The Right Choice

Goodman® brand — The right choice for millions and millions of people

For over three decades, the Goodman® brand has concentrated on something more important than simple brand-recognition consumer advertising. And that's the design, engineering, and manufacture of dependable products that have helped millions and millions of homeowners achieve reliable, high-quality, and affordable indoor comfort. In addition, the Goodman brand has earned the loyalty and respect of thousands of local independent heating and cooling professionals across North America.

We believe that you, a local HVAC (Heating, Ventilation and Air Conditioning) professional, knows best about the specific indoor comfort needs and indoor air quality solutions of your customers. When you recommend a Goodman brand product, rest assured that customer will soon be receiving great indoor comfort, at a refreshingly affordable price.

Making the grade

And as further proof that the Goodman brand is making the grade with satisfied homeowners, it was awarded the A+ rating by the Better Business Bureau, is the highest rating possible.

Time-tested performance

The efficient movement of heat is a basic premise of the HVAC industry. Whether it's the removal of heat in conjunction with cooling products or the creation of heat for warmth, the HVAC world revolves around the thermodynamics of heat transfer. As you may know, the Goodman brand is recognized as a heat transfer expert. Investing in research and development is integral to the Goodman brand's success.

Goodman products offer a wide array of unique product features and enhancements that reinforce the durability and reliability of the entire Goodman brand product line, such as:

- A unique tubular gas furnace heat exchanger with a design that brings new meaning to durability;
- High-efficiency air conditioners and heat pumps with the Goodman brand's patented SmartCoil™ condensing coil – our most advanced 5mm copper tube and aluminum fin combination available;
- ComfortNet™ Communicating Control systems that help high-efficiency systems run their best and offer homeowners new levels of control and operational precision;
- Unique all-aluminum evaporator coils;
- Heat pumps that include more standard features than previous models

Committed to quality

There's good reason that thousands of the nation's HVAC professionals recommend the Goodman brand. Dealers are completely comfortable that Goodman brand products will keep their customers satisfied and enhance their reputation. Goodman brand manufacturing facilities are ISO 9001-certified, an independent standard accepted worldwide as the benchmark for quality manufacturing and management processes, and ISO 14001-certified, an international environmental certification.

Goodman is focused on a few basic goals: build more reliable, longer-lasting products than anyone else; make durable cooling and heating products and systems as affordable as possible and design everything for quick, trouble-free installations. Those values have led the Goodman brand this far and they will lead it into the future.

Efficiency Changes for 2015

New U.S. Department of Energy (DOE) minimum efficiency standards go into effect on January 1, 2015. We have been preparing for this for some time and the purpose of this flyer is to make sure you are prepared as well. While the change from 13 SEER to 14 SEER may not seem as significant as the change from 10 SEER to 13 SEER back in 2006, this change is different—it's more complicated. The complication is new regional standards that apply to Split System and Packaged Air Conditioners. The new efficiency standards contain both national standards (which are based on date of manufacture) and regional standards (which are based on date of installation):

New National Standards

- Split system heat pumps (14 SEER / 8.2 HSPF)
- Single packaged gas/electric (14 SEER / 81% AFUE)
- Single packaged heat pumps (14 SEER / 8.0 HSPF)
- Single packaged air conditioner (14 SEER)
- Gas-fired furnaces (80% AFUE)
- Kept 13 SEER base national standard for split system air conditioners

Labeling

There will be two methods to help identify products subject to regional standards. The first is the Energy Guide label that is noticeably different, with the inclusion of the map of the United States that identifies where the equipment can be installed.

The second is a new, separate statement that will be on the rating plate or on a label next to the rating plate called the "Install Prohibited" statement. All products manufactured on or after 1/1/2015 that are subject to the new regional efficiency standards will have both the new Energy Guide label and the Install Prohibited label, except for ductless products that will initially only have the new Energy Guide label. Ductless products will have the Install Prohibited label added at a later date.

You will also notice a range on the new Energy Guide label for Split Systems. Split System products subject to the new regional efficiency minimum standard of 14 SEER will have a range above 14 SEER and will not have an AHRI match below the 14 SEER minimum.

