

# Orangebox Specification Guide

## Price Adjustment August 16, 2021

Prices for materials and freight have been rising rapidly, dramatically, and across the board. While we've worked hard to minimize the full impact of these factors - and will continue to do so, Steelcase Inc. will adjust list prices globally by 4.9% on August 16, 2021.

## Price Adjustment November 15, 2021

Steelcase Inc. will adjust list prices globally by 4.9%, effective November 15, 2021.

Price adjustments apply to the products, options, surface materials, and service parts of the Steelcase family of brands represented in our price lists. **With the exception of new product launches, the adjustment is NOT reflected in this October specification guide.** Please refer to AutoPricing in Hedberg or October ECAT data in your planning tools for accurate pricing information.

## Availability

**Electronic price list updated** with release 194.B (U.S.) and 153.B (Canada), dated October 18, 2021.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Spec News is available on [village.steelcase.com](http://village.steelcase.com). Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

*Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.*

View or download Steelcase Specification Guides at <https://steelcase.s4mrc.com/na/spec-guides/individual-spec-guides?limit=30&p=1>

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

## Surface Materials

**The surface materials team** has announced the launch of the Finish Library, found at <https://finishlibrary.steelcase.com/>.

► For a list of all trademarks, refer to the last page of this specification guide.

Worktools Partners products can be found in the *Steelcase Category Partners Specification Guide* on <https://steelcase.s4mrc.com/na/spec-guides>.

### For Canadian Pricing

Canadian factor can be found at [www.steelcase.com/CADpricing](http://www.steelcase.com/CADpricing). Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

# Ten Tips: How to Get the Most Out of This Book

## Tip 1

**Watch** the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

## Tip 2

**Use the Statement of Line pages** for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

## Tip 3

**Find cross references** by looking for page numbers flagged with an arrow.

## Tip 4

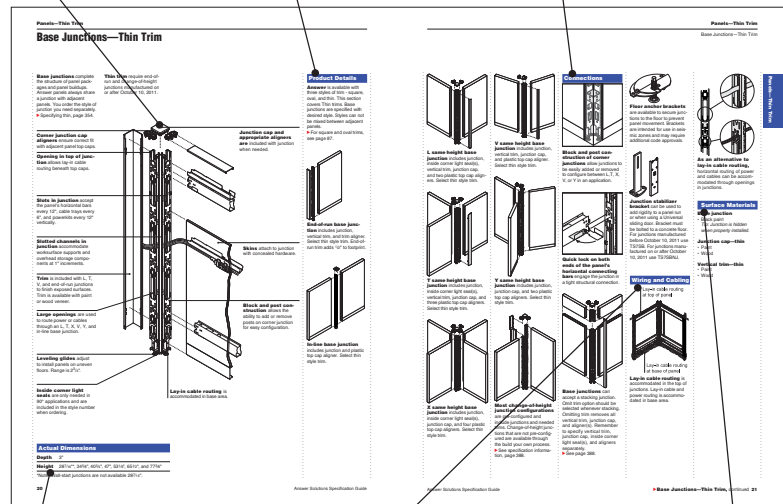

**Study the product detail pages** in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

**Product Drawing** shows you what the product looks like and points out important features.

**Product Details** gives specific information on the product and how it is used.

**Connections** describes how the product is assembled or how it attaches to another product.

**Actual Dimensions** table lists the dimensions of the product.

**Wiring and Cabling** details the power and cable-management and cable routing capabilities of the product.

**Surface Materials** lists what material is used for each part of the product.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

## Additional Resources

### Orangebox products

are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

### Printed Materials

#### Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the [www.steelcase.com](http://www.steelcase.com) web site or at [village.steelcase.com](http://village.steelcase.com)

### Computer Tools

#### Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email [SmartTools@steelcase.com](mailto:SmartTools@steelcase.com)), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

#### Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

#### Digital Publications

You can access these digital publications at [www.steelcase.com](http://www.steelcase.com) or [village.steelcase.com](http://village.steelcase.com).

