BenQ ecoFACTS

BenQ has been dedicated to the design and development of greener product as part of its aspiration to realize the ideal of the “Bringing Enjoyment 'N Quality to Life” corporate vision with the ultimate goal to achieve a low-carbon society. Besides meeting international regulatory requirement and standards pertaining to environmental management, BenQ has spared no efforts in pushing our initiatives further to incorporate life cycle design in the aspects of material selection, manufacturing, packaging, transportation, using and disposal of the products. BenQ ecoFACTS label lists key eco- friendly design highlights of each product, hoping to ensure that consumers make informed green choices at purchase. Check out BenQ's CSR Website at <http://csr.BenQ.com/> for more details on BenQ's environmental commitments and achievements.

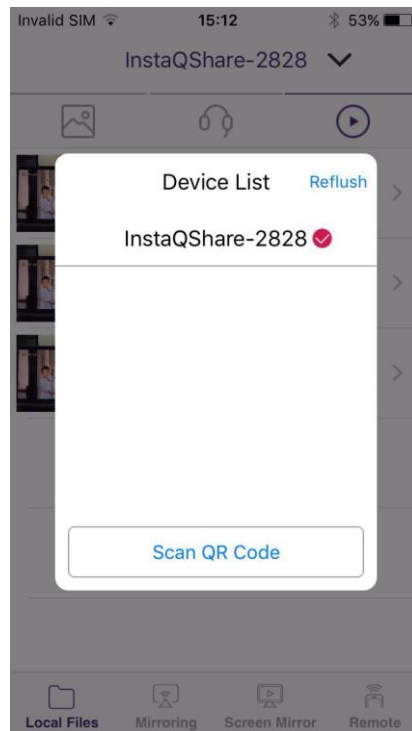

1. Install InstaQShare to iOS Device

Open App Store on the iPhone or iPad, search “InstaQShare”, and install InstaQShare for iPhone/iPad.

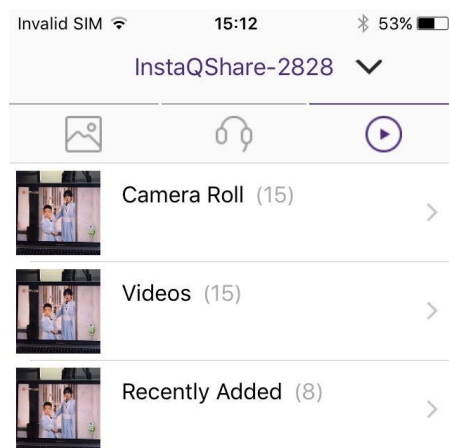

2. Connect to the large display

Upon completion of installation, launch "InstaQShare" in your phone, and it will automatically search large display devices in the same network. On the device list, click on the name of the device you want to connect to. You can also click "Scan QR Code" and scan the QR code displayed on the large display to connect.

3. Share files to large display

Click on any file (including video, picture, office document, PDF, e-book, and so on) in your phone or pad, it will be played or shown on your large display.

4. Wireless mirroring

Click on the “Mirroring” button in InstaQShare client, the screen will be mirrored to your large display.

