# Enabling Hyperconnected Experiences

**VIA connects you to boundless opportunities for innovation in our hyperconnected world!**

With our unrivaled range of market-leading embedded boards, systems, and hardware and software customization services, we provide a comprehensive set of building blocks for an unlimited variety of Enterprise IoT applications – from HMI, automation, and signage to energy management, transportation, and retail. Our holistic approach covers the entire life cycle, from defining initial requirements to longevity support, enabling you to accelerate Enterprise IoT development and deployment cycles and maximize your return on investment.

To meet the growing demand for seamless connected experiences driven by the rapid proliferation of the smart phone, we have also developed the new VIA Mobile360 platform that allows you to leverage the versatility and economies of scale of the mobile ecosystem to create innovative new smart devices and usage scenarios across a diverse range of industries and applications.

Whether it's an ultra-low-power industrial controller system or a smart intercom system, we have a wealth of experience and expertise in crafting customized solutions that meet your exact requirements and enable you to open up exciting new markets.

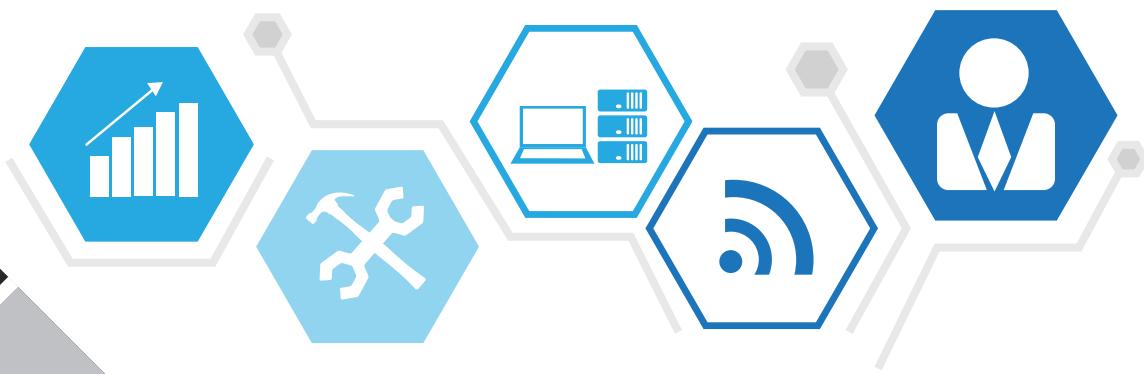

# VIA Enterprise IoT

VIA provides a comprehensive range of solutions that enable you to create the backbone of your Enterprise IoT ecosystem, including M2M gateways and HMI systems. These solutions can be tailor-made to meet your unique objectives and requirements for a broad spectrum of applications including industrial automation, signage, energy management, transportation, and retail.

Our flexible approach to Enterprise IoT solution development covers all the key steps in the product or project life cycle, from helping you to define your initial requirements to rigorous testing to ensure the systems conform to the most demanding standards such as IP-65. Our extensive in-house silicon, board, and system design expertise enables us to provide optimized solutions that deliver the appropriate blend of low power consumption, performance, and connectivity for the target design application.

We also offer an extensive range of low power, compact, and ruggedized Enterprise IoT systems with proven reliability and performance. Multiple hardware customization options are available, including graphics, video, and processor performance and power optimization, the integration of compatible wireless and I/O connectivity modules, extended temperature ranges, and ruggedization.

In addition to Linux and Android solution packs for ARM SoC boards and systems, we also provide a variety of easy-to-use SDKs and services for specialist Enterprise IoT applications, including the VIA Smart ETK (Embedded Tool Kit), and have extensive experience and expertise in developing software solutions for a wide variety of vertical domains such as digital signage, infotainment, and industrial automation.

# VIA Mobile360

VIA Mobile360 includes a growing number of platforms that we have designed from the ground up to accelerate the development of a new generation of innovative smart devices that open up a myriad of new connected applications, services, and experiences by enabling seamless interactions with the smart phone.

Leveraging the huge economies of scale of the mobile ecosystem and the easy availability of components such as sensors that it affords, VIA Mobile360 platforms provide a flexible and cost-effective solution for building devices as diverse as smart intercom systems for apartment buildings, smart lockers for picking up and dropping off packages, smart queue management systems for post offices, and smart wireless display systems for showing presentations and videos in corporate meeting rooms.

Available in a variety of board, starter kit, and system formats, VIA Mobile360 platforms provide a fast and scalable Path2Production for smart devices targeted at new market opportunities. A comprehensive range of services covering all stages of the development process, including rapid system prototyping, application development, hardware and software customization, and pre-production testing and diagnostics, minimizes development costs and speeds up time to market.

# Smart New Horizons

In our hyperconnected world, the growing demand for seamless immersive experiences is creating unlimited new opportunities across a broad spectrum of enterprise, transportation, retail, and home environments.

VIA is dedicated to enabling our customers to take advantage of these new opportunities by providing cutting-edge turnkey solutions that leverage the most advanced cloud, big data, IoT, M2M, and beacon technologies to facilitate the development and deployment of the richest sensory experience for a diverse range of applications.

## Enterprise IoT

VIA provides a comprehensive range of solutions that enable the development of the backbone of your Enterprise IoT ecosystem, including M2M gateways, HMI systems, industrial automation controllers, energy management systems, and signage displays.

VIA Enterprise IoT solutions can be custom-crafted to meet your specific requirements across a broad range of intelligent data capture, monitoring, processing, communication, and display applications that boost productivity, save energy, and reduce costs.

## Smart Industrial Automation

Technology advances have blurred the boundaries between the digital and physical worlds, giving rise to the next great industrial revolution, known variously as the Industrial Internet of Things or Industry 4.0. As a result, today's factories require the combination of intelligent, interconnected systems backed by cloud services and big data analysis to drive efficiency, flexibility and responsiveness.

VIA Enterprise IoT solutions are helping to shape the smart factory of the future with our market-leading range of industrial automation systems with rich multimedia and HMI capabilities, easy-to-use touch screen operation, and ruggedized low power designs that can operate in even the most extreme environments.

## Smart Energy Management Systems

Minimizing energy consumption has never been more important for business – not just to cut costs but also to reduce its carbon footprint. VIA is enabling enterprises to achieve these objectives with our ruggedized VIA AMOS Series systems that can be deployed to monitor and control energy consumption in the toughest indoor and outdoor conditions.

With their ultra-reliable operation, low power consumption, and multiple customization options, VIA AMOS Series systems have already been installed in wind farms and solar farms in some of the remotest regions of the world – further helping to reduce the environmental impact of business by maximizing energy production using renewable resources.

## Smart Transportation

Passenger expectations for increased comfort and convenience are rapidly reshaping the landscape across all modes of transportation, providing both challenges and opportunities for providers to enhance customer satisfaction, build loyalty, and stand out from the competition.

VIA has developed a wide range of innovative solutions which provide proven, flexible platforms for the development of new applications and services that will increase operational efficiency, boost passenger loyalty, and generate new revenue streams for players in the transportation industry.

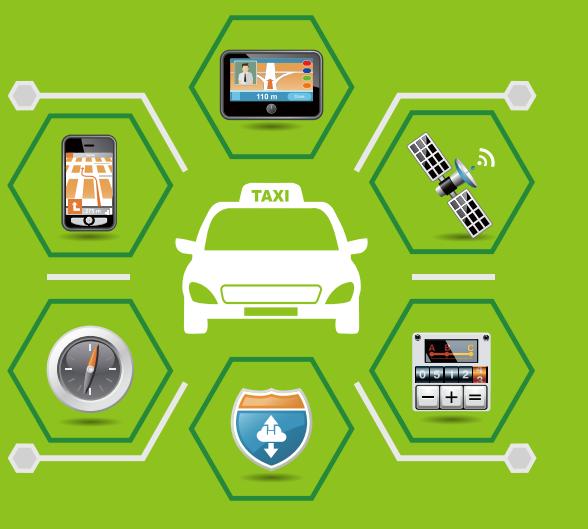

## VIA BLISS Platform

The Android-based VIA BLISS (Bus Line In-Seat System) Platform provides a seamless end-to-end solution to ensure passengers remain in-touch, informed and entertained throughout their journey. With its scalable design and flexible development environment, the platform also provides operators with the potential to further boost their competitiveness and generate additional revenue streams by creating new applications and services such as destination experience programs in partnership with leading hotels, restaurants, museums, and entertainment venues.

Support for up to 56 In-Seat Infotainment Systems

## Smart Taxi

The VIA AMOS-825 has been designed from the ground up to provide a flexible and ultra-rugged system for enabling smart taxi applications and services such as navigation, route tracking, driver notifications, passenger pickups, and electronic payments that not only increase customer satisfaction but also enhance driver productivity and safety. Already deployed by one of the leading taxi companies in Japan, the system provides the reliability and scalability required by operators worldwide to boost their competitiveness against disruptive new entrants into the market.

## Smart Real-Time 360° Video Monitoring and Recording

VIA Mobile360 Surround View delivers real-time in-vehicle monitoring and recording for up to eight individual HD camera streams to provide the most effective solution for driver monitoring, safety, and vehicle tracking. It utilizes VIA Multi-Stitch technology to seamlessly combine the camera feeds on the fly to create an encompassing real-time spherical view of a vehicle's surroundings that can be viewed locally or remotely. With its sophisticated 3D imaging algorithms, the technology not only ensures sharp and clear panoramic images but also supports dynamic multidirectional monitoring around the vehicle from an almost unlimited range of easily-configurable perspectives, including birds-eye view, front-view, rear-view, and side-view.

## Smart Home

The rapid emergence of the IoT combined with the proliferation of mobile devices and wireless connectivity is accelerating demand for a myriad of smart home devices and applications for remotely controlling heating, lighting and video monitoring systems.

We are leveraging our market-leading low-power system development expertise and advanced wireless integration capabilities to create a growing number of reliable turnkey platforms and systems that can be easily customized for a wide variety of home automation and security applications that deliver increased convenience, comfort, energy efficiency, and safety benefits for consumers. These include the VIA Alegro 100 multi-protocol home gateway device with support for Bluetooth, Wi-Fi, ZigBee, Z-Wave, and KNX-RF, as well as smart intercom, smart doorbell, and smart lock platforms.

## Smart Retail

The world of brick and mortar retail is currently going through one of the most fundamentally disruptive changes imaginable as it seeks to leverage new wireless and beacon technologies to create richer and more personalized services that meet the needs of today's demanding consumer.

Beyond our wide range of digital signage and video wall platforms, VIA is developing innovative new platforms that integrate our VIA AirTalk wireless communication suite of technologies to create engaging new experiences that will change the face of retail.

## Breeze Center Taipei

VIA has collaborated with Breeze Center in the fashion district of Taipei to create the shopping mall of the future by installing a rich mix of high-impact video walls and digital signboards in high-traffic areas throughout its four floors to deliver dynamic content at the right time and in the right location to maximize engagement with shoppers.

With its integration of VIA AirTalk beacon technology, the signage system also opens up interesting opportunities to further strengthen engagement with consumers by delivering product and promotional information directly to their smart phones and enabling them to, for example, book movie tickets and make restaurant reservations from their device.

# Customization Services

## Path2Production

VIA delivers the smoothest Path2Production for solution providers. From product concept through to physical product, customers can leverage our unrivaled range of platforms, systems, software, and customization services to create tailor-made, reliable, fully-integrated turnkey systems and solutions.

## Hardware Customization: x86 or ARM, the Choice is Yours

Many products in the VIA portfolio employ a modular design strategy that gives our customers the freedom to easily customize and modify existing designs, using fewer resources to bring innovative new devices to market ahead of their competitors. From low-power, feature-rich small form factor boards to complete turnkey solutions, VIA provides all the building blocks that embedded designers need to innovate reliable, low power, high-performance x86 systems or new smart devices that unleash the scalability and performance of the ARM architecture to deliver compelling new connected experiences for users.

## Software Customization: Android, Linux or Windows, the Choice is Yours

With our proven Android, Linux and Windows software development and customization capabilities, advanced system integration expertise, and rich customer support experience, VIA can provide a complete set of turnkey services enabling developers not only to minimize product development costs and times but also to speed overall time-to-market. VIA also offers a variety of easy-to-use SDKs and services for specialist applications and markets, including the VIA Smart ETK.

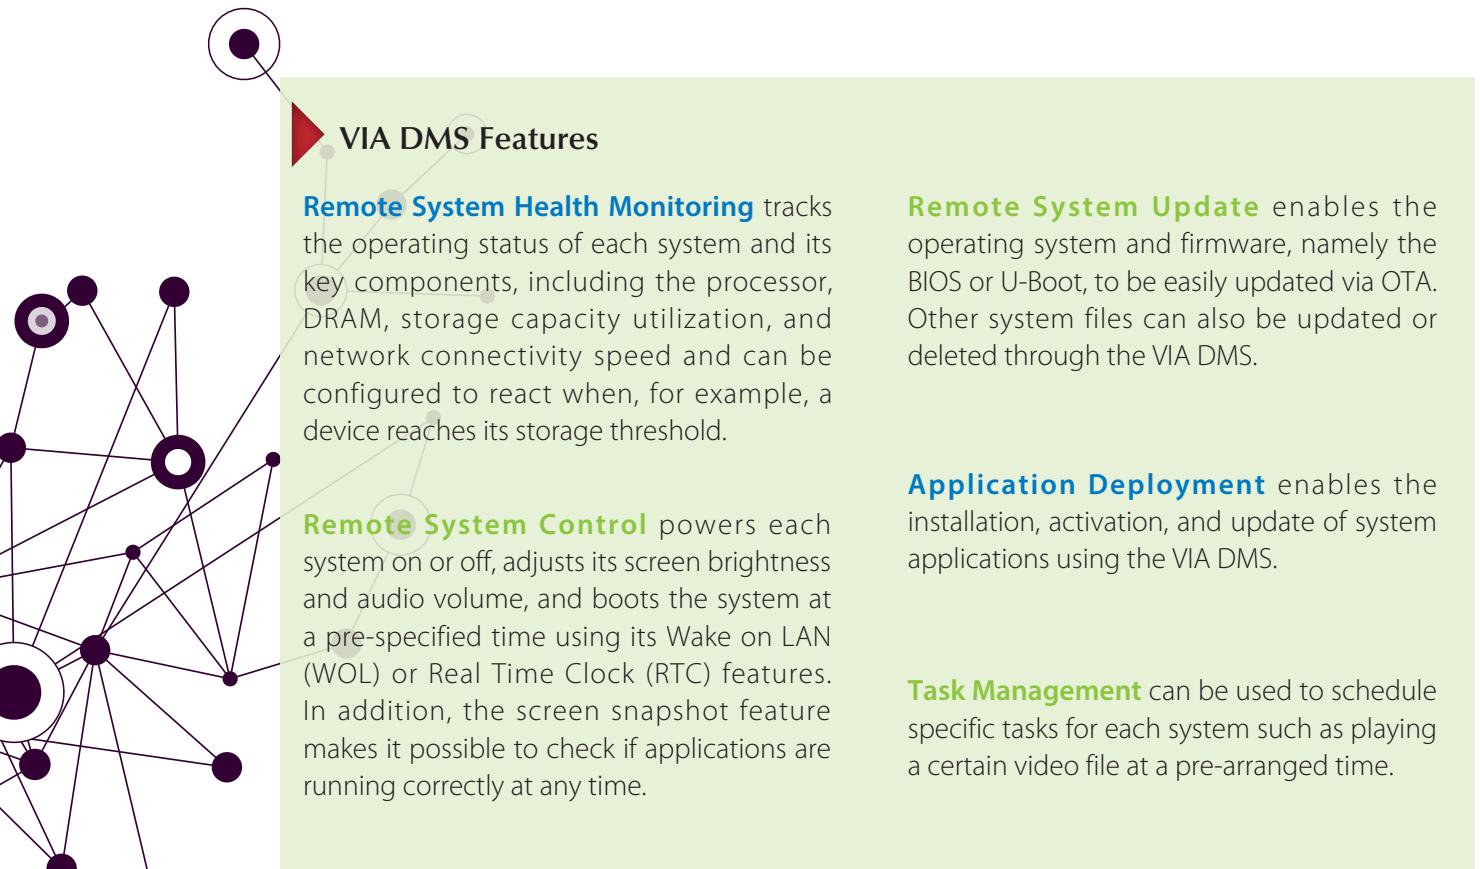

# Smart Connections

Today's connected world is opening up a whole new spectrum of business opportunities which leverage the IoT, M2M, big data, and the cloud for creating innovative smart experiences. At the core of this is the smart integration of services and features to forge new connections and scenarios which tightly weave the digital fabric into all aspects of our lives.

