VM350 VM350-2

Full Color Video Monitor

CONGRATULATIONS

on purchasing your new VTech product. Before using this product, please read Important safety

This manual has all the feature operations and troubleshooting necessary to install and operate your new VTech product. Please review this manual thoroughly to ensure proper installation and operation of this innovative and feature-rich VTech product.

For support, shopping, and everything new at VTech, visit our website at www.vtechphones.com.

2 sets for VM350-2

CONNECT AND CHARGE THE BATTERY

Install the parent unit battery

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, keep the parent unit connected to AC power. With the battery alone, the parent unit can cordlessly run for a short time only.

NOTES

Use only the battery supplied with this product.

If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage

Press down on the battery compartmen cover to pull

To replace the battery, press down on the battery compartment cover and pull it out, then follow the steps above to install the battery.

Connect the baby monitor

Replace the battery

■ NOTES

- Use only the power adapters supplied with this product. Make sure the baby monitor is not connected to a switch-controlled electric outlet.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table,
- Make sure the parent unit, the baby units and the power adapter cords are out of reach of children.

or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.

Charge the parent unit battery

When you have connected the parent unit and installed its battery for the first time or after power outage, the parent unit powers on automatically. The battery icon indicates the battery status (see the following Table)

- The parent unit battery is fully charged after 3 hours of continuous charging. It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time
- turn the parent unit off while charging. The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery.

BATTERY INDICATORS	DATTERY STATUS	ACTION
The battery icon is off and displays 🐞.	No battery is installed but operates using AC power, or the battery has been installed incorrectly.	Install the parent unit battery. Charge without interruption (at least 30 minutes).
The screen displays 🖾 Battery low at Parent Unit and 🗀. The I light flashes.	The battery has very little charge and may be used for only a short time.	Charge without interruption (about 30 minutes).
The battery icon becomes solid .	The battery is fully charged.	To keep the battery charged, connect it to AC power when not in use.

BEFORE USE

This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

Test your baby monitor

You may test the baby monitor before initial use, and at regular times thereafter.

(1) CAUTION

- For hearing protection, make sure the parent unit is more than 3 feet (1 meter) away from both baby units. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press • VOL on the
- parent unit to reduce or mute the noise
- . Make sure your baby units and parent unit are on.
- 2. The parent unit displays images from the baby unit. Speak towards the microphone of the baby unit. You will hear the sound at the parent unit.
- B. Press **VIEW** on your parent unit. The screen switches to the other baby unit. Then, repeat

■ Note

When the parent unit displays and then No Link to CAM # (# represents the baby unit number), and the LINK LED light flashes, move the parent unit closer to the baby units (observe the minimum distance of 3 feet / 1 meter).

Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the

Positioning the baby monitor

① CAUTION

Keep the baby units out of the reach of your baby. Never place or mount the baby units inside the baby's crib or playpen.

■ Note

To avoid interference from other electronic devices, place your baby monitor at least 3 feet (1 meter) away from devices such as wireless routers, microwaves, cell phones and computers.

2. Adjust the angle of the baby units camera to aim at your baby.

3. Place the parent unit more than 3 feet (1 meter) away from the baby units to avoid screeching noise.

8

- The default volume of your parent unit is level 4, and the maximum volume is level 7. If you experience high-pitched screeching noise from your baby monitor while positioning:
- Make sure your baby units and parent unit are more than 3 feet (1 meter) apart, OR
- Lower the volume of your parent unit.

Operating range

The operating range of the baby monitor is up to 1000 feet (300 meters) outdoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

USING THE BABY MONITOR

Power on or off the baby unit

- Slide the ON/OFF switch to ON to turn on the baby unit. The POWER LED light turns on.
- Slide the **ON/OFF** switch to **OFF** to turn off the baby unit. The **POWER** LED light turns off.

Power on or off the parent unit

- Press and hold POWER to turn on the parent unit. The screen turns on.
- Press and hold POWER again to turn off the parent unit. The screen turns off.

Turn on or off the parent unit screen

You can turn on or off the parent unit screen without powering off the parent unit. You can still hear sound from the baby units.

- <u>Press and hold</u> **LCD ON/OFF** on the parent unit to turn off the screen.
- Press any keys on the parent unit to turn on the screen again.

