iMac G3!

Introducing the new all-in-one super-system that features a furiously-fast 233MHz G3 processor, built-in 15" monitor, 24x CD-ROM drive and integrated modem for easy-to-use one-button Internet set-up and access!

The REALLY Fast, Fun, and Easy-to-Use Mac for ALL of us!

The New Apple® iMac™ G3 combines the excitement and challenge of CD-ROM gaming, the amazing sights and sounds of multimedia, and the virtually endless limits of worldwide Internet access — all wrapped in a new stunning all-in-one design! Everything about the iMac says "cool": from the sleek lines of the translucent Bondi-blue case to its aerodynamic, un-cluttered appearance!

Never a better time to own this Mac!

Mac loyalist or not, everyone agrees — the new iMac G3 is just something they've got to have! It's cool, it's fast, it's loaded, and at this low price, it's a GREAT BUY! Don't wait too long — these new iMacs are going to be in huge demand. Order yours today — they come dressed in Bondi-blue and ready to play!

The iMac includes: Apple USB keyboard, Apple USB mouse, and Mac OS 8.1 system software.

MacWAREHOUSE 1-800-255-6227 warehouse.com

Order 24 hours a day, 7 days a week! • Call today for overnight delivery!

Ordering Information

Our sales staff is ready to take your order 24 hours a day, 7 days a week. Please have the product name and item number, your credit card number and expiration date, billing address for your credit card, and shipping address ready when you call.

To help process your order as quickly as possible, MacWAREHOUSE uses the latest caller recognition phone technology. If you're already a customer and we have your phone number in our database, our computers will instantly recognize your incoming call by the phone number. If you prefer we not use this for your account, please tell your MacWAREHOUSE operator.

We aim to provide you with the latest information about new products and new versions. Certain products are announced by the manufacturer and included in the catalog even though they are not shipping at press time. If an item is not yet available, we will do our best to give you the anticipated delivery date when you call to place an order. Anticipated delivery dates are based on information supplied to us by the manufacturer and are subject to change. If you choose to place an order, your credit card will not be charged until the item is shipped.

U.S. Orders: 1-800-255-6227

Canadian Orders: 1-800-325-3166

International Orders: 1-732-370-4779

Internet: warehouse.com

Fax Orders. You may find the order form bound into this catalog helpful in preparing your fax order.

U.S. Fax Orders: 1-732-905-9279

International Fax Orders: 1-732-905-1135

Upgrades/Trade-ups. Most upgrades require some form of proof of purchase, which varies by publisher and type of upgrade. Please call for details.

Payment Methods. We accept the following major credit cards: Visa, MasterCard, Discover Card/NOVUS, AmEx. Your credit card will not be charged until each item is shipped (no surcharge). If you would rather order by mail using check or money order, please use the order form enclosed for your convenience. CT, IL, NJ, OH, VA, and WA residents add applicable sales tax. Policies, item availability and prices are subject to change without notice. The price in effect when we receive your order will be the price that you are charged. We are not responsible for any typographical errors in this catalog.

Important Note. Please remember to back up all of your data before installing any new hardware, software or peripherals; we are not responsible for any lost data.

Apple products are available for sale to individual and corporate customers only. They are not available for sale to any public or private non-profit educational institution.

Shipping Charges & Delivery. Overnight delivery just \$4.95 per order up to 3 pounds.

For all orders over 3 pounds, shipping is \$4.95 plus an additional \$1.50 per pound or fraction thereof. (Example: shipping for a 4 pound order is \$6.45). Please add an additional \$3.00 for orders \$50.00 and under. UPS Ground service available at current UPS rates plus \$2.95 handling charge per order (except C.O.D.). Orders for "in-stock" items placed on weekdays up until 12:00 midnight (E), 10:00 pm for Internet orders, ship same day for fast, dependable, overnight delivery (barring system failure, etc.). Some areas require an extra day. UPS orders for "in-stock" items placed by 3:00 pm (E) (weekdays) ship same day. We anticipate being able to ship "out-of-stock" items within 30 days. We use Airborne Express, unless UPS Ground offers overnight delivery to your area. Saturday delivery available in most areas at no extra charge. If you require Saturday delivery, please specify that during the ordering process. All U.S. shipments are insured at no extra charge. C.O.D. orders are shipped UPS Ground, or UPS Blue Label if you are more than two days delivery from us. C.O.D. charge is \$10.00 plus current UPS rates. C.O.D. payments must be cash or certified check. Alaska, Hawaii, foreign, and APO-FPO customers please ask for shipping details. Certain products are not exportable outside of the U.S.

Express Customer Service: 1-800-925-6227. To inquire about your order call Monday-Friday 9:00 am-12:00 Midnight (E) and Saturday 12:00 Noon-5:00 pm.

30-DAY Guarantee Against Defects

All items we sell come with the MacWAREHOUSE 30-day Guarantee Against Defects. If your product is defective in any way, all you have to do is call our Customer Service Department at 1-800-925-6227 for a Return Merchandise Authorization (RMA) number within 30 days of the original invoice date. Defective software will be replaced upon receipt of the defective product. Defective hardware will be replaced or repaired at our discretion, except for hardware manufactured by Apple Computer, Inc. All returns are subject to the following: 1. All products must be returned in original packaging. 2. Shipping and handling charges are not refundable. 3. Software and consumables are not refundable unless returned unopened in original packaging with documentation. 4. Custom orders and cables are not refundable. 5. Products designated as "all sales final" are not refundable. In order to speed repair or replacement of certain products, we have made special arrangements for our customers to deal directly with the manufacturer. These products will be identified when you call to get your RMA number.

If your Apple hardware is defective you must call Apple Computer, Inc. directly at 1-800-SOS-APPLE (1-800-767-2775). Apple Computer, Inc. will repair or replace products at its sole discretion. If you do return Apple hardware to us, you will be assessed a 15% restocking fee which will be charged to your account.

Extended On-Site Service*
Here are six great reasons to get complete system coverage:
1 Toll-Free Technical Help available 24 hours a day!
2 Fast On-Site Support with next business day response in most areas for most items!
3 Free Replacement if unit cannot be repaired!
4 No Deductible — 100% coverage on parts and labor!
5 24- and 48-Month Coverage available from date of purchase!
6 Fully Insured — underwritten by A.M. Best!
Call 1-800-255-6227 to get extended support for just pennies a day!
Note: This promotion is not a service agreement, but an outline of coverage available through DFS. Please call Micro Warehouse, Inc. for information and read the complete Service Agreement from DFS for exact coverages, terms, and conditions. On-site service begins after manufacturer's warranty expires. Plan not available on international or Florida orders.

Business Leasing Available with NO DOWN PAYMENT!
LEASES AS LOW AS \$50 PER MONTH!
Why Lease?
You don't need a down payment. You can finance your entire system totaling \$1250 or more—from hardware to software to warranty! Your monthly payment can be as low as \$50 per month! As your business grows or technology changes, you can add equipment to your lease, or trade up to an entirely new system!
How It Works...
1 Call MacWAREHOUSE today to fill out a short one-page application—right on the phone.
2 In most cases, a credit decision will be made within four hours.
3 Once you are approved by Dana Commercial Credit, an agreement will be faxed for you to sign and fax back.
4 We'll ship your order out right away!
Call 1-800-255-6227 for more leasing information!
These business leases are administered by Dana Commercial Credit Corporation. Leases are available for Business customers only and are based on approved credit. Payments are based on a 36 month, full payout lease with a \$1.00 (One Dollar) purchase option. Other terms are available.

EXPRESS DELIVERY OVERNIGHT!

Hi, I'm Lisa. Call me for more great deals!

iomega® Zip®

AutoDetect™ Technology
works on both Macs and PCs!

The capacity

ZipPlus™ Drive

- ✓ Lightweight “universal” power supply!
- ✓ Works on both SCSI and parallel ports!
- ✓ Backward compatible with Zip!

Everything a Zip has...PLUS MORE!

Now you can get everything in a Zip drive, plus much more! ZipPlus's 100MB removable disks are perfect for storing and transporting all your stuff, just like Zip! But now there's even MORE...

AutoDetect™ technology – “Auto-detects” SCSI or parallel port connection.

Multimedia Software – use it to edit/store photos, download/view Web sites offline, and record music.

Lightweight “Universal” Power Supply – provides increased portability and backward compatibility with Zip, plus it automatically senses voltages worldwide.

Power “Stand-By” Mode – reduces unnecessary power consumption.

Added On/Off Switch – gives you a more familiar, “environmentally conscious” power-down mechanism – better than unplugging, and uses less power!

100% Backward Compatibility with Zip!

Zip Disk sold separately.

Compact Size! Only
5.35" x 7.10" x 1.47"

Macintosh Power

Meet the machines that outpaced Pentium® II-based systems!

The sleek, stylish, and extraordinarily flexible Macintosh® PowerBook® G3 computers showcase the high-performance and blazing fast speed of the latest PowerPC G3 processor. In fact, in MacBench diagnostic tests, the 250MHz G3 processor actually outpaced Pentium® II-based systems running at higher clock speeds! This enables these ultra-fast portables to handle even the most demanding tasks, such as rendering sophisticated 3-D graphics and performing complex computations!

Powerful multimedia!

The PowerBook G3s feature a wide array of today's hottest technologies and multimedia components. They are available in flexible configurations designed to meet a broad range of needs. Selectable components include high-quality color displays as large as 14.1," an advanced video graphics controller to speed on-screen graphics performance, and up to 4MB of SGRAM for viewing up to millions of colors! There's even video output support which makes it easier for you to show off your multimedia creations wherever you go!

LEASE FOR AS LOW AS **\$92** PER MONTH* (CPU1162)

For more Adobe Photoshop 5.0 offers visit www.warehouse.com/photoshop

Adobe® Photoshop® 5.0 brings you the power to create compelling images and the precision to prepare them for the printed page, the Web, and virtually any other medium!

More Powerful Tools Include Multiple Undo!

Now you can superimpose images, graphics, and text on multiple layers with Adobe Photoshop 5.0. Create original artwork with a complete set of adjustable brushes and pens. Correct color on Adjustment layers that preserve your original. Add special effects with more than 95 filters. And experiment all you want, knowing you can undo multiple steps with a single click!