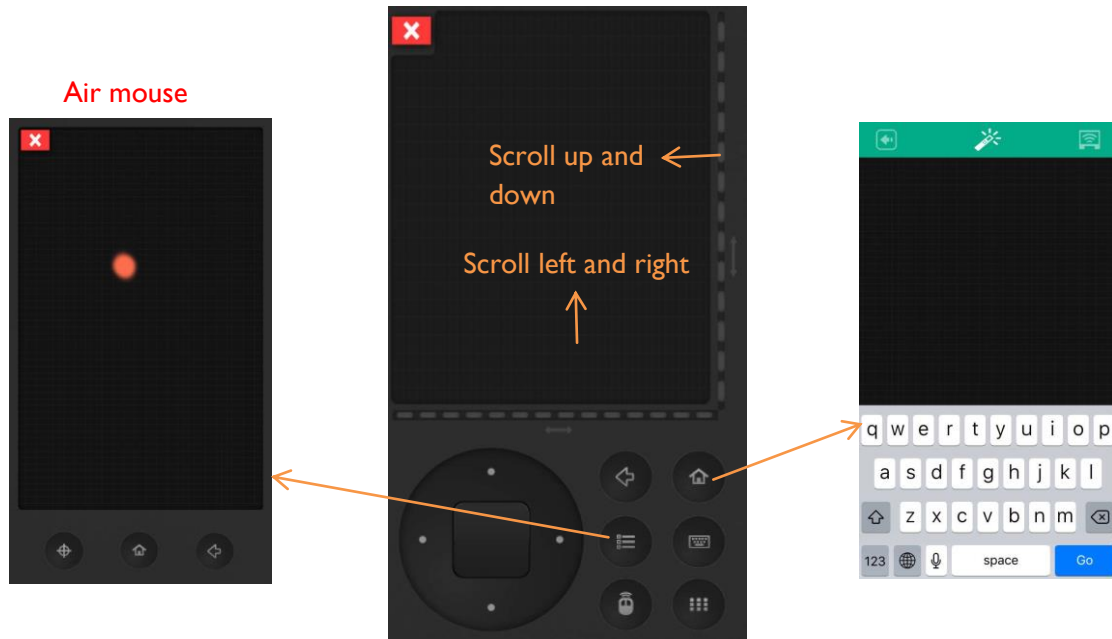

5. TV Mirror

With "TV Mirror" feature, you can mirror the screen of the large display to android device and touch directly to control it, just like you are touching on your large display. Click the button on the right side to open the tool bar, as shown in the following diagram.

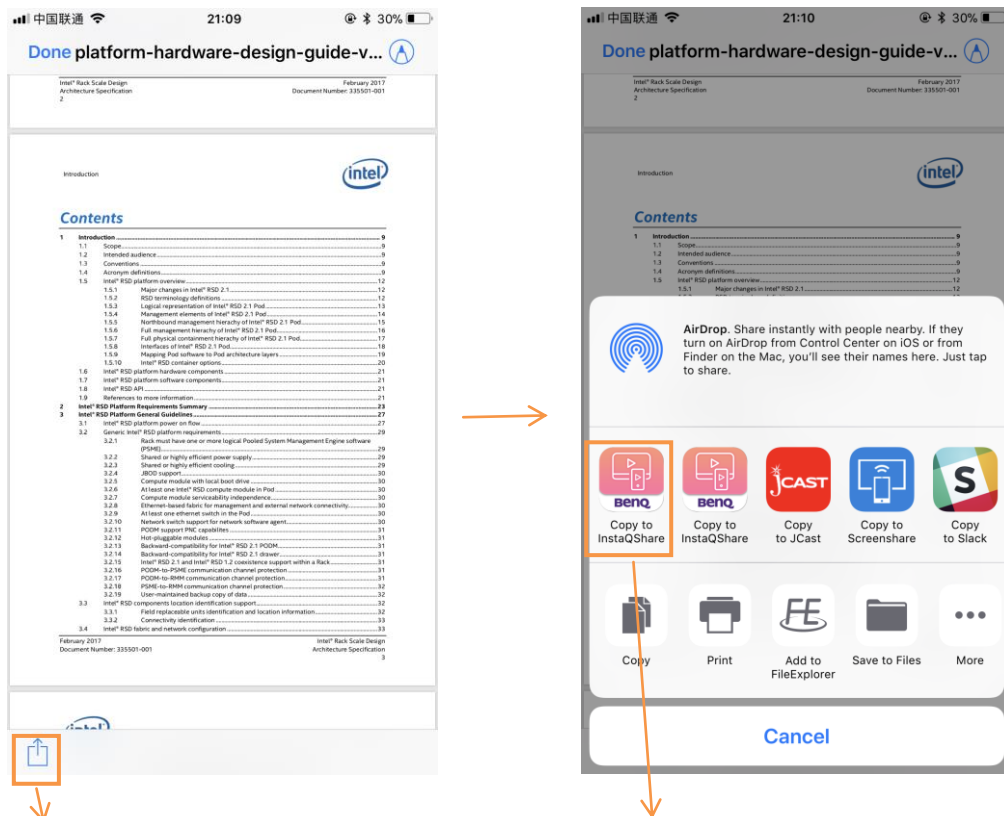

6. Remote Control

You can use your phone as a touch mouse, air mouse, keyboard, touch pad and remote controller of the large display.

7. Share files to the large display from other Apps

In other applications, you can share files via InstaQShare to the large display.

In Mail, Photos, Safari and other applications, click on the share button.

Select "Copy to InstaQShare" on the list to share the contents to the large display.

You can also share files to the large display via other client apps which support DLNA.