### Support

#### Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

**For ordering or product assistance,** please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to [lineone@steelcase.com](mailto:lineone@steelcase.com).

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to: <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: [www.steelcase.com](http://www.steelcase.com).

## Air<sup>3</sup>

### Air<sup>3</sup>, continued

#### Product Details

**Fabric panel layer numbering** begins from the bottom position.

**Panel positions** account for both glass and fabric panels and are determined when standing outside of the pod with a right to left opening door.

**Optional whiteboards** can be installed in place of internal fabric panels on layers 3 and 4 (all panels will still be included). Dimensions are 50<sup>3</sup>/<sub>4</sub>" x 34<sup>3</sup>/<sub>4</sub>".

**Monitor brackets** are available in two different styles and both support a monitor up to a maximum weight of 55 pounds:

- Over upholstery monitor brackets—mounted directly to the fabric panels on layers 3 and 4.
- Hoop mounted monitor brackets—attached to the power side of the service hoop.

#### Space Layout Constraints

**Do not obstruct** exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" (457.2 mm) of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

#### Electrical Connections

**Hardwired units:** Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

**The assembly directions and user guide** describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 or 20 Amp connection. The maximum loading of the components within the enclosure is 1.2 Kilowatts.

**Cord and plug units:** The unit is provided with a flexible power cord which is to be plugged directly into a building's hardwired electrical receptacle. A minimum spacing of 4" (101.6 mm) between the receptacle and the assembled unit is needed to protect the plug from damage.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

Air<sup>3</sup>

Air<sup>3</sup>

Air<sup>3</sup>

## Electrical Components

**The service hoop** contains all the electrical services, such as power, lighting, and airflow.

**Service hoop horizontal bar** includes three LED lights, two heat detectors, motion sensor, and fan.

**Work**

Lux level at table height: 450-850  
Center light: 100%  
Outer light: 100%

**Think**

Lux level at table height: 120-400  
Center light: 50%  
Outer light: 20%

**Present**

Lux level at table height: 50-60  
Center light: 20%  
Outer light: OFF

**Three LED lights** are used for illumination. The lights are 4000K with a max brightness of 1300 lumens. The facility light level is able to be set through a dim control switch in the electrical assembly in the ceiling (not user accessible).

**Passive inferred (PIR) motion sensor** turns on the power to the pod when activated. Power is shut off within the pod after five minutes of inactivity.

**Primary heat detector** will cut all power in the pod and open the roof fully if heat at 135°F (57°C) is detected.

**Secondary heat detector** acts as a failsafe fusible link and will cut all power in the pod and open the roof fully if heat at 150.8°F (66°C) is detected.

**Service hoop power side** comes standard with three NEMA 5-15 3-prong power outlets, two data connection cutouts, and two cable ports with removable center grommet for cable management.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

## Air<sup>3</sup>

### Air<sup>3</sup>, continued

**Service hoop control panel side** includes touch button controls for lighting, air circulation, and roof. Power usage when occupied is 100W (not including any plugged-in external equipment) per hoop.

**The patented louvred roof** has three settings: fully open, semi open, and closed. When the pod is unoccupied, the roof is always open. When entering the pod, the passive inferred sensor (PIR) senses movement and closes the roof to create acoustic privacy. When the pod is occupied, it is possible to select either 10° (semi) or 90° (fully) open position manually for enhanced airflow. The PIR turns the power off after five minutes and the roof automatically opens.

**Occupancy sensor** activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering.

### Airflow and Handling

**Ventilation fans** are rated at 94 cubic feet of air per minute (CFM) and 56 dBA.

*Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.*

## On the Q.T.

## On the Q.T., continued

### Product Details

**Left hand (LH) and right hand (RH)** are determined by the location of the door hinge when entering the booth.

**Front and rear** are determined based on the user seated position. "Front" will indicate the wall the user faces, while "rear" will indicate the wall behind the user.

**Baffles** can be optioned to add an additional layer of visual and acoustic privacy. These fully upholstered baffles are available as a privacy screen or lean pad.

