As a DJO Global brand, DonJoy pioneered the concept of functional knee bracing over 30 years ago. We've led the profession of performance ever since by studying the body, listening to athletes, consulting physicians and pushing the envelope of innovation. Today, DonJoy braces are standard equipment for competitors in over 44 countries. They count on us to create world-class products, while medical professionals look to us for unmatched service and in-depth education. The result – complete confidence for those who wear DonJoy braces, and those who prescribe them.

In addition to fast and accurate delivery, you can expect a friendly and knowledgeable Customer Care Representative to take your order and answer any questions. We look forward to serving you between the hours of 4:30 a.m.- 6 p.m. PST.

How To Order

To order, contact Customer Service by:

- Phone:** 1-800-336-6569
(1-800-3-DONJOY)
- Email:** customer.care@djoglobal.com
- Fax (24 hours a day):** 1-800-936-6569
(1-800-9-DONJOY)
- Product Specialists:** 1-888-405-3251
Contact the DJO Product Specialists for assistance with brace recommendations, brace fitting and application, troubleshooting, and for product instruction.

Questions We Will Ask

Your Account Number:
If you do not know your account number, the representative will be happy to look it up for you.

Product:
Please state the product number, size and quantity (description if available).

Other Important Information

- Administration:** 1-800-321-9549
- Statement or Account Inquiries:** 1-800-236-3715
(7 a.m.- 5 p.m. PST)
- Customer Care:** 1-800-336-6569

Shipping

Standard Product Orders* received before 1 p.m. Pacific Standard Time will be shipped within 24 hours and can be shipped for overnight delivery. For order tracking, go to: www.djoglobal.com/tracking.

*Standard Product Orders include Rigid Bracing and other off the shelf items.

Special Requirements

The majority of orders will ship within 24 hours. Custom products and special orders (logos, replacement parts, special measurements) will ship within 3 - 10 business days. Please contact Customer Care for product details.

Warranty

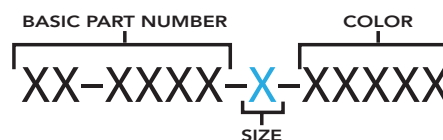

Products have a limited warranty from the date of purchase against defects in materials and workmanship. Warranty varies with some products. Please contact Customer Care with specific questions.

Return Policy

Before returning or exchanging any product, please call a Customer Care Representative for a Return Authorization Number. They will assist you with product specific return policies. Non-warranty returns will be accepted within 180 days from date of purchase and will be subject to a 15% restocking fee.

Sizing

1=XS, 2=S, 3=M, 4=L, 5=XL, 6=XXL, 7=XXXL, 9=Universal

Knee Ligament Bracing

Clinically Proven Brace and Hinge Technology

4-POINTS-OF-LEVERAGE SYSTEM™

DonJoy pioneered **dynamic bracing** with the 4-Points-of-Leverage System, a unique cuff and strapping configuration that provides a net differential posterior force to the tibia, preventing anterior movement. The result is significantly reduced strain on the ACL.¹ Passive brace designs don't actively address instabilities.

POINT OF LEVERAGE 1

The femur is anchored by a cuff placed at the top of the anterior thigh.

Dynamic brace design protects at **all times**

POINT OF LEVERAGE 4

A strap placed on the anterior tibia applies an active constant load to prevent anterior tibial translation.

3 POINT OF LEVERAGE

A strap across the back of the lower thigh pushes the femur anteriorly.

2 POINT OF LEVERAGE

The tibia is anchored by a cuff placed at the bottom of the posterior calf.

FourcePoint Flexion

FourcePoint Extension

FOURCEPOINT™ HINGE TECHNOLOGY

DonJoy has taken hinge design and ACL protection to another level with its patented FourcePoint technology; the only hinge design clinically proven to protect the ACL.²

FourcePoint Technology:

- Enhances DonJoy's 4-Points-of-Leverage System by dampening knee-joint extension and improving overall mechanical performance.
- Increases flexion angles (5°) while reducing shear forces (9%-13%)³ at the knee.
- Leaf spring mechanism applies gradual resistance, reducing time spent in the "at-risk" position (flexion angles < 60°).⁴
- Provides prophylactic benefits. Athletes who trained wearing a DonJoy 4-Points-of-Leverage brace equipped with a FourcePoint hinge were estimated to decrease their chance of non-contact ACL injury by over 50%.⁵

CLINICALLY-PROVEN PERFORMANCE

By combining 4-Points-of-Leverage with our FourcePoint hinge, DonJoy's bracing line offers the most widely accepted and clinically-proven solution for:

- Protecting a healing ACL graft
- Providing stability to an unstable ACL-deficient knee
- Prophylactic use

It's the powerful combination of performance and peace-of-mind that separates DonJoy from others and continues to make DonJoy the #1 brace company worldwide.