Adjust speaker volume

For parent unit:

Press VOL \oplus or \bigoplus VOL on the parent unit at any time when viewing images.

■ Note When the parent unit speaker volume is set to zero, $\textcircled{\scriptsize{1}}$ appears on the screen and the $\ensuremath{\,^{\bowtie}}$ light turns on.

The baby unit speaker volume determines the lullaby volume and talkback volume transmitted from parent unit. It can be adjusted in the parent unit.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Volume on CAM**, then press **SELECT**.
- 3. Press ♥ or ▲ to choose the desired volume level, Level 1 is the softest while Level 5 is the loudest. Then, press **SELECT** to confirm your selection.

■ Note

Volume adjustment with the parent unit menu is available in Single CAM and Patrol mode only.

Lullaby

You can play lullabies or soothing sounds on the baby unit by controlling remotely with the

To play lullabies:

- 3. Press **∨** or **∧** to choose **Play Melodies**, then press **SELECT**.
- them are played.
- 5. When the desired lullaby is selected, press **∨** or **∧** to choose **Play**, then press **SELECT**.

To play soothing sounds:

- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 3. Press **v** or **∧** to choose **Play Soothing Sounds**, then press **SELECT**.
- 4. Press **∨** or **∧** to choose a soothing sound, then press **SELECT**.

- Lullaby playback control is available in **Single CAM** and **Patrol** mode only.
- The lullaby playback on the baby unit will be paused when receiving talkback from the parent unit.

To stop lullabies or soothing sounds:

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.

To set auto timer for lullabies:

While the baby unit is playing a lullaby or soothing sound, the auto timer feature automatically stops the lullaby or soothing sound after playing for 15/30/45/60 minutes. You can set auto

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 3. Press **∨** or **∧** to choose **Auto Timer**, then press **SELECT**.
- 4. Press **y** or **A** to choose the desired lullables duration, then press **SELECT** to confirm your selection.

Set the language

You can select a language (English, French or Spanish) to be used in all screen displays.

- 1. Press **MENU** when the parent unit is idle.
- 3. Press **y** or **∧** to choose **English**, **Français** or **Español**, then press **SELECT** to confirm your selection.

USING THE BABY MONITOR (CON'T)

Adjust LCD brightness

You can change the brightness of the parent unit screen from Level 1 to Level 5. The LCD

brightness is preset to **Level 3**. 1. Press MENU when the parent unit is idle.

Press SELECT again to choose Brightness.

2. Press v or A to choose LCD, then press SELECT.

4. Press ✓ or to choose the desired level of brightness, then press **SELECT** to confirm your selection. Turn on and off the dim mode

The dim mode is preset to on to help you save the parent unit power. Your parent unit

- display will dim automatically after 10 minutes of inactivity, in which there is neither key pressed nor alert received from the baby units.
- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **LCD**, then press **SELECT**.
- 3. Press **∨** or **∧** to choose **Dim Mode**, then press **SELECT**. 4. Press **∨** or **∧** to choose **On** or **Off**, then press **SELECT** to confirm your selection.
- While the screen is dimmed, any keypress or alert message will trigger the screen to return to the preset brightness level. After 10 minutes of inactivity, it will dim again.

Monitoring mode * for VM350-2 only

Every time the parent unit is turned on, it displays a baby unit in Single CAM mode. You can also monitor your baby in Patrol or Split mode.

Single CAM The screen displays image of a single baby unit in full screen. **Patrol** A single cam view that transitions to a different baby unit every 10 seconds. The screen displays both baby units.

- You can choose the desired monitoring mode. 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Monitoring Mode**, then press **SELECT**.

3. Press **∨** or **∧** to choose **Single CAM**, **Patrol** or **Split**, then press **SELECT**.

- In Single CAM or Patrol mode: Press VIEW to view the next baby unit.
- In Split mode:
- Press
 or
 to select a baby unit.

■ Note

- Press **Q** or **VIEW** to view the selected baby unit temporarily in **Single CAM** mode. It returns to **Split** mode after 10 seconds.
- The parent unit is muted while in Split mode.

Adjust the sound sensitivity of the baby unit

You can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The VOX sensitivity level is preset to Highest.

