#### Safety Information

# SAVE THESE INSTRUCTIONS READ ALL INSTRUCTIONS BEFORE USE

To reduce the risk of injury, read the following safety instructions before assembling and use the gazebo:

- 1. This product is intended for outdoor use only.
- 2. The product should be assembled on a flat stable surface.
- 3. Do not assemble the gazebo on unstable surfaces.
- Ensure the location and clearance of your gazebo is acceptable.
- The gazebo must be anchored with stakes into the ground for added safety. It is recommended that it should not be permanently attached to a concrete floor or platform.
- Arrange the necessary manpower when assembling or moving the product.
- 7. Some parts may contain sharp edges. Wear protective gloves and glasses if necessary.
- 8. Keep children and pets away while setting up the gazebo.
- Check all nuts and bolts periodically for tightness. When required, tighten them again.
- Repairing and replacing parts should be done by a qualified technician.
- 11. The gazebo is intended for decorative and shade purposes only, and is not designed to withstand harsh weather, including high winds, rain and snow.

- If the product is not being used for long periods of time (e.g. winter), it should be stored in a clean, dry environment.
- Do not put a LP or Wood Burning firepit or fireplace inside the product.
- 14. Do not climb or place heavy objects onto the gazebo roof.
- Retain the original packaging to store and protect the gazebo during the winter months.
- 16. Do not use or enter the gazebo if the following conditions exists:
  - Visible movement of supports, roofing panels or a sagging roof.
  - b. Unusual noise from the gazebo.
  - c. Deformed roof panels.
  - d. Damaged or missing bolts/fasteners.
- Please check your HOA, Local, and State Governments prior to purchasing and assembling gazebo's. These local organizations may require permits and specific requirements for installation.
- 18. Maintain your instruction manual for future reference.
- 19. Warranty: Please retain you receipt for proof of purchase.

#### Warranty

#### **2 YEAR WARRANTY**

#### WHAT IS COVERED

This limited warranty is extended to the original purchaser and applies to defects in materials and workmanship of your item provided the item is maintained with care and used only for personal, residential purposes. The item is warranted to be free from defects in material or workmanship for a period of 2 years.

#### WHAT IS NOT COVERED

We do not reimburse for transportation of delivery costs, or compensate the individual or any outside party for assembling or disassembling the product.

Contact the Customer Service Team at 1-800-841-1350 or visit www. Hamptonbay.com.

Production Number: 2021200028/ 2021100455

#### **Pre-Assembly**

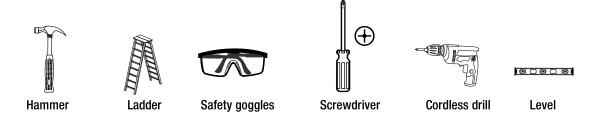

#### **PLANNING ASSEMBLY**

Before beginning assembly of this product, make sure all parts are present. Compare parts with the Hardware Included and Package Contents lists. If any part is missing or damaged, do not attempt to assemble the product. Contact customer service for replacement parts.

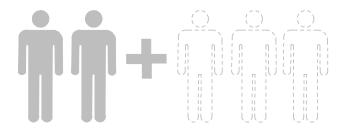

NOTE: Tools and protective articles below are not provided.

#### **TOOLS REQUIRED**

#### **IMPORTANT**

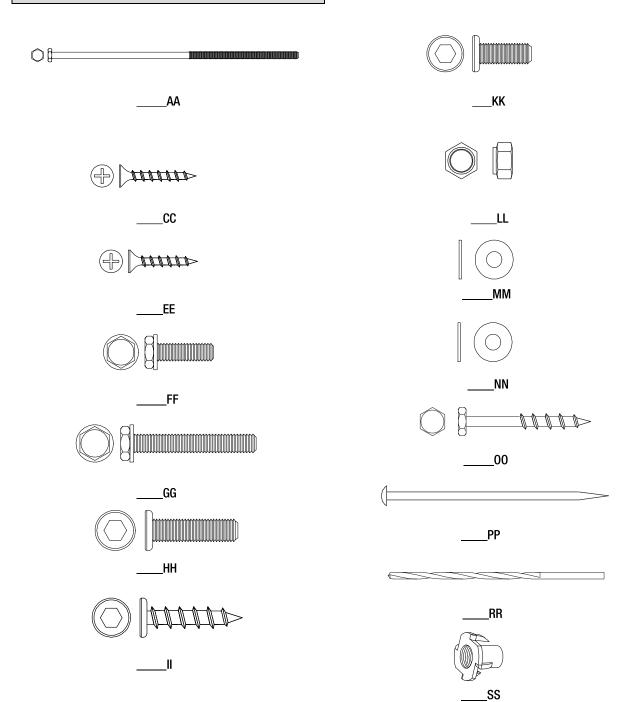

Requires at least 5 person for the installation work. Approximate installation time: 3.5 hours.