Save Time with Batch Processing!

Adobe Photoshop 5.0 software improves your productivity with text layers that you can easily format and edit at any time. With the Actions palette you can record steps and batch-process files automatically. Order yours today!

Top 10 New Features in Adobe Photoshop 5.0

- 1. Multiple Undo.** Quickly undo or redo seven steps so you're free to experiment
- 2. Editable Text.** Set professional type within the Adobe Photoshop program! New text layers enable you to edit text at any time.
- 3. ICC and ColorSync Support.** Support for industry-standard ICC and Apple ColorSync color-management profiles.
- 4. Spot Colors.** Specify spot-color channels that can be printed separately from CMYK plates.
- 5. Layer Effects.** Apply drop shadows, bevels, and glow effects automatically to any element placed on a "live" layer.
- 6. Magnetic Pen and Freeform Pen.** Produce a bézier path that precisely follows the edge of an image with the Magnetic Pen Tool.
- 7. Magnetic Lasso.** Select areas of an image with a tool that snaps to the edge of the item you're tracing.
- 8. Measure Tool.** Measure any distance or angle in your image with the precise ruler/protractor tool.
- 9. Color Samplers.** Place samplers on up to four locations within your image and get exact readouts of color values in those areas.
- 10. Simulated 3D Transform.** Manipulate the size, position, and orientation of a dimensional object within a flat image.

NEW
VERSION!

Attention SAM owners—SAM has a new name:

Norton AntiVirus 5.0 for Macintosh!

SAM's got a new name and is now improved with faster virus scanning and direct-from-CD booting for emergency repairs!

Norton AntiVirus 5.0 for Macintosh is the NEW, renamed and updated version of "SAM" (Symantec AntiVirus for Macintosh) — the long-time #1 selling virus protection for your Macintosh! Norton AntiVirus for Macintosh provides the same automatic, up-to-the-minute protection against viruses from Internet downloads, e-mail attachments, diskettes, shared files, and networks that you've always expected!

To protect your files, NAV 5.0 for Mac stays current with the latest viruses...today and tomorrow!

Norton AntiVirus 5.0 for Macintosh works automatically in the background, removing all known viruses, including macro and Hypercard viruses, and Trojan Horses. Safe Zones can be created on your Mac, allowing files to enter once they have been quarantined and scanned for viruses.

NAV 5.0 for Mac provides fast, effective, and automatic protection—order yours today!

Norton Utilities 3.5

Preserve, Protect, and Defend Your Data!

Alerts you to problems before they happen!

Symantec brings you the latest version of their world-famous collection of tools for protecting your data and repairing disk problems. Norton Utilities 3.5 will actually alert you to potential problems before they arise by continuously scanning for errors in the background. Without interrupting your work, it alerts you to the need for periodic maintenance or possible dangers, and then suggests a solution.

The Doctor is In!

The Disk Doctor utility can quickly diagnose and repair problems—restoring information from crashed hard disks or accidentally erased files! Norton Utilities 3.5 also offers full compatibility with IDE and PCI drives and with Mac™ OS "clones." Upgrade your protection today!

Mac OS 8 and Mac OS 8.1 compatible!

UPGRADE for only
\$49⁹⁵!

Norton Utilities 3.5 Features:

- **New Speed Disk™** now optimizes your drive's performance—up to twice as fast as before!
- **New Bootable CD-ROM** with everything you need to maintain your system on one convenient disk.
- **New CrashGuard™** lets you save your work and helps protect data if there's ever a crash.
- **Disk Doctor™** diagnoses and repairs damaged disks.
- **UnErase™** recovers files that have been accidentally erased.
- **Volume Recover** resurrects an initialized or crashed disk.

Create, Optimize, and Animate Graphics for the Web!

ONLY \$299⁹⁵!

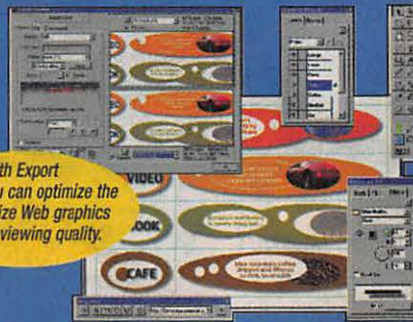

New!

macromedia
FIREWORKS
The Premier Production Tool for Creating Web Graphics

Macromedia Fireworks — The tools you need to create stunning Web graphics — all in one place!

Macromedia Fireworks is the first start-to-finish production tool for creating and optimizing GIF and JPEG graphics for the Web. With Fireworks, editable all the time — images, vectors, text, drop shadows, special effects, and more! You can easily produce GIF animations, image maps, JavaScript buttons — even slice images! Plus, Fireworks lets you quickly preview image quality while optimizing file size for graphics that look stunning and download fast.

Macromedia Fireworks puts all the essential tools you'll need in one tool, you'll no longer have to jump around among applications and utilities! You can be up and running quickly; and start being productive

With Export Preview you can optimize the smallest size Web graphics while previewing quality.

right away with the program's familiar keyboard shortcuts, tools, and concepts. For added functionality, import layered FreeHand and Adobe Photoshop files or even launch and edit Fireworks from within Dreamweaver 1.2.

The Visual Tool for Professional Web Site Design

Macromedia Dreamweaver 1.2

Dreamweaver 1.2 features visual page layout, the control of an HTML editor, and support for Dynamic HTML in one package. It generates HTML code the way you would — concisely, legibly, and correctly, so your pages work well in targeted browsers. Roundtrip HTML enables you to toggle between your current HTML source editor and Dreamweaver 1.2 without fear of changes to your HTML source. Dreamweaver 1.2 makes traditional HTML editing tasks such as table and frame development faster and easier. You will have full control over HTML and more sophisticated Web designs with new HTML capabilities including CSS-P (Cascading Style Sheet Positioning) and Netscape layers. Evolve/Devolve capabilities convert DHTML pages in 4.x browser formats to HTML pages for 3.x browser formats and vice versa.

Dreamweaver 1.2 includes a library of JavaScript, or you can create your own behaviors palette.

Automated batch processing will **SPEED** desktop, prepress, and Web production!

New! Version Equilibrium DeBabelizer 3

Upgrade Only
\$149⁹⁵!*

DeBabelizer 3 will save you time by automating many graphic processing routines, and save you untold hassle by quickly converting graphic images, animation, and digital video files to any of 100 file formats. With its new, easy-to-use, drag-and-drop interface you can quickly modify an unlimited number of images or frames to any specification! Real-time previews and multiple image windows enable you to set up batched changes faster and easier. Now you can eliminate the repeated manual steps in processing files for multimedia, DTP, and the Web!

Batch Processing Will Speed Desktop, Prepress, and Web Production!

- To optimize files for the Web — and speed downloading time — you can convert files in batches from CMYK to RGB, reduce bit depth, and optimize palettes down to Web-friendly colors — all with the click of your mouse
- Acquire, process, and update your Web graphics automatically with HTML Parsing!
- With new CMYK and Apple ColorSync™ support, you can now take your images from any catalog, magazine, or annual report, and automatically process them for delivery on CD-ROM, the Web, or desktop presentations

Translates Images to the Formats You Need!

- Over 100 cross-platform formats to choose from — read, convert, and output with ease!
- Translates into Web-ready animated GIF and QuickTime™ 3.0 formats
- Supports Photoshop® — including third-party plug-ins, new built-in Gaussian Blur, Sharpen, and Custom Convolution filters. Plus it supports Photoshop® CMYK, Scitex CT, TIFF, CMYK, and DCS to RGB formats. Now you can convert from any of these formats and more without compromising color quality!

EQUILIBRIUM
 The Art of Automation™

Whatever you need to do to your images or frames, DeBabelizer 3 does it automatically!

All **NEW** easy-to-use script window enables you to build processing scripts using WatchMe! You can insert or delete commands directly into the script, adjust parameters, or reorder, correct, and preview your changes on the fly!

Assemble **NEW** easy-to-use BatchLists by simply dragging and dropping files, folders, and HTML files. One-button Batch Slideshow, Save, SuperPalette, Catalog, and Picon/thumbnail creation enable you to instantly apply BatchAutomation settings to the current batchlist.

GoLive CyberStudio Personal Edition

Word Processing

Microsoft Word 98

Microsoft® Word 98 Macintosh® Edition makes it easy to create eye-catching documents by automating most common tasks. You can fix common errors on the fly—Grammar Check and Spell It proofread documents as you type—or check word alternatives with Quick Thesaurus. Even though this is a word-processing program, you can now design impressive graphics with the drawing tools in OfficeArt—even create 3-D effects, shadows, multi-colored fills, textures, and Bézier curves. Word 98 also gets you on the Web! Turn any document into a multimedia Web page easily with the "Save As HTML" option. Plus you can add hyperlinks to related files and Web sites.

UPG0787

Microsoft Excel 98

Microsoft® Excel 98 Macintosh® Edition makes it easier than ever to analyze, report, and share your spreadsheet data. Now you can create great looking reports by rotating and indenting text, even merging cells, without tricky formatting or adding extra columns. You can write formulas with ease—Formula AutoCorrect fixes common mistakes on the fly and natural language formulas make it easy to build formulas and equations using your own words. Range Finder makes it easier than ever to drag and drop new data into formulas or even charts. You can present your data and ideas in new ways—a variety of charts, such as bubble, conical, and pie-of-pie, make it easy to show the true meaning of your numbers. Select exactly what portion of your spreadsheet you want to print by simply dragging and dropping your page breaks.

Final Draft

If you are currently a screenwriter or have dreamed of writing a screenplay, you need Final Draft, the number one choice among Hollywood's professional writers. Specifically designed for writing movie scripts, TV episodes and stage plays, it's the only program that combines powerful word processing with professional script formatting in one self-contained, easy-to-use package. There is no need to learn about script formatting rules—Final Draft automatically formats to film industry standards. Scene numbers, MORE's and CONTINUED's, a built-in character list and floating note windows are just a few features that make it easy enough for the novice, yet powerful enough for the most demanding professional. The only things you'll need to

write like the pros are ideas! Now includes Scene Navigator, an outlining feature that uses simulated index cards to restructure your script as you write.

Requires: Mac Plus or higher; 2MB RAM; System 6.0.7 or later.

