

Take the Next Leap Forward

At John Deere, we've cultivated more than 100 years of tractor expertise in the pursuit of progress for producers of all kinds. And it's all led to this — the newly redesigned 8 Series Tractors now available in three configurations — wheels, two-tracks and the game-changing four-track 8RX with exceptional traction and flotation. All with the most spacious and comfortable cab we've ever offered.

With more power, durability and comfort than any generation of 8 Series before it and intelligently built to deliver the most integrated experience an operator can have, these are the tractors to lead us into the next 100 years. The next leap forward in brains, brawn and beauty in a 169 to 302 kW (230 to 410 hp) tractor.

So if you're ready to take your operation forward, see your John Deere dealer today.

The next leap forward in 8R Tractors

We've taken our most popular row-crop tractors and added more of what you want and need. More power of choice including new horsepower models. A dependable 9.0L engine and e23™ PowerShift transmission for pulling power and efficiency. And the Independent Link Suspension for improved ride quality in all conditions.

You'll see even more capability and reliability. A more spacious cab. A new exclusive seat with greater comfort and extra swivel than before. Improved visibility to the ground. LED lighting with 360-degree illumination. A new cab suspension system. Sleek and refined cab styling. New CommandPRO™ (IVT only) putting you in total control. A new integrated StarFire™ receiver and Gen 4 w4600 CommandCenter™ as well as the latest precision ag technology. Imagine how much more work you can do in total comfort and style. Discover more in the pages ahead.

The future's on the right track: 8RX Tractors

You're looking at a bold leap forward in the 8 Series: the game-changing 8RX Four-Track Tractors. The only fixed-frame four-track row-crop tractor on the market. With everything you like about the 8R Tractors and inspired by our innovative 9RX Tractors, the 8RX has four independent tracks and a 4-post cab suspension to give you exceptional flotation, traction and ride quality.

You'll experience outstanding pulling power and efficiency, thanks to the John Deere PowerTech™ 9.0L engine and e23™ PowerShift or Infinitely Variable Transmission (IVT™). We made comfort a top priority with a new larger cab and an easy-to-adjust seat with massaging option for a secure ride in tough terrain. Plus, put total machine control in your hand with CommandPRO™ (IVT only) and all the latest technology you expect from John Deere through our Gen 4 CommandCenter™.

Four models from 231 to 302 engine kW (310 to 410 hp). Find out more at JohnDeere.com.au/8R or JohnDeere.co.nz/8R.

The next level of two-track tractors: The 8RT

The next leap forward in two-track tractors is here: the new 8RT Tractors. By adding 30 extra kilowatts (40 hp) to our top model, the 8RT delivers the straight-line pulling power and the traction and flotation you need to handle your toughest jobs. Our two-track design reduces ground pressure up to 37 percent compared to wheel models, reducing soil compaction.

You've asked for straight-line pulling power and efficiency and higher transport speeds. The 8RT delivers with our John Deere PowerTech™ 9.0L engine and your choice of e23™ PowerShift or Infinitely Variable Transmission (IVT™).You've asked for greater operator comfort. The 8RT delivers with our most spacious cab, comfortable seat and our exclusive AirCushion™ Suspension and 4-post cab suspension. We know you need greater machine control in one hand, and our CommandPRO™ (IVT only) delivers.

Own the day

Take a seat in the most comfortable chair in the industry. And get ready to log serious hours in comfort, style and peak productivity.

A higher backrest and adjustable side bolsters let you sit comfortably within the seat. Massaging feature helps keep you alert when you're spending long hours in the cab. And since the seat is heated and ventilated, you'll stay warm or cool depending on the season. (Available in Ultimate Comfort & Convenience Package only).

Own the night

There's no better feeling than knowing you've put in a hard day's work. After all, this is no 9-to-5 job. When you've got a job to do, you keep going even when day turns into night.

Take charge of your night when the daytime hours aren't enough. Our new lighting packages are a bold leap forward, shedding new light on nighttime productivity. With two times more LED lighting than before, you'll get twice the light when compared to Halogen bulbs for a brighter, 360-degree illumination of the field around you. (Available in Ultimate Visibility Package). Choose from three Visibility Packages to help you make the most of your time, no matter the time; amenities vary by package.

SELECT

- 18 Halogen work lights
- Mechanical exterior mirrors
- Front window sunshade
- Front and rear window wipers
- Camera ready

- LED work lights
- Electronic, heated exterior mirrors
- Front, right-hand, and rear window sunshades
- Front, right-hand, and rear window wipers
- Camera ready

ULTIMATE

- 22 LED work lights, 8 LED convenience lights
- Electric, heated, power telescoping exterior mirrors
- Front, right-hand, and rear window sunshades
- Front, right-hand, and rear window wipers
- Front and rear integrated camera

Shift into high gear

Power of choice in engines. John Deere PowerTech™ 9.0L engines deliver straight-line pulling power and efficiency while assuring excellent total fluid and fuel economy. Available in Tier 3/Stage Illa or optional FT4/Stage V, get uncompromised performance up to 302 kW engine power (410 hp), even higher through Intelligent Power Management (FT4/Stage V only). That's the most power we've put in a row-crop tractor.