#### **HARDWARE INCLUDED**

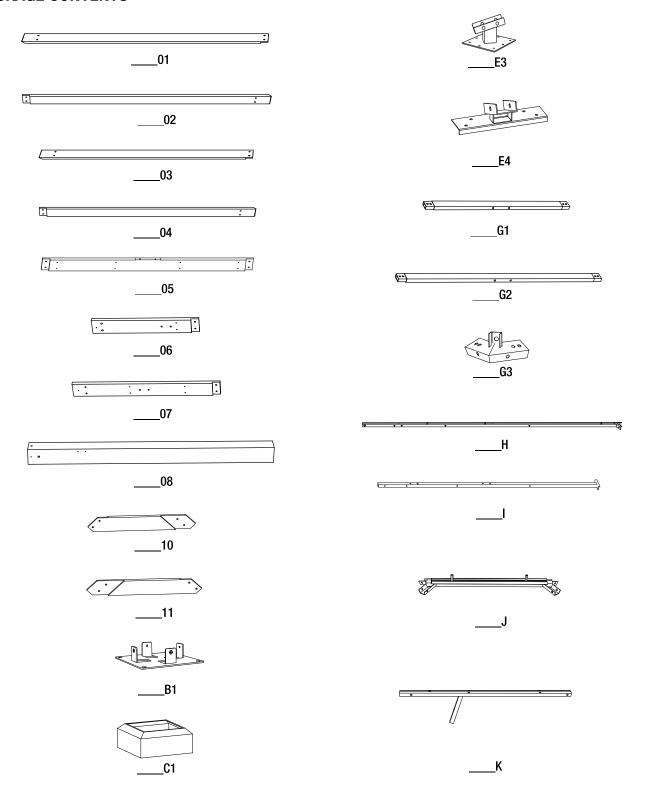

**NOTE:** Hardware not shown to actual size.

### **Assembly**

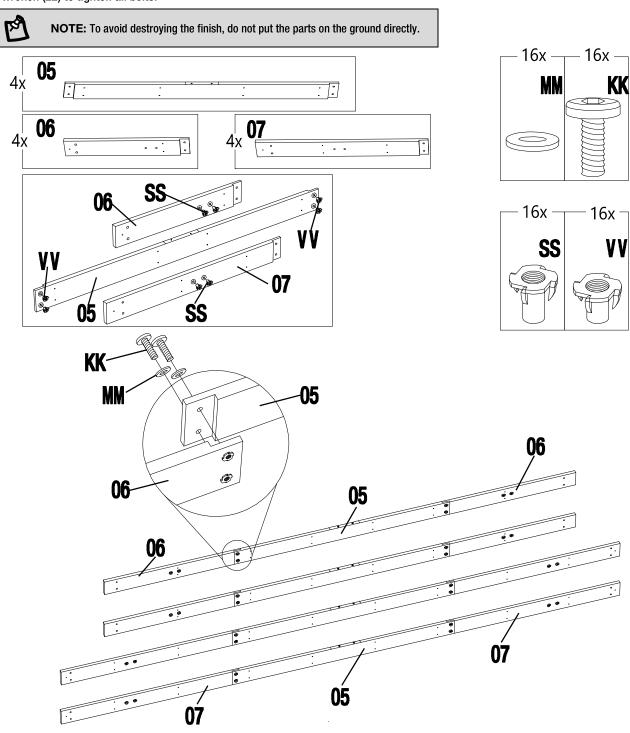

### **1** Attaching the Post

Insert the post (08) to the base cover (B1). Attach the base (C1) to the end of the post (08) using screws (EE). It is suggested to pre-drill holes for easier installation of the base.

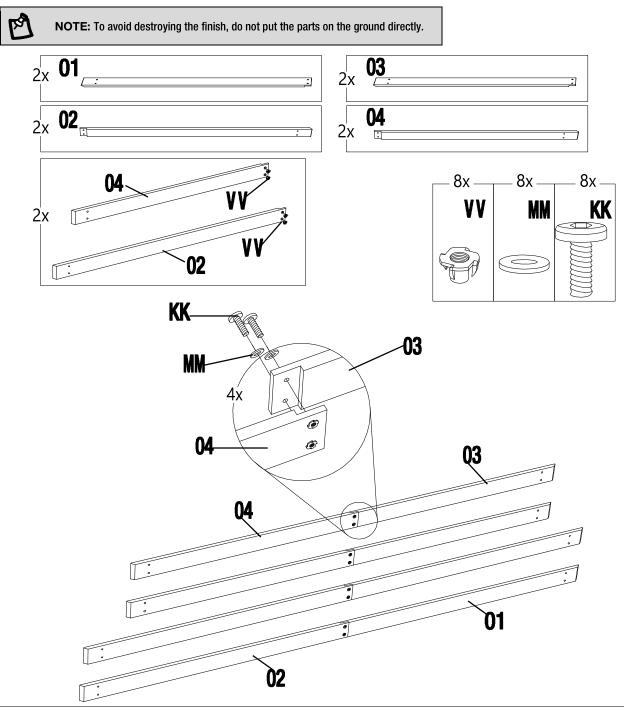

### **2** Connecting the Inner Beams

Install the nuts (SS/VV) into the beams (05/06/07), then connect the beams (05/06/07) using bolts (KK) and flat washers (MM), use alley wrench (Z2) to tighten all bolts.

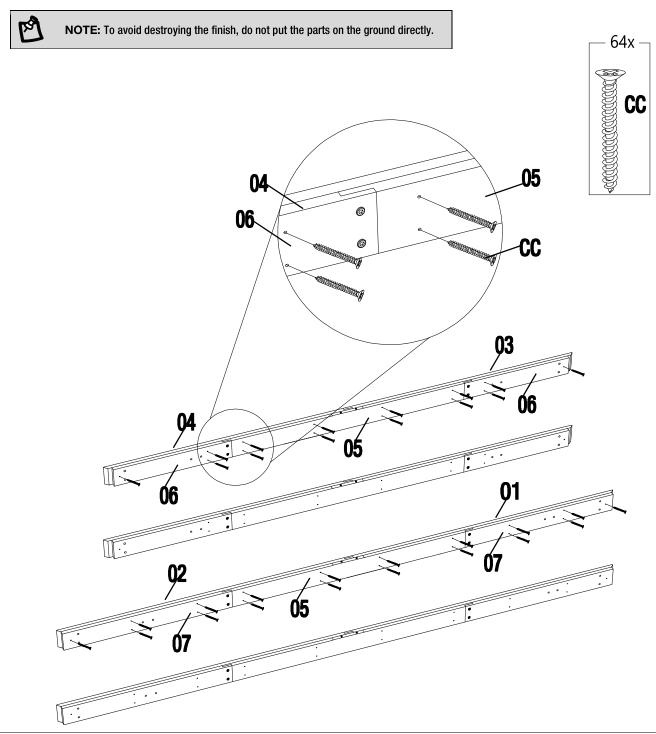

### **3** Attaching the Outer Cross Beams

- □ Install the nuts (VV) into the beams (04), then connect the beams (03/04) using bolts (KK) and flat washers (MM), use alley Wrench (Z2) to tighten all bolts.
- □ Install the nuts (VV) into the beams (02), then connect the beams (01/02) using bolts (KK) and flat washers (MM), use alley wrench (Z2) to tighten all bolts.