Bibliographies made easy! EndNote 3.0

More than 150,000 researchers, students, and librarians use EndNote 3.0 software to search online bibliographic databases, organize their references, and create bibliographies instantly and automatically—and now you can, too! Instead of spending hours typing bibliographies, or using index cards to organize your references, you can do it the easy way with EndNote 3.0!

EndNote 3.0 includes more than 100 connection files to seamlessly access remote bibliographic databases, such as MEDLINE, the Library of Congress, and university library catalogs. With just the click of your mouse, the results of your search are transferred directly into your EndNote database. You can then create one-step bibliographies within

Microsoft Word and WordPerfect.

EndNote also includes more than 300 bibliographic formats, or styles, for a variety of academic disciplines and journals. You can use any of these styles—or create your own—to format the in-text citations and reference lists in your manuscripts, term papers, and articles. You can even link references to the full-text article when available on the World Wide Web!

Printer Flats for QuarkXPress

DTP WAREHOUSE™ Desktop Publishing

Get FLIGHTCHECK® 3.3
for only **\$289⁹⁵***
when you buy QuarkXPress 4.0,
Adobe Photoshop, Adobe Illustrator, or
Macromedia FreeHand!
Ask for item # AAP0492.

*Products must appear on the same invoice as FLIGHTCHECK® 3.3. Offer good while supplies last.

FLIGHTCHECK® Collect!

FLIGHTCHECK® Collect! is a basic version of FLIGHTCHECK® 3.3 that assists in "preflighting" all major DTP files such as QuarkXPress, Adobe's PageMaker, Illustrator, Multi-Ad Creator, Photoshop and PDF, and Macromedia's FreeHand. FLIGHTCHECK® Collect's simple interface will assist you in checking digital documents for over 150 potential problems.

Through FLIGHTCHECK® Collect's user definable preferences (called Ground Controls), these Controls will focus on finding problems with Colors, Fonts, and Images. FLIGHTCHECK® Collect! will collect along with the document images and all fonts, including both screen and printer fonts. When you hand a disk to your service provider, you're assured that all of the items comprising the job have been copied onto your disk. Once the job is completed, you can compress the file as a self-extracting archive or BinHex for easy transmission over the Internet.
\$149⁹⁵
DTP0620

Detect over 150 potential printing problems!
FLIGHTCHECK® 3.3

FLIGHTCHECK® "scans" your files in QuarkXPress, PageMaker, Creator, Photoshop, PDF, and FreeHand to warn you of more than 150 potential printing problems. It verifies all elements, such as colors, fonts, and images, and reports a host of possible problems such as missing images or fonts—even fonts in EPS files! After you are assured all is well, FLIGHTCHECK® collects all related files into a single job, including images, and both screen and printer fonts.

Requires: Quadra or higher; 8MB RAM; 5MB hard disk space.

Adobe PageMaker 6.5

Adobe PageMaker 6.5 bridges the gap between printed and on-line pages. Get the fully integrated tools you need to author sophisticated publications for the Internet. Simply create your pages and export them to HTML format or Adobe Portable Document Format (PDF). Expand your design possibilities with breakthrough features — text and graphic frames, automatic reformatting of publications, and document-wide layers. Use an interface that looks and feels even more like those of Adobe Photoshop and Adobe Illustrator. You can even directly import Illustrator designs. PageMaker 6.5 makes it easy for you to produce sophisticated pages in any medium!
Requires: System 7.1 or later; 9MB RAM; 26MB hard disk space; CD-ROM drive.

Multi-Application Support

Convert Quark documents to HTML files while retaining page layout!

Extensis BeyondPress 4.0

BeyondPress 4.0 HTML authoring and conversion software combines exact-copy, WYSIWYG Web publishing with the precision design tools of QuarkXPress. Using cutting-edge Web design technology, you can instantly convert QuarkXPress documents into HTML while retaining all page layout elements. Plus, BeyondPress supports sound

Multi-Application Support

and animation features of the HTML page in addition to offering preview capabilities and automation tools.

DTP0635 **\$499⁹⁵**

Multi-Application Support

Extensis QX-Effects 3.0

Extensis™ QX-Effects 3.0™ software enables you to create visual effects directly in QuarkXPress™. Construct shadows, bevels, glows, and embosses with just a few clicks of your mouse. Simple, intuitive controls enable you to interactively preview and select each effect's shape, shadow angle, blur, color, contrast, and more. You no longer have to switch among applications, recreate, or import files. With just a few clicks of your mouse, QX-Effects produces stunning effects!

Requires: QuarkXPress 3.31 or later; Mac OS System 7.5 or later.

DTP0536 **\$129⁹⁵**

Streamline prepress by automatically gathering fonts and graphics!

Extensis Collect Pro 2.0

Extensis Collect Pro 2.0 software works with all popular page layout and illustration programs to collect the fonts and images

you've used, for perfect prepress delivery. You can preview the collection, add or delete items when necessary, and compress via different methods, or even segment the collection across multiple media.

DTP0636 **\$99⁹⁵**

Extensis QX-Tools 4.0

QX-Tools 4.0 extends QuarkXPress 4.0 with tools designed to help you import any printable file—Word, Excel, EPS, or PDF. Plus, it adds enhanced navigation and editing controls enabling you to move effortlessly from one file format to another. The QX-Tools package also delivers precision features that give you the flexibility to create object style sheets, resize groups of objects, create and assign those objects to layers, or find and change any object attribute.

Multimedia Software

Adobe Premiere 5.0

Adobe Premiere 5.0 software enables you to produce your own high-quality movies for video, multimedia, and the Web. Version 5.0 now features a new user interface that's better organized and easier to use. The Project window enables you to conveniently store video clips in a list. A Timeline window organizes these clips in a sequential line, and finally, the Monitor window enables you to play your video. Another enhancement to Adobe Premiere 5.0 includes a sophisticated track management system that enables you to add up to 99 audio and 99 video tracks to your timeline. Then, you can easily target, hide, display, and edit the content of those tracks or add text rolls and crawls to your titles for added effects.

The professional way to easily create QuickTime VR movies!

QuickTime VR Authoring Studio

QuickTime VR Authoring Studio software helps you create QuickTime VR movies with point-and-click simplicity! Quickly turn photos into virtual reality scenes for your Web sites or other multimedia projects. Or simply drag images from your desktop to the Stitcher windows and the program is ready to create a panorama!

QuickTime VR Authoring Studio is a powerful one-stop solution for producing anything from a simple QuickTime VR movie to a complex multiple object or panorama movie!

QuickTime VR Authoring Studio also provides direct image capture and map support. You can grab 360-degree views of objects using a standard video camera and any Mac OS-based computer that has video input. Plus, you can lay out virtual reality scenes on a

map that enables you to visualize the links between nodes and objects. With QuickTime VR Authoring Studio you can also optimize QuickTime VR panoramas for Web playback by reducing them to as little as kilobytes with standard QuickTime such as JPEG.

QuickTime VR Authoring Studio is a powerful one-stop solution for producing anything from a simple QuickTime VR movie to a complex multiple object or panorama movie!

Requires: PowerPC processor; 16MB RAM; 20MB hard disk space; System 7.5 or later; monitor that supports thousands of colors; video input (for object movies); CD-ROM drive.

Publisher: Apple
GRA2371 \$399⁹⁵

QuickTime VR Authoring Studio Features:

- Creates panoramic images
- Captures images frame-by-frame
- Links panoramas and objects to create "multinode" scenes
- Manages source files — images, movies, hot-spot tracks — used in production of complete scenes
- Automates various operations with AppleScript support

Why You NEED More RAM!

MacWAREHOUSE sells only
**HIGH
QUALITY**
MEMORY MODULES
FROM TOP MANUFACTURERS!

With more RAM (Random Access Memory) you can:

- Open and use more applications at the same time!
- Print large and complicated pages faster and more error-free!
- Use more of your applications' advanced features!

Did you know that upgrading your Mac System with more memory is one of the best moves you can make to get better access to the Internet? In fact, it's just as important as having the latest, fastest modem!

Mac OS 8 and the Internet!

To run Mac OS 8 efficiently and to better handle downloads from the Internet, you should upgrade your system to a total of 32MB of RAM or more. **Remember, when it comes to RAM — the more, the better!**

High Quality Upgrades at their Lowest Prices Ever!

All MacWAREHOUSE Memory Modules are supplied by TOP manufacturers and meet the highest standards for performance and quality. MacWAREHOUSE offers only "Grade A" DRAM modules.

SDRAM for the New Power Mac and PowerBook G3s!

Upgrade your Power Mac and PowerBook G3 system with SDRAM (Synchronous Dynamic Random Access Memory) — the fastest memory you can buy. MacWAREHOUSE now carries SDRAM from 32MB to 128MB for your Power Mac G3 desktop, minitower, or PowerBook.

Four easy ways to determine the type and amount of memory you need:

- 1** To find out the type of memory you need, check your owner's manual for memory requirements. If you're still not sure about your RAM requirements, call our Hardware Hotline and we'll help you determine what type of memory is right for you.
- 2** Check out the Memory Upgrades chart that follows this page for your computer model.

- 3** Visit our Web site and click on the E-Z Memory Configurator on our Web site home page @ warehouse.com/memory/

- 4** To find out how much RAM you currently have, look under the Apple menu in "About This Macintosh..." If you're still not sure how much you currently have, call our Hardware Hotline and we'll help you determine how much memory you need.

ToolKits

For PowerBooks	ACC1535	\$4.95
----------------	---------	--------

- We recommend having an Apple authorized repair center install SIMMs in the Mac Plus, SE, SE/30, Classic, Classic II, Color Classic, Performa 200, and all PowerBook models.
- To install SIMMs in the Mac Plus, SE, Classics and PowerBooks, you may need a special toolkit. These are available from MacWAREHOUSE at minimal cost.

All memory prices subject to change.

QuicKeys PowerPak

QuicKeys PowerPak is a set of eleven custom plug-ins designed to help you work faster with the Web, e-mail, graphics applications, and more.

PowerPak's Tour Guide feature enables you to create and share "tours" of your favorite Web sites, complete with comments about each site. Anyone who uses a Macintosh Web browser can follow a tour by clicking the Tour Guide's "Go" button to launch the next stop.