Energy Guide Labels
Effective January 1, 2015
Subject to regional standards.
Can be installed anywhere.

IMPORTANT NOTE:

The information provided is a summarized overview and is not intended to provide a complete description of the new DOE 2015 Regional Standards. As additional information regarding the new DOE 2015 HVAC Regional Standards and the enforcement of these standards becomes available, we will make that information available at www.goodmanmfg.com/standards.

Sell-through grace period

Due to the late introduction of the enforcement mechanisms, the DOE is providing an 18-month sell-through period for products manufactured before 2015. This is summarized in the table below:

Product Type	Date of Manufacture	Installation Allowed in Region?		
		Northern	Southeast	Southwest
13 SEER Split AC	Before 1/1/2015	Yes	Until 6/30/2016	Until 6/30/2016
	On or after 1/1/2015	Yes	NO	NO
14 SEER Split AC with Standard EER ¹	Before 1/1/2015	Yes	Yes	Until 6/30/2016
	On or after 1/1/2015	Yes	Yes	NO
14 SEER Package AC with Standard EER ²	Before 1/1/2015	Yes	Yes	Until 6/30/2016 ³
	On or after 1/1/2015	Yes	Yes	NO

¹ This includes any split system air conditioner having a SEER rating greater than or equal to 14 SEER with an EER less than 12.2 (for capacity <45,000 Btu/h) or less than 11.7 (for capacity ≥45,000 Btu/h).

² This includes any single package air conditioner or single package gas/electric model having a SEER rating greater than or equal to 14 SEER with an EER less than 11.00.

³ 13 SEER single package equipment is included in this category.

What you need to know as a distributor

DOE defines a distributor as “a person (other than a manufacturer or retailer) to whom a consumer product is delivered or sold for purposes of distribution in commerce.” Therefore, if you resell products for sale other than to an end user, you may be considered a distributor as opposed to a contractor or dealer (see definitions below).

While the new DOE 2015 HVAC Regional Standards Enforcement rules have not been finalized, distributors will be required to comply with new requirements, which are expected to include:

1. Do not knowingly sell product that will be installed in violation of regional standards.
2. Conduct regional standards training for all employees and customers.
3. Effective 11/30/2015, maintain records for all units subject to the regional standards for a period of 54 months. These records are to include the outdoor unit manufacturer, model number, serial number, date of purchase, date of sale, customer name and delivery address if delivered.
4. Report any known violations to the DOE.

What you need to know as a contractor/dealer

As a contractor or dealer, you will also be required to adhere to requirements of the new DOE 2015 HVAC Regional Standards Enforcement Rules. We expect that DOE will define a contractor as “a person (other than the manufacturer or distributor) who sells to and/or installs for an end user a central air conditioner subject to regional standards.” We also expect that DOE will define a dealer as “a type of contractor, generally with a relationship with one or more specified manufacturers.” The contractor/dealer requirements are expected to include the following:

1. Do not knowingly install product that is in violation of regional standards.
2. Conduct regional standards training for all employees.
3. Maintain records for all units subject to the regional standards for a period of 48 months. These records are anticipated to include the indoor and outdoor unit manufacturer and model number, outdoor unit serial number, distributor purchased from, plus date and address of installation.
4. Report any known violations to the DOE.

Enforcement

Enforcement of the new standards will be at least partially via complaints registered with the DOE. DOE will have an email set up for reporting violations directly to them. In addition, suspected violations can be reported to us by email at compliance@goodmanmfg.com or by phone, toll free, at (844) 717-8521.

Complaints may come from upset homeowners, local inspectors, or contractors. It is also possible for manufacturers to discover installation violations through product registrations, warranty claims and service records. If we are made aware of a violation, we will report it to DOE and notify the appropriate distributor and contractor/dealer.

All verified violations will require remediation and can result in stiff fines. Notices of Violation will be posted publicly by the DOE. Further, if a distributor or contractor/dealer is found to routinely violate the new standards, manufacturers can be prohibited from selling products to that party.