Introducing the World's First Knee Guarantee™

DJO is proud to stand behind the efficacy of the DonJoy bracing line by offering the world's first and only Knee Guarantee Program. If a new patient re-ruptures their reconstructed ACL while wearing a properly fitted custom Defiance/Defiance III within 1 year of purchase, DJO will pay a surgical insurance deductible up to \$1,000.

We're pleased to announce that two of our most popular prefabricated braces, Armor FourcePoint and FULLFORCE, have been added to the Knee Guarantee Program. DJO will pay a surgical insurance deductible up to \$750. Same patient requirements apply as stated above.

The brace must be purchased and registered within six months of surgery. Additional terms and conditions apply as detailed on www.donjoy.com/kneegarantee.

Defiance III® & Defiance III® Female Fource™

IDEAL APPLICATION: The Defiance III® represents DonJoy's flagship custom knee ligament brace, offering a perfect fit for extreme, water, contact, and non-contact sports. Indications include: hyperextension, moderate to severe ACL or PCL instabilities, ACL/PCL instabilities combined (CI), MCL/LCL instabilities, ACL or PCL reconstructions, prophylactic use. Female Fource is an advanced custom knee ligament brace designed specifically for females.

Ordering information

Each Defiance III is custom made.

Features & Benefits

- Clinically-proven 4-Points-of-Leverage System
- Backed by DonJoy's Knee Guarantee Program
- Custom fabricated
- Strong, lightweight carbon composite frame
- Swooping Thigh Cuff for inner thigh clearance and bilateral brace use
- Custom Graphics Kit (FemaleFource only)
- FemaleFource only offered with FourcePoint hinge
- Lifetime warranty on frame and hinges
- 24 hour turnaround time

Options

- Patented clinically-proven FourcePoint hinge technology (stop kit not included)
- Over 40 custom frame colors and graphics
- Defiance III Extra includes reinforced carbon composite frame
- PowerCaps—metal strap tab caps (recommended for contact sports)
- High strength stainless steel gears (recommended for contact sports)
- ACL, PCL, or Combined Instability (CI) strap configurations
- Standard or short frames available

Defiance - Standard Shape Thigh

IDEAL APPLICATION: Defiance is the foundation of DonJoy's custom bracing line. Offering a true custom fit, DEFIANCIE is recommended for extreme, water, contact and non-contact sports. Indications include: hyperextension, moderate to severe ACL or PCL instabilities, ACL/PCL combined instabilities (CI), MCL/LCL instabilities, ACL or PCL reconstruction and prophylactic use.

Features & Benefits

- Clinically-proven 4-Points-of-Leverage System

NON-METALLIC COLOR

METALLIC COLOR

CCMI Mark III - Custom Measurement Device

IDEAL APPLICATION: The Custom Contour Measuring Instrument (CCMI) is used to measure custom DonJoy Defiance and Defiance III braces. The device takes into account fourteen separate anatomical reference points from the patient's leg indicating thigh and calf circumference, thigh and calf contours, as well as knee width and varus/valgus.

Features & Benefits

- New sleek design to determine leg contour measurements for the construction of a DonJoy custom brace
- Retractable tape measures for quick and accurate measurements
- Standard and Short brace measuring options
- Easy to use and collapsible thigh and calf contour gauges

Osteoarthritis Bracing

OA Assist

Custom Adjustable OA Defiance®

IDEAL APPLICATION: DonJoy's premier Custom OA product. It is designed for the active OA patient, is extremely lightweight, and provides durable support for moderate to severe levels of osteoarthritis. The bilateral hinge bars offer support for ligament instabilities and work in conjunction with a patented telescoping condyle pad which puts the load control in the hands of the patient.

90 DAY TEST DRIVE

Braces that don't fit properly can be uncomfortable to wear, slip out of place, or produce excessive pressure that can lead to skin problems and soreness. DonJoy's custom and patient-ready OA braces accommodate most people and every brace comes with our no-risk TEST DRIVE offer.

