Did you know that only ASUS offers a 2-year Global Warranty that is absolutely FREE? Some vendors claim to give a 3-year warranty, but it is actually only 1 year warranty plus 2 years free of service charge. You still have to pay for the cost of replacing spare parts. Under them, this means if the 1 year warranty has expired, you still have to pay the cost of spare parts for repairs.

So much power. So many possibilities.

ASUS VivoBook Gaming X571 ▶▶▶

Lightning fast data performance

ASUS VivoBook Gaming X571 features a 512GB PCIe SSD with optional Intel Optane™ memory for 35% faster data access speeds. Alternatively, a dual-storage option provides the best of both worlds – the blistering data speeds of a 512GB SSD. Install apps on the SSD for superfast response times, and use the HDD to house large files such as movies, music libraries, and photo albums.

Less heat, more power

Heat is the enemy of performance. ASUS VivoBook Gaming X571 stays cool at all times with its highly efficient dual-fan cooling system that incorporates two heat pipes. Even though ASUS VivoBook Gaming X571 is more powerful than ever, this advanced cooling design ensures that it stays cool for maximum performance, anytime and anywhere.

Extreme immersion on an ultrafast display

The new NanoEdge design has an even thinner 7.4mm side bezel for extreme immersion in a much more compact package. A 100% sRGB color gamut and wide-view angles ensure vivid and consistent colors, even when you're viewing it from extreme positions.

Immersive Harman Kardon audio

To create the next generation of ASUS SonicMaster audio technology, the ASUS Golden Ear team worked with renowned home and automotive audio experts Harman Kardon. The results are astonishing. A tailored mix of superior hardware – including smart amplifier technology that delivers louder sound with no distortion – and cleverly designed software ensure that ASUS VivoBook Gaming X571 gives you the ultimate audio experience.