Contractors, dealers and distributors should be aware that the DOE may request copies of documentation proving product sales and installations are in compliance. Records requested by DOE must be provided within 30 days.

Training

A recorded webinar providing details about the new efficiency standards is available for viewing at www.goodmanmfg.com/standards. Questions about the new efficiency standards can be emailed to RegionalStandardsQuestions@goodmanmfg.com.

The ComfortNet™ Communicating Control System continuously monitors itself and your system. If it senses a problem developing, the control's home screen display will indicate "Call for Service" and CHECK (i.e., Furnace Heat Pump, Air Conditioner, Air Handler) to identify an equipment fault. This alert prompts you to contact a qualified service technician.

The SmartShift® Heat Pump Defrost Control helps to increase compressor reliability and reduces the noise level during the heat pump system defrost cycle. When outdoor temperatures fall below freezing and the heat pump is forced to initiate a defrost cycle, SmartShift simply turns off the compressor for 30 seconds allowing the system pressure to equalize and then it restarts the compressor. This seamless operation is triggered automatically eliminating unwanted noise caused by heat pump defrost changeover cycles.

At the core of our newly designed Air Handlers is the SmartFrame™ inner skeleton. It adds lateral stability to the chassis, provides a mounting location for all internal components, and provides additional insulation retention. Our unique insulation retention solution eliminates all adhesives from the cabinet insulation, which is secured through mechanical means by the SmartFrame sub-structure and additional retaining rods strategically placed near the blower assembly.

The All Aluminum evaporator coil is constructed from aluminum tubing, fins and panels to give you a single metal solution for outstanding, time-tested heat transfer performance properties. If you're looking for an evaporator coil that offers enhanced performance (as tested in Goodman labs), this is the product for you.

Product Features

- High-efficiency scroll compressor
- SmartShift® Defrost technology with short-cycle protection
- High-density foam compressor sound blanket
- Factory-installed bi-flow liquid-line filter drier
- Factory-installed suction-line accumulator
- Factory-installed compressor crankcase heater
- Factory-installed high-capacity muffler
- High- and low-pressure switches
- Copper tube/ enhanced aluminum fin coil
- Louvered sound control top design
- Steel louver coil guard
- Heavy-gauge galvanized-steel cabinet
- Attractive Architectural Gray powder-paint finish with 500-hour salt-spray approval
- AHRI Certified; ETL Listed

Product Features

- Multi-position installation:
upflow, horizontal left or right
- ComfortNet™ communicating systems compatible
- Heavy-duty aluminized-steel tubular heat exchanger
- Stainless-steel secondary heat exchanger
- Self-calibrating modulating gas valve auto-configured for each installation
- Durable silicon nitride igniter
- Quiet variable-speed induced draft blower
- Self-diagnostic control board with constant memory fault code history output to a dual 7-segment display
- Color-coded low-voltage terminals with provisions for electronic air cleaner and humidifier
- Efficient and quiet variable-speed airflow system gently ramps up or down according to heating or cooling demand
- Multiple continuous fan speed options offer quiet air circulation
- Auto-comfort and enhanced dehumidification modes available

Goodman Manufacturing Company, L.P. reserves the right to discontinue, or change at any time, specifications or designs without notice or without incurring obligations.

* Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 10-Year Unit Replacement Heat Exchanger Limited Warranty, and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Installation position:
GMH8: upflow, horizontal left or right
GDH8: dedicated downflow
- Dual-diameter tubular heat exchanger
- Durable silicon nitride igniter
- Electronic control board with self-diagnostics
- Run-tested at factory prior to shipment
- Two-stage gas valve
- Corrosion-resistant vent blower
- Powder-paint finish
- Fully insulated cabinet
- Electronic ignition control with DualSaver™ technology
- Convenient left or right connection for gas and electric service

Product Features

- Multi-position installation:
GMS8/GHS8- upflow, horizontal left or right
GDS8- Dedicated downflow
- Aluminized-steel dual-diameter tubular heat exchanger
- Corrosion-resistant blower
- Powder-paint finish
- Quiet, efficient hot surface igniter
- Fully insulated cabinet
- Quiet multi-speed direct-drive circulator blower motor
- Electronic ignition control
- Quiet single-speed, induced-draft blower
- Run-Tested at factory prior to shipment