If you are not 100% satisfied with your brace and it cannot be corrected by a DonJoy representative, return it for a full credit or refund within 90 days.

EASE OF USE

The Arthritis Foundation has honored every DonJoy knee osteoarthritis braces with its coveted "Ease-of-Use" Commendation after an independent research lab conducted rigorous testing to assure that they met the needs of people with functional limitations due to the effects of arthritis.

OA Adjuster™

IDEAL APPLICATION: The DonJoy OA Adjuster prefabricated knee osteoarthritis brace is clinically proven* to off-load the knee and is ideally suited for active patients with moderate to severe unicompartmental osteoarthritis, ligament instabilities or post-operative OCD rehabilitation. (* Matthew Nadaud et al. "In Vivo Three-Dimensional Determination of the Effectiveness of the Osteoarthritic Knee Brace: A Multiple Brace Analysis." Journal of Bone & Joint Surgery. 87:114-119, 2005.)

Features & Benefits

- 4-Points-of-Leverage™ System
- Lock and Off-Load Technology™ shifts compressive knee joint forces from the degenerative area to the healthy compartment
- Universal OA Key enables patient-controlled load adjustment to meet daily needs
- Floating Hinges allow a contoured fit with a double upright design

OA Assist

IDEAL APPLICATION: DonJoy's technologically advanced design combines a single upright frame and the 3DF hinge on the OA Assist. A patient-ready knee osteoarthritis brace that is ideally suited for activities of daily living.

Features & Benefits

- 3rd Degree of Freedom (3DF) hinge allows rotation on the calf cuff for an optimal fit. (+ / - 11° of rotation from the neutral position)
- Single upright frame with 3 point load that shifts compressive knee joint forces from degenerative area to healthy compartment
- Telescoping condyle pad (up to 6° of correction) enables patients to adjust load according to activity level
- Sili-Grip strap pads and liners promote brace suspension

Accessories	Description
11-0024-x	Ankle Stirrup, Right
11-0026-x	Ankle Stirrup, Left

Features & Benefits

- Tele-Fit allows independent strap movement proximal and distal of knee allowing an overall better fit
- Telescoping adjustability from 17 3/4" to 23 1/4"
- Quick-lock mechanism from (negative) -10° to 90°
- Quick release buckles
- Sili grip strap pads

Tele-Fit

TROM Adjuster

IDEAL APPLICATION: Create the optimal knee off-load with just a few turns. TROM Adjuster is the first post-op brace to offer controlled and consistent off-loading to create a better healing environment. This brace represents a comprehensive post operative solution for meniscal and chondral defect procedures.

Patellofemoral Bracing

Tru-Pull Lite

REACTION Knee Brace NEW!

IDEAL APPLICATION: Uses an innovative web approach for absorbing shock and relieving knee pain caused by Chondromalacia. Patellar Tendonitis/Tendinosis, general Patellofemoral tracking issues.

Features & Benefits

- Shock-absorbing web that shifts peak loads away from the painful area of the knee and stabilizes the patella on all sides to ensure proper tracking position.
- Flexible Dual-Axis Hinges that work in conjunction with the elastomeric web for optimal fit and support, providing energy dispersion to the knee
- Breathable Comfort from an open framework and mesh backing that makes this breathable and comfortable during use

Sizes Available – page 21

Tru-Pull® Lite™

IDEAL APPLICATION: Latest patented technology from the Tru-Pull family of products. For acute mild to moderate patellar subluxation or dislocation and maltracking.

Features & Benefits

- Bifurcated strap dynamically pulls the patella into proper alignment reducing pain associated with patellofemoral dysfunction
- Dual Durometer Butress System interfaces directly with the patella applying a consistent corrective force to reduce pain
- Independent anchors at the thigh and calf prevent rotation of the brace
- New anti-microbial, wicking fabric is hypoallergenic, breathable, and light weight—thereby increases patient comfort and compliance
- Set of removable plastic hinges included with every brace to provide medial and lateral stability

Ordering information

Part Number	Knee Design	Size
11-0260-x	Right Sleeve	XS – XXXL
11-0261-x	Left Sleeve	XS – XXXL

11-2293-x	Left Sleeve, popliteal cutout, hinges	XS – XXXL
11-1525-x	TruPull attachment to a rigid brace	XS – XXXL

