

Essential Pet Stroller™ Assembly and Care Instructions

Congratulations, you have just purchased the Designer Essential Pet Stroller™ from RadioFence.com. This stroller has been custom designed with great care by Essential Pet Products for your use and pleasure. Your stroller is made of a metal frame and the carrier of durable resin materials that are stylish and durable.

Assembly:

Your pet stroller is easy to assemble and requires no additional tools, everything is provided.

Included in each carton:

- (1) Rear Wheel Assembly
- (2) Front Wheels
- Stroller Frame
- Pet Carrier
- (2) Support Strips

Attention:

Please read these instructions carefully before assembly

Assembly Instructions

1. Carefully remove the stroller from the carton.
2. Unfold stroller and put the carrier on the frame. Please note that the underside of the carrier includes straps that fasten the carrier to the frame. Never put the carrier on the frame without fastening the straps as the carrier could fall off the stroller and injure your pet.

3. Snap the support strip inside the carrier, which will give the carrier the support it needs to hold your pet inside the carrier.
4. Close the zipper on the carrier.

5. Slide the back wheel assembly onto the back legs and push firmly until the assembly locks in place.
6. Slide the front wheel assembly onto the front leg and push firmly until the assembly locks in the place.

Cleaning:

Your Essential Pet Stroller™ carrier is made of specially formulated resin, which is washable with a damp cloth. Do not use abrasives or bleach on the stroller or carrier and make sure you rinse the stroller off properly before using again. All metal parts should be dried off after cleaning to avoid rusting.

Owners Notice:

1. This product is exclusively designed by Essential Pet Products to be used for domestic pets and should not be used for any other use.
2. This product is not suitable for teething animals or pets with chewing problems.
3. The purchaser assumes all responsibility for pet care and safety. Do not leave animals for extended periods in the carrier or in environments that could expose pets to excessive and dangerous temperature levels.
4. Never leave your stroller unattended with your pet in the carrier.
5. The carrier is designed for domestic pets that do not exhibit aggressive behavior and is not intended to be used as a crate.
6. RadioFence.com assumes no responsibility for injuries or incidents to pets or persons involving the use of this product.
7. Carrier will meet most airline guidelines for carry on use. Check with your airline prior to your flight to make sure it meets their guidelines. Stroller frame will usually need to be gate checked.
