Taking QASHQAI to the next level

Back in 2007, Qashqai invented the crossover. People around the world fell in love with its blend of hatchback compactness and SUV practicality. And it was quite a trend-setter, with crossovers fast becoming a favourite all over the world.

And now, meet the all-new Nissan Qashqai. Bolder and even better equipped, New Qashqai is also safer thanks to new safety technologies* and driving aids* aimed at maximizing security for everyone.

Because wherever life takes you, why not go there in style?

Images and descriptions shown are for guidance purpose. In some instances photos are of non-local specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.

**Features available depending on version, as standard or only as option (at an extra charge).*

A new form of expression

Qashqai brings a new vision to crossover design with muscular proportions, a vibrant palette including available two-tone colours*, brilliant LED lighting*, low-profile aluminium roof rails*, and imposing 20-inch alloy wheels*.

A study in refinement

Everything about the interior of New Qashqai feels advanced. Modern. Uplifted. The modern look and premium materials surround you with space. The ergonomically designed steering wheel, controls and console mean total driving comfort, while enhanced screen visibility and seamless tech integration make you poised, alert and ready to drive.

15W wireless charger*

Improved steering wheel ergonomics

**Features available depending on version, as standard or only as option (at an extra charge).*

Functionality was never more seductive

Appreciate the clarity of the 10.8" Windscreen Head-up display*, 12.3" Fully digital meter* and 9" HD** NissanConnect display* with advanced Connected Services. The three large screens work together in perfect sync for a safer, clearer, more optimised driving experience.

10.8" WINDSCREEN HEAD-UP DISPLAY*. With critical information available without taking your eye off the road, this large, distortion-free projected display makes driving safer and more comfortable.

12.3" FULLY DIGITAL METER* High resolution display with large configuration possibilities based on driver's mood or needs; improved safety with all info displayed in one single place. Switch between the traditional round meter view, or an enhanced view with larger central display.

ENHANCED VIEW

Driving Aids

*Feature available depending on version, as standard or only as option (at an extra charge).

**9" HD touchscreen is available from SV Premium.

Massage mode selector

*Only available on SVE grade

Your personal space has never felt more personal

Relax in the ergonomically designed seats with optimised lumbar support. Enjoy premium materials, quality finishes throughout, and massage seats* for both driver and passenger. There's a new central airbag to help keep you even safer. New Qashqai isn't just an improvement. It's a revelation.

CENTRAL AIRBAG

**Feature available depending on version, as standard or only as option (at an extra charge).*

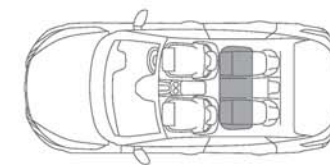

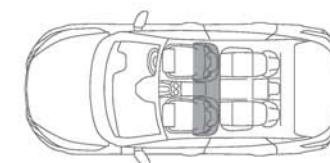

Room for everyone. And more

The New Qashqai combines a spacious interior with a compact, city-friendly exterior for easy manoeuvrability. Passengers sit in comfort in a bigger cabin with room among the best in its segment, easy access and easier child seat fitment thanks to 85° rear door opening, and thoughtful small touches like two USB ports* for rear passengers. Add a generous boot space and it's clear: you can bring your family or friends to any destination in comfort and enhanced spaciousness.

**Feature available depending on version, as standard or only as option (at an extra charge).*

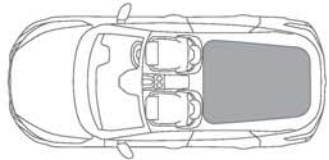

Handsfree power tailgate

504L BOOT SPACE

1593L WITH FOLDED SEATS

Unexpected cargo capacity

Up to 1593L of space means New Qashqai is ready to carry everything you need. Two luggage boards (both with one easily and fully wipeable side) offer 16 boot configurations for maximum flexibility whatever your cargo. Smart features like the Nissan handsfree power tailgate* and wide opening rear doors take the hassle out of packing and unpacking, so you can make the most of your precious days out.