Sizes Available – page 21

Features & Benefits

- Bifurcated, elastomeric strap dynamically pulls the patella as the knee extends
- Two Buttresses (¼" and ⅜") included, trimmable to provide superior, inferior, and lateral patellar stabilization
- Independent anchors prevent brace rotation
- Hinged version offers medial/lateral support and flexion/extension control

Tru-Pull Hinged Version

NEW! Hinged Lateral J

IDEAL APPLICATION: An improved design of a dependable patella support. Enhanced stability allows patients to return to function with more confidence and more comfort. For lateral patellar subluxation and dislocations, lateral patellofemoral malalignment, patellofemoral maltracking and pain.

Ordering information

Part Number	Knee Design	Size
11-0775-x	Neoprene, Right	XS – XXL
11-0776-x	Neoprene, Left	XS – XXL
11-0777-x	Drytex, Right	XS – XXL
11-0778-x	Drytex, Left	XS – XXL

Sizes Available – page 21

Features & Benefits

- Enhanced Knee Stability with malleable hinges
- Dependable Patella Support. Tubular lateral "J" buttress provides stabilization of the patella. Lateral to medial strapping allows an intimate fit of the "J" buttress along the lateral aspect of the patella for additional stabilization

Hinged Air DonJoy®

IDEAL APPLICATION: Chondromalacia. Patellar tendonitis. Hyperextension, medial/lateral support.

Ordering information

Part Number	Knee Design	Size
11-0855-x-06000	Right or Left Popliteal cutout, hinges	XS – XXL

Sizes Available – page 21

Features & Benefits

- Inflatable buttresses for medial, lateral, or full patellar stabilization
- Polycentric hinges offer medial/lateral support and flexion/extension control
- Wraparound thigh and sleeve calf design facilitates ease of application/removal
- Cool and breathable Drytex® construction
- Superior/Inferior straps for compression and support

Lateral "J"

IDEAL APPLICATION: Acute patellar subluxation/dislocation.

- Features & Benefits**
- Sewn-in, tubular "J" buttress provides inferior and lateral patellar stabilization
 - Lateral to medial stabilization strap
 - Dual spiral stays offer medial and lateral support
 - Warm and compressive Neoprene or cool and breathable Drytex® construction

Sizes Available – page 21

- Features & Benefits**
- Adjustable, horseshoe-shaped buttress for patellar stabilization
 - Superior/Inferior straps for compression and support
 - Dual spiral stays offer medial and lateral support
 - Warm and compressive Neoprene construction

Hinged "H" Buttress

IDEAL APPLICATION: Chondromalacia. Patellar tendonitis. Hyperextension, medial/lateral support.

- Features & Benefits**
- Sewn-in "H" buttress provides inferior, medial, and lateral patellar stabilization
 - Polycentric hinges offer medial/lateral support and flexion/extension control
 - Anterior cover for open patella and hinges
 - Superior/Inferior straps for compression and support
 - Warm and compressive Neoprene construction

Features & Benefits

XP Walker™ (extra pneumatic)

- Overlapping Duplex aircells provide intermittent pneumatic compression for edema reduction and callus formation
- Aircells can be custom inflated for a "total contact" fit
- Lightweight, durable, semi-rigid full-shell protection
- Includes two socks and a hand bulb
- Can be used with Brace-Lok™ system

FP Walker™ (foam pneumatic)

- Two adjustable distal aircells provide compression and support the malleoli
- Aircells can be individually inflated for a "total contact" fit
- Lightweight, durable, semi-rigid shell protection
- Includes a hand bulb

SP Walker™ (short pneumatic)

- Pre-inflated anterior aircell and two adjustable distal aircells provide compression and support the malleoli
- Aircells can be individually inflated for a "total contact" fit
- Lightweight, durable, semi-rigid shell protection

MaxTrax® Air / MaxTrax® Air Ankle

IDEAL APPLICATION: Designed to increase stability and help decrease pain and edema following trauma or post-operative procedures. Cushioned inner/outer soles are designed to absorb shock upon heel strike and improve patient comfort. Low profile rocker bottom helps promote natural gait and reduce plantar pressures.