VIA is developing flexible services and solutions which not only make it easy for customers to manage the deployment and remote management of systems and devices across cloud-based networks in transportation, retail, and industrial applications, but also facilitate the creation of innovative new wireless broadcasting applications and services that enhance engagement with mobile devices.

## VIA Device Management System (DMS)

To ensure there is not a moment of downtime, VIA provides a flexible range of services for enabling remote system management, diagnostics, and monitoring across a cloud-based network using the VIA DMS to ensure 24/7 operation of mission critical tasks. VIA can provide a full backend setup or quickly integrate the DMS services into an existing system depending on customer requirements.

### VIA DMS Features

**Remote System Health Monitoring** tracks the operating status of each system and its key components, including the processor, DRAM, storage capacity utilization, and network connectivity speed and can be configured to react when, for example, a device reaches its storage threshold.

**Remote System Control** powers each system on or off, adjusts its screen brightness and audio volume, and boots the system at a pre-specified time using its Wake on LAN (WOL) or Real Time Clock (RTC) features. In addition, the screen snapshot feature makes it possible to check if applications are running correctly at any time.

**Remote System Update** enables the operating system and firmware, namely the BIOS or U-Boot, to be easily updated via OTA. Other system files can also be updated or deleted through the VIA DMS.

**Application Deployment** enables the installation, activation, and update of system applications using the VIA DMS.

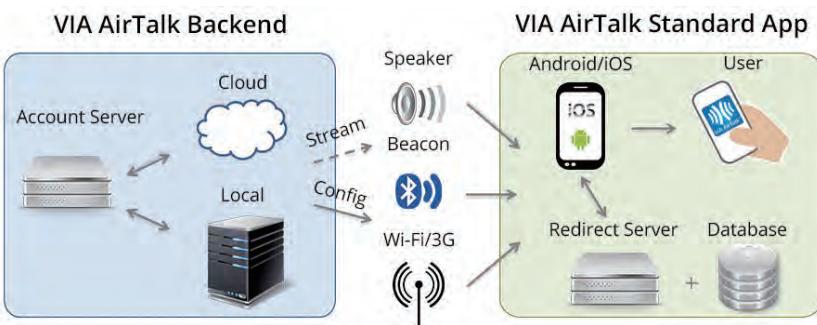

**Task Management** can be used to schedule specific tasks for each system such as playing a certain video file at a pre-arranged time.

## VIA AirTalk Wireless Connectivity Suite Services

VIA AirTalk comprises a suite of wireless broadcasting technologies including sonic sensing, Bluetooth LE, Wi-Fi, and 3G, which enables the creation of location-specific networks in restaurants, stores, museums and galleries, transportation hubs, and other spaces that deliver tailored information to a user's mobile device, opening up exciting new opportunities to liven up experiences with new kinds of interaction and participation.

We offer turnkey app design, content integration and management services that integrate VIA AirTalk wireless technologies to enhance interaction with mobile devices. Customers can also integrate VIA AirTalk with their existing apps by using an SDK package provided by VIA, as well as take advantage of our in-house software development expertise to improve consumer experiences and engagement.

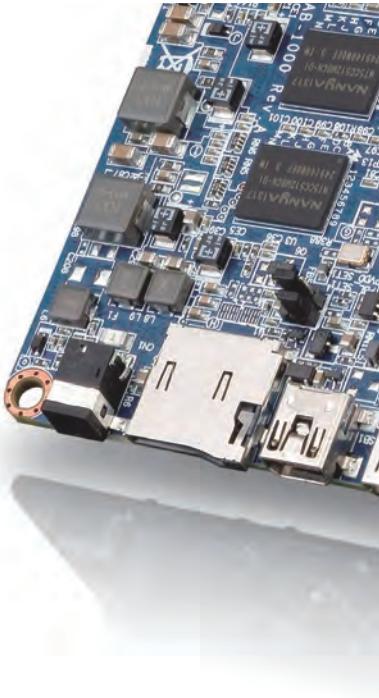

# VIA Enterprise IoT ARM Solutions

From low-power, feature-rich small form factor boards to complete turnkey solutions, VIA provides all the building blocks that embedded designers need to create innovative new devices that unleash the scalability and performance of the ARM architecture and deliver compelling new connected experiences for users.

Combining the most comprehensive line of ARM boards and systems in the industry with proven Android and Linux software customization capabilities, advanced system integration expertise, and rich customer support experience, VIA not only provides designers with the fastest and most convenient path2production for ARM embedded devices but also enables them to take full advantage of the myriad of exciting new opportunities emerging on the market.

## VIA Enterprise IoT ARM Boards

With our comprehensive range of small form factor boards based on market-leading VIA and NXP SoCs, VIA provides an unrivaled choice of ultra-reliable and highly-integrated ARM platforms optimized to meet the power, performance, and feature requirements for even the most demanding industrial, signage, HMI, M2M, consumer, and other embedded and Enterprise IoT applications.

Available in a variety of ultra-compact form factors, including the Pico-ITX, the boards combine rich I/O connectivity with exceedingly low power consumption, wide temperature ranges, and advanced multicore processing performance. Built to the highest standards of reliability, the boards also come with up to 7+ years of longevity to support customers with long product life cycles.

To ensure optimum flexibility for software customization and application development, VIA ARM boards feature a choice of solution packs for Linux and Android, including the VIA Smart ETK. A comprehensive range of hardware and software engineering services are also available to speed up product development cycles.

## VIA AMOS Series Industrial Fanless Systems

Featuring a choice of multicore NXP ARM Cortex SoC platforms in compact, fanless, and dust-proof chassis designs, VIA AMOS Series systems provide ultra-powerful and ultra-reliable solutions for a wide variety of industrial M2M and HMI applications, ranging from headless control and sensor systems to highly-integrated controllers and advanced display systems.

In addition to a rich set of I/O and connectivity features and advanced graphics performance, VIA AMOS Series systems are easily expandable and can be customized for a diverse range of embedded applications. The systems are also very low power and support a wide temperature range, making them ideal for the most extreme operating environments.

## VIA ARTiGO Series Fanless Enterprise IoT Systems

VIA ARTiGO Series systems include ultra-reliable and ultra-compact solutions for a variety of Enterprise IoT and M2M gateway and smart automation control applications that require low-power computing and extensive I/O, and high-speed connectivity to enable flexible integration with the enterprise network and the cloud.

## VIA ALTA DS Series Android Digital Signage Systems

VIA ALTA DS Series systems provide a choice of single-screen and dual-screen all-in-one Android solutions for managing dynamic displays in cost-sensitive, high-volume segments where high-performance video and connectivity are paramount for enhanced customer engagement. Applications range from kiosks, POS systems, and menu boards to TVOIP, cloud streaming, and Digital Out of Home (DOOH) advertising across a broad spectrum of retail, hospitality, education, and entertainment environments.

In addition to a standard Android image, VIA ALTA DS Series systems feature a Signage Starter Kit that provides a set of APIs for the Android application to access services provided by the VIA ALTA DS Series hardware and the Android system itself, serving to speed up development time.

Customers can also leverage innovative digital signage applications provided by VIA Digital Signage ISV program partners to create customized solutions for their markets.

## VIA Viega Semi-Ruggedized Android Tablet

The VIA Viega is an enterprise-grade 10.1" Android tablet with IP65 rating that has been designed to meet the MIL-STD 810G standard. Sporting a durable yet stylish design that is water-resistant and rugged enough to withstand even the most demanding environments, the VIA Viega delivers exceptional multimedia performance and long battery life. It also comes with a rich set of I/O and connectivity features including Wi-Fi, GPS, Bluetooth 4.0, NFC, optional 3G, and legacy I/O ports, as well as an optional docking station.

A wide range of software customization services is also available, including DMS and security applications.

# VIA ARM Software Packages and Customization Services

VIA offers a growing range of software packages and services to enable developers to customize ARM systems and devices using Android or Linux. In addition to Android and Linux Board Support Packages (BSP), we provide a variety of easy-to-use SDKs and services for specialist applications and markets, including the VIA Smart ETK, and have extensive experience and expertise in developing software solutions for a wide variety of vertical domains such as digital signage, infotainment, and industrial automation.

## VIA Android Software Solution Packs and Customization Services:

VIA provides a wide range of software solution packages and customization services to facilitate the development of Android embedded systems and devices:

- **Applications:** These include the customization of system applications such as the launcher (e.g. no lock screen for embedded apps), system bar (e.g. ability to be set as transparent), and settings menu (e.g. additional network configurations).
- **Kernel & Framework:** These include security (e.g. storage media/user data encryption & secure channel), kernel drivers for special devices, and daemons/services (NFS, Telnet, Modbus, etc) for improved manageability.
- **System Management:** These include watchdog, remote monitoring, remote power on/off, auto wake-up/power off, and silencing the OS and application updates using the VIA Smart ETK.
- **Embedded I/O:** This includes enabling support for legacy I/O, such as GPIO, RS-232, and CAN bus, using the VIA Smart ETK.

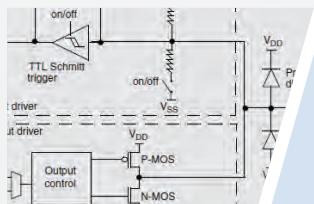

## VIA Android Smart ETK

The VIA Android Smart ETK includes a set of APIs that enable the Android application to access I/O and manageability services provided by the system hardware that are not supported in the Android framework. The VIA Smart ETK is also bundled with Smart ETK Demo, which is easy to install and has a user friendly GUI for demonstrating the various functions of VIA ARM platforms. Both the VIA Smart ETK and Smart ETK Demo are easy-to-use tools that help to shorten development time and speed up time to market.

### Watchdog

This provides an API which allows the user to set a timer to ensure proper operation and help the applications/system to recover from a dead circle or breakdown. When it is set, the system will automatically reboot if no "feeding dog" signal is received.

### System Power Off / Reboot

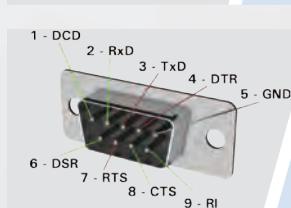

This provides APIs that allow the user to use an Android application to schedule when the system should power off as well as set periodic reboots to ensure maximum performance is maintained.

### RTC Wake-Up

This provides an auto power on feature by setting the Remote Time Clock (RTC) auto wake-up timer. The RTC supports three auto wake-up modes:

- Wake-up on a specified hour and minute every day
- Wake-up on a specified day/ hour/ minute every week
- Wake-up on a specified day/ hour/ minute every month

### Legacy I/O Support

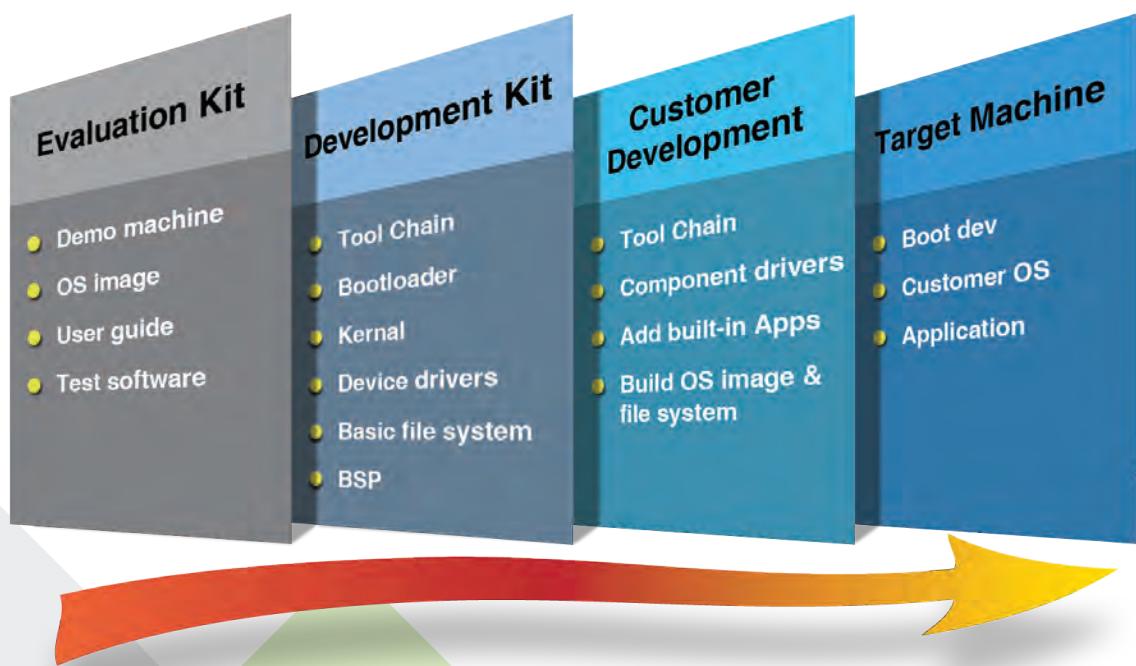

The VIA Smart ETK enables legacy I/O support such as RS-232, by opening up GPIO, I<sup>2</sup>C, and CAN bus ports to the application.

## ARM Software Support Phases

VIA offers a full range of support services at all stages of the software development process, including a variety of software evaluation kits to give developers the opportunity to test compatibility and functionality with their software.

Once a project is underway, VIA provides development kits as well as general technical support, including bug fixes and customer and customization services based on specific customer needs. VIA can also offer application-specific device drivers and programming tools for support in the development phase, as well as certified drivers to meet various safety integrity levels (SIL) and IEC. Well-structured support for middleware and application level development as well as a full range of OS interface support, including both Linux and Android, ensures a smooth software development path and faster time to market.

## Android Software Support Stages

## ARM Turnkey Services

With our comprehensive line of ARM boards and systems, proven Android and Linux software development and customization capabilities, advanced system integration expertise, and rich customer support experience, VIA can provide a complete set of ARM turnkey services enabling developers not only to minimize product development costs and times but also to bring innovative new devices to market ahead of their competitors.

## Key Applications

Combining ultra-reliable, feature-rich platforms and systems with flexible software and hardware customization services, VIA ARM Solutions provide the fast track to creating market-leading products for a myriad of embedded applications ranging from telecommunications, medical and healthcare, home automation, and industrial automation, to a new generation of consumer embedded devices, such as digital signage systems, media controllers, in-vehicle entertainment systems, and connected TVs.