Requires: QuicKeys 3.5 or later. **\$24⁹⁵**

QuicKeys & PowerPak **\$79⁹⁵**
COM1008 (together)

QuicKeys PowerPak Features:

- Hot key access to any Web site from any application
- Create an e-mail message and attach a file or a group of files in a single step
- Automatically reformat and "clean up" text copied from the Web or an e-mail message
- Lock, unlock, rename, or move a file or group of files quickly and easily
- Display a list of files modified within a user-defined period of time, and launch them with a shortcut
- Launch all the applications and documents needed for a project with a single key stroke.

QuicKeys 3.5.2

Designate a single key, button, or icon to perform simple tasks, like opening a folder, as well as complex routines, like series of formatting commands. Version 3.5.2 adds new features such as custom Toolbars, Floating Palettes, and Click-and-Go Palettes. It even includes a batch processor to execute QuicKeys sequences on multiple documents.

Create and share relational databases on the Internet!

FileMaker Pro. 4.0

FileMaker Pro 4.0 is a comprehensive data management program powerful enough to organize and use all of your information — on your desktop, across your network, and over the World Wide Web.

Easier Information Management with Microsoft Excel!

The relational capabilities enable you to create databases directly from Microsoft Excel spreadsheets! All you have to do is drag any Excel document icon onto the FileMaker Pro 4.0 icon, and the Excel file automatically becomes a FileMaker Pro 4.0 database!

Web Publishing Capabilities!

With its Instant Web Publishing feature, you can instantly create company directories, course listings, and other FileMaker Pro 4.0 databases viewable with ordinary Web browsers.

Powerful Data Management!

With FileMaker Pro 4.0, you can increase the power and flexibility of your database by creating one-to-one, one-to-many, and many-to-one relationships between files. Over 100 calculations enable you to automatically enter, validate, and analyze data.

Over 40 Ready-to-Run Templates!

FileMaker Pro 4.0 provides over 40 professional templates. In addition to a variety of templates for Home, Business, and Education, you get the Shopping Cart, Guest Book, and Employee Database to help enhance your Web site.

Personal Information Management

CalendarMaker 4.1

CalendarMaker is an easy-to-use graphics application that helps you to create presentation-quality color calendars in minutes. You can select from CalendarMaker's library of graphics, create your own icons, or import graphics from other programs. Text on individual dates can be fully formatted and a "floating notes" feature enables text across several dates to highlight trips or other multi-day events. It's ideal for homes, schools, businesses, churches — any place where a calendar needs to be posted on a regular basis.

Publisher: Prairie Group

Site-wide Web creation with maximum flexibility!

NetObjects Fusion 3.0 for Macintosh

NetObjects Fusion 3.0 for Macintosh is the latest version of this site-building software that will enable you to create interactive business Web sites that work! Stay a step ahead with Fusion 3.0's convenient site-wide approach, familiar Macintosh interface, and more than 150 new features and enhancements that give you the increased power and flexibility you need to build visually enticing, interactive sites!

Drag-and-drop support for FileMaker Pro databases enables you to create interactive, up-to-date business Web sites. You can include information such as product catalogs, company directories, and technical specifications by simply dragging and

▲ It's ideal for Macintosh-based site builders creating next-generation business Web sites or evolving current sites.

dropping! You can use AppleScript to gather and filter data from FileMaker Pro, and then schedule where and when to publish your site. NetObjects Fusion 3.0 for Macintosh combines page layout features and complete integration with many popular database programs. You can select page layout options that enable you to take control of HTML in any one of three modes: lay out pages graphically; in all-text for ultra-lean code; and with almost any external HTML editor. You can quickly create sophisticated Dynamic HTML animations, effects, and behaviors with a visual, message-based DHTML environment. DHTML enables you to create pop-up menus that open windows or forms, user draggable objects for product configurations and games, and animated navigation controls.

Special Trade-Up Offer!

Attention Microsoft FrontPage, Adobe PageMill, Adobe SiteMill, Claris HomePage, SoftQuad HoTMetal Pro, GoLive CyberStudio, Symantec Visual Page, or Delta Point QuickSite Owners:

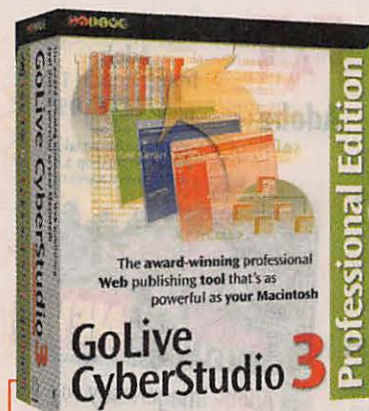

Trade-up to NetObjects Fusion 3.0 for only **\$99.95*** after rebate

*Price after publisher's \$100 mail-in rebate. Price before rebate is \$199.95. NetObjects Fusion must be purchased by 10/2/98. See competitive upgrade certificate on product package for full details.

NetObjects FUSION

With NetObjects Fusion 3.0 You Can:

- Drop and drag to FileMaker Pro databases and extend your business to the Web, giving visitors the information they need.
- Use flexible page layout options that let you take control over your HTML. Create pages using graphical mode, text mode, or, for hand-coded pages, incorporate code from any HTML editor.
- Add DHTML without scripting. Create sophisticated DHTML animations, effects, and behaviors in the first visual, message-based DHTML environment.
- Save yourself having to re-build your site for different platforms or browsers. With Everywhere HTML, you build just once and publish anywhere.
- Map out a site structure in just minutes and easily update it anytime — great for prototyping.
- Leverage your current Web investment by importing your site, then start updating it immediately.

GoLive

GoLive CyberStudio 3.0 only \$299.95

The award-winning professional Web publishing tool!

GoLive CyberStudio 3.0

GoLive CyberStudio 3.0 is a complete software toolset for professional Web site design that's made to be as powerful as your Macintosh! Whether you're a design professional, Web programmer, or someone who wants professional-quality results, GoLive CyberStudio 3's layout, HTML source code

editing, cascading style sheets, dynamic HTML, and Web site management tools will offer you unprecedented control and creative flexibility!

Plus, GoLive CyberStudio 3.0 offers you the unique advantage of seeing how your page will appear in different browsers—even different platforms! For easy-to-build, professional-strength Web pages, order GoLive CyberStudio 3.0 today!

Publisher: GoLive

COM0994

\$299.95

▲ From within GoLive CyberStudio 3.0's WYSIWYG layout mode, you can create and edit cascading stylesheets — seeing changes as they are made!

GoLive CyberStudio 3.0 Features:

- Visually lay out Web pages with full graphical control and DHTML. Create and edit cascading style sheets — seeing changes as they are made. You can also easily generate code for sophisticated JavaScript-based animations and actions that bring your pages to life.
- Easily view and write good, clean HTML source code in GoLive CyberStudio's full-functioning source code editor. A powerful new Web database gives you unprecedented control over HTML source code.
- Create sites quickly using templates and master pages, as well as efficiently manage all the assets and resources of large, sophisticated sites. From within the Site Window, you can connect directly to your Web server via FTP. You can also drag and drop files to and from your server, as well as incrementally upload and download only those files changed.
- Structure your site through GoLive CyberStudio's simple visual interface. You can zoom in on areas of the site hierarchy, change page attributes, or add links. You can even print the entire Site View structure.
- The Link Inspector provides a schematic view of Web pages, showing all the links and allowing you to navigate, change, and create links within a particular page.

PC MACLAN for Windows 95

Miramar's PC MACLAN for Windows 95 is

an award-winning solution for connecting both Windows 95 and Mac OS on your LAN. With PC MACLAN, you can easily share files and drives – including Zip, Jaz, or CD-ROM – in both directions between your Windows 95 PCs and your Macs. Macs can mount Windows 95 directly to the desktop, and PCs can map Mac drives to native drive letters for instant access! Plus, PC MACLAN for Windows 95 provides you with a way to print to any Apple printer on your network and, likewise, gives your Mac access to PC printers. PC MACLAN for Windows 95 installs with ease and supports most cross-platform, groupware, e-mail, and back-up applications.

NEW!

"The fastest and easiest way to get a small company on the 'Net.'"

- PC Computing Issue - 6/97

Whistle InterJet

The Whistle InterJet™ is a remarkably convenient all-in-one Internet appliance that provides e-mail, Web access, and Web publishing productivity to everyone in your office — for as many as 100 users! To get your network of computers up and running on the Internet, you simply plug a phone line and your Ethernet LAN into the back of the InterJet. Through a Whistle-authorized Internet Service Provider (ISP) such as UUNET, the InterJet automatically configures itself and eliminates the need for any complicated system setup.

Web Access

The InterJet gives your employees full networked Internet access to take advantage of the World Wide Web using any of the popular browsers!

The Whistle InterJet Brings You Everything You Want from the Internet! e-mail

The InterJet handles all of your e-mail, both within your office and over the Internet. This enables you to quickly and easily communicate with other employees in your company as well as your customers, business partners, and vendors!

Web Publishing

The InterJet comes with a built-in Web server for both Internet and intranet Web publishing. With the bundled HTML editor, Claris Home Page™, you can publish and update the latest information to your customers and co-workers with drag-and-drop simplicity!

Whistle InterJet gives you these all-in-one features:

- Router
- e-mail
- Firewall
- Web Server
- Intranet
- Web Publishing
- Web Administration

InterJet™

Featuring Internet Service from UUNET, starting as low as **\$42 per month!***

*Sign-up information enclosed in product box.

Security

The InterJet has built-in firewall security to keep people outside of your network from accessing important internal data!

Easy to Set Up and Administer

InterJet was designed to make the Internet work for you, instead of you struggling to work with it. InterJet features an auto-configuration process and Web browser-based administration program.

Reliable Internet Service from UUNET

With service from UUNET, one of the world's largest Internet Service Providers, you get a comprehensive range of access options, Web hosting services, security products, and consulting services for all of your business needs.

Easy to Administer

From the InterJet's Web browser-based administration program, it's remarkably easy to set up user accounts for every person in your office. All you have to do is type in a name and password and click on the services you want each user to have.

Easy to Set Up — Easy to Use

The InterJet was designed to make the Internet work for you. With its auto-configuration process, the InterJet takes all the stress out of installation!