- Features & Benefits**
- Adjustable pneumatic air chambers accommodate changes in edema during rehab and maximize patient compliance
 - Integrated pump designed to make the liner simple to inflate and adjust
 - Wide footbed increases stability and accommodates edema or bandages
 - Swiveling D-rings allow for crisscross or parallel strapping
 - Malleable uprights breakdown for shorter tibia/fibula on standard height walking brace

Ankle Braces and Supports

Velocity ES

Velocity™ ES, MS and LS

ES

IDEAL APPLICATION: Velocity represents an evolution in DonJoy ankle brace technology, utilizing several new, proprietary design features, resulting in a new level of ankle brace performance and providing the foundation for successful ankle injury prevention and treatment.

- Features & Benefits**
- R³ (Rapid-Rigid-Ratcheted) Technology™ provides circumferential tibia/fibula compression
 - Prevents abnormal inversion and eversion
 - Rigid uprights protect during impact
 - SpeedWrap™ for secured ankle joint compression (ES & LS versions only)
 - Available in black or white (ES version only)

02BR	Right	9"	Medium
02AL	Left	10½"	Large
02AR	Right	10½"	Large

- Features & Benefits**
- Anatomically designed semi-rigid shells lined with the patented Duplex™ aircell technology for support and graduated compression during ambulation
 - The compression promotes efficient edema reduction in addition to helping accelerate rehabilitation from ankle sprains

Aircast Air-Stirrup Universe™

IDEAL APPLICATION: Anatomically designed for acute ankle injury, post-operative use, chronic instability, and ankle sprains grade I, II, and III.

Ordering information

Part Number	Description	Height	Size
02E		9½"	Universal
02E12	12 PK	9½"	Universal

- Features & Benefits**
- Universal size eliminates excess inventory
 - Designed with Duplex aircell technology to reduce swelling, encourage earlier ambulation for functional management

Aircast Air-Stirrup® Universe™ Care Kit

IDEAL APPLICATION: Anatomically designed as the complete system for functional management of an ankle sprain. Includes an Air-Stirrup Universe Ankle Brace, ankle wrap, cold pack, exercise band, and a DVD plus booklet showing instructions for treatment and rehabilitation.

Ordering information

Part Number	Height	Size
02EK	9½"	Universal

- Features & Benefits**
- Ankle wrap provides circumferential compression, cold pack to help reduce pain, exercise band to help strengthen the ankle, DVD and instruction booklet provides information for proper care
 - DVD and instruction booklet adhere to standards for patient education as identified by JCAHO

Stabilizing Ankle

IDEAL APPLICATION: The Stabilizing Ankle support features non-stretch nylon figure 8 straps which lock the calcaneus into place to help control abnormal eversion and inversion. Ideal for chronic ankle sprains and prophylactic use.

Features & Benefits
<ul style="list-style-type: none"> Fits right or left Sturdy cool mesh construction Removable medial/lateral plastic stays

Lower Back Bracing

Mechanical Advantage Pulley System

DonJoy Duel TLSO

IDEAL APPLICATION: Low Back Pain, Low Back Sprains/Strains, Lumbar Disc Displacement, Osteoporosis, Disc Herniation and Degeneration, Post-Operative Laminectomy, Post-Operative Disectomy, IDET Procedure, Spondylolisthesis, Post-Operative Fusion, Spinal Stenosis, Compression Fractures, and Scoliosis.

Features & Benefits

- Rigid anterior panel & posterior panels restrict forward flexion and trunk rotation. Panels are easily removed and can be thermoformed for customized fit
- Telescoping sternal Y-Bar can be adjusted to desired height or locked into position. The alloy can be bent and custom fitted to the desired angle
- Quick release shoulder buckles allow for easy donning and doffing
- Features the patented Mechanical Advantage Pulley System

Sizes Available (Waist Measurement)

- x = 2 = S...25" - 30" (60-75 cm)
- x = 3 = M...30" - 35" (75-89 cm)
- x = 4 = L...35" - 42" (89-107 cm)
- x = 5 = XL...42" - 48" (107-122 cm)
- x = 6 = XXL...48" - 57" (122-145 cm)

DonJoy Back Bracing

IDEAL APPLICATION: Low Back Pain, Low Back Sprains/Strains, Lumbar Disc Displacement, Osteoporosis, Disc Herniation and Degeneration, Post-Operative Laminectomy, Post-Operative Disectomy, IDET Procedure, Spondylolisthesis, Post-Operative Fusion, and Spinal Stenosis.