Product Features

- Energy-efficient compressor with internal relief valve
- Multi-speed ECM indoor blower motor
- Quiet horizontal discharge
- All-aluminum evaporator coil
- Copper tube / aluminum fin condenser coil
- Totally enclosed, permanently lubricated condenser fan motor
- 5 kW to 20 kW electric heat kit available as a field-installed option
- Heavy-gauge galvanized-steel cabinet with attractive Architectural Gray powder-paint finish
- Fully insulated blower compartment has convenient access panels
- Cabinet air leakage less than 2.0% at 1.0 inch H₂O when tested in accordance with ASHRAE standard 193
- Cabinet air leakage less than 1.4% at 0.5 inch H₂O when tested in accordance with ASHRAE standard 193
- Louvered condenser coil protection
- AHRI Certified; ETL listed

* Complete warranty details available from you local dealer or at www.goodmanmfg.com. To receive the 20-Year Heat Exchanger Limited Warranty and the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Durable, corrosion-resistant aluminized-steel tubular heat exchanger
- Energy-efficient compressor
- Multi-speed ECM blower motor
- All-aluminum evaporator coil
- Aluminum tube / aluminum fin coil
- Power-assisted combustion
- Two-stage gas valve with easy conversion to propane
- Direct spark ignition system includes a microprocessor-based control for the entire ignition sequence
- High-quality UV-resistant powder-paint finish
- Cabinet air leakage less than 2.0% at 1.0 inch H₂O when tested in accordance with ASHRAE standard 193
- Cabinet air leakage less than 1.4% at 0.5 inch H₂O when tested in accordance with ASHRAE standard 193
- Horizontal or downflow application
- Fully insulated cabinet
- All models comply with California 40ng/J Low NOx standards
- AHRI Certified; ETL Listed

Product Features

- Combines cooling with heat pump and gas heating for optimal year-long performance
- High-efficiency scroll compressor
- Heavy-duty stainless-steel heat exchanger
- Multi-speed ECM indoor blower motor
- All-Aluminum evaporator coil
- Copper tube/aluminum fin coil
- Two-stage gas valve with easy conversion to propane using an accessory kit
- Power-assisted combustion
- Loss-of-charge protection
- Direct spark ignition system includes a microprocessor-based control for the entire ignition sequence
- All blower operation and all safety circuits complete with self-diagnostics
- Fully insulated heavy-gauge, zinc-coated steel cabinet with UV-resistant powder-paint finish
- Compressor sound blanket
- Louvered metal panel condenser coil protection
- Horizontal or downflow application
- Cabinet air leakage less than 2.0% at 1.0 inch H₂O when tested in accordance with ASHRAE standard 193
- Cabinet air leakage less than 1.4% at 0.5 inch H₂O when tested in accordance with ASHRAE standard 193
- All models comply with California 40ng/J Low NO_x emission standards
- AHRI Certified; ETL Listed

Product Features

- 1.5- to 5-ton blower capacities
- All-aluminum evaporator coil
- Direct-drive, multi-speed motor allows air volume variation for heating/cooling
 - Multi-speed ECM: AWUF19, 25, 31, 32, 37
 - Multi-speed PSC motor: AWUF18, 24, 30, 36
- Factory-installed filter rack
- Field-installed electric heat from 3-25 kW
- Foil-faced insulation
- Multiple airflow positions
- AHRI certified; ETL listed

Product Features

- 1.5- to 5-ton blower capacities
- All-aluminum evaporator coil
- Direct-drive, multi-speed motor:
EEM motor — ACNF25, ACNF31
PSC motor — ACNF18, ACNF24, ACNF30
- Nickel chromium heating elements of 5, 6, 8 and 10 kW
- Multiple airflow positions
- AHRI certified; ETL listed

Goodman Company, L.P. reserves the right to discontinue, or change at any time, specifications or designs without notice or without incurring obligations.

