Marijuana sales have been legal in the State of Colorado since 2014. Winter Park is seeing the financial benefits of retail marijuana and is considering allowing limited marijuana retail licenses within town. To allow the town to collect an additional tax on Marijuana, the Town of Winter Park is asking the voters to approve a tax on marijuana sales. 50% of these new taxes will be dedicated to supporting Mental Health in our community, which is an underfunded and extremely important need in our community. I urge you to vote yes to support tax on marijuana in Winter Park.	No comments were filed by the constitutional deadline.

YES/FOR \_\_\_\_\_

NO/AGAINST \_\_\_\_\_

#### Summary of written Comments FOR Ballot Issue 2D:

Vote YES on 2D. Ballot Issue 2D would authorize, but not require, the Fraser Town Council to capture revenues lost due to the Gallagher Amendment so the Town of Fraser may maintain its current level of services without having to raise taxes in the future. Ballot Issue 2D is not asking for an increase in tax revenue.

The Gallagher Amendment was added to the Colorado Constitution in 1982, and sets the Residential Assessment Rate ("RAR") at 21% and Commercial Assessment Rates at 29%. While the commercial rate is fixed, the residential rate can move up or down. The amendment also requires property tax revenues in the state to be collected at a ratio of 45% residential and 55% all other property types. In order to maintain this ratio, the Colorado General Assembly is required to set the RAR every two years to keep the 45%/55% ratio in place.

As the State of Colorado has experienced significant residential growth, the Colorado General Assembly has consistently been forced to decrease the RAR – from 18%, then 15%, then 12%, then 9%, down to 7.96% in 2003. It then dropped again to 7.2% in 2017 and is expected to drop again to 5.88% in 2020.

As a result, the amount of money the Town has been able to collect on property taxes has decreased over the years. It is anticipated the reduction in the RAR to 5.88% will result in the Town losing approximately \$240,000 in revenues next year. These types of revenue losses will continue and only increase as the RAR continues to decline as residential property values continue to increase. Ballot Issue 2D not only prevents revenue losses now, but so long as the state continues to decrease the RAR.

Ballot Issue 2D only authorizes the Fraser Town Council to increase the mill levy to make up for the amount of revenue lost by state imposed changes to the RAR. Ballot Issue 2D does not authorize the Town to generate new revenue.

Passage of Ballot Issue 2D will allow the Town to avoid budget cuts that would impact services and amenities we all value, as well as other basic Town functions.

Keep Fraser great, and vote YES on 2D.

# SCHOOL DISTRICT MEASURES East Grand School District No. 2

**Continued**

**Summary of written Comments FOR Ballot Issue 4A:**

Grand County has seen a rapid rise in cost of living over the past several years. State funding for schools has not kept pace with this. As a result, competitive pay for East Grand School District teachers and staff has suffered. East Grand's average teacher salary has fallen to more than \$10,000.00 below the average cost of living in Grand County. The Mill Levy Override will allow teachers and staff to begin closing that gap. With current property tax rates, this issue will cost taxpayers approximately \$10.42 per \$100,000 of property value each year. Every year the district tries to hire teachers from the Front Range only to be turned down because of the salary difference. Likewise, we lose teachers to nearby districts so they can increase their salary. Non-teaching staff often choose to work elsewhere as well leaving the district short of employees. East Grand School District has consistently been a district rated as Accredited or Accredited with Distinction. In order to maintain a quality education for our students we need to provide competitive salaries and benefits to our employees. Many of our employees have to work second jobs in order to be able to live and work here. The district also has a large percentage of teachers who are eligible to retire in the next 5 years and will need to recruit quality candidates to fill those positions. This will require having competitive salaries with other districts.

YES/FOR \_\_\_\_\_ NO/AGAINST \_\_\_\_\_

**Summary of written Comments FOR Ballot Issue 6B:**

In November, the Fraser Valley Metropolitan Recreation District (FVMRD) will be asking voters to approve a revenue stabilization measure for the FVMRD. Ballot Issue 6B asks voters to allow the FVMRD to adjust its mill levy rate beginning in 2021, if needed, to offset revenue losses due to state-mandated changes in the residential assessment rate (RAR) due to the Gallagher Amendment. These State-mandated adjustments in the residential assessment rate are expected to reduce the RAR from 7.15 to 5.85 or 18% in 2021, eliminating nearly \$150,000 from the FVMRD budget. Voting YES on Ballot Issue 6B will allow the FVMRD to stabilize revenue each year and continue to provide the recreational services our community has come to expect. I fully support the FVMRD's efforts to pass the ballot issue to assist in maintaining essential services to our community.

**Summary of Written Comments FOR Ballot Issue No. 7A:**

Funding is needed so that the River District can continue protecting water supplies for the farmers and ranchers that put food on our tables. The District will use this funding to protect drinking water supplies on the Western Slope. The District has clearly demonstrated the need for new revenues to protect West Slope water and keep our water on the Western Slope. The District's mill levy is consistently one of the lowest levies on the West Slope. 7A is a modest increase of less than 1/4 of a single mill. The District developed a robust fiscal implementation plan that explains exactly how these revenues would be spent. Without additional resources, the District will be forced to reduce its workforce even more, and this will jeopardize its ability to protect the West Slope's water security. The District is accountable to taxpayers and undergoes regular independent audits to ensure that taxpayer dollars are spent wisely. The District's Board members are appointed directly by County Commissioners in each of the 15 counties within the District, so every county has a say guiding the work of the River District.

My role as a water resources engineer has provided me with the opportunity to really understand the importance of investing more in the protection of West Slope water and agricultural, industrial, municipal, and environmental/recreational users. The River District's mission is to protect these resources and the challenges in front of us with changing climate, hydrology, and water quality only emphasize the critical nature of your role.

This effort is non-partisan and enjoys broad support from conservative and progressive communities -- agricultural associations, conservation organizations and chambers of commerce have all come together to support and to protect West Slope water. The increase in property taxes is very small but will go a long way towards protecting West Slope water and keeping our water on the Western Slope. The Colorado River District is accountable to taxpayers and has created internal safeguards within a Fiscal Implementation plan to describe exactly how the money will be spent. It is good that this measure does not include a sunset provision because the need for protecting West Slope water will not go away. Front Range cities are buying up water rights and drying up productive farmland on the West Slope - some of which has been in families for generations. The Colorado River District needs the resources to protect our water, keep local food production, and preserve healthy rivers that contribute to our quality of life and outdoor lifestyle. I support this because it would mean only \$1.90 per year for each \$100,000 in home value per year. That is a very modest amount.

**SPECIAL DISTRICT MEASURES**  
**Colorado River Water Conservation District**

Continued

**Summary of Written Comments AGAINST Ballot Issue No. 7A:**

Unlike most other districts with taxing authority, the River District is an appointed, not an elected board and does not have direct accountability to the taxpayers. The increase in mill levy does not have a sunset date and does not require the board to come back to the voters to prove they've used the money wisely in order to reauthorize the tax. There is no clear list of projects that this money will be used for. The River District refers to a Fiscal Implementation Plan but refused to bind the tax increase to this plan. As taxpayers, we don't have assurance that they will use the money as they say, and a future board could change the plan. The mill levy is a significant increase rather than something more incremental. The language of the measure is noble in its ambition but vague in its application. Please vote 'NO' on Ballot issue 7A.
