Your chance to win over \$1 million every 3 minutes

Keno gives you the chance to win over \$1 million every 3 minutes by simply picking numbers you think will be drawn from the Keno ball draw.

Play and match your numbers to win

Pick how many numbers you'd like to play, choosing 1 - 10, 15, 20 or 40 numbers.

20 numbers are drawn from the 80 available on the Keno game grid. Match the numbers you play to the numbers drawn for your chance to win over \$1 million. You can play Keno for one or more games.

The more games you play, the greater chance you have of winning.

Don't match all your numbers? You could still be a winner!

Keno gives everyone the chance to be a winner. Even when you don't match all of your numbers, you could still be in with a chance to win a prize.

How to win over \$1 million

To win the \$1 million jackpot, you must win the 10 Spot jackpot. To win the 10 Spot, play 10 numbers and match all of these numbers.

Ways to play Keno

There are many ways to win, with a range of Keno games to play.

classic

A chance to win instant cash or play for \$1 million for just \$1.

MEGA MILLIONS

\$2 can win you \$5 million. Play for a chance at life changing wins.

Keno Bonus

Play Keno Bonus to win more.

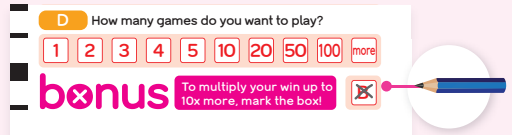

Keno Bonus gives you the chance to multiply your regular **Keno Classic** prize by **x2, x3, x4, x5 or x10!**

The cost of each game will double when you nominate to play Keno Bonus.

Keno Bonus is only available on Keno Classic games

To play Keno Bonus, simply mark the box next to **bonus**.

Look for the Keno Bonus animation at the start of each game to see how much your winnings will be multiplied by.

Playing **bonus** on Jackpot games

The Keno Bonus multiplier does not apply directly to Keno Jackpots. The Keno Bonus on a Jackpot is calculated following the steps below:

1. Start with the difference between the current jackpot amount and the base jackpot amount
2. Add the amount listed under the relevant Multiplier according to the Jackpot you've played
3. Add the Keno Bonus prize

A: 1 23 24 27 37 41 44 50 59 75

Keno Heads or Tails

A chance to double or quadruple your money.

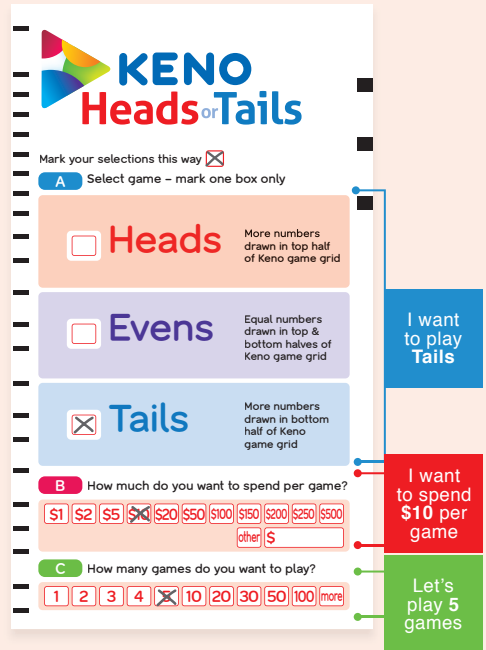

Keno Heads or Tails is an easy game where you have the chance to **double** or even **quadruple** your money. Simply pick which half of the Keno grid will have more numbers appear, or choose equal numbers in each half.

Selection	Description	\$1 could Win
Heads	More numbers drawn in top half of Keno game grid	\$2
Evens	Equal numbers drawn in top & bottom halves of Keno game grid	\$4
Tails	More numbers drawn in bottom half of Keno game grid	\$2

How to play Heads or Tails

You can play on a Keno Touch machine* or on a game card following the steps below.

