Is Your Yard Ready for THE POND SQUAD?

For over 20 years, Ed Beaulieu (The Scientist), Brian Helfrich (The Foreman) and Greg Wittstock (The Pond Guy) have been working and playing together creating some of the most beautiful water features in the world! In the fall of 2014, National Geographic recognized their unique talents and featured their exploits in their own Reality Series, the Pond Stars on the Nat Geo Wild channel.

Today, Ed, Brian, Greg, and their newest teammate, Chris Hanson (The New Guy), bring you a brand new show, the Aquascape Pond Squad. Each month, the team tackles new projects and streams their creations with their show directly to YouTube at www.youtube.com/AquascapePondSquad for the world to enjoy. Whether you're a hobbyist living the water feature lifestyle or someone looking for inspiration for your yard, you are going to love what you see with the Aquascape Pond Squad.

The best part of this new show is we are coming to you! Whether you're ready for your first water feature or your old one is ready for a facelift, you just might have exactly what we are looking for! Tell us your story and you might find your yard transformed by the Aquascape Pond Squad.

To have your yard considered for filming please fill out an application at www.aquascapeinc.com/pondsquad/show-ideas. Who knows, you might just end up with the yard of your dreams and make a lot more than your neighbors envious with the Aquascape Pond Squad doing all the work! Apply, tune-in and live the water feature lifestyle!

MEET THE POND SQUAD

Greg Wittstock
"The Pond Guy™"

Also known as The Pond Guy™, Greg Wittstock is Founder and CEO of Aquascape Inc. Since its inception in 1991, Aquascape, Inc. has experienced incredible growth, appearing on Inc. Magazine's list of 500 Fastest-Growing, Privately-Held Companies in North America 4 years in a row (1999-2002).

Greg is a highly sought-after motivational speaker, having conducted seminars nationwide for contractors, retailers, and distributors. He authored The Pond Guy on Marketing, and his company has produced numerous publications for contractors, retailers, and consumers. Greg has appeared on HGTV and is a member of the Aquascape Pond Squad, as seen on YouTube.

Ed Beaulieu
"The Scientist"

Ed came to Aquascape in 1993 as a construction laborer, but a little creativity and a positive outlook on life and business helped catapult Ed to the position of Vice President of Field Research. Ed specializes in all aspects of pond design, construction, maintenance, biology, water quality, and filtration for residential and commercial water features. His favorite things about working at Aquascape include the eco-friendly headquarters and helping customers create unique water features. Ed co-authored the Pond Builder's Bible and is a member of the Aquascape Pond Squad on YouTube.

Brian Helfrich
"The Foreman"

Brian Helfrich has been with Aquascape, Inc. since 1995, starting out in the warehouse and working his way up to construction manager. He's given hundreds of pond construction seminars across the country and is considered to be the premier waterfall builder in the nation. Brian's pond designs have been featured in numerous publications, including Better Homes and Gardens special interest publications, and Nature's Garden. Brian has extended his pond artistry to several impressive, public water feature designs including Epcot® International Flower and Garden Show, Chicago Lincoln Park Zoo, John G. Shedd Aquarium in Chicago, and more. Brian co-authored the Pond Builder's Bible and is a member of the Aquascape Pond Squad.

Chris Hanson
"The New Guy"

Although Chris is dubbed "The New Guy," he's been working in the landscape industry for 15 years and decided to turn his green thumb blue when he took on the role of construction manager for Aquascape. Chris' background as landscape designer comes in handy when creating custom-designed water features. Chris has a horticulture degree from Kisuwaukee College and is an ISA-certified arborist. Chris has worked on impressive water features, such as the ones you'll find at Chicago's famed Lincoln Park Zoo and those you see on the Aquascape Pond Squad show. Chris claims he now has the best job on Earth!

AQUASCAPE POND SQUAD

What happens when four passionate pond builders, aka the Aquascape Pond Squad, meet a barren stretch of landscape? They work their artistic magic to create an inspiring and refreshing oasis with ponds, waterfalls, and fountains. You'll be amazed and entertained as you watch this talented crew carve a piece of paradise into landscapes across North America!

Tune into the Aquascape Pond Squad on YouTube where you'll learn more about nature and the wonders of the water feature lifestyle!

www.youtube.com/AquascapePondSquad

WATERFALLS OF FUN

Improving the quality of life for others is one of the many great benefits of being a pond builder. That couldn't be any truer than when the Aquascape Pond Squad installed a unique Pondless® Waterfall for an incredibly worthy organization, Casa Hogar home, on the top of the Baja in beautiful Cabo San Lucas, Mexico. The results of the efforts speak for themselves in the smiles for the thirty to forty boys who call Casa Hogar home. The Aquasape Pond Squad couldn't have done it without the help of several Certified Aquascape Contractors. Watch the inspiring story!

OVER THE TOP FOUNTAINSCAPE

The Aquascape Pond Squad takes on Brian's vision for an "over the top" display at the 2015 Chicago Flower and Garden Show, the oldest flower show in the country. Included in this display is an impressive signature fountainscape water feature. Reinforcements are needed so the Aquascape Pond Squad calls in their Certified Aquascape Contractors from New Jersey to lend a hand. When all is said and done, the full display shows a diverse collection of water features including fountainscapes, Pondless® Waterfalls, a large water garden, as well as a formal style pond. Watch this amazing transformation completed in just 9 days at Chicago's Navy Pier.

WATER FEATURE OASIS IN THE DESERT

The kids at Sunshine Acres Children's Home in Arizona become the happy recipients of a new pond and waterfall donated by Texas Roadhouse, installed by the Aquascape Pond Squad and the crew at Pondscapes AZ. See how a barren space is transformed into a refreshing water feature that serves as a home to 6 ducks on the property and an outdoor classroom for the kids who will take care of the pond.

Living The Water Feature LIFESTYLE

TODAY MORE THAN EVER, TIME IS A COVETED POSSESSION.

At Aquascape, our passion is helping people transform their yards and subsequently how they spend their time. When you own a water feature you transform a house into a home. You create an escape from the stress of the world right where you live. How important is that in today's world?! We have dubbed this trend "Living The Water Feature Lifestyle." The Water Feature Lifestyle is what you experience owning and living with a water feature. It is how you interact with it, but even more descriptively, it's how it interacts with you! When you live with a water garden, a waterfall, or even a decorative fountainscape, you will be seduced outside, away from the T.V., the computer, and the rat-race. People simply don't sit in their yards for hours on end watching their flowers grow. When you're feeding the fish, watching the birds splash in your waterfall or simply gazing hypnotically and listening to the beautiful sounds of a babbling brook, you're experiencing "The Water Feature Lifestyle" right where you live ... at home! From this catalog to our website, www.aquascapeinc.com, to our YouTube videos (www.youtube.com/Aquascape4), you can learn about and decide what feature is best for your property, lifestyle, and budget.

Your Paradise, Our Passion®

**VIDEO ON
THE LIFESTYLE**

WHO WE ARE

The best way for us to answer who we are, is to ask who you are. Are you someone who works hard, or worked hard for your money? Do you like to relax? Get your hands dirty? Love fish? Love nature? Love the outdoors? Do you like to entertain? "Living the Water Feature Lifestyle," encapsulates all those things PLUS so much more! Living the Water Feature Lifestyle is about having an escape at home. A place that beckons you outdoors where the stress

melts away. It's about creating a feature that draws your eyes to it that sets a mood, all while making a statement.

Throughout the pages of this catalog you can see who we are by seeing how we live with the water features we own. What we aren't, is like any other manufacturer of water feature products in the world. We are hobbyists who are passionate about the products we produce, because as you will

see, we live with them ourselves. We have many unique products, designs, and features that we've created to expand the enjoyment, improve the performance, or reduce the cost of owning a water feature. For you, that means "Living the Water Feature Lifestyle" should be simpler, and more economical than ever with Aquascape. "Your Paradise, Our Passion."

TRULY A WORKPLACE UTOPIA

In less than 15 years, Aquascape has morphed from a tiny basement and garage to a 256,000 square foot state-of-the-art green office building. Aqualand started as The Pond Guy's™ pie-in-the-sky dream and is now the pride and joy of employees and customers alike. Aqualand is truly a workplace utopia and the embodiment of Aquascape spirit and culture - building a balance in life that stimulates the mind, challenges the body, and nurtures the spirit. Visit www.aquascapeinc.com to learn more.

THE CULTURE OF BUILDING A BALANCE

Culture is a way of living that is most often associated with artistic and intellectual pursuits. It can be found in a variety of socio-environments: family, religion, education, sports teams, business, and more. When used in business, culture becomes a powerful tool that can set a company apart from its competitors. Aquascape, Inc. has created an entrepreneurial culture that is creative, fun, healthy, innovative, competitive, dynamic, and fast-paced. Aquascape is the industry leader in all things water gardening: from pond kits to seminars, special events to marketing materials, fish food to books, water treatments to fountains, and more. Due to the rapid growth of the water garden market, Aquascape embraces a cultural philosophy of building a balance in life.

Aquascape Ecosystem Pond Approach

Filtration System

Includes the use of both a biological and a mechanical filter.

- A BioFalls® provides surface area for beneficial bacteria to colonize and remove excess nutrients from the water.
- A Skimmer will pre-filter the water and house the pump, collecting surface debris and reducing pond maintenance.

Rocks and Gravel

Rocks and gravel not only protect pond liners, they also provide tremendous surface area for beneficial bacteria to break down excess nutrients in the water.

Recirculation System

The proper size pump is important for the aesthetics of a water feature. More importantly, an efficient circulation system will keep the water moving and provide the necessary oxygen levels for healthy fish and plants.

Fish

Fish are an integral part of any ecosystem, grazing on string algae and bottom feed from the pond floor. They also make very enjoyable pets, providing hours of natural entertainment.

Aquatic Plants

Mother Nature's true filters, plants are great for adding character to a pond by providing color and texture. Aquatic plants are critical for the overall health of the ecosystem, thriving from excess nutrients in a pond and depriving algae of its food source.

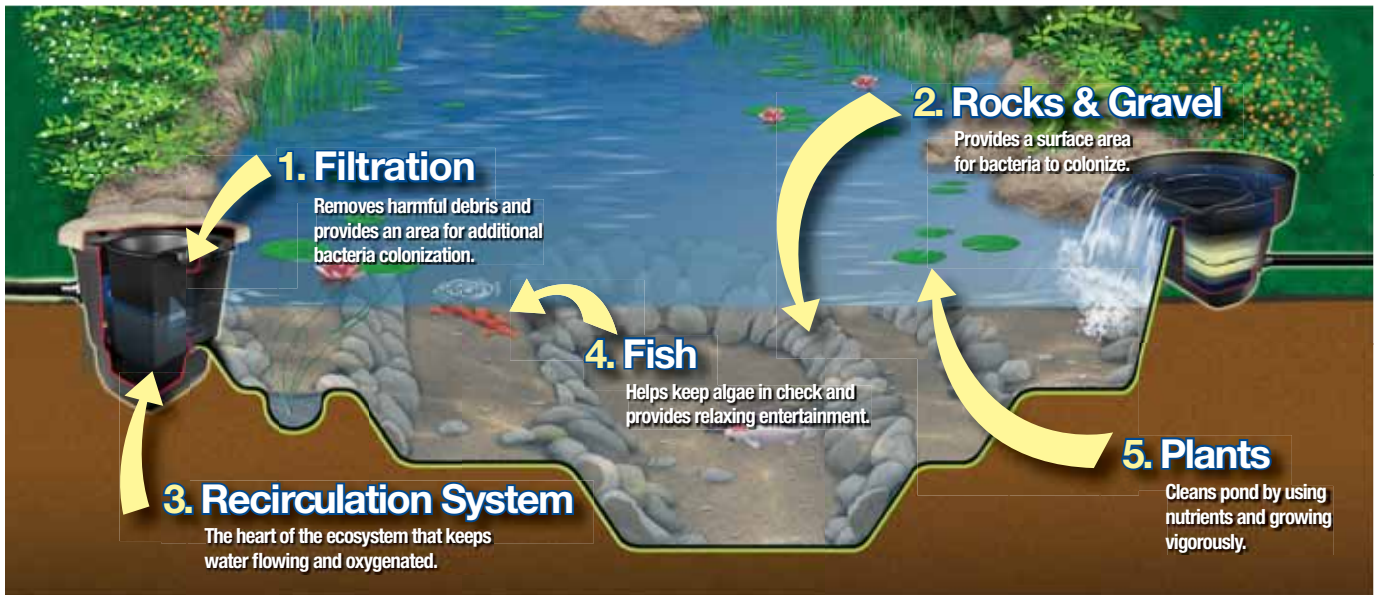

Aquascape ecosystem pond kits create a complete low-maintenance system that works with Mother Nature.

HOW TO BUILD
A POND**

A pond is made up of many different parts and when those parts are assembled together correctly, they form a beautiful and naturalistic work of art that changes personality with the time of day, the change of the seasons, and the moods of Mother Nature.

Step-By-Step

<p>1</p> <p>Carefully remove contents from box.</p> 	<p>2</p> <p>Select your location.</p> 	<p>3</p> <p>Use garden hose to outline.</p> 	<p>4</p> <p>Position the filters.</p> 	<p>5</p> <p>Dig the hole.</p> 
<p>6</p> <p>Level the excavation.</p> 	<p>7</p> <p>Install underlayment and liner.</p> 	<p>8</p> <p>Add rock and gravel.</p> 	<p>9</p> <p>Fill the pond.</p> 	<p>ENJOY!</p> 

Aquascape Pond Kits

An Aquascape ecosystem pond kit comes complete with all the necessary components assembled together in a convenient, all-in-one kit that takes the guesswork out of purchasing necessary components separately.

DIY Backyard Pond Kits

Our most popular DIY pond kit takes the guesswork out of trying to assemble the perfect combination of equipment and liner.

Kit Includes:

- Signature Series™ 200 Pond Skimmer- Removes leaves and debris from the surface of the pond and provides protection for your pump
- Signature Series™ 1000 BioFalls® Filter and BioBalls™ - Provides complete biological filtration
- AquaSurge® 2000 waterfall pump
- 25 feet of 1½" quality kink-free hose
- Pond Liner made from quality EPDM 45 mil fish safe rubber - 20-year guarantee!
- Geotextile underlayment - Protects liner from sharp objects
- All necessary fittings and silicone sealants
- Welcome Kit - Staple Fish Food Pellets, printed material, USB manual, video and instructions

Aquascape Pondless®
Disappearing Waterfall
provides the sights and
sounds of water without
having a traditional pond
or water garden.

What is a Pondless® or Disappearing Waterfall

Pondless® Waterfalls are simply a re-circulating waterfall and/or stream without the presence of a pond. You can enjoy the sight and sound of running water without the maintenance of a pond.

The waterfall is undoubtedly the most beautiful and favored feature in a water garden. If space is limited in your yard or you have safety concerns with a pond, why not build a Pondless® or disappearing waterfall? The name basically explains it all. It's a waterfall and stream, without the pond. So why would you want a waterfall without a pond?

Safety

Because there is no pool of water, a Pondless® Waterfall is a great option for small children that want to play and splash in the water without the concern of safety.

Cost

Cost can be a big factor when considering the type of water feature you want to build. In most cases, the price of a Pondless® Waterfall will be less than a pond, as it often requires less rock and materials.

Space

The small size of the Pondless® Waterfall means you can build and enjoy a beautiful waterfall anywhere in your yard.

Maintenance

Taking care of your Pondless® Waterfall is easy. Filling the reservoir every few weeks to compensate for water loss due to evaporation is all that is required.

Flexibility

Perhaps the best part of the Pondless® Waterfall is the possibility for the future. If you change your mind later, wishing you had built a pond, that's ok! If you leave enough room around the base of the waterfall, it's easy to add a pond onto a Pondless® Waterfall.

The Aquascape Pondless® Waterfall has made many water-lovers who were previously unable to indulge in the sweet sounds of falling water, very happy. It's a great alternative for those who are trying to get their feet wet, or looking to fit a little bit of paradise into their own backyard.

**VIDEO ON
HOW TO BUILD
A PONDLESS®**

How the Aquascape Pondless® Disappearing Waterfall Works:

1. Water held within the reservoir or void space below a decorative layer of gravel flows from a submersible water pump contained within a protective waterfall vault; the waterfall vault protects the pump from being clogged and reduces pump maintenance.
2. The water flows to a waterfall spillway that creates the start of a beautiful waterfall.
3. The water then flows over the rock that creates the waterfall and the process is restarted.

Step-By-Step

1
Carefully remove contents from box.

2
Select your location.

3
Position equipment and outline area.

4
Excavate the area.

5
Install underlayment and liner.

6
Add filter equipment.

7
Build waterfall.

8
Install spillway at top of waterfall.

9
Fill basin.

ENJOY!

Aquascape Pondless® Disappearing Waterfall Kits

DIY Backyard Waterfall Kit

#83001 MSRP \$999.98

(Unit Weight: 80 lbs.)

A Pondless® Waterfall is simply a waterfall without the pond.

The perfect DIY solution for small spaces includes enough liner to create a small 3' long waterfall.

Kit Includes:

- Waterfall Spillway - This is the starting point of your waterfall
- Pondless® Waterfall Vault - Provides access to your pump and allows you to check the water level in the system
- (2) Small AquaBlox® - provides water storage for reservoir
- AquaSurge® 2000 waterfall pump
- 25 feet of 1.5" quality Kink-Free Hose
- 10' x 12' Pond Liner made from quality EPDM 45 mil fish safe rubber - 20-year guarantee!
- 105 sq. ft. of Geotextile Underlayment - protects liner from sharp objects
- Welcome Kit - printed material, USB manual, video and instructions

Large Pondless® Waterfall With Up To 26' Stream

#53041 MSRP \$2,572.77
(Unit Weight: 309 lbs.)

with AquaSurge® PRO 4000-8000 Pump

#53042 MSRP \$2,590.77
(Unit Weight: 313 lbs.)

with 5PL - 5000 Pump

**Two Pump
Model
Choices**

Our largest pre-packaged Large Pondless® Waterfall Kit uses the Pondless® Vault with the Vault Extension allowing you to store more water and create longer stream and waterfall runs.

Kit Includes:

- 12' x 15' Liner and 180 sq. ft. Underlayment
- 10' x 30' Stream Liner
- Pondless® Waterfall Vault
- Pondless® Waterfall Vault Extension
- Waterfall Spillway
- (5) Large AquaBlox®
- AquaSurge® PRO 4000-8000 **OR** 5PL - 5000 Pump
- 2" x 50' Flexible PVC Pipe
- Pump Check Valve Assembly and Installation Kit
- LED Lighting Package
 - (3) 1-Watt 12V LED Waterfall Lights
 - 60-Watt Transformer w/photocell
 - 3-Way Splitter and 25' LVL Extension Cable
- Automatic Water Treatment Dosing System for Fountains
- Welcome Kit - printed material, USB manual, video and instructions

The Science Behind Filtration

There are two forms of filtration that are critical to maintaining a successful ecosystem pond: mechanical and biological. Through biological and mechanical filtration, the water garden will process a variety of nutrients found in the system, including fish waste, uneaten fish food, leaves, and runoff from lawns.

An important role of proper filtration is avoiding high levels of ammonia (a form of nitrogen). High ammonia levels can be toxic to fish as well as contribute to prolific algae growth. Biological filtration utilizes nitrogen more than any other nutrient in these systems, and therefore plays a crucial role in the success of maintaining a healthy water feature.

So, how does biological filtration work? Biological filtration begins as nitrifying bacteria absorb ammonia and turn nitrites into nitrates. Nitrates are less dangerous and act as excellent fertilizer, as they are absorbed by aquatic plants and algae during their growth processes.

After nitrites are converted into nitrates, the nitrates are removed from the pond by denitrification, another biological filtration method. This process occurs only in anaerobic areas of the pond (areas without oxygen). One area that experiences minimal water flow and oxygen is below the surface of the gravel at the bottom of the pond. The anaerobic bacteria that live in these areas of the pond turn nitrates into nitrogen gas, which is released into the atmosphere.

There literally needs to be billions of bacteria at work in order for the biological filtration to work successfully to purify the water. These bacteria prefer to anchor themselves to a surface, which is why surface area is so important in constructing a successful ecosystem. More surface area means more bacteria, which maximizes the effectiveness of biological filtration. Surface area in a water feature is provided by filter media (BioBalls™), rocks, and gravel. A pond with gravel on the bottom will contain more surface area compared to a pond with exposed liner at the bottom, providing more space for bacteria to colonize!