**Feature available depending on version, as standard or only as option (at an extra charge).*

Safety at its heart

Every New Qashqai is equipped with advanced safety technologies designed to watch the road, keep everyone safe and give you maximum peace of mind.

INTELLIGENT CRUISE CONTROL keeps your distance. It measures the distance from the vehicle ahead, controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

INTELLIGENT FORWARD COLLISION WARNING keeps an eye up to two vehicles in front of you. When the system detects a sudden deceleration ahead, it gives you an audible and visual warning to slow down.

REAR AUTOMATIC BRAKING helps you back up with confidence. If a stationary object is detected behind your vehicle, the system can automatically engage the brakes to help avoid a collision.

LANE DEPARTURE PREVENTION A full suite of technologies to help you avoid unintentional lane departure. Keeps you centered in the lane either by steering wheel action or braking in an emergency situation.

INTELLIGENT EMERGENCY BRAKING Monitors the surrounding area in front of the car for vehicles and pedestrians, helping avoid or reduce damage caused by collisions.

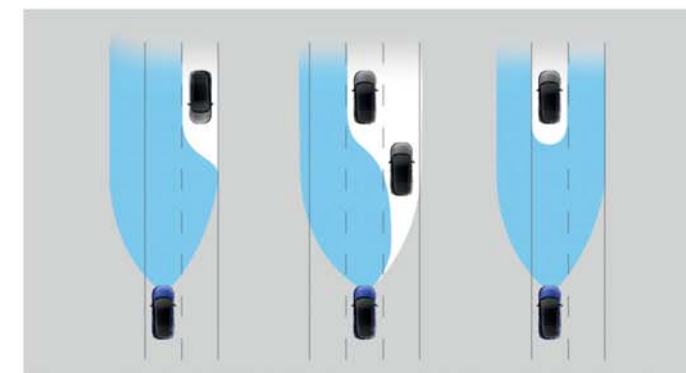

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

Shine a light on safety

New Qashqai is the first car in Europe with Adaptive Driving Beam* Technology. It splits the high beam into 12 individual segments, automatically turning off segments which could dazzle oncoming drivers. Maximum visibility for you, maximum safety for those around you.

*Feature available depending on version, as standard or only as option (at an extra charge).

Tight spot? No problem

If you hate parking, you'll love new Qashqai. The new digital high resolution Around View Monitor* gives you a 360° view of your car, with selectable focus on the front, rear and kerbside view to help you park with confidence and control. Add 4 high resolution cameras for a clearer view of surroundings at low speed and in parking situation for a more secure feeling.

REAR CAMERA
see what's right behind you.

LEFT SIDE CAMERA
flick the switch to see the kerb.

ALL-AROUND VIEW
get a virtual 360° birds' eye view as you manoeuvre.

FRONT CAMERA
get a combined front and overhead view for perfect parking.

**Feature available depending on version, as standard or only as option (at an extra charge).*

ProPILOT with NAVI-Link

All-New Nissan Qashqai includes the latest version of ProPILOT*, ensuring comfortable, relaxed driving on major roads. New software helps smooth your drive and keep you safe in your lane, maintaining an ideal distance from the vehicle in front, whatever the gradient. The NAVI-Link feature connects to the Qashqai's TOMTOM navigation system to anticipate speed limit changes, bends, off ramps and more, adjusting your speed smoothly and gently to keep you in control. It can even initiate an emergency stop and start in traffic, helping you and your passengers stay safe and comfortable even in demanding driving conditions.

**ProPILOT is available on a limited range of vehicles and only on Automatic Transmissions.*

ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways only (road separated by Barriers).

Navilink supports traffic sign recognition which may not detect and read all traffic signs in all conditions. Driver should monitor all traffic sign and obey traffic laws.

It is the driver's responsibility to stay alert, drive safely and remain in control of the vehicle at any time.

For details, please check the Owner's Manual.

Smarter on the inside

Structural and engine optimization have been a key part of the development of the New Qashqai to deliver great driving performance as well as fuel efficiency. The new platform delivers advanced agility and comfort. The stiffer structure offers improved dynamic performance and security, while the extensive use of aluminium body panels reduces the weight for lower fuel consumption.