**Privacy screens** install to the front of the phone booth and sit above worksurface height.

**Lean pads** install to the rear of the phone booth and sit at shoulder/head height.

**Shelf** can be specified in both the short and tall phone booths. When specified, the shelf height is 28<sup>3</sup>/<sub>4</sub>" in the short booth and 41<sup>3</sup>/<sub>4</sub>" in the tall booth.

*Tip: Shelf should not be optioned if an On the Q.T. furniture unit (**OB1QTF01** or **OB1QTF02**) is specified.*

**All worksurfaces** come standard in High-Pressure Laminate. Plywood is available as an option.

**Contrasting upholstery** option available on lounge furniture units with four specifiable upholstery surfaces.

**Each furniture unit** comes standard with an integrated worksurface in laminate.

**Occupancy light** is available as an option. When the phone booth is in use, the occupancy light will illuminate red. When not specified, a blanking plate will be included as standard.

### Space Layout Constraints

**Do not obstruct exit corridor.** Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

### Electrical Connections

**Hardwired units:** Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

**The assembly directions and user guide** describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 or 20 Amp connection. The maximum loading of the components within the enclosure is 0.78 Kilowatts.

**Cord and plug units:** The unit is provided with a flexible power cord which is to be plugged directly into a building's hardwired electrical receptacle. A minimum spacing of 4" between the receptacle and the assembled unit is needed to protect the plug from damage. Cord length will be 72" when specified. Cord will always exit the rear base of the booth.

### Electrical Components

**Occupancy sensor** activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering. One minute after the booth is vacated, all features will power down.

**One LED light panel** is used for illumination. The light is 6500K with a max brightness of 1229.5 lumens. The facility light level is able to be set through a dim control switch in the electrical assembly in the ceiling (not user accessible).

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

On the Q.T.

On the Q.T.

**When selected**, unit includes two power outlets. Each outlet will supply 3 Amps max with a total of 4.5 Amp max draw collectively.

### Airflow and Handling

**The air handling ventilation system** is designed to provide a minimum of 10 air changes per hour when the unit is occupied, per Business & Institutional Furniture Manufacturer's Association (BIFMA) Guidance for Pods (2020) and American Society of Heating Refrigerating and Air Conditioning Engineers (ASHRAE) 111 Testing, Adjusting, and Balancing of Building HVAC Systems.

**On the Q.T.** has been designed to perform 19 air changes per hour (ACH).

**Ventilation fans** are rated at 18.5 CFM and 38dBa.

*Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.*

### Building and Fire Code Compliance

**Seismic considerations:** For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

**Fire suppression:** Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

**Fire alarms:** National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

**Energy efficiency:** ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

## Product Details

**Two-tone contrasting upholstery option** is available through specifying inner and outer contrasting colorways.

*Tip: Inner/outer selection must stay in the same fabric family.*

**Patterned fabric** works best when specified on the seat only. Patterns should be avoided on the upper and lower body due to predominant double stitch seams making pattern matching unachievable.

**Reveal seam** matches seat as standard but can match body finish or "other." Other allows specification to be independent of the seat and body finish selection.

*Tip: Reveal seam not allowed to match seat when patterned.*

*Tip: Reveal seam may only be vinyl if body is also vinyl.*

## Power and Media

**Power** integrated in lower screen when optioned on media den units.

**72" cord length** exits through bottom of lower screen and comes fitted with a standard NEMA 5–15 plug.

**Tilting monitor brackets** available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

**Wire channel and grommet** are located in the upper screen for cable management.

#### Product Details

**Patterned fabric** works best when specified on the seat or inner back only. Patterns should be avoided on the outer back and screen due to predominant double stitch seams making pattern matching unachievable.

