Report on the Financial Statements

We have audited the accompanying financial statements of The Lutheran Church–Missouri Synod Foundation (the “Foundation”) which comprise the statements of financial position as of June 30, 2020 and 2019, the related statements of activities and cash flows for the years then ended, the statements of functional expenses for the year ended June 30, 2020 and 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Lutheran Church–Missouri Synod Foundation as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note K to the financial statements, in March of 2020, the World Health Organization has declared COVID-19 a “Public Health Emergency of International Concern.” Given the uncertainty of the situation, the duration of any organizational disruption and related financial impact cannot be reasonably estimated at this time. Our opinion is not modified with respect to this matter.

Notes to Financial Statements

June 30, 2020

Note A - Summary of Organization and Significant Accounting Policies

The Lutheran Church–Missouri Synod Foundation (the “Foundation”) assists individuals and church ministries by raising and managing gifts and assets to support Christ’s mission through The Lutheran Church–Missouri Synod (the “Synod”) and to accomplish personal and corporate stewardship goals. The Foundation is administered by a Board of Trustees that are elected by the members of the Foundation.

Within the Foundation Organization, trust services, investment services, and gift planning services are provided to the Synod and related agencies and entities. Within customer support, trust services generate trustee fees. Investment services within the Finance Department generate management fees. Gift planning services operate on a partial cost reimbursement basis.

The Foundation carries out its investment management services through various common funds to invest the assets entrusted to the Foundation. A common fund pools the assets of numerous smaller accounts to provide for greater diversification and ease of investment management. Holders of a common fund are called participants. Participants buy and sell units of the common fund asset. In order to determine the price per unit of a common fund, all assets held by the common fund (which can include individual securities or units of other common funds) are valued as of the end of the month (the valuation date). This value is divided by the total number of units held by the participants in the common fund to determine the per unit value. Transactions in the common fund (either purchases or redemptions) are calculated based on the per unit value on the valuation date.

During the valuation process, the common funds accrue income and expenses for the valuation period. The net income to the funds is divided by the total number of units held by participants for the valuation period to establish the income per unit factor. Each participant receives an allocation of the net income determined by multiplying the income per unit factor times the number of units held by the participant of the common fund. Net realized and termination gains in Foundation common funds are also calculated and distributed annually to the participants.

The Foundation maintains a Statement of Investment Policies and Objectives that governs the overall investment policy, objectives, structure, and guidelines for the Foundation’s investments. Included in the guidelines are restrictions governing the management of all investments held in separate accounts specifically for the benefit of the Foundation. All investment managers are monitored for adherence to the Statement of Investment Policies and Objectives by the Foundation with the assistance of its investment consultant.

Note A - Summary of Organization and Significant Accounting Policies (Continued)

Basis of Accounting and Presentation

The financial statements have been prepared using the accrual basis of accounting. Additionally, the financial statement presentation follows the requirements of Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) 958-205-05. As such, the Foundation is required to report information regarding its financial position and activities as net assets without donor restrictions or net assets with donor restrictions.

Net Assets Without Donor Restrictions

Net assets available for use in the general operations and not subject to donor (or certain grantor) restrictions. Net assets include revenue from fees, certain investment income and all gifts, grants and contributions not restricted by the donor. At the discretion of the Board, net assets without donor restrictions are available for use in the Foundation’s operations.

Net Assets With Donor Restrictions

Net assets subject to donor-imposed restrictions are either temporary or perpetual in nature. Temporary donor-imposed restrictions will be met by events specified by the donor or the passage of time. Perpetual donor-imposed restrictions are indefinite, with the income from the contribution being available for expenditure, as defined by the donor. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated purpose for which the resource was restricted has been fulfilled.

Donor-restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Donor-restricted contributions received and satisfied in the same year are reported as increases in contributions without donor restrictions. Such net assets consist of trusts valued at the present value (discounted at 3.5% and 3.5% at June 30, 2020 and 2019, respectively) of future gifts from irrevocable trusts held by the Foundation which name the Foundation as beneficiary.

Net assets with donor restrictions include the current value of a perpetual trust from which the Foundation is to receive the income in perpetuity. The principal is held in trust by a third party and will never revert to the Foundation.

The perpetual stream of income is viewed by the Foundation as a promise to give by the individual who established the trust and has been recorded at the fair value of the trust at June 30, 2020 and 2019, which closely approximates the net present value of the income stream, in perpetuity. Given the nature of the promise, the Foundation recorded this contribution as net assets with perpetual donor restrictions.

Income received is recorded based on the presence or absence of donor restrictions.