ALUMINIUM DOOR PANELS AND BONNET
Lighter aluminium panels in the door and bonnet help reduce weight and therefore CO₂ emissions.

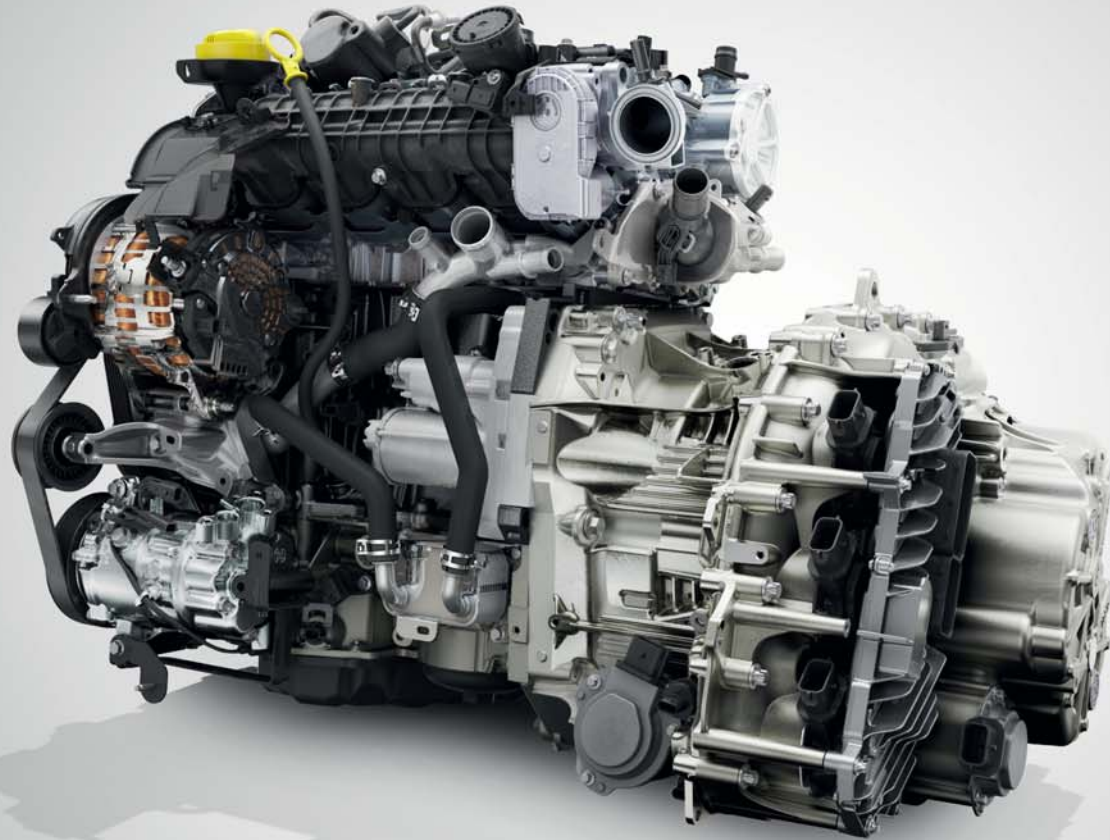

IMPROVED SUSPENSION

As well as an improved standard suspension, New Qashqai is available with a Multi-Link suspension* for even more comfort and sportier, more agile driving.

Some features are only available on certain grades.

**Multi-Link suspension is not available on all versions.*

No compromise efficiency

The new Mild Hybrid HR13 engine offers improved fuel efficiency and reduced CO₂ emissions without losing the fun of the drive. The system includes a Lithium-ion battery which stores energy recovered while braking. This stored power is used to power the vehicle's electrical systems instead of the engine at low speeds (below 18 km/h)* or when stopped, reducing the time the engine is running.