Aquascape offers a wide selection of premium pond filtration products to suit any budget or water garden.

How to Choose the Right Filter for Your Pond

Choosing the right filter for your pond/water garden can be an intimidating and daunting task, so let us break up the task into easier-to-digest categories and desired functionality. There are advantages and disadvantages to every type of filter so we will list the features and benefits of each filter, making the choice of correct filter for your application easier.

New Ponds

The advantage of choosing the right filter before you get started should not be underestimated. Aquascape takes an ecosystem approach to water gardening. This approach uses a Skimmer and BioFalls®. The skimmer removes leaves and debris from the surface of the pond optimizing water quality. A BioFalls® Filter performs two very important functions; it supports mechanical and biological filtration and is also a great start to any waterfall.

Existing Ponds

In some circumstances it is difficult to add a Skimmer and/or BioFalls® to an existing system, maybe the shape and/or building technique makes it prohibitive. In this situation we would normally recommend the use of a UltraKlean™ Pressure Filter, Submersible Pond Filter or Pond Filter Urn. These filters will retrofit quickly into existing systems and provide efficient biological and mechanical filtration.

Aquascape Skimmer Filters

U.S. Patent 7,144,501

Can I have a pond without a skimmer?

Yes, of course you can have a pond without a Skimmer. However, skimmers are designed to eliminate water quality problems and reduce maintenance by removing debris before it sinks to the bottom of the pond, allowing a pond to be installed anywhere, even beneath trees. Because the skimmer removes debris before it gets to the pump, it acts as a pre-filter reducing pump maintenance, and makes accessing the pump quick and easy.

New

Signature Series™ 200 Pond Skimmer

#43020 MSRP \$199.98

(Unit Weight: 15.9 lbs.)

20"L x 17.5"W x 17.5"H

New

Signature Series™ 400 Pond Skimmer

#43021 MSRP \$319.99

(Unit Weight: 21 lbs.)

21.5"L x 18"W x 21"H

New

Signature Series™ 1000 Pond Skimmer

#43022 MSRP \$499.99

(Unit Weight: 27 lbs.)

21"L x 22"W x 26.5"H

Step-By-Step

1
Select the location for Skimmer placement.

2
Level the Skimmer and check for correct water level.

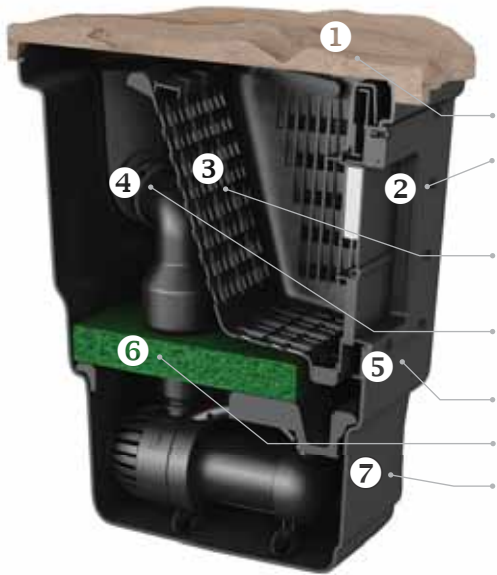

3
Mark the liner for installation.

4
Use silicone and screws to adhere Skimmer door.

5
Trim liner and complete installation.

Features found on the Signature Series™ 400 and 1000 Pond Skimmers

- ① Natural Looking Faux-Rock Lid: Grooves designed into lid provide space for gravel or mulch
- ② Patented Adjustable Faceplate: Have you ever messed up your transit measurement when setting your pond's water level? Forget about it! Three inches of travel enable you to tweak out the perfect water level (Signature 1000 only)
- ③ Easy Maintenance: We are making it as easy as possible for the pond owner to maintain their filter with a large-volume, rigid debris basket (Signature Series™ 400 and 1000)
- ④ Injection Molded Fittings: Check valve threads into skimmer wall providing a professional watertight seal along the back of the filter
- ⑤ Corrosion-resistant non-cross-threading hardware stands up to the elements
- ⑥ Filter mat removes smaller sediment and debris
- ⑦ Rounded shape provides maximum strength

Aquascape BioFalls® Filters

Aquascape professional-grade BioFalls® Filters provide the most filtration and highest water flows in the market. Durable rotationally-molded polyethylene ensures maximum strength and withstands whatever Mother Nature can dish out. All Aquascape BioFalls® Filters include a lifetime warranty!

- Circular shape maximizes structural strength
- Fully-attachable lip with patented non-cross threading screws make it easy to install

Signature Series™ 1000 BioFalls® Filter

(2" Bulkhead)

#99774 MSRP \$279.98

(Unit Weight: 11 lbs.)

17.5"L x 20.5"W x 17"H

Signature Series™ 2500 BioFalls® Filter

(2" Bulkhead)

#09020 MSRP \$479.99

(Unit Weight: 23 lbs.)

24"L x 29.5"W x 20"H

Signature Series™ 6000 BioFalls® Filter

(2" Bulkhead)

#29319 MSRP \$759.99

(Unit Weight: 55 lbs.)

40"L x 45"W x 29.5"H

Signature Series™ 6000 BioFalls® Filter

(3" Bulkhead)

#29384 MSRP \$799.99

(Unit Weight: 57 lbs.)

40"L x 45"W x 29.5"H

Step-By-Step

1
Select the location for the BioFalls® placement.

2
Level the BioFalls®.

3
Prepare liner for installation.

4
Use silicone and screws to attach liner to filter.

5
Trim liner and complete installation.

Features found on the BioFalls® Filter 2500 & 6000

- ① More advanced installers will love the reversible waterfall lip option, which provides the flexibility of using a natural stone spillway and large accent boulders along the front of the unit (for 2500 and 6000 model filters)
- ② Removable upper tray can hold rocks, plants, and gravel, helping to naturalize the BioFalls® Filter into the surrounding landscape
- ③ Media net (BioBalls™ sold separately)
- ④ Corrosion resistant non-cross-threading hardware stands up to the elements
- ⑤ Two Poly-Flo ESA biological Filter Mats provide 50% more surface area than traditional filter mats
- ⑥ Two bulkhead ports provide plumbing options
- ⑦ Filter support rack ensures evenly distributed waterflow through filter mats and provides structural strength to the walls of the filter
- ⑧ Circular shape provides maximum strength and makes it easy to camouflage into the landscape

Pondless® Waterfall Vault

U.S. Patent 7,754,072

#49000 MSRP \$269.99

(Unit Weight: 14 lbs.)

Not too big and not too small, the expandability of the Pondless® Waterfall Vault makes this filter perfectly sized to meet the need of any Pondless® Waterfall or RainXchange® project.

- Simple to install and maintain
- Large interior fits a wide range of pump sizes up to 12,500 gallons per hour
- Expandable height allows the Pondless® Waterfall Vault to be used on any size project
- Comes standard for use with the Small AquaBlox®
- Optional Pondless® Waterfall Extensions can be used when creating deeper basins using the Large AquaBlox®
- Made from durable rotationally molded polyethylene

Pondless® Waterfall Vault

Pondless® Waterfall Extension

Pondless® Waterfall Extension

#49001 MSRP \$74.99

(Unit Weight: 5.4 lbs.)

- Slides onto the Pondless® Waterfall Vault increasing the height for deeper basins using the Large AquaBlox®
- Required when using larger and/or taller pumps with 3-inch plumbing to ensure the height of the vault is tall enough to accommodate the large pump

Pondless® Waterfall Vault & Extension Specification Chart

**VIDEO ON
PONDLESS®
WATERFALL VAULT**

Designed to integrate with the AquaBlox® making excavation and installation a snap!

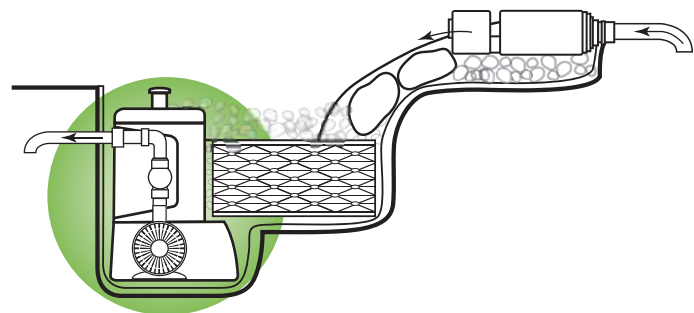

Built in water level inspection port allows lid to be buried out of sight.

- ① Extra wide opening provides easy pump access
- ② Excellent water circulation through horizontal and vertical water intakes
- ③ Large interior fits a wide range of pump sizes

Pondless® Waterfall Vault Application

Waterfall Spillway

#77000 MSRP \$139.99

(Unit Weight: 9 lbs.)

17.5"L x 24"W x 5"H

The Waterfall Spillway is a cost-effective solution to help create the starting point of a beautiful waterfall and stream.

- Creates smooth, consistent, leak-free water flow
- Handles flow rates up to 7,500 GPH / 28,000 LPH
- The durable design makes it easy to disguise by allowing soil, rocks or logs to be placed directly on top of the unit
- Comes complete with a 2-inch PVC slip fitting, 1.5-inch barbed hose fitting and pre-installed bulk head

When to use the Waterfall Spillway - The Waterfall Spillway is a versatile tool that can be used in a wide variety of water feature applications. You may find that your imagination is the only limitation to what you can create with the Waterfall Spillway.

- The Waterfall Spillway is an ideal solution for starting waterfalls on Pondless® Waterfall systems, where, due to the absence of fish, more expensive biological filters aren't necessary.
- The Waterfall Spillway is also an excellent choice for designing additional waterfalls and streams onto new or existing ponds that already have a biological filter.
- With the Waterfall Spillway you can build behind hardscape walls to provide a more formal waterfall design.
- You can use multiple Waterfall Spillways to design larger, more creative waterfall configurations.

- ① Strong design allows boulders, logs, gravel, soil or other creative landscape material to be set directly on top of the Waterfall Spillway, helping to camouflage it into the surrounding landscape
- ② Watertight connection is made using the fitting on the back of the Waterfall Spillway
- ③ Wide 22-inch spillway handles flow rates up to 7,500 gallons per hour
- ④ Internal barriers dam the incoming flow of water, providing a smooth-flowing waterfall

UltraKlean™ Biological Pressure Filter

Guaranteed to clear pond water

The Aquascape UltraKlean™ Biological Pressure Filter with a high output ultraviolet clarifier/sterilizer and an integrated electronic bulb-saver option, provides pond owners with optimum water conditions and crystal clear pond water. The unique sponge-free design minimizes maintenance and maximizes efficient mechanical and biological filtration. Simple-to-use cleaning feature allows for the unit to be backwashed in less than five minutes without opening the canister or getting hands dirty.

- Provides optimal filtration for ponds up to 3,500 gallons / 13,000 liters
- Efficiently traps dirt and debris and eliminates green water
- Includes Aquascape UltraKlean™ Bio-Media and T5 high-output ultraviolet clarifier/sterilizer
- Easily integrated into new or existing ponds

UltraKlean™ 2000

#95053 MSRP \$369.98

(Unit Weight: 12 lbs.)

UltraKlean™ 3500

#95054 MSRP \$449.98

(Unit Weight: 15 lbs.)

UltraKlean™ 3500

UltraKlean™ 2000

Fittings Included

6x 1", 1.25", 1.5" Multi-Hose Adapters, 1x Backwash Cap

For ponds larger than 3,500 gallons, or ponds containing large fish loads, we recommend using a larger unit or multiple units. Multiple UltraKlean™ units can be easily plumbed in line with one pump using an Aquascape Two-Way Control Valve (sold separately).

Aquascape UltraKlean™ Filtration Kits

Aquascape UltraKlean™ Filtration Kits take the guesswork out of selecting the correct pump and filtration combination for any new or existing pond. Available in three sizes and two configurations, there is an UltraKlean™ Filtration Kit for almost any pond configuration. Buying a filtration kit is simple and provides the best overall value. Components are selected by Aquascape not only for size of pond, but also matched components that will work well together as a team.

UltraKlean™ 1500 Filtration Kit

#95058 MSRP \$599.98
(Unit Weight: 38 lbs.)

Pressure Filter and Pump Kit

Includes the following components:

- UltraKlean™ 2000 Pressure Filter with Integrated 14-Watt UV Clarifier/Sterilizer
- AquaForce® 1000 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- Provides filtration for ponds up to 1,500 gallons / 5,678 liters

UltraKlean™ 2500 Filtration Kit

#95059 MSRP \$649.98
(Unit Weight: 40 lbs.)

Pressure Filter and Pump Kit

Includes the following components:

- UltraKlean™ 2000 Pressure Filter with Integrated 14-Watt UV Clarifier/Sterilizer
- AquaForce® 2700 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- Provides filtration for ponds up to 2,500 gallons / 9,464 liters

UltraKlean™ 3500 Filtration Kit

#95060 MSRP \$799.98
(Unit Weight: 45 lbs.)

Pressure Filter and Pump Kit

Includes the following components:

- UltraKlean™ 3500 Pressure Filter with Integrated 28-Watt UV Clarifier/Sterilizer
- AquaForce® 5200 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- 2 Way control valve
- Provides filtration for ponds up to 3,500 gallons / 13,249 liters

UltraKlean™ 1000 Filtration Kit

#77014 MSRP \$519.98
(Unit Weight: 32 lbs.)

BioFalls® Filter and Pump Kit

Includes the following components:

- Signature Series™ 1000 BioFalls® Filter
- AquaForce® 2700 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- Allows spillway for waterfall creation

Submersible Pond Filter (for ponds up to 800 gallons)

#95110 MSRP \$64.98

(Unit Weight: 4.5 lbs.)

New

Low-profile in-line pump filter

The Aquascape Submersible Pond Filter provides pond owners with efficient mechanical and biological filtration. This unobtrusive filter can be added to the intake of almost any submersible water pump resulting in crystal clear water and maintenance-free pumps.

- Provides additional filtration
- Pre-filters pumps for reduced maintenance
- Removable cage for easy cleaning
- Keeps pond water clean, clear and healthy

Fitting Included

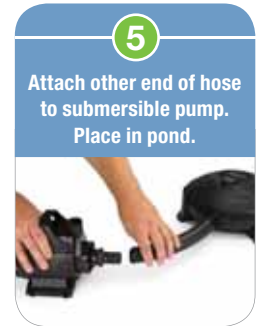

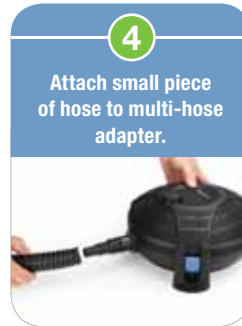

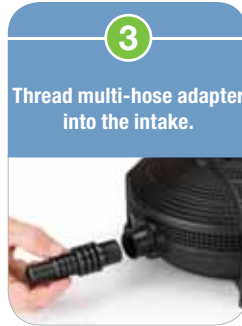

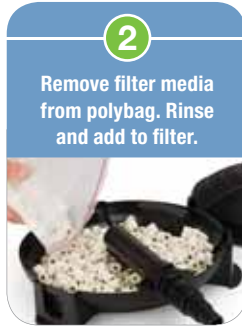

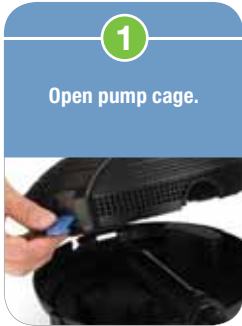

2x 3/4", 1", 1.25" Multi-Hose Fitting

**Ideal for use
with Ultra pumps
up to 1100
will handle
flow rates up to
1300 GPH**

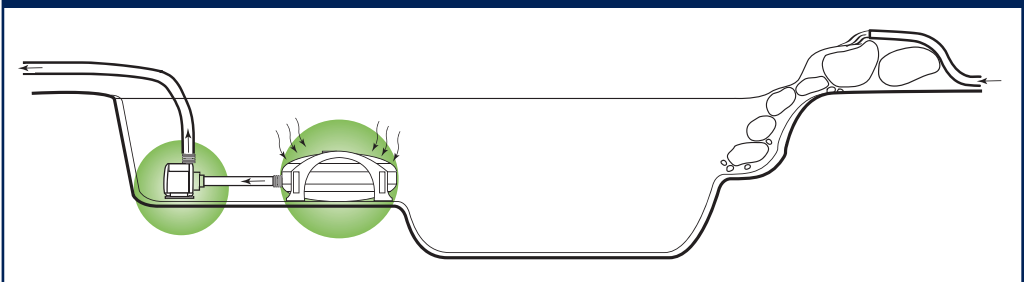

Step-By-Step

- ① The large surface area of the cage and small openings prevents large debris from clogging the filter
- ② The pre-filtration sponge pack is a mechanical/biological filter media preventing small debris from clogging or damaging pump impeller, dramatically reducing pump maintenance
- ③ The included threaded intake and multi-hose adapter makes this filter easily adapt to most pond pumps with a small piece of kink free hose or 3/4" threaded fitting
- ④ The ceramic filtration rings provide a huge surface area for beneficial bacteria to colonize, providing efficient biological filtration

Submersible Pond Filter Application

IonGen™ System G2

#95027 MSRP \$379.98

(Unit Weight: 3.3 lbs.)

4.25" L x 1" W x 3.25" H (Control Panel)

6.25" L x 2.75" W x 4.75" H (Flow Chamber)

The IonGen™ System G2 Electronic Algae Controller allows you to spend your time relaxing next to your water feature instead of trying to maintain it! The IonGen™ effectively kills algae without the use of traditional liquid chemicals and is designed with a microprocessor that sends a signal to its ion producing probe helping to control algae throughout the entire water feature.

- Drastically reduces pond maintenance
- Helps to control unsightly algae without the use of liquid chemicals
- Simple to install
- Compatible with water containing fish and plants
- Energy efficient (less than \$1 per month in electrical costs)
- Treats ponds up to 25,000 gallons
- Probe typically lasts 1-3 seasons depending on the ionization level, volume of water in the pond, and the algae conditions you are trying to control
- Complete with electronic control panel, outdoor-rated transformer, flow chamber, probe fittings, probe holder, copper test kit, alkalinity test kit and owner's manual

EPA Registration #83739-1

How does the Aquascape IonGen™ System G2 Help Control String Algae?

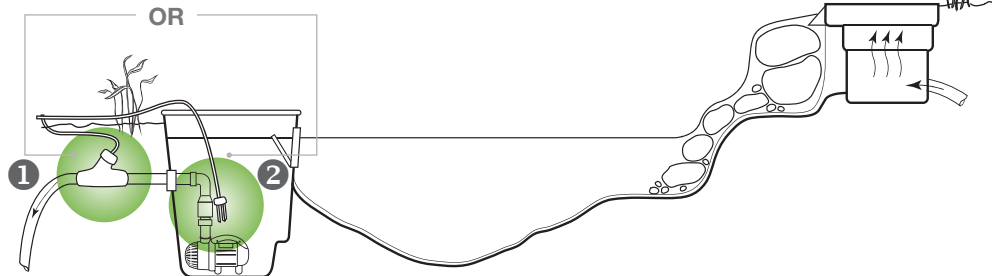

The Aquascape IonGen™ System releases a calculated mixture of copper ions into the path of flowing water. The IonGen™ Control Panel sends signals that slowly dissolve the replaceable probe. The ions produced by the probe treat the water and reduce string algae, as well as drastically reduce maintenance and the need for liquid pond chemicals.

