DENON DP-29 FA / FE

AUTOMATIC TURNTABLE WITH PHONO

EASY OPERATION – MAXIMUM MUSICAL ENJOYMENT

The DP-29FA/FE has been designed to give you maximum enjoyment out of your valuable collection of analog records. The DP-29FA/FE features an automatic system that starts the music at the simple touch of a button, and when the music stops, the tone arm automatically returns to its original position and the turntable stops rotating.

Available in black or silver, the DP-29FA/FE also includes a PHONO (MM) equalizer, enabling you to connect the turntable directly to an integrated amp that does not have a PHONO equalizer.

High-Precision Diecast Aluminium Turntable

The turntable has been precision manufactured with a rigid diecast aluminium to produce uniform inertial mass for perfectly stable turntable rotation, an essential component of high fidelity sound during playback.

Automated System for Easy Operation

The DP-29FA/FE employs an automated system that starts playing the record with the single touch of a button and finishes play at the end of the record by returning the tone arm to its original position and stopping turntable rotation. This system ensures that you do not inadvertently scratch your records when you play them.

PHONO Equalizer

Since the DP-29FA/FE includes a built-in PHONO equalizer, you can connect the unit to an integrated amp that does not have its own equalizer.

MM Cartridge Included

The DP-29FA/FE comes with an MM cartridge so that you can begin to enjoy your analog record collection as soon as you connect it to your home hi-fi system.

Specification

Drive system: Belt drive system
Motor: DC servo motor
Speed: 33 1/3, 45 rpm
Wow & flutter: Less than 0.15 %

Tonearm

Type: Dynamically balance type,
Straight tonearm
Effective length: 195 mm

Cartridge

Type: MM (DSN-82)
Output voltage: 2.5 mV

General

Power supply: AC 120 V, 60 Hz
Power consumption: 2W
Dimensions: 360 (W) x 97 (H) x 357 (D) mm
Weight: 2.8 kg
Colours: Black (DP-29FA)
Silver (DP-29FE)