*The Short Chairback is designed for shorter torsos, so the frame is 13" in height for all sizes.

Features & Benefits

Features the patented Mechanical Advantage Pulley System

DonJoy LSO with Chairback (8")

- Rigid anterior panel & posterior panels are constructed of heat gun moldable poly-blend plastic customizable to the patient for fluctuations in weight or distension
- Easy to use compression technology with simple hook loop closures
- Maximum comfort for patient compliance with the light weight and low profile construction
- Lordotic foam inserts available in varying degrees for comfort and increased lordosis

DonJoy Regular Back (10") and DonJoy Low Profile Back (8")

- Simple hook-loop closure for ease of application and removal
- Proprietary Mechanical Pulley System panels allow for a smooth and uniform compression
- Easy-to-use pull handle(s) enable patient to quickly adjust brace to desired level of comfort
- Breathable interior spacer fabric with outer mesh allows heat to escape without compromising brace performance

DonJoy Lite Back (9")

- The DonJoy Lite is a lighter version of the Low Profile, without the rigid anterior panel. The Lite provides support for mild lower back pain, from L1 - L5.

DonJoy LSO with Chairback (8")

DonJoy Low Profile Back

Standard Chairback Accessory

Lordotic Insert Accessory

Lordotic foam inserts fit easily into the posterior pockets of the DonJoy 8" and 10" braces.

Upper Extremity

UltraSling III

UltraSling®

IDEAL APPLICATION: The mesh UltraSling® III Family provides immobilization for rotator cuff repairs, capsular shifts, Bankhart repairs, glenohumeral dislocations/subluxation and soft tissue repairs/strains.

Features & Benefits

- UltraSling® III / UltraSling® III AB**
- NEW! Moisture wicking mesh fabric for greater comfort, particularly in longer term use (15° of abduction with internal rotation)
 - Promotes auxiliary air exchange to reduce risk of secondary infections and prevents internal rotation contractures
 - AB Version: Large comfortable pillow gives greater abduction where required (45° or 60°)
 - The De-Rotation Strap hooks to the UltraSling® III and prevents internal rotation by securely holding the patient's arm in neutral position
 - Quick release buckles make it easy to take on and off for exercise/therapy

UltraSling® III ER

- Maintains the shoulder and arm in an externally rotated position
- NEW! Moisture wicking mesh fabric for greater comfort, particularly in longer term use
- 15° and 30° versions to suit your protocol
- De-Rotation shoulder strap to keep product in place
- Quick release buckles make it easy to take on and off for exercise/therapy

DonJoy® Shoulder Stabilizer SPA

IDEAL APPLICATION: The SPA (Shoulder Pad Attachment) is indicated for use by those with glenohumeral instabilities in contact sports where shoulder pads are worn.

Ordering information

Part Number	Size
11-1319-x-06000	M - XXXL

Features & Benefits

- Cool – just an arm band, no chest vest
- Easy to use – arm cuff and straps attach directly to the shoulder pads (must have holes drilled) which remain attached when not in use. Player can attach it themselves

Sizes Available (Measurement taken at center of flexed bicep muscle)

x = 3 = M..... Up to 14½" (37 cm) x = 5 = XL..... 16 - 18"..... (40-46 cm) x = 7 = XXXL . 20" - 22"..... (51-56 cm)
 x = 4 = L..... 14½ - 16"..... (37.5-40.5 cm) x = 6 = XXL.... 18" - 20"..... (46-51 cm)

Sully® Shoulder Stabilizer

IDEAL APPLICATION: Provides shoulder immobilization and controlled range of motion for anterior, multi-directional, inferior, and posterior instabilities, rotator cuff deceleration, shoulder separations, and muscle strains. The shoulder brace is designed to stabilize, assist or restrict movement of the shoulder post-injury and post-operatively.

Accessories	Description	Size
11-0528	Sully AC Pad	Universal

Features & Benefits

- Pulls the humerus posteriorly as it restricts external rotation and abduction
- Elastic straps attach with Velcro at any point, in any direction and with any amount of force
- The smooth, controlled assistance or restraint follows the natural movement of the muscles and joints

DonJoy® Custom Edition Elbow

IDEAL APPLICATION: DonJoy's premium and strongest bilateral upright elbow brace. The carbon fiber frame in conjunction with bilateral polycentric hinges provide support for medial/lateral ligament instabilities and hyperextension control. The hinges have adjustable flexion/extension stops to address individual range of motion protocols and restrictions.