▲ 17" Mc6215 Monitor

*17" monitor with resolutions up to 1152 x 870!***RasterOps Mc6215**

The RasterOps Mc6215 17" (15.9" viewable image size) monitor provides state-of-the-art display technology. It's built with a flat, square, black matrix CRT with Invar Shadow Mask for bold, bright color and a high-contrast anti-glare, anti-static coating for viewing that's easy on your eyes. The Hitachi Mc6215 monitor also features a fine .28mm dot pitch and a maximum resolution of 1152 x 870 at a high 75Hz refresh rate. Plus, Easy Menu on-screen controls make screen adjustments quick and easy. The Mc6215 monitor is Plug-and-Play compatible and meets MPRII NUTEK safety standards. It is covered by a manufacturer's three-year limited warranty on the CRT, parts, and labor.

▲ 19" Mc7515 Monitor

*19" monitor with a 17" monitor footprint***RasterOps Mc7515**

This 19" Auto-Scanning monitor (18" viewable image area) is the first to use Hitachi's new generation Super-FST tube with a state-of-the-art, multi-stop dynamic focus electron gun and auto-astigmatism correction system. With an exceptionally fine .22mm horizontal dot pitch and .14mm vertical dot pitch, the RasterOps Mc7515 delivers one of the sharpest images you can buy. Because of this fine dot pitch, you'll also get true 1600 x 1200 resolutions without simulation! The monitor includes a flat, square, black matrix CRT with Invar Shadow Mask and anti-

static, anti-glare coating. Independently control left and right side pincushion, trapezoid adjustments, brightness, parallelogram, rotation, true-color RGB, white balance, and more. The Mc7515 has low emissions for operator safety (MPRII and CE compliant) and automatic power management and screen saver (EPA/VESA DPMS). The RasterOps Mc7515 comes with a manufacturer's three-year limited warranty that covers all parts (even the tube) and labor.

Create professional broadcast-quality video with hundreds of QuickTime™ applications!

Media 100® qx Digital Video System

Media 100 qx combines the industry-leading image and audio quality of Media 100 with the most popular video editing application — Adobe Premiere®.

Media 100 qx runs under QuickTime, providing seamless integration with hundreds of the most popular QuickTime applications such as Adobe Premiere, Adobe After Effects™, Specular Infini-D™, Strata Studio Pro™ and Macromedia Director™. And Media 100 qx avoids the quality degradation inherent in RGB conversion because, like its predecessor Media 100, it is based on Vincent — a true video processing card that always processes video signals in YUV color space.

Requires: Power Macintosh 7600, 8600, or 9600 with separate 24-bit PCI graphics card; 48MB RAM; System 7.5.5 or later; 14" or larger color monitor; 8.2GB array with SCSI accelerator card; QuickTime 2.1; Sound Manager 3.1 or later.

Manufacturer: Media 100
GRA1804 **\$2099**

Media 100 qx with Component

Media 100 qx with Component combines the industry-leading image and auto quality of the Media 100 qx with support for component video equipment (Y, R-Y, B-Y video input and output). It ships with an external Junction Box for video and balanced XLR audio connections.

GRA1805 **\$3999**

Perform post-production editing on your Mac!

miroMOTION DC30 plus

Perform studio-quality, post-production multimedia editing on your Mac with the miroMOTION DC30 plus multimedia acceleration board from Pinnacle Systems. The DC30 plus captures complete audio input along with up to 704 x 480, or 60 fields, of full-screen, full-motion video. The multimedia acceleration board also handles Motion-JPEG compression and S-Video quality output to video tape. The miroMOTION DC30 plus has a fast, PCI interface and offers video overlay. It features a generous software package which includes Adobe Premiere 4.2, Asymetrix 3D F/X, miro DEMO CD-ROM, and Demo footage from Highlander Uncut.

Requires: 32MB RAM; 2GB hard disk with fast or wide SCSI-2AV connection; 32-bit PCI bus mastering slot; 24-bit graphics board; CD-ROM drive; video source (camcorder, VCR, etc.); sound card.

Manufacturer: Pinnacle Systems

DRI2681 \$949

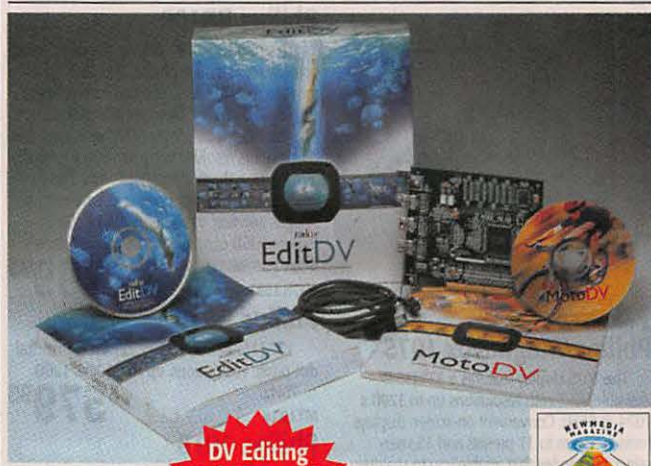

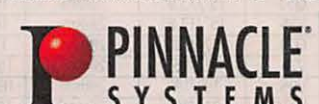

Keep your DV video production in the digital domain!

miroVIDEO DV300

miroVIDEO DV300 is the ideal IEEE-1394 link between your digital video (DV) camcorder and your Mac. This video board's cross-platform design enables you to keep your DV video production entirely in the digital domain. DV Tools software enables frame-accurate camera control and editing with tape and scene archiving. You can use the miroVIDEO DV300 to capture DV video clips to your PC or edit a production of clips. Includes Adobe Premiere 4.2 LE and print-to-tape back to your DV recorder.

Requires: DV video equipment; Power Mac with free PCI slot; 32MB RAM; 50MB hard disk; CD-ROM drive; 2.0GB video AV disk; 16-bit graphics.

DRI2463 \$749

100% digital editing for your desktop!

Radius EditDV™

Dive into all-digital video post production with the Radius EditDV editing software system! Designed for digital video (DV) editors as well as graphics and video professionals, Radius EditDV enables you to integrate editing, compositing, animation, and special effects functions into a single environment. You can create DV video with multiple video and effects tracks, rubber-band audio, and traditional wipes and fades for fast interactive editing, color modification, keying, and true DV editing. Radius EditDV is the "laser printer for video" that will enable you to produce professional quality video — and only you will be able to tell you did it right on your desktop!

Requires: MacOS 7.6.1 or later; QuickTime 2.5 or later; 16- or 24-bit color graphics support; DV camcorder or VTR with FireWire digital I/O.

Adobe PostScript 3

NEW!

▲ColorImage 2400

Fast print speeds and a 1200 x 1200 dpi maximum resolution!

**ColorImage™ 2400
Color Laser Printer**

The ColorImage™ 2400 Color Laser Printer from NewGen Imaging Systems combines Adobe PostScript® 3 with an outstanding maximum resolution of 1200 x 1200 dpi! It beautifully handles letter, legal, and A4 page sizes, and comes pre-loaded with 136 Adobe typeface fonts. Plus, the ColorImage 2400 can handle up to 400 sheets of paper – enough to make even your biggest jobs breeze by!

Fast computer-to-printer communication!

Adobe PostScript 3 drivers generate smaller, more efficient PostScript data streams to help get files from the computer to the printer faster. The printing process is further optimized by the ColorImage 2400's custom-designed controller, which is built around a powerful 133MHz RISC processor. These powerful technologies combine to deliver fast color print speeds of up to three pages per minute, and super-fast monochrome print speeds of 12 pages per minute!

Advanced color management capabilities!

The ColorImage 2400 includes custom Adobe Color Rendering Dictionaries and ICC profiles to enable you to modify the printed colors. Plus, with the included ColorBlind™ Edit™ Lite software, you can adjust ICC profiles to meet a specific need, such as saturated colors for a presentation or to produce quality photographic images.

Easy and clean consumables replacement!

Replacing consumables for the ColorImage 2400 is clean and easy! Since the toner and drum cartridges are separate units, unlike many traditional printers, you can replace only the toner cartridge when depleted. The drum cartridge produces 20,000 pages, so, consequently, toner cartridges can be replaced nearly seven times before a new drum is required!

Manufacturer: NewGen

Imaging Systems

\$3499

PR13732

**ColorImage 2400
Features:**

- Adobe PostScript 3

Printer Accessories

User-friendly RIP enables you to output PostScript to popular color ink jet printers!

PowerRIP 5.0 with Adobe PostScript 3

PowerRIP 5.0 is a true Adobe PostScript 3 RIP (Raster Image Processor) that provides simple, fast, and professional printing results by enabling you to output Adobe PostScript 3 to most color inkjet printers. PowerRIP 5.0's Adobe PostScript 3 drivers have been redesigned to generate smaller and more efficient Adobe PostScript 3 data streams. Application-generated contours and shapes are automatically converted to Adobe PostScript 3 imaging commands, enhancing printing quality and performance!

Designed to accommodate the single user or the entire office workgroup, PowerRIP 5.0 is used by artists, designers, printers, and corporations. Plus, it's up to 9X faster than Level 2 PostScript RIPS, and supports all EPSON printers, including 1440dpi and 6-color printing models.

Manufacturer: Birmy Graphics

PowerRIP 5.0 with Adobe PostScript 3

- New, faster PostScript 3 is 9X faster than Level 2
- Provides finer color controls
- Level 3 color rendering dictionaries
- Built-in print spooler enables sharing among multiple users
- True colors that match the monitors
- Supports SWOP and EURO profiles
- Simulates pre-press proofing systems
- Application-generated shading is automatically converted to PostScript 3 imaging commands
- Print PDFs directly by dropping them into PowerRIP's folder
- Compatible with all EPSON printers, including 1440dpi and 6-color printing models
- Network-ready with built-in EtherTalk
- Includes 136 printer and screen fonts
- Includes profiles for a variety of manufacturer's paper and ink types

Specialized paper captures brilliant colors and lifelike photo reproductions!

Birmy PressProof and PhotoPrint Paper

NEW!

Birmy's new PressProof and PhotoPrint paper simulate SWOP and EURO proofing standards, making them an ideal choice for graphic artists and professional photographers who seek outstanding results!