VOX SENSITIVITY LEVEL	Highest	High	Medium	Low	Lowest

- 1. Press **MENU** when the parent unit is idle.
- Press ✓ or ▲ to choose VOX Sensitivity, then press SELECT.
- 3. Press **∨** or **∧** to choose **ALL CAM** or **CAM** #, then press **SELECT**.
- 4. Press **∨** or **∧** to choose the desired sensitivity level, then press **SELECT** to confirm your selection. As long as the Sound-activated Screen setting is On, the screen will turn on automatically when VOX

sensitivity is triggered, despite it was off earlier. 兴 TIPS

- You can adjust the baby unit placement to improve the sound detection.
- · If you want to use a sound machine or white noise machine for natural white noise while using this baby monitor to check on your baby, you can: - Lower the volume of your sound machine or white noise machine; or - Lower the sensitivity level of your baby monitor to Medium or below. Default level is the highest level.

When sound activation is on, as long as no sound is detected within 50 seconds, the parent unit screen will turn off automatically to save power When your baby unit detects a sound, which exceeds the selected sensitivity level, the sound activation triggers the parent unit screen to turn on automatically. When no sound is

1. Press **MENU** when the parent unit is idle. 2. Press **∨** or **∧** to choose **Sound-activated Screen**, then press **SELECT**.

detected within 50 seconds, the screen will be off again.

Sound activation is available in Single CAM and Patrol mode only.

Turn on or off the sound activation

returns to main menu. Notes

3. Press **y** or **∧** to choose **On** or **Off**, then press **SELECT** to confirm your selection. The screen

• If the sound sensitivity is set to **Highest**, the parent unit screen may remain on continuously even though sound activation is on. This depends on whether the baby unit detects any sounds.

You can zoom in while viewing images from the baby unit in Single CAM and Patrol mode.

- Press
 ⊕ to zoom in.
- Press

 ✓ or

 ✓ to move the zoomed image downward or upward.

You can use the TALK function of the parent unit to comfort your baby in Single CAM and

1. Press and hold TALK on the parent unit. The TALK light turns on. 2. Speak towards the microphone on the parent unit. Your voice is broadcast to the baby unit.

3. Release the **TALK** key to stop the broadcast.

Press
 again to zoom out.

- The parent unit speaker is muted during voice broadcast. Sound transmission from the baby unit
- resumes after TALK is released. • After around 20 seconds of sound re-transmission, the speaker returns to mute if you had set it to mute before pressing TALK.
- The baby unit's talkback volume can be adjusted via the parent unit menu.

Set alert tone

Low battery tone

You can set the parent unit to beep when the parent unit operates in low battery condition. 1. Press **MENU** when the parent unit is idle.

3. Press SELECT again to choose Low Battery Tone. 4. Press **∨** or **∧** to choose **On** or **Off**, then press **SELECT** to confirm your selection.

You can set the parent unit to beep when the link between the parent unit and the baby unit is lost.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Alert Tone**, then press **SELECT**. 3. Press ✓ or ▲ to choose No Link Alert, then press SELECT.

2. Press **∨** or **∧** to choose **Alert Tone**, then press **SELECT**.

4. Press **∨** or **∧** to choose **On** or **Off**, then press **SELECT** to confirm your selection. Sound alert in split-view

and displays **Sound detected at CAM** # whenever the baby unit detects sounds.

You can turn on the sound alert feature so that, while in **Split** mode, the parent unit beeps

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Alert Tone**, then press **SELECT**.
- 3. Press **∨** or **∧** to choose **Sound Alert in Split-view**, then press **SELECT**.
- 4. Press **v** or **∧** to choose **On** or **Off**, then press **SELECT** to confirm your selection.

The baby monitor has five Iuliabies and four soothing sounds for you to comfort your baby.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press **∨** or **∧** to choose **Lullaby on CAM**, then press **SELECT**.
- 4. Press **∨** or **∧** to choose a lullaby, or choose **Play All**, then press **SELECT**.
- If Play All is selected, the five Iullabies will be played one after the other, until all of

When the infrared LEDs are on, the images are in black and white. This is normal

Depending on the surroundings and other interfering factors, like lightings, objects, colors and backgrounds, the video quality may vary. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display.