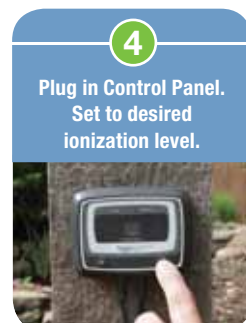

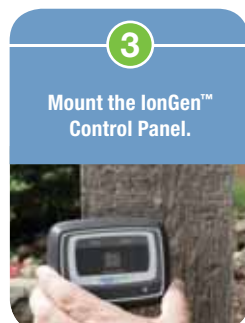

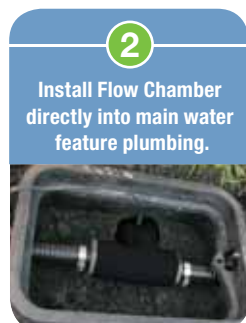

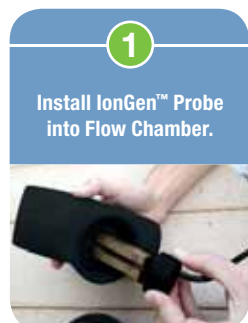

VIDEO ON
IONGEN™

IonGen™ Pond Application

- Option 1:** Probe can be installed directly into the water feature plumbing
Option 2: Probe can be placed in an area with good water circulation

Step-By-Step

- ① Weatherproof Control Panel
- ② Easy-to-read digital display
- ③ Indicator notifies you when the probe needs to be replaced
- ④ Adjustable ionization level
- ⑤ Durable quick-connect electrical connections - cable to transformer (12' long) and probe (15' long)

- ⑤ durable quick-connect electrical connections

Fittings Included

1", 1.25", 1.5" Multi-Hose Fitting, 2" PVC Slip Fitting

Complete with electronic control panel, outdoor-rated transformer, flow chamber, probe fittings, probe holder, copper test kit, alkalinity test kit and owner's manual

IonGen™ Probe Holder

#95077 MSRP \$9.98

(Unit Weight: .5 lbs.)

- Allows for installation of G2 Probe without Flow Chamber
- Can be used in a filter, such as a Skimmer or Pondless® Waterfall Vault
- Straps onto any pipe from 1 - 4 inches in diameter
- Works great attached to the AquascapePRO® Check Valve

IonGen™ Probe for the G2 System

#95028 MSRP \$119.98

(Unit Weight: .5 lbs.)

1.5"L x 1.5"W x 3.25"H

- For 2nd Generation Flow Chamber
- Includes 5 ft. Quick-Connect cable

IonGen™ Probe for the G1.5 System

#95075 MSRP \$119.98

(Unit Weight: 1 lb.)

- For 1st Generation PVC tee-style Flow Chamber and the G2 control panel
- Includes 5 ft. Quick-Connect cable

Copper Test Kit

#96020 MSRP \$19.98

(Unit Weight: .2 lbs.)

- Measures residual copper
- 25 tests per kit

KH/Alkalinity Test Kit

#96019 MSRP \$19.98

(Unit Weight: .2 lbs.)

- Measures KH/Alkalinity
- 60 tests per kit

UltraKlear® UV Clarifier/Sterilizer

In a pond, algae blooms, or "green water", can be a difficult issue to address safely and effectively. Not anymore! The Aquascape UltraKlear® UV Clarifier/Sterilizer uses a technologically-advanced T5 high output UVC bulb, making it more efficient than traditional UV clarifiers. The Aquascape UltraKlear® UV Clarifier/Sterilizer features a swirl sleeve that helps direct the water around the UV bulb, creating more contact time and increasing UV efficiency up to 50% over traditional UV clarifiers.

- Effectively clears unsightly green (pea soup) water algae blooms
- Simple to use, install and easy to maintain
- Features a swirl sleeve that optimizes UV efficiency
- High-output UV bulb maximizes performance
- Easy-to-remove bulb and quartz sleeve
- Can be mounted horizontally or vertically

3-Year
Limited
Warranty

UltraKlear® 1000

#95036 MSRP \$189.98
(Unit Weight: 6.5 lbs.)

UltraKlear® 2500

#95037 MSRP \$239.98
(Unit Weight: 8 lbs.)

UltraKlear® 5000

#95038 MSRP \$309.98
(Unit Weight: 10 lbs.)

Step-By-Step

1
Select a location near the pond.

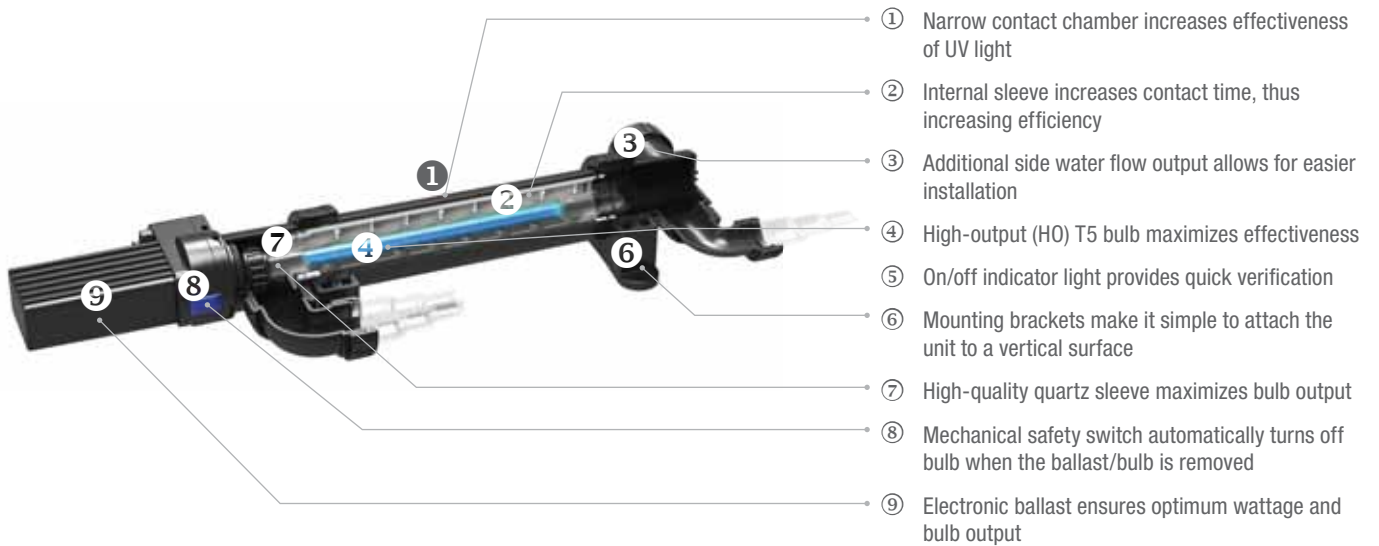

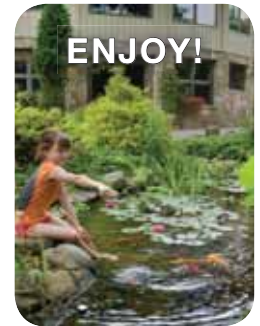

2
Attach the tubing from the pump.

3
Attach the tubing to the remaining fitting for return to the pond.

4
Route tubing back to the pond.

Fittings Included

2x Locking Rotational Ball Fittings, 4x 1", 1.25", 1.5" Multi-Hose Fittings, 2x Elbows, 2x Adapters, 2x Mounting Brackets

For ponds larger than 5,000 gallons or ponds containing large fish loads, we recommend using a larger unit, or multiple UltraKlear® UV units. Multiple units can be easily plumbed in line with an UltraKlear® UV Adapter Kit or the Aquascape Two-way Control Valve.

FILTER URN**

Container Water Garden Filter

#77005 MSRP \$27.98
(Unit Weight: .8 lbs.)

Ideal for all container water gardens holding up to 50 gallons of water

The Aquascape Container Water Garden Filter is a complete solution for small to medium-size container water gardens or any containers with stagnant or non-moving water including birdbaths, or water containers holding specimen pond plants like lotus or waterlilies.

- Provides ideal filtration when adding goldfish to a container water garden
- Magnetically driven, or "mag drive" motor technology, is simple and easy to maintain
- Extremely energy-efficient
- Durable pre-filter water intake design prevents clogging and reduces pump maintenance
- Provides years of trouble-free operation

- ① Adjustable spray bar allows for surface movement and adds oxygen to the water
- ② Integrated suction cups help adhere the Container Water Garden Filter to the integrated shelf found in the Aquascape Patio Pond
- ③ Mechanical and biological filter sponge and filter carbon reduces maintenance and provides excellent filtration
- ④ Protective pump cage and large mechanical and biological pre-filter prevents debris from clogging or damaging pump

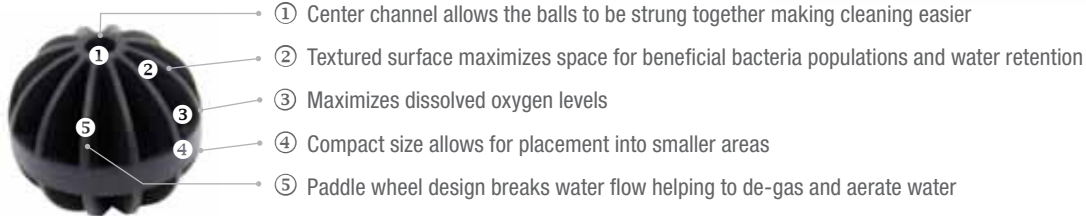

BioBalls™ (100 pcs.)

#98464 MSRP \$44.98

(Unit Weight: 2.8 lbs.)

1.5" diameter

Aquascape BioBalls™ provide a textured surface area (19 sq. inches per BioBall™) for beneficial bacteria to colonize and grow. Aquascape BioBalls™ are the ideal filtration media for use in all biological filtration. Each box contains 100 balls, and media bag with drawstring.

Filter Media Rolls

Bulk roll provides the ability to cut the filter mat to the shape and size of any pond filter. The 2" coarse material is the most popular material used in skimmers and biological filters.

1.25" x 10' Coarse 56" wide

#99321 MSRP \$229.98

(Unit Weight: 8.4 lbs.)

2" x 10' Coarse 56" wide

#99323 MSRP \$279.98

(Unit Weight: 11.9 lbs.)

1" x 10' Dense 56" wide

#99325 MSRP \$189.98

(Unit Weight: 8.8 lbs.)

Coarse Filter Mat

Dense Filter Mat

Aquascape Filter Media Mats

Aquascape Filter Media Mats can be easily cut to desired size using a serrated knife. Aquascape Filter Media Mats are easy to maintain and only need to be cleaned periodically. For best results we recommend combining different densities maximizing mechanical and biological filtration.

New

Low Density Filter (Black)

(Unit Weight: 3.1 lbs.)

24"L x 39"W x 1.5" Thick

High Density Filter (Blue)

#80005 MSRP \$49.98

(Unit Weight: 3.1 lbs.)

24"L x 39"W x 1.5" Thick

AquaBlox®

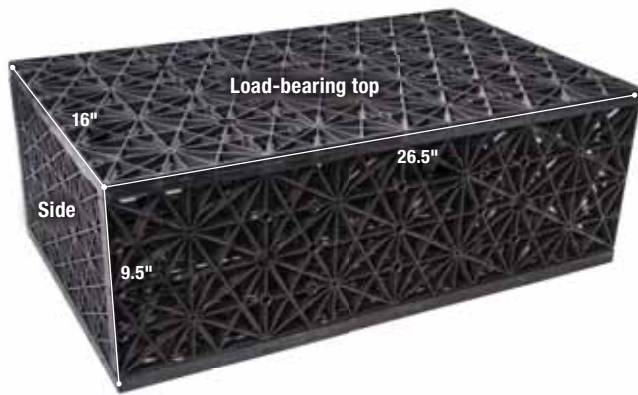

Aquascape's AquaBlox® modular water storage system, also known as the D-Raintank® by Atlantis®, is an efficient way to maximize your water storage capacity in Pondless® Waterfall reservoirs.

- Over 3 times more water storage capacity than gravel
- Holds approximately 7.4 gallons of water per cubic foot, as compared to gravel, which holds approximately 2.2 gallons of water per cubic foot
- Extra water storage capacity means less time topping off reservoir due to evaporation
- Easier to clean and less prone to clogging than traditional gravel basins
- The ability to hold more water per cubic foot allows for smaller reservoir footprint
- Less labor required to excavate and move gravel for basin
- Uses less liner and geotextile underlayment than reservoirs constructed with gravel

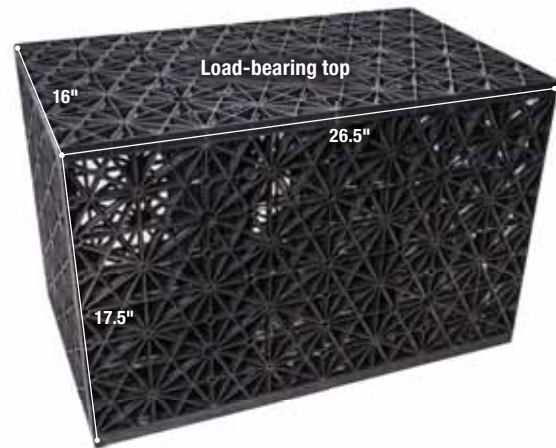

Modular Design

The lightweight design of AquaBlox® makes installation quick, safer and less expensive.

Small AquaBlox®

#29491 MSRP \$42.99
(Unit Weight: 11 lbs.)

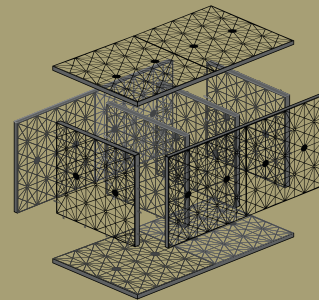

Large AquaBlox®

#29492 MSRP \$52.99
(Unit Weight: 16 lbs.)

AquaBlox® Specification Chart

Wetland Filter

U.S. Patent 6,740,232 and 7,114,668

A Field-Tested, Field-Proven System for Filtering Large Bodies of Water

Our patented Snorkel™ Vault and Centipede® Module were specifically designed to tackle any number of the common issues that plague large scale water features. They are modular in design, allowing builders and designers the flexibility to expand the system to meet their needs.

- Highly effective at removing sediment (suspended solids) from the pond
- Easily access collected sediment with the Snorkel™ Vault, reducing the need for costly and invasive dredging
- Improves water clarity
- Works on earth bottom and liner membrane ponds
- Strips excess nutrients from the water column, reducing algae and the physical and chemical maintenance that goes along with removing algae
- Easily retrofitted onto existing ponds
- Create a waterfall and stream by designing the wetland filter system off the perimeter of the pond

Constructed Wetland Filter System Requirements

Pond Size (in sq. ft.)	Actual Filter Size	Number of Centipede® Modules	Liner, Basic Configurations Minimum Sizes	Pump Flow GPH
600	8' x 10'	1	15' x 20'	3,000
2,400	8' x 15'	2	15' x 25'	4,500
7,200	8' x 20'	3	15' x 30'	7,500
10,000	8' x 25'	4	15' x 35'	10,000
20,000	8' x 50'	8	15' x 70'	20,000
40,000	25' x 50'	12	35' x 70'	30,000
80,000	50' x 50'	16	70' x 70'	40,000

Step 1: The layout of the Snorkel™ Vault and Centipede® Modules for the first shoreline wetland filter

Step 2: The excavated wetland is lined with EPDM rubber liner and the Snorkel™ Vault and Centipede® Modules are set in place

Step 3: The Centipede® Modules are covered with several layers of stones. The larger voids found between these stones allow the incoming water to flow throughout the wetland and provides ample room for the deposition of sediments

Step 4: A section of the finished wetland

Large Snorkel™ Vault and Cap

#29064 MSRP \$459.99
(Unit Weight: 27 lbs.)

- Allows pump to be dropped in for easy cleaning
- 4 ports for Large Centipede® Module attachment

Snorkel™ Vault Extension

#29068 MSRP \$169.99
(Unit Weight: 10 lbs.)

- For use when creating deeper basins. Also required when using the AquascapePRO 10,000 or 12PN pump
- For use with Large Snorkel™ Vault

Large Centipede® Module

#29065 MSRP \$329.99
(Unit Weight: 29 lbs.)

- Modular design
- For use with Large Snorkel™ Vault

Aquascape Pumps

Choosing the right water pump for your pond or fountain can be difficult and time consuming. With so many options to choose from it's often difficult to make a decision. The rising cost of electricity could also be a deciding factor. There are three basic types of water pumps available in the ornamental pond industry: motor driven, asynchronous, and magnetically driven pumps also known as mag drive. We hope the explanation and chart helps you make the right decision. If you are still having trouble making a decision please feel free to visit our website or contact us.

Motor Driven

Motor driven water pumps provide consumers with a high torque, high head height option with good solids handling ability. Motor driven pumps are generally easier to maintain because of their solids handling ability. One of the few downsides of using a motor driven pump is that the pump needs to be operated within a specific performance curve to optimize lifespan. They are also more expensive to run and consume more electricity when compared to asynchronous and mag drive pumps.

Asynchronous

Asynchronous water pumps are a hybrid between a motor driven and mag drive pump. They are easy to maintain and only have one moving part, making it less expensive and easy to repair if something goes wrong. One of the other advantages is that the pump is extremely energy-efficient, choosing this pump over a traditional motor driven pump often pays for itself quickly in power consumption. The only disadvantage of an asynchronous water pump is maintenance; the filter screen may need to be cleaned more often than a motor driven pump to prevent clogging.

Mag Drive

Mag drive water pumps are a simple and easy-to-use solution for small water features including small waterfalls. These pumps are easy to retrofit into existing water features and simple to maintain. Mag drive pumps only have one moving part making them inexpensive and easy to repair. Mag drive pumps are also extremely quiet and energy efficient.

Aquascape makes a complete range of energy efficient water pumps designed for all water gardening applications.

How to Choose the Right Pump for Your Water Feature

AquaSurge® Skimmer and Pondless® Waterfall Vault Pump

Submersible Waterfall and Filter Pump Made For Use in Skimmer Style Filter Systems (available in flow rates from 2,000 to 5,000 GPH / 7,570 to 18,927 LPH)

AquaSurge® asynchronous skimmer, waterfall and filter pumps combine energy efficient performance, high flow rates and ease of maintenance making this pump the ideal choice for discriminating pond owners. AquaSurge® pumps are ideal for use in Aquascape and other skimmer and falls filter systems as well as Pondless® Waterfall filter vaults.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Asynchronous motor technology provides high torque, trouble-free performance at higher head heights
- Designed for use in skimmer and falls filter systems
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation
- Made for continuous use
- Will not corrode or rust
- Rubber feet reduce noise and vibration
- Can be used vertically or horizontally
- Plumbing adapter fittings included

AquaSurge® 2000

#91017 MSRP \$349.98
(Unit Weight: 9.3 lbs.)

AquaSurge® 3000

#91018 MSRP \$399.98
(Unit Weight: 9.7 lbs.)

AquaSurge® 4000

#91019 MSRP \$459.98
(Unit Weight: 12.1 lbs.)

AquaSurge® 5000

#91020 MSRP \$509.98
(Unit Weight: 13.7 lbs.)