* Complete warranty details available from you local dealer or at www.goodmanmfg.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Upflow/Downflow configuration
- All-aluminum coil receives finished pressure testing for leaks
- Tube and fin coil construction offers heat transfer efficiency
- Grooved aluminum tubing offers increased surface area for better heat transfer
- Helium pressure-tested during construction
- Aluminum-lanced sine fin design for optimum heat transfer
- Thick-walled aluminum tubing provides extra strength
- Copper coil stud connects copper liquid suction lines
- AHRI certified; ETL listed

Controls and Thermostats

The ComfortNet™ brand CTK04 touchscreen digital control works with Goodman® brand ComfortNet-ready heating and cooling systems in both residential and commercial applications.

Product Features

- Advanced modulation control
- Adjustable heat pump balance point
- Adjustable auxiliary heat lock-out
- Adjustable continuous four-speed fan
- Full color display
- Commercial / residential selection option
- On-board dehumidification capability
- Humidification control
- Humidifier type selection (with Honeywell TrueSTEAM)
- Wireless humidification option (with RedLINK outdoor sensor)
- Window frost / condensation protection (with RedLINK outdoor sensor)
- Southern dehumidification control
- Multiple commercial dehumidification options
- Indoor temperature averaging (with RedLINK indoor sensor(s))
- Device naming option
- Outdoor temperature display
- Outdoor humidity display (with RedLINK outdoor sensor)
- Wireless accessory capability
- Multi-lingual (English, French, Spanish)
- Air filter maintenance reminder
- UV lamp maintenance reminder
- Humidifier pad maintenance reminder
- Electronic air cleaner maintenance reminder
- Continuous backlight
- Adjustable backlight & contrast
- Temperature display adjustment
- Humidity display adjustment
- Temperature display °F or °C
- Max. heat & min. cool set-point temperatures
- Max./min. temperature / humidity alerts
- User interaction log (historical)
- Advanced staging control
- Heat and cool cycle rate adjustable
- Energy management recovery
- Internet access
- Home-screen theme options
- Customizable home screen
- Keypad lock-out options
- Auto-display dimming option
- Dealer information capability
- USB upload dealer information & set-up

* Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the 10-Year Control Limited Warranty, the control must be installed in conjunction with a new furnace or air handler containing a communicating system that is compatible with the control and, if that furnace/air handler is a Goodman® or Amana® brand unit, that furnace/air handler must have been registered online within 60 days of installation of the furnace/air handler. Failure by Quebec or California residents to have registered a Goodman or Amana brand furnace/air handler does not diminish their warranty rights.

ComfortNet™ Family of Products

- Air Conditioners: DSXC18, DSXC16
- Heat Pumps: DSZC18, DSZC16
- Gas Furnaces: GMVM96, GCV86, GMVC95, GCVC95, GMVC8
- Air Handlers: AVPVC, AVPTC, MBVC

Product Features

- Built-in WiFi with downloadable remote control apps
- Customizable wallpaper and slide show
- Built-in nature and holiday wallpaper themes
- Customizable service alerts
- “Simple as you want” operation with easy-to-read display
- TouchScreen assistant for fast and easy programming
- SD memory card for easy importing and exporting of thermostat data, including copying data between thermostats
- At-a-glance screen lets users see temperature and heating/cooling status
- Programmable fan and night-time dimmer
- 7-Day programmable scheduler
- Switchable programmable or non-programmable
- Up to 4 heat & 2 cool stages
- Automatic daylight savings adjustments
- 7-Day energy usage graph
- Passcode security for screen lock and set-point limits
- Multiple languages: English, Spanish, and French
- Gas/electric or heat pump control
- Universal compatibility including dual fuel

Daikin
Ductless

DAIKIN Ductless Systems

15 Series — 15 SEER / Up to 12.2 EER / 8.2 HSPF

High-Efficiency Wall-Mounted Units

Daikin 15 Series wall-mounted units use the latest technology combined with advanced engineering and design to make them ideal for any room in the house. Blending easily with the interior décor and providing quiet operation, these units provide optimal climate control throughout the year.