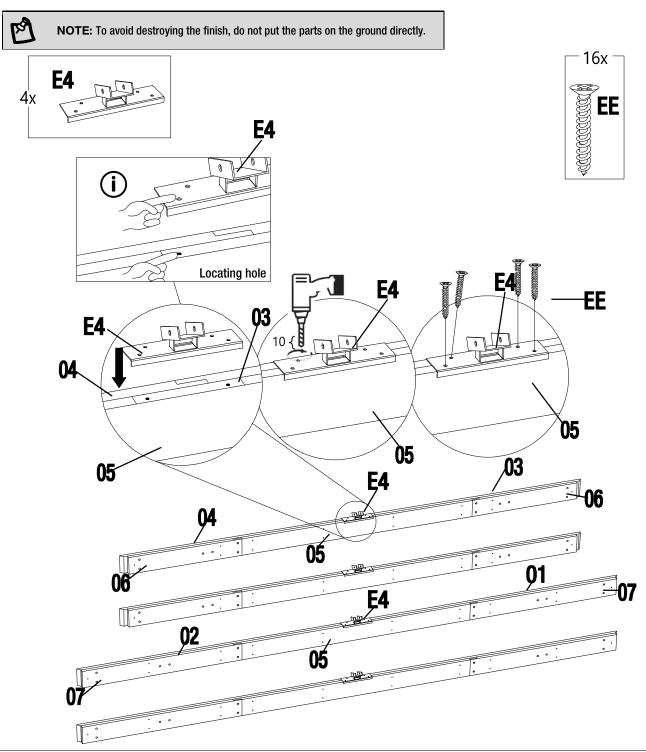

# 4 Attaching the Cross Beams

 $\Box$  Connect the assembled outer beams (01/02&03/04) with the assembled inner beams (05/06/07) using screws (CC) as below drawing. Tighten the bolts.

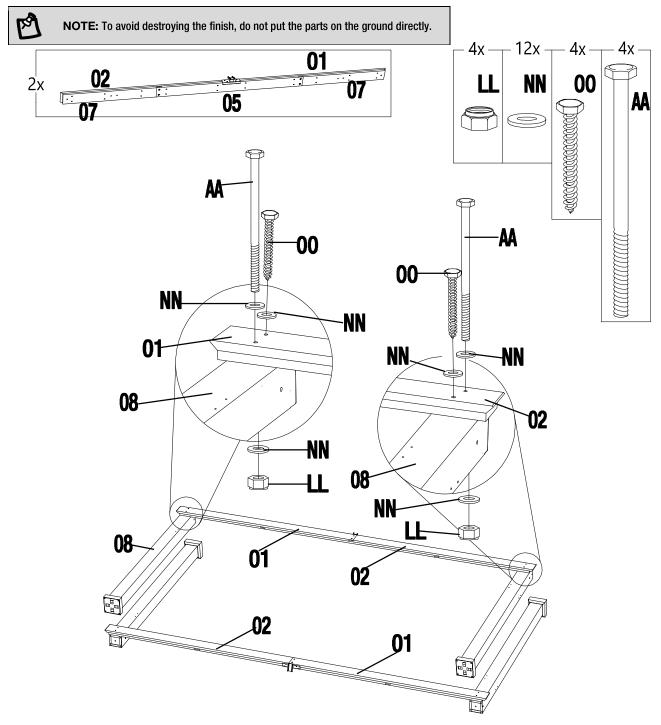

### **5** Attaching the Middle Beam Connector

□ Attach the middle beam connector (E4) to the assembled cross beams (01/02/03/04/05/06/07) using screws (EE). Tighten the bolts.

# 6 Connecting the Long cross beam and Post

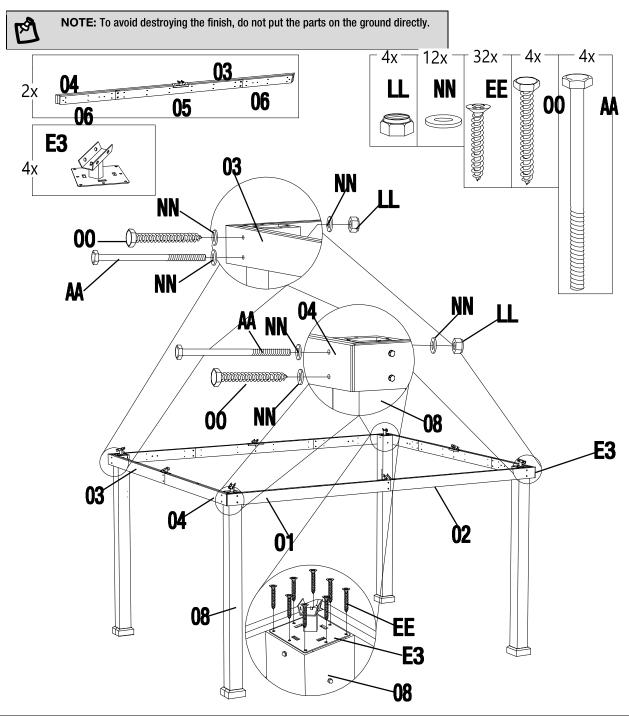

Attach the assembled long cross beams (01/02/05/07) to the post (08) using bolt (AA), bolt (00), washer (NN) and Nut (LL), use alley wrench (Z4) to tighten all bolts.