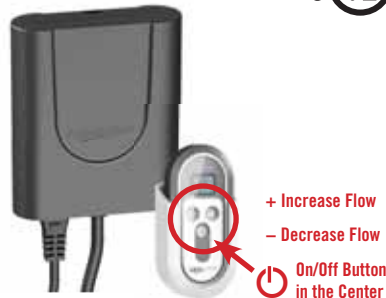

AquaSurge® PRO Adjustable Flow Pumps

- Allows you to customize and fine-tune the flow of waterfalls and streams
- Ability to wirelessly adjust the flow makes it easy to select the right pump for any application
- Pump can be turned on or off with remote
- Ideal for use in Pondless® Waterfall applications, allowing the falls to be adjusted or turned on and off when desired
- Each remote and receiver are paired together with a unique frequency

Pro Pump Remote and Receiver (G2)

Features include:

- Numeric flow indicator
- Remote control holster allowing for permanent mounting
- Receiver includes mounting hardware
- Sleek and ergonomic design

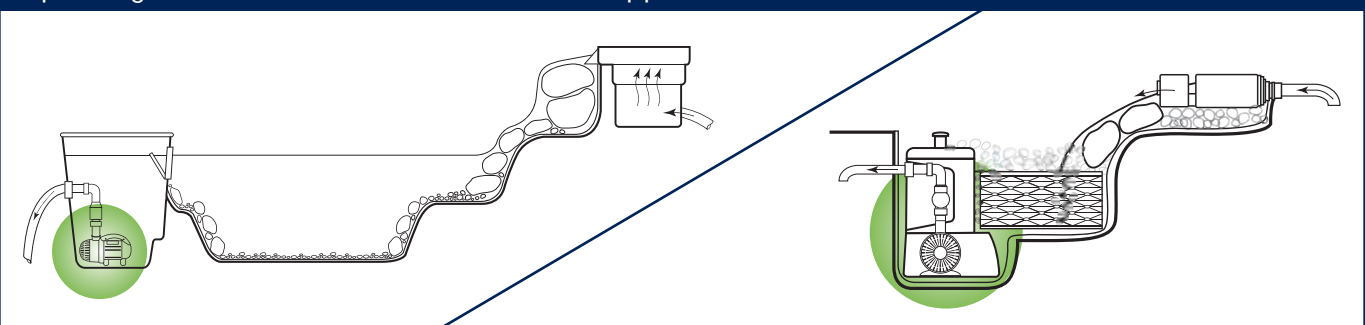

AquaSurge® PRO 2000-4000

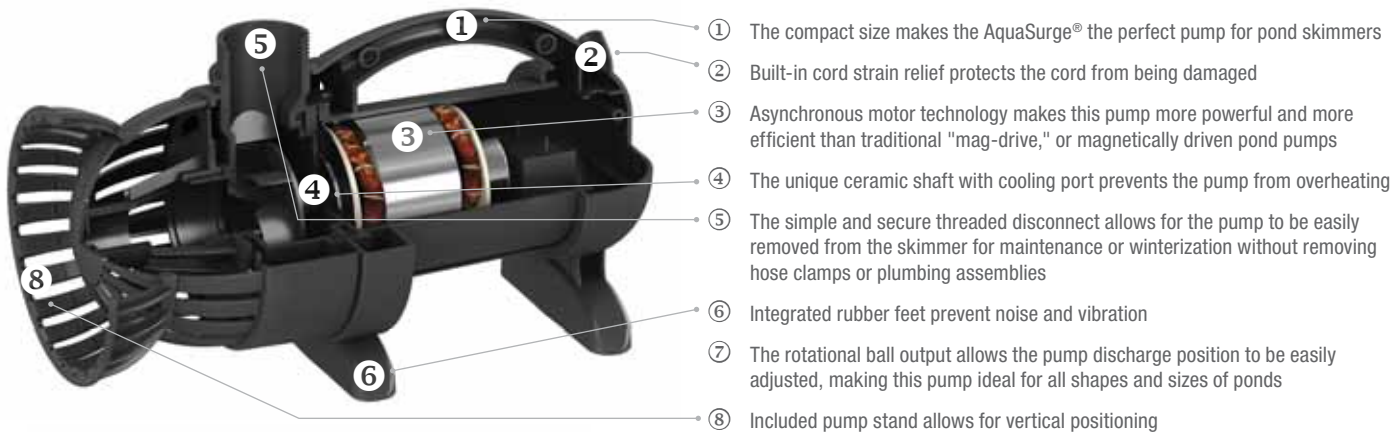

#45009 MSRP \$549.99
(Unit Weight: 10.5 lbs.)

AquaSurge® PRO 4000-8000

#45010 MSRP \$679.99
(Unit Weight: 13 lbs.)

AquaSurge® Pond and Pondless® Waterfall Application

- ① The compact size makes the AquaSurge® the perfect pump for pond skimmers
- ② Built-in cord strain relief protects the cord from being damaged
- ③ Asynchronous motor technology makes this pump more powerful and more efficient than traditional "mag-drive," or magnetically driven pond pumps
- ④ The unique ceramic shaft with cooling port prevents the pump from overheating
- ⑤ The simple and secure threaded disconnect allows for the pump to be easily removed from the skimmer for maintenance or winterization without removing hose clamps or plumbing assemblies
- ⑥ Integrated rubber feet prevent noise and vibration
- ⑦ The rotational ball output allows the pump discharge position to be easily adjusted, making this pump ideal for all shapes and sizes of ponds
- ⑧ Included pump stand allows for vertical positioning

rp replacement parts available

Fittings Included

3x 1.25", 1.50", 2" Multi-Hose Fitting, 2", 1.50" Multi-Hose Fitting, 1.50" Rotational Ball Output, 1.50" Female Fitting

Please Note: many of the fittings included with your Aquascape product may look similar in size and shape. We include fittings specific to Aquascape kink-free tubing as well as fittings that will allow you to adapt to many competitors products. We recommend that you simply test fit the included fittings to determine what fitting best suits your needs.

PL and PN Solids Handling Pond, Pondless® Waterfall, and Vault Water Pump

The PL and PN Series pumps are known for durability, performance and value. The semi-vortex impeller design enables the pump to efficiently and effectively handle solids resulting in less maintenance and trouble-free performance. The built in thermal overload protects the pump from damage if ever run in low water conditions. Ideal for use in Aquascape and other skimmer and falls filter systems as well as Pondless® Waterfall filter vaults.

- Ideal for use in skimmer filters and Pondless® Waterfall applications
- Semi-vortex solids handling impeller reduces clogging and decreases maintenance
- Energy efficient, continuous duty motor operates at lower temperatures which extends pump life
- Constructed of stainless steel and composite resin for strength and corrosion resistance

AquascapePRO® Solids Handling Pond, Pondless® Waterfall, and Vault Water Pump

Available in flow rates from 3,000 to 10,000 gallons per hour (11,350 to 37,800 liters per hour)

AquascapePRO® pumps are ideal for use in Aquascape and other skimmer and falls filters systems as well as Pondless® Waterfall filter vaults.

Aquascape's horizontal pond pumps, from the AquascapePRO® line, are energy efficient and low maintenance. Quiet and efficient, these pumps have stainless steel construction, along with rubber feet to reduce vibration. With high head heights and a wide variety of flow rates to choose from there is sure to be an AquascapePRO® pump that fits your water gardens requirements.

AquaForce® Solids-Handling Waterfall Pump

Submersible, solids-handling waterfall and filter pump (available in flow rates from 1,000 to 5,200 GPH / 3,785 to 19,684 LPH)

AquaForce® asynchronous, solids-handling waterfall and filter pumps combine energy efficient performance, high flow rates and ease of maintenance making this pump the ideal choice for discriminating pond owners. The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond. AquaForce® pumps are able to pump solids up to one quarter of an inch, making it ideal for use with external pressure filters or Aquascape waterfalls type filter systems.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Asynchronous motor technology provides high torque, trouble-free performance at higher head heights
- Easy to maintain
- Durable prefilter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Plumbing adapter fittings included
- Provides years of trouble-free operation

AquaForce® 1000 Solids Handling Pump

#91011 MSRP \$219.98
(Unit Weight: 10.6 lbs.)

(Unit Weight: 15.4 lbs.)

AquaForce® PRO 4000-8000 Adjustable Flow Solids Handling Waterfall Pump

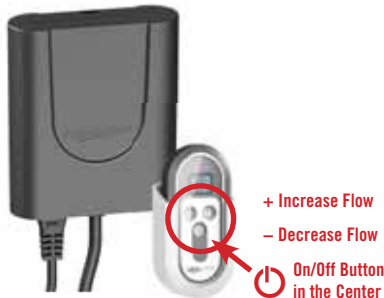

#91104 MSRP \$669.99
(Unit Weight: 16.5 lbs.)

- Allows you to customize and fine-tune the flow of waterfalls and streams
- Ability to adjust the flow makes it easy to select the right pump for any application
- Pump can be turned on or off with remote
- Each remote and receiver are paired together with a unique frequency

Pro Pump Remote and Receiver (G2)

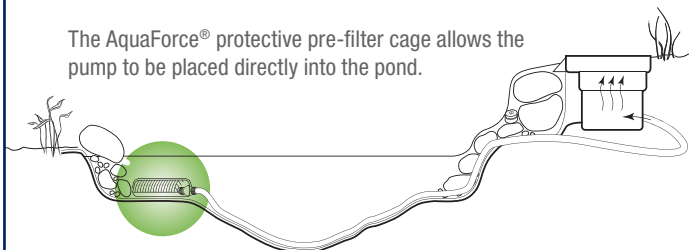

Features include:

- Numeric flow indicator
- Remote control holster allowing for permanent mounting
- Receiver includes mounting hardware
- Sleek and ergonomic design

AquaForce® Pond Application

The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond.

- ① Protective pump cage prevents large debris from clogging or damaging pump, thereby reducing maintenance
- ② Large cage openings allow for solids to be easily processed by pump, allowing debris to be passed and filtered, preventing the pump from being clogged or damaged
- ③ Asynchronous motor technology makes this pump more powerful and more efficient than traditional "mag drive," or magnetically driven pond pumps
- ④ The simple and secure threaded disconnect allows for the pump to be easily removed from the pond for maintenance or winterization without removing hose clamps or plumbing assembly
- ⑤ The wide, flat shape of the pump cage makes it stable and easy to place in the pond
- ⑥ The rotational ball output allows the pump discharge position to be easily adjusted, making this pump ideal for all shapes and sizes of ponds

Fittings Included

1.25", 1.50", 2" Multi-Hose Fitting, Locking Rotational Ball Fitting, 2", 1.50" Multi-Hose Fitting

Please Note: many of the fittings included with your Aquascape product may look similar in size and shape. We include fittings specific to Aquascape kink-free tubing as well as fittings that will allow you to adapt to many competitors products. We recommend that you simply test fit the included fittings to determine what fitting best suits your needs.

The Aquascape AquaForce® doubles as a great winterizing pump

Ultra™ Pumps

Submersible fountain, waterfall and filter pump (available in flow rates from 400 to 2,000 GPH / 1,514 to 7,570 LPH)

Ultra™ Pumps are the complete solution for small ponds, fountains and water features. This all-in-one kit includes a three-way or single valve and multi-size hose connection making it adaptable to almost any hose or tubing size. Ultra™ Pumps are ideal for supplying water to run fountains, water features, external filters and spitting ornaments.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Magnetically driven or "mag-drive" motor technology is simple and easy to maintain
- Durable prefilter cage design protects pump and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

400 GPH Ultra™ Pump

#91005 MSRP \$84.98

(Unit Weight: 2.9 lbs.)

1100 GPH Ultra™ Pump

#91008 MSRP \$189.98

(Unit Weight: 4.6 lbs.)

550 GPH Ultra™ Pump

#91006 MSRP \$104.98

(Unit Weight: 3.3 lbs.)

1500 GPH Ultra™ Pump

#91009 MSRP \$209.98

(Unit Weight: 8.4 lbs.)

800 GPH Ultra™ Pump

#91007 MSRP \$129.98

(Unit Weight: 4.4 lbs.)

2000 GPH Ultra™ Pump

#91010 MSRP \$239.98

(Unit Weight: 8.8 lbs.)

Ultra™ Pump Fountain Head Kit

Add a new dimension to the Ultra™ Pump with the simple addition of the Ultra™ Pump Fountain Head Kit.

Comes complete with three fountain heads and diverter valve to adjust the fountain height, as well as allows for the diversion of water to an external filter or waterfall.

Foaming Jet Fountain

Daisy Fountain

Waterbell Fountain

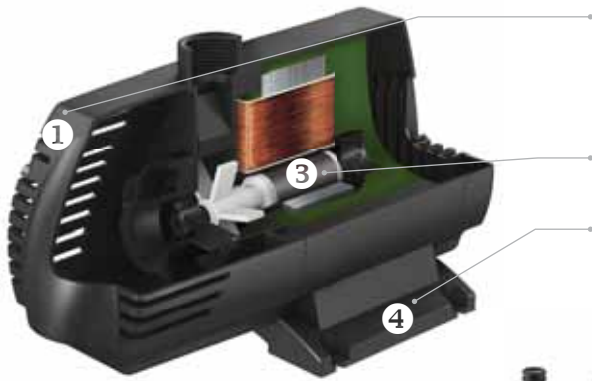

Small - for the Ultra™
400, 550 & 800 Pump

#91045 MSRP \$16.98
(Unit Weight: .7 lbs.)

Large - for the Ultra™
1100, 1500 & 2000 Pump

#91046 MSRP \$21.98
(Unit Weight: .7 lbs.)

- ① Protective pump input strainer cover and sponge filter prevents debris from damaging pump, thereby reducing maintenance and prolonging pump life
- ② Included three-way splitter with valve and multi-hose adapter makes the pump simple to connect almost all hose sizes
- ③ "Mag-drive" motor technology makes this pump energy efficient and simple to maintain
- ④ The wide, flat base and rubber feet make the pump stable and reduce vibration

Fittings Included in the Ultra 400, 550 and 800
3/4", 1", 1.25" Multi-Hose Fitting, 1/2" Valve

Fittings Included in the Ultra 1100, 1500 and 2000
3/4", 1", 1.25" Multi-Hose Fitting, 3/4" 3-Way Valve

The Aquascape Ultra™ Pump will provide years of trouble-free operation when properly maintained. If your Ultra™ Pump stops working try cleaning the protective input strainer and sponge. Another tip is to remove and clean the impeller and impeller housing with a mild acid-like white vinegar and toothbrush. This will remove any white scale build-up and allow the pump to run like new again. Note: replacement impeller kits are available.

Statuary and Fountain Pumps

Submersible fountain, waterfall and filter pump (available in flow rates from 70 to 320 GPH / 265 to 1,211 LPH)

Aquascape Statuary and Fountain Pumps are perfect for running smaller decorative fountains. These high quality, "mag-drive" or magnetically driven water pumps are ideal for supplying water to run fountains, water features, external filters, spitting ornaments and indoor or outdoor water fountains. This combination of energy-efficient, mag-drive performance, and flow and ease of maintenance make this pump the ideal choice for discriminating water feature owners.

- Extremely energy-efficient
- Magnetically driven or mag-drive motor technology is simple and easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

320 GPH Water Pump

#91026 MSRP \$34.98
(Unit Weight: 1.25 lbs.)

180 GPH Water Pump

#91025 MSRP \$24.98
(Unit Weight: 1.5 lbs.)

90 GPH Water Pump

#91024 MSRP \$17.98
(Unit Weight: .75 lbs.)

70 GPH Water Pump

#91023 MSRP \$14.98
(Unit Weight: .75 lbs.)

- ① "Mag-drive" motor technology makes this pump energy efficient and simple to maintain
- ② Included flow control valve allows you to create a customized water flow
- ③ The wide, flat base of the pump makes it stable and easy to place in the pond or fountain
- ④ Protective pump input strainer cover prevents debris from clogging or damaging pump, thereby reducing maintenance
- ⑤ Intake strainer on the bottom of the pump prevents the pump from running dry or pulling in air in shallow applications

Aquascape Statuary and Fountain Pumps will provide years of trouble-free operation when properly maintained. If your Statuary and Fountain Pump stops working, try cleaning the protective input strainer and sponge. Another tip is to remove and clean the impeller and impeller housing with a mild acid-like white vinegar and a toothbrush. This will remove any white scale build-up and allow the pump to run like new again. Note: Replacement impeller kits are available

AquaJet™ Pumps

Submersible fountain, waterfall and filter pump (available in flow rates from 600 to 2,000 GPH / 2,271 to 7,570 LPH)

AquaJet™ fountain and filter pumps are ideal for small to medium-size ponds or ponds up to 4,000 gallons. This all-in-one kit provides a stunning water fountain with the choice of three included fountain heads. An integrated diverter valve supplies water to a small waterfall, external filters or spitting ornaments. Extremely energy-efficient, saving hundreds of dollars over traditional water pumps

- Magnetically driven or "mag-drive" motor technology is easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance

AquaJet™ 600 Pump

#91014 MSRP \$209.98
(Unit Weight: 5.5 lbs.)

#91015 MSRP \$239.98
(Unit Weight: 8.8 lbs.)

AquaJet™ 2000 Pump

#91016 MSRP \$319.98
(Unit Weight: 9.7 lbs.)

- ① The adjustable riser stem makes it simple to adjust the fountain head to different heights (10" to 20") and/or depths
- ② Adjustable diverter and flow control allows water to be used for fountainhead
- ③ The rotational riser stem fitting allows for simple adjustment or leveling of fountain heads
- ④ Protective pump cage prevents debris from clogging or damaging pump, thereby reducing maintenance
- ⑤ Mag-drive motor technology makes this pump energy efficient and simple to maintain
- ⑥ Fine cage openings prevents fountain heads from becoming clogged
- ⑦ Simple pump cage clips make it easy to open the protective pump cage to perform pump maintenance or remove debris

Fittings Included in the AquaJet™ 600, 1300 and 2000
AquaJet Foaming Jet, Waterbell, Daisy, Riser Stems, Multi-Hose Fitting, Divert Valve

replacement parts available

2-Outlet and 4-Outlet Pond Aerators

Every process that happens in the pond is dependent on oxygen. This is especially important at night when plants are not converting sunlight into oxygen. Dissolved oxygen levels are also generally lower in warmer water temperatures. Pond aerators oxygenate your pond, helping all biological processes and create a more stable environment, resulting in healthier fish and plants. Aeration is also very important during winter months in colder climates, as aeration helps to keep a small hole open in the surface of the pond to aid in degassing.

- Extremely energy-efficient
- Quiet
- Simple to use and maintain
- Durable outer housing prevents damage
- Comes complete with winter resistant air line, preassembled check valves and air discs
- Provides years of trouble-free operation

2-Outlet Pond Aerator

#75000 MSRP \$59.98
(Unit Weight: 3.2 lbs.)

4-Outlet Pond Aerator

#75001 MSRP \$109.98
(Unit Weight: 5.2 lbs.)

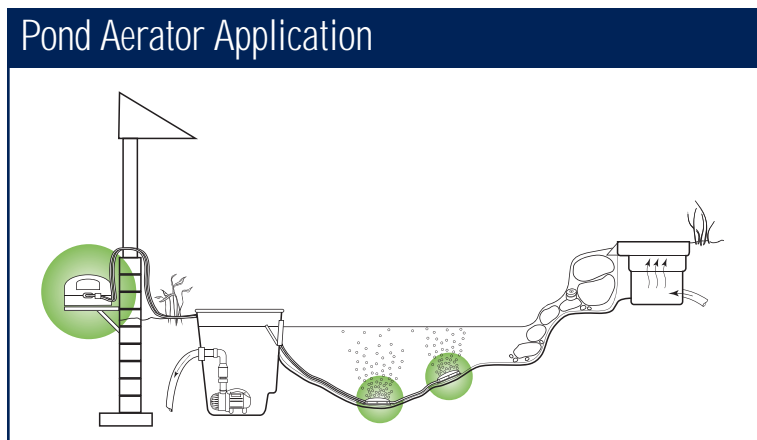

**VIDEO ON
POND AERATOR**

- ① The strong outer housing protects the pump from becoming damaged
- ② A thick rubber gasket separates the two halves of the air pump, reducing noise and preventing vibration
- ③ The wide, flat base of the pump makes it stable and easy to place
- ④ The integrated rubber feet prevent noise and vibration keeping the pump stable so there is no movement from its intended position
- ⑤ The replaceable diaphragm and assembly cartridge makes this pump simple and inexpensive to service

Pond Aerator Replacement Aeration Disc (qty. 1)

#75005 MSRP \$4.98
(Unit Weight: 0.3 lbs.)

The 2-outlet and 4-outlet aerator pump should be placed in an indoor location dry and free from airborne dust and debris. If you notice that your pump is losing air pressure or simply doesn't work as well as when you purchased it, a simple, inexpensive renew kit is available. After installing the renew kit your pond aerator should be as good as new.

Pond Aerator PRO 60

#61000 MSRP \$289.99

(Unit Weight: 18 lbs.)

7.75"L x 6"W x 6.25"H

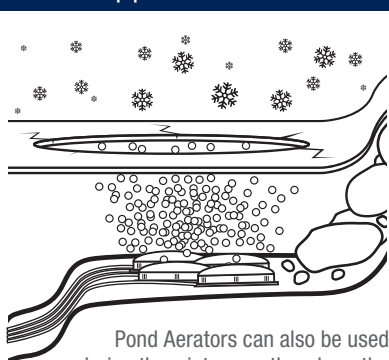

Aquascape professional-grade aeration system is designed to help improve water circulation and increase oxygen throughout the pond. The Pond Aerator PRO system can also be used during the winter months where the bubbles created at the surface will keep a small hole open in the ice for oxygenation and the removal of possible harmful gases from the water.