Your baby monitor comes ready for tabletop use. You can also choose to mount your baby monitor on the wall. See Mount the baby unit on dry wall (optional) in the Quick Start Guide for the wall mounting instructions.

To keep this product working well and looking good, follow these guidelines:

· Avoid putting it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).

DO NOT expose it to direct sunlight or moisture.

Clean with a soft cloth

DO NOT immerse the parent unit and the baby unit in water and do not clean them under the tap.

• Make sure the baby unit and parent unit are dry before you connect them to the mains again.

What will VTech do if the Product is not free from defects in materials and workmanship during the limited warranty period ("Materially Defective Product")? During the limited warranty period, VTech's authorized service representative will repair or replace at VTech's option, without charge, a Materially Defective Product. If we repair the Product, we may use new or refurbished replacement parts. If we choose to replace the Product, we may replace it with a new or refurbished Product of the same or similar design. We will retain defective parts, modules, or equipment. Repair or replacement of the Product, at VTech's option, is your exclusive

ment to take approximately 30 days

remedy. VTech will return the repaired or replacement Products to you in working condition. You should expect the repair o

What is not covered by this limited warranty? This limited warranty does not cover:

2. Product that has been damaged due to repair, alteration or modification by anyone other than an authorized service representative of VTech; or 3. Product to the extent that the problem experienced is caused by signal conditions, network reliability, or cable or antenna

altered or rendered illegible; or 6. Product purchased, used, serviced, or shipped for repair from outside the United States of America or Canada, or used for

commercial or institutional purposes (including but not limited to Products used for rental purposes); or 7. Product returned without a valid proof of purchase (see item 2 below); or

How do you get warranty service?

NOTE: Before calling for service, please review the user's manual - a check of the Product's controls and features may save

Except as provided by applicable law, you assume the risk of loss or damage during transit and transportation and are responsible for delivery or handling charges incurred in the transport of the Product(s) to the service location. VTech will return repaired or replaced Product under this limited warranty. Transportation, delivery or handling charges are prepaid. VTech assumes no risk for damage or loss of the Product in transit. If the Product failure is not covered by this limited

warranty, or proof of purchase does not meet the terms of this limited warranty, VTech will notify you and will request that

What must you return with the Product to get warranty service?

 Return the entire original package and contents including the Product to the VTech service location along with a description of the malfunction or difficulty; and 2. Include a "valid proof of purchase" (sales receipt) identifying the Product purchased (Product model) and the date of

3. Provide your name, complete and correct mailing address, and telephone number.

gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province. Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Ce produit ne remplace pas la surveillance adulte du nourrisson. La supervision du nourrisson est la responsabilité du parent ou de la personne qui s'occupe de l'enfant. Ce produit pourrait cesser de fonctionner et, par conséquent, vous ne devriez pas présumer qu'il continuera de fonctionner correctement pendant une période de temps donnée. De plus, il ne s'agit pas d'un instrument médical et ne devrait pas être utilisé comme tel. Ce produit est destiné à vous aider à superviser votre bébé. N'utilisez pas cet appareil près de l'eau ni de toute autre source d'humidité, par exemple, près d'une baignoire, cuve à lessive, évier de cuisine, dans un sous-sol humide ni près d'une piscine, dans un sous-sol humide ou une douche.

- MISE EN GARDE: Il peut y avoir un risque d'explosion si vous utilisez le mauvais type de piles pour l'unité du parent. N'utilisez que le blocpiles rechargeable inclus ou le bloc-piles de rechange (BT198555/BT298555). N'incinérez pas les piles. Celles-ci risqueraient d'exploser. Jetez les piles usées selon les renseignements suivant le sceau du RBRC*.

 N'utilisez que les adaptateurs inclus avec ce produit. L'utilisation d'un adaptateur dont la polarité ou la tension serait inadéquate risque d'endommager sérieusement le produit et mettre votre sécurité en péril.