PressProof paper is available in sizes up to 17" x 26". You can print bleed proofs on your EPSON Photo EX with Birmy's PressProof 11.7" x 19" size.

PhotoPrint is a bright white, glossy paper that will make your colors appear brilliant and lifelike. PhotoPrint paper is great for presentations and photo reproductions.

Both PressProof and PhotoPrint papers can be used with standard manufacturer drivers and, for optimal results, with PowerRIP 5.0.

▲ Arcus II
Color Scanner

**Adobe
Photoshop 4.0
included!**

Arcus II Color Scanner

Exceptional color sensitivity, precision, and speed, combined with an integrated transparency module make the Arcus II Color Scanner perfect for professional use. You can produce 36-bit color, 600 x 1200 dpi scans that meets the demands of advertising and fashion magazines as well as in-house publications and newspapers. The Arcus II has 68 billion color sensitivity which pulls additional detail from shadow areas and reaches the 3.0 dynamic range for transparencies, with a maximum density of 3.2. Plus, the Arcus II Color Scanner comes bundled with scanning software such as Agfa's FotoLook 3.0, FotoTune Scan Color Management, and Adobe Photoshop 4.0 full version.

- Maximum resolutions: 2400ppi (colorSync and ICC compliant); 1200 x 600 ppi (optical)
- 36-bit color
- 3.2D maximum density
- Includes FotoLook 3.0 scanner driver and FotoTune Scan Color Management software

DuoScan Color Scanner

The DuoScan Color Scanner is a versatile, high-resolution flatbed scanner for reflective and transparent originals. Using Agfa's exclusive TwinPlate technology, you can scan reflective art and transparencies on separate beds for independent control over the focal length of the optical path. And both scanning beds can be combined for batch scanning to give you twice the defined scanning area!

With an optical resolution of 1000 x 2000 ppi, a scanning depth of 36-bit color, and unsurpassed speed, DuoScan is designed to meet almost all of your prepress professional needs.

- Includes ICC and Color Sync Aware software to ensure accurate RGB or CMYK color
- Maximum resolutions to 4000ppi (color); 1000 x 2000 ppi (optical)
- 36-bit color
- 3.3D maximum for great shadow detail
- Includes FotoLook 3.0 scanner driver and ColorTune Management software

▲ ScanMaker 4

ScanMaker 4

Microtek's new 36-bit, single-pass ScanMaker 4 is the all-in-one scanner for the corporate communication specialist, designer, or production manager. It features a 600 x 1200 dpi full legal-size reflective scan bed, as well as a built-in transparency bay for scanning multi-format film sizes up to 8" x 10". The ScanMaker 4 is a dual media scanner so you can scan photographic prints on the scanner's upper bed or film originals from the ScanMaker 4's internal transparency bay — all with Microtek's patented Emulsion Direct Imaging Technology (E.D.I.T.). This produces sharper, cleaner images loaded with detail. The ScanMaker 4 also features full 36-bit color input/output capabilities and is bundled with ScanWizard, Adobe Photoshop LE, and Caere OmniPage Limited Edition OCR.

- 36-bit color
- 600 x 1200 dpi; 9600 x 9600 enhanced
- 8" x 10" transparency scanning area; 8.5" x 14" max.
- E.D.I.T. (Emulsion Direct Imaging Technology) for color-rich, clean images
- Includes ScanWizard, Adobe Photoshop LE, and Caere OmniPage Limited Edition OCR software

Super CoolScan 2000 ▲

The most revolutionary development in film scanning! Nikon Super CoolScan 2000

The Nikon Super CoolScan 2000 scanner delivers unprecedented color accuracy, unmatched detail, and automatic removal of surface imperfections from your scans. This extremely versatile unit scans 35mm film in strip or slide formats and APS (Advanced Photo System) film. Featuring Digital ICE™ technology, it automatically removes surface defects such as dust, scratches, water spots, fingerprints, and other surface imperfections on the scanned image. The Nikon Super CoolScan 2000 offers an average scan time of 30 sec., with a true optical resolution of 2700dpi. With multiple-sample scanning, you can combine 4 or 16 scan samples for clearer, more detailed images. Plus, the optional auto slide feeder enables you to batch scan up to 50 slides at one time!

Scanners

SprintScan 35 LE

Scan positive or negative 35mm transparencies and strips in under one minute with Polaroid's SprintScan 35 LE! Suited for creators of multimedia presentations, Internet Web pages, and desktop publishing documents, the SprintScan 35 LE features a 10-bit A/D conversion for a 30-bit color depth. With a native optical resolution of 1950dpi and a 3.0 optical density range, you'll be able to enlarge your images without sacrificing the quality of the original scans.

The SprintScan 35 LE also features software-based color sharpening and correction. There are even software image controls such as crop, resize, auto exposure, cast removal, gray balance correction, and more. Plus, you get Adobe PhotoDeluxe on CD for editing and adding special effects to your scanned images. SprintScan 35 LE comes with a manufacturer's one-year warranty.

Requires: Mac II or higher (PowerPC recommended); 12MB RAM (32MB recommended); System 7.0.1 or later (System 7.5 recommended).
Manufacturer: Polaroid

INP0913 **New Low Price!** **\$699⁹⁵**

▲ SprintScan 35 ES

SprintScan 35 ES

Similar to the SprintScan 35 Plus, the SprintScan 35 ES delivers fast, high-quality scans using Digital Signal Processing and Image Quality Assured. In under one minute, it can scan positive and negative slides to produce 30-bit output in optical resolutions from 72 to 2700 dpi. With the SprintScan's use of 10-bit color (RGB) and 3.0 Density Range, it detects a broad gamut of palette colors and gives you high shadow detail. In addition, SprintScan 35 ES comes with Adobe PhotoDeluxe software so you can easily customize your images.

Requires: Mac II or higher; 8MB RAM (16MB recommended); System 7.0.1.

▲ SprintScan 35 LE

▼ SprintScan 35 Plus

FREE!
Image AXS Software included with all SprintScan Film scanners shown here!

SprintScan 35 Plus

Meet the scanning challenges of high-quality design and publishing applications with the SprintScan 35 Plus slide scanner! You'll get fast, highly accurate scans with Digital Signal Processing (DSP), hardware-based sharpening, and color adjustment.

Designers can also save a lot of time performing color adjustments with Image Quality Assured™ (IQA), Polaroid's proprietary image enhancement software platform. With IQA, corrections can be made during the image preview using preset standards or using your responses to pop-up questions regarding the image. IQA examines the entire image and adjusts specific areas within it for balance in relation to the whole scene. It will even make adjustments according to a specific film's color attributes.

The SprintScan 35 Plus delivers scans at an optical resolution of 2700dpi in under a minute! It scans 35mm positive and negative transparencies and strips at 12-bits per color for a full 36-bit color depth. You'll also be able to capture very high shadow and color detail with SprintScan 35 Plus' 3.4 optical density range, the full density range available in the best original transparencies. Plus, you get Adobe PhotoDeluxe on CD.

Requires: Mac II or higher (PowerPC recommended); 12MB RAM; System 7.0.1 or later.

OCR Software

Turn paper documents into editable text without typing!

TextBridge Pro 8.0

TextBridge Pro 8.0 has been updated to work seamlessly with Mac OS 8.0! TextBridge Pro 8.0 can easily turn any printed page — faxes, photocopies, or articles — into electronic documents you can use within seconds in your favorite Macintosh™ applications. You can edit printed documents without retyping, turn price lists into spreadsheets, or newsletters into Web pages. Fast, easy, and accurate, TextBridge Pro 8.0 makes your scanner work harder, so you don't have to!

Requires: System 7.1 or higher, Macintosh 68030, 68040, or PowerPC CPU, 21MB of disk space for installation; 5MB for minimal installation, 10MB RAM; 12MB recommended.

Publisher: Xerox Corporation **\$49⁹⁵**
UTI1270

Mac OS 8.0 Compatible!

TextBridge Pro 8.0 Features:

- Mac OS 8.0 Compatible — works with the latest Macintosh Operating System
- Up to 82% Improved Accuracy — fewer OCR errors reduces editing time
- Improved Table Recognition — automatically converts tabular data into word processing cell tables or Microsoft Excel and Lotus 1-2-3 spreadsheets
- Improved HTML Output — easily add documents to your intranet and Internet Web site
- Improved Installer — enables you to install just the options you want
- Hover Help — immediately provides feedback by "hovering" over the item in question

NEW!

Sony Digital Mavica FD51

The Sony Digital Mavica FD51 floppy disk digital camera has a new slim, eye-catching design. It records up to 40 images on a standard 3.5" floppy disk that you can play back on almost any PC — no extra wires or load drivers and adapters necessary.

The Digital Mavica FD51's four pre-programmed special effects enable you to change the look and feel of your pictures in-camera and in real time, while six different exposure modes help you make your pictures shine, even in the most difficult lighting. Plus, you can view your shots instantly through the large, 2.5", full-color LCD screen, which prevents eyestrain.

Manufacturer: Sony

GyroPoint Pro II AV Cordless Mouse

With GyroPoint Pro II AV model you also get Gyrotools presentation software and a PC-serial connector.

IN6451 (Mac and PC) **\$169**

GyroPoint Pro II Plus

Including carrying case and Kai's Power Show software and all features of the GyroPoint Pro II AV.

INP1574 (Mac and PC) **\$199**

GyroPoint Pro II

The GyroPoint Pro II is unlike any remote pointer or wireless mouse you've ever used. With a simple, natural wrist movement, you can glide the cursor effortlessly across the screen from up to 75 feet away!

A multi-channel radio design makes infrared a thing of the past. The GyroPoint Pro II transmits through walls, windows, and even people — you don't need to point it at the screen or line it up with the receiver!

The GyroPoint Pro II uses your existing mouse driver — Microsoft, Logitech, Apple Macintosh or virtually any mouse driver. Just plug it in and you are ready to present — no software to load!

AverMedia[®]

Bridging PC/MAC & Video

Mouse & remote scan converter—the ultimate presentation tool!

AverMedia AVerKey5 Plus

Get enhanced text display support and true 24-bit color depth and resolutions up to 640 x 480 (Mac), 800 x 600 (PC) with 16.7 million colors. The powerful features include remote mouse and remote control in one, touch panel control center, video switcher function, and three types of extra zoom functions.