	MT 2WD MILD HYBRID 138HP	XTRONIC 2WD/4WD MILD HYBRID 156HP
Displacement	1.3L with 12V Mild-hybrid	1.3L with 12V Mild-hybrid
Power kW at rpm	103 @ 5500	116 @ 5500
Torque Nm at rpm	240 between 1650-4000	270 between 1800-3750
Fuel system	DIG	DIG
Transmission	6 speed manual	Automatic
Emission regulation	Euro6dfull	Euro6dfull
CO ₂ emissions g/km**	143-146	142-147/ 155-160

e-POWER

Available in 2022 on selected models***, e-POWER technology uses an electric motor to drive the wheels, offering the instant acceleration and whisper-quiet ride of an EV - without the range limit or worries about finding a charge. Unlike traditional hybrid systems, the petrol engine acts as a generator to charge the Lithium-ion battery, which in turn powers the electric motor.

*Extended stop/start functionality during coasting is available for automatic transmission variants only

**CO₂ emissions figures pending final homologation

***Only on automatic versions

Safety and car health

In trouble? Breakdown Assistance calls roadside assistance services when you need them, while Vehicle Health Report informs you of the status of your car.

Navigation & driving

Get where you need to go with Door-to-Door Navigation by sending a navigation route straight from your smartphone to your navigation system. With Driving History & Analysis, check the distance you've driven, the number of trips you've made and more in the NissanConnect Services app

Connectivity

Connect your Android or iOS device for seamless connectivity including voice control.** Access your favourite music, messaging and other apps to stay informed and entertained as you drive.

Convenience and comfort

Access remote services including Remote Door Lock/Unlock, Remote Horn/Lights and My Car Finder from the NissanConnect Services app. And if you ever need help, Nissan Assistance is just a click away.

Seamless connectivity to your world

The new, 9" HD touchscreen* in Nissan Qashqai is your portal to NissanConnect: through intuitive navigation, advanced technology and more. Our smartphone app offers a growing range of services including sending journey plans to your new Nissan Qashqai.

Scan the code to download now the NissanConnect Services app and connect it to your New Nissan.

* 9" HD touchscreen is only available in SV Premium & SVE grades

**Connecting a mobile phone to use NissanConnect should only be done when the car is parked safely. Use of the system should always be in accordance with the rules of The Highway Code. Drivers should only use the system when it is safe to do so. Users should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle.

Intelligent. Intuitive. Informed

When inside your car, connect your phone to start using your preferred apps thanks to Apple CarPlay® and Android Auto. And wherever you are, NissanConnect Services keep you informed about the status of your car.

GOOGLE ASSISTANT AND ALEXA* COMPATIBILITY

Use Nissan connected car capabilities to control your vehicle remotely by voice command from the comfort of your home

Free service ⁽²⁾

NISSAN CONNECT SERVICES

Use the NissanConnect Services app to access Remote Control Services, Smart Alerts and more

Free service for 3 years ⁽³⁾

IN-CAR WIFI*

Use your car as a WiFi hotspot to connect to the internet on board.

Let's go!

Paid service ⁽⁴⁾ - 10GB for €24.99/m

WIRELESS APPLE CARPLAY® AND ANDROID AUTO

Connect your smartphone to access your music, text messages and other favourite apps while you are driving

Free service ⁽¹⁾

For optimal use, we recommend to use the genuine manufacturer cable.

(1) Apple CarPlay® and Android Auto are available free of charge, depending on model and/or grade.