Power of choice in transmissions. Choose from e23™ PowerShift with Efficiency Manager™ with 23 forward gears evenly spaced 15% apart to fit your different operating conditions and implements. Or the Infinitely Variable Transmission (IVT™) that lets you move smoothly from 0 to 40 or 50 km/h — and any speed in between, including creeper speeds as low as 50 m/h with a single lever. Or the 16-Speed PowerShift transmission for simple, reliable mechanical power.

New CommandPRO™ (IVT only) delivers seamless control of your tractor and implements all in the palm of your hand.

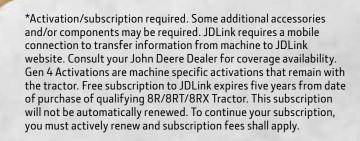

It's easier than ever to have a connected machine. All new 8 Series tractors come standard with JDLink $^{\text{M}}$ and five years of connected service* and capabilities, enabling you to easily benefit from technology-enabled machines.

By connecting through JDLink, you can wirelessly share information and plans with those who help you farm to make even better decisions. View reported work completed timely with Data Sync. Stay running in the field with help from your dealer using John Deere Connected Support™ and Remote Display Access. Keep track of your operation anytime and from anywhere from a desktop computer or a mobile device with John Deere Operations Center and MyOperations™ mobile app.

The primary user interface with the 8 Series Tractors is the Generation 4 CommandCenter™ Display for added productivity while boosting your confidence to make every pass more efficient.

Get started faster with more precision, less calibration and faster pull-in time with the integrated StarFire™ 6000 Receiver and SF3 signal. Precision Ag is built-in the tractor with AutoTrac™, Documentation, and Data Sync unlocked and ready for use. Find out more about all our latest technology including John Deere Operations Center at JohnDeere.com.au/8R or JohnDeere.co.nz/8R.

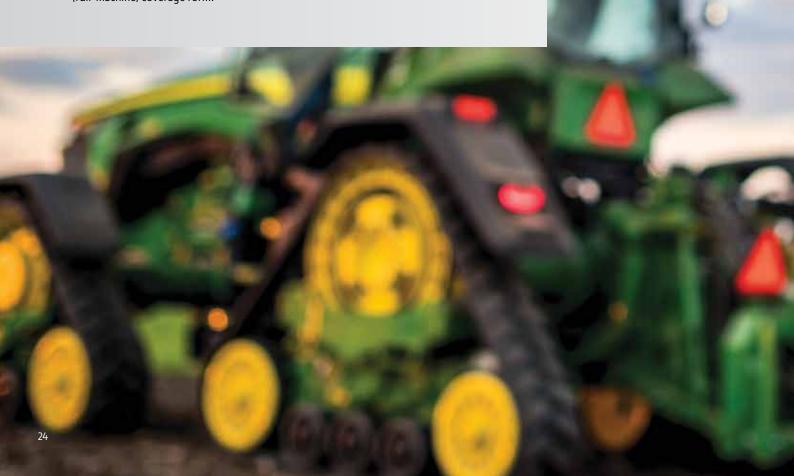

The connected support you need

When you're running, you don't want anything to slow you down. Your 8R/8RT/8RX Tractor comes with five years of JDLink™ connected service.* Once activated, your John Deere dealer can offer John Deere Connected Support services such as Remote Display Access and Service ADVISOR™ Remote, allowing your dealer to "dial in" to your tractor's diagnostic data and assess trouble codes to help you avoid downtime.

Protect your investment with a PowerGard™ Plan**. The John Deere PowerGard Protection Plan lets you purchase extended coverage and powertrain warranty coverage for up to an additional four years or 3,000 hours over the normal warranty period. Get flexible coverage, low excesses and peace of mind.

Ask your dealer for details or go to JohnDeere.com.au/PowerGard or JohnDeere.co.nz/PowerGard.

- * Free subscription to JDLink expires five years from date of purchase of qualifying 8R/8RT/8RX Tractor. This subscription will not be automatically renewed. To continue your subscription, you must actively renew and subscription fees shall apply. For additional details, see footnote on page 21.
- ** PowerGard Protection Plan extended warranty covers failures due to defective materials or original workmanship of covered components. Customers have a choice between either the Limited (engine & powertrain) coverage form or the Comprehensive (full-machine) coverage form.
