

EDI in the Cloud for Microsoft Dynamics 365 Business Central

BENEFITS

- Ideal for manufacturers, distributors and other businesses that need to quickly and accurately fulfill and ship B2B and/or B2C orders based on specific requirements.
- A complete, cloud-based EDI solution especially for Dynamics 365 Business Central, developed and supported by one trusted source.
- Robust integration automates the processing of inbound orders and outbound order acknowledgments/sales orders—eliminating manual effort to save time, reduce errors and improve your vendor scorecard.
- Automatically send invoices and posted invoices to complete the order-to-cash cycle. Credit memos and posted credit memos are also supported.
- Critical process controls like unit price verification and duplicate order checking validate transactions to prevent errors and chargebacks from trading partners.
- Makes EDI a strategic investment that enhances competitiveness and pays for itself again and again by saving you time, effort and money.

INTEGRATE EDI AND ERP TO INCREASE AUTOMATION AND EFFICIENCY

For manufacturers, distributors and other supply chain partners using Microsoft Dynamics 365 Business Central, TrueCommerce offers a complete, cloud-based EDI solution that makes it easy and affordable to comply with customer requirements. Our seamless integration with Business Central automates time-consuming manual tasks to streamline sales order processing, making EDI a strategic investment that delivers competitive advantage and rapid, ongoing ROI.

With an easy-to-use interface, low total cost of ownership and on-demand scalability to handle growth and seasonal demand spikes, TrueCommerce helps you keep orders flowing—so your business can focus on new opportunities and process more orders without adding staff.

Now you can automate many everyday tasks associated with your EDI sales channel, such as creating sales orders in Dynamics 365 Business Central from incoming purchase orders, and sending invoices and PO acknowledgements to your customers. No more rekeying information! You can even create new customer accounts "on-the-fly" as you process drop-ship, eCommerce or B2B orders using EDI.

Built-in process controls further improve order accuracy and eliminate chargebacks from customers by ensuring that unit pricing, purchase order numbers and items are validated before processing transactions to Dynamics 365 Business Central. TrueCommerce will even alert you to invalid fields before sending transactions.

Like your cloud-based Dynamics 365 Business Central ERP, TrueCommerce gives you all the advantages of a cloud-hosted deployment, including anytime/anywhere access, simplified maintenance and IT cost savings. We also offer best-in-class, hands-on service and support that includes automatic updates to your trading partner maps at no additional charge. Plus, there are no annual contracts and no maintenance fees to worry about.