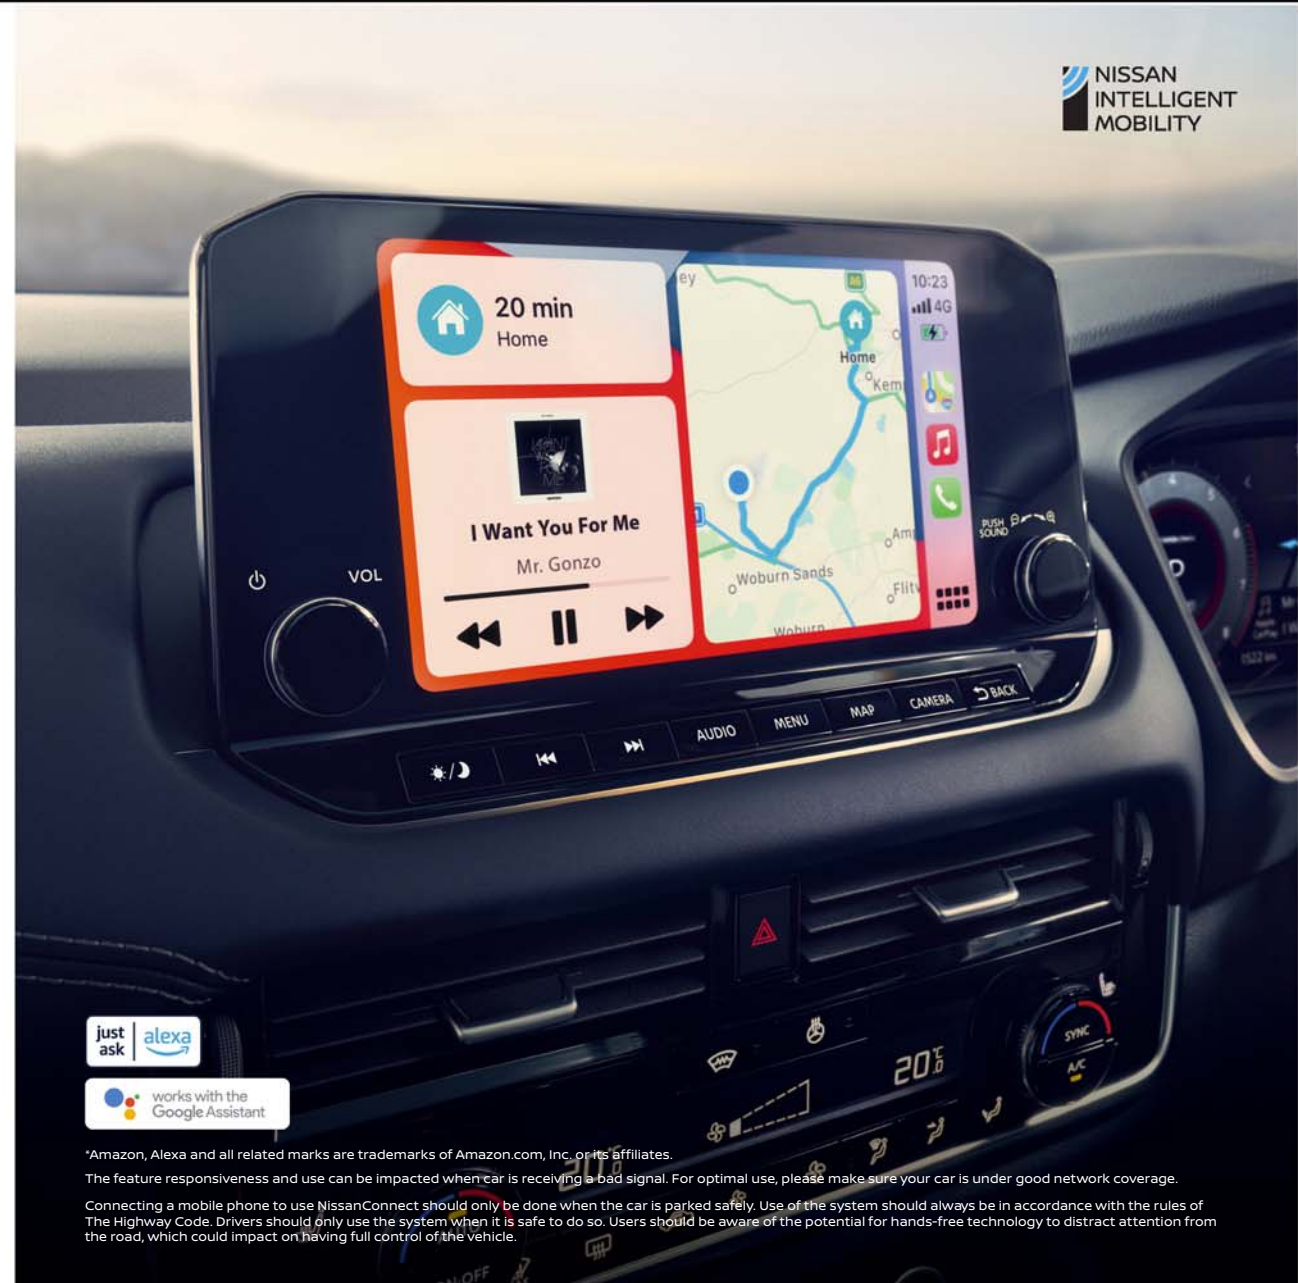

(2) Free services (Nissan on Google Assistant, Driving History & Analysis, Nissan Help & Assistance, Breakdown Assistance) are available free of charge for a period of 7 years, depending on model and/or grade.