VIA

# VAB-1000

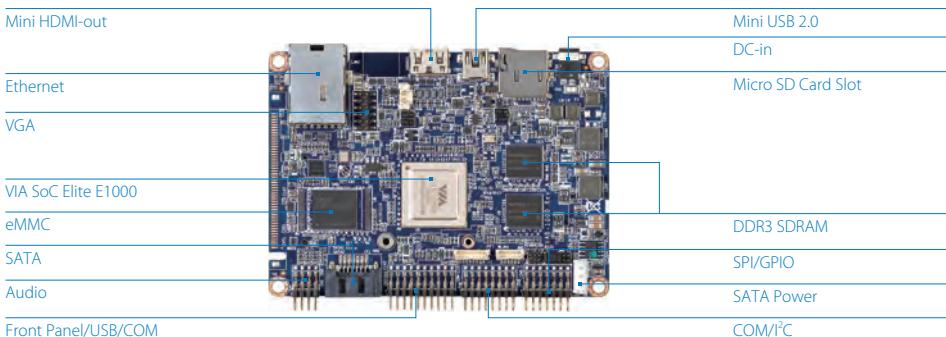

Advanced graphics and video capabilities with a rich I/O feature set for interactive multimedia applications

## Features

- Compact 10cm x 7.2cm Pico-ITX form factor
- 1.0GHz VIA Elite E1000 Cortex-A9 dual-core SoC
- Dual display support including full HD content and dual channel LVDS
- Graphics powerhouse
- Android software solution pack available

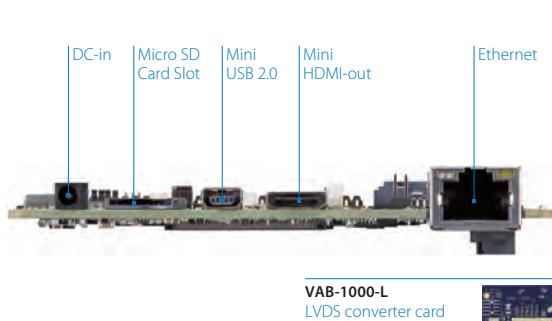

## Board Placement

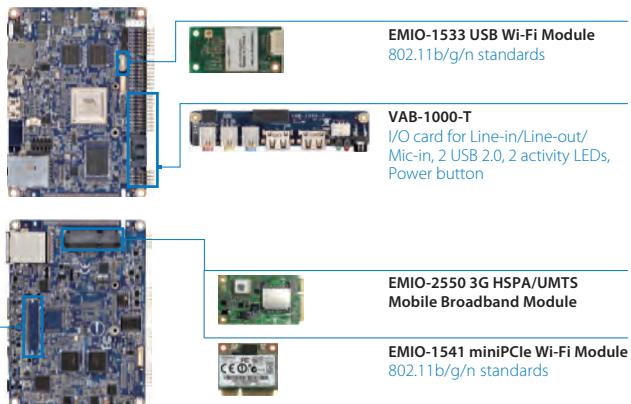

## Specifications

<b>Model Name</b>	<b>VAB-1000</b>
<b>Processor</b>	1.0GHz VIA Elite E1000 Cortex-A9 dual-core SoC
<b>System Memory</b>	2GB DDR3 SDRAM onboard
<b>Storage</b>	4GB eMMC Flash memory 1 SATA connector
<b>Graphics</b>	3 integrated, independent 3D/2D and video processing units Graphics engine supporting OpenGL® ES 3.0 hardware acceleration Supports MPEG-2, VC-1 and H.264 video decoding up to 1080p
<b>LAN</b>	Realtek RTL8111G Gigabit Ethernet controller
<b>Audio</b>	Wolfson WM8960 Audio Codec
<b>HDMI</b>	Integrated HDMI 1.4 transmitter
<b>Expansion I/O</b>	1 miniPCIe slot
<b>Onboard I/O</b>	1 SATA connector 1 SATA power connector with +12V/+5V select jumper for SSD 1 USB pin header for Wi-Fi module 1 Dual-channel 18/24-bit LVDS panel connector 1 Front panel pin header for 2 USB 2.0 ports, 1 COM (TX/RX) port, power-on and 2 activity LED indicators 1 Miscellaneous pin header for 2 COM (TX/RX) ports and 3 I <sup>2</sup> C 1 Miscellaneous pin header for Digital I/O (4 GPIO) 1 JTAG pin header (for debugging) 1 SPI Flash pin header 1 Audio pin header for Line-in, Line-out, Mic-in 1 miniPCIe slot
<b>Front Panel I/O (with VAB-1000-T)</b>	2 USB 2.0 ports 3 Audio jacks: Line-in, Line-out and Mic-in 1 Power on/off button with built-in LED 1 SSD activity LED indicator 1 USB/COM LED indicator
<b>Back Panel I/O</b>	1 Mini USB 2.0 port 1 Mini HDMI 1 Gigabit Ethernet port 1 Micro SD card slot 1 DC-in jack
<b>Power Supply</b>	12V DC-in
<b>Operating System</b>	Android 4.4.2
<b>Operating Temperature</b>	0°C ~ 60°C
<b>Operating Humidity</b>	0% ~ 95% (non-condensing)
<b>Form Factor</b>	Pico-ITX (10cm x 7.2cm, 3.9" x 2.8")
<b>Compliance</b>	CE, FCC

Items
VAB-1000 board
VAB-1000 I/O card
Screw pack for miniPCIe card
Console cable

## ARM-based HMI Solution

NEW

VIA

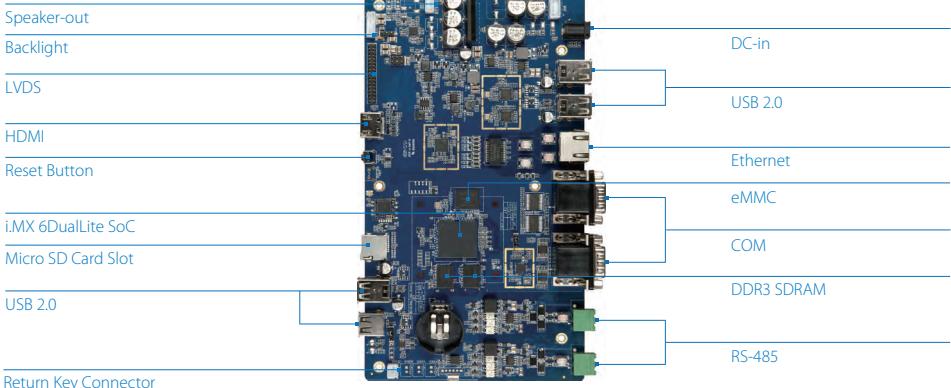

# VAB-822

Dual-Lite platform with multiple COM ports for industrial applications

## Features

- 1.0GHz NXP i.MX 6Dual Lite Cortex-A9 SoC
- Wide operating temperature range -20°C ~ 70°C
- Surge and ESD protection
- 4 RS-232 ports and 2 RS-485 ports
- 5W audio amplifier

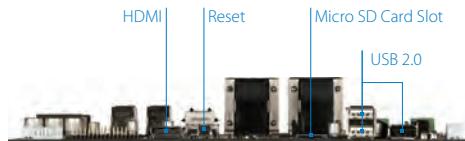

## Board Placement

## Specifications

<b>Model Name</b>	<b>VAB-822</b>
<b>Processor</b>	1.0GHz NXP i.MX 6DualLite Cortex-A9 dual-core SoC
<b>System Memory</b>	1GB DDR3 SDRAM onboard
<b>Storage</b>	8GB eMMC Flash memory
<b>Boot Loader</b>	4MB SPI Flash ROM
<b>Graphics</b>	Vivante GC880 2 Independent, integrated 3D/2D graphics processing units Graphics engines support OpenGL®ES 2.0, OpenVG 1.1 hardware acceleration Support MPEG-2, VC-1 video decoding up to 1080p
<b>LAN</b>	Micrel KSZ9031RNX Gigabit Ethernet Transceiver with RGMII support
<b>Audio</b>	NXP SGTL5000 low power stereo codec
<b>HDMI</b>	Integrated HDMI 1.4 Transmitter
<b>USB</b>	SMSC USB2514 USB 2.0 High Speed 4-port hub controller
<b>Onboard I/O</b>	1 Dual-channel 18/24 bit LVDS panel connector 1 LCD power select pin-header 1 Backlight control connector 1 Back light power select pin-header 1 Speaker-out connector with 5W amp 1 Return key connector 1 Watchdog enable/disable jumper 1 RTC battery slot
<b>Front Panel I/O</b>	3 USB 2.0 ports 1 HDMI port 1 Micro SD card slot 1 Reset button
<b>Back Panel I/O</b>	4 USB 2.0 ports 2 2-pole Phoenix RS-485 ports (TX/RX) 4 COM ports (supports two TX/RX and two 8-wire DTE mode) 1 10/100Mbps Ethernet port 1 DC-in connector
<b>Power Supply</b>	12V DC-in
<b>Operating System</b>	Android 4.4
<b>Watchdog Timer</b>	Integrated watchdog timer supports two comparison points. Each comparison point can interrupt ARM core, 2nd comparison point capable of generating external interrupts on WDOG line
<b>Operating Temperature</b>	-20°C ~ 70°C
<b>Operating Humidity</b>	5 ~ 95% @ 45°C (non-condensing)
<b>Storage Temperature</b>	-20°C ~ 70°C
<b>Form Factor</b>	22.5cm x 12cm (8.8" x 4.7")

Model Name	QSMDB2
<b>Audio</b>	NXP SGTL5000 low power stereo codec
<b>Onboard I/O</b>	1 Dual-channel 18/24-bit LVDS panel connector 1 LVDS inverter connector 1 Touch panel connector 6 COM port pin headers (4 for RS-232/422/485, 2 for TX/RX only) 32 GPIO (16 GPI +16 GPO) pin headers 1 CAN bus connector (supports 2 CAN bus) 1 Audio pin header for Line-in, Line-out, Mic-in 1 I <sup>2</sup> C pin header 1 SIM card slot 1 miniPCIe slot 1 DC-in connector
<b>Front Panel I/O</b>	2 USB 2.0 ports 1 HDMI port 1 COM port (TX/RX for debug) 1 Gigabit Ethernet port 1 10/100Mbps Ethernet port 2 Power & Wi-Fi activity LEDs 1 Reset Button
<b>Power Supply</b>	15~24V DC-in
<b>Operating Temperature</b>	-20°C ~ 70°C
<b>Operating Humidity</b>	0% ~ 95% (non-condensing)
<b>Form Factor</b>	3.5" Form Factor 14.6cm x 10.2cm (5.75" x 4.01")

## HMI Starter Kits

VIA

# VTS-8588

All-in-one panel display  
starter kit for HMI digital  
signage applications

### Board Placement

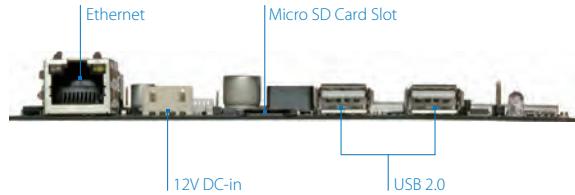

### Features

- 1.0GHz VIA Cortex-A9 dual-core SoC
- 10/100Mbps Ethernet with PoE support
- HTML5 Support
- Onboard Wi-Fi support
- Optional 17" panel for quick time to market designs

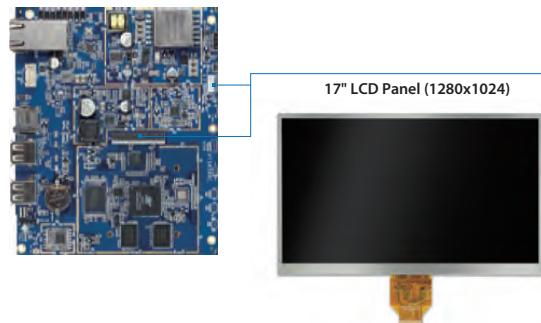

### Specifications

VTS-8588	
<b>Processor</b>	1.0GHz VIA Cortex-A9 dual-core SoC
<b>System Memory</b>	1GB DDR3 SDRAM
<b>Storage</b>	8GB eMMC Flash memory
<b>Boot Loader</b>	512KB SPI Flash ROM
<b>Graphics</b>	Mali-400 dual processor GPU 2 integrated, independent 3D/2D graphics processing units Graphics engine supporting OpenGL® ES 2.0 hardware acceleration Supports MPEG-2 and H.264 video decoding up to 1080p
<b>LAN</b>	Realtek RTL8152B 10/100Mbps Ethernet controller
<b>Wi-Fi</b>	Realtek RTL8189ES SDIO onboard Wi-Fi module
<b>Onboard I/O</b>	1 Dual-channel LVDS connector 1 PWM LVDS backlight control connector 1 COM (TX/RX) Console connector 4 GPIO 1 DC-in connector
<b>Rear I/O</b>	2 USB 2.0 ports 1 10/100Mbps Ethernet port with 48V PoE 1 Micro SD card slot
<b>Operating System</b>	Linux kernel 3.4.5
<b>Power Supply</b>	12V DC-in
<b>Operating Temperature</b>	0°C ~ 45°C
<b>Operating Humidity</b>	0% ~ 90% (relative humidity; non-condensing)
<b>Form Factor</b>	14cm x 11.5cm (5.51" x 4.52")

VIA

# Alegro 100

Multi-protocol home gateway device

## Features

- 800MHz VIA Cortex-A9 SoC
- Multi-protocol wireless connectivity including Wi-Fi, Bluetooth, ZigBee, Z-Wave, and KNX-RF
- Supports Ethernet and KNX-TP connectivity
- High performance external antennas
- Cross protocol wireless home router for multi-device management

## Specifications

<b>Model Name</b>	<b>Alegro 100</b>
<b>Processor</b>	800MHz VIA Cortex-A9 SoC
<b>System Memory</b>	512MB DDR3 SDRAM onboard
<b>Storage</b>	4GB eMMC Flash memory
<b>Boot Loader</b>	512KB SPI Flash ROM
<b>LAN</b>	VIA VT6113 10/100 base-TX PHY chip
<b>KNX-TP</b>	Siemens KNX EIB TP-UART2 KNX transiver
<b>KNX-RF</b>	Radiocrafts RC1180-KNX2 KNX-RF module
<b>ZigBee</b>	Silicon Labs EM3581 ZigBee controller
<b>Z-Wave</b>	Sigma Designs ZM5304 Z-Wave module
<b>Front Panel I/O</b>	1 Power on/off button & power indicator LED
<b>Back Panel I/O</b>	1 USB 2.0 ports 1 10/100Mbps Ethernet port 1 KNX-TP connector 1 DC-in jack 4 Antennas
<b>Power Supply</b>	12 ~ 24V DC-in
<b>Operating System</b>	Android 4.0, Linux kernel 3.0.8
<b>Mechanical Construction</b>	Plastic chassis
<b>Mounting</b>	Built-in wall mountable holes Optional VESA mounting bracket (75mm x 75mm) Optional DIN Rail kit
<b>Operating Temperature</b>	0°C ~ 50°C
<b>Operating Humidity</b>	0% ~ 90% @ 40°C (non-condensing)
<b>Storage Temperature</b>	-20°C ~70°C
<b>Dimensions</b>	171.4mm(W) x 28.4mm(H) x 114.7mm(D) (6.73" x 1.1" x 4.51")
<b>Weight</b>	TBD
<b>Compliance</b>	CE, FCC