- Comes complete with a weather-proof, outdoor-rated, energy-efficient 45-watt air pump
- High volume 2.1 CFM of air
- For ponds up to 10,000 gallons
- Includes one large 8-inch diameter aeration disc and 30-feet of 3/8" braided aeration tubing

Winter Application

Pond Aerators can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

Pond Aerator PRO 8" Aeration Disc

#61001 MSRP \$44.99

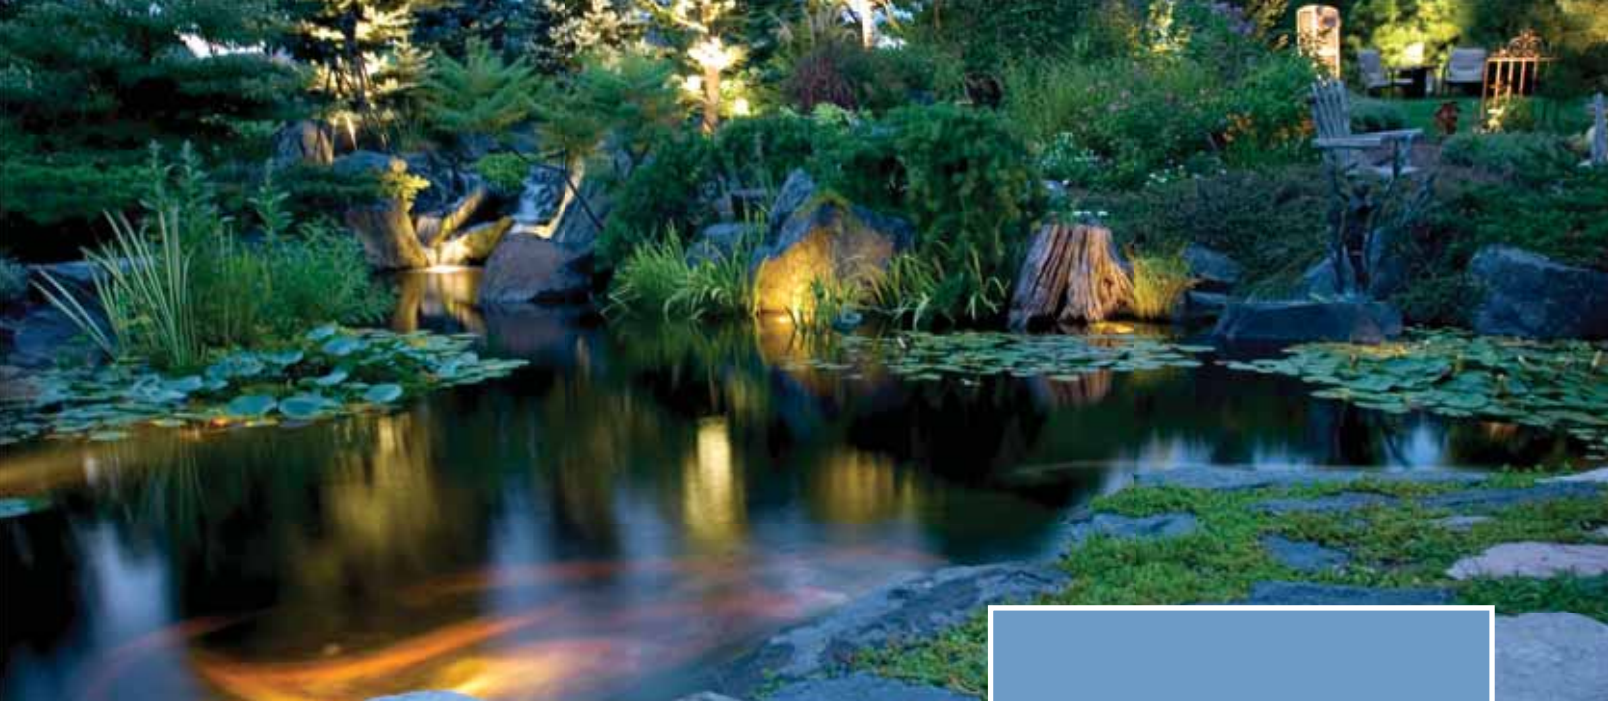

(Unit Weight: 2.5 lbs.)

Remember to not place the air diffusers on the bottom of the pond during the winter, which may disrupt the natural thermocline found in the deeper portions of the pond where the fish are overwintering. Instead place the air diffusers about 1 to 1 1/2 ft. below the surface of the water.

Aquascape LED Garden and Pond Lighting

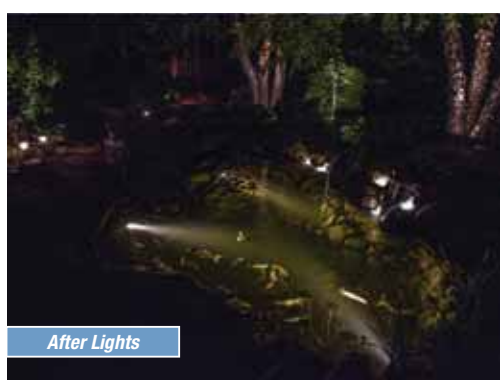

Add a new dimension to your water feature by bringing it to life at night. With today's busy lifestyle, it is often difficult to enjoy your pond or landscape during the day. With Aquascape's complete line of garden and pond lighting, enjoying your garden is easy - day or night.

Aquascape LED Garden and Pond Lighting combines style and simplicity. Our newest component fixtures feature a die-cast metal housing finished with a coating providing a durable finish that will hold up in all weather conditions. Aquascape LED Garden and Pond Lighting can be used fully submersed, or in traditional landscapes. Aquascape LED lights consist of permanently sealed watertight fixtures and are backed by a limited five-year full replacement warranty.

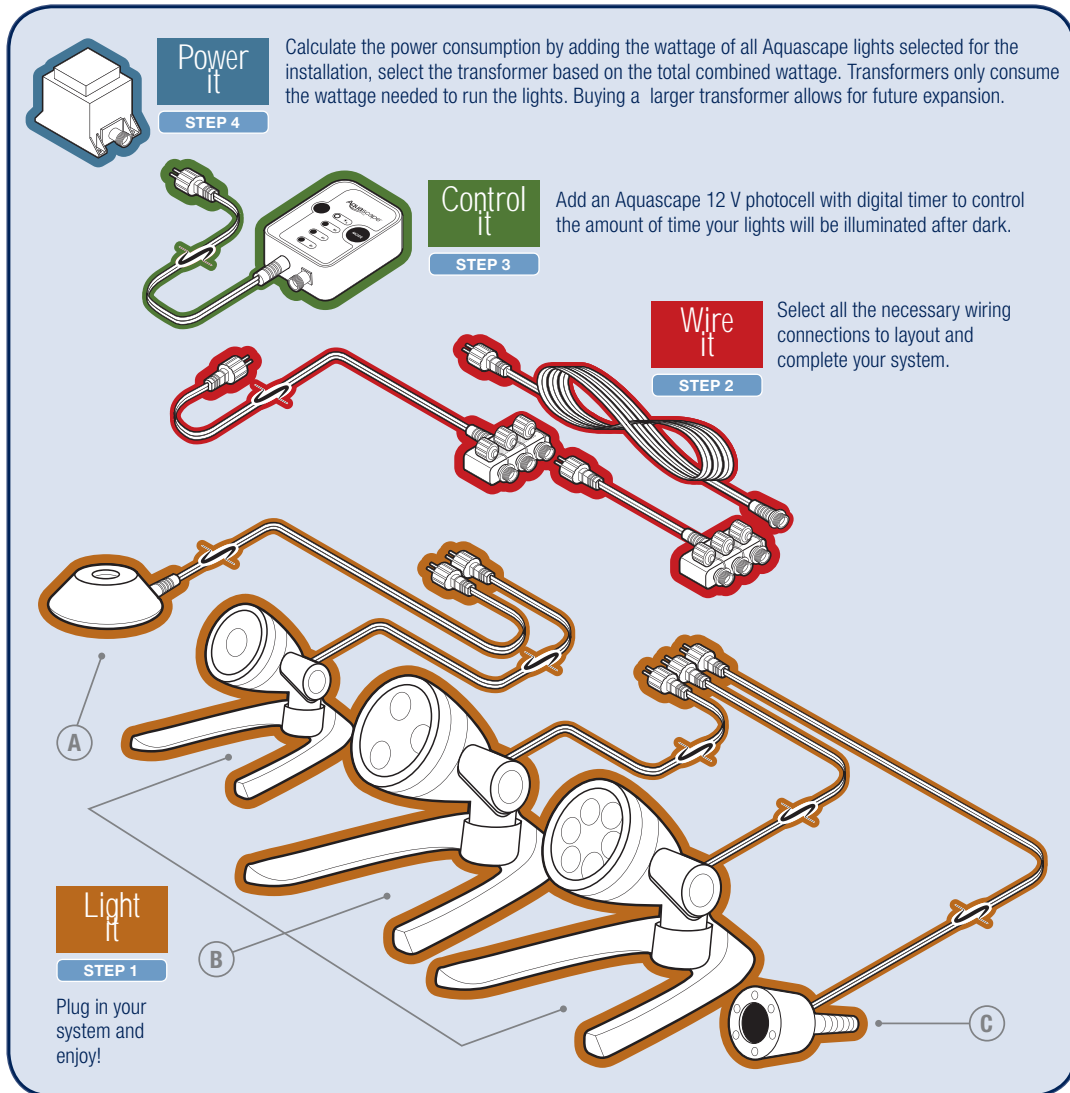

Aquascape LED Garden and Pond Lighting can be used fully submersed, or in traditional landscapes.

LED LIGHTS**

Design Your Own Aquascape LED Garden and Pond Lighting System

STEP 1

Choose an LED Lighting Option that Best Suits Your Needs

A Waterfall & Up Light

B Garden and Pond Spotlight

C Fountain Accent Light

STEP 2

Calculate the power consumption by adding the wattage of all the Aquascape lights selected.

EXAMPLE: 2 x 3-Watt Lights = 6 Total Watts of power consumed

Wire it
LED 6W
See package for wattage.

STEP 3

Take total wattage and add 10% to compensate for voltage fluctuations.

EXAMPLE: 6 Total Watts + 10% = 6.6 Watts

STEP 4

Select the appropriate wattage transformer, accessories, and lighting components.

Aquascape LED Garden and Pond Waterfall and Up Light 1-Watt

#84032 MSRP \$49.98

(Unit Weight: 1.1 lbs.)

- Light output is equivalent to a 10-watt halogen light
- 40,000 hour bulb life
- Features a powerful 1-watt LED diode
- Natural warm color light output 3000K
- Integrates easily with other quick-connect 12 volt components
- Limited five-year full replacement warranty

*Transformer sold separately

Aquascape LED Garden and Pond Spotlight 1-Watt

#84031 MSRP \$49.98

(Unit Weight: .9 lbs.)

- Light output is equivalent to a 10-watt halogen light
- 40,000 hour bulb life
- Features a powerful 1-watt LED diode
- Natural warm color light output 3000K
- Integrates easily with other quick-connect 12 volt components
- Limited five-year full replacement warranty

*Transformer sold separately

Aquascape LED Garden and Pond Spotlight 3-Watt

#84033 MSRP \$109.98

(Unit Weight: 1.75 lbs.)

- Light output is equivalent to a 20-watt halogen light
- 40,000 hour bulb life
- Features 3 powerful 1-watt LED diodes
- Natural warm color light output 3000K
- Integrates easily with other quick-connect 12 volt components
- Limited five-year full replacement warranty

*Transformer sold separately

Aquascape LED Garden and Pond Spotlight 6-Watt

#84034 MSRP \$149.98

(Unit Weight: 2 lbs.)

- Light output is equivalent to a 50-watt halogen light
- 40,000 hour bulb life
- Features 6 powerful 1-watt LED diodes
- Natural warm color light output 3000K
- Integrates easily with other quick-connect 12 volt components
- Limited five-year full replacement warranty

*Transformer sold separately

*Durable Quick-Connect
Electrical Connections*

included

Aquascape LED Lights include two different mounting platforms - an adjustable stand, and a stake.

Aquascape LED Garden and Pond Spotlight Kit 3-Watt

#84030 MSRP \$119.98

(Unit Weight: 4 lbs.)

Aquascape Garden and Pond Light Kit includes everything needed to create a beautiful nighttime focal point in any water garden or traditional landscape. The small compact design allows for installation in even the tightest spaces.

Kit Includes:

- Three pre-wired 1-watt LED injected molded lighting fixtures
- 6-watt /12 V transformer
- Automatic on/off photo cell with integrated timer
- Limited five-year full replacement warranty

Features and Benefits:

- Light output is equivalent to a 10-watt halogen light
- 40,000 hour bulb life
- Features a powerful 1-watt LED diode
- Natural warm color light output 3000K

Aquascape LED Garden and Pond Lighting Contractor Pack

Designed for quicker and easier installation of Aquascape lighting components, Aquascape Lighting Contractor Packs take up less space, reduce the amount of packaging, and are ideal for installations requiring multiple lights.

1-Watt (6-pack)

#84045 MSRP \$249.98

(Unit Weight: 7 lbs.)

3-Watt (6-pack)

#84047 MSRP \$549.98

(Unit Weight: 13 lbs.)

1-Watt Waterfall and Up Light (6-pack)

#84046 MSRP \$249.98

(Unit Weight: 7 lbs.)

Aquascape LED Fountain Accent Light 2.5-Watt

- Light output is equivalent to a 10-watt halogen light
- 40,000 hour bulb life
- Features a powerful 2.5-watt light output LED diode

- Natural warm color light output 3000K
- Integrates easily with other quick-connect 12 volt components
- Limited five-year full replacement warranty

LED Fountain Accent Light

#84008 MSRP \$39.98

(Unit Weight: .6 lbs.)

LED Fountain Accent Light with Transformer

#84009 MSRP \$49.98

(Unit Weight: 1.9 lbs.)

Garden and Pond 12 Volt Photocell with Digital Timer

#84039 MSRP \$24.98
(Unit Weight: .4 lbs.)

- Repeats programmed schedule daily
- Auto On at dusk / Off at dawn or 4-6-8 hour timer option
- Built-in memory setting in case of power loss
- Integrates easily with other quick-connect 12 volt components
- Up to 60-Watt capacity
- 36" cord
- Limited five-year full replacement warranty

Garden and Pond Manual Quick-Connect 12 Volt Transformers

Simple plug-in transformers provide an economical solution for operating low voltage lighting fixtures. Transformer includes a single quick-connect cable port for adding a light. Multiple light fixtures can be added by using the 3-Way Splitter.

60-Watt

#98486 MSRP \$49.98
(Unit Weight: 3.1 lbs.)

20-Watt

#98485 MSRP \$39.98
(Unit Weight: 1.5 lbs.)

6-Watt

#98375 MSRP \$19.98
(Unit Weight: .5 lbs.)

Garden and Pond 150-Watt Transformer With Photocell

#01002 MSRP \$99.99
(Unit Weight: 8 lbs.)

Includes 4, 6, 8 hour photo cell intervals options, as well as manual on/off override.

Garden and Pond 60-Watt Transformer With Photocell

#99070 MSRP \$69.98
(Unit Weight: 5 lbs.)

Includes 4, 6, 8 hour photo cell interval options.

Aquascape Garden and Pond Quick-Connect 12 Volt Accessories

- Integrates easily with other quick-connect 12 volt components
- No need to cut wires
- Simple weatherproof connections
- Weatherproof caps protect unused connections

**Durable Quick-Connect
Electrical Connections**

Splitters For 12 Volt Lighting

Provides a simple connection of 3 or 6 light fixtures to a single transformer. Multiple 3-way and 6-way quick-connect adaptors can be chained together to attach additional fixtures.

3-Way Splitter

#98489 MSRP \$10.98

(Unit Weight: .2 lbs.)

6" cord length

6-Way Splitter

#84022 MSRP \$17.98

(Unit Weight: 0.5 lbs.)

36" cord length

25' Lighting Cables W/Quick-Connects

This extension cable allows for simple extension of Aquascape lighting up to 25 feet. Ideal for use with our manual 12 Volt transformers and 3-way splitters.

- For use with Aquascape LED lighting system
- No need to cut wires
- Quick-connect system provides weatherproof seal

25' LVL Extension Cable w/Quick-Connects

#98998 MSRP \$16.98

(Unit Weight: 1 lb.)

25' Lighting Cable w/5 Quick-Connects

#84023 MSRP \$24.98

(Unit Weight: 1 lb.)

Aquascape Water Treatments

Combining science with simplicity, Aquascape makes it simple to maintain a healthy, well-balanced water garden. Aquascape's pump-top liquid bottles and bubble tabs make dosing simple and affordable. Put away your calculators and enjoy a clean, clear, healthy pond with the complete line of Aquascape water treatment products.

Aquascape's complete line of water treatments make it simple to maintain a healthy, well-balanced water garden.

Aquascape

Aquascape Pro

See page 64-65 for professional line of water treatments

Automatic Dosing System

Eliminate the guesswork and routine of adding water treatments to your pond, Pondless® Waterfall, fountain, or water feature.

In order for water treatments to work correctly, or to maintain optimum water quality, water treatments should be added consistently and on a regular basis. The Aquascape Automatic Dosing System accurately and consistently applies your choice of water treatment.

- Helps maintain optimum water quality
- Easy to use and fully programmable
- Can be used on almost any pond, fountain, or water feature
- Dependable and quiet operation

Drastically Reduces Pond Maintenance

Each type of water feature has its own set of challenges to maintain optimal water quality. In order to provide optimum results we have created two separate categories of treatment outlined below.

Automatic Dosing System for Ponds

#96030 MSRP \$129.98
(Unit Weight: 4 lbs.)

9"L (with hoses connected) x 4.25"W x 14"H (Install Dimensions)
7.5"L (canister top) x 4.25"W x 14"H (Canister Dimensions)

Includes a FREE Maintain treatment - a \$29.98 MSRP value

Includes a FREE Water Treatment!

Automatic Dosing System for Fountains

#96031 MSRP \$129.98
(Unit Weight: 4 lbs.)

9"L (with hoses connected) x 4.25"W x 14"H (Install Dimensions)
7.5"L (canister top) x 4.25"W x 14"H (Canister Dimensions)

Includes a FREE Prevent treatment - a \$29.98 MSRP value

Pond Water Treatments for Automatic Dosing System

For Ponds

Formulated specifically for systems that contain fish and plants, Aquascape Pond Water Treatments are the ideal way of maintaining optimum water quality, clarity and an overall healthy pond.

Each water treatment will treat a 2000 gallon pond for up to 30 days.

1 Maintain

#96032 MSRP \$29.98
(Unit Weight: 2.7 lbs.)

- Reduces maintenance
- Helps prevent fish loss

3 Clear

#96033 MSRP \$29.98
(Unit Weight: 2.7 lbs.)

- Clears discolored water
- Helps maintain crystal clear water

2 Clean

#96034 MSRP \$29.98
(Unit Weight: 2.7 lbs.)

- Contains a powerful combination of sludge eating bacteria and enzymes

4 Protect

#96035 MSRP \$29.98
(Unit Weight: 2.7 lbs.)

- Reduces fish stress in spring or after a cleanout

Fountain Water Treatments for Automatic Dosing System

For Fountains

Formulated for water features that don't contain fish and that may or may not be filtered. Aquascape Fountain Water Treatments help to maintain the original beauty of self-contained AquaBasin® fountains, Pondless® Waterfalls or traditional stand-alone fountains.

Self-contained water features often evaporate quickly and need to be topped off leaving a large concentration of minerals that will leave unsightly deposits on the surface of the fountain and will over time damage pumps. Aquascape Fountain Water Treatments prevent scale before it happens without the use of acids that may damage the surface of the fountain.

Each water treatment will treat most water fountains for up to one full season.

1 Prevent

#96042 MSRP \$29.98
(Unit Weight: 2.7 lbs.)

- Prevents stains, scale and unsightly water conditions
- Safe for birds and animals that may drink from the feature

2 Clean

#96037 MSRP \$29.98
(Unit Weight: 2.7 lbs.)

- Cleans existing growth and debris
- Will not damage the surface of the feature
- Safe for birds and animals

Aquascape Beneficial Bacteria for Ponds provides clean, clear and healthy water conditions and reduces pond maintenance.

