What's in the box

- Olivia WiFi Camera
- USB Cable
- Wall Mounting Kit

- Power Adapter
- Start Up Guide
- Reset Pin

Be ready

You will need your WiFi router password. Write it down below so its handy when you need it!

Get Started

Connect Olivia to the mains using the power adapter and USB cable provided.

The red LED will come on once plugged in and Olivia will chime twice before she is ready to connect.

To record you will need to add a micro SD card. The camera accepts cards up to 128GB.

What do the flashing lights mean?

Solid Red
Starting up

Flashing Red
Ready to connect

Solid Blue
Connected

Step 1

Select the camera

Click the Settings icon on the top right corner of the screen

Step 2

Select the Basic Feature Settings

Step 3

Click Audio Mode

Step 4

Select Two-Way Audio this will change the camera settings

Reset

If you are having trouble connecting to Olivia you may need to do a reset.

How to reset Olivia

Gently rotate the lens upwards to locate the reset button.

Use the reset pin provided to hold down the button on the front of the camera for up to 10 seconds until the camera chimes twice and the LED is flashing red.

Installation

Easy Mounting

Use the provided mounting bracket to mount the camera onto a surface, simply attach the bracket, ensuring it fits snugly on to the bottom of the camera.

Then twist to the left. This locks the bracket into the camera.

FAQ's

Q. Camera is not powering on, there is no red light at the front?

A. Ensure the Micro USB cable has been fully inserted into Sophia. The red light will come on once the Micro USB cable is fully inserted.

Q. I have not received my verification code?

A. You will have to check whether the mobile phone or email address you have used has been entered correctly.

Q. Olivia is not scanning the QR code?

A. There is a plastic film on the lens that needs to be removed. Simply remove this and then Olivia will be able to scan the code.

Q. Olivia is not connecting to WiFi?

A. There could be a number of reasons why Olivia is not connecting. First ensure the correct WiFi network has been selected and ensure the WiFi password has been entered.

Olivia can only operate under the 2.4 GHZ wireless frequency. You may have to change your router settings to allow Olivia to connect wirelessly. If you are unaware how to change simply get in contact with your broadband provider.

Q. The two way audio is not working?

A. Please ensure the app permissions have been turned on in the mobile phone settings. You will also have to turn this feature on in the basic settings for the camera.