 Adaptateur de l'unité du bébé: Sortie: 5V CC 600mA

 Adaptateur de l'unité du parent: Sortie: 5V CC 1A

 Lorsqu'ils sont branchés dans une prise de courant, les adaptateurs secteur ont été concus pour être orientés correctement, soit à la verticale
- Lorsqu'ils sont branchés dans une prise de courant, les adaptateurs secteur ont été conçus pour être orientés correctement, soit à la verticale ou au plancher. Les broches n'ont pas été conçues pour supporter le poids du bloc d'alimentation et le maintenir en place si celuici est branché dans une prise au plafond, sous une table ou dans un meuble.
- Pour les PRODUITS À BRANCHER À UNE PRISE DE COURANT, la prise de courant doit être installée près du produit, afin d'assurer une ccessibilité sécuritaire à la prise de courant. Débranchez ce produit de la prise de courant avant de procéder au nettoyage. N'utilisez pas de nettoyants en aérosols. Utilisez un chiffon humide pour le nettoyer.
- Débranchez les cordons d'alimentation avant de remplacer le bloc-piles. Ne coupez pas les cordons d'alimentation pour remplacer les fiches, car ceci peut présenter un danger potentiel. Ne laissez aucun objet reposer ni appuyer sur le cordon d'alimentation. N'installez pas cet appareil dans un endroit où l'on risque d'écraser le cordon d'alimentation ou de le piétiner.
- Ne faites fonctionner cet appareil qu'avec le type d'alimentation indiqué sur l'étiquette. Si vous ne connaissez pas le type d'alimentation que vous possédez à votre domicile, consultez votre marchand ou votre compagnie locale d'électricité.

 Ne surchargez pas les prises de courant murales ni les rallonges électriques. Ne placez pas cet appareil sur un chariot, meuble, trépied, support de montage ni table chancelants. Les trous et ouvertures du boîtier, situés à l'arrière de l'appareil ou sous celui-ci, servent à aérer l'appareil. Pour l'empêcher de surchauffer, ne bloquez sous aucun prétexte ces ouvertures et n'empêchez pas l'aération adéquate de l'appareil en le plaçant sur un lit, divan, tapis ou toute autre surface similaire. De même, ne le positionnez pas à proximité ni au-dessus d'une source de chaleur ou d'un calorifère. De plus, ne placez pas l'appareil dans un endroit avant de vous assurer qu'il y ait une bonne circulation d'air.
- N'enfoncez jamais d'objets à travers les ouvertures de cet appareil, car ils pourraient entrer en contact avec des points de tension dangereux ou causer des courts-circuits qui peuvent dégénérer en incendies ou en risques d'électrocution. Ne renversez jamais de liquide dans ce produit. boîtier ou le retrait de foutes pièces que contient cet appareit, i n'exception de l'accès autorisé à certaines portes ou ouvertures, risque de vous exposer à des points de tension dangereux ou d'autres dangers. Un remontage incorrect peut par la suite présenter des risques d'électrocution. Vous devriez tester la réception chaque fois que vous mettez l'appareil en fonction.
- Soyez avisé de la perte de la confidentialité lorsque vous utilisez les ondes publiques. Les conversations peuvent être entendues par d'autres moniteurs de bébé, des téléphones sans fil, des scanneurs, etc. Les enfants devraient être supervisés afin de vous assurer qu'ils ne jouent pas avec l'appareil.
- Le produit n'est pas conçu pour être utilisé par des personnes (incluant des enfants) aux capacités physiques, sensorielles ou mentales réduites ou qui manquent d'expérience et de connaissances, à moins qu'on leur ait donné suffisamment de supervision ou d'instruction relativement à l'utilisation de l'appareil par une personne responsable de leur sécurité. CONSERVEZ CES INSTRUCTIONS

Utilisez et entreposez le produit à une température entre 0° C (32° F) et 40° C (104° F) xposez pas cet appareil à des froids ou des chaleurs extrêmes, ainsi qu'à la lumière directe du soleil. Ne l'installez pas près d'une source

Examinez les composantes afin de vérifier si celles-ci ne sont pas endommagées

Assurez-vous que le moniteur et le cordon de l'adaptateur sont toujours hors de portée des enfants, à au moins 1 mètre (3 pieds) de l'enfant

Ne jamais placer le moniteur à l'intérieur du berceau ou du parc de bébé. Ne jamais couvrir le moniteur ou l'unité (s) portative avec un article el úne serviette ou une couverture. D'autres équipements électroniques peuvent produire des interférences sur votre moniteur vidéo et audio. Tentez d'installer votre moniteur vidéo ou audio à l'écart des appareils électroniques tels que des routeurs sans fil, radios, téléphones cellulaires, interphor moniteurs, téléphones, ordinateurs personnels, électroménagers et téléphones sans fil.