DUCTLESS Single Split Wall-Mounted Heat Pump and Cooling-Only Systems - Variable Speed

Designed for Comfort for Life, Daikin Series units include advanced features to ensure a comfortable experience every moment. From the wide angle louver design to the auto-swing and comfortable mode controller settings, effective heating and cooling is ensured throughout the space. These Daikin brand heat pumps and air conditioners are designed to blend in discreetly with any home design and are ideal for single rooms, enhancements and additions up to 1,500 square feet.**

** Equipment selection should always be based on detailed load calculation performed by a qualified technician.

Comfort Features

- **Energy Efficient** – 15 SEER, 8.2 HSPF and up to 12.2 EER for ultra-efficient cooling and heating operation and reduced operating costs compared to conventional lower-efficiency systems. Heat Pump and Air Conditioning models available with capacity ranges from: .75–2 tons, sizes: 09, 12, 18, 24k BTU/h.
- **Undisturbed Comfort** – Indoor and outdoor units offer exceptionally low sound levels as low as 49 dbA outdoors and as low as 19 dbA indoors.
- **Advanced Filtration** – Long life, washable filters remove a wide range of airborne particles and decompose odors, such as those from cooking, painting, smoking and other sources.
- **Wireless Remote Control** – Hand held remote for automatic airflow adjustment eliminates the need for manual duct adjustments.

Standard Features

- Inverter Compressor
- Cooling Range 50°–115° F
- Heating Range 5°–75° F
- Indoor Sound Pressure as Low as 19 dB(A)
- Outdoor Sound Pressure as Low as 46 dB(A)
- Washable Air Filter
- Program Dry Function
- Econo Mode
- Powerful Operation Mode
- 208/230/1 Power Supply
- Wireless Remote Controller
- Outdoor Unit Quiet Operation
- Auto Changeover (Heat Pump Only)
- Auto Fan Speed Control
- Self Diagnostics with Digital Display
- Auto Restart after Power Failure
- Anti-Corrosion Heat Exchanger Treatment
- Max Piping (09/12 MBH): 66' L, 49' H
- Max Piping (18/24 MBH): 98' L, 66' H
- Precharged for up to 33 ft of Liquid Line

Ideal Solution For

- Renovations, remodeling and new construction
- Sun rooms, basements, attics, garages, hot or cold rooms, and more

Comfortable Limited Warranty* Protection

*Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

* Applicable to heat pump models only ** Cutting a jumper is required. Refer to installation manual.

ENERGY STAR® and the ENERGY STAR mark are registered trademarks owned by the U.S. Environmental Protection Agency. ENERGY STAR products are third-party certified by an EPA-recognized Certification Body. Products that earn the ENERGY STAR prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

LV Series — Up to 24.5 SEER/Up to 12.5 HSPF

Wall-Mounted Units

Comfort Features

- Energy Efficient – Up to 24.5 SEER, 12.5 HSPF and 15.1 EER
- Offers ultra-efficient cooling and heating operation and exceptional savings on utility bills compared to conventional lower-efficiency systems.
- Advanced Filtration – Long life, washable filters remove a wide range of airborne particles and decompose odors, such as those from cooking, painting, smoking and other sources.
- Wireless Control – Hand held remote features an LCD screen with back-lit display, Econo Mode, Powerful Mode, and more.
- Intelligent Eye Technology – Detects movement and automatically changes to an energy saving mode when movement is not detected for over 20 minutes.

Standard Features

- Inverter Compressor
- 208/230/1 Power Supply
- Cooling Operating Range 0°–115° F (With Wind Baffle)
- Heating Operating Range 0°–77° F (w/ Drain Pan Heater)
- Precharged for up to 32 ft of Liquid Line
- Indoor Sound Pressure as Low as 26 dB(A)
- Outdoor Sound Pressures as Low as 48 dB(A)
- Program Dry Function
- Powerful Operation
- Intelligent Eye Occupancy Sensor[†]
- Backlit LCD Wireless Remote Controller
- 3-D Airflow[†]
- Weekly Timer[†]
- Outdoor Unit Quiet Operation
- Auto Changeover
- Auto Fan Speed Control
- Self Diagnostics with Digital Display
- Auto Restart after Power Failure
- Anti-Corrosion Treatment on Heat Exchanger
- Max Piping (09/12 MBH): 66' Length, 49' Height
- Max Piping (15/18/24 MBH): 98' Length, 66' Height