**Contrasting upholstery option** possible through specifying each surface independently.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

**Away from the Desk**

Away from the Desk

Away from the Desk

## Power and Media

**Power** can be optioned in tabletops, table bases, and arms.

**72" cord length** exits through base of the tables and arms and comes fitted with a standard NEMA 5-15 plug.

**Tilting monitor brackets** available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

## Application Topics

**Handedness of units and connection points** are determined based on the user sitting position.

**Arms** can only connect the outer most ends of a configuration.

**Tables** can connect to the center of a single unit or at the junction between units.

**Dedicated tables AD-71 and AD-72** can only be specified for use with 90° and 120° units respectively.

## Surface Materials

### Table tops

- Low-Pressure Laminate
- High-Pressure Laminate
- Open Line laminate

### Upholstery

- Fabric
- COM (Customer's Own Material)

*Tip: This product does not use glue due to the environmental impact. Because of this, occasional dressing of the upholstery may be required.*

# Kirn

**Kirn** is an all-mesh task chair designed with simplicity in mind.

► Specifying, pages 192–194

**Mesh back and seat** composed of 84% polyester, 15% polyamide, and 1% elastane.

**Arm height** adjusts within a 4" range through seven locking positions.

**Casters** have 2<sup>1</sup>/<sub>2</sub>" hard, dual wheels that roll smoothly on carpets. Soft casters available for use on hard floors. Roll control casters and 2<sup>3</sup>/<sub>4</sub>"H glides also available.

**Back frame and seat shell** are plastic.

**Seat height** adjusts within a 7" range through use of the right-hand control lever. Kirn counter height range is 10".

**2D arm pads** can pivot independently 30° inward to accommodate individual user preferences.

**Seat depth** adjusts within a 2<sup>3</sup>/<sub>4</sub>" range through use of the left-hand control lever.

## Product Details

**Suspension mesh** offers flexible, three-dimensional support while the open mesh assists in heat dissipation.

**Additional adjustable lumbar support** can be specified with an air-cell lumbar accessory that delivers 3" of height and 3/4" of depth adjustment. The fixed volume air cell uses air displacement to maintain optimum support, providing constant lumbar contact as the user moves.

*Tip: Lumbar accessory will match finish of chair frame.*

**The back of Kirn** has a 20° recline range of free movement. An optional travel limiter can be specified to lock the recline in one of three positions:

- 10° upright recline
- 26° mid recline
- 30° full recline

## Actual Dimensions

	Depth	Width	Height	Seat Depth	Seat Width	Seat Height	Weight
<b>OBKIRNHBA</b>	25"	28"	41"	16"–19"	19"	16"–23"	27 lb
<b>OBKIRNHBB</b>	25"	28"	41"	16"–19"	19"	16"–23"	27 lb
<b>OBKIRNHBAH</b>	25"	28"	48"	16"–19"	19"	16"–23"	27 lb
<b>OBKIRNHBBH</b>	25"	28"	48"	16"–19"	19"	16"–23"	27 lb
<b>OBKIRNHBCA</b>	25"	28"	51"	16"–19"	19"	27"–37"	27 lb
<b>OBKIRNHBC</b>	25"	28"	51"	16"–19"	19"	27"–37"	27 lb

**Kirn's arms** move with the back and are capped with pads made of soft thermoplastic polyurethane (TPU) in black.

**Headrest models** are available. The headrest will match the frame and mesh of the back.

## Adjustment Features

### Seat Adjustments

**Armless models** are available.

**Foot ring** is standard on counter height stools.

**Seat height** is adjusted when sat in the chair. Pull the right-hand control lever out and either apply pressure to lower or slightly lift pressure to elevate. Release the control lever to lock the seat at the desired height.

**Seat depth** is adjusted when sat in the chair. Pull the left-hand control lever up and slide the seat forwards or backwards into the desired position. Release the control to lock the seat at the required depth.

### Back Adjustments

**When the travel limiter is specified**, rotate the plastic control paddle on the left-hand side forward to lock the chair in the upright position. Push the control paddle backwards through two click positions to adjust the chair's recline movement to one of two limited angles.

