Summary Table – Voluntary Product Accessibility Template® (VPAT®)

Criteria	Conformance Level	Remarks and explanations
Chapter 3: Functional Performance Criteria	Partially Supports	Compliant with minor exceptions concerning limited manipulation and limited reach & strength.
Chapter 4: Hardware	Partially Supports	Compliant with minor exceptions concerning speech-output enabled, volume, operable parts, input controls, and status indicators.
Chapter 5: Software	Not applicable	The product does not support the software criteria set forth
Chapter 6: Support Documentation and Services	Supports	The centralization of documentation, training, and support services for most Xerox products allows us to achieve compliance across the corporation.

Software Version Evaluated: 105.010.009.15000

Accessories Included in Evaluation: external keyboard, narrator (inbuilt in windows), headset, and Gabi Voice

Evaluation Methods Used: testing based on general product knowledge, similar to another evaluated product, and testing with assistive technologies

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and explanations
302.1 Without Vision	Supports	At least one mode of operation that does not require user vision is available
302.2 With Limited Vision	Supports	At least one mode of operation that enables users to make use of limited vision is available
302.3 Without Perception of Color	Supports	At least one mode of operation that does not require user perception of color is available.
302.4 Without Hearing	Supports	One mode of operation that does not require user hearing is available.
302.5 With Limited Hearing	Supports	One mode of operation that does not require user limited hearing is available.
302.6 Without Speech	Not applicable	Speech is not required for this product.
302.7 With Limited Manipulation	Partially Supports	Accessing and removing the jammed paper requires simultaneous manual operations.
302.8 With Limited Reach and Strength	Partially Supports	User requires strength to remove the jammed paper.
302.9 With limited Language, Cognitive, and Learning Abilities	Supports	Features are provided for individuals with limited cognitive, language, and learning abilities for simpler and easier use.

Chapter 4: Hardware

Criteria	Conformance Level	Remarks and explanations
402 Closed Functionality		
402.1 General		
402.2 Speech-Output Enabled		
402.2.1 Information Displayed On- Screen	Supports	Speech output is provided for all information displayed on-screen.
402.2.2 Transactional Outputs	Supports	This product audibly provides all information necessary to verify a transaction.
402.2.3 Speech Delivery Type and Coordination	Supports	Speech output is delivered through an industry standard connector or a telephone headset. Output is coordinated with information displayed on the screen.
402.2.4 User Control	Partially Supports	Speech is enabled via one of the optional voice control solutions. However, there is no repeat and pause option.
402.2.5 Braille Instructions	Partially Supports	Speech feedback is not supported in the machine but is via one of the optional voice control solutions.
402.3 Volume		
402.3.1 Private Listening	Supports	This product provides a mode of operation for controlling the volume when in private listening mode
402.3.2 Non-private Listening	Partially Supports	Speech is enabled via one of the optional voice control solutions. However machine cannot be powered on/off via voice and there are no volume controls enabled by voice

		02/00/21
Criteria	Conformance Level	Remarks and explanations
402.4 Characters on Display Screens	Partially Supports	Some of the characters on screen are not 4.8mm or above.
402.5 Characters on Variable Message Signs	Supports	Conforms to Variable Message Signs of ICC A117.1-2009.
403 Biometrics		
403.1 General	Not applicable	Biometric forms are not used.
404 Preservation of Information Provided for Accessibility		
404.1 General	Not applicable	The device does not transmit or conduct information or communication.
405 Privacy		
405.1 General	Supports	The same degree of privacy of input and output is provided to all individuals
406 Standard Connections		
406.1 General	Supports	At least one type of connection conform to industry standard non-priority format.
407 Operable Parts		
407.2 Contrast	Partially Supports	The USB symbol is not contrast to the background.
407.3 Input Controls		
407.3.1 Tactilely Discernible	Partially Supports	The Device LUI is touch screen. The user without vision cannot perform a print from USB jobs. Also, the operation is tactile and user needs to be trained.
407.3.2 Alphabetic Keys	Partially Supports	Only typing can be done from the external keyboard.
407.3.3 Numeric Keys	Partially Supports	Only Values can be entered by the external keyboard.
407.4 Key Repeat	Not applicable	Key repeat is not supported.
407.5 Timed Response	Supports	A time-out alert feature is present and controllable.
407.6 Operation	Partially Supports	The accessing and removing of a paper jam requires tight grasping.
407.7 Tickets, Fare Cards, and Keycards	Not applicable	Tickets, Fare card or keycard is not used in product.
407.8 Reach Height and Depth		
407.8.1 Vertical Reference Plane	Supports	At least one of each type of operable part of stationary ICT at a height conforming to 407.8.2 or 407.8.3 is available.
407.8.1.1 Vertical Plane for Side Reach	Supports	Where a side reach is provided, the vertical reference plane is 48 inches (1220 mm) long minimum.
407.8.1.2 Vertical Plane for Forward Reach.	Supports	Where a forward reach is provided, the vertical reference plane is 30 inches (760 mm) long minimum.
407.8.2 Side Reach	Supports	Where a side reach requires a reach over a portion of the ICT, the height of that portion of the ICT is 34 inches (865 mm) maximum.