Note A - Summary of Organization and Significant Accounting Policies (Continued)

Expenses related to the daily administration and operations of the Foundation are recorded in net assets without donor restrictions. The proceeds from matured trust agreements that are held for the benefit of the Foundation or that are undesignated as to a specific beneficiary are transferred to net assets without donor restrictions. The Foundation also receives gifts and other undesignated income. After providing for operating expenses, the remainder is available for distribution at the direction of the Board of Trustees of the Foundation.

Other Accounting Policies

Cash and Cash Equivalents

For financial statement purposes, the Foundation considers currency, demand deposits, and liquid investments with a maturity of three months or less to be cash equivalents. The Foundation maintains cash balances at various major domestic financial institutions in amounts that at times may exceed federally insured limits. The Foundation has not incurred any losses as a result of the excess balances.

Investments

Investments of the Foundation are held at a custodial bank. Investments include marketable fixed income and equity securities, as well as units in assorted mutual funds and/or commingled investment vehicles. All investments are stated at fair market value as determined by authorized pricing sources for the custodial bank. The custodial bank records transactions involving the Foundation's investments on the date the securities are purchased or sold. Income is accrued as earned and posted as collected by the custodial bank. Realized gains and losses on the sale of investments are the differences between the proceeds received and the cost of the securities sold. Gains and losses, both realized and unrealized, are recognized in the statement of activities for those assets owned by the Foundation.

Real Estate Held

Real estate is initially recorded at its appraised value at the date of the gift. Real estate is carried at the lower of appraised or market value. Real estate can be held for immediate sale, or in custody for longer periods per a managed gift agreement.

Property and Equipment

Property and equipment is carried at cost. Major renewals and betterments over \$5,000 are capitalized, and maintenance and repairs which do not improve or extend the life of the respective assets are charged against operations in the current period.

Note A - Summary of Organization and Significant Accounting Policies (Continued)

Other Assets

The Foundation is the owner and beneficiary of certain insurance policies that have been gifted over a number of years. The policies are carried at fair value, which equates to current cash surrender value. The insurance policies are unrestricted gifts to the Foundation. They are accompanied by “letters of request” from the donors who request that the proceeds from the insurance policies go to specific ministries. The “letters of request” are not binding on the Foundation for the purpose of financial reporting. The insurance policies are reflected in the financial statements under other assets (Note E).

Financial Instruments

FASB ASC 825, *Financial Instruments*, requires disclosure of fair value information about financial instruments, whether or not recognized in the statement of financial position, for which it is practicable to estimate fair value. Financial instruments consisting of cash and cash equivalents, accrued interest and dividends receivable, investments, real estate held for sale, notes and loans receivable, real estate held for investment, and accounts payable are reported in the statements of financial position at carrying amounts which approximate fair value. Investments are reported at fair value as determined by authorized pricing sources for the custodial bank.

Functional Expense Allocation

The Foundation allocates expenses on a functional basis among various programs and supporting activities. Expenses that can be identified with a specific program and supporting activities are allocated directly according to their natural expenditure classifications. The nature of the organization precludes the Foundation from incurring significant fundraising expenses.

Certain categories of expenses are attributable to more than one program or supporting function and are allocated on a reasonable basis that is consistently applied. The expenses allocated are human resources, payroll, building services, and insurance. The allocable expenses are allocated based the number of staff members in each department in relation to total staff. Salary expense for executives is allocated based on estimated time and effort.

Trust and Other Liabilities

The trust and other liabilities due to donors and beneficiaries represents the liabilities necessary to meet agreed payments. The trust and other liabilities due to endowment, custodial, and agency accounts represents the liability for gifts received based on the original contribution plus earnings less reductions in the liability necessary to meet agreed payments.

Direct costs associated with the establishment of trust agreements are recognized as an expense of the trust as incurred.

Trustee fees to cover continuing administrative expenses are charged to the trusts and recognized as revenue by the Foundation on a current basis.

THE LUTHERAN CHURCH–MISSOURI SYNOD FOUNDATION

Notes to Financial Statements - Continued

June 30, 2020

Note A - Summary of Organization and Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Tax Status

The Foundation follows accounting rules for uncertain tax positions. Those rules require financial statement recognition of the impact of a tax position if a position is more likely than not of being sustained on audit, based on the technical merits of the position. These rules also provide guidance on measurement, recognition, classification, interest and penalties, transition, and disclosure requirements for uncertain tax positions.

