July 1, 2019

**Supply Update of Earlier  
Delivery Dates**

Dear Valued Customer,

Upon the completion of additional assessments of several sterile injectable products to ensure they meet Pfizer's highest standards, we are pleased to announce the earlier than expected delivery of products previously targeted for delivery in August 2019. We restarted the earlier deliveries in late June and products orderable direct from Pfizer are available immediately. Deliveries are expected to be available at the wholesaler for ordering starting the week of July 8, 2019 (depending on location and July 4 holiday schedule). A list of the early delivery impacted product is provided in the attached.

Please be aware that some Pfizer inventory has depleted already (as noted in the Excel attachment) for some products with early delivery dates as we distributed as much of these products as quickly as they became available. Remember, to obtain the most up-to-date information on product availability, download the Availability Report from our [pfizerinjectables.com](http://pfizerinjectables.com) website.

In addition, it is important to note that next deliveries across all Emergency Syringe products (both Ansyr and Abboject Emergency Syringes) continue to be planned for August 2019.

As a major provider of sterile injectable products, Pfizer is committed to ensuring high quality products for healthcare providers and their patients and will continue to keep you informed as new information becomes available.

Please review the most up-to-date information on the Availability Report at our [pfizerinjectables.com](http://pfizerinjectables.com) website, as noted above. Or, feel free to contact our Supply Continuity Team between 7 a.m. and 6 p.m. (CT) to discuss any product availability questions at 1-844-646-4398 (select option 1 [Customer], then option 3 [Supply Continuity Team]).

Please reach out to your Pfizer Injectables sales representative or sales executive if you have any questions.

Thank you,

Caleb Hart  
Sterile Injectables Portfolio Lead  
U.S. Hospital Business Unit

<b>NOTE: Some Pfizer inventory has already depleted after the early delivery</b>