# ALTA DS 2

Fanless ultra-compact dual-screen Android digital signage system

## Features

- High-performance 1.0GHz VIA Elite E1000 Cortex-A9 dual-core SoC
- Designed for Android operating system
- Dual-screen support with optional second HDMI port
- Extended & independent screen content support
- Android software solution pack and signage starter kit available

## Specifications

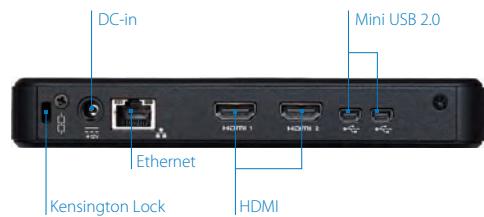

<b>Model Name</b>	<b>ALTA DS 2</b>
<b>Processor</b>	1.0GHz VIA Elite E1000 Cortex-A9 dual-core SoC
<b>System Memory</b>	2GB DDR3 SDRAM onboard
<b>Storage</b>	4GB eMMC Flash memory Up to 16GB eMMC (optional) Supports 1 2.5" SATA HDD/SSD (Project-based only)
<b>Boot Loader</b>	4MB SPI Flash ROM
<b>Graphics</b>	3 integrated, independent 3D/2D and video processing units Graphics engine supporting OpenGL® ES 3.0 hardware acceleration Supports MPEG-2, VC-1 and H.264 video decoding up to 1080p
<b>LAN</b>	Realtek RTL8111G-CG
<b>Audio</b>	Wolfson WM8960 Audio Codec
<b>HDMI</b>	Integrated HDMI 1.4 transmitter 2nd from ADV7511
<b>Front Panel I/O</b>	2 USB 2.0 ports 1 SD card slot 2 Audio jacks: Line-out and Mic-in (shared with CIR, optional) 1 Power on/off button & power indicator LED
<b>Back Panel I/O</b>	2 Mini USB 2.0 ports (optional) - 1 for Wi-Fi - 1 for UART1 TX/RX 2 HDMI ports (1 optional) 1 Gigabit Ethernet port 1 DC-in jack
<b>Power Supply</b>	12V DC-in (typical: 5.12W)
<b>Operating System</b>	Android 4.4.2
<b>Operating Temperature</b>	0°C ~ 40°C
<b>Operating Humidity</b>	0% ~ 90% @ 40°C (non-condensing)

# AMOS-825

Fanless ultra-compact quad-core ARM system ruggedized for demanding transportation environments

## Features

- 1.0GHz NXP i.MX 6Quad Cortex-A9 quad-core SoC
- Wide operating temperature range, 0°C ~ 60°C
- Legacy I/O support including dual CAN bus, COM, and GPIO
- Android solution pack available

## Specifications

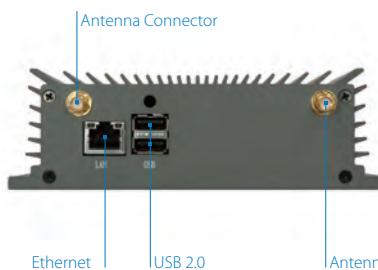

<b>Model Name</b>	<b>AMOS-825</b>
<b>Processor</b>	1.0GHz NXP i.MX 6Quad Cortex-A9 SoC
<b>System Memory</b>	1GB DDR3 SDRAM onboard
<b>Storage</b>	16GB eMMC Flash memory
<b>Boot Loader</b>	4MB SPI Flash ROM
<b>Graphics</b>	<p>Vivante GC2000 GPU</p> <p>3 independent, integrated 3D/2D and video graphics processing units</p> <p>Graphics engine supporting OpenGL® ES 2.0, OpenCL and OpenVG™ 1.1 hardware acceleration</p> <p>Supports MPEG-2, VC-1 and H.264 video decoding up to 1080p</p> <p>Supports SD encoding</p>
<b>LAN</b>	Micrel KSZ9031RNX Gigabit Ethernet transceiver with RGMI support
<b>Wi-Fi/Bluetooth/GPS</b>	IEEE 802.11BGN 1T1R & BT4.0 combo USB module MAX-7 u-blox 7 GPS/GNSS module
<b>Audio</b>	NXP SGTL5000 low power stereo codec
<b>USB</b>	SMSC USB2514 USB 2.0 high speed 4-port hub controllers
<b>CAN</b>	TI SN65HVD1050 EMC optimized CAN transceiver
<b>Expansion I/O</b>	1 miniPCIe slot
<b>Front Panel I/O</b>	<p>1 Micro USB 2.0 OTG port</p> <p>1 9-pin D-sub connector (supports 1 CAN Bus and 1 COM TX/RX for debug)</p> <p>1 SCSI 50-pin D-sub connector (Backlight power, Dual-channel LVDS, 4 GPIO, I2C, Line out and MIC-in)</p> <p>1 MIC-in</p> <p>1 Reset button</p> <p>1 Power &amp; WPAN/WWAN/WLAN LED</p> <p>1 Antenna hole</p> <p>1 4-pole Phoenix DC jack</p>
<b>Back Panel I/O</b>	<p>2 USB 2.0 ports</p> <p>1 Gigabit Ethernet port</p> <p>2 Antenna connectors for Wi-Fi/BT and GPS</p>
<b>Power Supply</b>	9 ~ 36V DC-in (typical: 7W)
<b>Operating System</b>	Android 4.4.2
<b>Watchdog Timer</b>	Integrated watchdog timer supports two comparison points. Each comparison point can interrupt ARM core, 2nd comparison point capable of generating external interrupts on WDOG line.
<b>Operating Temperature</b>	0°C ~ 60°C
<b>Operating Humidity</b>	0% ~ 90% @ 45°C (non-condensing)
<b>Vibration Loading during Operation</b>	With onboard eMMC 7Grms, IEC 60068-2-64, random, 5 ~ 500Hz, 1hr/axis
<b>Shock During Operation</b>	With onboard eMMC 70G, IEC 60068-2-27, half size, 11ms duration

### Front Panel External I/O

### Back Panel External I/O

### 7" Projective Capacitive Touch Monitor

## Specifications

<b>Model Name</b>	<b>AMOS-825</b>
<b>Bottom Opening Covers</b>	Open window with removable door plate to access Micro SD and miniPCIe slots
<b>Dimensions</b>	150.5mm(W) x 48.1mm(H) x 103.3mm(D) (5.9" x 1.9" x 4.1")
<b>Weight</b>	0.673kg (1.48lbs)
<b>Compliance</b>	CE, FCC

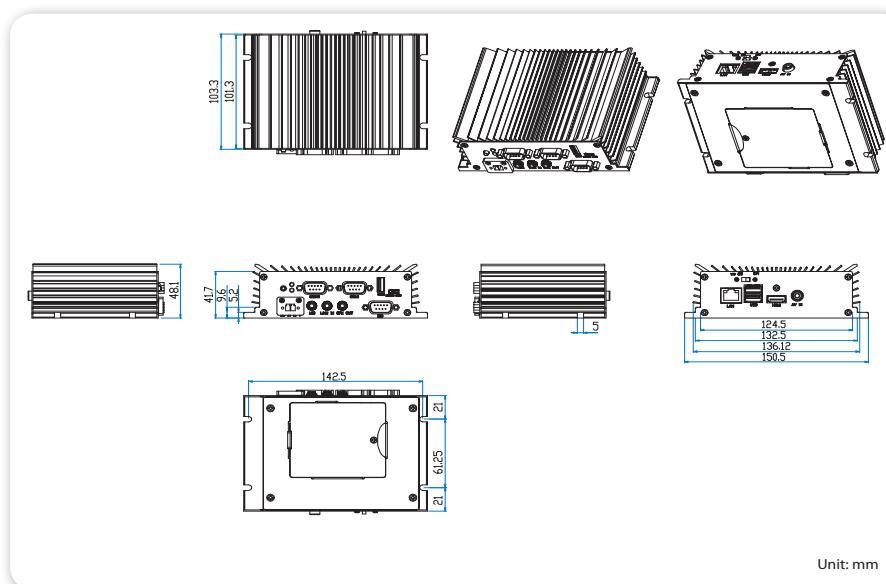

## Ordering Information

Part Number	SoC Frequency	Description
AMOS-825-1Q10A1	NXP i.MX 6Quad Cortex-A9 quad-core SoC @ 1.0GHz	Fanless embedded system with 1.0GHz NXP i.MX 6Quad Cortex-A9 SoC, 12GB DDR3 RAM, 16GB eMMC, 4MB SPI Flash ROM, 2 USB 2.0, Micro USB 2.0 OTG port, CAN bus, COM, SCSI 50-pin D-sub connector, GPIO, Gigabit Ethernet, miniPCIe slot, Micro SD card slot, 9~36V DC-in

## Optional Accessories

Part Number	Description
99G73-010229	7" Projective capacitive touch monitor (800x480, -20°C ~ 70°C)

## Dimensions

Unit: mm

## Packing List

Items
AMOS-825 system
Phoenix plug to DC jack
COM/CAN conversion cable
SCSI 50-pin connector cable
Screw pack for mounting
Rubber feet pack

VIA

# AMOS-820

Fanless ultra-compact quad-core ARM system ruggedized for extreme environments

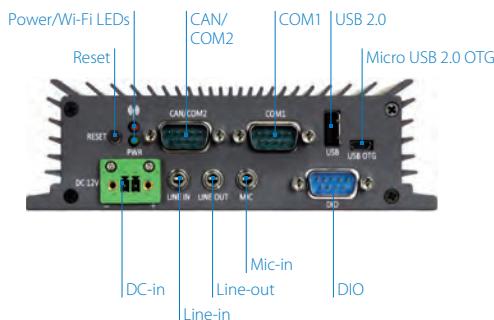

## Features

- 1.0GHz NXP i.MX 6Quad Cortex-A9 quad-core SoC
- Power over Ethernet (PoE) option
- Wide operating temperature range, -20°C ~ 65°C
- Legacy I/O support including dual CAN bus, dual COM, and GPIO
- Android and Linux solution packs available

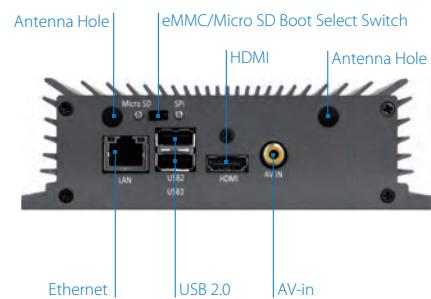

## Specifications

<b>Model Name</b>	<b>AMOS-820</b>
<b>Processor</b>	1.0GHz NXP i.MX 6Quad Cortex-A9 SoC
<b>System Memory</b>	1GB DDR3 SDRAM onboard
<b>Storage</b>	4GB eMMC Flash memory
<b>Boot Loader</b>	4MB SPI Flash ROM
<b>Graphics</b>	<p>Vivante GC2000 GPU</p> <p>3 independent, integrated 3D/2D and video graphics processing units</p> <p>Graphics engine supporting OpenGL® ES 2.0, OpenCL and OpenVG™ 1.1 hardware acceleration</p> <p>Supports MPEG-2, VC-1 and H.264 video decoding up to 1080p</p> <p>Supports SD encoding</p>
<b>LAN</b>	Micrel KSZ9031RNX Gigabit Ethernet transceiver with RGMII support
<b>Audio</b>	NXP SGTL5000 low power stereo codec
<b>HDMI</b>	Integrated HDMI 1.4 transmitter
<b>USB</b>	SMSC USB2514 USB 2.0 high speed 4-port hub controllers
<b>CAN</b>	TI SN65HVD1050 EMC optimized CAN transceiver
<b>Expansion I/O</b>	1 miniPCIe slot
<b>Front Panel I/O</b>	<p>1 USB 2.0 port</p> <p>1 Micro USB 2.0 type B port supports OTG</p> <p>1 COM (TX/RX) / 2 CAN bus ports (supports CAN Protocol specification Version 2.0 B)</p> <p>1 COM port supports 8-wire DTE mode</p> <p>1 DIO port supports 8 GPIO (4 GPI + 4 GPO)</p> <p>3 Audio jacks: Line-in, Line-out and Mic-in</p> <p>1 Reset button</p> <p>1 Power &amp; WWAN/Wi-Fi LED</p> <p>1 2-pole Phoenix DC jack</p>
<b>Back Panel I/O</b>	<p>2 USB 2.0 ports</p> <p>1 HDMI port</p> <p>1 Composite RCA jack</p> <p>1 Gigabit Ethernet port (supports optional IEEE802.3 at type 2)</p> <p>1 Micro SD/SPI boot switch</p> <p>2 Antenna Holes for 3G/Wi-Fi</p>
<b>Power Supply</b>	12V DC-in (typical: 7W)
<b>Operating System</b>	Android 4.4.2, Linux Kernel 3.10.17
<b>Watchdog Timer</b>	Integrated watchdog timer supports two comparison points. Each comparison point can interrupt ARM core, 2nd comparison point capable of generating external interrupts on WDOG line.
<b>Operating Temperature</b>	<p>-20°C ~ 65°C (3G &amp; Wi-Fi not included) (AMOS-820-1Q10A1)</p> <p>-20°C ~ 60°C (3G &amp; Wi-Fi not included) (AMOS-820-2Q10A1)</p>
<b>Operating Humidity</b>	0% ~ 90% @ 45°C (non-condensing)
<b>Vibration Loading during Operation</b>	With onboard eMMC 7Grms, IEC 60068-2-64, random, 5 ~ 500Hz, 1hr/axis
<b>Shock During Operation</b>	With onboard eMMC 70G, IEC 60068-2-27, half size, 11ms duration
<b>PoE Function</b>	Supports IEEE802.3 at compliant (type2) PD (AMOS-820-2Q10A1)

# AMOS-800

Fanless ultra-compact ARM-based system for industrial environments

## Features

- 800MHz NXP i.MX537 Cortex-A8 SoC
- Wide operating temperature range, -40°C ~ 80°C
- Legacy I/O support
- Supports 8-bit GPIO and CAN bus
- Android, Linux, and WEC7 solution packs available

## Specifications

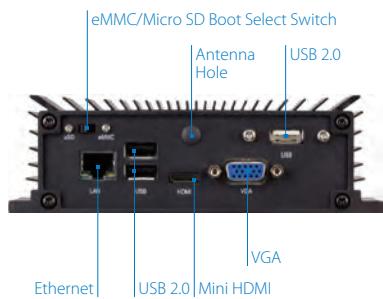

<b>Model Name</b>	<b>AMOS-800</b>
<b>Processor</b>	800MHz NXP i.MX537 Cortex-A8 SoC
<b>System Memory</b>	1GB DDR3 SDRAM onboard
<b>Storage</b>	4GB eMMC Flash memory
<b>Graphics</b>	AMD Z430 GPU 2 integrated, independent 3D/2D graphics processing units Graphics engine supporting OpenGL® ES 2.0 and OpenVG™ 1.1 hardware acceleration Supports MPEG-2, VC-1 and H.264 video decoding up to 1080p
<b>LAN</b>	SMSC LAN8720A 10/100 PHY transceiver with HP Auto-MDIX support
<b>Audio</b>	NXP SGTL5000 low power stereo codec
<b>HDMI</b>	Silicon image Si9024A HDMI transmitter
<b>USB</b>	SMSC USB2514 USB 2.0 high speed 4-port hub controllers
<b>CAN</b>	TI SN65HVD1050 EMC optimized CAN transceiver
<b>Front Panel I/O</b>	1 COM port (TX/RX) 1 COM (TX/RX) / CAN bus port (supports CAN Protocol specification Version 2.0 B) 1 DIO port supports 8-bit GPIO (4 GPI + 4 GPO) 3 Audio jacks: Line-in, Line-out, Mic-in 1 2-pole Phoenix DC jack 1 Power on/off button 1 Power LED
<b>Back Panel I/O</b>	3 USB 2.0 ports 1 Mini HDMI port 1 VGA port 1 10/100Mbps Ethernet port 1 Micro SD/eMMC boot switch 1 Antenna hole for Wi-Fi
<b>Power Supply</b>	5V DC-in (typical: 3.1W)
<b>Operating System</b>	Android 2.3, Linux Kernel 2.6.35, WES7
<b>Watchdog Timer</b>	Integrated watchdog timer supports two comparison points. Each comparison point can interrupt ARM core, 2nd comparison point capable of generating external interrupts on WDOG line
<b>Operating Temperature</b>	Extended temperature -40°C ~ 80°C (VGA display)
<b>Operating Humidity</b>	0% ~ 90% @ 45°C (non-condensing)