17

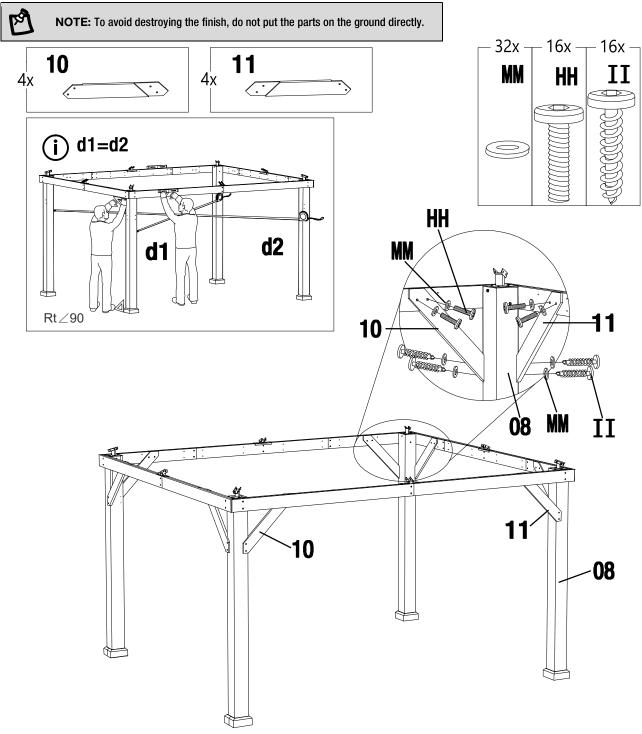

### 7 Attaching the Short cross beam and Slanting beam connector

- Attach the assembled short cross beams (03/04/05/06) to the post (08) using bolt (AA), bolt (00), washer (NN) and Nut (LL), use alley wrench (Z4) to tighten all bolts.
- □ Attach the slanting beam connector (E3) to the top of the post (08) using screw (EE).

### Attaching the Arc Support

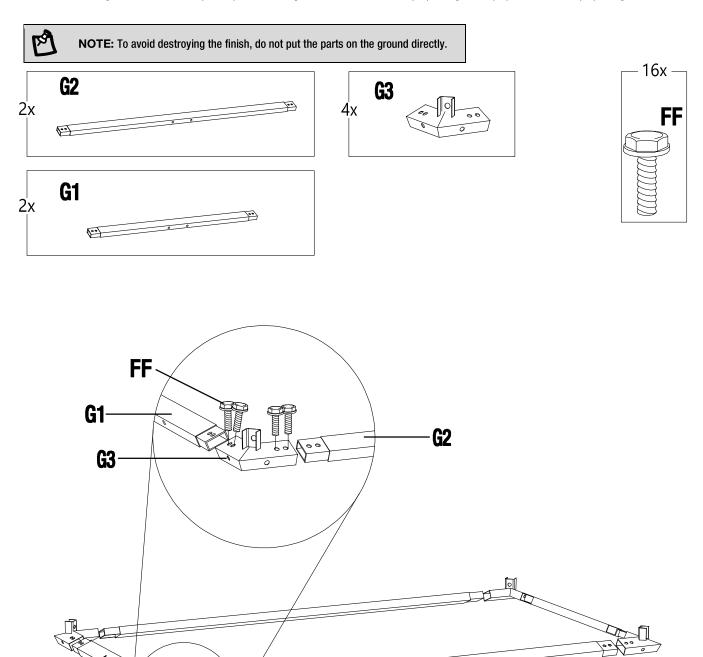

Attach the arc supports (10/11) to the post (08) and the cross beam using screws (II), bolts (HH) and flat washers (MM). Use alley wrench (Z2) to tighten all bolts.

19

# 9 Assembling the Big Roof Frame Long Tube

□ Connect the big roof frame tubes (G1/G2) with the big roof frame connector (G3) using bolts (FF). Use wrench (Z1) to tighten all bolts.

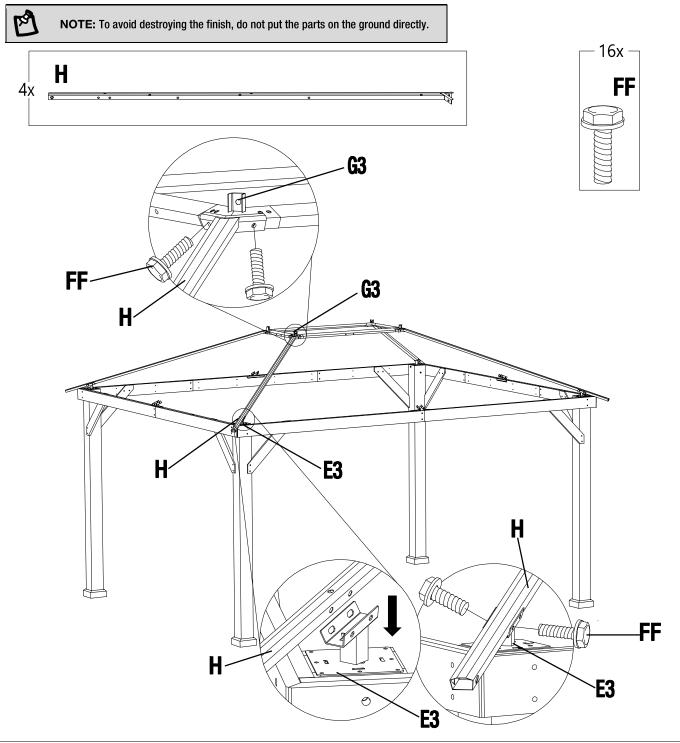

G3

**G2** 

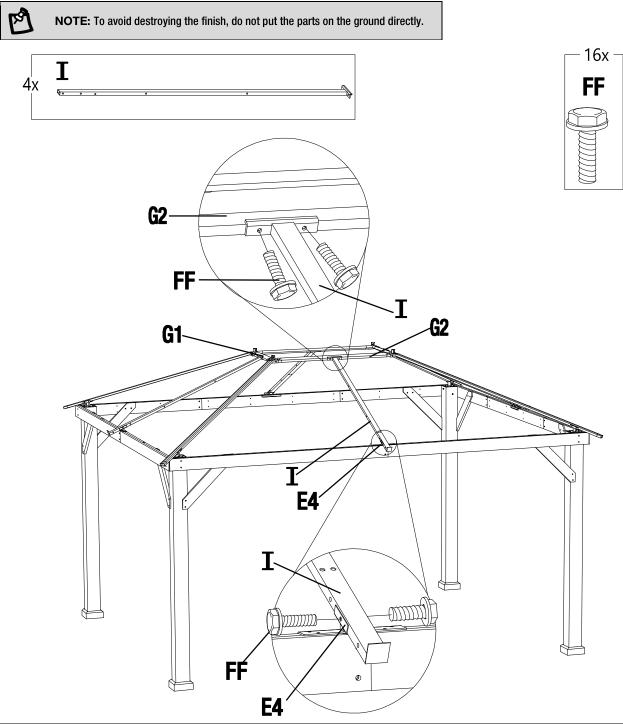

# 10 Assembling the Big Roof Slanting Beam

□ Connect the big roof slanting beam (H), big roof frame connector (G3) and slanting beam connector (E3) using bolts (FF). Use wrench (Z1) to tighten all bolts.