GRA1942 **\$399⁹⁵**

AverMedia AVerKey300 Features:

- Area Zoom — This patent-pending function divides your VGA screen into separate sections for easier, more specific zoom capabilities
- Wider horizontal/vertical frequencies (24KHz-65KHz, 50Hz-100Hz)
- Infrared remote control
- Comp/S-Video/Scart RGB output
- Full screen underscan/overscan (underscan up to 1024 x 768)
- Supports resolutions to 1024 x 768 with up to 16.7 million colors
- Dual-display capability enables you to keep both a TV and your computer display in operation during your presentation

I-Point Laser Remote Control

Mouse and keyboard remote control

I-Point

The I-Point remote pointing system is an advanced mouse and keyboard remote control for presenters, trainers, and educators. Includes over 50 tools to spice up your presentations — zoom, draw, highlight, screen black, screen capture, and much more! Features miniature joystick technology that outperforms traditional trackballs. Extended battery life of two to three times greater than trackball remotes. I-Point has a range up to 80 feet. I-Point's ergonomic button placement makes it effortless to use. Plug into a mouse port without software for complete mouse emulation, or install I-Point software for keyboard emulation as well.

Manufacturer: Varatouch Technology Inc.

BUS0647 **\$119⁹⁵**

I-Point Laser

Includes a high-quality laser with pointing range up to 300 feet.

BUS0646 **\$169⁹⁵**

▲ I-Point Laser Remote

Simple, customizable, two-button control!

ProPresenter

The ProPresenter offers you the functionality of a 35mm slide projector "clicker" with a simple, two-button forward and reverse control — all in a credit card-size unit! Though small in size, it has a range of 30 feet!

The ProPresenter's compact design makes it ideal for use with laptops. To help meet all of your presentation needs, it's compatible with all software — both Mac and PC! Plus, its buttons are customizable, making even complicated computer commands as easy as the push of a button!

Setting up your ProPresenter is easy, too. It simply connects to your computer's mouse port. If you still need your mouse, you can plug it into the back of the ProPresenter receiver.

BUS0352 **\$79⁹⁵**

AVerKey5 Plus Features:

- Wireless remote mouse/remote control in one
- Touch panel control center
- Supports resolutions up to 640 x 480 with 16.7 million colors
- Simultaneous display on computer and TV monitors
- Three different types of zoom functions include zoom and pan, area zoom, and cursor position zoom
- Full-screen and horizontal underscan/overscan
- Comp/S-Video/RGB Video output

▲ Free Electronic Marker™ software! Turns your cursor into a marker or highlighter for on-screen annotations.

TView Silver

TView Silver™ provides a low-cost, high-quality alternative to LCD panels and overhead projectors. With the FS-300 digital video processor, this plug-and-play converter enables you to display your computer images from your computer to any television. TView Silver supports Mac, Windows, and NEC platforms at 800 x 600 resolution, 72Hz, and 24-bit color. TrueScale™ image compression and DVP technology provide unsurpassed picture quality. TView Silver also includes an infrared remote control, built-in Kensington MicroSaver Lock Port, and Electronic Marker software.

SmartBoard Keyboard ▲

SmartBoard

DataDesk's SmartBoard is designed to assist in the lessening of repetitive-stress injuries by helping you type with your hands, wrists, and forearms in a more natural position.

Its keys fan out in the same way your fingers do. Unlike other split keyboards, you'll never mistype all those letters that can be hard to find (like "Q," "W," "P," "O," and "Z"). At only 17" wide, the SmartBoard is 20% smaller than other ergonomic keyboards available and fits easily in a standard-sized keyboard drawer.

Manufacturer: DataDesk

INP1466 **\$99⁹⁵**

Lil' BigBoard

The Lil' BigBoard is based on the award-winning design of DataDesk's popular TrackBoard. It has a footprint that is 30% smaller than other keyboards — only 15" wide — yet provides the full functionality of larger extended keyboards.

Features include:

- 18-key calculator-style numeric keypad
- 15 user-definable function keys
- Color-coded key caps for frequently used keys
- Positive tactile-feedback key switches

INP1465 **\$79⁹⁵**

TrackBoard

With DataDesk's TrackBoard, you can type, point, and click without ever moving your hands from the keyboard.

Features include:

- Built-in, full-size three-button trackball
- 30% smaller footprint than other keyboard/trackball combos available
- 15 user-definable function keys
- Optional numeric keypad

Upgrade to PowerPC 750 speed!

MAXpower G3 CPU Upgrades

MAXpower G3 offers an affordable way to get the latest in fast processor technology for your Macintosh! These upgrade cards are built around the PowerPC 750 chip along with a superior backside cache, which will give you fast results — as much as three to four times faster processing!

The use of backside cache is one of the key elements to the MAXpower G3 series upgrades. The cache resides on its own bus, running up to 300MHz! It does not run on the system bus as found with "in-line" or conventional cache configurations; therefore, it is not tied to the slower system bus speed. That means this CPU upgrade will make your computer run faster than ever!

Manufacturer: Newer Technology, Inc.

Increase your productivity — Invest in a MAXpower G3!

MACH Speed™ 604e Processor Upgrade Cards

Utilizing the latest 604e PowerPC processors, the MACH Speed cards deliver maximum performance at a fraction of the cost of a new machine.

Only the MACH Speed processor upgrade cards possess Multiple Variable Processing (MVP) technology. Through precise adjustments of the BUS speed and the BUS ratio, MVP can achieve stable processor speeds 10–15% faster than the rated speed of the MACH Speed card!

The MACH Speed 604e processor upgrade cards are compatible with Apple's Power Mac™ 7500, 7600, 8500, and 9500. Includes a manufacturer's two-year warranty. Call for Power Computing and Umax upgrade cards!

Requires: Mac OS Computer with 604 PowerPC processor and PCI architecture; 12MB RAM; System 7.5.3 or later.

▲ SyJet 1.5GB

The performance solution! SyJet 1.5GB

The SyJet 1.5GB from SyQuest solves the problem of limited hard drive space! With 1.5GB of capacity and super-fast performance, you can access files in seconds.

Because SyJet cartridges are removable, you'll never run out of storage space. Store video clips on one cartridge, musical sampler data on another, and huge Photoshop files on the next. Or you can even access multimedia presentations, Internet browsers, and more—project after project—one cartridge after cartridge!

SyJet works like a hard drive, so you can work directly from it without sacrificing performance. With burst rates of 10MB/sec. and a 7MB/sec. sustained maximum read/write data transfer rate, SyJet is ideal for audio/video and other data-intensive applications. It also features a 256K intelligent caching buffer to speed performance—seek times are less than 12ms!

EZ Flyer 230

The EZ Flyer is an easy-to-use removable cartridge drive that goes beyond the ordinary storage capability of fixed hard drives. It's capable of storing up to 230MB on a 3.5" data cartridge, so now you can transport huge graphics files with ease! And when you need more storage space, simply pop in a new cartridge.

Plus, EZ Flyer's compact size and light weight allow you to take it wherever you work! You can easily transport data and swap data with others. EZ Flyer 230 provides quick access to your data with an average seek time of 13.5ms—almost three times as fast as a magneto-optical drive! It also offers a sustained data transfer rate of 1.25MB/sec. (parallel).

In addition, the EZ Flyer 230 works with both new EZ Flyer 230 data cartridges and EZ 135 cartridges. And it includes utility software, one cartridge, a 25/25 SCSI cable, and a manufacturer's one-year warranty.

Requires: 6.0.5 or later.

PowerUser CD-ROM Drives Feature:

- Your choice of three speeds: 16X, 24X, or 32X
- Fast data transfer rates — up to 4800KB per second!
- Ultra-fast access times — lower than 100ms!
- Wide compatibility — PowerUser drives can play your favorite game CDs, video CDs, photo CDs, audio CDs, as well as CDI
- Everything you need in each box — essential cables, power cord, external terminator, and driver software are included
- Manufacturer's one-year warranty

Introducing
the NEW DynaMO!
Only
\$349⁹⁵!

FREE!*
3-pack
of 640MB
cartridges!

DynaMO® 640SE Magneto-Optical Drive

The DynaMO® 640SE features a lighter, sleeker design and faster access time, yet it costs even less than previous versions! Storing up to 640MB on standard 3.5" Magneto-Optical disks, it's perfect for multimedia, CAD/CAM, desktop publishing, and a variety of other demanding applications. Transport data between desktop and laptop. Order this affordable, extremely reliable storage solution today!

- **NEW!** 28ms access time — compared to 35ms of the previous version
- **NEW!** Sleeker design — almost half the weight of the previous version
- 2MB buffer and up to 3.9MB/sec transfer rate
- Supports 640MB, 540MB, 230MB and 128MB media

- Less than 4¢ per megabyte
- Rewritable up to 10 million times!

Manufacturer: Fujitsu

Double the amount of speed and devices through a single PCI slot!

PowerDomain 3940UW

The Adaptec PowerDomain™ 3940UW UltraSCSI accelerator is the ideal I/O solution for high-speed data transfers between your Power Macintosh with PCI and SCSI peripherals. It moves data as fast as 80mb/s on two SCSI channels and connects up to 30 peripherals, so your hottest applications never have to wait for I/O!

DR12446 **\$549⁹⁵**

Two digital-ready interfaces on one PCI-based card!

HotConnect Ultra 8945

Combining both 1394 and Ultra Wide SCSI interfaces on a single PCI-based card, the HotConnect™ Ultra 8945 from Adaptec saves you a PCI card slot for other uses. With more and more electronic devices moving into the digital realm, facilitating their connection to computers via the new 1394 interface standard, the HotConnect Ultra 8945 is the convergence point for this digital revolution. You can connect up to 62 1394 devices and 15 SCSI devices with one card, and transfer data at up to 40MB/sec. Plus, with the included software, you can capture picture-perfect digital video!

EX8636 **\$599⁹⁵**

adaptec

Create CDs that can be played on virtually any audio CD player!

Toast 3.5

Adaptec's Toast 3.5 CD-R software enables you to create your own data, audio, and mixed mode CDs. You can create and distribute CDs that are readable in any CD-R on the market. You can use it at work to archive software and files, distribute data to clients, and more. Plus, you can copy songs directly from CDs without having to store them on your hard drive.