Adoption of New Accounting Standard

In June 2018, the FASB issued Accounting Standards Update (“ASU”) 2018-08, Not-for-Profit Entities (Topic 948), *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. The ASU clarified and improved guidance for contributions received and contributions made and provided guidance to the Foundation on how to account for certain exchange transactions. This change is preferable in that it clarifies whether to account for transactions as contributions or as exchange transactions. In addition, it clarifies whether a contribution is conditional. As a result, the change enhances comparability of financial information of not-for-profit entities. The Foundation has evaluated the reporting requirements of ASU 2018-08 and determined that implementation would not result in an adjustment to the prior period financial statements.

In June 2020, the FASB issued ASU 2020-05, *Revenue from Contracts with Customers* (Topic 606) and *Leases* (Topic 842): *Effective Dates for Certain Entities*, permitting private entities that have not yet issued their financial statements as of June 30, 2020, to defer adopting ASU 2014-09, *Revenue from Contracts with Customers*, for annual reporting periods beginning after December 15, 2019. The Foundation has chosen to adopt and implement ASU 2020-05 for the year ended June 30, 2020, permitting deferral of adoption of ASU 2014-09, *Revenue from Contracts with Customers*, until June 30, 2021.

Subsequent Events

Management has evaluated all subsequent events and transactions through September 17, 2020.

Note F - Trust and Other Liabilities

Trusts and other instruments are established by donors, beneficiaries, and related entities for the benefit of the Foundation, the Synod, related agencies, and donors. By donor or depositor type, trust and other liabilities represent the following:

Donors and Beneficiaries

These accounts are comprised of trusts and gift annuities.

The Foundation is the issuer of gift annuity agreements under which the Foundation, in exchange for a transfer of cash or other property, is obligated to pay an annuity to one or two individuals (annuitants) for their remaining lives. The Foundation recognizes the assets transferred upon issuance of the gift annuity at their fair value. The contribution is decreased by a fixed dollar amount paid to the annuitant(s) throughout their lifetime and increased annually by earnings at a fixed rate of return based on the account balance. When the agreement terminates the account balance is distributed to ministry.

Trust accounts receive gifts of cash, securities, and real estate where the income earned is to be paid to the donor or a designee(s). At the death of the donor or successor(s), the remaining liability is paid in accordance with the trust agreement.

Endowment

This account receives endowment gifts that are held by the Foundation primarily for other ministries of the Synod. Income is distributed to beneficiaries in accordance with donor instructions.

Custodial and Agency

These agency and custodial accounts are held by the Foundation for other ministries and organizations of the Synod. Refer to Note L for additional information on the entities with amounts held by the Foundation.

THE LUTHERAN CHURCH–MISSOURI SYNOD FOUNDATION

Notes to Financial Statements - Continued

June 30, 2020

Note G - Gift Annuities

The Foundation maintains a segregated gift annuity reserve fund (the "Gift Annuity Fund") consisting of assets set aside for the payment of annuity obligations to annuitants under charitable gift annuity agreements issued by the Foundation. Each year, the Gift Annuity Fund recognizes new agreements and deposits, the net gains or losses on gift values based on the investment income and market appreciation of invested assets, distributions to annuitants, releases of gift annuities and trustee fees to cover continuing investment, and administrative expenses of the Gift Annuity Fund.

Investments

Except for cash values of certain insurance policies of which the Foundation is both the owner and beneficiary and which have been designated by the Foundation as being held as part of the Gift Annuity Fund, the investments of the Gift Annuity Fund are mutual funds and are held at a custodial bank. All investments are stated at fair market value as determined by authorized pricing sources for the custodial bank based on quoted market prices. The custodial bank records transactions involving the Gift Annuity Fund's investments on the date the securities are purchased or sold. Income is accrued as earned and posted as collected by the custodial bank. Realized gains and losses on the sale of investments are the differences between the proceeds received and the cost of the securities sold. Gains and losses, both realized and unrealized, are recognized as changes in liability of the Gift Annuity Fund.

Restrictions on Assets

In accordance with the laws of California, the Gift Annuity Fund is required to maintain a reserve within investments sufficient enough to make payments to all outstanding annuitants residing in California. This reserve is equal to or greater than the reserve required by state law in California. In addition, although not required by law, separate investments are maintained for all outstanding annuitants in the state of Washington. The reserves held are sufficient to make payments to all annuitants.

Gift Annuity Liability to Donors

Liabilities for annuity obligations represent the actuarial present value of annuity payments that are expected to be paid to donors over the life of the annuity. These amounts are reviewed periodically by an actuary to determine their overall adequacy. Liabilities for future payments to donor-specified individuals are recorded using published actuarial life expectancies and interest rates credited to the individual accounts. These rates range from 3.25% to 6.5% for each of the years ended June 30, 2020 and 2019. At June 30, 2020 and 2019, the gift annuity liability to donors totaled \$20,525,720 and \$21,083,440, respectively.