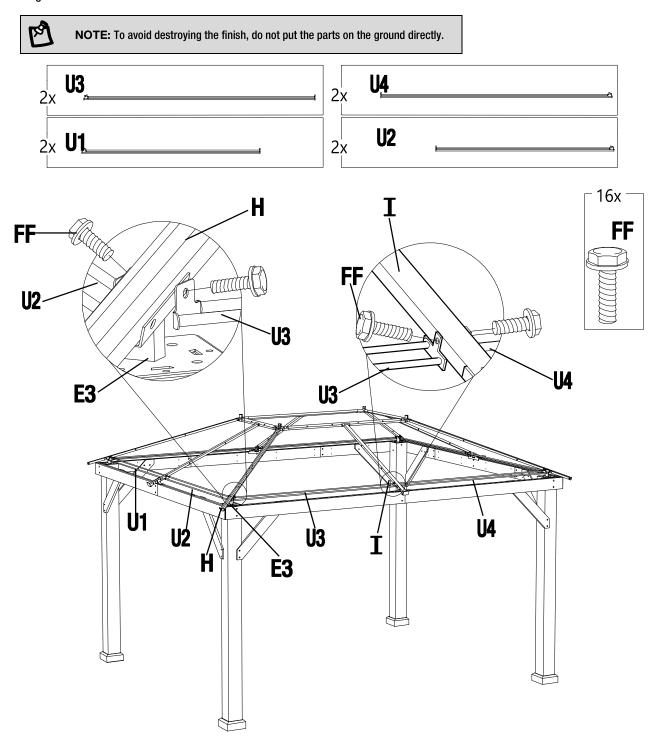

### 1 1 Assembling the Big Roof Middle Beam

Attach the big roof middle beam (I) to the big roof frame tubes (G1/G2) using bolts (FF), and attach the big roof middle beam (I) to the middle beam connector (E4) using bolts (FF). Use wrench (Z1) to tighten all bolts.

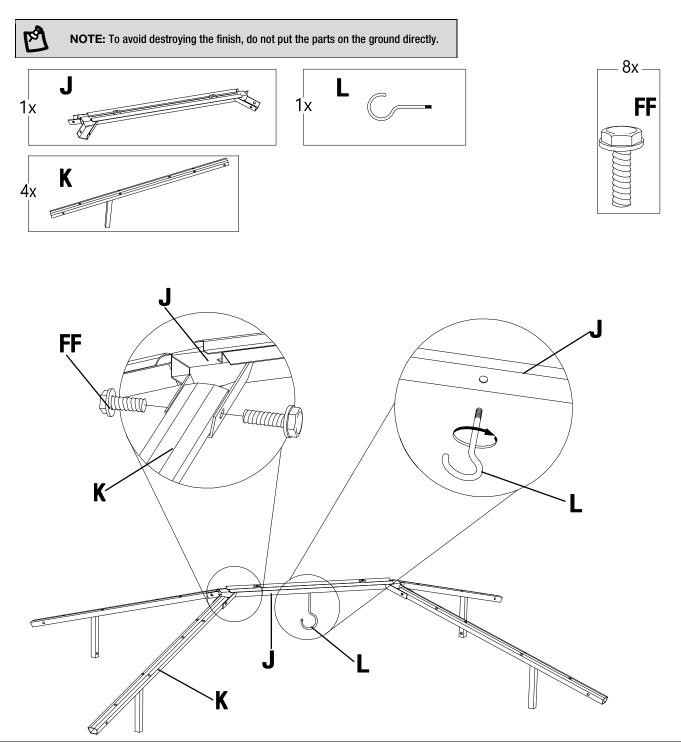

# **12** Assembling the Netting Tube

Attach the netting tubes (U1/U2/U3/U4) to the big roof slanting beam (H) and the big roof middle beam (I) using bolts (FF). Use wrench (Z1) to tighten all bolts.

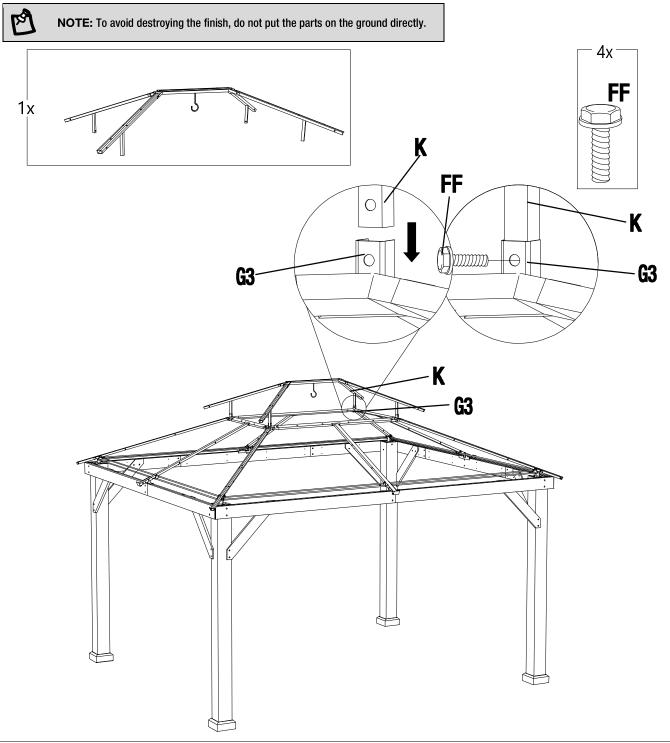

# 13 Assembling the Small Roof

Connect the small roof connector (J) and the small roof slanting beam (K) using bolt (FF), then Screw the Hook (L) to the small roof connector (J). Use wrench (Z1) to tighten all bolts.

