TIMPTE CAMPUS
David City, NE

About Us

For over **135 years**, Timpette has been the leader in manufacturing transportation equipment and trailers. Our sole focus is designing and building products to satisfy the needs of our customers. Timpette trailers are light and dependable, and we personally build each one to make sure it does its job right. We are a company founded on **innovating transportation** to help people move equipment and product efficiently and more effectively. Headquartered in David City, Nebraska, on over 40 acres of campus with nearly 400,000 sqft. under roof, we take our Midwestern roots seriously, applying solid manufacturing principles and state-of-the-art technology to the industry's newest innovation in utility trailers.

From custom-building each trailer to service to replacement parts, we are there every step of the way to make sure owners get the most out of their investment. We don't just talk about delivering end-to-end ownership support – we live it. We're more than a trailer manufacturer: Timpette is a team of people working tirelessly to keep you on the road. These built-to-last, **aluminum constructed**, lightweight utility trailers deliver reliable and smooth performance that is easy to use and operate. Each trailer is equipped with our **powered EZ Load deck system** so ramps are no longer necessary for loading/unloading, making equipment transportation a breeze. From sports cars to hauling hay, we got you covered.

SPACE SAVING CAPABILITIES

Utilize trailer for added storage of equipment to save space while not in use.

1. Tool Box & Battery:

Aluminum constructed toolbox houses battery and trailer winch for Powered EZ Load Deck Lowering System. Keypad and master switch located on outside of box. Optional solar panel can be purchased and placed on top for charging of battery when not hooked to tow vehicle.

2. Safety Cables & Break Away Kit:

Connected to vehicle and crossed under the hitch. Breakaway kit will bring trailer safely to a stop by activating brakes should disconnect from tow vehicle occur during transit.

3. Tongue:

Six-inch aluminum C-Channel frame construction for increased strength and robust usage.

4. Lights & Electrical:

All weather-pack automotive style connection sealed to prevent corrosion. Standard LED lighting throughout and RV Style 7-way plug for tow vehicle connection.

5. Side Rails & Decking:

Extruded lightweight aluminum construction with more strength, lower empty weight and heavier equipment towing capability.

6. Leaf Spring Axle:

Provides even weight distribution, durability, and decreased tire wear.

7. Tires & Wheels:

14" premium aluminum wheels and ST205/75R14 tires. Optional spare tire and mounting systems available.

8. License Plate Holder:

Lightweight aluminum holder with LED light to illuminate license plate.

9. Swivel Tie Downs:

Four (4) removable locations comes standard on each trailer. Optional additional tie-downs can be purchased and installed to trailer deck.

10. Model Designation:

First number(s) in sequence depicts GVW classification. Final two numbers in sequence indicate trailer length.

***The trailer shown above is used for DEMONSTRATION purposes only with added options pictured. All referenced points are standard features on all Timpte Utility Trailer models.**

WHAT MAKES TIMPTE TRAILERS UNIQUE?

ALL ALUMINUM CONSTRUCTION

Aluminum has many advantages over steel as a trailer manufacturing material. Its vastly superior corrosion resistance will ensure your customer's trailer has lower maintenance costs, longer life, and higher resale value. Its lighter weight means it is easier to pull and improves tow vehicle gas mileage. TimpTE's proven, state-of-the-art manufacturing techniques ensure that your customer's new aluminum trailer will provide higher quality and overall durability compared to their steel counterparts.

EZ-LOAD POWERED DECK SYSTEM

TimpTE's unique suspension system enables the user to raise and lower the utility trailer by using a remote transmitter or keypad mounted on the included toolbox storage system. The patent pending design provides a 4-degree approach angle, enabling easy loading of equipment with minimal ground clearance; such as scissor lifts, sports cars, motorcycles, and so much more. No need to store or install separate loading ramps as the deck becomes your ramp. Battery power enables the user to operate the loading deck without being connected to the tow vehicle and an optional solar panel will charge the battery when power is not available through the RV plug.

SPACE SAVING DESIGN

Additional benefits of the EZ-Load powered deck system include the ability to use it to store your equipment. Simply place the EZ-Load deck in its fully lowered position and park your equipment on it.

THEFT PREVENTION

Your customer's ability to secure their new investment has never been easier. Users no longer require chains and padlocks to protect their trailer when not in use. Placing the EZ-Load deck in its fully lowered position, removing the master switch, and locking the toolbox ensures it will remain exactly where your customer left it.

REASONS TO BECOME A TIMPTE UTILITY TRAILER DEALER

Besides offering a truly unique utility trailer and exceptional overall value to the market, there are many other reasons why we would like you to consider becoming a Timppte utility trailer dealer:

PROVEN TRACK RECORD

While Timppte is just starting to recruit new dealers to support sales, warranty and aftermarket parts & service for our new utility trailer product line, we understand what it takes to establish and maintain mutually beneficial relationships with our valued distribution partners.

Timppte is the #1 selling hopper bottom trailer in North America and we have enjoyed this leading market position for the past 13 consecutive years! A major part of our success is our strong relationships with over 30 independent dealers located throughout North America. While the average tenure of our dealer relationships is over **14-years, many dealers have been representing the Timppte brand for over 20-years.**

“EASY TO DO BUSINESS WITH”

Timppte’s proven track record was achieved by ensuring that our Dealers view Timppte as “easy to do business with”.

- **Dedicated Dealer Sales Representative** – We dedicate one person as your direct contact for your dealership so that they can understand your businesses needs.
- **Direct Access** - At Timppte we give you direct access to all of our departments including engineering. Many Timppte employees have 25+ years of service and can answer any question in a timely manner.
- **Easy Warranty Policy** – We stand behind our products with the easiest 3 year “Peace of mind Warranty” in the industry. We understand that things can happen however we like to get them resolved quick and easy

EXCELLENT PRODUCT AVAILABILITY

We build every trailer in David City, Nebraska at our state-of-the-art manufacturing plant covering over 40 acres and is vertically integrated providing you with a consistent product that is built on time. We cut, bend, weld, and assemble every trailer using only the finest materials, while applying solid manufacturing principles to produce the industries best utility trailers. Built on Midwest pride our people understand that **quality and timely delivery** go a long way.

NEW PRODUCT DEVELOPMENT

In 2008, Timppte took an unprecedented step by adding our very own research and development team dedicated to improving and testing our new products. Since then, we built a dedicated building focused on these efforts, with the R&D center was designed to speed up product development by having it’s very own dedicated team that live and breath new products day in and day out. The new R&D center is located on the David City Campus so that if changes need to be made they can be implemented quickly through direct communication.

Having our focus on the future ensures that you’re going to be getting the best quality product and new cutting edge product designs to sell backed by a warranty that’s unmatched in the industry.
