# Your strategic source for access control solutions

Our Government Purchasing Programs make it simple for our federal and state government partners to acquire dormakaba products. We work to align our business with approved government procurement policies, so you can get the right solutions—from a single source—through compliance and the program you prefer.

- GSA contracts—dormakaba brands are available on multiple GSA Schedule 84 and Schedule 51V contracts.
- GSA Advantage on-line shopping portal
- Government contracted MROs
- FSSI Strategic Source BPA
- DLA Prime Vendors contractors
- SDVOB GSA contracts
- FedMall
- COCESS contractors
- BOSS contractors
- Small Business Partners
- Wholesalers
- Numerous State contracts and National Cooperative contracts

**NOTE:** Not all products are available through all programs.

## Sustainability

**Sustainability is the cornerstone of our corporate strategy.** Increasingly, responsible business practices and environmentally friendly products are required by the building industry, customers, partners, legislators, and end-users. To become an industry leader and create trust as a strategic source, we are committed to fostering sustainable development along our entire value chain in line with our economic, environmental, and social responsibilities toward current and future generations.

dormakaba has been awarded a Silver Medal for our sustainability management by the EcoVadis, placing our company in the top 30% of the over 50,000 companies assessed worldwide.

Full-height turnstiles for securing building perimeters

The **Kaba Mas DKX Series High-Security Pedestrian** door locks comply with Federal Specification FF-L-2890 Revision C. Changes to this federal specification added life-safety requirements to locking systems used to protect secure areas occupied by Government and Cleared Contractor personnel. Kaba Mas DKX Series Types II and IV are fully compliant with FF-L-2890C and are approved by the General Services Administration (GSA).

The DKX-10 type IV shown above includes integrated electrified trim that allows through-the-door wiring for electronic access control and also includes a request-to-exit switch. The DKX-10 includes CDX-10 and a DORMA F9300 Exit Device.

The **BEST Wi-Q Series PIV Credential Reader**

- Delivers intelligence at the door, allowing full functionality in the event of a power failure in the access control system.
- Provides efficient wireless access control.
- Is integrated with card readers, door position, request-to-exit, and door control switches that connect to a remote portal.