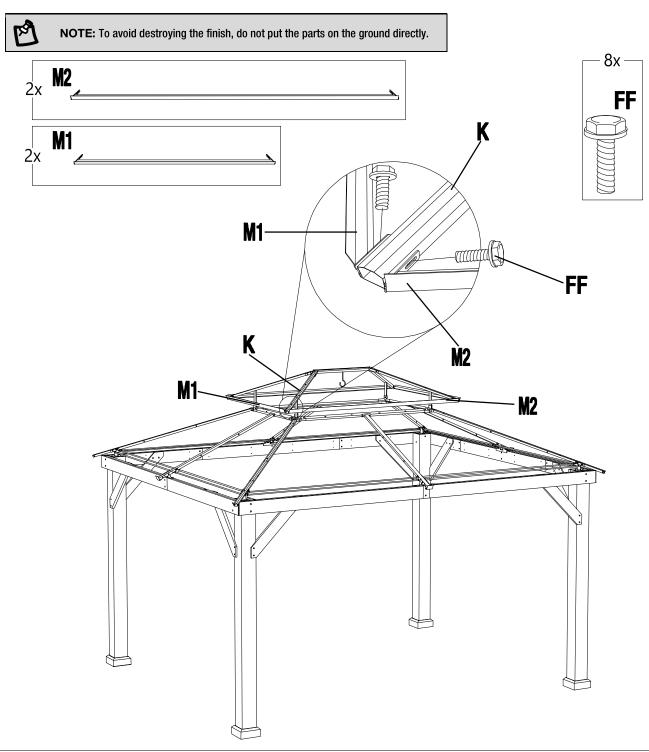

# **14** Attaching the Small Roof

□ Put the assembled small roof on the big roof, connect it with the big roof frame connector (G3) using bolts (FF). Use wrench (Z1) to tighten all bolts.

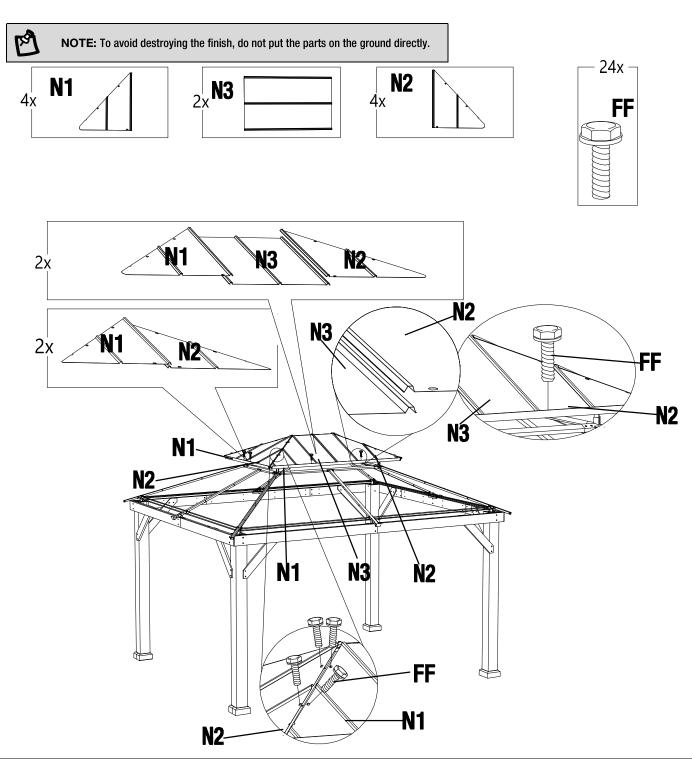

# 15 Attaching the Small Roof Bottom Beams

Attach the small roof bottom beams (M1/M2) to the small roof slanting beam (K) using bolts (FF). Use wrench (Z1) to tighten all bolts.

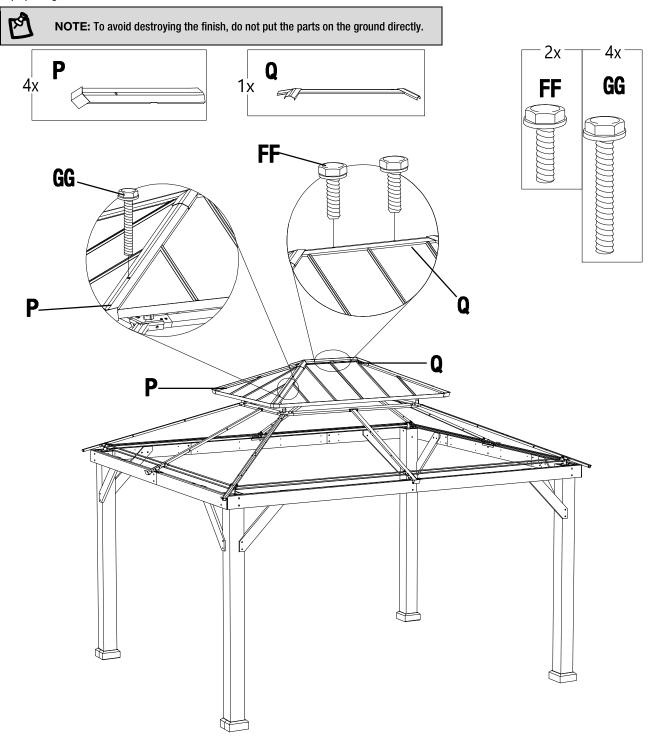

# 16 Attaching the Small Roof Panels

□ Attach the small roof panels (N1/N2/N3) to the small roof using bolts (FF). Use wrench (Z1) to tighten all bolts.