(3) Maps & Live Traffic, Remote Control Services, Smart Alerts are available free of charge for a period of 3 years and then available for a fee €0.99/m (Smart Alerts), €1.99/m (Remote Control Services), €2.99/m (Maps & Live Traffic) depending on model and/or grade.

(4) In-Car WiFi is always a paid service available on subscription.

To use the NissanConnect services you need a NissanConnect user account and have to register and log in to NissanConnect with your username and password. To use the free Nissan Connect App, you need a smartphone with a compatible iOS or Android operating system and a SIM card with data option with an existing or separate mobile phone contract between you and your mobile service provider. All services are subject to mobile network coverage.

The use of NissanConnect on-board internet is made possible via an integrated wireless internet connection. Data packets are obtained via selected external mobile communication providers in accordance with their terms and conditions (depending on the availability in your country).

*Amazon, Alexa and all related marks are trademarks of Amazon.com, Inc. or its affiliates.

The feature responsiveness and use can be impacted when car is receiving a bad signal. For optimal use, please make sure your car is under good network coverage.

Connecting a mobile phone to use NissanConnect should only be done when the car is parked safely. Use of the system should always be in accordance with the rules of The Highway Code. Drivers should only use the system when it is safe to do so. Users should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle.

AT NISSAN

We focus
on quality

It comes first in everything we do, in the lab and the design studio, the factory and our dealerships and in our relationship with you. We try, retry and try again. Because everything we do is mastered through experience. We call it Nissan Quality.

360° process

We build in quality from the outset, meticulously conceiving each car to make them more comfortable and more durable through innovative design, intelligent technology and thoughtful details inspired by you.

Safety

We work with our intelligent driving systems to constantly look out for you and help you avoid any mishaps for a bolder, more confident driving experience day after day. Our Around View Monitor uses 4 cameras to give you a virtual birds eye view of your car in its surroundings.

Extreme reliability

We push our cars to the limit to guarantee their daily performance and reliability. We travel millions of kilometres in pre-production tests, open and close doors and bonnets thousands of times a day and use real volcanic dust from Japan to test window resistance.

Service Contracts

Give your Nissan Qashqai the care it deserves with a Nissan Service Contract and save money in the long run. Nissan Maintenance Contract covers all the scheduled operations recommended by Nissan and specified in the Nissan Official Service Manual. Subscribing to a Maintenance Contract allows you to know from the start how much your maintenance will cost and protects you against price inflation. In addition to the scheduled operations, you can benefit from the replacement of wear and tear parts such as wiper blades, brake pads or suspensions by subscribing to a Full Maintenance Contract. Select the duration that covers your needs and benefit from the use of Nissan Genuine Parts fitted by our trained technicians, at a discounted price. A well maintained vehicle has a greater resale value. If you sell your Nissan before your coverage expires, the Service Contract will be transferred to the new owner. So do not wait any longer and subscribe to a Nissan Service Contract for extra peace of mind!

Extended Warranty

Nissan Extended Warranty gives you the opportunity to extend the 3 Years/100,000 km warranty for a longer period or mileage. Select the contract that best suits your driving usage. In case of a repair, only Nissan genuine parts will be used and fitted by Nissan trained technicians.