- Features & Benefits**
- Custom made from a cast for the ultimate in fit and function
 - Low profile design for an easy fit under uniforms and clothing
 - 24 hour turnaround time
 - Includes patented supra condylar pad medially and pneumatic air Condyle Pad laterally for comfort and to prevent migration

Ordering information

Each Custom Edition Elbow is custom made. Cast must be 16" in length (8" above & below the elbow) arm should be in 15° flexion.

DonJoy Functional Wrist Brace NEW!

IDEAL APPLICATION: The DonJoy Functional Wrist Brace helps restore function and structural characteristics to an injured wrist. The brace offers variable extension stops with the option to control radial/ulnar deviation. The open palm design allows for gripping motion for a return to work or sport. Available in Carbon Fiber (CXT) or a high strength composite material (SXT).

Features & Benefits

- Variable extension control (60°, 40°, 20°, 0°) to avoid excessive extension of the wrist
- Rigid stability, provides ideal support
- Open palm design, allows gripping motion
- Lateral motion control, optional radial ulnar stop
- Low profile fit can be worn with sporting gear
- Varying styles to support activity level. Lacer, Sport Wrap, or Speed Strap
- Cool, comfortable fit, easy to wear at work or sport

05WTLR	Right	Large (7½" - 9")

Aircast Pneumatic Armband

IDEAL APPLICATION: Tennis elbow; Golfers elbow (epicondylitis)

Ordering information

Part Number	Description	Size
05A	Beige	8" - 14"
05A-B	Black	8" - 14"

Features & Benefits

- Single, pre-inflated aircell, concentrates compression on the extensor muscle, providing more support, less constriction
- Universal fit
- Available in beige and black

Aircast StabilAir™ Wrist Brace

IDEAL APPLICATION: Post-operative treatment for distal radius fractures.

Ordering information

Part Number	Description	Size
05FSL	Left	Small (5" - 6")
05FSR	Right	Small (5" - 6")
05FML	Left	Medium (6½" - 7¾")
05FMR	Right	Medium (6½" - 7¾")

Features & Benefits

- Adjustable Anatomic shells and adjustable aircells conform to arm for a custom fit
- Lightweight, water resistant brace
- Easy-to-use and can be applied quickly and easily
- Removable padded shells enable easy inspection or treatment.

Cold Therapy

IceMan

IceMan®

IDEAL APPLICATION: The IceMan cold therapy unit helps reduce pain and swelling and facilitates rehabilitation. It provides several hours of continuous cold therapy for a variety of conditions. Using a patented semi-closed loop system, the IceMan maintains a more constant and accurate temperature than competitor's systems.

Features & Benefits

- Two-position locking top
- Water tight seal
- Hose stirrup
- Inlet temperature control and monitoring
- Compatibility with a variety of pads

Aircast Cryo/Cuff™ IC

IDEAL APPLICATION: Intermittent cold and compression is clinically proven to help reduce post-operative swelling and regain range-of-motion. The Cryo/Cuff IC provides both gravity and motorized system for flexibility of care.

Features & Benefits

- An integrated pneumatic pump within cooler lid provides automated compression and cold therapy
- Simplicity of design and ease of operation makes it ideal for post-operative recovery, trauma, athletic training rooms and home use

Aircast Knee Cryo/Cuff™ SC

IDEAL APPLICATION: A totally self-contained cuff that is filled directly with water and ice — no cooler required.

Ordering information

Part Number	Description
11ASC	Cuff (self contained)

Features & Benefits

- Cuff remains cold for about one hour.
- A hand bulb is included for cuff inflation and to add compression as needed
- Excellent fit for OA chronic pain treatment

Dura*Soft®

Shoulder Wrap

IDEAL APPLICATION: The universal design provides cold therapy to various areas of the body. The Dura*Soft products can effectively penetrate surgical dressings to decrease pain, edema and secondary hypoxic tissue injury.

Features & Benefits

- Inserts can be frozen and exchanged to provide extended cold therapy
- The nylon wraps and elastic straps provide a universal fit and effective compression
- Ultra-wick fabric with antimicrobial protection
- May be used repeatedly to provide years of long-term use for rehab and/or chronic conditions