0(02/08/21
Conformance Level	Remarks and explanations
Supports	Where the operable part is located 10 inches (255 mm) or less beyond the vertical reference plane, the operable part is 48 inches (1220 mm) high maximum and 15 inches (380 mm) high minimum above the floor.
Supports	All operable controls are within specification.
Supports	Where a forward reach allows a reach over a portion of the ICT, the height of that portion of the ICT shall be 34 inches (865 mm) maximum.
Supports	The operable part is 48 inches (1220 mm) high maximum and 15 inches (380 mm) high minimum above the floor.
Supports	Supports maximum allowable forward reach to an operable part is 25inches.
Supports	All operable parts are within specification.
Supports	Knee and toe space under ICT is 27 inches (685 mm) high minimum, 25 inches (635 mm) deep maximum, and 30 inches (760 mm) wide minimum and clear of obstructions.
Supports	At least one display screen is visible from a point located 40inces above floor space.
Supports	This product supports no more than three flashes in any one-second period.
Partially Supports	The LED indicates the document is placed, but only visually.
Supports	Color coding and additional means of unique identification (e.g., text and symbols) are used.
Supports	Audible signals and additional means of unique identification (e.g., cues) are used.
Not applicable	This product does not use analog or digital wireline telephones.
Not applicable	The device does not support bi-directional voice communication over a telephone line.
Not applicable	The product does not produce electromagnetic fields.
Not applicable	The product does not produce electromagnetic fields.
Not applicable	This product does not support digital encoding of speech.
	Supports Partially Supports Supports Not applicable Not applicable Not applicable Not applicable

Criteria	Conformance Level	Remarks and explanations
412.5 Real-time Text Functionality	Not applicable	This product does not support real-time functionality.
412.6 Called ID	Not applicable	Caller ID and/or similar telecommunications are not present.
412.7 Video Communication	Not applicable	The product is not a video or multi-media product.
412.8 Legacy TTY Support		
412.8.1 TTY Connectability	Not applicable	The device does not include a standard non-acoustic connection point for TTYs.
412.8.2 Voice and Hearing Carry Over	Not applicable	A microphone is not included.
412.8.3 Signal Compatibility	Not applicable	Does not support commonly used cross-manufacturer non-proprietary standard TTY signal protocols where the system interoperates with the Public Switched Telephone Network (PSTN).
412.8.4 Voice Mail and Other Messaging Systems	Not applicable	Where provided, voice mail, auto-attendant, interactive voice response, and caller identification systems are not usable with a TTY.
413 Closed Caption Processing Technologies		
413.1.1 Decoding and Display of Closed Captions	Not applicable	The product is not a video or multi-media product.
413.1.2 Pass-Through of Closed Caption Data	Not applicable	The device does not transmit or conduct information or communication.
414 Audio Description Processing Technologies		
414.1.1 Digital Television Tuners	Not applicable	The product is not a video or multi-media product.
414.1.2 Other ICT	Not applicable	The product is not a video or multi-media product.
415 User Controls for Captions and Audio Descriptions		
415.1.1 Caption Controls	Not applicable	The product is not a video or multi-media product.
415.1.2 Audio Description Controls	Not applicable	The product is not a video or multi-media product.

Chapter 6 Support Documentation and Services

Criteria	Conformance Level	Remarks and explanations
601.1 Scope		
602 Support Documentation		
602.2 Accessibility and Compatibility Features	Supports	Customer support service details are available in the user guide and also on website.
602.3 Electronic Support Documentation	Supports	Customer support service details are available in the user guide and also on website.
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	Customer support service details are available in the user guide and also on website.
603 Support Services		
603.2 Information on Accessibility and Compatibility Features	Supports	Customer support service details are available in the user guide and also on website.
603.3 Accommodation of Communication Needs	Not applicable	Customer support service contact details are available in the user guide and also on website. Specific support for persons with disability is not provided

What is the Voluntary Product Accessibility Template (VPAT)?

The purpose of the Voluntary Product Accessibility Template is to assist Federal contracting officials in making preliminary assessments regarding the availability of commercial Electronic and Information Technology products and services with features that support accessibility.

The first table of the Template provides a summary view of the Section 508 Standards. The subsequent tables provide more detailed views of each subsection. There are three columns in each table. In the subsequent tables, the first column contains the numbered paragraphs of the subsections. The second column describes the supporting features of the product with regard to that paragraph. The third column contains any additional remarks and explanations regarding the product.

For additional information on these and other accessories, contact your Xerox sales representative or call 1-800-ASK-XEROX (1-800-275-9376).