Note J - Intentions to Give

At June 30, 2020 and 2019, the Foundation is a named beneficiary of revocable deferred gifts totaling \$2,240,000 and \$2,223,000, respectively. In accordance with the trust agreements, the donor has retained the option to change the named beneficiary. Therefore, no amounts have been recognized within these financial statements for the potential future benefits.

Note K - Risks and Uncertainties

Credit Risks

The Foundation invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

Global Pandemic

The Foundation's financial performance, estimates, contracts and operations in the next 12 months may be affected by the ongoing outbreak of COVID-19, which was declared a global pandemic by the World Health Organization in March of 2020. The full extent and duration of the impact of COVID-19 on the Foundation's operations and financial performance is currently unknown and depends on uncertain and unpredictable developments.

Note L - Pension Expense

The Foundation participates in the worker benefit plans of the Synod. Substantially all full-time employees are covered by these plans. The Foundation contributes a fixed percentage of each participant's salary to defined benefit plans known as Concordia Retirement Plan and the Concordia Disability and Survivorship Plan. Retirement program expense was \$414,000 and \$384,000, and disability program expense was \$97,000 and \$89,000 for the years ended June 30, 2020 and 2019, respectively.

Note N - Fair Value Measurements

The Foundation follows FASB ASC 820-10, *Fair Value Measurements and Disclosures*, which establishes a framework for measuring fair value and expands disclosures about fair value measurements.

FASB ASC 820-10 defines fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The standard also establishes a fair value hierarchy used to disclose the measurement of fair value based on levels of observable or unobservable inputs.

Level 1

Observable inputs that are derived from quoted prices (unadjusted) for identical assets or liabilities in an active market.

Level 2

Observable inputs based on quoted prices in non-active markets or in active markets for similar assets or liabilities. Inputs other than quoted prices that are observable, or inputs that are not directly observable, but are corroborated by observable market data.

Level 3

Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities and reflect substantial management judgement or estimation utilizing available market data. Level 3 is comprised of real estate and LCEF notes.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at June 30, 2020 and 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Foundation are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price.

Domestic Common Stocks, Foreign Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

THE LUTHERAN CHURCH—MISSOURI SYNOD FOUNDATION

Notes to Financial Statements - Continued

June 30, 2020

Note N - Fair Value Measurements (Continued)

Corporate Issues, Foreign Issues, Convertible Bonds, Municipal Bonds, Mortgage Pass Through Securities, Collateralized Mortgage Obligations: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available on identical or similar bonds, the securities are submitted for brokers to obtain quotes. As part of the pricing process, the appropriateness of each quote (i.e., as to whether the quote is based on observable market transactions or not) is assessed to determine the most appropriate estimate of fair value. Lastly, securities are priced using internal cash flow modeling techniques. These valuation methodologies commonly use the following inputs: reported trades, bids, offers, issuer spreads, benchmark yields, estimated prepayment speeds, and/or estimated cash flows.

Commingled Funds: Valued using the net asset value (NAV) per share, or its equivalent, as a practical expedient for fair value.

Real Estate: Valued using current appraised values and other market data for similar properties.

LCEF Notes: Valued using deposited account balances.

The Board of Trustees and their related committees, along with Management, determines the fair value measurement valuation policies and procedures, including those for Level 3 recurring and nonrecurring measurements. The Board of Trustees assesses and approves these policies and procedures. At least annually, the Board of Trustees: (1) determines if the current valuation techniques used in fair value measurements are still appropriate and (2) evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information.

Note O - Endowments

The Foundation's endowments include both donor-restricted and board designated endowments. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds, including funds designated by the Board of Trustees, are classified and reported based on the existence or absence of donor-imposed restrictions.

Net Asset Classifications and Interpretation of Relevant Law

The Foundation is governed subject to its By-Laws. The Board of Trustees of the Foundation has interpreted the relevant Missouri state law as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with perpetual donor restrictions at (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

Endowment Investment and Spending Policies

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a stable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment account. The Foundation's spending and investment policies work together to achieve this stated objective. The Foundation's established investment objectives are (a) to preserve the purchasing power of the endowment assets and the related revenue stream over time, (b) to manage the endowment assets in a single investment pool with equities being the dominant asset class, (c) to employ multiple funds to gain the diversification benefits of different asset classes, and (d) to earn an average annual real total return, after inflation and expenses, of at least 4.00% per year.