[†] Wall-Mounted Models Only

Ideal Solution For

- Primary living areas (master bedrooms and living rooms)
- Hot or cold rooms
- Rooms with poor air flow
- New construction
- Renovations and remodeling
- Secondary bedrooms, offices, garages, basements, attics, and sun rooms

Comfortable Limited Warranty* Protection

*Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

LV Series — Up to 15.5 SEER/10.4 HSPF

Slim-Duct Units

Comfort Features

- Energy Efficient –Up to 15.5 SEER, 10.5 HSPF and 11.2 EER
- Offers ultra-efficient cooling and heating operation and exceptional savings on utility bills compared to conventional lower-efficiency systems.
- Advanced Filtration – Long life, washable filters remove a wide range of airborne particles and decompose odors, such as those from cooking, painting, smoking and other sources.
- Quiet Operation – LV Slim Duct indoor and outdoor units offer exceptionally low sound levels for premium comfort without the noise.
- Wireless Control – Hand held remote features an LCD screen with back-lit display, Econo Mode, Powerful Mode, and more.

Standard Features

- Inverter Compressor
- 208/230/1 Power Supply
- Cooling Operating Range 0°–115° F (with Wind Baffle)
- Heating Operating Range 0°–77° F (with Drain Pan Heater)
- Precharged for up to 32 ft of Liquid Line
- Indoor Sound Pressure as Low as 26 dB(A)
- Outdoor Sound Pressures as Low as 48 dB(A)

MXS Series — Up to 19.5 SEER/Up to 11.3 HSPF

Multi-Zone Indoor Units

Zoned comfort control

Homeowners fight over temperatures in their homes and have rooms that go unused for long periods. Now they can save energy and control temperatures independently in up to 8 separate zones with a single outdoor unit. With available wall-mounted, concealed slim-duct, and ceiling cassette indoor options, Daikin Multi-Split Systems offer multiple indoor unit styles to meet all home comfort needs.

Comfort Features

- Energy Efficient – Up to 18.9 SEER, up to 12.5 HSPF, and up to 12.7 EER for ultra-efficient cooling and heating operation and exceptional savings on utility bills compared to conventional lower-efficiency systems.
- Advanced Filtration – Long life, washable filters remove a wide range of airborne particles and decompose odors, such as those from cooking, painting, smoking and other sources.
- Wireless Control – Hand held remote features an LCD screen with back-lit display, Econo Mode, Powerful Mode, and more.
- Enhanced Drainpan – MXS Series models feature an enhanced drain pan with optimal drainage for reduced ice build-up in extreme conditions.
- Intelligent eye technology – Daikin brand Multi-Splits offer indoor units equipped with an intelligent eye feature[†] that detects movement and automatically changes to an energy-saving mode when movement is not detected for over 20 minutes. Normal operation resumes once movement is detected, ensuring a comfortable experience and offering savings up to 20% in cooling and up to 30% in heating, compared to units without movement detection.

[†] Available on select models

Standard Features

- Inverter Compressor
- Outdoor Unit Quiet Operation
- 208/230/1 Power Supply
- Auto Fan Speed Control
- Heating Operating Range- 4°–75° F (w/ Drain Pan Heater)
- Self Diagnostics with Digital Display
- Pre-charged for up to 131 ft of Liquid Line
- Outdoor Sound Pressures as Low as 50 dB(A)
- Anti-Corrosion Treatment on Heat Exchanger

Ideal Solution For:

- Entire homes or floors of homes
- Multiple zones
- New construction
- Primary living areas (master bedrooms and living rooms)
- Basements

Comfortable Limited Warranty* Protection

*Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

SkyAir Outdoor Units

Overview

SkyAir is the ultimate ducted and duct-free solution for light commercial and residential whole-house applications. Ranging from 18,000 BTU/h to 42,000 BTU/h, these innovative systems provide energy efficiency, technological reliability, and installation flexibility.

