**6 FAQ**

1. The earbuds do not turn on: Please confirm the earbuds have power left. If not charged please charge up and then power on.
2. Unsuccessful Bluetooth Pairing: Make sure that the earbuds are turned on when pairing with the pairing device is kept within 10m.
3. Some Bluetooth devices require a pairing password: Please enter "0000".
4. Automatically Reconnection: When Power on, it will automatically re-connect to the last connected device. How long will it turn off automatically when it doesn't connect? The earbuds will automatically turn off after 10 mins if it doesn't connect with Bluetooth devices.
5. If the left and right earbud don't sync or connect the phone because the headset is in a connection mode or other mode, or if you can't find your preferred Bluetooth device, you can perform a factory reset. Long press the resetting button for 10 seconds (charging indicator will flash for 5 times).

The product name, trademark, model, MIC ID and LOGO can be found in the instruction manual and the packaging.

**Warning**

1. Do not remove or modify the earbuds for any reason, otherwise the earbuds may malfunction or burn, absorb heat, or even completely damage the product.
  2. This product has lithium-ion battery. It is forbidden to disassemble, insert, squeeze or put into fire. If there is serious swelling, please do not continue to use it.
  3. Do not place the device in an environment where the temperature is too low or too high (below 0 °C or 40 °C or above).
  4. Do not use the device during thunderstorms. Thunder storms can cause the device to malfunction and increase the risk of electric shock.
- NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
