|----------------|------------|
| Revision date: | 2018-06-26 |
| Version: | 3.0 |

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

| Product name: | Conductor |
|---------------|--|
| Synonyms: | Conductive Ink, Conductive Paste, Silver Ink, Silver Conductor, Silver Paste |
| Supplier: | Voltera Inc. |
| | 100-113 Breithaupt St. |
| | Kitchener, ON, N2H5G9, Canada |
| | support@voltera.io |
| Emergency: | CANUTEC 1+ 613-996-6666 |
| Intended use: | Circuit board prototyping |

SECTION 2: HAZARDS IDENTIFICATION

Classification of the substance or mixture

Reproductive Category 1B toxicity

Label Elements: GHS label elements

Signal word: Danger

| Hazard statements | |
|----------------------|---|
| H360 | May damage fertility or the unborn child. |
| Precautionary stater | nents |
| Prevention: | |
| P201 | Obtain special instructions before use |
| P202 | Do not handle until all safety precautions have been read and understood. |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection |
| Response: | |
| P308+P313 | IF Exposed or concerned: Get medical advice / attention. |
| Storage: | |
| P405 | Store locked up. |
| Disposal: | |
| P501 | Dispose of contents/container in accordance with ocal/regional/national/international |
| | regulations |

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Mixture Chemical Nature: inorganic

Hazardous Components:

CAS-No.

Chemical Name

Concentration (% w/w)

CONDUCTOR

| First issue: | 2015-09-24 |
|----------------|------------|
| Revision date: | 2018-06-26 |
| Version: | 3.0 |

| 7440-22-4 | Silver | $\geq 70 - < 90$ |
|-----------|------------------------|------------------|
| 872-50-4 | 1-methyl-2-pyrrolidone | $\geq 0.1 - < 1$ |
| 108-95-2 | Phenol | $\geq 0.1 - < 1$ |

SECTION 4: FIRST AID MEASURES

General Advice: First aiders need to protect themselves. Move out of dangerous area. Show this SDS to the doctor in attendance.

VOLTERA

If inhaled: Move to fresh air. Get medical attention.

In case of skin contact: Take off all contaminated clothing immediately. Wash off with Polyethylene glycol 400. Get medical attention immediately.

In case of eye contact: In case of eye contact, remove contact lens and rinse immediately with plenty of warer, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Protect unharmed eye. Call physician immediately.

If swallowed: Immediately give large quantities of water to drink. DO NOT induce vomiting. Get medical attention immediately.

Most important symptoms and effects, both acute and delayed: May damage fertility or the unborn child.

Notes to physician: Treat symptomatically

SECTION 5: FIRE-FIGHTING MEASURES

Suitable extinguishing media:

Use extinguishing measures which are appropriate to the local circumstances and surrounding environment.

Specific hazards during fire-fighting:

Exposure to decomposition products may be a hazard to health.

Hazardous combustion products:

Silver compounds

Carbon oxide.

Nitrogen oxides (NOx)

Further Information:

Use a water spray to cool fully closed containers.

Prevent fire extinguishing water from contaminating surface water or the ground water system.

Special protective equipment for firefighters:

In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures:

Follow safe handling advice and personal protective equipment recommendations. Ensure adequate ventilation. Evacuate personnel to safe areas.

CONDUCTOR

| First issue: | 2015-09-24 |
|----------------|------------|
| Revision date: | 2018-06-26 |
| Version: | 3.0 |

Refer to protective measures listed in sections 7 and 8.

Environmental Precautions:

Do not allow contact with soil, surface or ground water.

Do not let product enter drains.

If the product contaminates rivers and lakes or drains inform respective authorities.

Methods and materials for containment and cleaning up:

Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).

Sweep up or vacuum spillage and collect in suitable container for disposal.

SECTION 7: HANDLING AND STORAGE

Advice on safe handling:

Provide sufficient air exchange and/or exhaust in work rooms. Wear personal protective equipment. Avoid inhalation, ingestion and contact with skin and eyes. Smoking, eating, and drinking should be prohibited in the application area.

Conditions for safe storage:

Keep tightly closed in a dry, cool, and well-ventilated place.

Keep locked up or in an area accessible only to qualified or authorized persons.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters:

| COMPONENTS | CAS-No. | Value type (Form of exposure) | Control parameters / Permissible concentration | Basis |
|----------------------------|-----------|-------------------------------------|---|-----------|
| Silver | 7440-22-4 | TWA | 0.1 mg/m3 | CA AB OEL |
| | | TWAEV | 0.1 mg/m3 | CA QC OEL |
| | | TWA | 0.01 mg/m3 (Silver) | CA BC OEL |
| | | STEL | 0.03 mg/m3 (Silver) | CA BC OEL |
| | | TWA (Dust and fume) | 0.1 mg/m3 | ACGIH |
| 1-methyl-2- pyrrolidone | 872-50-4 | TWA | 400 mg/m3 | CA ON OEL |
| Phenol | 108-95-2 | TWA | 5 ppm 19 mg/m3 | CA AB OEL |
| | | TWA | 5 ppm | CA BC OEL |
| | | TWAEV | 5 ppm 19 mg/m3 | CA QC OEL |
| | | TWA | 5 ppm | ACGIH |

Biological occupation exposure limits

| COMPONENTS | CAS-No. | Control parameters | Biological specimen | Sampling time | Permissible concentration | Basis |
|------------|---------|-----------------------|---------------------|------------------|---------------------------|-------|
| | | | | | | |

CONDUCTOR

| First issue: | 2015-09-24 |
|----------------|------------|

| Version: | 3.0 |

| N-Methyl-2- pyrrolidone | 872-50-4 | 5-Hydroxy-N- methyl-2- pyrrolidone | Urine | End of shift (as soon as possible after exposure ceases) | 100 mg/l | ACGIH BEI |
|----------------------------|----------|--|-------|---|------------------------|--------------|
| Phenol | 108-95-2 | Phenol | Urine | End of shift (as soon as possible after exposure ceases) | 250 mg/g Creatinine | ACGIH BEI |

Engineering Measures: Provide sufficient air exchange and/or exhaust in work rooms.

Personal Protective Equipment:

Respiratory protection: Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines.

Filter type: Recommended Filter type: ABEK-P

Hand protection: Before removing gloves, clean them with soap and water. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take intoconsideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. As the product is a mixture of several substances, the durability of the glove materials cannot be calculated in advance and has to be tested before use.

Eye protection: Safety glasses with side-shields

Skin and body protection: Choose body protection according to the amount and concentration of the dangerous substance at the work place.

Hygiene measures: Keep away from food and drink. Wash hands before breaks and at the end of the workday. Keep working clothes separately. Remove and wash contaminated clothing and gloves, including the inside, before re-use.