### ARTiGO A820

Fanless low-profile gateway system with dual Ethernet and wireless connectivity options for enterprise IoT and M2M applications

## Features

- Fanless and ultra slim low profile (only 3cm height)
- Powered by NXP i.MX 6DualLite Cortex-A9
- Supports integrated graphics processing (GPU) for 3D/2D graphics acceleration
- Dual Ethernet support and wireless connectivity options available
- Linux BSP and customization services available

## Specifications

<b>Model Name</b>	ARTiGO A820
<b>Processor</b>	1.0GHz NXP i.MX 6DualLite dual-core Cortex-A9 SoC
<b>System Memory</b>	1GB DDR3 SDRAM onboard
<b>Storage</b>	4GB eMMC Flash memory Micro SD Card
<b>Graphics</b>	Vivante GC880 2 Independent, integrated 3D/2D graphics processing units Graphics engine support OpenGL® ES 2.0, OpenVG 1.1 hardware acceleration Support MPEG-2, VC-1 video decoding up to 1080p

# Viega Tablet

Semi-ruggedized embedded  
Android 10.1" tablet with  
IP65 rating and long battery  
life

## Features

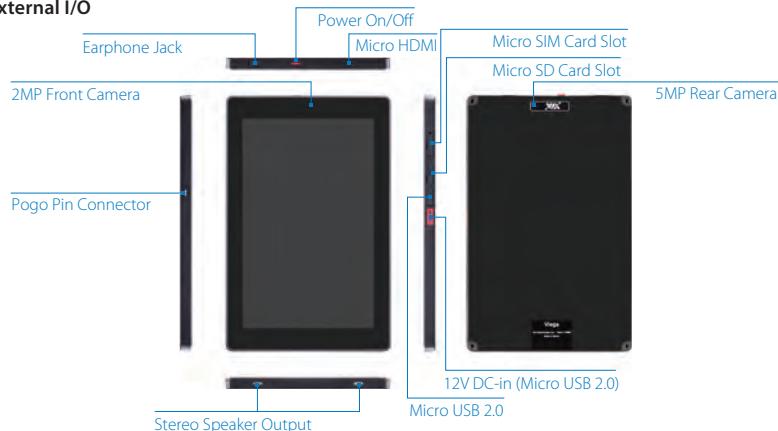

- High-performance VIA Cortex-A9 dual-core SoC
- Ruggedized design to meet MIL-STD 810G and IP65 water resistance standards
- Corner guards for anti-vibration and shock protection
- Customized Android software development
- Long-life polymer battery pack with up to 6 hours runtime

## Specifications

<b>Model Name</b>	<b>Viega Tablet</b>
<b>Processor</b>	1.2GHz VIA Cortex-A9 dual-core SoC
<b>System Memory</b>	1GB DDR3 SDRAM onboard
<b>Storage</b>	16GB eMMC Flash memory
<b>Boot Loader</b>	512KB SPI Flash ROM
<b>Graphics</b>	ARM Mali-400 DP GPU 2 integrated, independent 3D/2D graphics processing units Graphics engine supporting OpenGL® ES 2.0 hardware acceleration Supports MPEG-2, VC1, H.264 and VP8 video decoding up to 1080p
<b>Sensors</b>	ALS and PS support G sensor E compass
<b>Connectivity</b>	Wi-Fi 802.11b/g/n Bluetooth 4.0 NFC Type 1/2/3/4 GPS support (optional) 3G WCDMA up to 2100MHz (optional)
<b>Audio</b>	Headphone Jack Internal stereo speaker and microphone
<b>Camera</b>	2M Front camera 5M Rear camera with auto focus support (optional)
<b>Speaker</b>	1.5W stereo speaker inside
<b>I/O Ports</b>	2 Micro USB 2.0 ports - 1 for USB - 1 for 12V DC-in / COM / Earphone jack 1 Micro HDMI 1 2MP front camera 1 5MP rear camera with auto focus support (optional) 1 Micro SIM card slot 1 Micro SD card slot 1 Stereo speaker inside 1 Power on/off button 1 Pogo pin connector
<b>Display</b>	10.1" LCD with LED backlight panel 1280x800 resolution Display active area: 217mm x 136mm
<b>Power Supply</b>	Battery pack support @ DC 7.4V Charge by AC adapter with 12V DC-in or docking station Max runtime: 6hrs Max sleep time: 9hrs Max suspend time: 14 days (optional feature)
<b>Operating System</b>	Android 4.4.2
<b>Operating Temperature</b>	-10°C ~ 50°C
<b>Relative Humidity</b>	5% ~ 95% @ 40°C (non-condensing)

## VIA Enterprise IoT x86 Solutions

VIA provides all the building blocks that designers need to build reliable, low-power, high-performance x86 systems for a diverse range of embedded and Enterprise IoT applications, including digital signage, transportation, and industrial automation.

Combining a wide selection of low-power, feature-rich small form factor boards and rugged and reliable fanless small form factor systems with an extensive suite of software and hardware customization capabilities and longevity support, VIA enables developers to create innovative new solutions based on the x86 architecture.

## VIA Enterprise IoT x86 Boards

VIA offers a wide variety of highly-integrated, low-power x86 boards featuring the new VIA Eden® X4 and VIA QuadCore E-Series processors. Available in a choice of Mini-ITX and Pico-ITX form factors, VIA x86 boards combine powerful multicore processing with rich multimedia, connectivity, and I/O features to provide all the necessary functionality and performance for even the most demanding embedded system design applications.

Built to the most exacting quality standards, VIA x86 boards are ultra-reliable and feature guaranteed longevity of up to seven years. To ensure that they can operate in even the most challenging environments, the boards also support extended temperature ranges.

With their rich feature sets, low power consumption, and cutting-edge functionality and performance, VIA x86 boards are ideal for a myriad of embedded design applications, including digital signage, industrial automation, healthcare, HMI, thin clients, and transportation. Customers can also take advantage of the extensive hardware and software customization services provided by VIA to create truly differentiated products for their target markets.

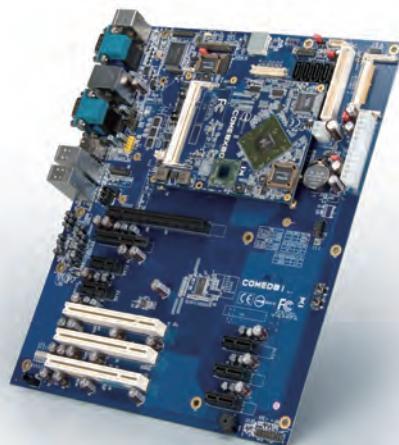

## VIA Enterprise IoT Computer-on-Module Solutions

The modular design philosophy of VIA x86 COM Express® and ETX® form factors provides customers with the freedom to easily customize and modify existing designs in order to create innovative new devices using significantly faster design cycles and fewer resources.

### VIA COM Express® Modules

VIA COM Express® modules provide scalable solutions for high-level embedded applications and support system expansion and application-specific customization. Designed to combine low power consumption with advanced multimedia performance, VIA COM Express® modules are targeted at industrial PCs and large OEM customers focused on dynamic application segments, including gaming, healthcare, military, transportation, and industrial automation. They are available in a choice of Basic, Mini, and Compact standards.

Customers can utilize a proprietary multi-I/O carrier board for evaluation purposes or take advantage of the rich design experience and expertise of VIA to develop a customized carrier board.

### VIA ETX Module

VIA ETX is a highly-integrated embedded multimedia module with native ISA/PCI support for legacy expansion cards and applications. Powered by a VIA multicore processor, the VIA ETX module offers industry-leading performance, high display resolutions of up to 2560 x 1600 on VGA interface, and 12/24-bit dual-channel LVDS panel support.

## VIA Enterprise IoT x86 Systems

VIA offers an unmatched selection of robust, small form factor x86 systems targeted at a wide range of embedded applications and environments, including industrial automation, digital signage, retail, hospitality, transportation, home, and entertainment.

VIA Enterprise IoT x86 systems combine ultra-low power consumption and fanless design implementations with advanced computing, graphics, and video performance. They also cover a broad spectrum of feature sets, including rich I/O connectivity, and offer flexible expansion options in order to meet the diverse needs of the embedded market.

VIA Enterprise IoT x86 systems are designed and manufactured to the highest standards of quality and reliability, and include a range of ruggedized, dust-proof chassis. They also support extended temperature ranges in order to operate in even the most demanding environments and are backed up with guaranteed longevity in order to support embedded product life cycles.

To ensure a rapid development path for embedded developers, VIA Enterprise IoT x86 systems can be integrated with a growing number of software support packages for Windows, Windows Embedded, and Linux. A comprehensive range of customization and technical support services to assist customers in taking their products to market is also available.

### VIA AMOS-3000 Series Industrial Fanless Systems

Integrating a choice of low power processors, including the latest VIA Eden X4 processor, into compact, fanless, and dust-proof chassis designs, VIA AMOS 3000 Series fanless systems provide ultra-powerful and ultra-reliable solutions for a wide variety of embedded and Enterprise IoT segments including medical, healthcare, industrial and building automation, digital signage, kiosk, POI/POS, gaming and surveillance applications.

With their unique modular design and rich I/O features, VIA AMOS 3000 Series fanless systems offer multiple opportunities for customization as well as being quick and easy to assemble. They are also extremely low power and support a wide temperature range, which makes them an ideal solution for even the most demanding operating environments.

## VIA ARTiGO Series Systems

Leveraging the compact design of the VIA Pico-ITX boards, VIA ARTiGO Series small form factor systems provide a growing selection of slim, low profile solutions for a wide range of high-performance Enterprise IoT and embedded applications, including thin clients and fanless multi-display digital signage systems.

Combining advanced multimedia capabilities such as 1080p HD video support with high-performance VIA Eden X4 processors, VIA ARTiGO Series systems pack a rich set of connectivity and I/O features into a range of attractive ultra-compact chassis that are small enough to fit into almost any environment. In addition to being compatible with a wide range of Windows, Windows Embedded, and Linux operating systems, they are also ultra-reliable and deliver high levels of energy efficiency. For digital signage applications VIA ARTiGO Series systems also support VIA MagicView®, a powerful and flexible content management platform for designing, distributing and displaying digital signage content.

