

EmblemHealth[®]
WHAT CARE FEELS LIKE.

2015 – 2016 SELECT NETWORK PROVIDER LISTING

SELECT NETWORK PLAN

This listing includes primary care physicians in the Select Network Plan.

Some plan providers may have been added or removed from the list after this listing was printed. To get the most up-to-date information about the providers in your area, you can visit **emblemhealth.com** or call our Customer Service department at **1-877-344-7364**, 8 am to 8 pm, daily. TDD/TTY users, please call **711**.

HIP Health Plan of New York (HIP) is a Medicare Advantage organization with a Medicare contract. HIP is an EmblemHealth company.

The provider network may change at any time. You will receive notice when necessary.

Introduction

This listing provides primary care physicians in the Select Network. Other doctors or practitioners are available in our network. A comprehensive list of providers, including specialists, hospitals and other providers, is available upon request. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our plan providers that are provided in this listing to be your primary care physician (PCP). The term “PCP” will be used throughout this listing. Generally, you must get your health care coverage from your PCP. Your PCP is your primary care physician, who can provide and coordinate all of your care, including specialist visits, hospital admissions and more.

The “plan providers” in this network have agreed to provide you with your health care coverage. If you have been going to one plan provider, you are not required to continue going to that same provider. You can call Customer Service and change to another PCP listed in this directory. In some cases, you may get covered services from non-plan providers. Please check your Evidence of Coverage for more details on specific referral requirements and more details about your plan benefits.

You must use plan providers except in emergency or urgent care situations. If you obtain routine care from out-of-network providers neither Medicare nor EmblemHealth will be responsible for the costs.

What is the service area for the Select Network?

The counties in our service area are listed below.

Bronx, Brooklyn, Manhattan, Queens, Staten Island, Nassau, Suffolk and Westchester.

How do you find Select Network providers in your area?

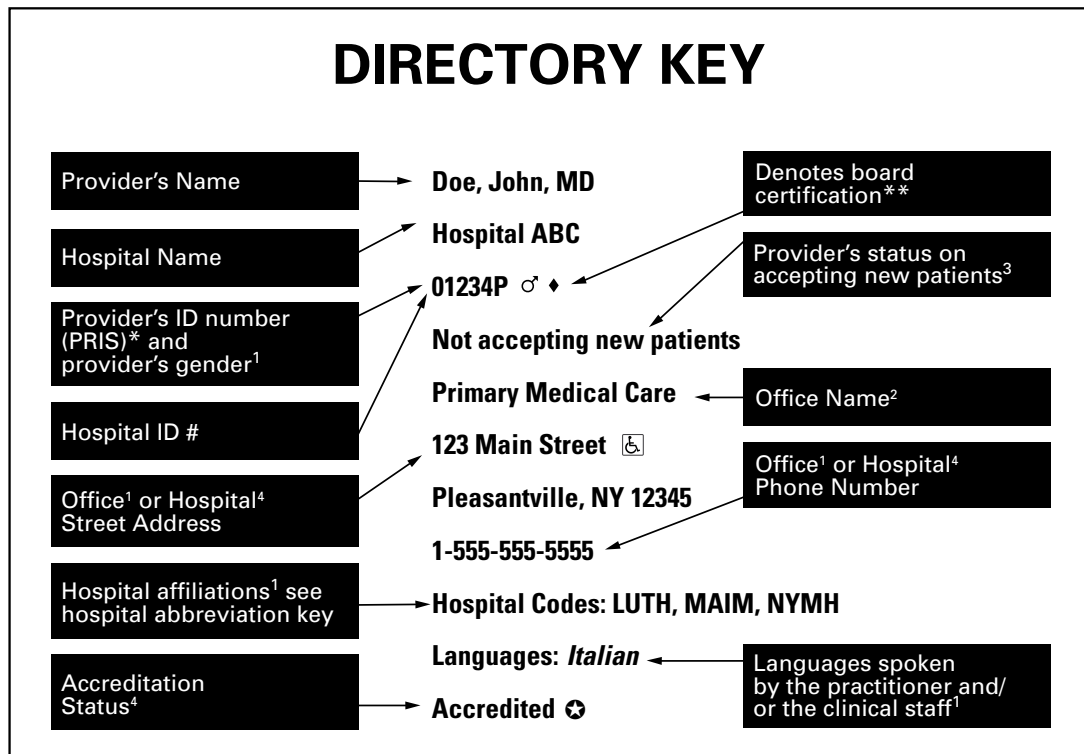

You can find a provider by looking in this listing or going online at **emblemhealth.com**.

We do everything possible to keep our materials current, but participation status can change from time to time. Before selecting your PCP, confirm that he or she is still participating in the Select Network with the product you are covered by, and is accepting new patients. You can do this by contacting the provider at the phone number provided in the listing. If you choose a doctor that is not in the Select Network, you will have higher copays.

If you have questions about the Select Network, please call our Customer Service department at **1-877-344-7364**, 8 am to 8 pm, daily. TDD/TTY users, please call **711**.

Provider Listing Key

To find the full name of any network hospital shown under the physician listing contained in this directory, please refer to the Hospital Abbreviation Key. These are hospitals that you may be sent to by your physician.

*The practitioner PRIS number is an office location-specific number that a practitioner uses, along with a Personal Identification Number (PIN), to access our interactive voice response (IVR) system and website at emblemhealth.com.

**Practitioners who are specialists must satisfy the requirements/standards of a nationally recognized specialty board and receive specialist certification from either ABMS or AOA. Board certification is verified by ABMS and AOA during the recredentialing process every three years. For Non-Board-Certified Providers, information is verified from the highest level of training and with the Licensing Board.

¹Information is collected from the Provider Application; therefore, it is self-reported and is validated every three years during the, recredentialing process or sooner based on provider notification. The wheelchair symbol indicates that the location is wheelchair accessible.

²Information is collected from the Provider Application and validated every three years during the recredentialing process.

³Acceptance of new patients applies to primary care physicians. Unless otherwise noted, all physicians are accepting new patients. However, you should call the doctor's office to confirm he or she is in the network and accepting new patients.

⁴Hospital information listed in this directory is collected from each facility's application and validated every three years during the recredentialing process, or sooner, based on facility notifications. The Joint Commission (TJC), formerly known as Joint Commission on Accreditation of Healthcare Organizations (JCAHO), identifies if a facility is accredited. Accreditation requires a facility to meet high performance-based standards for quality and safety of care. This means that the facility would be certified for complying with a standard set of guidelines on a voluntary basis. For more information, please visit jointcommission.org.

Physician Practices: All Your Health Care Needs Under One Roof

Many of our members choose to receive care from one of our network physician practices. These practices may offer most, if not all, of your medical services in the same building. You'll have access to quality PCPs and key specialists like dermatologists, orthopedists, OB/GYNs, cardiologists and ophthalmologists. These locations may also provide ancillary services such as lab tests, X-rays and pharmacy services. Plus, many of the practices offer the convenience of scheduling same-day appointments.

AdvantageCare Physicians

You can choose to receive care through AdvantageCare Physicians (ACP), one of the largest physician-led practices in the New York metropolitan area. It consists of four New York City and Long Island medical groups: Manhattan's Physician Group, Preferred Health Partners, Queens-Long Island Medical Group and Staten Island Physician Practice.

ACP practitioners work as a team to deliver quality, coordinated care and to help ensure the best health outcomes for their patients. Your team of practitioners may include doctors, nurses, social workers, nutritionists, mental health and substance abuse specialists and other health care providers.

If you choose a PCP from one of these medical practices, you can expect your doctor to refer you to specialists at the same medical office unless the care you need is not available there.
