GETTING TO KNOW YOUR PHONE

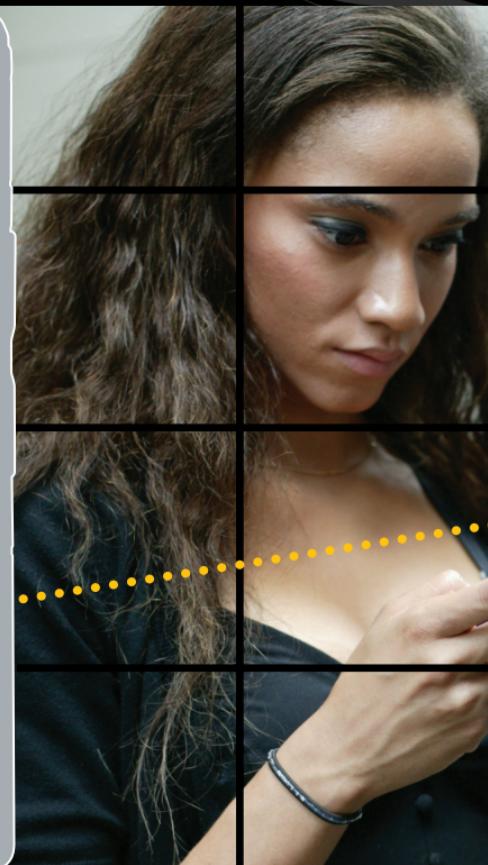

USING THE DOCUMENT VIEWER

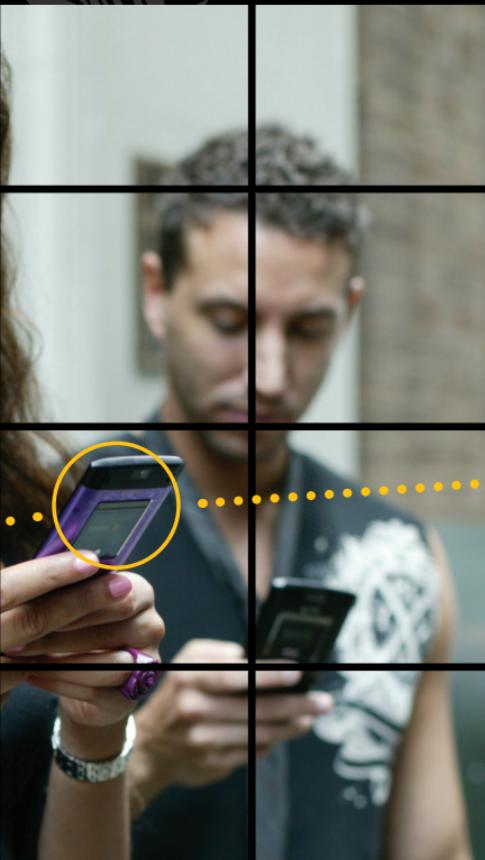

Lotus features great tools to make your life easier. From the Document Viewer to accessibility enhancements, Lotus has everything you want and more.

1. The Document Viewer allows you to view Microsoft® Word, Excel®, and PowerPoint® files (versions 97/2000/2002/2003) and Adobe® Acrobat® files. With one of these files stored on your microSD card, insert the card into the microSD port on Lotus.
2. From standby mode, press **MENU OK** to enter the main menu, and then select **Tools**.
3. Select **Document Viewer (9)**.
4. Highlight the document you wish to view and press **MENU OK**.
5. Press the **Left Soft Key** to zoom in, move around the page using the **Navigation Key**, or access additional options by pressing the **Right Soft Key**.

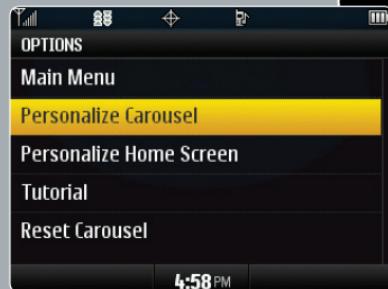

Note: To activate the Voice Guide Reader from standby mode, press and hold **TALK**, then select **Voice Guide (5)**. Set **Reader** to **On**, and then press the **Left Soft Key** for **Save**.