- Contains eight pure strains of concentrated beneficial bacteria.
- Effective at reducing sludge, uneaten fish food, fish waste, dead and decaying plant material and excess nutrients that cause poor water quality and clarity
- Safe for fish, plants, pets and wildlife

32 oz./946 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 20,000 gal./75,600 liters

Biological Pond and Filter Cleaner

- Contains 5 strains of heterotrophic bacteria
- 1.5 billion CFU per ounce potency

#98890 MSRP \$19.98
(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 10,000 gal./37,800 liters

#98883 MSRP \$89.98
(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 pump treats 600 gal./2,268 liters
1 bottle treats 80,000 gal./302,400 liters

- Contains marigold and humic acid
- Safe for fish, plants and animals

Pond Starter Bacteria

#96013 MSRP \$15.98
(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 5,000 gal./18,900 liters

#96015 MSRP \$39.98
(Unit Weight: 2.3 lbs.)

32 oz./946 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 20,000 gal./75,600 liters

Establishes Biological Ecosystem

- Quickly establishes biological ecosystem
- Great for spring start-ups and new ponds
- Safe for fish, plants and animals

#96014 MSRP \$24.98
(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 10,000 gal./37,800 liters

#96008 MSRP \$89.98
(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 pump treats 600 gal./2,268 liters
1 bottle treats 80,000 gal./302,400 liters

New

Ammonia Neutralizer

#96050 MSRP \$19.98
(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 10,000 gal./37,800 liters

#96051 MSRP \$34.98
(Unit Weight: 2.3 lbs.)

32 oz./946 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 20,000 gal./75,600 liters

#96052 MSRP \$79.98
(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 pump treats 600 gal./2,268 liters
1 bottle treats 80,000 gal./302,400 liters

- Makes pond water safe for fish and plants
- Detoxifies chloramine in tap water
- Neutralizes large concentrations of toxic ammonia

Bacteria Bubble Tabs

#98951 MSRP \$14.98
(Unit Weight: .3 lbs.)

36 Tabs

1 tablet treats 100 gal./378 liters
1 container treats 3,600 gal./13,608 liters

#98930 MSRP \$24.98
(Unit Weight: .6 lbs.)

72 Tabs

1 tablet treats 100 gal./378 liters
1 container treats 7,200 gal./27,216 liters

- Keeps pond water clean and clear
- Maintains a balanced ecosystem
- Reduces pond maintenance

Sludge Cleaner Bubble Tabs

#98901 MSRP \$15.98
(Unit Weight: .3 lbs.)

36 Tabs

1 tablet treats 100 gal./378 liters
1 container treats 3,600 gal./13,608 liters

#98902 MSRP \$24.98
(Unit Weight: .6 lbs.)

72 Tabs

1 tablet treats 100 gal./378 liters
1 container treats 7,200 gal./27,216 liters

Pond Bottom and Filter Cleaner

- Bubble Tabs help disperse sludge-eating bacteria quickly
- Safe for fish, plants or animals that may drink pond water
- Over 500 million CFU bacteria count per tablet

Algaecide

#96022 MSRP \$8.98

(Unit Weight: .7 lbs.)

8 oz./236 ml.

1 tsp. treats 50 gal./189 liters

1 bottle treats 2,500 gal./9,450 liters

#96024 MSRP \$19.98

(Unit Weight: 2.3 lbs.)

32 oz./946 ml.

1 tsp. treats 50 gal./189 liters

1 bottle treats 10,000 gal./37,800 liters

#96023 MSRP \$12.98

(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

1 tsp. treats 50 gal./189 liters

1 bottle treats 5,000 gal./18,900 liters

#96026 MSRP \$69.98

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 tsp. treats 50 gal./189 liters

1 bottle treats 40,000 gal./151,400 liters

No More Algae Growth

- Controls string algae
- Clears green water
- Can be used on ponds with fish and plants

SAB™ Stream & Pond Cleaner

#98898 MSRP \$12.98

(Unit Weight: .3 lbs.)

4.4 oz./125 grams

1 scoop treats 120 gal./454 liters

1 container treats 1,200 gal./4,536 liters

#98900 MSRP \$34.98

(Unit Weight: 1.2 lbs.)

1.1 lb./500 grams

1 scoop treats 120 gal./454 liters

1 container treats 4,920 gal./18,597 liters

#98899 MSRP \$19.98

(Unit Weight: .6 lbs.)

8.8 oz./250 grams

1 scoop treats 120 gal./454 liters

1 container treats 2,400 gal./9,072 liters

#98896 MSRP \$149.98

(Unit Weight: 7.8 lbs.)

7 lbs./3.2 kg.

1 scoop treats 1,420 gal./5,368 liters

1 container treats 31,240 gal./118,087 liters

Breaks Down Debris in Ponds, Streams, and Waterfalls

- Maintains a balanced ecosystem
- Reduces pond maintenance
- Reduces ammonia, nitrite and phosphate
- Phosphate binder

EcoBlast™

#29311 MSRP \$14.98

(Unit Weight: 1 lb.)

8.8 oz./250 grams

1 container treats up to 200 square feet

#29313 MSRP \$69.98

(Unit Weight: 7 lbs.)

7 lbs./3.2 kg.

1 container treats up to 2,275 square feet

#29312 MSRP \$34.98

(Unit Weight: 3 lbs.)

38.4 oz./1.1 kg.

1 container treats up to 780 square feet

Fastest Way to Eliminate Algae

- Eliminates algae from waterfalls, streams, fountains and water features on contact
- Can be used at any water temperature
- Product available in U.S. only

Pond Detoxifier

#98876 MSRP \$10.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters

1 bottle treats 5,000 gal./18,900 liters

#40005 MSRP \$24.98

(Unit Weight: 2.2 lbs.)

Refill Pouch 32 oz./946 ml. Liquid

1 oz. treats 600 gal./2,268 liters

1 pouch treats 20,000 gal./75,600 liters

#98877 MSRP \$15.98

(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

1 pump treats 100 gal./378 liters

1 bottle treats 10,000 gal./37,800 liters

#96010 MSRP \$89.98

(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 pump treats 600 gal./2,268 liters

1 bottle treats 80,000 gal./302,400 liters

Makes Tap Water Safe for Fish and Plants

- Removes and detoxifies chlorine
- Neutralizes ammonia
- Detoxifies and chelates copper and heavy metals

POND DETOXIFIER**

Rapid Clear Flocculant

#98879 MSRP \$15.98
(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 5,000 gal./18,900 liters

#40006 MSRP \$24.98
(Unit Weight: 2.2 lbs.)

Refill Pouch 32 oz./946 ml. Liquid

1 oz. treats 600 gal./2,268 liters
1 pouch treats 20,000 gal./75,600 liters

#96049 MSRP \$19.98
(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 10,000 gal./37,800 liters

#96007 MSRP \$89.98
(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 pump treats 600 gal./2,268 liters
1 bottle treats 80,000 gal./302,400 liters

Quickly Clears Cloudy Pond Water by Clumping Suspended Debris

- Safe for fish, plants or animals that may drink pond water
- Works within 24 hours
- For best results use in combination with a Rapid Clear Fine Filter Pad (#80001).

Rapid Clear Fine Filter Pad (3-pack)

#80001 MSRP \$11.98
(Unit Weight: .6 lbs.)

Speeds-Up Filtering of Flocculated Particles

- For best results use in combination with Rapid Clear Liquid water treatment
- Enhances water quality
- Includes three 12" x 24" filter pads

Barley Straw Extract

#98903 MSRP \$10.98
(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters
1 bottle treats 5,000 gal./18,900 liters

#98904 MSRP \$15.98
(Unit Weight: 1.2 lbs.)

16 oz./473 ml.

#96012 MSRP \$99.98
(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 pump treats 600 gal./2,268 liters
1 bottle treats 80,000 gal./302,400 liters

Natural Way to Clarify Pond Water

Barley straw has been used for hundreds of years to promote clean clear water conditions in ponds and streams.

- Provides clear, clean pond conditions
- Starts working instantly
- Concentrated formulation with added enzymes

Quick Start Concentrated Barley Straw Pellets

#96029 MSRP \$24.98
(Unit Weight: 5.7 lbs.)

5 lbs./2.3 kg.

1 container treats 1,000 gal./3,780 liters

Fast-acting, Long-term Natural Way to Clarify Pond Water

- Concentrated barley straw pellets
- Comes in a resealable mesh bag
- Contains a blend of bacteria and enzymes

Alkalinity Booster with Phosphate Binder

#96027 MSRP \$19.98

(Unit Weight: 3 lbs.)

1.1 lb./500 grams

1 scoop treats 125 gal./472 liters

1 container treats 5,000 gal./18,900 liters

#96028 MSRP \$34.98

(Unit Weight: 9.8 lbs.)

9 lbs./4.08 kg.

1 scoop treats 125 gal./472 liters

1 container treats 40,750 gal./154,035 liters

Increases Overall KH/pH and Alkalinity

- Lab tested and pharmaceutical grade
- Dissolves completely and easily in pond water
- Phosphate and ammonia free

Pond Salt

#99416 MSRP \$12.98

(Unit Weight: 2 lbs.)

2 lbs./0.9 kg.

1 scoop treats 190 gal./718 liters

1 container treats up to 1,520 gal./5,745 liters

#99417 MSRP \$34.98

(Unit Weight: 9 lbs.)

9 lbs./4.08 kg.

1 scoop treats 190 gal./718 liters

1 container treats up to 6,840 gal./25,835 liters

#40003 MSRP \$49.98

(Unit Weight: 40 lbs.)

40 lbs./18.16 kg.

1 scoop treats 190 gal./718 liters

1 container treats up to 30,400 gal./114,912 liters

Reduces the Effects of Nitrite Levels Toxic to Fish

- Helps restore natural electrolytes
- Repairs natural slime coat
- Prevents disease

Pond Foam Free

#98909 MSRP \$15.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters

1 bottle treats 5,000 gal./18,900 liters

Safely Eliminates Foam Near Waterfalls

- Helps maintain the beauty of your pond
- Helps keep water clean and clear of foam
- Non-toxic, safe for birds, fish, plants or animals that may drink pond water

Natural Pond Tint

#98884 MSRP \$15.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters

1 bottle treats 5,000 gal./18,900 liters

Tints Water a Natural Tea Color

- Contains humic acid and enzymes to help balance the pond ecosystem
- Creates a shimmering effect
- One dosage lasts up to 6 weeks

Blue Pond Tint

#98882 MSRP \$16.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 100 gal./378 liters

1 bottle treats 5,000 gal./18,900 liters

Reformulated EcoShade™ Safely Colors Pond Water

- Filters sunlight and helps cool water
- Added enzymes help balance the pond ecosystem
- One dosage lasts up to 6 weeks

Activated Pond Carbon

#80000 MSRP \$19.98

(Unit Weight: 2.2 lbs.)

1 scoop treats 25 gal./95 liters

1 container treats up to 800 gal./3,024 liters

Removes Discoloration and Odors

Now made with bamboo carbon, a sustainable natural resource with exceptional discoloration removal capacity.

- Clarifies pond water
- Quickly reduces pond odor
- Removes discolorations

Container Water Garden Maintenance Tabs

#40004 MSRP \$14.98

(Unit Weight: .3 lbs.)

36 Tabs

1 tablet treats 100 gal./378 liters

1 container treats 3,600 gal./13,608 liters

Targeted Treatment for Container Water Gardens

- Contains 8 pure strains of beneficial bacteria
- Helps optimize water quality
- Safe for fish, plants or animals that may drink from container water gardens

Fountain Maintenance

#40007 MSRP \$19.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 10 gal./37.8 liters

1 bottle treats 500 gal./1,890 liters

Safely Eliminates Scale and Debris Build up from Water Features

- Helps maintain the beauty of your water feature
- Helps maintain perfect water quality
- Prevents white scale build-up without damaging feature
- Non-toxic, safe for birds and animals

Fountain Foam Free

#98908 MSRP \$15.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 10 gal./37.8 liters

1 bottle treats 500 gal./1,890 liters

Safely Eliminates Foam from Water Features

- Helps maintain the beauty of your water feature
- Helps keep water clean and clear of foam
- Non-toxic, safe for birds and animals

Fountain Scale Free

#98907 MSRP \$15.98

(Unit Weight: .6 lbs.)

8 oz./236 ml.

1 pump treats 10 gal./37.8 liters

1 bottle treats 500 gal./1,890 liters

Safely Removes Calcium and Scale from Water Fountains

- Helps keep water clean and clear of hard water deposits, white scale and foam
- Adds the fresh clean scent of lavender
- Non-toxic, safe for birds and animals

AquascapePRO® Water Treatments

- 25% more concentrated than the consumer equivalent product
- Measuring cups make it easy to apply larger doses
- Dosage guide on measuring cup for easy application

Beneficial Bacteria For Ponds (Liquid)

#30406 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Provides Clean, Clear and Healthy Water Conditions

- Contains Photo-Synthetic Bacteria
- 4.5 billion CFU per ounce potency
- Contains marigold and vitamin B

Beneficial Bacteria For Ponds (Dry)

#30407 MSRP \$199.99

(Unit Weight: 9.3 lbs.)

9 lb./4.08 kg.

1 scoop treats 48,000 gal./181,440 liters

1 container treats 672,000 gal./

2,540,160 liters

Provides Clean, Clear and Healthy Water Conditions

- Contains 8 strains of bacteria
- Contains Photo-Synthetic Bacteria
- 5 billion CFU per gram potency

Cold Water Beneficial Bacteria (Liquid)

#98895 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Provides Clean, Clear and Healthy Water Conditions

- Reduces ammonia, nitrite and organic debris
- 4.5 billion CFU per ounce potency
- Works in very cold water, as cold as 35°F/2°C

Ammonia Neutralizer Pro

#40012 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Protects the Biological Balance of Your Pond

- Makes pond water safe for fish and plants
- Detoxifies chloramine in tap water
- Instantly neutralizes large concentrations of toxic ammonia

New

Barley Straw Extract

#98906 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Natural Way to Clarify Water

- Provides clear, clean pond conditions
- Starts working instantly
- Concentrated formulation with added enzymes

SAB™ Stream & Pond Cleaner

#30409 MSRP \$199.99

(Unit Weight: 9.3 lbs.)

9 lbs./4.08 kg.

1 scoop treats 3,000 gal./11,340 liters

1 container treats 45,000 gal./170,100 liters

Keeps Ponds Clean and Crystal Clear

- Reduces pond maintenance
- Now contains more phosphate binder
- Reduces ammonia, nitrite and phosphate

Wetland Pond & Lake Bacteria

#98897 MSRP \$159.99

(Unit Weight: 9.2 lbs.)

1 gal./3.78 liters

1 scoop treats 48,000 gal./181,440 liters

1 bottle treats 768,000 gal./2,903,040 liters

Reformulated AquaClearer™ Extreme Wetland Pond & Lake Formula Beneficial Bacteria Maintenance

- Includes 8 pure strains of beneficial bacteria, including PSB (Photo-Synthetic Bacteria)
- Maintains a balanced ecosystem
- Naturally reduces ammonia, nitrite and excess nutrients like phosphate

Waterfall & Rock Cleaner

#30413 MSRP \$79.99

(Unit Weight: 9.3 lbs.)

9 lbs./4.08 kg.

1 scoop treats 151-200 sq. feet/46-60 meters

1 container treats 3,650 sq. feet/339 sq.meters

Spot-Treat the Trouble Areas on Water Features

- Quickly dissolves debris from waterfalls and rocks
- Reduces pond maintenance
- Goes to work instantly

Pond Detoxifier

#30410 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Makes Tap Water Safe for Fish and Plants

- Removes and detoxifies chlorine and chloramines
- Neutralizes ammonia
- Detoxifies and chelates copper and heavy metals

Natural Pond Tint

#30411 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Tints Water a Natural Tea Color

- Contains humic acid and enzymes
- Added enzymes help balance the pond ecosystem
- One dosage lasts up to 6 weeks

Sludge & Filter Cleaner

#30408 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Biological Pond and Filter Cleaner

- Contains 5 strains of heterotrophic bacteria
- 4.5 billion CFU per ounce potency
- Contains marigold and humic acid

Pond Starter Bacteria

#40011 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Establishes Biological Ecosystem

- Establishes biological ecosystem
- Great for spring start-up and new ponds
- Safe for fish, plants and animals

Rapid Clear

#30412 MSRP \$99.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Clears Discolored or Cloudy Water

- Clumps suspended debris (flocculation)
- Clears most ponds in 24 hours

Pond & Debris Clarifier

#40010 MSRP \$79.99

(Unit Weight: 9 lbs.)

1 gal./3.78 liters

1 scoop treats 6,000 gal./22,680 liters

1 bottle treats 96,000 gal./362,880 liters

Quickly Cleans Unsightly Debris

- Restores water quality
- Reduces pond maintenance

Selecting Your Seasonal Care Products

Below are the vital components for ensuring that your water feature is properly maintained and your fish are cared for over the colder months of the year.

Cold Water Bacteria (For spring and fall) – see page 58 for more information

Beneficial bacteria living in the biological filter and throughout the rocks and gravel in the pond are another key component to achieving crystal clear water and reducing pond maintenance. The bacteria, similar to aquatic plants, consume excess nutrients but are also capable of breaking down organic debris. It is important to the pond's ecosystem for these maintenance microbes to become established as early in the spring as possible. Aquascape's Cold Water Bacteria is perfect for both spring and fall because it works at temperatures below 50°F and contains 7 pure strains of concentrated beneficial bacteria that go to work quickly, cleaning and balancing your ornamental pond.

Coldwater Fish Food (For spring and fall) – see page 71 for more information

In the colder months of the year when the water temperature is below 60 degrees, your fish's metabolism slows down in preparation for hibernation. It is important during these times to either eliminate fish feeding from your daily regimen or switch to a food that is formulated for low water temperatures. Aquascape's Premium Cold Water Fish Food has been scientifically formulated to provide quality nutrition to all pond fish, including goldfish and koi. The inclusion of spirulina and wheat germ helps make the food easier to digest at colder water temperatures.

"Being prepared for every different season Mother Nature throws our way helps us help our ponds cope with the changes."

Protective Pond Netting

When fall comes and the leaves start turning a multitude of colors, it's an absolutely dazzling time of the year. But when the colors begin to fade, your pond will become a magnet for falling leaves. One way to minimize the leaves that accumulate at the bottom of your pond, along with the work required in spring clean-out, is to drop Aquascape's Protective Pond Netting over the pond. If you do this, life will be much easier in the spring.

300-Watt Pond De-Icer

If you are located in a region that experiences long periods of extremely cold weather you will also want to consider adding our 300-Watt Pond De-Icer in combination with the Aquaforce® recirculating pump. The de-icer ensure that there is always a hole open in the ice for oxygenation...even during extreme weather conditions. The Aquascape 300-Watt Pond De-Icer also comes equipped with a built-in LED light that indicates when the heater is in use.

AquaForce® – see page 42 for more information

In the colder months, it is important to start thinking about protecting your fish by ensuring that there's a hole open in the ice all winter long. Our AquaForce® pump is a recirculating bubbler pump designed to sit in the pond and oxygenate the water. The flow from the pump will bubble at the surface of the pond and maintain an opening in the ice. By keeping a hole open in the ice, you keep the water oxygenated and also allow the harmful gases to escape.

300-Watt Pond De-Icer

#39000 MSRP \$129.98

(Unit Weight: 3 lbs.)

Now comes with a 3-year limited warranty

Aquascape stainless steel Pond De-icer is ideal for keeping a small hole opening in the ice during cold winter months, and ensures proper gas exchange helping keep fish alive during the winter.

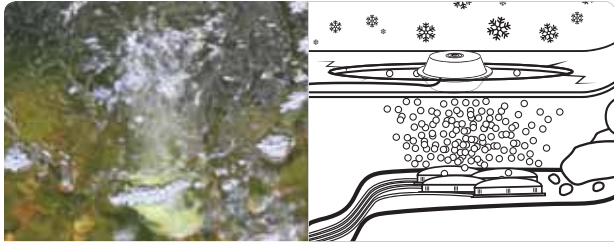

- Prevents winter fish loss
- Keeps a small hole in the ice during winter months
- Helps increase pond oxygen levels
- Stainless steel construction prevents corrosion and cracking
- Low cost to operate
- Built-in LED light indicates when heater is in use

- ① High quality stainless steel housing
- ② LED light indicates when the unit is operating

VIDEO ON
POND DE-ICER

2 and 4-Outlet Pond Aerators

Pond Aerator PRO 60

Pond Aeration

Pond aerators can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

See pages 42 and 49 for more information on the Pond Aerators

AquaForce® Pumps Great for Winter De-icing

The fact that the AquaForce® can be submerged directly in the pond also makes it a great pump to be used as a winter de-icer. The AquaForce's powerful flow of water positioned just below the surface of the pond will keep a hole open in the ice and ensure critical oxygen levels are maintained in the pond during the cold winter months.