1. Grab a Keno Heads or Tails game card,
2. Mark your selections on the card with a pencil.

The image shows a digital interface for the Keno Heads or Tails game. It includes the following elements:

- Header:** KENO Heads or Tails logo.
- Instruction:** "Mark your selections this way" with a pencil icon.
- Section A:** "Select game - mark one box only". It contains three options:
 - Heads:** "More numbers drawn in top half of Keno game grid". An arrow points to the empty checkbox.
 - Evens:** "Equal numbers drawn in top & bottom halves of Keno game grid". An arrow points to the empty checkbox.
 - Tails:** "More numbers drawn in bottom half of Keno game grid". An arrow points to the checked checkbox.
- Section B:** "How much do you want to spend per game?". It shows a row of buttons for \$1, \$2, \$5, \$10, \$20, \$50, \$100, \$150, \$200, \$250, \$500, and an "other" field with a dollar sign. An arrow points to the \$10 button.
- Section C:** "How many games do you want to play?". It shows a row of buttons for 1, 2, 3, 4, 10, 20, 30, 50, 100, and "more". An arrow points to the 5 button.
- Callouts:** Three colored boxes on the right side of the screen:
 - Blue box: "I want to play Tails" (with an arrow pointing to the Tails option).
 - Red box: "I want to spend \$10 per game" (with an arrow pointing to the \$10 button).
 - Green box: "Let's play 5 games" (with an arrow pointing to the 5 button).

3. Present your card at the counter, or ask the Keno Operator

EXAMPLE: Spend \$10 per game and play 5 games - your Keno ticket will cost you \$50

Keno Advanced

A more powerful way to play.

Keno Advanced lets you play groups of numbers that form multiple combinations on one ticket. Keno Advanced is available to play on **Keno Classic** and **Keno Mega Millions**.

Groups of numbers are formed by marking numbers alphabetically, starting with the letter **A** (instead of the usual X). Each group of numbers represents one single entry.

Multiple groups of numbers can be combined to form additional entries on the one ticket.

For example, if 4 numbers are marked with the letter **A**, and 4 numbers are marked with the letter **B**, groups **A & B** can be combined to form an 8 Spot entry (8 numbers).

The minimum cost per combination depends on the number of combinations played. See table below for details.

Number of combinations	Minimum combination cost Keno Classic	Minimum combination cost Keno Mega Millions
50+	10¢	20¢
20-49	20¢	40¢
4-19	50¢	\$1
1-3	\$1	\$2

Minimum bet per combination for Jackpots is \$1 on Keno Classic, \$2 on Keno Mega Millions and minimum ticket cost is \$1 on Keno Classic and \$2 on Keno Mega Millions.

Pick your game

Create groups of numbers, formed by marking my numbers in that group with a letter, starting from A. In this example, two groups of numbers have been formed using letters A & B. Each group represents one 4 Spot.

Mark the 'ALL' box to select all possible combinations (in this case two combinations of 4 numbers and one combination of 8)

OR mark the relevant numbered boxes to choose which combinations you want to play (for example, cross 4 to play two 4 Spots).

Mark the amount you want to spend per combination.

Mark the number of games you want to play.

Keno is conducted under a licence issued by the State and as such, must comply with the appropriate legislation governing the operation of the game. Players must be at least 18 years of age to participate in a game of Keno. Total ticket value must equal at least \$1, or \$2 for Keno Mega Millions.

Keno Agents have set payout limits, which determine the amount of Keno winnings to be paid as cash to the customer, with any balance paid via cheque. Game results are available from the Keno Agent or online at keno.com.au. Please also check the Keno game screens available at all Keno Agents for game results.

When a ticket is presented for payment on the day of purchase, any outstanding unplayed games will be cancelled and refunded.

Winnings are paid on the presentation of the printed receipt ticket only. It is your responsibility to check your Keno ticket for completeness and accuracy before the commencement of the game as the payment of wins is based upon the numbers on the printed receipt ticket. The Keno operator is not liable for a player's failure to check their Keno receipt ticket.

What are your jackpot chances?

On games where you're playing 7 to 10 numbers, you're playing to win a jackpot. If every number you choose comes up, you'll win the jackpot. The jackpots increase with each game until they are won. Check out Keno game screens for current jackpot amounts.