USING SPRINT® ONE CLICK

The customizable carousel provides access to important features and menus. You can also add bubbles to your home screen to keep track of stocks, weather, and other information in real time.

1. From standby mode and with the **Home Tile** highlighted, press the **Left Soft Key** for **Options** and choose **Personalize Carousel**.
2. Press the **Left Soft Key** for **Add Tile**, and then select a tile from one of the categories.
3. Scroll **left** or **right** with the **Navigation Key** to select a position for the new tile, and then press the **Left Soft Key** to place it on the carousel.

Note: Add up to eight bubbles of dynamic information on Lotus' home screen. From standby mode, press the **Left Soft Key** for **Options**, and then select **Personalize Home Screen**. Choose from bubbles such as finance, news, and weather.

USING THE DEDICATED TEXT KEY

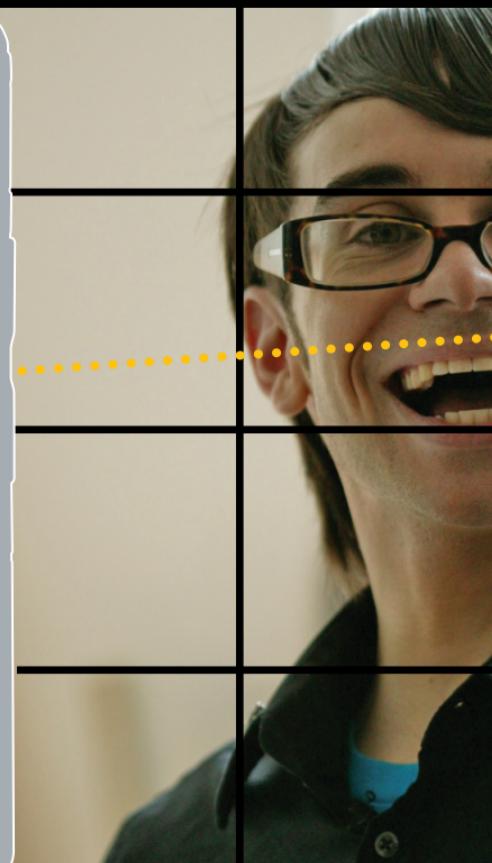

Thanks to the QWERTY keyboard and dedicated Text Key, messaging is at your fingertips with Lotus.

Sending a Text Message:

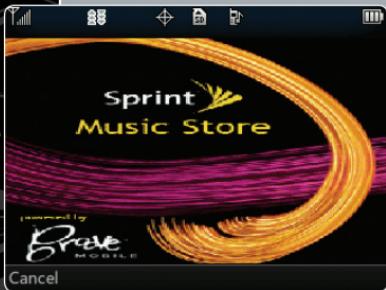

1. From standby mode, press **TEXT**.
2. Select **Go to Contacts** and choose a recipient. You can also select recently used contacts from this screen (when available).
3. Use the **QWERTY keyboard** to enter your message. You can access preset messages by pressing the **Right Soft Key** for **Options**.
4. When you are finished, press the **Left Soft Key** for **Send**.

Sending an Email:

1. From standby mode, scroll with the **Navigation Key** to highlight the **Messaging** tile.
2. Select **Email**.
3. Follow the steps in the instructional wizard to set up email on your Lotus. You'll then be able to send and receive email just as you would on your computer!