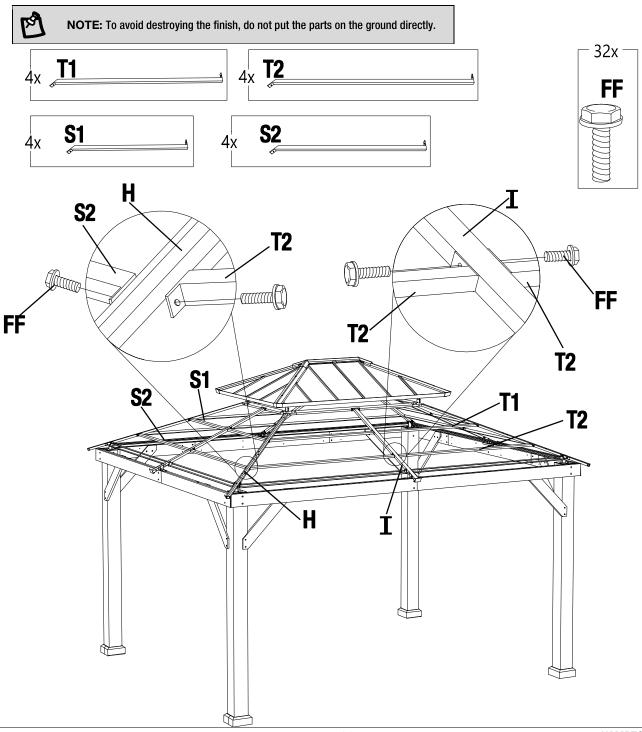

# 17 Attaching the Small Roof Slanting Beam Cover

Attach the small roof slanting beam cover (P) to the using bolts (GG) small roof top cover (Q) to the small roof using bolts (FF). Use wrench (Z1) to tighten all bolts.

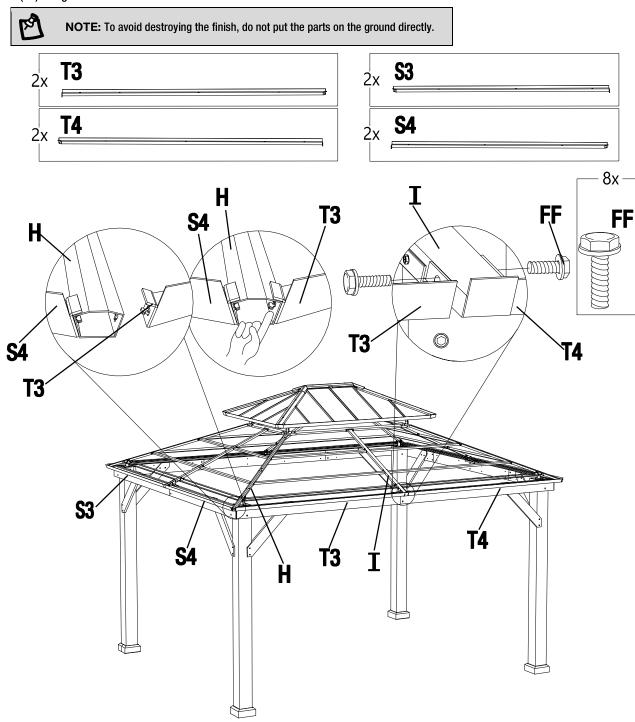

# 18 Attach the Big Roof Short Small Beam

Attach the big roof short small beam (T1/T2/S1/S2) to the big roof slanting beam (H) and big roof middle beam (I) using bolts (FF). Use wrench (Z1) to tighten all bolts.

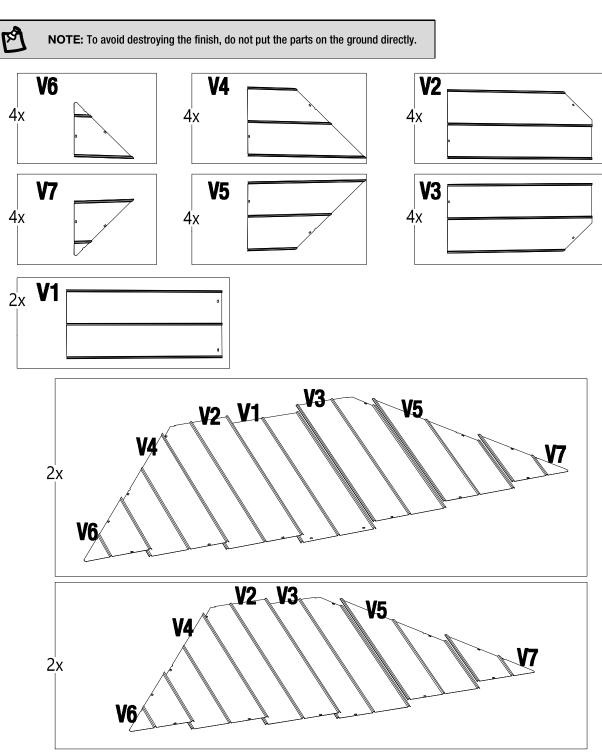

# 19 Attaching the Big Roof Bottom Beams

Attach the big roof bottom beams (S3/S4/T3/T4) to the big roof slanting beam (H) and big roof middle beam (I) using bolts (FF). Use wrench (Z1) to tighten all bolts.

# **20** Placing the Big Roof Panels

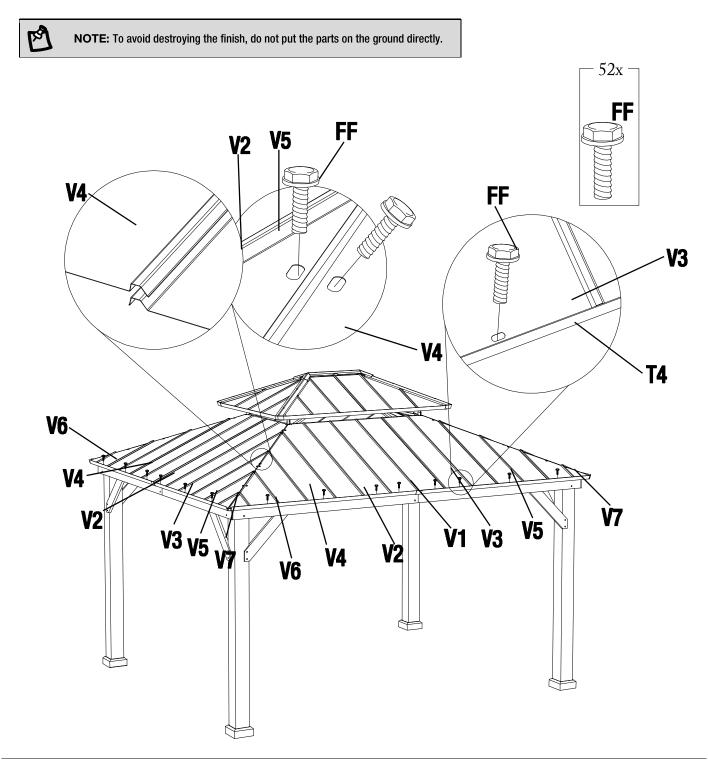

□ Place the big roof panels (V1/V2/V3/V4/V5/V6/V7) from left to right.