See pages 42 and 43 for more information on the AquaForce®

Protective Pond Netting

Aquascape Protective Pond Netting keeps predators out while also catching leaves and falling debris before they enter the pond. The reusable netting is easy to install and resists tearing. Complete with 14 stakes to secure netting in place.

- Keeps falling leaves and debris from entering the pond
- Protects fish by keeping predators out
- Comes complete with stakes to secure netting into place
- Quality woven poly material resists tearing
- Reusable

Actual Size

Submersible Pond Thermometer

#74000 MSRP \$7.98

(Unit Weight: 0.2 lbs.)

Monitor pond temperature throughout the year to help adjust fish feeding and water treatment applications during seasonal changes.

Floating Alligator Decoy

#93000 MSRP \$44.98

(Unit Weight: 2.7 lbs.)

Add a little fun to your pond while protecting your valuable fish. The natural body movement will deter herons and other predators from visiting your pond.

- Three hinged body parts allow gator to float freely and appear lifelike deterring pond predators
- Detailed in non-fading, no-glare, all-weather paint

Blue Heron Decoy

#81030 MSRP \$49.98

(Unit Weight: 3 lbs.)

25"L x 7"W x 26.5"H

Deter herons from coming to your pond by tricking them into thinking another heron is already there.

- Looks life-like!
- Quick and easy set-up
- Hand-painted with non-fading, no-glare, all-weather paint
- Surface treated to prevent paint flaking
- Molded from durable, lightweight polymer

Aquascape Fish Care

Fish, like all creatures, need food to survive. All Aquascape fish foods contain probiotics that aid in digestion, optimize growth rates and reduce fish waste. Quality ingredients, including multivitamins and stabilized vitamin C, provide superior nutrition and will not pollute pond water. Aquascape fish foods are scientifically formulated to provide all pond fish, including koi and goldfish with premium quality nutrition at an affordable price.

- Floating pellet ideal for all pond fish
- Keeps pond water clean and clear
- Includes stabilized multivitamin
- Will not break apart and cloud water
- Contains high quality protein

Large Pellet	Ideal for large fish from 8" (20cm) and above
Bulk (Large) Pellet	Ideal for large fish 8" (20cm) and above
Mixed Pellet	Ideal for all size fish from 3" (8cm) and above

Koi Krunchies

#81000 MSRP \$14.98

(Unit Weight: 1.1 lbs.)

Made With Natural Citrus Flavors

Aquascape Koi Krunchies are a wonderful addition to your fish's regular diet. Koi Krunchies are ideal for hand feeding goldfish, koi and other pond fish. Aquascape Koi Krunchies contain real fruit flavors and are a great source of vitamin C, which is linked to proper tissue formation, proper digestion and disease resistance.

- Great for hand feeding all pond fish
- Contains quality natural ingredients
- Great source of vitamin C
- Low waste

- Always feed koi from the same place so that fish start to recognize who you are and that you are about to feed them
- Make sure not to make sudden movements when hand feeding, as this may frighten koi
- When hand feeding, slowly place half of the food into the pond to get the fish used to coming to the surface to feed, this will also get the fish used to the smell and taste of their new treat
- Remember, whenever offering a new food, fish need a chance to recognize new shapes and smells as something to eat. Be patient and before you know it your fish will come rushing towards you to receive their delicious Aquascape Koi Krunchies treat or food

Aquascape Premium Flake Fish Food

Ideal For Small Pond Fish

Aquascape Premium Flake Fish Food has been scientifically formulated to provide premium nutrition to all pond fish including goldfish and koi. The inclusion of plankton and shrimp meal help make this food irresistible to all pond fish and can be easily consumed by smaller fish including babies known as fry.

- Flake food ideal for all pond fish
- Keeps pond water clean and clear
- Includes stabilized multivitamin
- Will not break apart and cloud water
- Contains high quality protein
- Will promote brilliant colors on all pond fish

Mini Pond Net

#98556 MSRP \$7.98

(Unit Weight: .2 lbs.)

10" x 7" with 12" Handle

This net is best suited for small ponds or container water gardens.

Pond Net With Extendable Handle (Small)

#98558 MSRP \$15.98

(Unit Weight: .6 lbs.)

32" handle, extends to 63"

This small 12" x 7" net is great for tight spaces or ideal for children to lend a helping hand.

Pond Skimmer Net With Extendable Handle (Small)

#98559 MSRP \$15.98

(Unit Weight: .6 lbs.)

32" handle, extends to 63"

This small 12" x 7" net is great for scooping up small debris in tight spaces.

Pond Net With Extendable Handle (Heavy Duty)

#98560 MSRP \$29.98

(Unit Weight: 1.4 lbs.)

36" handle, extends to 69"

Our Best Value Pond Net

This heavy duty pond net is great for general maintenance as well as the addition and removal of larger pond fish. The strength of this quality net allows for the removal of large amounts of debris, cutting down on maintenance time.

Pond Skimmer Net With Extendable Handle (Heavy Duty)

#98562 MSRP \$29.98

(Unit Weight: 1.4 lbs.)

36" handle, extends to 63"

Our Best Value Pond Skimmer Net

This heavy duty skimmer net is great for general maintenance. The strength of this quality net allows for the removal of large amounts of debris, cutting down on maintenance time.

Pro Fish Net With Extendable Handle

#98561 MSRP \$34.98

(Unit Weight: 2.1 lbs.)

22" diameter head, 36" handle, extends to 69"

This net is specifically designed to handle and cradle larger pond fish including koi. The super soft netting and shallow design prevents fish from being snagged in the mesh. This style of net is a must for the pond owner with larger fish.

Professional Grade Pond Nets

AquascapePRO® pond nets are designed and built for professional pond maintenance crews. Nets include a heavy-duty, 3-foot handle that collapses for storage, allowing for safe transport from one pond to the next.

Pond Net

#50000 MSRP \$59.99

(Unit Weight: 2 lbs.)

- great for removal of large fish and a variety of debris

Pond Skimmer Net

#50001 MSRP \$59.99

(Unit Weight: 2 lbs.)

- ideal for removing small floating and suspended debris from the pond water

Collapsible Pond Nets

The Collapsible Fish and Skimmer Nets include quick-latch, telescoping handles that extend to 35" and completely fold down for compact storage.

Collapsible Pond and Fish Net 17" Black Coarse Mesh

#81031 MSRP \$29.98

(Unit Weight: 1.1 lbs.)

- ideal net for catching and handling fish

Collapsible Pond Skimmer Net 17" White Fine Mesh

#81032 MSRP \$29.98

(Unit Weight: 1.1 lbs.)

- ideal for quick and easy removal of leaves and other debris

Ulcer & Bacterial Treatment (Dry)

#81038 MSRP \$14.98

(Unit Weight: 0.6 lbs.)

8.8 oz./250 grams

1 scoop treats 125 gal./472 liters

1 bottle treats 4,875 gal./18,427 liters

Used For the Treatment of Bacterial Infections, Fin Rot, Open Sores and Ulcers

Bacterial infections and ulcerations are primarily a secondary infection resulting from external damage caused by parasites, physical damage caused by improper netting or rough handling. Most disease problems or issues may be linked back to poor water quality or introduction of sick or stressed fish. Before adding any medication to your pond or holding system, make sure and verify all water parameters and rectify any issues before treatment.

Praziquantel Treatment (Liquid)

#81041 MSRP \$24.98

(Unit Weight: 0.6 lbs.)

8 oz./236 ml

5 ml. treats 25 gal./94 liters

1 bottle treats 1,250 gal./4,725 liters

Used For the Treatment of External and Internal Parasites, Flukes, Flatworms and Tapeworms

Praziquantel is known to be one of the safest most effective pond fish medications available for treating a vast array of external and internal parasites. It will not stress pond fish, damage filtration systems, or negatively affect the balance of your pond. One of the biggest advantages in large ponds is that water changes are not necessary and it only takes one treatment.

Fungus Treatment (Liquid)

#81040 MSRP \$14.98

(Unit Weight: 0.6 lbs.)

8 oz./236 ml

5 ml. treats 25 gal./94 liters

1 bottle treats 1,250 gal./4,725 liters

Used For the Treatment of Fungus External Protozoan Parasites Including, Freshwater / Saltwater Ich, Costia and Trichodinella

It is important to treat immediately after noticing the first signs of fungus or a parasite problem on your pond fish. Common symptoms include white, green or grey cottony looking patches, fish quickly rubbing or flashing against surfaces within the pond. White spots that look like grains of salt or larger stuck to the surface of the fish.

Common issues that should be avoided include water temperature fluctuation, poor water quality and/or fish stress.

Parasite & Ich Treatment (Liquid)

#81039 MSRP \$14.98

(Unit Weight: 0.6 lbs.)

8 oz./236 ml

5 ml. treats 25 gal./94 liters

1 bottle treats 1,250 gal./4,725 liters

Used For the Treatment of External Protozoan Parasites Including, Freshwater / Saltwater Ich, Costia and Trichodinella

It is important to treat immediately after noticing the first signs of a parasite problem on your pond fish. Common symptoms include fish quickly rubbing or flashing against surfaces within the pond. White spots that look like grains of salt or larger stuck to the surface of the fish.

Common issues that should be avoided include water temperature fluctuation, poor water quality and/or fish stress.

Pond Salt

Reduces the Effects of Nitrite Levels Toxic to Fish

- Helps restore natural electrolytes
- Repairs natural slime coat
- Prevents disease

#99416 MSRP \$12.98

(Unit Weight: 2 lbs.)

2 lbs./0.9 kg.

1 scoop treats 190 gal./718 liters

1 container treats up to 1,520 gal./5,745 liters

#99417 MSRP \$34.98

(Unit Weight: 9 lbs.)

9 lbs./4.08 kg.

1 scoop treats 190 gal./718 liters

1 container treats up to 6,840 gal./25,835 liters

#40003 MSRP \$49.98

(Unit Weight: 40 lbs.)

40 lbs./18.16 kg.

1 scoop treats 190 gal./718 liters

1 container treats up to 30,400 gal./114,912 liters

Difficulty swimming underwater floating at the surface upright	– Swim Bladder Disease	<ul style="list-style-type: none"> • If the fish is still feeding, feed fish with canned peas or a Spirulina-based fish food
Red or swollen gills	– Parasite Problem	<ul style="list-style-type: none"> • Aquascape Parasite & Ich Treatment • Aquascape Praziquantel Treatment • Aquascape Pond Salt

Most fish issues can be avoided by following a few simple, preventative measures:

- Understand Your Water Quality** - The majority of issues are caused by poor water quality. Make sure that the fish population is under control and don't be afraid to do partial water changes often and consistently. Make sure when adding water, or when doing a partial water change, that you treat the water with Pond Detoxifier to eliminate chlorine/chloramines and chelate heavy metals. Aerating pond water is also something that can potentially increase water quality dramatically.
- Buy Your Fish From a Responsible Retailer** - Never buy sick fish and, if possible, quarantine fish for a few days before adding them to your pond. Always ask how long the retailer has had the fish. If they have just received them in, ask the retailer to hold the fish for a few days to make sure the fish recovers from stress related to transport and new water chemistry.
- Keep a Close Eye on Your Fish** - If any signs of disease are seen, start using Pond Salt immediately and start feeding with medicated fish food. If things look like they are getting worse, immediately treat the pond with the appropriate treatment. The longer you wait to treat the problem, the less chance you have of saving your fish.
- Test Your Water** - Test it yourself or have your local retailer test it for any signs of a problem. It is also important to test the water coming directly from your tap as it is increasingly common to have issues including ammonia coming directly from your source water.
- Feed Your Fish a High-Quality Food** - Feeding a high-quality food will not affect water quality and will ensure that your fish are getting all the vitamins and nutrients they need to maintain proper health. Be sure to feed often and consistently.

Before treating any potential problem with your fish, it is important to make sure that you are using the correct treatment, dosage or treatment rate to prevent any reoccurrence.

Remember, prevention is the best cure. The easiest way to avoid disease problems is to maintain optimum water conditions. Feeding a quality diet and adding beneficial bacteria on a regular basis will help maintain a balanced Ecosystem. Disease problems must be addressed in the early stages to be successful.

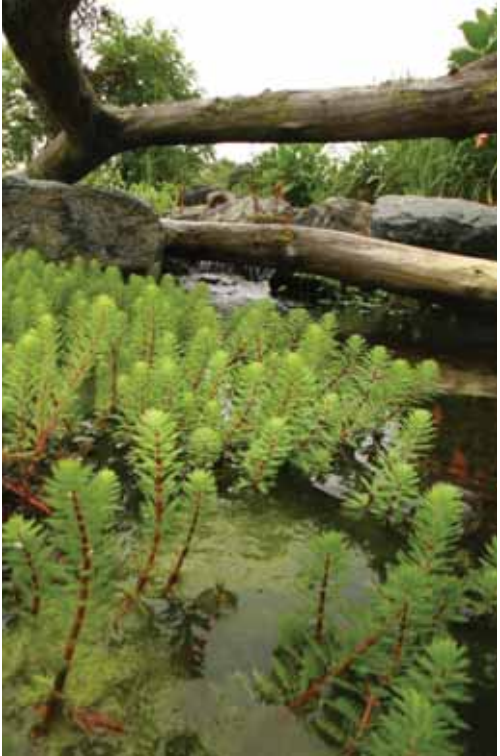

Aquascape Aquatic Plant Care

Aquatic plants are the foundation of every water garden. Not only do they provide beauty, but they also help to balance the pond ecosystem. Aquatic plants will quickly naturalize the pond while at the same time provide shelter and shade for aquatic creatures. Aquascape offers a full line of products to help you care for your aquatic plants.

Regardless of why you got into this hobby, adding aquatic plants to the pond is an important part of the water garden. They provide beauty and naturalization with a huge array of plant choices. Most importantly, they help balance the pond's ecosystem and provide valuable biological filtration that removes nitrogen, ammonia, nitrates and other minerals from pond water. These excess nutrients are often the cause of unsightly water conditions. The end result helps to minimize pond maintenance, leaving more time to enjoy your pond. Without aquatic plants, your pond would not be able to function as a complete ecosystem.

Aquatic Pond Plants can be classified into a few main categories: Water Lilies, Marginal Plants, Floaters and Oxygenators. Plants can also be put into two basic types known as "tropical" and "hardy." Hardy plants will over-winter in colder climates and tropical plants are more suited to warmer climates, although tropical plants are often used as annuals in colder climate zones.

Aquatic plants
are the foundation
of every
water garden.

Floating Plant Island

#89006 MSRP \$27.98

(Unit Weight: .4 lbs.)

15"L x 11"W x 4"H

Display plants in deeper areas of the pond where there are no plant shelves

Aquascape's Floating Plant Island is ideal for displaying plants in deeper areas of the pond or where there are no plant shelves. The floating planter keeps the soil intact and lets water in while protecting plants from fish. Constructed to stay afloat at the surface of the pond, the Aquascape Floating Plant Island provides stunning options for displaying plants within the pond.

Aquatic Planters

Aquascape Aquatic Planters are ideal for all pond plants. Made from fine, porous material, the planters allow water in while preventing soil from entering your pond. The flexibility of Aquatic Planters makes it simple to place plants between rocks and other form-fitting areas. Aquatic Planters blend into their surrounding and will not break or crack like traditional plastic planters.

- Can be molded to fit in tight spaces
- Will not break or crack
- Keeps soil from escaping

Aquatic Plant Pot 6" x 6" (2 Pk.)

#98501 MSRP \$3.98

(Unit Weight: .1 lbs.)

Aquatic Plant Pot 8" x 6" (2 Pk.)

#98502 MSRP \$4.98

(Unit Weight: .1 lbs.)

Aquatic Plant Pot 12" x 8" (2 Pk.)

#98500 MSRP \$7.98

(Unit Weight: .1 lbs.)

Aquatic Lily Pot 14" x 7" (2 Pk.)

#98929 MSRP \$8.98

(Unit Weight: .1 lbs.)

Pond Plant Fertilizer 10-14-8

#98918 MSRP \$14.98

(Unit Weight: .4 lbs.)

36 Tabs/7 oz.

#98919 MSRP \$24.98

(Unit Weight: .8 lbs.)

72 Tabs/14 oz.

Aquascape Pond Plant Fertilizer feeds all types of aquatic plants including waterlilies. Unlike other pond tablets that feed for only two weeks, Aquascape Pond Plant Fertilizer provides an initial quick-release of nutrients that ensures proper growth and longer lasting blooms for up to 45 days.

*Not for sale in the state of California or Florida.

Once-A-Year Plant Fertilizer 13-13-13

#98916 MSRP \$19.98

(Unit Weight: 1.2 lbs.)

500 grams/1.1 lb.

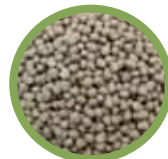

#98917 MSRP \$109.98

(Unit Weight: 7.8 lbs.)

3.2 kg/7 lb.

Aquascape Once-A-Year Plant Fertilizer contains a complete time-released fertilizer that will help maximize plant growth and increase flower production all in a single application. Why fertilize every few weeks when you can do it once a year?

*Not for sale in the state of California or Florida.

Pond Plant Potting Media

#89002 MSRP \$9.98

(Unit Weight: 10 lbs.)

This all-natural, non-toxic alluvial planting media is fine-grained and perfect for supporting the growth of your aquatic plants. Our premium potting media contains no peat moss or compost and is safe for fish.

Flexible PVC Pipe

Aquascape high quality Flexible PVC Pipe makes installations quick and easy. The main advantage of this type of pipe is durability and the ability to be glued into standard Schedule 40 PVC fittings. But it can simplify your install saving you time and money.

Features

- Simplifies plumbing layouts and installations
- Works with all Schedule 40 PVC fittings
- Sun, ozone, and mildew resistant - Note: we do not recommend placing flexible PVC pipe in continuous sunlight
- Made in USA

Kink-Free Pipe

Aquascape high quality Kink-Free Pipe is an excellent choice for quick and easy installations without the use of PVC cement. Kink-Free Pipe is extremely flexible and resistant to crimping or collapsing around tight curves. Works best when used with traditional stainless steel hose clamps and barbed fittings.

Features

- Simplifies plumbing layouts and installations
- Internal spiral prevents crushing
- Smooth inner wall reduces friction and maximizes water flow
- Made in USA

Aquascape will indicate size by color coding the internal spiral or structure located inside the tubing to a color coded system making finding fittings and matching hose sizes easier.

- ¾ inch (Dark Blue Spiral)
- 1 inch (Green Spiral)
- 1.25 inch (Red Spiral)
- 1.5 inch (Light Blue Spiral)

Aquascape's color coded kink-free pipe makes finding fittings and matching hose sizes easier.

Aquascape's Kink-Free Pipe cut into 6-foot sections and packaged for convenience. Great for plumbing basalt and other natural stone fountains.

AquascapePRO® Check Valve Assembly

An AquascapePRO® Check Valve Assembly is needed to connect your pump to the pond plumbing. Aquascape dual union check valves have a removable connection underneath the check valve which allows you to disconnect the pump and plumbing without draining the water in your BioFalls® Filter (not included in #29500 Plumbing Assembly). See descriptions and chart below to determine which check valve assembly fits your project.

AquascapePRO® Check Valves

Liner & Underlayment

The liner is the pond's foundation. Choosing an inferior liner can lead to a leaky pond. Educate yourself on the selection of liners that are available. Don't even consider using a liner if it doesn't come with a long-term warranty. It is important to also determine whether the liner you choose is safe for any fish that may inhabit the pond.

Underlayment is installed before the liner in order to prevent any punctures that may occur from rough or rocky ground. The underlayment actually serves a couple of purposes. It not only provides protection for the liner against rocky soils and roots, but it also allows the ground to breathe from underneath. The earth releases gases and the fabric allows the gases to escape from underneath the liner rather than becoming trapped, causing gas bubbles to push the liner up into the pond.

Don't even consider using a liner if it doesn't come with a long-term warranty.

