What makes the Block Party Live different from the original Block Party?

The **Block Party Live** adds control via the ION Party Rocker app and also adds an extra orange light to the rhythmic light show. The speakers have also been improved to offer enhanced dynamic range and sound clarity.

Where can I download the ION Party Rocker app?

The Party Rocker app can be download from the iOS App Store or the Google Play Store for Android devices.

What features of the Block Party Live can I control with the app?

The Party Rocker app controls the different light show colors and speeds.

How do I pair my Bluetooth device with the Block Party Live?

1. Turn on your Bluetooth device.
2. Power on **Block Party Live** and it will automatically go into pairing mode to search for Bluetooth devices. You will know you are in pairing mode when the LED is off.
3. If your Bluetooth device is not able to pair to the amp, press the disconnect button on the amp to break previous Bluetooth connections and reset the Bluetooth module.

4. Navigate to your Bluetooth device's setup screen, find "**Block Party Live**" and connect.
Note: If your Bluetooth device prompts for a pairing code, enter '0000'.
5. Paired LED will light up solid when it is 'paired'.
6. To disconnect pairing, press the 'Disconnect' button on Party Rocker Live.
7. To connect to another Bluetooth device, repeat steps 3-4.

My Bluetooth device sees the Block Party Live but is unable to connect to it. How do I get my device to re-connect?

In your device's Bluetooth settings, select the "**Block Party Live**" and choose "**Forget Device**". On the front of the Block Party Live, press the **Disconnect** button. After turning the unit off and on again you should be able to pair your device.

Can I replace the battery myself?

Yes! Check out [this handy guide](#) that walks through replacing the battery in your ION speaker.

What are the battery specifications?

The battery in the **Block Party Live** is a 12V 7AH Lead Acid Battery.

How can I tell that my Block Party Live is done charging?

The **CHARGE** light on the front of the **Block Party Live** will illuminate while charging and go out once the battery is full.