31

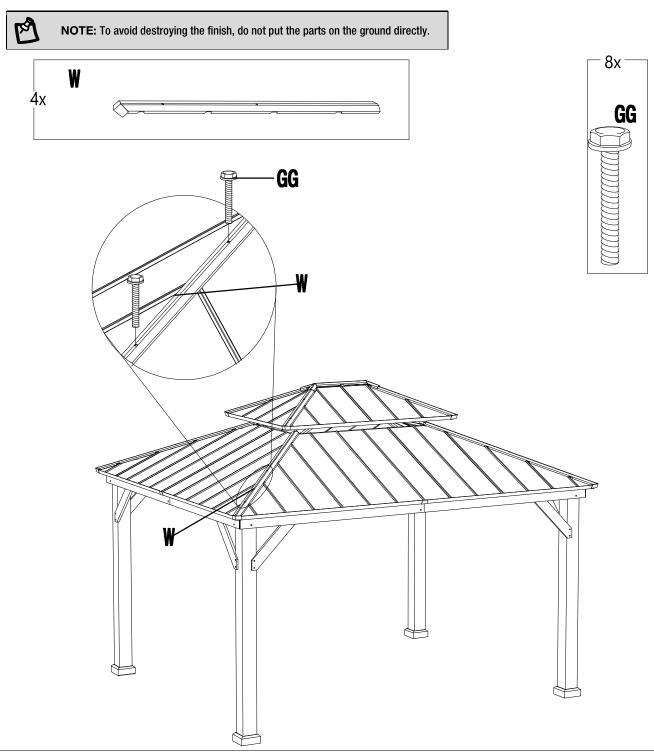

# 21 Attaching the Big Roof Panels

□ Attach the well-prepared big roof panels (V1/V2/V3/V4/V5/V6/V7) to the big roof using bolts (FF). Use wrench (Z1) to tighten all bolts.

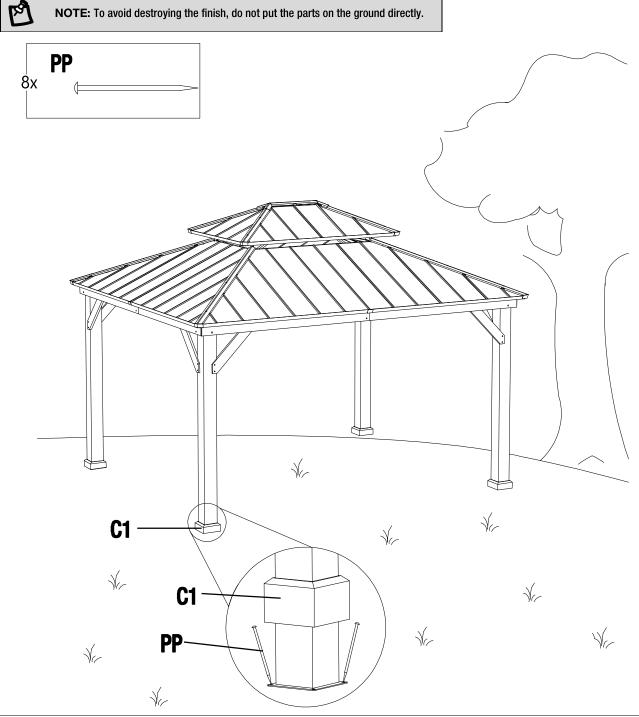

# **22** Attach the Big Roof Slanting Beam Cover

Attach the big roof slanting beam cover (W) on the big roof using bolts (GG). Use wrench (Z1) to tighten all bolts.

# **23** Attaching the Stake Bases

- □ Lift the base covers (B1) and secure the assembled gazebo using stakes (PP).
- □ It is recommended to anchor on wood or concreate surface for more stability using setscrew (Purchased separately).

# **Care and Cleaning**

Check all screws and nuts periodically for tightness, fastening them again as required.
Disassemble the gazebo in the reverse order of the assembly steps. Always disassemble the gazebo completely. A partially disassembled gazebo is not stable enough to resist wind and bad weather, and therefore can be damaged and/or cause damage.
Clean the gazebo with mild soap and water. Rinse thoroughly and wait until the product is dry before reassembling it.
Snow must be cleared off regularly during snowy days. Remove the snow at the roof top when it is thicker than 2 inches. In order to avoid damage, use a plastic snow rake to remove excessive snow and ice buildup from roof and keep away from falling debris.
Do not use bleach, acid, or other abrasive cleaners on the canopies or frame parts.
Steel components for this gazebo are treated with rust inhibiting paint it form rusting. However, due to the nature
of steel, surface oxidation (rusting) will occur if theses protective coatings are scratched. This is not a defect and
thus not covered by the warranty, To minimize this condition, it is recommended to use care when assembling and
handling the product to prevent scratching the paint. Should any scratching or damage occur, it is recommended
to cover the scratch immediately with rust inhibiting paint not included. Surface rust can also be easily removed
with a very light application of regular cooking oil or WD-40. If surface oxidation(rusting) occurs and if no measure
is taken to prevent this, the oxidation may start dripping onto deck or patio and caused damaging stains, which may
be difficult to remove. This can be prevented if the above-mentioned measures at taken to keep the product from
oxidizing.
Keep instruction manual for future reference.
Keep the original packaging to store the gazebo.