## VIA VIPRO Series Panel PC

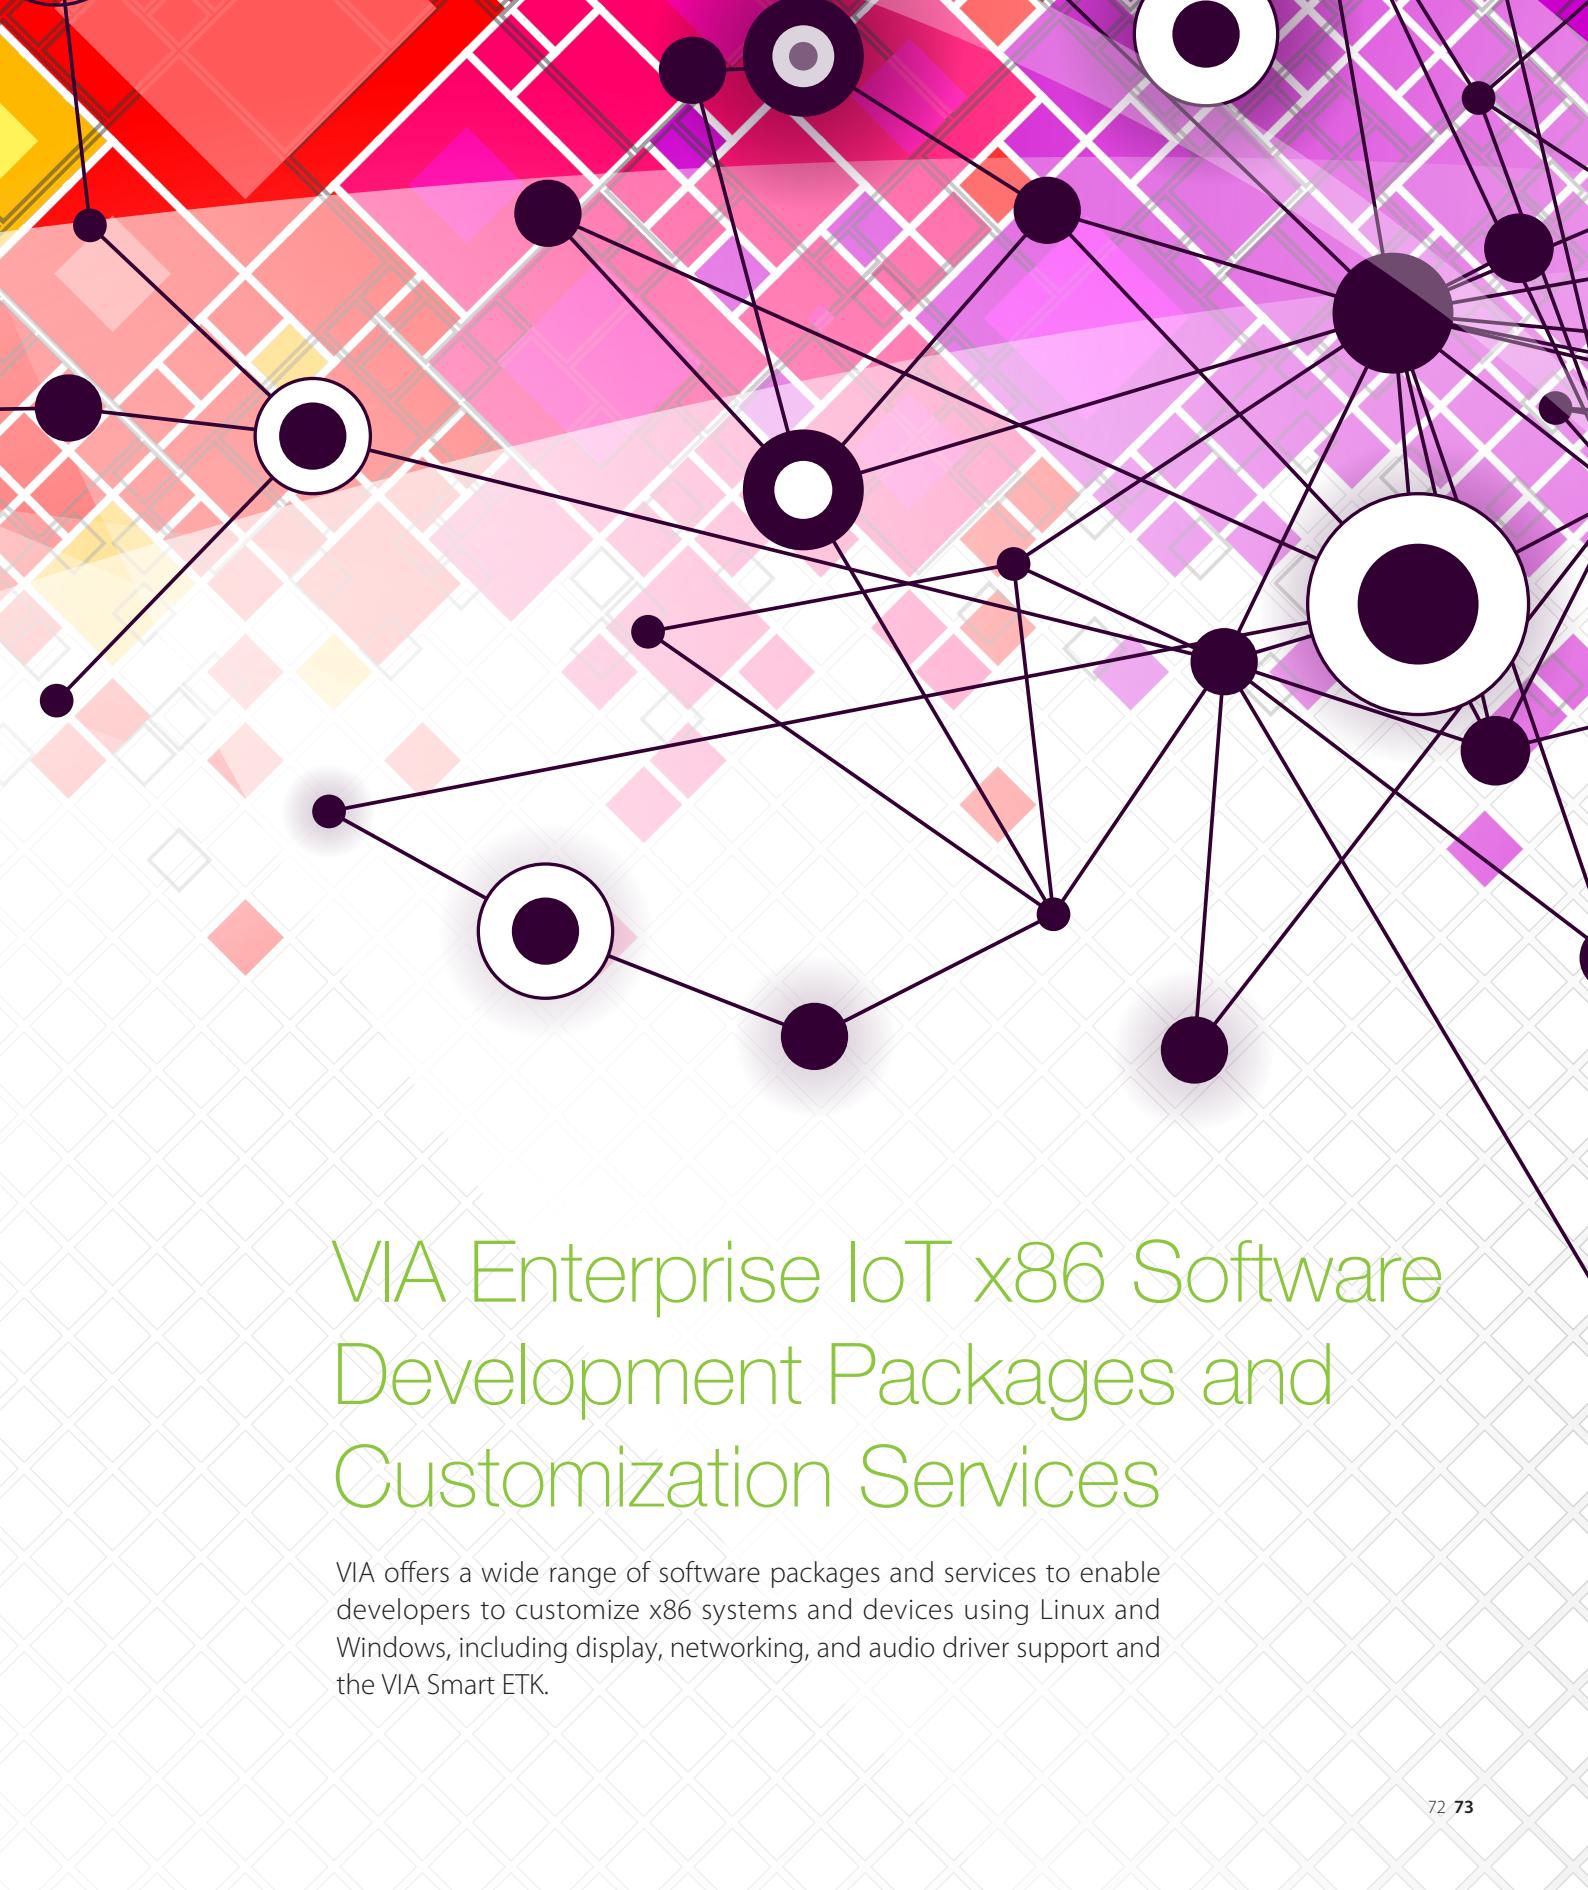

The VIA VIPRO VP7910 is an embedded panel computer, featuring the latest VIA Eden X4 processor, with a 10.4" TFT LCD resistive touch or p-cap screen that provides the ideal solution for applications that require low power consumption and fanless, noise-free operation with multiple I/O ports.

With its durable fanless design and advanced computing, multimedia, and connectivity features, the VIA VIPRO VP7910 Fanless Panel PC is suitable for a wide variety of embedded, multimedia, and industrial HMI applications including factory automation systems, precision machinery, production process control, terminal information systems, entertainment management systems, and car park automation systems.

## VIA EMIO Wireless Modules

VIA EMIO Wireless modules are designed for easy integration with selected VIA Enterprise IoT x86 systems and are compatible with global IEEE 802.11b/g/n standards.

# VIA Enterprise IoT x86 Software Development Packages and Customization Services

VIA offers a wide range of software packages and services to enable developers to customize x86 systems and devices using Linux and Windows, including display, networking, and audio driver support and the VIA Smart ETK.

## VIA Smart ETK

The VIA Smart ETK provides an application programming interface (API) that simplifies system development on VIA x86 platforms. The VIA Smart ETK is also bundled with Smart ETK Demo, which is easy to install and has a user-friendly GUI for demonstrating the various functions of VIA x86 platforms. Both the VIA Smart ETK and Smart ETK Demo are easy-to-use tools that help to shorten development time and speed up time to market.

## VIA Vehicle Power Control

VIA Vehicle Power Control delivers transportation customers an easy-to-use solution that helps prevent damage from power spikes and ensures better battery management. In addition to providing a protocol for power on/off delay, maintenance power on/off time, IGN off notification and other functions, it is also bundled with demo utility.

## VIA StrongBox SDK

VIA provides an easy-to-use virtual disk encryption solution called StrongBox SDK which utilizes the VIA ACE hardware security engine integrated inside VIA x86 processors. StrongBox helps avoid data leaks with minimal impact on performance, and provides an application programming interface (API) that makes it easy for system developers using VIA Enterprise IoT x86 platforms to carry out further development. The VIA StrongBox SDK implements many basic functions, such as creating/ deleting image files, mounting/dismounting devices, and locking/ unlocking devices. VIA StrongBox is a virtual disk encryption application based on the VIA StrongBox SDK and can be downloaded for free from the VIA website.

## VIA ACE-CNX for NAS Disk Encryption

VIA ACE-CNX provides top level data protection for NAS disk encryption utilizing the AES-256 standard. It also leverages the advanced capabilities of the VIA ACE hardware security engine integrated in VIA x86 processors to minimize the impact on overall system performance.

## Specifications

Model Name	EPIA-M910-12Q/PQ	EPIA-M910-16/P	EPIA-M910-10E/PE
<b>Processor</b>	1.2GHz VIA QuadCore E-Series (with fan)	1.6GHz VIA Nano® X2 E-Series (with fan)	1.0GHz VIA Eden® X2 (fanless)
<b>Chipset</b>	VIA VX900 Media System Processor		
<b>BIOS</b>	AMI BIOS, 8Mbit Flash memory		
<b>System Memory</b>	2 DDR3 1066 DIMM sockets Up to 4GB memory size per slot		
<b>Storage</b>	2 SATA connectors		
<b>Graphics</b>	Integrated VIA Chrome®9 HD DX9 3D/2D graphics with MPEG-2, WMV9, VC1 and H.264 video decoding acceleration		
<b>LAN</b>	2 VIA VT6130 PCIe Gigabit Ethernet controllers		
<b>Audio</b>	VIA VT2021 High Definition Audio Codec		
<b>Super I/O</b>	Fintek F81865F-I + F81801		
<b>Expansion I/O</b>	1 PCI slot 1 PCIe x1 slot		
<b>Onboard I/O</b>	2 SATA connectors 2 SATA power connectors (DC-in SKU), 2 SATA DOM power selectors 2 USB 2.0 pin headers for 4 ports 1 Dual-channel 18/24-bit LVDS panel connector 1 Single-channel 18/24-bit LVDS panel connector 6 COM port pin headers (powered with selectable 5V/12V) 1 LPC pin header 1 SMBus pin header 1 S/PDIF-out connector 2 Digital I/O pin headers (8 GPI + 8 GPO) 1 Front audio pin header for Line-out, Mic-in 2 Smart Fan pin headers for CPU and system 1 ATX or DC-in power connector 1 PCI slot 1 PCIe x1 slot		
<b>Back Panel I/O</b>	4 USB ports 1 HDMI port 1 VGA port 2 COM ports (powered with selectable 5V/12V) 2 Gigabit Ethernet ports 3 Audio jacks: Line-in, Line-out and Mic-in 2 PS/2 keyboard/mouse ports		
<b>Power Supply</b>	ATX power connector or 12V DC-in		
<b>Operating System</b>	Windows 7, WES 7, Windows CE, Linux, POSReady 7		
<b>System Monitoring &amp; Management</b>	Wake-on-LAN, Keyboard Power-on, Timer Power-on, System power management, AC power failure recovery, Watchdog Timer		
<b>Operating Temperature</b>	0°C ~ 60°C		
<b>Operating Humidity</b>	0% ~ 95% (non-condensing)		
<b>Form Factor</b>	Mini-ITX (17cm x 17cm, 6.7" x 6.7")		
<b>Compliance</b>	CE/FCC

## Accessories

## Ordering Information

Model Name	CPU Frequency	Description
EPIA-M910-12Q	VIA QuadCore E-Series @ 1.2GHz	Mini-ITX Board with 1.2GHz VIA QuadCore E-Series CPU with HDMI, VGA, 2 LVDS, 8 USB 2.0, 8 COM, 2 Gigabit Ethernet, 2 SATA, PCI slot, PCIe x1 slot, ATX power connector
EPIA-M910-12PQ	VIA QuadCore E-Series @ 1.2GHz	Mini-ITX Board with 1.2GHz VIA QuadCore E-Series CPU with HDMI, VGA, 2 LVDS, 8 USB 2.0, 8 COM, 2 Gigabit Ethernet, 2 SATA, PCI slot, PCIe x1 slot, 12V DC-in
EPIA-M910-16	VIA Nano® X2 E-Series @ 1.6GHz	Mini-ITX Board with 1.6GHz VIA Nano® X2 E-Series CPU with HDMI, VGA, 2 LVDS, 8 USB 2.0, 8 COM, 2 Gigabit Ethernet, 2 SATA, PCI slot, PCIe x1 slot, ATX power connector
EPIA-M910-16P	VIA Nano® X2 E-Series @ 1.6GHz	Mini-ITX Board with 1.6GHz VIA Nano® X2 E-Series CPU with HDMI, VGA, 2 LVDS, 8 USB 2.0, 8 COM, 2 Gigabit Ethernet, 2 SATA, PCI slot, PCIe x1 slot, 12V DC-in
EPIA-M910-10E	VIA Eden® X2 @ 1.0GHz	Mini-ITX Board with 1.0GHz VIA Eden® X2 CPU with HDMI, VGA, 2 LVDS, 8 USB 2.0, 8 COM, 2 Gigabit Ethernet, 2 SATA, PCI slot, PCIe x1 slot ATX power connector
EPIA-M910-10PE	VIA Eden® X2 @ 1.0GHz	Mini-ITX Board with 1.0GHz VIA Eden® X2 CPU, with HDMI, VGA, 2 LVDS, 8 COM, 8 USB 2.0, 2 Gigabit Ethernet, 2 SATA, PCI slot, PCIe x1 slot, 12V DC-in

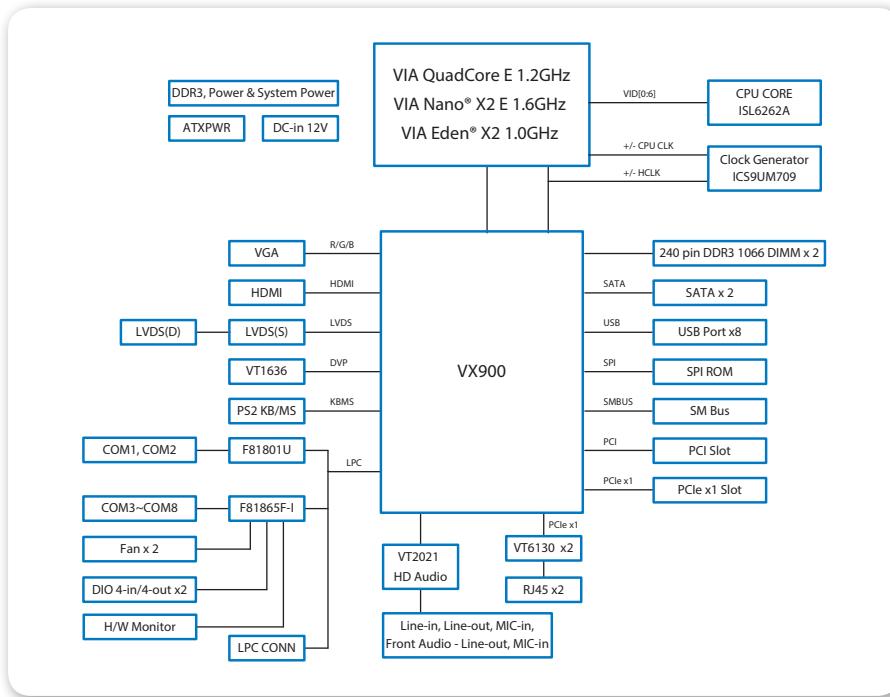

## Optional Accessories

I/O Expansion Cards	
Part Number	Description
LPC-01	Expansion module for four COM ports
LPC-02	Expansion module for four COM ports (5V or 12V)
LPC-04	Expansion module for two or four COM ports (5V or 12V)
PWB-M120	120W DC-DC power board, voltage range from 12V~24V
PCIE-03	PCI & 1-lane PCIe riser card
EXT-PCI	One to two PCI riser card

## Wireless Modules

Part Number	Description
EMIO-1533-00A2	VNT9271 IEEE 802.11 b/g/n USB Wi-Fi module with assembly kit

## Block Diagram

## Packing List

### Items

- EPIA-M910 board
- SATA cable
- SATA power cable (for DC-in sku only)
- DC power cable (for DC-in sku only)
- I/O bracket