Product Features

- DC fan motor improves efficiency compared to conventional AC motors.
- Aero spiral fan and grille minimizes turbulence and increases sound reduction.
- Reluctance brushless DC compressor
- Long piping lengths up to 230 ft. allow layout flexibility
- Swing compressor with friction reduction and quieter rotation or scroll
- compressor with robust and low sound design provides maximum durability.
- Anti-corrosion treatment on the outdoor heat exchanger

Comfortable Limited Warranty* Protection

*Complete warranty details available from your local dealer or at www.daikincomfort.com.

DACA-WB-4	Wall Condenser Bracket, Powdercoat, 300l b. Capacity — WBB300- 87738
DACA-WB-3	Wall Condenser Bracket, Powdercoat, 500 lb. Capacity — WBB500- 87735
DACA-WB-2	Wall Brackets Kit w/o Bar- 23½ X 16½- 330 lb. cap — Sau
DACA-WB-1	Adj Wall Bracket w/Support Bar- 17½ X 16½ X 31½ — 242 lb. cap- Sau
Linesets - Non-Flared - White PE Style Rugged Linehide - PDM	
DCTLS14121225	LINESET GEL NF ¼ X ½ X ½, 25ft- NF- White Hide (Replaces LS14121210DMSF, LS14121215DMSF)
DCTLS14121235	LINESET GEL NF ¼ X ½ X ½, 35ft- NF- White Hide (Replaces LS14121230DMSF)
DCTLS14121250	LINESET GEL NF ¼ X ½ X ½, 50ft- NF- White Hide (Replaces LS14121250DMSF, LS14121265DMSF, LS141212100DMSF)
DCTLS14381225	LINESET GEL NF ¼ X ¾ X ½, 25ft- NF- White Hide
DCTLS14381235	LINESET GEL NF ¼ X ¾ X ½, 35ft- NF- White Hide
DCTLS14381250	LINESET GEL NF ¼ X ¾ X ½, 25ft- NF- White Hide
DCTLS14581225	LINESET GEL NF ¼ X ¾ X ½, 25ft- NF- White Hide
DCTLS14581235	LINESET GEL NF ¼ X ¾ X ½, 35ft- NF- White Hide
DCTLS14581250	LINESET GEL NF ¼ X ¾ X ½, 50ft- NF- White Hide
DCTLS38581225	LINESET GEL NF ¾ X ¾ X ½, 25ft- NF- White Hide
DCTLS38581235	LINESET GEL NF ¾ X ¾ X ½, 35ft- NF- White Hide
DCTLS38581250	LINESET GEL NF ¾ X ¾ X ½, 50ft- NF- White Hide
Linesets - Flared - Black Rubber - JMF	
LS14381230DMSF	LS ¼ x ¾ x ½ x 30 DMS Flared- Black Rubber Insulation
LS14381250DMSF	LS ¼ x ¾ x ½ x 50 DMS Flared- Black Rubber Insulation
LS14121230DMSF	LS ¼ x ½ x ½ x 30 DMS Flared- Black Rubber Insulation
LS14121250DMSF	LS ¼ x ½ x ½ x 50 DMS Flared- Black Rubber Insulation
LS14121265DMSF	LS ¼ x ½ x ½ x 65 DMS Flared- Black Rubber Insulation
LS14381265DMSF	LS ¼ x ¾ x ½ x 65 DMS Flared- Black Rubber Insulation
LS14581265DMSF	LS ¼ x ¾ x ½ x 65 DMS Flared- Black Rubber Insulation
LS38581265DMSF	LS ¾ x ¾ x ½ x 65 DMS Flared- Black Rubber Insulation
LS141212100DMSF	LS ¼ x ½ x ½ x 100 DMS Flared- Black Rubber Insulation
LS143812100DMSF	LS ¼ x ¾ x ½ x 100 DMS Flared- Black Rubber Insulation
LS145812100DMSF	LS ¼ x ¾ x ½ x 100 DMS Flared- Black Rubber Insulation