NISSAN QASHQAI COMES WITH:

**3-YEAR WARRANTY OR 100,000km
New Vehicle Warranty
(whichever comes first)**

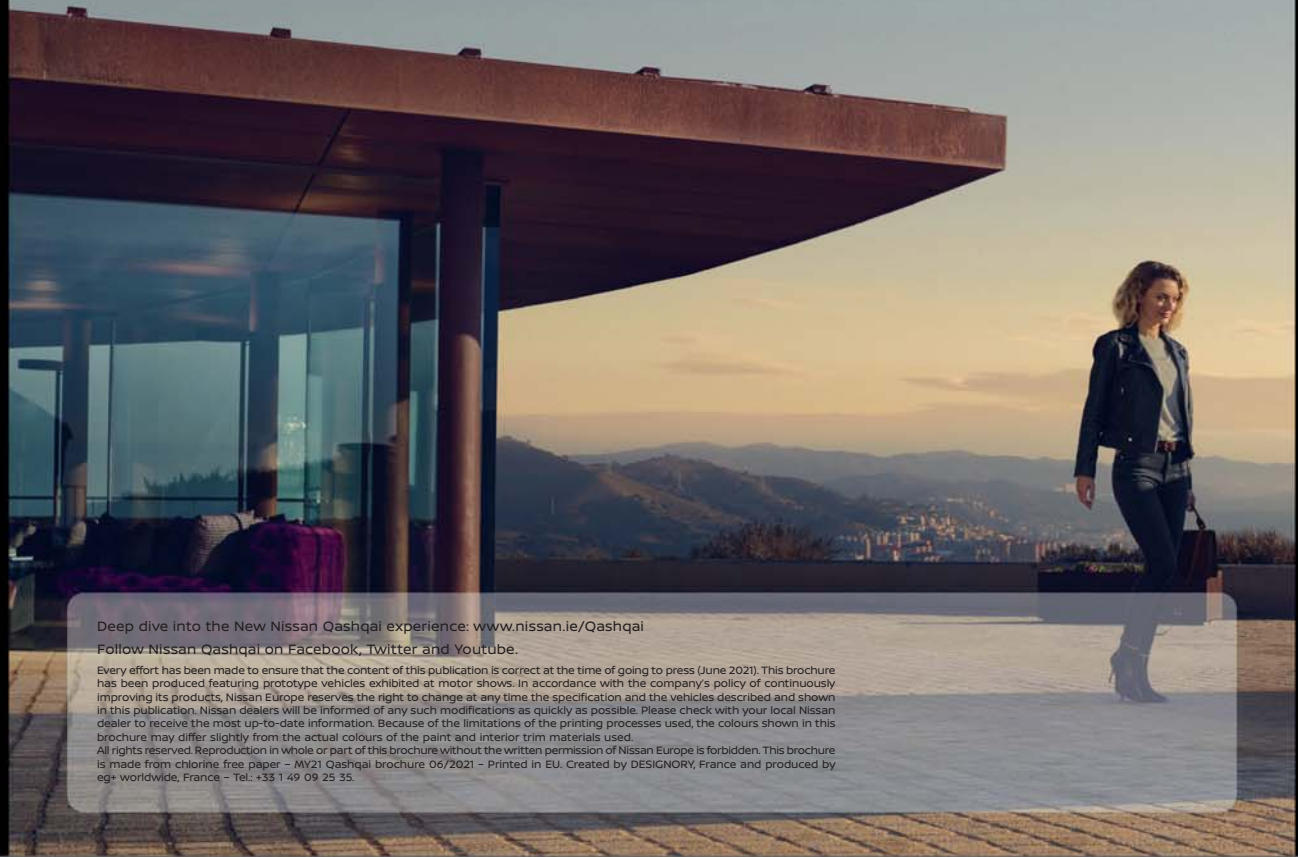

**YEARLY OR 30,000 KM INTERVAL
FOR PETROL ENGINES**

AT NISSAN, YOU BRING OUT THE BEST IN US.

You spark our imagination. You provoke our ingenuity. You inspire us to change the rules and innovate. And at Nissan, innovation is not just about additions and extensions; it's about crossing the line to reinvent the status quo. It's about developing unexpected solutions to satisfy your wildest and most pragmatic desires. At Nissan, we design cars, accessories and services that break the mould - making the practical exciting and the exciting practical to offer you a more exhilarating driving experience everyday.

Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future - moving us to a world that's safer, more sustainable, and exciting.
