| PAGE: 1 of 6                                 | APPROVED BY: Joseph Iannoni, CFO                           | REPLACES: Finance 1         | REPLACES:                   |

**I. Purpose.** The purpose of this Financial Assistance Policy (FAP) is to ensure that Care New England (hereafter identified as CNE) is in compliance with the standards set by the State of Rhode Island and Federal Agencies for the Provision of Charity Care and section §501(r) of the Internal Revenue Code. Financial assistance is intended to ensure all patients receive essential emergency and other medically necessary healthcare services provided by CNE regardless of their ability to pay. To that end, CNE will assist individuals who do not otherwise have the ability to pay charges as determined under CNE’s qualification criteria and takes into account each individual’s ability to contribute to the cost of his or her care. CNE financial assistance is not intended to serve as a substitute for employer-sponsored, privately purchased, third party liability, state or federally funded assistance or insurance programs.

**II. Scope.** This Policy applies to Care New England (CNE) and all Care New England hospitals, and the specified entities as defined below:

- Butler Hospital
- Kent Hospital
- Women & Infants Hospital
- Butler Hospital Allied Medical Services, LLC
- Kent Ancillary Services, LLC
- W&I Ancillary Services, LLC
- W&I Health Care Alliance, LLC
- Affinity Physicians, LLC

A listing of additional providers who elect to follow CNE’s Financial Assistance Plan as well as those providers who do not participate (Exhibit 1) is available on CNE’s website: [www.carenewengland.org](http://www.carenewengland.org).

**III. Policy.** All patients will be provided treatment for all emergent and medically necessary healthcare services regardless of their ability to pay as outlined in the CNE Emergency Medical Treatment and Active Labor Act (EMTALA) Policy. Copies of this policy may be obtained, free of charge, by calling CNE’s Compliance Department at (401) 277-3660.

- The decision to extend financial assistance will be based solely on the applicant’s financial status as indicated by pre-determined eligibility requirements and will be granted to all qualifying patients, regardless of race, color, religion, age, national origin,

marital status or legally protected status. This policy will be uniformly applied to any patients having no insurance or inadequate health insurance.

- Patients are eligible for financial assistance for emergent and all medically necessary healthcare services. Medically necessary healthcare services are defined as hospital services that are reasonably required to make a diagnosis, to correct, cure, alleviate, or prevent the worsening of conditions that endanger life or cause suffering or pain, or result in illness or infirmity, or threaten to cause or aggravate a handicap, or cause physical deformity or malfunction, and there is no other equally effective, more conservative, or substantially less costly course of treatment available or suitable for the person requesting the service.
- Patients who qualify for CNE Charity Care are eligible for discounted or free prescription coverage. The prescription must be pursuant and related to care provided by a CNE 340B Covered Entity (Acute Care Hospitals within the Care New England System). When the elements of the 340B patient definition (as set forth by HRSA) are met, a 340B medication may be utilized.

In cases where the patient/guarantor qualifies for Financial Assistance under the income criterion but does not meet the assets criterion, CNE will provide the highest discount offered under the sliding scale. The maximum liability to the patient/guarantor will be the actual assets less the applicable asset thresholds or the maximum cap. Limitations as defined by Rhode Island and Federal regulations, including IRS §501(r), whichever is less (please see item 6 below).
  4. Patients with gross income between 201% and 300% of the FPL and who do not exceed the assets protection threshold are also eligible for financial assistance for a portion of the medical bill, based upon a sliding scale (**Exhibit 3**). The patient's financial responsibility is subject to maximum cap limitations as defined by Rhode Island State and Federal Regulations including IRS §501(r) or as periodically set by CNE. The maximum liability charged to the patient/guarantor will not exceed the lesser of AGB, state law or whichever other criteria set by CNE. Information related to the limitations set by CNE as well as the sliding scale may be obtained free of charge by calling CNE Customer Service at (401) 921-7200.
  5. CNE will follow established collection procedures to obtain payment from individuals with a financial obligation after application of the sliding fee schedule as outlined in the CNE Billing and Collections Policy. Uninsured patients will be notified of Financial Assistance at discharge. All patients, insured and uninsured, will also be notified of the FAP through the patient billing statement process for 120 days after the first post-discharge billing statement for care ("Notification Period"). Additionally, individuals may request Financial Assistance documents by mail, by calling (401) 921-7200, or in-person at any of the CNE Hospital locations (see item 2).
  6. To be eligible for 100% financial assistance or partial financial assistance, the maximum liquid assets (excluding a primary residence and personal automobile) shall not exceed the thresholds as indicated on the Sliding Scale for individuals and family units and increased annually in accordance with the most current Consumer Price Index. In the event that these thresholds prevent an individual's ability to qualify for Rhode Island's Medical Assistance program(s) CNE will replace those thresholds with those utilized by Rhode Island's Medical Assistance program(s). Rhode Island Medical Assistance thresholds can be found on line at:

  12. They must be approved by the Director and made available to all persons on request. CNE will make every effort to ensure that policies are clearly communicated to patients whose primary languages are languages other than those already provided. Translation services may be provided upon request.