Les simulateurs cardiaques (ne s'applique qu'aux dispositifs numériques sans fil) : L'organisme 'Wireless Technology Research, LLC (WTR)', une firme de recherche indépendante, a mené une évaluation pluridisciplinaire des interférences entre les téléphones sans fil portatifs et les stimulateurs cardiaques implantés dans l'organisme. Appuyée par l'Administration des

aliments et droques (FDA) des États-Unis, la firme WTR recommande aux médecins Avis aux détenteurs de stimulateurs cardiaque Vous devriez maintenir les dispositifs sans fil à au moins six pouces du simulateur cardiaque Ils ne doivent PAS placer le téléphone sans fil directement sur le stimulateur cardiaque, tel que dans une poche de chemise, lorsque celui-ci

Champs électromagnétiques (EMF) Ce produit de VTech est conforme à toutes les normes se rapportant aux champs électromagnétiques (EMF) standard. Si vous le manipulez correctement en suivant les instructions de ce guide, son utilisation sera sécuritaire pendant de nombreuses années, selon les meilleures évidences scientifiques dont nous disposons aujourd'hui.

units, the CEC battery charging testing mode is activated while it is powered off and charging.

The parent unit is turning on.

The timer that determines the remaining play time for the lullabies

The baby unit has infrared LEDs that allow you to see your baby clearly at night or in a dark

It is normal if you see a short white glare on your parent unit screen as the baby unit is adapting to

MOUNT THE BABY UNIT (OPTIONAL)

· Avoid dropping the product or treating it roughly.

DO NOT use cleaning spray or liquid cleaners.

LIMITED WARRANTY

The manufacturer of this VTech Product warrants to the holder of a valid proof of purchase ("Consumer" or "you") that the Product and all accessories provided in the sales package ("Product") are free from defects in material and workmanship, pursuant to the following terms and conditions, when installed and used normally and in accordance with the Product operating instructions. This limited warranty extends only to the Consumer for Products purchased and used in the United States of America and Conada. IMPORTANT SAFETY INSTRUCTIONS When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

Follow all warnings and instructions marked on the product. Adult setup is required. This product is not a substitute for adult supervision of the infant. Supervising the infant is the parent's or caregiver's responsibility. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product is intended to assist

Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or wimming pool, or in a wet basement or shower. CAUTION: Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack (BT198555/BT298555) for the parent unit. Do not dispose of batteries in a fire. They may explode. Dispose of used battery according to the information in **The RBRC® seal**.

Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Output: 5V DC 600mA; Parent unit power adapter: Output: 5V DC 1A. The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not gned to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible

. Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or crimped. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.

Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.

. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or 17. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.

other risks. Incorrect reassembling can cause electric shock when the product is subsequently used. 19. You should test the sound reception every time you turn on the units or move one of the components. 20. Periodically examine all components for damage. Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery

3. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or

SAVE THESE INSTRUCTIONS

Never place the baby unit(s) inside the baby's crib or playpen. Never cover the baby unit(s) or parent unit with anything

ack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance

To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility.

Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages

by a person responsible for their safety.

Use and store the product at a temperature between 32°F and 104°F.

Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source. Batteries should not be exposed to excessive heat such as bright sunshine or fire.

Make sure the baby unit(s) and the adapter cord(s) are always out of reach of the baby, at least 3 feet away from the

Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as

· Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

far away from these electronic devices as possible: wireless routers, radios, cellular telephones, infercoms, room

monitors, televisions, personal computers, kitchen appliances and cordless telephones. Precautions for users of implanted cardiac pacemakers Cardiac pacemakers (applies only to digital cordless devices):

baby or crib, to avoid a possible strangulation hazard.

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the nterference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that: **Pacemaker patients** Should keep wireless devices at least six inches from the pacemaker.

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available to
