

RESTAURANT SOLUTIONS FROM BROTHER

Reliable, High Quality Printing to Help Improve Operations and Address Safety Precaution Mandates

Whether you're printing disposable menus or promotional materials, having high quality output and reliable technology performance are key to ensuring customer satisfaction, while improving your bottom line.

Brother offers printing, scanning and labeling solutions that can help meet your restaurant's needs – from back of house to front and every area in between.

- **Print disposable, single-use menus** on the fly to address state mandates, as well as help ensure safety precaution compliance for employees and customers. Single-use menus can be easily updated for daily specials and recycled after each use.
- **Streamline operations**, drive employee efficiency and improve collaboration.
- **Generate accurate, real-time labels** – virtually anywhere, and from a variety of devices / platforms.
- **Print on demand** made / ready / discard food rotation and delivery / pick-up labels.
- Receive **at your side support** with one-year limited warranty and free support for the life of your product.

PRINTING AND SCANNING APPLICATIONS:

- **Printing:** Menus, schedules, general reports, signage / promotional materials, catering orders, specials
- **Scanning:** Human resource documents (licenses, resumes), invoices and receipts
- **Copying:** Menus, receipts, specials, schedules
- **Faxing:** Catering orders

LABELING APPLICATIONS:

- Highlight allergen information
- Show use-by and best-before dates
- Display product pricing (including EAN-8 / EAN-12 barcodes)
- Show order details, including address information for takeout and delivery

CONTACTLESS SERVICE WITH BROTHER EXCHANGE

Brother offers device exchange options to address any service needs that might arise – a replacement product can be shipped directly to your restaurant. This provides a simple plug and play setup without the need for outside personnel entering your restaurant.

BROTHER SAFETY TIP: CLEANING YOUR BROTHER DEVICE

To clean high-touch external surfaces of your Brother product to limit the spread of germs and viruses, use a CDC-recommended disinfectant solution consisting of 70% isopropyl alcohol and 30% water.

1. Turn off the product and disconnect AC power cord from outlet. If product uses batteries, remove before cleaning⁵.
2. Using a lint free cloth moistened with a mixture of 70% isopropyl alcohol and 30% water, gently wipe high touch surfaces including display and / or control panel. The cloth should be damp not wet. Do not spray directly onto the product. Allow surfaces to dry completely before reconnecting AC cord and turning power on.

IMPORTANT: Disinfection must be performed in a well-ventilated room or open-air space.

WARNING: The use of alcohol is a fire risk and may damage the surface of the plastic exterior of your product. Please strictly follow the instructions in this guidance and only use this cleaning method to help reduce the risk of spreading COVID-19.