## Mini-ITX Series

VIA

# VB7009

Flexible Mini-ITX board with advanced multimedia, I/O, and connectivity features

### Board Placement

### Features

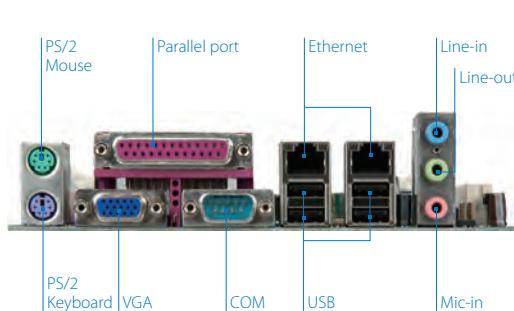

- Compact 17cm x 17cm Mini-ITX form factor
- Choice of VIA Eden® X4, VIA C7®-D, and VIA C7® processors
- DX9 graphics with MPEG-2/WMV9/VC1/H.264 decoding acceleration
- Rich I/O and connectivity features
- Supports up to six onboard COM ports

### Specifications

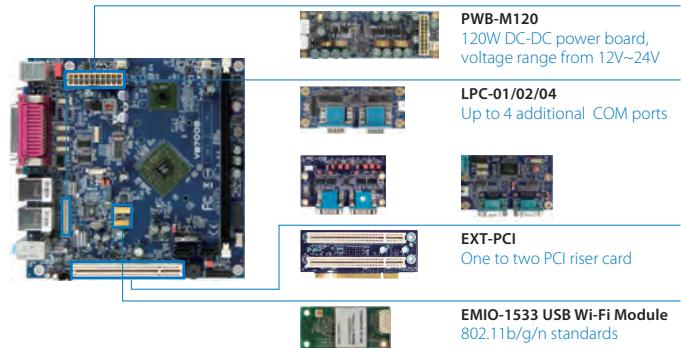

Model Name	VB7009-12QCE	VB7009-16	VB7009-10E
<b>Processor</b>	1.2GHz VIA Eden® X4 (Fanless)	1.6GHz VIA C7®-D (with fan)	1.0GHz VIA C7® (Fanless)
<b>Chipset</b>	VIA VX900 Media System Processor		
<b>BIOS</b>	AMI BIOS, 8Mbit Flash memory		
<b>System Memory</b>	1 DDR3 1066 DIMM slot Up to 4GB memory size		
<b>Storage</b>	2 SATA connectors

## COM Express Modules

# VIA COMe-9X90

COM Express Module with  
Type 6 pin-outs and Basic  
Form Factor

### Board Placement

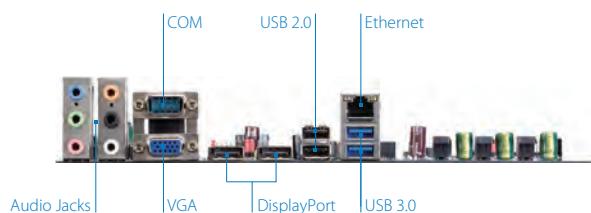

### Features

- 1.2GHz VIA Nano® X2 E-Series processor
- Supports up to 16GB 1333 DDR3 SDRAM
- DX11 graphics with MPEG-2/WMV9/VC1/H.264 decoding acceleration
- Supports 18/24-bit dual-channel LVDS panel, two DisplayPort ports, or two HDMI ports
- Supports two USB 3.0 and six USB 2.0 ports

### Specifications

<b>Model Name</b>	COMe-9X90
<b>Processor</b>	1.2GHz VIA Nano® X2 E-Series
<b>Chipset</b>	VIA VX11H Media System Processor
<b>BIOS</b>	AMI Aptio UEFI BIOS, 32Mbit Flash memory
<b>System Memory</b>	2 DDR3 1333 SODIMM slots Up to 8GB memory size per slot
<b>Storage</b>	2 SATA
<b>Graphics</b>	Integrated VIA Chrome®640 DX11 3D/2D graphics with MPEG-2, WMV9, VC1 and H.264 video decoding acceleration
<b>LAN</b>	RealTek RTL8111G PCIe Gigabit Ethernet controller
<b>Audio</b>	1 HD audio digital interface
<b>Supported Expansion I/O</b>	4 PCIe x1
<b>Supported I/O</b>	2 USB 3.0 6 USB 2.0 Up to 2 HDMI or 2 DisplayPort 1 VGA 1 Dual channel 18/24-bit LVDS panel (VIA VT1636) 2 COM (TX/RX) 1 Gigabit Ethernet 1 LPC 1 SMBus 1 SPI 1 SDIO/GPIO 1 I <sup>2</sup> C
<b>Operating System</b>	Windows 7/8, WES 7, Linux
<b>System Monitoring &amp; Management</b>	CPU temperature reading, CPU fan speed reading, System voltage monitoring, Watchdog Timer, Wake-on-LAN, System power management, AC power failure recovery
<b>Operating Temperature</b>	0°C ~ 60°C
<b>Operating Humidity</b>	0% ~ 95% (non-condensing)
<b>Form Factor</b>	9.5cm x 12.5cm (3.73" x 4.92")
<b>Compliance</b>	COM Express® type 6, basic module

### ETX-8X90-10GR

ETX® Module with high-performance multimedia capabilities

#### Board Placement

#### Features

- 1.06GHz VIA Eden® X1 processor
- Supports up to 4GB 1066 DDR3 SDRAM
- DX9 graphics with MPEG-2/ WMV9/VC1/H.264 decoding acceleration
- Display interface for VGA, supporting resolutions of up to 2048 x 1536, and one 18/24-bit dual-channel LVDS panel
- Supports four USB 2.0 ports

#### Specifications

<b>Model Name</b>	<b>ETX-8X90-10GR</b>
<b>Processor</b>	1.06GHz VIA Eden® X1
<b>Chipset</b>	VIA VX900 Media System Processor
<b>BIOS</b>	AMI BIOS, 8Mbit Flash memory
<b>System Memory</b>	1 DDR3 1066 SODIMM slot Up to 4GB memory size
<b>Storage</b>	1 SATA 1 IDE (2 <sup>nd</sup> optional)
<b>Graphics</b>	Integrated VIA Chrome®9 HD DX9 3D/2D graphics with MPEG-2, WMV9, VC1 and H.264 video decoding acceleration
<b>LAN</b>	Realtek RTL8139DL 10/100M Ethernet controller
<b>Audio</b>	1 HD audio digital interface
<b>Super I/O</b>	Fintek F71869ED
<b>Supported Expansion I/O</b>	2 PCI
<b>Left Panel I/O</b>	1 SATA connector 2 Mini USB 2.0 (optional) 1 Micro SD card slot (optional) 1 Audio pin header for Line-in, Line-out, Mic-in
<b>Supported I/O</b>	4 USB 2.0 ports 1 VGA 1 Dual-channel 18-bit/24-bit LVDS panel 2 COM 1 10/100M Ethernet 2 IDE (master mode only) (1 optional) 1 SMBus 1 I <sup>2</sup> C 1 ISA (no DMA transfer support)
<b>Operating System</b>	Windows 7, Windows XP, WES 7, Windows CE 6.0, Linux
<b>Power Mode</b>	AT mode supported
<b>System Monitoring &amp; Management</b>	CPU temperature reading, CPU fan speed reading, System voltage monitoring, Watchdog Timer, Wake-on-LAN, System power management, AC power failure recovery
<b>Operating Temperature</b>	0°C ~ 60°C
<b>Operating Humidity</b>	0% ~ 95% (non-condensing)
<b>Form Factor</b>	9.5cm x 11.4cm (3.7" x 4.45")
<b>Compliance</b>	ETX 3.0 (*2nd IDE optional)

### Items

- AMOS-3005 system
- Phoenix plug to DC jack
- Screw pack for mounting
- Screw pack for Mini PCIe card
- Rubber feet pack
- Thermal pad for mSATA module
- Thermal grease (0.5cc syringe)

VIA

# AMOS-3003

Compact fanless embedded system ruggedized for extreme environments

## Features

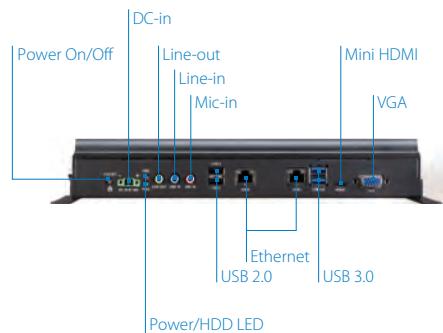

- 1.2GHz VIA Nano® X2 E-Series dual-core processor
- Wide input voltage range supporting 9V~30V DC-in
- Dual Gigabit Ethernet, optional Wi-Fi and dual 3G SIM card support
- Legacy I/O support including COM and GPIO
- Support for dual independent VGA + HDMI displays

## Specifications

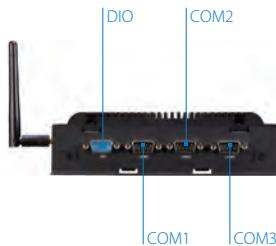

<b>Model Name</b>	<b>AMOS-3003</b>
<b>Processor</b>	1.2GHz VIA Nano® X2 E-Series CPU
<b>Chipset</b>	VIA VX11H Media System Processor
<b>BIOS</b>	AMI Aptio UEFI BIOS, 32Mbit Flash memory
<b>System Power Management</b>	ACPI 3.0 compliant, Wake-on LAN, keyboard power-on, timer power-on, system power management, AC power failure recovery, Watchdog Timer control
<b>System Memory</b>	1 DDR3 1333 SODIMM socket Up to 8GB memory size
<b>Storage</b>	Supports 1 2.5" SATA HDD/SSD 1 mSATA slot
<b>Graphics</b>	Integrated VIA Chrome® 640 DX11 3D/2D graphics with MPEG-2, WMV9, VC1 and H.264 video decoding acceleration
<b>Audio</b>	VIA VT2021 High Definition Audio Codec
<b>Display I/O</b>	1 Mini HDMI port 1 VGA port supporting VGA resolutions up to 2048 x 1536 pixels Dual independent VGA + HDMI display at different resolutions, pixel depths, and refresh rates
<b>USB</b>	2 USB 3.0 ports and 3 USB 2.0 host ports
<b>LAN</b>	VIA VT6130 PCIe Gigabit Ethernet controller Realtek RTL8111G PCIe Gigabit Ethernet controller Supports Wake On LAN (WOL) Supports Preboot Execution Environment (PXE) 11x5-pin header reserved to support VIA EMIO-1533 USB Wi-Fi module
<b>COM</b>	Fintek F81865
<b>Expansion I/O</b>	2 miniPCIe slots (supports 2 SIM slots) Supports optional Wi-Fi/3G modules Supports 3 external antenna for Wi-Fi, 3G module, and GPS module
<b>Back Panel I/O</b>	2 USB 3.0 ports 2 USB 2.0 ports 1 Mini HDMI port 1 VGA port 2 Gigabit Ethernet ports 3 Audio jacks: Line-out, Line-in and Mic-in 1 Power on/off button 1 Red LED for HDD activity 1 Green LED for power status 1 2-pole Phoenix DC jack
<b>Left Panel I/O</b>	1 DIO port for 8-bit GPIO 3 COM ports for RS-232/422/485 (powered by selectable 5V/12V)
<b>Power Supply</b>	9V ~ 30V DC-in (typical: 27W) Supports over voltage protection, over current protection, under voltage protection
<b>Operating System</b>	Windows 7, WES 7, Linux
<b>Watchdog Timer</b>	System reset; programmable 1-255 sec
<b>Mechanical Construction</b>	Aluminum mixed with heavy-duty steel with heat pipe embedded Aluminum top cover mixed with copper heat-pipe

<b>Graphics</b>	Integrated VIA Chrome®9 HD DX9 3D/2D graphics with MPEG-2, WMV9, VC1 and H.264 video decoding acceleration
<b>Audio</b>	VIA VT2021 High Definition Audio Codec
<b>Display I/O</b>	1 HDMI port 1 VGA port supporting VGA resolutions up to 1920 x 1200 pixels Dual independent VGA + HDMI display at different resolutions, pixel depths, and refresh rates
<b>USB</b>	6 USB 2.0 ports, including 2 lockable USB ports for secure connections
<b>LAN</b>	VIA VT6130 PCIe Gigabit Ethernet controller
<b>COM</b>	Integrated in VX900H
<b>Expansion I/O</b>	1 miniPCIe slot
<b>Front Panel I/O</b>	1 CFast Flash slot 2 USB 2.0 ports 2 COM ports for 1 RS-232 and 1 RS-232/422/485 1 DIO port for 8-bit GPIO 2 Lockable USB 2.0 ports 2 Audio jacks: Line-in and Mic-out 1 SIM card slot 1 Power on/off button 1 Red LED for HDD activity 1 Green LED for power status 1 2-pole Phoenix DC jack
<b>Back Panel I/O</b>	2 USB 2.0 ports 1 HDMI port 1 VGA port 2 Gigabit Ethernet ports 3 Antenna holes for 3G/Wi-Fi
<b>Power Supply</b>	12V DC-in (typical: 23W)
<b>Operating System</b>	Windows 7, WES 7, Linux
<b>Watchdog Timer</b>	System reset; programmable 1-255 sec
<b>Mechanical Construction</b>	Aluminum top chassis housing Metal chassis housing Dual removable front & rear metal face plate
<b>Mounting</b>	Wall/table/VESA mountable

**Front Panel External I/O****Back Panel External I/O****AMOS-3002 and Sub-system Chassis**

## Specifications

Model Name	AMOS-3002-1D10A1	AMOS-3002-2D10A1
Dimensions	197mm(W) x 49mm(H) x 104mm(D) (7.75" x 1.92" x 4.09")	197mm(W) x 66mm(H) x 104mm(D) (7.75" x 2.59" x 4.09")
Weight	1.4kg (3.08lbs)	1.8kg (4.02lbs)
Operating Temperature	-20°C ~ 60°C 0°C ~ 45°C when system equipped with 2.5" hard disk drive (AMOS-3002-2D10A1)	
Storage Temperature	-20°C ~ 70°C	
Operating Humidity	0% ~ 95% (relative humidity; non-condensing)	
Vibration Loading During Operation	With CFast Flash drive: 5Grms, IEC 60068-2-64, random, 5 ~ 500Hz, 1hr/axis	
Shock During Operation	With CFast Flash drive: 50G, IEC 60068-2-27, half size, 11ms duration	
Compliance	CE/FCC	

## Ordering Information

Part Number	CPU Frequency	Description
AMOS-3002-1D10A1	VIA Eden® X2 @ 1.0GHz	1.0GHz VIA Eden® X2 CPU based fanless embedded system with HDMI, VGA, 4 USB 2.0, 2 Lockable USB 2.0, 2 COM, DIO, 2 Gigabit Ethernet, CFast Flash slot, SIM card slot, miniPCIe slot, 12V DC-in
AMOS-3002-2D10A1	VIA Eden® X2 @ 1.0GHz	1.0GHz VIA Eden® X2 CPU based fanless embedded system with HDMI, VGA, 4 USB 2.0, 2 Lockable USB 2.0, 2 COM, DIO, 2 Gigabit Ethernet, 2.5" SATA HDD/SSD Bay, CFast Flash slot, SIM card slot, miniPCIe slot, 12V DC-in

