This warranty covers Sunbrella fabric only. This warranty does not cover normal care and cleaning; damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation. Sunbrella's liability is expressly limited to this warranty. Sunbrella reserves the right to inspect the fabric submitted for claim. Proof of purchase will be required. ## Care & Maintenance Recommendation

**Frame:** Clean your Peak Season outdoor furniture with a soft, wet towel using a mild soap and water solution. Dry completely with a soft towel. Do not use bleach or strong solvents to clean any of your outdoor furniture, as it will harm the metal finish. Caution should be used when using oils, lotions and other chemicals, such as chlorine, or repeated exposure to extreme weather conditions (including heat), which may cause permanent discoloration of the frame. Caution should be used when using oils and lotions, as they can attract dirt which can harm your outdoor furniture's finish. Please note that some food items will harm your outdoor furniture's finish. Chemical spills and food spills should be removed immediately from your furniture. To maintain and protect your outdoor furniture, always cover it with an outdoor furniture cover or store it in a safe (covered and protected) interior area of your home when not in use for extended periods of time.

**Cushions:** Store cushions in a clean, dry area of your home when not in use. Do not machine wash or dry the cushions.

**GFRC table tops:** Blot to remove spills immediately to prevent staining. Keep clean using mild soap and water. It is highly recommended to place stone table tops under a cover, away from constant sun exposure and use furniture covers when not in use. It is important to cover the top loosely to prevent moisture from being trapped beneath the cover.

**Sunbrella® fabric:** One of the best ways to keep Sunbrella fabrics looking good and to delay deep or vigorous cleaning is to properly maintain the fabrics. This can be accomplished by simply brushing off dirt before it becomes embedded in the fabrics, wiping up spills as soon as they occur, or spot cleaning soon after stains occur. If mildew or tougher stains occurs; refer to [Sunbrella.com](http://Sunbrella.com) for additional instructions.