Toast 3.5 software can be used to create audio CDs that can be played back in virtually any audio CD player. Its gap editing feature allows you to specify the length of pauses between songs.

CD1850 **\$99**

Optical Drives/ CD-ROM Drives

Create professional quality audio CDs that meet commercial standards!

Jam

Jam CD-R software can help you create professional quality audio CDs that meet established commercial CD industry standards. It uses sound files on your hard disk, such as AIFF, SDII, or WAV files and converts them into audio tracks on CD.

Jam offers musicians, studio engineers, and sound designers many features to create quality audio. It fully supports PQ subcode editing for commercial audio CD production. You can cross-fade between songs, trim track lengths, adjust individual track volumes, and more! Used together with Toast, you can create CD Extra discs – CDs that contain not only audio, but also data files, such as video!

Requires: 68040 processor or faster; Mac OS 7.1 or later; 8MB RAM; CD-R drive; CD-RW

CD1849 **\$299**

Help your I/O subsystem keep up with data-hungry applications!

PowerDomain 2940UW

The Adaptec PowerDomain™ 2940UW UltraSCSI accelerator is a high-performance, flexible I/O subsystem for publishing, prepress, digital video, multimedia, and other data- and graphics-intensive applications. It can move data at rates as fast as 40mb/s and connects up to 15 SCSI peripherals. It's the perfect match for the processing muscle of the Power Macintosh with PCI.

Manufacturer: Adaptec

Mac Peripheral Sharing

Share multiple CPUs, monitors, and printers from one location!

Mac ServeView+ KVM Switch

- Perfect for small business and high volume server rooms
- Save time, space, and money
- Video frequency up to 1600 x 1280
- No more costly adapters or platform converters

Mac ServeView+ is an advanced KVM switch designed to consolidate multiple CPU control to a single keyboard, monitor, and mouse. ServeView+ reduces clutter, and saves space and money in the computer room, data center, or classroom by eliminating the equipment and power costs associated with operating multiple keyboards, monitors, and mice. ServeView+ saves time by providing convenient centralized control of all your systems, so there is no more moving between workstations.

DSD1856: 2-Port ServeView+ \$594^{99t}

Essentials for your PowerBook

Hand-Held PDAs

▲ Custom designed serial auto switches for Mac application!

momentum

Quickly add more ports to easily connect more peripherals and PDAs!

Ready Port Doubler

Just launch the "Ready-Installer" to guarantee "Plug & Play" connection of your devices with your Mac!

PDA Ready PortDoubler

The PDA Ready PortDoubler enables you to simultaneously connect your PDA and your modem to your Mac's modem port. It also utilizes SmartPorts™ to automatically connect to the correct device when you Hot-Sync your PalmPilot (or other PDA) or use your modem. The PDA Ready PortDoubler works with PalmPilot, Palm III, Newton, Psion, TI, Sony, and more!

Requirements: System 7 or later.
Manufacturer: Momentum

DDS1375 **\$6999**

Camera Ready PortDoubler

The Camera Ready PortDoubler enables you to simultaneously connect your Digital Camera and your modem to your Mac's modem port. It also utilizes SmartPorts™ to automatically connect to the correct device when you are downloading images from your camera or using your modem. The Camera Ready PortDoubler works with Kodak, Olympus, Sony, Epson, Canon, Fuji, Agfa, Apple, Connectix, and more.

Requirements: System 7 or later.

DDS1386 **\$6999**

Printer Ready PortDoubler

With the Printer Ready PortDoubler, you can simultaneously connect two printers to your Mac's printer port and utilize SmartPorts™ to automatically detect and connect to the correct printer. The Printer Ready PortDoubler works with Appletalk and inkjet printers, Epson, HP, Apple, Seiko, Costar, GCC, Tektronix, PowerPrint, and many more printers!

Requirements: System 7 or later.

DDS1377 **\$6999**

Get a **\$35** rebate when you purchase a PalmPilot Modem and any Smartcode Software product between 7/15/98 - 10/15/98. Details on Smartcode box.

Only **\$379!**

Palm III

The Palm III™ connected organizer is the third generation of the award-winning line of smart organizers from 3Com that can connect to and synchronize with your PC. It includes a pocket-size connected organizer with backlight, infrared, date book, address book, to-do list, memo pad, expense, e-mail, upgradeable memory, and 2MB of RAM. Plus, it's Internet ready which means it will work with Network HotSync and other applications that require TCP/IP.

Essentials for your PowerBook

Upgrade to PowerPC 750 speed! NUpowr G3 CPU Upgrades

NUpowr G3 offers an affordable way to get the latest in fast processor technology for your PowerBook! These upgrade cards are built around the PowerPC 750 chip along with a superior backside cache.

The use of backside cache is one of the key elements to the NUpowr G3 series upgrades. The cache resides on its own bus, running up to 125MHz! It does not run on the system bus as found with "in-line" or conventional cache configurations; therefore, it is not tied to the slower system bus speed.

Manufacturer: Newer Technology

Preserve, protect, and defend your data!

Norton Utilities 3.5

Norton Utilities 3.5 is among the most powerful collections of tools ever developed for crash prevention, data protection, and data recovery on both Power Mac and Macintosh systems. Norton Utilities 3.5 proactively prevents trouble by alerting you when problems arise. It recovers data from disaster strikes and even rescues data from totally trashed disks. Plus, Norton Utilities 3.5 scans for disk errors in the background, alerts you to problems before data is harmed, and notifies you when maintenance is recommended. With the included Norton CrashGuard, you'll have help saving data in the event of a crash. Should disaster strike, Norton Utilities 3.5 has all the tools you need for complete data recovery and disk repair.

Virus protection for your Macintosh!

Dr Solomon's Virex 5.8

Virex 5.8 anti-virus software ensures your Macintosh is protected against virus sources such as downloaded Internet files and diskettes or servers. Simply click on the Universal Scan-At-Download™ feature to shield your Macintosh from downloaded files, giving you complete protection—there's no need to locate and select folders or files. Scan-At-Download™ will scan Zip archives, as well as files compressed by Stuffit Deluxe, Compact Pro, and more. Virex 5.8 even catches viruses hidden in e-mail attachments! If you download an infected file, Virex 5.8 will alert you and quickly repair the file without launching other applications, saving you valuable time. Virex 5.8 is easy to configure and use. Scheduled scanning can be performed, and with Mac OS 8, the Virex Contextual Menu Plug-In provides instantaneous scanning.

Virex 5.8 Key Features:

- Unsurpassed macro virus protection
- Scans Macintosh compressed files, plus Zip archives
- 24 hour virus emergency support
- Scans your entire Mac with a single click — no need to search for names of folders or volumes
- Easily scans any file, folder, or volume via a contextual pop-up menu, which is activated by holding down the Control key and clicking on the file icon

Disk Management

For the advanced user, the programs expert mode allows you to control and configure TechTool Pro in almost any way you wish. The program is shipped on a bootable CD with system 8.1.

Finale Allegro 1.0

Finale Allegro 1.0 is for those who want most, but not all of Finale's power.

MUS0151 \$159

Create and explore music!

Songworks II

The all-new Songworks is polyphonic — now you can write, transpose, and print anything from songs to symphonies using easy tools that include suggestions for melody and harmony. Or use it to learn your part in a chorus by tapping one part as the others play along! Works with or without MIDI and offers sophisticated notation with simple tools!

Requires: 68040 or faster; 32MB RAM; CD-ROM drive.
 Publisher: ARS-Nova
MUS0551 \$79⁹⁵

Practica Musica Solo Edition

Keeps score for one user only.
MUS0467 \$69⁹⁵

RIVEN The Sequel to MYST

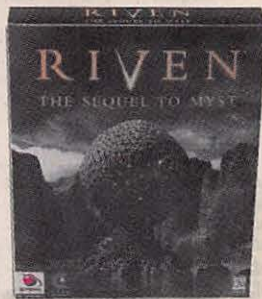

It's now time to enter the mysterious world of Riven — a world of unresolved conflicts, of incomparable beauty, of intrigue and betrayal.

Atrus has summoned you to his newly discovered world of Riven, where the evil Gehr has corrupted it to the point of collapsing. Journey through vast landscapes with rolling clouds and shimmering oceans, but be forewarned — nothing is quite as it seems.

Requires: System 7.5 or later; 90MHz PowerPC or faster; 9MB free RAM; 65MB hard disk space; 4X CD-ROM drive.

Publisher: Broderbund

RIVEN \$49⁹⁵

Myst ENT0630 \$29⁹⁵

Eric's Ultimate Solitaire CD™

Special features include an Always Winnable option, the ability to highlight cards that are playable, unlimited undo and redo, stunning graphics, great sound, and more. And Eric's Ultimate Solitaire keeps full statistics of your games. Some of the games included are Pyramid,

Casino, FreeCell, Three Shuffles, Baker's Dozen, Canfield, Yukon, Eight Off, Forty Thieves, Klondike, and Towers.

Requires: 8MB RAM; System 7 or later; CD-ROM drive.
 Publisher: Delta Tao

ENT1353 (CD-ROM) \$39⁹⁵

Eric's Cascade for Mac

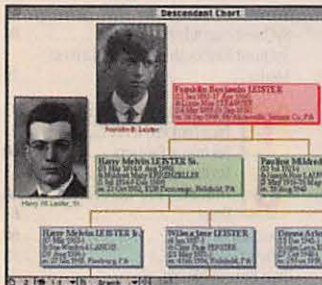

ENT1611 \$49⁹⁵

REUNION

Track your family tree!

Reunion 5.0

Reunion 5.0 makes it easy to record your family history. Create beautiful wall charts complete with pictures in four styles: Descendant and Pedigree, plus new in version 5.0, Relative and Timeline charts. Show how you're related to everyone in your family. And print mailing lists, birthday and anniversary calendars, and book reports — they're great for family reunions! Reunion 5.0 makes it easy to share your family information on the Internet with automatic Web-ready HTML reports and "Web Family Cards" with pictures. It's fast, fun, and designed for the Macintosh.

"Spectacular" - MacWorld 1/98
 Publisher: Leister Productions
EDU2130 \$99⁹⁵
