunizations**

Prior to initiating SKYRIZI, consider completion of all age appropriate immunizations according to current immunization guidelines. Avoid use of live vaccines in patients treated with SKYRIZI.

#### **Adverse Reactions**

Most common (≥1%) adverse reactions associated with SKYRIZI include upper respiratory infections, headache, fatigue, injection site reactions, and tinea infections.

## SKYRIZI COMPLETE PRESCRIPTION TERMS & CONDITIONS

\*Program is not available to patients receiving prescription reimbursement under any federal, state, or government-funded insurance programs (for example, Medicare [including Part D], Medicare Advantage, Medigap, Medicaid, TRICARE, Department of Defense, or Veterans Affairs programs) or where prohibited by law or by the patient's health insurance provider. If at any time a patient begins receiving prescription drug coverage under any such federal, state, or government-funded healthcare program, patient will no longer be eligible to participate in program. Available to patients between the ages of 18-63 with commercial prescription insurance coverage who meet eligibility criteria. Eligibility: Patients must be diagnosed with moderate to severe plaque psoriasis, have a valid prescription for SKYRIZI and participate in a commercial insurance plan that has denied or not yet made a formulary decision for SKYRIZI. Once the patient's insurance plan has made a formulary decision and established a process for reviewing coverage requests for SKYRIZI, continued eligibility for the program requires the submission of a Prior Authorization prior to the next scheduled dose and appeal of the coverage denial within 180 days. Program provides SKYRIZI at no charge to patients for up to 2 years or until they receive insurance coverage approval, whichever occurs earlier. Offer subject to change or discontinuance without notice. This is not health insurance and program does not guarantee insurance coverage.