**When the adjustable lumbar accessory is specified**, reach around the back of the chair and grip the lumbar strap; slide up or down to adjust the height. Rotate the central dial to fine-tune the depth. *Tip: To help maintain the natural 'S' shape of the spine, the lumbar pad should support the small of the back.*

### Arm Adjustments

**To adjust the armrests**, take hold of the plastic stem and lift upwards; the armrest will incrementally click through seven positions until it reaches the top. Lifting further will allow it to travel freely to the base position once again.

**The standard 2D armrests** have an inward rotation of 30°; simply rotate the arm pad to the desired position. The arm pads never fully lock and are free to rotate.

**The optional multi-adjustable armrests** have an inward rotation of 30° and an outward rotation of 180°. Using the control under the front of the armrest, pull forward while simultaneously rotating to the desired position. For safety, the armrest will automatically lock when returned to the forward position. The arm pad can rotate an additional 30° (around the front pivot point) to provide additional width adjustment.

## Surface Materials

### Mesh

- For PL196 effective 11/15/21, an additional 4.9% increase is required.

## Cubb Seating

# Cubb Seating

**Cubb seating** is a succinct range of chairs and stools with a clear personality, delivering robust functionality for any environment. ▶ Specifying, pages 195–208

**Upholstered arms.**

**Wood legs** made of solid white oak with glides.

**Metal chassis** secure legs to each other as well as seat shell.

**Wire arms** designed to complement wire frame base.

**Wire frame base.**

**Plastic glides** suitable for all surfaces.

**Seat shell** is gently curved, offering integrated lumbar support.

**Trestle base** allows 360° of swivel and is available in polished chrome or black.

**Hard glides** are standard. Soft glides available as an option.

**Gas lift** allows for travel up to 5" of seat height adjustment.

**Five-star base** available in polished chrome or black.

**Casters** are 2½" in diameter. Hard casters for use on carpet as standard.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

## Product Details

**Cubb seating** utilizes the same core seat with a combination of two arm options and four base styles.

**Both the trestle and five-star base options** swivel 360°.

**A foot rail cover** is available as an option on wire base stool.

**Two-tone contrasting upholstery option** is available.

*Tip: If two-tone upholstered option is selected, contrasting price groups are available. Total seat finish and outer seat finish price is driven by highest price group selection.*

**Cubb seating** does not stack.

**Armless seat on wood base** available as bar height stool.

*Tip: Foot rail finish will match that of chassis.*

**Armless seat on wire frame base** available as bar height stool.

## Cubb Tables

# Cubb Tables

**Cubb tables** are a distinctive range of meeting and project tables with a laid-back, informal feel—great for any environment.

► Specifying, pages 211–227

**Meeting tables** sit 29"H and are available in widths ranging from 35" to 177".

**Worksurface** available with tapered edge detail as standard.

**Metal chassis** secure legs to each other as well as worksurface.

**Project tables** stand 41 $\frac{3}{8}$ "H and are available at 63", 82 $\frac{1}{16}$ ", or 102 $\frac{3}{8}$ "W.

**Footrail** designed to match the finish of the metal chassis.

**Leg channel** allows for cables to be managed seamlessly through any leg.

**Cables** provide additional stability and support.

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.

## Product Details

**Edge profile** is tapered as standard.

**Integrated power** available in all meeting and project table worksurfaces. All power cords are 10' long and available with either a standard three prong NEMA plug or hardwire.

**Round meeting tables** can accept a single centrally located round face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets

**Square meeting tables** can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets

**Small, rectangular meeting tables** can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 3 power, 1 dual USB-A outlets
- 2 power, 2 dual USB-A outlets
- 3 power, 1 dual USB-A, and 1 USB-C outlets

**Medium and large rectangular meeting tables** can accept multiple rectangular face power units in the following configurations:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 3 power, 1 dual USB-A outlets
- 2 power, 2 dual USB-A outlets
- 3 power, 1 dual USB-A, and 1 USB-C outlets

- This Specification Guide reflects PL192.
- For PL194 effective 8/16/21, a 4.9% increase is required.
- For PL196 effective 11/15/21, an additional 4.9% increase is required.
