

DII
**SECURITY
SAFEGUARD**
Custom Coverage for Physical
& Premises Security Companies

Specialized insurance coverage for the security, alarm, & private investigation industries.

Security companies present a specific insurance profile that requires cost-effective yet comprehensive coverage. In this business, new risk comes from all directions, and companies need to be prepared.

Properly managed risk coverage makes security companies more profitable in several ways. First of all, companies are protected during an insurable event in a meaningful way. Additionally, a correctly balanced Insurance portfolio also makes company more attractive to the marketplace, which helps secure new business and receive better terms and pricing from vendors.

DII adds benefits to clients beyond insurance to help security companies operate at maximum cost efficiency while enticing their employees with cost-effective benefits.