## Optional Accessories

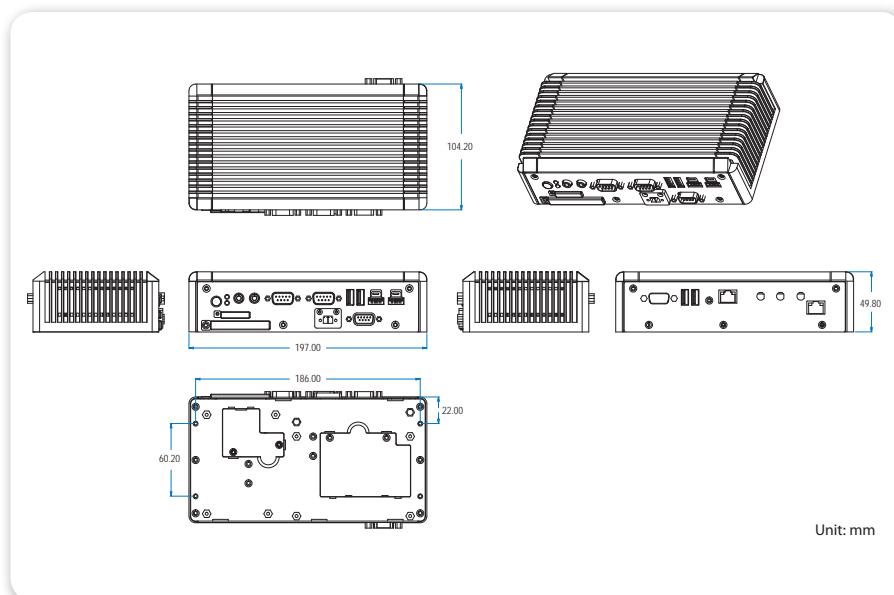

### External AC-to-DC Adapter and Power Cord

Part Number	Description
99G63-020316	AC-to-DC adapter, 2-pole Phoenix connector, DC 12V/5A, 60W
99G33-02032C	Power cord, 180cm, USA type
99G33-02033C	Power cord, 180cm, Europe type
99G33-02034C	Power cord with PSE mark, 180cm for Japan market

### Wireless Accessories

Part Number	Description
EMIO-1541-00A1	VNT9485 IEEE 802.11 b/g/n miniPCIe Wi-Fi module with assembly kit and antenna
EMIO-2550-00A1	3.75G HSPA/UMTS mobile broadband full size miniPCIe module with GPS

VIA

### ARTiGO A1300

Ultra-compact fanless system  
for mission-critical dual-  
display signage, HMI, and IoT  
applications

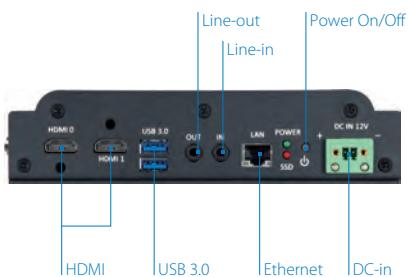

### Features

- Two HDMI ports with dual independent display support
- 1.0GHz VIA QuadCore E-Series processor and VX11PH media system processor
- Rich I/O features, including COM, Digital I/O, USB 2.0, and USB 3.0 ports
- Optional 3G and Wi-Fi modules
- VIA MagicView® content management software available

### Specifications

<b>Model Name</b>	<b>ARTiGO A1300</b>
<b>Processor</b>	1.0GHz VIA QuadCore E-Series
<b>Chipset</b>	VIA VX11PH Media System Processor
<b>BIOS</b>	AMI Aptio UEFI BIOS, 32Mbit Flash memory
<b>System Power Management</b>	Timer Power-On ACPI 3.0 compliant
<b>System Memory</b>	1 DDR3 1066/1333 SODIMM socket Up to 8GB memory size
<b>Storage</b>	Supports 1 2.5" SATA SSD/HDD 1 mSATA slot
<b>Graphics</b>	Integrated Chrome® 645/640 DX11 3D/2D graphics with MPEG-2, WMV9, VC-1 and H.264 video decoding acceleration
<b>Audio</b>	VIA VT2021 High Definition Audio Codec
<b>Display I/O</b>	2 HDMI ports supporting resolutions up to 1920 x 1080 pixels Dual independent HDMI displays at different resolutions, pixel depths, and refresh rates
<b>USB</b>	2 USB 3.0 ports and 2 USB 2.0 ports
<b>LAN</b>	Realtek RTL8111G Gigabit Ethernet controller Supports Wake-On-LAN and Boot from LAN (PXE)
<b>COM</b>	Fintek F71869
<b>Expansion I/O</b>	1 miniPCIe slot (PCIe + USB 2.0) 1 SIM card slot
<b>Front Panel I/O</b>	2 USB 3.0 ports 2 HDMI ports 1 Gigabit Ethernet port 2 Audio jacks: Line-in and Line-out 1 Power on/off button 1 Red LED for SSD activity 1 Green LED for power status 12-pole Phoenix DC jack
<b>Left Panel I/O</b>	2 USB 2.0 ports 1 COM port for RS-232/422/485 (powered by selectable 5V/12V) 1 DIO port for 8-bit GPIO 1 Blue LED for 3G 1 Blue LED for USB Wi-Fi 2 Antenna holes for 3G/Wi-Fi
<b>Power Supply</b>	12V DC-in (typical: 28W)
<b>Operating System</b>	Windows 8/7, WES 7, Linux
<b>Watchdog Timer</b>	System reset; programmable 1~255 sec
<b>Mechanical Construction</b>	Fanless Aluminum alloy
<b>Mounting</b>	VESA mount
<b>Dimensions</b>	185mm(W) x 44.4mm(H) x 162mm(D) (7.28" x 1.75" x 6.38")
<b>Weight</b>	2.0kg (4.4lbs) (without HDD)

**Front Panel External I/O****Left Panel External I/O**

## Specifications

<b>Model Name</b>	<b>ARTiGO A1300</b>
<b>Operating Temperature</b>	0°C ~ 45°C (SSD & mSATA) 0°C ~ 40°C (HDD)
<b>Storage Temperature</b>	-10°C ~ 60°C
<b>Operating Humidity</b>	0% ~ 90% (non-condensing)
<b>Vibration Loading During Operation</b>	With 2.5" SSD IEC 60068-2-64 (5Grms, random, 5 ~ 500Hz, 1hr/axis)
<b>Shock During Operation</b>	With 2.5" SSD IEC 60068-2-27 (50G, half size, 11ms duration)
<b>Compliance</b>	CE/FCC

VIA

# VIPRO VP7910

Fanless quad-core panel PC with 10.4" resistive or projective capacitive touch screen

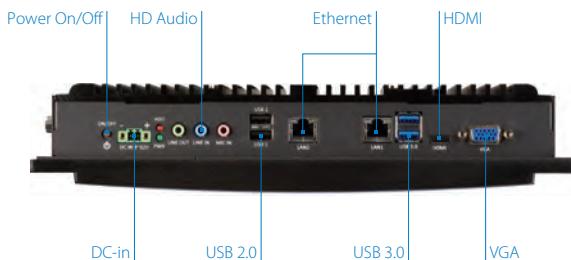

## Features

- Fanless VIA Eden® X4 quad-core processor
- Supports 5-wire resistive touch sensor or projective capacitive multi-touch
- Supports one mSATA and one hard disk drive bay
- Supports two miniPCIe slots and two SIM card slots for 3G/Wi-Fi communication
- Front panel IP65 compliant against water and dust

## Specifications

DC to DC Power Board

### Packing List

PWB-M120 power board

DC-in module

DC input power cable

### Ordering Information

Part Number	Description
10GPWB-M12020	120W DC-DC power board, voltage range from 12V~24V

### Expansion Modules

## PCIE-03

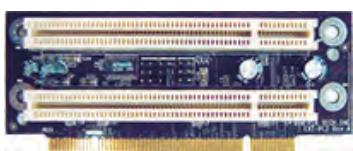

One PCIe and One PCI Riser Card

### Expansion Modules

## EXT-PCI

One to Two PCI Riser Card

### Features

#### ▪ Protection

Output Voltage Protection (Over Voltage Protection) OVP  
Output Current Protection (Output Short Protection)

Output Voltage Protection (Under Voltage Protection) UVP

#### ▪ Operating Temperature: 0 ~ 50°C

#### ▪ Operating Humidity: 0% ~ 95% (non-condensing)

#### ▪ Dimensions: 150mm x 51mm

#### ▪ Compatible models: EPIA-M920, M910, M900, M860, VB7009

#### ▪ DC Input

Input	Minimum	Nominal	Maximum	
Voltage	11.4V~22.8V	12V~24V	12.6 V~25.2V	
Current		5.42A~10.84A		

#### ▪ DC Output Voltage

Output	Minimum	Nominal	Maximum	Maximum Combined Power
+5V_SB	4.75V	5V	5.25V	
+3.3V	3.14V	3.3V	3.47V	
+5V	4.75V	5V	5.25V	122.2W
+12V	11.4V	12V	12.6V	
Power Good	4.75V	5V	5.25V	

#### ▪ DC Output Current

+5V_SB	+3.3V	+5V	+12V	-12V	Power Good	Maximum Combined Power
2A	6A	6A	5A	200mA	0.1A	122.2W

### Features

#### ▪ PCI and PCIe riser card to support one 1-lane PCIe slot and one PCI slot

#### ▪ Compatible models: EPIA-M860, M910

#### ▪ Dimensions: 131.58mm x 51.3mm

### Packing List

PCIE-03 module

### Ordering Information

Part Number	Description
10GU800000020	PCI & 1-lane PCIe riser card

### Features

#### ▪ Supports one to two PCI riser card

#### ▪ Compatible models: EPIA-M910, M900, M860, VB7009

#### ▪ Dimensions: 112mm x 46mm

### Packing List

EXT-PCI module

### Ordering Information

Part Number	Description
10GEXT-PCI101	One to two PCI riser card

## x86 Board Accessories

### Expansion Modules

## LPC-04

Expansion Module for Two or Four RS-232/422/485 Ports (5V or 12V)

### Expansion Modules

## LPC-02

Expansion Module for Two RS-232 Ports and Two RS-232/422/485 Ports (5V or 12V)

### Expansion Modules

## LPC-01

Expansion Module for Four RS-232 Ports (5V or 12V)

### Features

- Expansion module for two or four COM ports (5V or 12V)
- 4 COM ports (COM1 ~ COM4) are selectable for RS-232/422/485
- Multiple GPIO support
- **Compatible models:** EPIA-P910, P900, M920, M910, VB7009
- **Dimensions:** 100mm x 60mm

### Packing List

LPC-04 module (LPC-04R2 or LPC-04R4)

LPC cable (for specific SKU)

### Ordering Information

Part Number	Description
10GZ300030020	LPC-04R2 expansion module for two COM ports (5V or 12V)
10GZ300020020	LPC-04R4 expansion module for four COM ports (5V or 12V)

### Features

- Expansion module for four COM ports (5V or 12V)
- COM1 & COM2 are selectable for RS-232/422/485, and COM3 & COM4 are dedicated for RS-232
- **Compatible models:** EPIA-P910, P900, M920, M910, VB7009
- **Dimensions:** 100mm x 60mm

### Packing List

LPC-02 module

LPC cable (for specific SKU)

### Ordering Information

Part Number	Description
10GC600010020	Expansion module for four COM ports (5V or 12V)

### Features

- Expansion module for four COM ports (5V or 12V)
- **Compatible models:** EPIA-P910, P900, M920, M910, VB7009
- **Dimensions:** 100mm x 40mm

### Optional

LPC Cable

### Packing List

LPC-01 module

LPC cable (For specific SKU)

### Ordering Information

Part Number	Description
10GLPC0012020	Expansion module for four COM ports (5V or 12V)

## Wireless Modules

**VNT9271/EMIO-1533**

IEEE 802.11b/g/n USB Wi-Fi Module / Dongle

## Wireless Modules

**EMIO-1541**

IEEE 802.11b/g/n mini PCIe Wi-Fi Module

## Features

- **Controller chip:** Atheros AR9271
- Compatible with IEEE 802.11b/g/n standards
- Operation at 2.4 ~ 2.5GHz frequency band to meet worldwide regulations
- Supports 802.11e WMM (Wi-Fi multimedia QoS standard)
- Maximum reliability, throughput and connectivity with automatic data rate switching
- Supports infrastructure networks via access point and ad-hoc network via peer-to-peer communication
- Supports WEP, WPA, WPA2 and 802.1X security mode
- Drivers support for Android, Linux, Windows 8.1/8/7
- **Dimensions:** module: 17mm x 35mm; dongle: 16.2mm x 35mm
- **Compatible models:** Supported by both ARM and x86 platforms with USB interface

## Ordering Information

Part Number	Description
00GO27100BU2B0D0	VNT9271BU0DB IEEE 802.11b/g/n USB Wi-Fi dongle
EMIO-1533-00A2	VNT9271 IEEE 802.11 b/g/n USB Wi-Fi module with assembly kit

## Packing List

VNT9271 dongle	EMIO-1533-00A2
	USB cable
	Wi-Fi antenna
	Wi-Fi antenna cable & screw pack

## Features

- **Controller chip:** Atheros AR9485
- Compatible with IEEE 802.11b/g/n standards
- Operation at 2.4 ~ 2.5GHz frequency band to meet worldwide regulations
- Supports 802.11e WMM (Wi-Fi multimedia QoS standard)
- Driver support for Android, Linux, Windows 8/7
- **Dimensions:** 30mm x 26.8mm
- **Compatible models:** Supports both ARM and x86 platforms with miniPCIe interface

## Ordering Information

Part Number	Description
EMIO-1541-00A1	VNT9485 IEEE 802.11b/g/n miniPCIe Wi-Fi module with assembly kit and antenna

## Packing List

EMIO-1541	
Wi-Fi antenna	
Wi-Fi antenna cable & screw pack	
SCREW pack for miniPCIe card	

## Mobile Broadband Modules

**EMIO-2550**

3G HSPA/UMTS miniPCIe Mobile Broadband Module

## Features

- 3.75G UMTS/HSPA+ module
- Worldwide WCDMA(UMTS 800/850/900/1700/1900/2100 MHz) and GPRS/EDGE coverage (GSM 850/900/1800/1900 MHz)
- HSDPA up to 21.1 Mb/s, HSUPA 5.76 Mb/s
- Integration GPS/GNSS and A-GPS module (EMIO-2550-00A1 only)
- Integrated SIM card slot (EMIO-2550-00A1 only)
- Driver support for Android, Linux, Windows 8/7
- **Dimensions:** 30mm x 51mm
- **Compatible models:**
  - **ARM:** AMOS-820, ARTiGO A900, ARTiGO A820, ARTiGO A600, VAB-1000, VAB-820, VAB-821, VAB-600, QSM-8Q60
  - **x86:** AMOS-3005, AMOS-3003, AMOS-3002, ARTiGO A1300, VIPRO VP7910

## Ordering Information

Part Number	Description
EMIO-2550-00A1	3.75G HSPA/UMTS mobile broadband full size miniPCIe module with GPS and SIM slot
EMIO-2550-01A1	3.75G HSPA/UMTS mobile broadband full size miniPCIe module
EMIO-2550-02A1	3.75G HSPA/UMTS mobile broadband full size miniPCIe module for DoCoMo (Japan only)
EMIO-2550-03A1	3.75G HSPA/UMTS mobile broadband full size miniPCIe module for SoftBank (Japan only)

## Packing List

Mobile broadband module
3G antenna
3G antenna cable
Screw pack for miniPCIe card
GPS antenna (only for EMIO-2550-00A1)
GPS antenna cable (only for EMIO-2550-00A1)