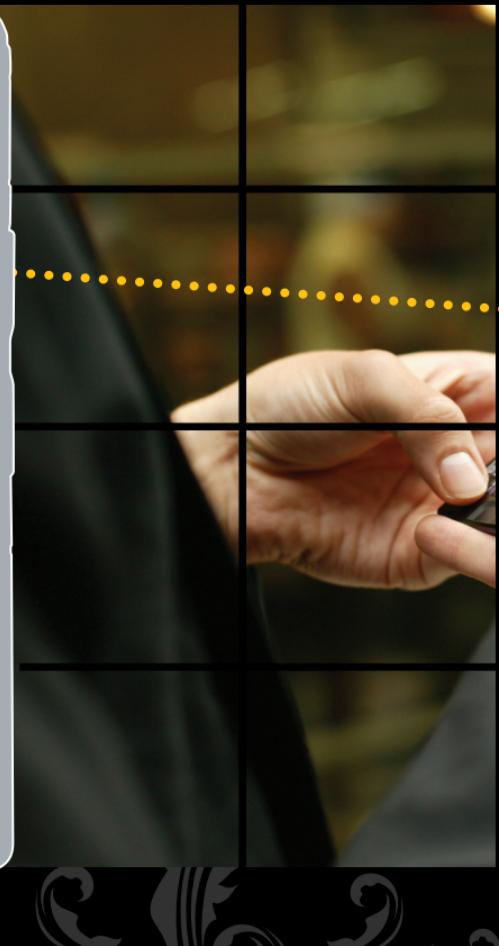

GETTING MUSIC

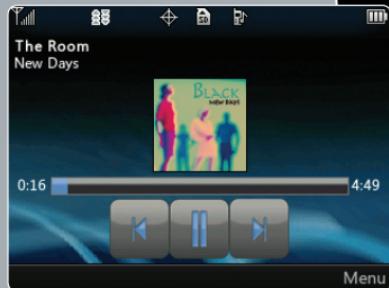

Access Sprint Music Store for the hottest new songs. With Lotus' included 512 MB microSD card, you'll have plenty of room for your favorite tunes!

1. From standby mode and with a microSD card already inserted in the phone, press **MENU OK** to enter the main menu, and then select **Entertainment**.
2. Select **Music (1)**, and then scroll with the **Navigation Key** to the **Store** tab.
3. Once logged in to Sprint Music Store, you can search the catalog, check out featured music, and buy songs.

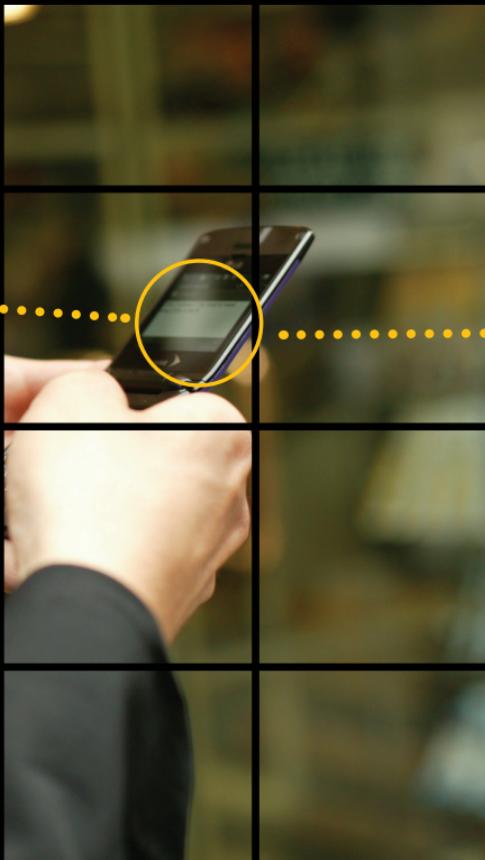

PLAYING MUSIC

Listen to music 24/7 with Lotus. The built-in music player even allows you to play music in the background while running other applications on the phone!

1. With the flip open and having a microSD card containing music already inserted in the phone, press and *hold* the side **MUSIC Key**.
2. Lotus will begin playing your music. To begin multitasking, press **MUSIC**.
3. Your music will continue to play as you compose messages, take pictures, and perform other tasks. To return to the music player, press **MUSIC**.

Note: You can also listen to music with the flip closed. To do this, press and *hold* the side **Key** to unlock the keyguard, and then press and *hold* **MUSIC**.