EPDM Pond Liner

Aquascape 45 mil fish-safe EPDM pond liner leads the industry in quality and reliability. Backed by an industry leading 20 year guarantee, Aquascape is the choice of discriminating pond professionals.

- Superior elongation and lay-flat characteristics
- Exceptional resistance to solar UV, ozone and oxidation
- Ease of installation with no special tools required

4' x 4'

Aquascape Decorative Water Features

What is a Fountainscape?

Fountainscapes are decorative water features such as container water gardens, stand-alone fountains, bubbling stone, decorative spitters including fountains that incorporate an in-ground reservoir.

Container Water Gardens

If you're interested in "testing the waters" of the water gardening hobby, a container water garden or Patio Pond is a great place to start! They are generally used to add the sound of water to a deck or patio, but they also look great greeting visitors by the front door. But they don't just add beauty; they also give kids a fun way to learn about nature.

Standalone Fountains

Standalone Fountains are gaining popularity due to their ease of set-up and maintenance, all you need to do is add water, plug it in, and enjoy. A great example of a standalone fountain is the New Aquascape Fire Fountain that combines the beauty of water and fire in a quick and easy plug and play format.

Bubbling Stone Fountains and Spillway Bowls

These larger water features are typically set atop an underground reservoir also known as an AquaBasin®, a water pump contained within the AquaBasin® keeps circulating the water over the feature. An AquaBasin® can easily be installed within just a few hours if you like to tackle home projects on your own, or you can hire a Certified Aquascape Contractor to do the job for you.

Decorative Spitters

Decorative Spitters are often used to add a whimsical touch or create a focal point and water movement to existing ponds or container water gardens. Decorative Spitters can also be incorporated into traditional landscapes when combined with a small reservoir or mini AquaBasin®.

Aquascape handcrafted decorative items provide a unique and creative way to decorate your outdoor living space.

Spillway Bowl, Basin and Stand

Inspired by our own construction crew, the Aquascape Spillway Bowl, Basin and Stand allows for an unlimited amount of installation possibilities. The Aquascape Spillway Bowl and Basin can be installed as a standalone disappearing water feature, or several spillway bowls can be linked together for an amazing display. Aquascape Spillway Bowls can also be used in combination with the Aquascape Large AquaBasin®.

- Made from durable GFRC
- Unique and beautiful patina finish
- Light weight and easy to install

Spillway Bowl

#78204 MSRP \$299.98

(Unit Weight: 71 lbs.)

32"

The Aquascape Spillway Bowl creates a beautiful spilling water feature that can be added to any pond or pool creating an instant waterfall. Spillway Bowls can also easily be linked together creating a unique modern standalone water feature.

Spillway Basin

#78205 MSRP \$449.98

(Unit Weight: 141 lbs.)

40"

The Aquascape Spillway Basin is an ideal standalone overflowing water feature that will create a beautiful, tranquil focal point in almost any setting.

Spillway Bowl Stand (2 Pack)

#78206 MSRP \$79.98

(Unit Weight: 13 lbs.)

The Aquascape Spillway Bowl Stand provides the ideal pedestal to showcase The Aquascape Spillway Basin or Spillway Bowl. Ideal when installing Spillway Bowls or Basins on a patio, deck or as a stand-alone water feature. The Spillway Bowl Stand creates the ideal elevation between Spillway Bowls.

Fire Fountain

Self-contained water and fire features have been gaining in popularity over the last few years. The Aquascape Fire Fountain provides the beauty and elegance of fire and flowing water in a bowl-shaped GFRC or glass fiber reinforced concrete water feature. The self-contained feature is a simple plug-and-play water feature with a fire feature in the center making it an ideal focal point or centerpiece to any outdoor setting.

- Sets up in minutes
- Made from durable GFRC material
- Pump included, fire fuel and decorative stones not included

#78201 MSRP \$349.98

(Unit Weight: 56 lbs.)

24" diameter 12"H

#78202 MSRP \$449.98

(Unit Weight: 72 lbs.)

28" diameter 14"H

#78203 MSRP \$549.98

(Unit Weight: 96 lbs.)

32" diameter 16"H

Step-By-Step

1

Unpack, rinse and position Fire Fountain in desired location.

2

Attach pump to plumbing.

3

Add water to fountain portion of the Fire Fountain.

4

Add paraffin fuel to fuel canister. Add gravel.

5

Plug in pump, light fire source.

ENJOY!

We recommend the use of paraffin fuel (sold separately) readily available for use in outdoor torches etc.

Aquascape Aquatic Patio Ponds

Aquascape Aquatic Patio Ponds make it simple to have a complete water garden in almost any setting. Creating a beautifully planted water bowl or container water garden has never been easier. Aquascape Aquatic Patio Ponds have all the natural beauty of real rock with the added durability and light weight of fiberglass. Create a natural paradise in your backyard with Aquascape Aquatic Patio Ponds!

- Light weight and durable
- Can be used indoors or outdoors
- Never fade or chips
- Natural rock veneer
- Ages like real stone
- Integrated plant shelves

Fire Fountain Add-on Kit

#78221 MSRP \$79.98

(Approx. Unit Weight: 4.5 lbs.)

New

Prepare to be amazed at the difference fire can make for your new Aquascape Stacked Slate Urn. The Aquascape Fire Fountain Add-on Kit is made from durable GFRC and high-quality stainless steel, providing a long-lasting sturdy construction. This 'hot' new item includes a long-lasting wick that will provide hours of enjoyment. Simply add paraffin or citronella fuel (sold separately) to transform any outdoor space into a cozy backyard paradise.

Please Note: The Aquascape Fire Fountain Add-on Kit can only be used on the 2016 production of the Small, Medium and Large Stacked Slate Urns. Item numbers 98939, 78207 and 98940.

Step-By-Step

1

Place fire pot holder in position.

2

Remove plastic. Place into fire pot holder.

3

Set wick into fire pot. Push to the bottom.

4

Set wick ring inside fire pot, directly on top of wick.

5

Add paraffin oil to top of wick until pot is full.

6

Light wick using a long handled lighter or match.

7

Extinguish flame by placing pot cover on fire pot.

AquaBasin® Large

#98134 MSRP \$479.98

(Unit Weight: 46.5 lbs.)

45"L x 45"W x 14"H

- 75-gallon water storage capacity
- 18-inch diameter recess allows for larger pieces to be backfilled in order to increase stability
- Maximum weight capacity - 1,200 lbs.
- Two 9" x 16" pump access panels
- Can accommodate Magnetic Driven Ultra™ Pumps totaling up to 4,000 GPH

AquaBasin® Medium

#76004 MSRP \$279.98

(Unit Weight: 20 lbs.)

24"L x 24"W x 16"H

- 40-gallon water storage capacity
- Ideal reservoir for Aquascape's Paver Fountains and WaterWall Spillway
- 8.5" diameter pump access opening with lid
- Maximum weight capacity - 1,200 lbs.
- Can accommodate pumps up to 2,000 GPH

AquaBasin® Small

#98469 MSRP \$279.98

(Unit Weight: 17 lbs.)

30"L x 30"W x 10"H

- 40-gallon water storage capacity
- Maximum weight capacity - 350 lbs.
- One 9" x 16" pump access panel
- Can accommodate pumps up to 2,000 GPH

change the look

LED Fountain Accent Light (Item #84008)

Why only appreciate your water feature during the day? Adding lights can dramatically change the look of any fountain. See page 51.

Patio Basin

#76000 MSRP \$349.98

(Unit Weight: 122 lbs.)

Natural Limestone

#78191 MSRP \$349.98

(Unit Weight: 122 lbs.)

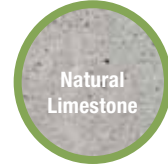

Burnt Umber

Allows for a decorative fountain installation above the ground.

The Aquascape Decorative Patio Basin allows for the above ground installation of decorative fountains that normally require a reservoir that would need to be dug into the ground. The above ground application allows for DIY placement into decks, patios or indoors in minutes. The low maintenance decorative deck can accommodate pebbles or rocks to add a decorative touch and create a contrasting focal point.

- 18-gallon water storage capacity
- Maximum weight capacity 100 lbs.
- Can accommodate magnetic driven Ultra Pumps up to 550 GPH

Fountain Shims

(set of 6)

#78159 MSRP \$5.98

(Unit Weight: 2.1 oz.)

4.5"L x .75"W

Ideal for leveling resin, concrete stone or GFRC water fountains or features.

Decorative River Pebbles

#78160 MSRP \$19.98

(Unit Weight: 22 lbs.)

Black Pebbles 10 kg. – 3"-5"

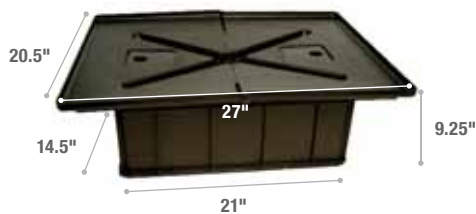

#78161 MSRP \$19.98

(Unit Weight: 22 lbs.)

Mixed River Pebbles 10 kg. – 3"-5"

- Pre-washed and polished
- Easy to carry 22 lb. bags are ideal for decorative fountain applications
- Each 22 lb. bag covers approximately 1.5 sq. ft. of surface

AquaBasin® Mini

#98924 MSRP \$39.98

(Unit Weight: 6.5 lbs.)

Aquascape AquaBasin® Mini makes it simple to have a water feature in almost any setting. Can accommodate pumps up to 350 GPH.

AquaBasin® Mini Features:

- Light weight and durable
- Can be used indoors or outdoors
- Basin holds 8 gallons of water
- Quick and easy to install
- Provides easy pump access
- Maximum weight capacity: 50 lbs.

**VIDEO ON
AQUABASIN® MINI**

DecoBasin

#60000 MSRP \$89.98

(Unit Weight: 9 lbs.)

Aquascape DecoBasin comes complete with water reservoir and splash skirt. Can accommodate pumps up to 1,500 GPH.

DecoBasin Features:

- Light weight and durable basin
- 54" splash skirt prevents leakage or over splash
- Basin holds 15 gallons of water
- Quick and easy installation
- Large center hole provides easy pump access
- Maximum weight capacity: 50 lbs.

Installation Tools

Whether you are a do-it-yourselfer or professional water feature contractor, Aquascape has all of the pieces and parts that you need for successful installation or repair. Installation tools, spare parts and accessories are often available individually or as part of a kit. Installation tools located within this section of the catalog include the following.

- Water Fill Valves
- Water Fill Valve Accessories
- Black Waterfall Foam, Tools and Accessories
- Black Silicone Sealant
- EPDM Rubber Liner Installation and Repair Accessories

Aquascape has all the pieces and parts that you need for successful installation or repair.

Aquascape Water Fill Valves

Aquascape Water Fill Valves automatically add water to features when needed.

- Reduces time-consuming maintenance versus manually filling with a hose
- Helps protect pump from running dry
- Better for pond ecosystems by adding small amounts of water as needed, eliminating large water chemistry swings (including chlorine/chloramine levels) that occur during manual top-offs

Compact Water Fill Valve

#88006 MSRP \$29.99

(Unit Weight: .3 lbs.)

- Up to 1.5 gallons per minute flow rate at a working pressure of 0-100 PSI
- Small size allows it to fit into any skimmer filter, Pondless® Waterfall Vault or decorative water feature application
- Includes fittings to connect to a standard garden hose, 1/4" poly-pipe, 1/2" poly-pipe, 1/2" pvc pipe (**pipe sold separately**)

Water Fill Valve 200

#29272 MSRP \$49.98

(Unit Weight: .7 lbs.)

- Up to 3 gallons per minute flow rate at a working pressure of 0-100 PSI
- Reliable mechanical arm style fill valve
- Brass hardware with poly float
- Includes fittings to connect to 1/2" poly-pipe or 1/2" pvc pipe (**pipe sold separately**)

Hudson Water Fill Valve

#29469 MSRP \$79.99

(Unit Weight: 1.2 lbs.)

- Up to 1.5 gallons per minute flow rate at a working pressure of 8-65 PSI
- Works great in the Signature Series™ Pond Skimmers and the Pondless® Waterfall Vault
- Mounting plate allows 4-inch setting adjustments
- Includes quick-connect fitting for 1/4" poly pipe
- Can also be used with 1/2" poly or 1/2" pvc by using the Fill Valve Irrigation Conversion Kit (Item #01008)

Aquascape Water Fill Valves Specs

Item #	Model	Flow Rate	Plumbing Size	Working PSI	Dimensions
88006	Compact Water Fill Valve	0 - 1.5 GPM	1/2" PVC, 1/2" Poly, 1/4" Poly or Garden Hose	0 - 100 PSI	7.5" x 1.5" diameter
29272	Water Fill Valve 200	0 - 3 GPM	1/2" Poly or 1/2" PVC	0 - 100 PSI	12"L x 3.25"W x 2.25"H
29469	Hudson Water Fill Valve /slide plate	0 - 1.5 GPM	1/4" Poly	8 - 65 PSI	5" x 2.5" diameter

Water Fill Valve Accessories

Fitting Fill Valve Spigot 1/4" Quick Connect

#07000 MSRP \$17.99

(Unit Weight: .2 lbs.)

Connects 1/4" Poly Pipe to Garden Spigot.

Garden Hose Adapter Assembly

#29517 MSRP \$8.99

(Unit Weight: .2 lbs.)

Connects 1/2" Poly Pipe to Garden Spigot.

Fill Valve Irrigation Conversion Kit

#01008 MSRP \$7.99

(Unit Weight: .05 lbs.)

1/2" X 1/4"

Converts the 1/4" Hudson Water Fill Valve up to 1/2" Poly Pipe or PVC.

WFV Poly Pipe

#29350 MSRP \$19.99

(Unit Weight: 1.3 lbs.)

1/4" x 100'

#29470 MSRP \$49.99

(Unit Weight: 6.1 lbs.)

1/2" x 100'

Economy Foam Gun Applicator

#54003 MSRP \$42.99
(Unit Weight: 1.1 lb.)

We've added an economy model of our popular professional-grade Foam Gun. This lower-priced Foam Gun provides an attractive price point so that all contractors, no matter how many features they build, can afford to add a foam gun to their pond-building tool kit. To be used with Black Waterfall Foam cans.

Pro Foam Gun Applicator

#29268 MSRP \$219.99
(Unit Weight: 0.8 lb.)

Aquascape PRO Series foam gun applicator guns are designed to create an air and moisture-tight seal between the gun and the can allowing for maximum foam yield and minimal waste.

Installation Kit

#22008 MSRP \$32.99
(Unit Weight: 2.2 lbs.)

Kit includes:

- (1) Liner Patch
- (1) Christy's Red Hot Blue Glue
- (1) Tube of Black Silicone Sealant
- (1) 16 oz. Can of Do-it-Yourself Black Waterfall Foam

Individual kit items may be purchased separately. See items on these pages for details.

Professional Foam Gun Kit

#22013 MSRP \$359.99
(Unit Weight: 13.5 lbs.)

Includes everything needed for Professional Waterfall Foam application in a durable custom fit toolbox. Professional Foam Gun applicator allows exact dispersion of expanding black foam for sealing waterfalls.

Kit includes:

- (1) Case
- (3) 24 oz. Cans Black Waterfall Foam
- (1) Professional Grade Foam Gun
- (1) Can Cleaner

Replacement Gun available

DIY Black Waterfall Foam

#21053 MSRP \$19.98
(Unit Weight: 1.2 lbs.)

Easy to use for the beginner or do-it-yourselfer. Convenient and economical for the quick touch-up on a larger project. Also sold as part of our installation kit. No gun needed!

Foam Gun Cleaner

#22011 MSRP \$29.99
(Unit Weight: 1.1 lbs.)

A handy cleaner to flush the foam gun clean if it is not working properly. It will also remove uncured foam.

Aquascape Pro Black Waterfall Foam

#30096 MSRP \$29.99
(Unit Weight: 2.2 lbs.)

24 oz. can of expandable Black Waterfall Foam. Equivalent to 5 Do-it-Yourself Black Waterfall Foam cans. To be used with foam guns (sold separately).

Christy's Red Hot Blue Glue

#29969 MSRP \$7.99
(Unit Weight: .4 lbs.)

4 fl. oz.

The original all-weather, wet or dry PVC cement.

EPDM Liner Patch

#22018 MSRP \$9.98
(Unit Weight: .1 lb.)

This 6" self adhesive patch quickly repairs holes, tears and cuts in liner.

EPDM Liner Cover Tape One Sided

#22003 MSRP \$129.99
(Unit Weight: 5.8 lbs.)

6" x 25'

#22005 MSRP \$249.99
(Unit Weight: 20 lbs.)

6" x 100'

EPDM Liner Seam Tape Double Sided

#22017 MSRP \$52.99
(Unit Weight: 1.5 lbs.)

3" x 25'

#22020 MSRP \$129.99
(Unit Weight: 7.8 lbs.)

3" x 100'

New

Cleanout Pump

#45033 MSRP \$379.99
(Unit Weight: 25 lbs.)

- Great for pond cleanouts and installation wash-downs
- 4200 gallons per hour for fast pump-outs!
- Pumps water down to 1/4 inch off the bottom

New

Cleanout Pump Discharge Hose

#48019 MSRP \$99.99
(Unit Weight: 14.75 lbs.)

- Heavy duty Cleanout Discharge Hose engineered for flexibility and optimal flow
- Swivel cuff fitting prevents kinking or tangling allowing easy movement around the water feature
- 50 foot roll

Firestone® QuickPrime Plus- EPDM Liner Seaming Tape Primer

#54008 MSRP \$49.99
(Unit Weight: 1 lb.)

1 quart/0.95 liters

QuickPrime Plus is designed to clean and prime EPDM liner prior to seaming.

Firestone® QuickScrubber Kit

#54009 MSRP \$39.99
(Unit Weight: .75 lbs.)

Kit consists of 30 scrub pads and 4 holders designed for the application of QuickPrime Plus seaming tape primer.

Black Silicone Sealant

#22010 MSRP \$5.98
(Unit Weight: .4 lbs.)

4.7 oz. tube

#29186 MSRP \$9.99
(Unit Weight: .6 lbs.)

10.1 oz. tube

- Used for sealing joints where liner attaches to biofilter snout and the skimmer faceplate
- Fish Safe

Firestone® QuickSeam Pond Liner Repair Kit

#42023 MSRP \$34.99
(Unit Weight: .5 lbs.)

Allows easy repair of up to two holes in EPDM liner.

Kit includes:

- (2) 6" x 6" QuickSeam patches
- (1) Bottle of LVOC Primer (2 oz./57 ml.)
- (1) Scrubber pad
- (1) Patch roller
- (1) Pair disposable gloves

The Aquascape RainXchange® System is a revolutionary design that combines a recirculating decorative water feature with a subsurface rainwater harvest storage system.

How The RainXchange System Works:

- Downspout Filter** – Captures and removes pollutants flushed into the system during a rain event
- Connecting Pipe** – Carries the water, via gravity, to the modular storage basin
- Modular Storage Basin** – Modular design can be configured to fit a wide variety of applications and settings. EPDM rubber membrane creates a water-tight basin
- Snorkel™ Vault & Centipede® Module** – Optimum water utilization within the system and a convenient access point for yearly maintenance and cleaning

- Overflow Infiltration** – Excess rainwater is sent to a storage area that facilitates the infiltration of water into deeper soils and aquifers
- Biological Filtration** – Beneficial bacteria and enzymes reduce organic waste and pollutants to less toxic substances that can be absorbed by plants
- Aquatic Plants** – Providing food and shelter for a great number of birds, insects and amphibians and the cornerstone for maintaining biodiversity
- Irrigation System** – Natural water is loaded with micronutrients and compounds that will make plants flourish

What is the Aquascape Foundation?

The Aquascape Foundation is a not for profit 501 3C organization established in 2008. The mission of The Foundation is to create sustainable solutions for the world-wide water crisis. The purpose of The Foundation is to promote awareness of water as our most precious resource through environmental, educational and philanthropic efforts. One of the ways that we will accomplish this mission is by utilizing the Aquascape RainXchange® System as a solution to bring clean drinking water to places where people currently have no access.

The Aquascape Foundation is utilizing its core technology to end this needless suffering. With this technology we can capture, purify and store thousands of gallons of rainwater, making it accessible and potable. Our technology will not only bring health and wellness to a community, but with an accessible water source, children can focus on education and adults can focus on employment. It's a smart and sustainable solution to a complex problem.
