GENERAL INFORMATION

General Information

Complete *Form 143 - Request for an OMERS plan benefit* in the event of a member's termination of employment, disability, retirement or death.

- For a retirement claim, the form can be submitted up to 60 days before the retirement date.
- Whenever possible, wait until you have final earnings and service information before submitting the Form 143.
- Do not use this form for a member who is:
 - on a disability waiver of contribution; use *Form 158 – Employment change/benefit request*;
 - terminating as the result of a divestment; use *Form 182 – Divestment information - member*.
- Please notify us of any eligible service the member may have.
- If the member was on a pregnancy/parental leave or had broken service, include any outstanding leave period election forms.

Important – Supplemental Plan

If you are requesting a benefit for a Supplemental Plan member, please use e-Form 143 in e-access.

SECTION 2 - REASON FOR REQUEST

Disability

- In the **Annual rate of contributory earnings at date member last contributed** field, enter the actual contributory earnings salary rate immediately before the member became disabled. Do not annualize the salary for other-than-continuous full-time (OTCFT) members.
- The contributory earnings salary rate of the member shall be deemed the annual rate of contributory earnings for which the member last made contributions.
- The credited service entered in **% of full-time hours** or **Months worked per year** field must correspond with the **Annual rate of contributory earnings**. (This field applies to OTCFT members only.)

Example: Enter \$25,000 for 10.66 months worked per year or \$25,000 for 88.83% of full-time hours.

- If the member chooses the OMERS disability pension, it may reduce any LTD payment. If the member is also receiving WSIB payments, the OMERS disability pension may be reduced. Please see the online *Employer Administration Manual* for details.

Retirement

- If you select this option for a member who is not yet eligible to receive a pension, we'll process the request as a termination. The member will receive a *Pension Options* form. One of the options will be to take a pension at a later date once they become eligible.

SECTION 3 - SUPPORTING INFORMATION

Retirement-date spouse

- If the member has a legal or common-law spouse on the date that his or her first pension payment is due and the spouses are not living separate and apart, that person is the "retirement-date spouse" and eligible for spousal survivor benefits, provided he or she has not waived rights to survivor benefits.

SECTION 4 - EMPLOYMENT INFORMATION

Disability elimination period

- The disability elimination period information should be submitted with the Form 143.

Contributory earnings

Include:

- deemed earnings for purchased disability elimination periods
- retro payments (provide details of the retro payment in the next section)

Do **not** include:

- annualized earnings (CFT or OTCFT members)
- deemed earnings for leave periods

Credited service

- Enter credited service calculated to two decimal places.
- Include credited service for purchased disability elimination periods.
- Do **not** include credited service for purchased leave periods. Leave periods must be reported using *Form 165 – Leave period reporting/ election*.

Pension adjustment (PA)

- For PA purposes, assume the member will purchase a period of leave which is covered under the *Employment Standards Act* (ESA) and is single contribution cost for the member (employer matching) unless you have a signed election form declining the purchase.
- Do **not** include broken service (excluding ESA single contribution cost leaves) in the PA unless the member has elected to buy all or part of the leave.
- If the member reached 35 years of credited service prior to January 1, 2021, calculate the PA based on service up to the date the member reached 420 months of credited service. If the member reached 35 years before the year you are reporting, the PA is zero.

Important! OMERS has removed the 35-year cap for members with less than 35 years of credited service as of January 1, 2021.

- For a member who is on a disability waiver of contribution, report a PA only for the purchased elimination period and portions of the year that the member was actively working. Do **not** report a PA for the disability waiver period – OMERS reports the PA for this period.
- If the member is deceased, enter a PA of zero in the year of death.

Contributions (Primary Plan RPP and RCA)

- Enter registered pension plan (RPP) contributions in the **Primary Plan RPP** field and Retirement Compensation Arrangement contributions in the **Primary Plan RCA contributions** field.
- Include contributions for purchased disability elimination periods.
- Do **not** include contributions for purchased leaves (broken service and pregnancy/parental leaves).
- Include contributions deducted from retro payments. (Use the contribution rate for the year to which the retro payment applies.)

For December events with earnings paid in the following year (carry-forward), check the **December event with carry-forward pay** box. Also include on a separate page (or in the chart) a breakdown of contributory earnings and contributions paid each year.

Example: A member terminates on December 31, 2020, but is paid for the last week of December in 2021. Indicate the contributory earnings and contributions paid in 2020 and paid in 2021 separately.
