Double DIN Installation requires FD1437B Kit

Factory AUX-in is 3.5mm / USB w/Sync (Console is location)

FD23RB Factory Radio Wiring Harness (Reverse) is recommended

Installation Kits:

Locate your vehicle in the application guide. Cross reference your particular vehicle to the car stereo you have purchased. You will find the model number of an installation kit for each style of stereo mount.

Speakers

Locate your vehicle in the application guide pages and cross reference the front and rear speaker columns. You will find the factory equipped speaker size for each location at the top of the page.

This will help you choose the CORRECT SIZE and LOCATION for installing or replacing the speakers in your vehicle. Some vehicles have suitable speaker mounting locations where there are no factory equipped speakers. This listings will be noted with the word "MOD, (Modify)". These speaker installations require cutting and adding wire to install them in the vehicle

Types of Stereos

DIN (Front-Load) Stereo:

(This is the most common type of mount)
DIN (Front-Load) stereos mount from the front through a single rectangular hole in the dash or installation kit, using a metal mounting sleeve supplied with the stereo

DIN Stereo

DOUBLE DIN Stereo:

Double-DIN stereos attach to the factory stereo's side mounting brackets, and are rear loaded into the dash or installation kit.

DOUBLE DIN Stereo

ISO DIN (Side-Mount) Stereo:

ISO-DIN Side-Mount stereos attach to the factory stereo's side mounting brackets, and are rear loaded into the dash or installation kit.

ISO DIN Stereo