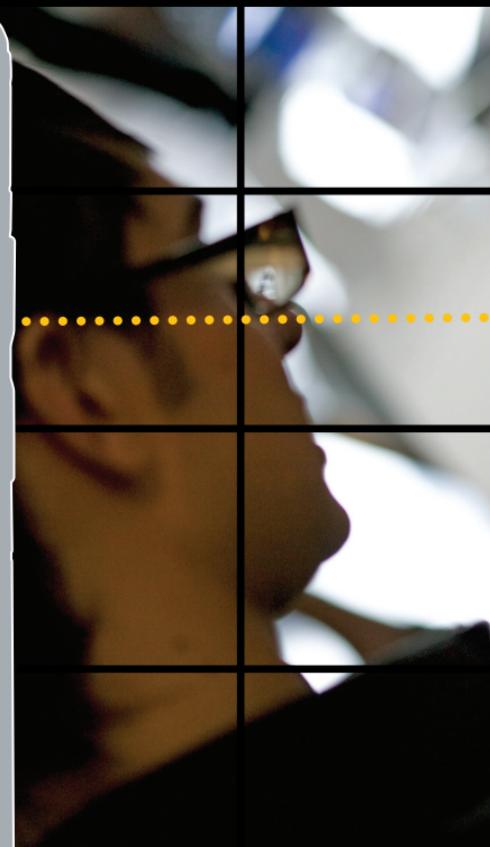

BLUETOOTH PAIRING

Don't get tangled in cables and cords. Connect wirelessly to headsets, speakers, and more while enjoying stereo sound with Lotus.

1. Set your Bluetooth accessory into pairing mode.*
2. From standby mode, press **MENU OK** to enter the main menu and then select **Tools**.
3. Select **Bluetooth (3)**, and then **Pair with Hands Free (1)**. If Bluetooth is turned off, you'll be prompted to turn it on.
4. Lotus will search for visible Bluetooth-enabled devices. With your device highlighted, press **MENU OK**.
5. Enter the PIN code* (typically "0 0 0 0" - 4 zeroes), and then press **MENU OK**.
6. Press **MENU OK** to continue.
7. To connect to the device, press the **Left Soft Key** for **Yes**.

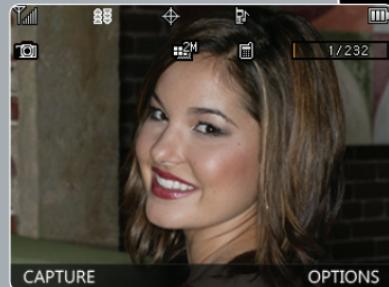

*Refer to your Bluetooth accessory's user manual for information about initiating pairing mode and the PIN code.

TAKING PICTURES/RECORDING VIDEOS

Don't miss a moment with Lotus' 2 megapixel camera. Take photos and record videos in seconds with this stylish phone.

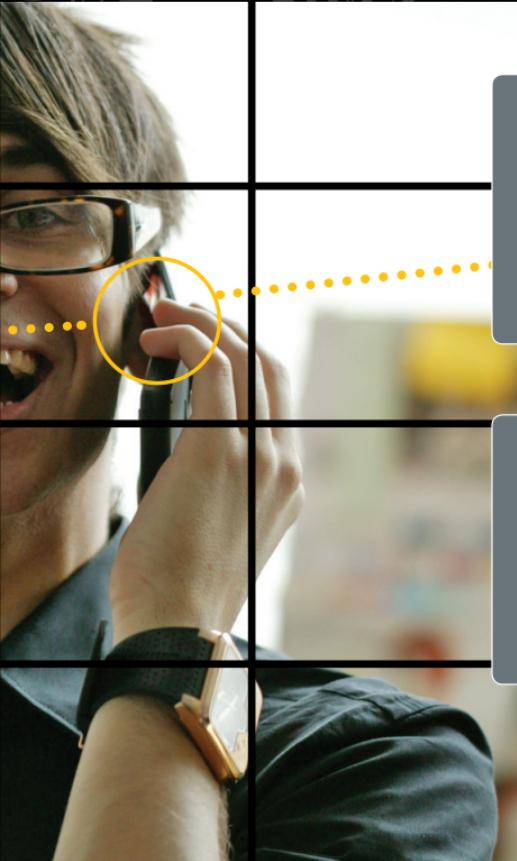

Flip Open:

1. To take a picture, press and **hold** the side **Key**. To record a video, quickly press and select **Camcorder (2)**. Choose **Video Mail (1)** or **Long Video (2)**.
2. Press **left** or **right** on the **Navigation Key** to adjust the brightness and **up** or **down** to adjust the zoom.* Press the **Right Soft Key** for more camera/camcorder options.
3. Press to take the picture or start/stop recording.
4. Press the **Left Soft Key** to send your picture/video.

Flip Closed:

1. Press and **hold** to unlock the keyguard.
2. Press and **hold** to activate the camera viewfinder.
3. Press to take the picture.

*Default camera setting of 1600x1200 pixels does not support zoom function.
